

**§ 1486.207 What is the Technical Issues Resolution Fund?**

(a) This fund was established to address technical barriers to trade in emerging markets worldwide by providing technical assistance, training, and exchange of expertise. These include plant quarantine, animal health, food safety, and other technical barriers to U.S. exports based on unsound or incomplete scientific information.

(b) Funding priorities are principally those issues that are time sensitive and are strategic areas of longer term interest. Funding decisions are determined primarily through a review process that includes FAS and relevant regulatory agencies. The review is based upon the following criteria:

- (1) The activity occurs in an eligible country or region of market priority;
- (2) The trade constraint warrants intervention;
- (3) The proposed activity is likely to achieve an impact in the short-or long-term;
- (4) The Recipient is qualified to undertake the proposed activity;
- (5) The budget requested is reasonable and includes leveraged resources;
- (6) If applicable, a U.S. domestic constraint or trade issue can be resolved in support of a proposed activity; and
- (7) The activity has support from USDA field offices.

(c) Because of the time sensitive nature of the issues intended to be addressed by these funds, proposals, whether private or government, may be submitted at any time during the year. Reviews of proposals are scheduled on a monthly basis. An expedited review may be requested but must be justified.

(d) Application content, evaluation, and reporting requirements are the same as for the Central Fund.

**§ 1486.208 How does an entity apply to the program?**

CCC will periodically announce that it is accepting proposals for participation in the EMP. All relevant information, including application deadlines (for the Central Fund) and proposal content, will be noted in the announcement, and proposals must be submitted in accordance with the terms and requirements specified in the announcement. CCC may request any additional

information it deems necessary from any applicant in order to evaluate properly any proposal.

**§ 1486.209 How are program applications evaluated and approved?**

(a) *General.* Proposals received by the application deadline stated in the announcement for the Central Fund undergo a multi-phase review by FAS staff and the EMP Advisory Committee to determine qualifications, quality and appropriateness of projects, and reasonableness of project budgets.

(b) *Evaluation criteria.* FAS will consider a number of factors when reviewing proposals, including:

- (1) The ability of the entity to provide an experienced U.S.-based staff with knowledge and expertise to ensure adequate development, supervision, and execution of the proposed project;
- (2) The entity's willingness to contribute resources, including cash and goods and services of the U.S. industry, with greater weight given to cash contributions (for private sector proposals only);
- (3) The conditions or constraints affecting the level of U.S. exports and market share for the agricultural commodity/product;
- (4) The degree to which the proposed project is likely to contribute to the development, maintenance, or expansion of U.S. agricultural exports to emerging markets;
- (5) Demonstration of how a proposed project will benefit a particular industry as a whole; and
- (6) Past program results and evaluations, if applicable.
- (7) The following priority technical assistance activities:

(i) Projects and activities which use technical assistance designed specifically to improve market access in emerging markets such as activities intended to mitigate the impact of sudden political events or economic and currency crises in order to maintain U.S. market share;

(ii) Marketing and distribution of value-added products, including new products or new uses. Examples include food service development, market research on potential for consumer-ready foods or new uses of a product, and export feasibility studies.
