be reassigned to imports of raw cane sugar.

(f) The crop year allocation of each sugar beet or sugarcane processor who receives a reassignment will be increased accordingly for that year.

§ 1435.311 Proportionate shares for sugarcane producers.

(a) Proportionate shares and the provisions of this section and §§1435.312 through 1435.316 apply only to Louisiana sugarcane farms.

(b) CCC will determine whether Louisiana sugar production, in the absence of proportionate shares, will exceed the quantity needed to enable processors to fill the State cane sugar allotment and provide a normal carryover inventory. If the determination is made that the quantity of sugar produced in Louisiana, plus a normal carryover inventory, will exceed the State’s allotment, CCC will establish for each sugarcane producing farm a proportionate share that limits the sugarcane acreage that may be harvested on the farm for sugar or seed.

(c) For purposes of determining proportionate shares CCC will:
§ 1435.312 Establishment of acreage bases under proportionate shares.

(a) CCC will establish a sugarcane crop acreage base for each farm subject to proportionate shares as the simple average of the acreage planted and considered planted for harvest for sugar or seed (meaning only those varieties dedicated to the production of sugarcane to produce sugar for human consumption) on the farm in the 2 highest of the 1999 through 2001 crop years. Acreage considered planted shall be determined under §1435.315.

(b) In establishing crop acreage bases, CCC will:

(1) Not consider acreage prevented from planting, and

(2) Consider acreage planted to sugarcane that fails.

(c) In establishing crop acreage bases, CCC will allow producers who have not previously reported their sugarcane acreage to do so by a date CCC determines and announces. Late-filed acreage reports will be accepted as the Deputy Administrator determines appropriate.

(d) The farm’s crop acreage base shall be used to determine the farm’s proportionate share.

(e) The regulations at part 718 of this title shall apply to this subpart, except reconstitution of farms with a sugar crop acreage base shall not be allowed across State lines.

[67 FR 54928, Aug. 26, 2002, as amended at 74 FR 15367, Apr. 6, 2009]

§ 1435.313 Permanent transfer of acreage base histories under proportionate shares.

(a) A sugarcane producer on a farm may transfer all or a portion of the producer’s acreage base history of land owned, operated, or controlled to any other farm in the State that the producer owns, operates, or controls under the Deputy Administrator-issued instructions. The transfer will reduce permanently the transferring farm’s sugarcane acreage base history and increase the receiving farm’s crop acreage base.

(1) All farm owners must agree in writing to the transfer.

(2) Producers may transfer sugarcane acreage base histories under this section by the date the State FSA committee establishes annually.

(b) Sugarcane acreage base that has been converted to nonagricultural use on or before May 13, 2002, may be transferred to other land suitable for the production of sugarcane under the following terms:

(1) CCC must notify 1 or more affected landowners within 90 days of becoming aware of the conversion, of their rights to transfer the base to 1 or more farms owned by the landowner;

(2) The landowner has 90 days from the date the landowner was notified to transfer the base;

(3) If the landowner does not exercise this transfer right, the grower of record will have 90 days after being notified by CCC to transfer the base to 1 or more farms owned by the grower;

(4) If the transfers as specified under paragraphs (b)(2) or (3) of this section are not accomplished during the specified periods, FSA county committee will place the base into a pool for possible reassignment to other farms;

(5) After providing notice to farm owners, operators and growers of record in the county, the committee will accept requests from farm owners, operators, and growers in the county;

(6) The county committee will assign the base to other sugarcane farms in
