§ 1437.504 Notice of loss for covered tropical crops.

(a) The provisions of §1437.10(c) regarding late filed notice of loss do not apply to covered tropical crops.

(b) Where a notice of loss for covered tropical crops is provided according to §1437.10, producers must provide records maintained according to §1437.503(c) of the:

(1) Number of acres or other basis of measurement, as applicable, of the crop from which production could be achieved existing on the day the eligible natural disaster occurred or, for prolonged natural disasters, such as a drought and similar damage where applicable, existing on the day the notice of loss is filed.

(2) Amount, including zero, as applicable, of production harvested, before or after the disaster, from those crop plantings (damaged or undamaged) which were in existence on the farm at the time of the disaster including production from the covered plantings (in existence at the time of the loss event) that may occur after the loss event even when, to the extent provided for in paragraph (c) of this section, the harvest occurs after the end of the crop year. Crop acreage of the covered crop that is in existence at the time of the loss event that can be harvested after the eligible natural disaster must be harvested, or continue to be harvested, and the harvested acres and production reported to FSA according to this subpart, except that for perennial crops the requirement ends with the end of the crop year. For non-perennial crops the obligation to harvest ends with the end of the life-cycle for the plantings that were in existence at the time of the loss event. In this regard:

(i) Except as otherwise determined by FSA, such production, before or after the loss event, will be taken into account in computing eligibilities.

(ii) Production that must be reported under paragraph (b)(2)(i) of this section includes, except in the case of perennial plants, all production irrespective of whether the production occurs in the same crop year.

(iii) For perennial plants, only production in the same crop year must be reported.

(iv) All production that must be reported for covered tropical crops will, except as specified by the Deputy Administrator, be taken into account in the loss determinations made under this part. The producer is obligated to maximize that production. That is, harvesting and other production activities for the plants in the ground at the time of the disaster must be undertaken or continue to be undertaken, to the maximum extent possible, for the full reporting period, that being the period for which production could count against a loss as indicated in this subpart.

(3) Failure to keep sufficient records to allow the computations provided for
§ 1437.505 Application for payment for the tropical region.

(a) For producers of covered tropical crops in Guam, Virgin Islands, American Samoa, and the Commonwealth of the Northern Mariana Islands, the Republic of the Marshall Islands, the Federated States of Micronesia, and the Republic of Palau, an application for payment must be filed at the same time as the filing of the notice of loss required under §§1437.10 and 1437.504.

(b) For producers in Puerto Rico and Hawaii, an application for payment for such crops must be filed by the later of:

(1) The date on which the notice of loss is filed in accordance with §§1437.10 and 1437.502(i), and

(2) The date of the completion of harvest for the specific crop acreage that existed at the time of loss for which the notice of loss was filed.
