**§ 1430.206 [Reserved]**

**§ 1430.207 Dairy operation payment quantity.**

(a) The applicant's payment quantity of milk will be determined by CCC, based on the quantity of milk that was produced and commercially marketed by each dairy operation per fiscal year.

(b) The maximum quantity of eligible production for which dairy operations, per separate and distinct operation, are eligible for payment per fiscal year under this subpart will be:

(1) 2,400,000 pounds (24,000 cwt.) for FY 2008 (October 1, 2007, through September 30, 2008);

(2) 2,985,000 pounds (29,850 cwt.) for FY 2009 (October 1, 2008 through September 30, 2009), FY 2010 (October 1, 2009, through September 30, 2010), FY 2011 (October 1, 2010, through September 30, 2011) and FY 2012 (October 1, 2011, through September 30, 2012), provided further an operation may receive payment for September, 2012, marketings only if its pre-September FY 2012 marketings did not exceed 2,400,000 pounds in which case new marketings that would not put the operation's FY 2012 marketings over 2,400,000 pounds will be eligible for payments otherwise permitted in this rule.

(c) In accordance with these regulations, the Deputy Administrator will determine what is a separate and distinct operation. That decision will be final

**§ 1430.208 Payment rate and dairy operation payment.**

(a) Payments under this subpart may be made to dairy operations when the Boston Class I milk price under the applicable Federal milk marketing order is below \$16.94 per cwt. No payments will be made to dairy operations for

marketings during the months that the Boston Class I milk price under the applicable milk marketing order is equal to or exceeds \$16.94.

(b) A per-hundredweight payment rate will be determined for the applicable month by:

(1) Subtracting from \$16.94 the Class I milk price per cwt. in Boston;

(2) Multiplying the difference by 34 percent for marketings during the period beginning on October 1, 2007, and ending on September 30, 2008;

(3) Multiplying the difference by 45 percent for marketings during the period beginning on October 1, 2008, and ending on August 31, 2012; and

(4) Multiplying the difference by 34 percent for marketings in September 2012.

(c) The payment rate as calculated as specified in paragraph (b) of this section, will be adjusted to compensate for feed prices when the National Average Dairy Feed Ration Cost for a month is greater than the levels set in paragraphs (c)(1) and (c)(2) of this section. The National Average Dairy Feed Ration Cost per cwt. for each month will be calculated using the same procedures used to calculate the feed components of the estimated price of 16 percent Mixed Dairy Feed per pound noted on page 33 of the USDA monthly Agricultural Prices publication (including the data and factors noted in footnote 4). The payment rate adjustment for Entire Month feed prices will be determined by increasing \$16.94 by the percentage that is 45 percent of the percentage by which the National Average Dairy Feed Ration Cost exceeds \$7.35 per cwt. (except that \$7.35 will be \$9.50 for September 2012 marketings.)

(d) Each eligible dairy operation payment will be calculated, as determined by the Secretary, by:

(1) Converting whole pounds of milk to hundredweight and

(2) Multiplying the payment rate determined in paragraphs (b) and (c) of this section by the quantity of eligible production marketed by the operation during the applicable month as determined according to § 1430.205 and other provisions of this subpart.

(3) Payments to dairy operations will be based on calculated payment rates

rounded seven places to the right of the decimal.

(e) Payments under this subpart may be made to a dairy operation only up to the maximum production limitations set in § 1430.207(b) of eligible production per applicable fiscal year.

(f) Dairy operations receiving benefits under this subpart, will receive earned payments on a monthly basis according to the MILC contract, to the extent practicable, not later than 60 days after the later of production evidence and all supporting documents for the applicable month are received by CCC or the entire month National Average Dairy Feed Ration Cost is made available by USDA, as applicable. Payments issued by CCC more than 60 days after the later of all production evidence and supporting documentation are received by CCC or the entire month National Average Dairy Feed Ration Cost is made available by USDA, whichever is later, will be subject to prompt payment interest as allowed by law. However, CCC will endeavor where possible to make payments within 60 days of the end of the marketing month.

### § 1430.209 Proof of market loss production.

(a) A dairy operation entering into a MILC must, based on instructions issued by the Deputy Administrator, provide adequate proof of the dairy operation's eligible production during the months of each fiscal year designated in the MILC. The dairy operation must also provide proof that the eligible production was commercially marketed during the months beginning October 1, 2007, and ending September 30, 2012. Evidence of milk production claimed for payment shall be provided to CCC with supporting documentation under paragraph (b) of this section. All information provided is subject to verification, spot check and audit by FSA. Further verification information may be obtained from the dairy operation's milk handler or marketing cooperative if deemed necessary by CCC to verify provided information. Refusal to allow a representative of CCC or any

other agency of the Department of Agriculture to verify any information provided will result in a determination of ineligibility for benefits under this subpart.

(b) Eligible dairy operations marketing milk during the period specified in the MILC shall provide any available supporting documents from all producers in the dairy operation to assist CCC in verifying that the dairy operation produced and marketed milk commercially from the designated starting month and thereafter. Examples of supporting documentation include, but are not limited to: milk marketing payment stubs, tank records, milk handler records, daily milk marketings, copies of any payments received as compensation from other sources, or any other documents available to confirm the production and production history of the dairy operation. Producers may also be required to allow CCC to examine the herd of cattle as production evidence. If supporting documentation requested is not presented to CCC or FSA, the request for MILC benefits will be disapproved.

### § 1430.210 MILC agents.

(a) MILC benefits may be disbursed by a dairy marketing cooperative that serves special groups or communities, such as an Amish or Mennonite community. Producers in such groups in a dairy operation may authorize an agent of a dairy cooperative or milk handler affiliated with such cooperative to obtain and disburse MILC benefits to the dairy operation.

(b) The authorized MILC agent must on behalf of the dairy operation do the following:

(1) Obtain an acceptable power of attorney or acceptable equivalent for the producers of the dairy operation that authorizes the agent to enter into an MILC contract;

(2) Enter into a written agreement with CCC for approval to act as a MILC agent on a form prescribed by CCC;

(3) Provide the dairy operation's monthly production evidence to the appropriate FSA office;
