§ 1493.240

paragraphs (a)(15) and (a)(16) of this section from paragraph (a)(14) of this section;

(18) The maximum guaranteed value under the facility payment guarantee determined by multiplying the facility base value listed in paragraph (a)(17) of this section by the guarantee rate of coverage announced by CCC in §1493.260(b)(3);

(19) A map or other description of the facility’s location and distance from major population centers of neighboring countries;

(20) For all principal agricultural commodities or products (inputs) to be handled, marketed, processed, stored, or distributed, by the proposed project after completion, provide:

(i) A list or table identifying such principal inputs;

(ii) The likely countries of origin for each input;

(iii) Estimated annual quantities, in metric tons, of each input listed in paragraph (a)(20)(i) of this section to be used by the project for five years from the final date of export or until the expiration of the facility payment guarantee, whichever comes first; and

(iv) An analysis, including price, cost, and other assumptions (the reasons why U.S. agricultural commodities or products will be more competitive inputs than commodities or products from other sources, and whether the projected use of U.S. agricultural commodities or products depends on the availability of U.S. export bonus or credit guarantee programs), of which inputs listed in paragraph (a)(20)(i) of this section will represent increased imports of U.S. agricultural commodities or products:

(A) To a greater degree than imports of agricultural commodities or products from other countries;

(B) To or at levels significantly above those expected in the absence of the project; and

(C) For a period of five years from the final date of export or until expiration of the facility payment guarantee, whichever comes first.

(21) If applicable, a list of agricultural outputs or final products of the proposed project and:

(i) Projected annual quantities (for five years or until the expiration of the facility payment guarantee, whichever comes first), in metric tons, of each output to be marketed:

(A) Within the emerging market; and

(B) In any other country;

(ii) Quantities, by country of origin, of products imported into the emerging market during the past year which would compete with such outputs; and

(iii) An analysis of whether products of the project will significantly displace U.S. exports of similar agricultural commodities or products in any market;

(22) If applicable, a description of any arrangements or understandings with other U.S. or foreign government agencies, or with financial institutions or entities, private or public, providing financing to the exporter in connection with this export sale, and copies of any documents relating to such arrangements;

(23) A description of the exporter’s experience selling goods or providing services similar to those for which the exporter seeks to obtain facility payment guarantee coverage;

(24) A statement of how this project may encourage privatization of the agricultural sector, or benefit private farms or cooperatives, in the emerging market. Include in the statement the share of private sector ownership of the project;

(25) The exporter’s signature.

(b) Application fee. The exporter shall pay the application fee specified in the program announcement at the time the application is submitted. An application will not be considered without payment of the specified fee. The application fee is nonrefundable.

(c) Letter of preliminary commitment. CCC will determine whether, in its judgment, the project in connection with which the exporter seeks a facility payment guarantee is likely to increase exports of U.S. agricultural commodities or products to an emerging market; and whether the project is likely to benefit primarily U.S. agricultural commodities or products as opposed to commodities or products originating in other countries. If necessary, CCC may seek additional information from an applicant prior to making its determination. If CCC determines that an application meets
