

South American cactus moth and may be moved interstate to any destination.

Compliance agreement. A written agreement between APHIS and a person engaged in growing, handling, or moving regulated articles, wherein the person agrees to comply with this subpart.

Departmental permit. A document issued by the Administrator in which he or she affirms that interstate movement of the regulated article identified on the document is for scientific or experimental purposes and that the regulated article is eligible for interstate movement in accordance with § 301.55-4(c).

Infestation. The presence of the South American cactus moth or the existence of circumstances that makes it reasonable to believe that the South American cactus moth may be present.

Inspector. Any employee of APHIS or other person authorized by the Administrator to perform the duties required under this subpart.

Interstate. From any State into or through any other State.

Limited permit. A document in which an inspector or person operating under a compliance agreement affirms that the regulated article identified on the document is eligible for interstate movement in accordance with § 301.55-5(b) only to a specified destination and only in accordance with specified conditions.

Moved (move, movement). Shipped, offered for shipment, received for transportation, transported, carried, or allowed to be moved, shipped, transported, or carried.

Person. Any association, company, corporation, firm, individual, joint stock company, partnership, society, or other entity.

Plant Protection and Quarantine (PPQ). The Plant Protection and Quarantine program of the Animal and Plant Health Inspection Service, United States Department of Agriculture.

Quarantined area. Any State, or any portion of a State, listed in § 301.55-3(c) or otherwise designated as a quarantined area in accordance with § 301.55-3(b).

Regulated article. Any article listed in § 301.55-2(a) or (b), or otherwise des-

ignated as a regulated article in accordance with § 301.55-2(c).

South American cactus moth. The live insect known as the South American cactus moth, *Cactoblastis cactorum*, in any life stage (egg, larva, pupa, adult).

State. The District of Columbia, Puerto Rico, the Northern Mariana Islands, or any State, territory, or possession of the United States.

§ 301.55-2 Regulated articles.

The following are regulated articles:

(a) The South American cactus moth, in any living stage of its development.²

(b) Cactus plants or parts thereof (excluding seeds and canned, preserved, or frozen pads or fruits) of the following genera: *Consolea*, *Cylindropuntia*, *Nopalea*, and *Opuntia*.

(c) Any other product, article, or means of conveyance not listed in paragraphs (a) or (b) of this section that an inspector determines presents a risk of spreading the South American cactus moth, after the inspector provides written notification to the person in possession of the product, article, or means of conveyance that it is subject to the restrictions of this subpart.

§ 301.55-3 Quarantined areas.

(a) Except as otherwise provided in paragraph (b) of this section, the Administrator will list as a quarantined area in paragraph (c) of this section each State, or each portion of a State, in which the South American cactus moth has been found by an inspector, in which the Administrator has reason to believe that the South American cactus moth is present, or that the Administrator considers necessary to quarantine because of its inseparability for quarantine enforcement purposes from localities where South American cactus moth has been found. Less than an entire State will be designated as a quarantined area only if the Administrator determines that:

(1) The State has adopted and is enforcing restrictions on the intrastate movement of the regulated articles that are equivalent to those imposed

²Permit and other requirements for the interstate movement of South American cactus moths are contained in part 330 of this chapter.
