190 Accumulated Deferred Income Taxes

A. This account shall be debited and Account 411.1, Provision for Deferred Income Taxes—Credit, Utility Operating Income, or Account 411.2, Provision for Deferred Income Taxes—Credit, Other Income and Deductions, as appropriate, shall be credited with an amount equal to that by which income taxes payable for the year are higher because of the inclusion of certain items in income for tax purposes, which items for general accounting purposes will not be fully reflected in the utility's determination of annual net income until subsequent years.

B. This account shall be credited and Account 410.1, Provision for Deferred Income Taxes, Utility Operating Income, or Account 410.2, Provision for Deferred Income Taxes, Other Income and Deductions, as appropriate, shall be debited with an amount equal to that by which income taxes payable for the year are lower because of prior payment of taxes as provided by Paragraph A above, because of difference in timing for tax purposes of particular items of income or income deductions from that recognized by the utility for general accounting purposes. Such credit to this account and debit to Account 410.1 or Account 410.2 shall, in general, represent the effect on taxes payable in the current year of the smaller amount of book income recognized for tax purposes as compared to the amount recognized in the utility's current accounts with respect to the item or class of items for which deferred tax accounting by the utility was authorized by RUS.

C. Vintage year records with respect to entries to this account, as described above, and the account balance, shall be so maintained as to show the factor of calculation with respect to each annual amount of the item or class of items for which deferred tax accounting by the utility is utilized.

D. The utility is restricted in its use of this account to the purpose set forth above. It shall not make use of the balance in this account or any portion thereof except as provided in the text of this account, without prior approval of RUS. Any remaining deferred tax account balance with respect to an amount for any prior year's tax deferral, the amortization of which or other recognition in the utility's income accounts has been completed, or other disposition made, shall be debited to Account 410.1, Provision for Deferred Income Taxes, Utility Operating Income, or Account 410.2, Provision for Deferred Income Taxes, Other Income and Deductions, as appropriate, or otherwise dis-

A. This account shall include the change in the fair value of derivative instrument liabilities designated by the utility as cash flow or fair value hedges.

A. This account shall include the amounts of regulatory liabilities, not includible in other accounts, imposed on the utility by the ratemaking actions of regulatory agencies.

B. The amounts included in this account are to be established by those credits which would have been included in net income, or

accumulated other comprehensive income, determinations in the current period under the general requirements of the Uniform System of Accounts but for it being probable that: (1) Such items will be included in a different period(s) for purposes of developing the rates that the utility is authorized to charge for its utility services; or (2) refunds to customers, not provided for in other accounts, will be required. When specific identification of the particular source of the regulatory liability cannot be made or when the liability arises from revenues collected pursuant to tariffs on file at a regulatory agency, Account 407.3, Regulatory Debits, shall be debited. The amounts recorded in this account generally are to be credited to the same account that would have been credited if included in income when earned except: (1) All regulatory liabilities established through the use of Account 407.3 shall be credited to Account 407.4, Regulatory Credits; and (2) in the case of refunds, a cash account or other appropriate account should be credited when the obligation is satisfied.

C. If it is later determined that the amounts recorded in this account will not be returned to customers through rates or refunds, such amounts shall be credited to Account 421, Miscellaneous Nonoperating Income, or Account 434, Extraordinary Income, as appropriate, in the year such determination is made.

D. The records supporting the entries to this account shall be kept in such a manner that the utility can furnish full information as to the nature and amount of each regulatory liability included in this account, including justification for inclusion of such amounts in this account.

**255 Accumulated Deferred Investment Tax
Credits**

A. This account shall be credited with all investment tax credits deferred by companies which have elected to follow deferral accounting, partial or full, rather than recognizing, in the income statement, the total benefits of the tax credit as realized. After such election, a company may not transfer amounts from this account, except as authorized herein and in Account 411.4, Investment Tax Credit Adjustments, Utility Operations; Account 411.5, Investment Tax Credit Adjustments, Nonutility Operations; and Account 420, Investment Tax Credits, or with approval of RUS.

B. Where the company's accounting provides that investment tax credits are to be passed on to customers, this account shall be debited and Account 411.4 credited with a proportionate amount determined in relation to the average useful life of electric utility property to which the tax credits relate or such lesser period of time as allowed

§ 1767.19

by a regulatory agency having rate jurisdiction. If, however, the deferral procedure provides that investment tax credits are not to be passed on to customers, the proportionate restorations to income shall be credited to Account 420.

C. Subdivisions of this account, by department, shall be maintained for deferred investment tax credits that are related to non-electric utility or other operations. Contra entries affecting such account subdivisions shall be appropriately recorded in Account 413, Expenses of Electric Plant Leased to Others; or Account 414, Other Utility Operating Income. Use of deferral or nondeferral accounting procedures adopted for nonelectric utility or other operations are to be followed on a consistent basis.

D. Separate records for electric and non-electric utility or other operations shall be maintained identifying the properties giving rise to the investment tax credits for each year with the weighted-average service life of such properties and any unused balances of such credits. Such records are not necessary unless the tax credits are deferred.

256 Deferred Gains from Disposition of Utility Plant

This account shall include gains from the sale or other disposition of property previously recorded in Account 105, Electric Plant Held for Future Use, under the provisions of Paragraphs B, C, and D thereof, where such gains are significant and are to be amortized over a period of 5 years, unless otherwise authorized by RUS. The amortization of the amounts in this account shall be made by credits to Account 411.6, Gains from Disposition of Utility Plant. (See Account 105, Electric Plant Held for Future Use.)

257 Unamortized Gain on Reacquired Debt

This account shall include the amounts of discount realized upon reacquisition or redemption of long-term debt. The amounts in this account shall be amortized in accordance with §1767.15 (q).
