§ 319.56–37 Grapes from the Republic of Korea.

Grapes (*Vitis* spp.) may be imported into the United States from the Republic of Korea only under the following conditions and in accordance with all other applicable provisions of this subpart:

(a) The fields where the grapes are grown must be inspected during the growing season by the Republic of Korea's national plant protection organization (NPPO). The NPPO will inspect 250 grapevines per hectare, inspecting leaves, stems, and fruit of the vines.

(b) If evidence of *Conogethes punctiferalis*, *Eupoecilia ambiguella*, *Sparganothis pilleriana*, *Stathmopoda auriferella*, or *Monilinia fructigena* is detected during inspection, the field will immediately be rejected, and exports from that field will be canceled until visual inspection of the vines shows that the infestation has been eradicated.

(c) Fruit must be bagged from the time the fruit sets until harvest.

(d) Each consignment must be inspected by the NPPO before export. For each consignment, the NPPO must issue a phytosanitary certificate with an additional declaration stating that the fruit in the consignment was found free of *C. punctiferalis*, *E. ambiguella*, *S. pilleriana*, *S. auriferella*, *M. fructigena*, and *Nippoptilia vitis*.

(Approved by the Office of Management and Budget under control number 0579–0236)

§ 319.56–38 Citrus from Chile.

Clementines (*Citrus reticulata* Blanco var. Clementine), mandarins (*Citrus reticulata* Blanco), and tangerines (*Citrus reticulata* Blanco) may be imported into the United States from Chile, and grapefruit (*Citrus paradisi* Macfad.) and sweet oranges (*Citrus sinensis* (L.) Osbeck) may be imported into the continental United States from Chile, in accordance with this section and all other applicable provisions of this subpart.

(a) The fruit must be accompanied by a permit issued in accordance with § 319.56–3(b).

(b) If the fruit is produced in an area of Chile where Mediterranean fruit fly (*Ceratitis capitata*) is known to occur,

the fruit must be cold treated in accordance with part 305 of this chapter. Fruit for which cold treatment is required must be accompanied by documentation indicating that the cold treatment was initiated in Chile (a PPQ Form 203 or its equivalent may be used for this purpose).

(c) The fruit must either be produced and shipped under the systems approach described in paragraph (d) of this section or fumigated in accordance with paragraph (e) of this section.

(d) *Systems approach.* The fruit may be imported without fumigation for *Brevipalpus chilensis* if it meets the following conditions:

(1) *Production site registration.* The production site where the fruit is grown must be registered with the national plant protection organization (NPPO) of Chile. To register, the production site must provide Chile's NPPO with the following information: Production site name, grower, municipality, province, region, area planted to each species, number of plants/hectares/species, and approximate date of harvest. Registration must be renewed annually.

(2) *Low prevalence production site certification.* Between 1 and 30 days prior to harvest, random samples of fruit must be collected from each registered production site under the direction of Chile's NPPO. These samples must undergo a pest detection and evaluation method as follows: The fruit and pedicels must be washed using a flushing method, placed in a 20 mesh sieve on top of a 200 mesh or finer sieve, sprinkled with a liquid soap and water solution, washed with water at high pressure, and washed with water at low pressure. The process must then be repeated. The contents of the sieves must then be placed on a petri dish and analyzed for the presence of live *B. chilensis* mites. If a single live *B. chilensis* mite is found, the production site will not qualify for certification as a low prevalence production site and will be eligible to export fruit to the United States only if the fruit is fumigated in accordance with paragraph (e) of this section. Each production site may have only one opportunity per
