grant funds, to required cost-sharing or matching funds, or to other program income. Costs of that kind may be deducted from the gross income in order to determine how much must be treated as program income.

(b) The provisions of the grant award govern the disposition of income subject to this section. If the provisions of the grant award do not treat this kind of income, there are no USDA requirements governing its disposition. A recipient is not prohibited from imposing requirements of its own on the disposition of this kind of income which is earned by its subrecipients provided those requirements are in addition to, and not inconsistent with, any requirements imposed by the provisions of the grant award.

§ 3015.44 Royalties or equivalent income earned from patents or from inventions.

Disposition of royalties or equivalent income earned on patents or inventions arising out of activities assisted by a grant or subgrant shall be governed by the provisions of the grant or subgrant agreement. If the agreement does not provide for the disposition of the royalties or equivalent income, the disposition shall be in accordance with the recipient’s own policies.

§ 3015.45 Other program income.

(a) This section applies to program income not treated elsewhere in this part which subsequently results from an activity supported by a grant or subgrant but which does not accrue until after the period of grant or subgrant support. An example is proceeds from the sale or rental of a residual inventory of merchandise created or purchased by a grant-supported workshop during the period of support.

(b) The provisions of the grant award govern the disposition of income subject to this section. If the provisions do not treat this kind of income, there are no USDA requirements governing its disposition. A recipient may impose requirements of its own on the disposition of this kind of income which is earned by its subrecipients provided those requirements are in addition to and not inconsistent with any requirements imposed by the provisions of the grant award.

§ 3015.46 Interest earned on advances of grant funds.

(a) Except when exempted by Federal statute (see paragraph (b) of this section for the principal exemption), recipients shall remit to the Federal government any interest or other investment income earned on advances of USDA grant funds. This includes any interest or investment income earned by subrecipients and cost-type contractors on advances to them that result from advances of USDA grant funds to the recipient. Unless the recipient receives other instructions from the responsible USDA awarding agency, the recipient shall remit the amount due by check or money order payable to the awarding agency. This requirement may not be administratively waived.

(b) In accordance with the Intergovernmental Cooperation Act of 1968 (42 U.S.C. 4213), States, as defined in the Act, shall not be accountable to the Federal government for interest or investment income earned by the State itself, or by its subrecipients, where this income is attributable to grants-in-aid, as defined in the Act.1

(c) Recipients are cautioned that they are subject to the provisions of Subpart L for minimizing the time between the transfer of advances and their disbursement. Those provisions apply even if there is no accountability to the Federal government for interest or other investment income earned on the advances.

Subpart G—Cost-Sharing or Matching

§ 3015.50 Scope.

This subpart contains rules reflecting Federal requirements for cost-sharing

1“State” is defined in the Act to include any agency or instrumentality of a State, and the definition does not exclude a hospital or institution of higher education which is such an agency or instrumentality. “Grant-in-aid” is defined in the Act to exclude payments under research and development contracts or grants which are awarded directly and on similar terms to all qualifying organizations, whether public or private. (42 U.S.C. 4201)
or matching. These rules apply whether cost-sharing or matching is required by Federal statute, awarding agency regulations, or by other provisions established by the specific grant agreement.

§ 3015.51 Acceptable contributions and costs.

A cost-sharing or a matching requirement may be satisfied after qualifications and exceptions are met in §3015.52 and by satisfying either or both of the following:

(a) Allowable costs incurred by the recipient or by any subrecipient under the grant or subgrant. This includes allowable costs supported by non-Federal grants or by cash donations from non-Federal third parties. Allowable costs shall be determined in accordance with the cost principles set forth in Subpart T.

(b) The value of third party in-kind contributions applicable to the same period when a cost-sharing or matching requirement applies.

§ 3015.52 Qualifications and exceptions.

(a) Costs supported by other Federal grants. (1) A cost-sharing or a matching requirement shall not be met by costs supported by another Federal grant, except as provided by Federal statute. This exception however, does not apply to costs supported by general program income earned from a contract awarded under another Federal grant.

(2) For the purpose of this part, funds provided under General or Countercyclical Revenue Sharing Programs (31 U.S.C. 1221 et seq. and 42 U.S.C. 6721 et seq.) are not considered Federal grants. Therefore, allowable costs supported by these funds may be used to satisfy a cost-sharing or a matching requirement.

(b) Costs or contributions applied towards other Federal cost-sharing requirements. Recipient costs or the value of third party in-kind contributions shall not count towards satisfying a cost-sharing or matching requirement of a USDA grant if they are or will be counted towards satisfying a cost-sharing or matching requirement of another Federal grant, a Federal procurement contract, or any other award of Federal funds.

(c) Costs financed by general program income. Costs financed by general program income as defined in Appendix A shall not count towards satisfying a cost-sharing or matching requirement of a USDA grant supporting the activity unless the provisions of the grant award expressly permit the income to be used for cost-sharing or matching purposes. (This is the alternative for use of general program income described in §3015.51).

(d) Services or property financed by income earned by contractors. Contractors under a grant or subgrant may earn income from the activities carried out under the contract in addition to the amounts earned from the party awarding the contract. No costs of services or property supported by this income may count toward satisfying a cost-sharing or matching requirement unless other provisions of the grant award expressly permit this kind of income to be used to meet the requirement.

(e) Records. In order to count cost and third party in-kind contributions towards satisfying a cost-sharing or a matching requirement, there must be verification and accurate documentation from the records of recipients or cost-type contractors. These records shall show how the value placed on third party in-kind contributions was decided. Special standards and procedures for calculating these contributions are discussed in paragraph (f) of this section. Volunteer services, to the extent possible, shall be supported by the same pay procedures and rates employed by the organization when paying for similar work performed by its personnel.

(f) Special standards for third party in-kind contributions—(1) Contributions to recipients or cost-type contractors. A third party in-kind contribution to a recipient or cost-type contractor may count towards satisfying a cost-sharing or matching requirement only where, if the recipient or cost-type contractor were to pay for it, the payment would be an allowable cost.

(2) Contributions to fixed-price contractors. A third party in-kind contribution to a fixed-price contractor may count
