

§ 1412.4

Target price means, for peanuts, the price per ton; and for covered commodities, the price per bushel (or other appropriate unit in the case of upland cotton, rice, and other oilseeds) used to determine the payment rate for counter-cyclical payments.

§ 1412.4 Appeals.

A participant may obtain reconsideration and review of any adverse determination made under this part in accordance with the appeal regulations found at parts 11 and 780 of this title.

Subpart B—Establishment of Base Acres for a Farm for Covered Commodities

§ 1412.21 Election of base acres.

(a) Subject to adjustments in paragraph (b) of this section, base acres for covered commodities and peanuts are as defined in §1412.3.

(b) No later than April 1, 2009, owners on a farm may establish base acres for pulse crops.

(1) Subject to the limitations in accordance with paragraph (d) of this section and §1412.24, the base acres for pulse crops are equal to the sum of the following:

(i) The 4-year average of the acreage planted or prevented planted to the pulse crops during each of the 1998 through 2001 crop years for harvest, grazing, haying, silage, or other similar purposes, as determined by the Secretary, plus

(ii) The 4-year average of the acreage prevented from being planted to covered commodities during each of the 1998 through 2001 crop years, for reasons beyond the control of the producer, as determined by the Deputy Administrator.

(c) Subject to paragraph (d) of this section, the total acreage of a pulse crop on the farm calculated in accordance with paragraph (b) of this section must not exceed:

(1) The total acreage of cropland on the farm minus

(2) The total acreage for all covered commodities, peanut, and other pulse crops determined in accordance with paragraphs (a) and (b) of this section.

(d) If the calculation in paragraph (c) of this section results in a negative

number, the pulse crop acreage on the farm for that crop year will be zero for the purposes of determining the 4-year average, in accordance with paragraph (b) of this section. Further, no prevented planning credit or other base credit may be allowed for a pulse crop for any planting activity for which base credit was allowed or will be allowed for another commodity.

(e) If the acreage planted or prevented from being planted was devoted to a different covered commodity in the same crop year (other than a covered commodity or pulse crops produced under an established practice of double-cropping), the owner may select the commodity to be used for base purposes for that crop year in determining the 4-year average, but may not select both the initial commodity and subsequent commodity.

(f)(1) An owner may increase the eligible acres of pulse crops on a farm by reducing the acreage of covered commodities and peanuts determined in accordance with paragraphs (a) and (b) of this section for one or more covered commodities on an acre-for-acre basis, except that the total base acres for pulse crops on the farm may not exceed the four-year average of pulse crops determined under paragraph (b) of this section.

(2) For the purpose of determining a 4-year average acreage for a farm under this section, any crop year in which a pulse crop was not planted or prevented planted will be excluded.

§ 1412.22 Failure to make pulse crop election.

If an owner fails to make an election for establishing pulse crop base acres on a farm by April 1, 2009, in accordance with §1412.21, that owner will be deemed to have made the election to determine all base acres for all covered commodities and peanuts on the farm as set forth in §1412.21.

§ 1412.23 Base acres and Conservation Reserve Program.

(a) Subject to paragraphs (b) and (c) of this section, eligible producers may, at the beginning of each fiscal year, adjust the base acres for covered commodities and peanuts with respect to the farm by the number of production
