

§ 1427.22

7 CFR Ch. XIV (1-1-10 Edition)

obligation under the loan through forfeiture of the cotton to CCC.

(f) CCC will pay to the warehouse any unpaid storage or receiving charges for forfeited loan collateral, not to exceed the amount that accrued from the date that all necessary documents were received by CCC to the loan maturity date, as soon as practicable after the cotton is forfeited.

[67 FR 64459, Oct. 18, 2002, as amended at 68 FR 49329, Aug. 18, 2003; 71 FR 32427, June 6, 2006; 73 FR 65721, Nov. 5, 2008]

§ 1427.22 Commodity certificate exchanges.

(a) For any outstanding marketing assistance loan provided for upland cotton, a producer may purchase a commodity certificate and exchange that commodity certificate for the marketing assistance loan collateral. This provision terminates effective ending with the 2009 crop and will not be available for subsequent crops.

(b) The exchange rate is the lesser of:

(1) The loan rate and charges, plus interest applicable to the loan, or

(2) The adjusted world price for cotton as determined by CCC.

(c) Producers must request a commodity certificate exchange in person at the FSA county service center that disbursed the marketing assistance loan by:

(1) Completing a written request as CCC determines,

(2) Purchasing a commodity certificate for the exact amount required to exchange the marketing assistance loan collateral, and

(3) Immediately exchanging the purchased commodity certificate for the outstanding loan collateral.

[67 FR 64459, Oct. 18, 2002, as amended at 73 FR 65722, Nov. 5, 2008]

§ 1427.23 Cotton loan deficiency payments.

(a) In order to be eligible to receive such loan deficiency payments, the producer of the upland cotton must:

(1) Comply with all of the upland cotton marketing assistance loan eligibility requirements under this subpart;

(2) Agree to forgo obtaining such loans unless denied a loan deficiency payment due to payment limitation;

(3) Submit, on a form prescribed by CCC, to the FSA Service Center on or before beneficial interest is lost in such quantity and before the final loan availability date for the commodity:

(i) An indication of their intentions to receive a loan deficiency payment on the identified commodity or

(ii) A completed request for a loan deficiency payment for a quantity of eligible cotton under §1427.5(a).

(4) Provide warehouse receipts or, as determined by CCC, a list of gin bale numbers for such cotton showing, for each bale, the net weight established at the gin;

(5) For loan deficiency payments requested before ginning of the cotton based on a locked-in adjusted world price, provide identifying numbers for modules or other storage units that will correspond to the gin-assigned numbers of the bales produced from the unginned cotton; and

(6) Otherwise comply with all program requirements.

(b) The loan deficiency payment applicable to a crop of cotton shall be computed by multiplying the applicable loan deficiency payment rate, as determined under paragraph (c) of this section, by the quantity of the crop the producer is eligible to pledge as collateral for a loan, excluding any quantity for which the producer obtains a marketing assistance loan.

(c) The loan deficiency payment rate for a crop of upland cotton shall be the amount by which the loan rate determined for a bale of such crop exceeds the adjusted world price, as determined by CCC under §1427.25, in effect on the day the request is received by, the county office, loan servicing agent, or cotton commercial bank. In no case shall the loan deficiency payment rate for a bale exceed the value of the bale had it been pledged as collateral for a marketing assistance loan.

(d) The total amount of any loan deficiency payments that a person may receive is subject to part 1400 of this chapter.

(e) If the producer enters into an agreement with CCC on or before the date of ginning a quantity of eligible upland cotton, and the producer has the beneficial interest in such quantity as specified under §1427.5(c) on the date

the cotton was ginned, and the producer meets all the other requirements in paragraph (a) of this section on or before the final date to apply for a loan deficiency payment under §1427.5, the loan deficiency payment rate applicable to such cotton will be:

(1) Based on the date the cotton was ginned, which CCC will consider to be the date of the LDP request, if payment application is made in the manner prescribed by CCC for obtaining such rate;

(2) Based on the date of request for lock-in of the adjusted world price if payment application is made in the manner prescribed by CCC for obtaining such rate; or

(3) Based on the date a completed request including production evidence is submitted in the manner prescribed by CCC for obtaining such rate.

(f) In the event that Thursday is a non-workday, such applications for loan deficiency payments will not be accepted beginning at 7 a.m. Eastern time the next workday until an announcement of the adjusted world price for the succeeding weekly period has been made under §1427.25(e).

[67 FR 64459, Oct. 18, 2002, as amended at 71 FR 32427, June 6, 2006; 73 FR 65722, Nov. 5, 2008]

§ 1427.24 [Reserved]

§ 1427.25 Determination of the prevailing world market price and the adjusted world price for upland cotton.

(a) CCC will determine the world market price for upland cotton as follows:

(1) During the period when only one daily price quotation is available for each growth quoted for Middling one and three-thirty-second inch (M 1³/₃₂-inch) cotton, CFR (cost and freight) Far East, the prevailing world market price for upland cotton will be based on the average of the quotations for the preceding Friday through Thursday for the 5 lowest-priced growths of the growths quoted for M 1³/₃₂-inch cotton, CFR Far East.

(2) During the period when both a price quotation for cotton for shipment no later than August/September of the current calendar year (current Far

East shipment price) and a price quotation for cotton for shipment no earlier than October/November of the current calendar year (forward Far East shipment price) are available for growths quoted for M 1³/₃₂-inch cotton, CFR Far East, the prevailing world market price for upland cotton will be based on the average of the current Far East shipment prices for the preceding Friday through Thursday for the 5 lowest-priced growths of the growths quoted for M 1³/₃₂-inch cotton, CFR Far East, except as may be determined by the Secretary as specified in paragraph (c)(3)(iv) of this section.

(3) The upland cotton prevailing world market price determined as specified in paragraphs (a)(1) or (a)(2) of this section is referred to as the "Far East price" (FE).

(4) If quotes are not available for 1 or more days in the 5-day period, the available quotes during the period will be used. If no quotes are available during the Friday through Thursday period, the prevailing world market price will be based on the best available world price information, as CCC determines.

(b) The upland cotton prevailing world market price, adjusted as specified in paragraph (c) of this section (adjusted world price (AWP)), will apply to the 2008 through 2012 crops of upland cotton and to the 2007 crop to the extent provided in §1427.1.

(c) The upland cotton AWP will equal the FE determined as specified in paragraph (a) of this section, adjusted as follows:

(1) FE will be adjusted to U.S. location by deducting the average costs to market, including average transportation costs, as determined by the Secretary.

(2) The price determined as specified in paragraph (c)(1) of this section will be adjusted to reflect the price of base quality upland cotton by deducting the difference, as CCC announces, between the applicable loan rate for an upland cotton crop for M 1 3/32-inch, leaf 3, (micronaire 3.5 through 3.6 and 4.3 through 4.9, strength 25.5 through 29.4 grams per tex, length uniformity 79.5 through 82.4 percent) cotton and the loan rate for base quality upland cotton.
