

§ 1794.25

rating). All new associated facilities and related electric power lines shall be covered in any EA or EIS that is prepared.

(c) *Telecommunications and water and waste programs.* There are no actions normally falling within this classification.

[63 FR 68655, Dec. 11, 1998, as amended at 68 FR 45159, Aug. 1, 2003]

§ 1794.25 Proposals normally requiring an EIS.

Applications for financial assistance for certain proposed actions that may significantly affect the quality of the human environment shall require the preparation of an EIS.

(a) *Electric program.* An EIS will normally be required in connection with proposed actions involving the following types of facilities:

(1) New electric generating facilities of more than 50 MW (nameplate rating) other than fuel cell, combustion turbine, combined cycle, or diesel generators. All new associated facilities and related electric power lines shall be covered in the EIS; and

(2) A new mining operation when the applicants have effective control (e.g., dedicated mine or purchase of a substantial portion of the mining equipment).

(b) Proposals listed above are subject to the requirements of §§ 1794.60, 1794.61, 1794.63, and 1794.64. Preparation of a supplemental draft or final EIS in accordance with 40 CFR 1502.9 shall be subject to the requirements of §§ 1794.62 and 1794.64.

(c) *Telecommunications and water and waste programs.* No groups or sets of proposed actions normally require the preparation of an EIS. The environmental review process, as described in this part, shall be used to identify those proposed actions for which the preparation of an EIS is necessary. If an EIS is required, RUS shall proceed directly to its preparation. Prior completion of an EA is not mandatory.

[63 FR 68655, Dec. 11, 1998, as amended at 68 FR 45159, Aug. 1, 2003]

7 CFR Ch. XVII (1–1–10 Edition)

§§ 1794.26–1794.29 [Reserved]

Subpart D—Procedure for Categorical Exclusions

§ 1794.30 General.

The procedures of this subpart which apply to proposed actions classified as CEs in §§ 1794.21 and 1794.22 provide RUS with information necessary to determine if the proposed action meets the criteria for a CE. Where, because of extraordinary circumstances, a normally categorically excluded action may have a significant effect on the quality of the human environment, RUS may require additional environmental documentation.

§ 1794.31 Classification.

(a) *Electric and telecommunications programs.* RUS will normally determine the proper environmental classification of projects based on its evaluation of the project description set forth in the construction work plan or loan design which the applicant is required to submit with its application for financial assistance. Each project must be sufficiently described to ensure its proper classification. RUS may require the applicant to provide additional information on a project where appropriate.

(b) *Water and waste program.* RUS will normally determine the proper environmental classification for projects based on its evaluation of the preliminary planning and design information.

§ 1794.32 Environmental report.

(a) For proposed actions listed in § 1794.21(b) and (c), the applicant is normally not required to submit an ER.

(b) For proposed actions listed in § 1794.22(a) and (b), the applicant shall normally submit an ER. Guidance in preparing the ER for Electric and Telecommunication proposals is contained in RUS Bulletin 1794A–600. Guidance in preparing the ER for Water and Waste proposals is contained in RUS Bulletin 1794A–602. The applicant may be required to publish public notices and provide evidence of such if the proposed action is located in, impacts, or converts important land resources.
