

Federal Crop Insurance Corporation, USDA

§ 407.13

NASS yield. The yield calculated by dividing the NASS estimate of upland cotton production in the county, by the NASS estimate of the acres of upland cotton in the county, as specified in the actuarial documents. The actuarial documents will specify whether harvested or planted acreage is used to calculate the yield used to establish the expected county yield and calculate indemnities.

Planted acreage. Land in which the cotton seed has been placed by a machine appropriate for the insured crop and planting method, at the correct depth, into a seedbed that has been properly prepared for the planting method and production practice. Broadcast and subsequent mechanical incorporation of the cotton seed is not allowed.

2. Crop Insured

The insured crop will be all upland cotton:

- (a) Grown on insurable acreage in the county or counties listed in the accepted application;
- (b) Properly planted and reported by the acreage reporting date;
- (c) Planted with the intent to be harvested; and
- (d) That is not (unless allowed by the Special Provisions or by written agreement):
 - (1) Colored cotton lint;
 - (2) Planted into an established grass or legume;

(3) Interplanted with another spring planted crop;

(4) Grown on acreage in which a hay crop was harvested in the same calendar year unless the acreage is irrigated; or

(5) Grown on acreage on which a small grain crop reached the heading stage in the same calendar year unless the acreage is irrigated or adequate measures are taken to terminate the small grain crop prior to heading and less than 50 percent of the small grain plants reach the heading stage.

3. Payment

(a) A payment will be made only if the payment yield for the insured crop year is less than your trigger yield.

(b) Payment yields will be determined prior to July 16 following the crop year.

(c) We will issue any payment to you prior to the August 16 immediately following our determination of the payment yield.

(d) The payment is equal to the payment calculation factor multiplied by your policy protection for each insured crop practice and type specified in the actuarial documents.

(e) The payment will not be recalculated even though the NASS yield may be subsequently revised.

§ 407.13 Group risk plan for forage.

The provisions of the Group Risk Plan for Forage for the 2000 and succeeding crop years are as follows:

1. Definitions

Harvest. Removal of the forage from the field, and rotational grazing.

NASS yield. The yield calculated by dividing the NASS estimate of the production of hay in the county by the NASS estimate of the acres of hay in the county, as specified in the actuarial documents. The actuarial documents will specify whether the harvested or planted acreage is used to calculate the yield

used to establish the expected county yield and calculate indemnities.

Planted acreage. Land seeded to forage, by a planting method appropriate for forage, into a properly prepared seedbed.

Rotational grazing. The defoliation of the insured forage by livestock, within a pasturing system whereby the forage field is subdivided into smaller parcels and livestock are moved from one area to another, allowing a period of grazing followed by a period for forage regrowth.

2. Crop Insured

The insured crop will be the forage types shown on the Special Provisions:

§ 407.14

7 CFR Ch. IV (1–1–10 Edition)

- (a) Grown on insurable acreage in the county or counties listed in the accepted application;
- (b) Properly planted and reported by the acreage reporting date;
- (c) Intended for harvest; and
- (d) Not grown with another crop.

3. Insurable Acreage

In addition to section 3 of the Basic Provisions of the Group Risk Plan Common Policy, acreage seeded to forage after July 1 of the previous crop year will not be insurable. Acreage physically located in another county not listed on the accepted application is not insured under this policy.

4. Payment

- (a) A payment will be made only if the payment yield for the insured crop year is less than your trigger yield.
- (b) Payment yields will be determined prior to May 1 following the crop year.
- (c) We will issue any payment to you prior to the May 31 immediately following our determination of the payment yield.
- (d) The payment is equal to the payment calculation factor multiplied by your policy protection for each insured crop practice and type specified in the actuarial documents.
- (e) The payment will not be recalculated even though the NASS yield may be subsequently revised.

5. Program Dates

November 30 is the Cancellation and Termination Date for all states. The Contract Change Date is August 31 for all states.

6. Annual Premium

In lieu of section 8(g) of the Basic Provisions of the Group Risk Plan Common Policy, the annual premium is earned and payable on the acreage reporting date. You will be billed for premium due on the date shown in the Special Provisions. The premium will be determined based on the rate shown on the actuarial documents.

§ 407.14 Group risk plan for peanuts.

The provisions of the Group Risk Plan for Peanuts for the 2000 and succeeding crop years are as follows:

1. Definitions

Harvest. Combining or threshing the peanuts.

NASS yield. The yield calculated by dividing the NASS estimate of peanut production in the county, by the NASS estimate of the acres of peanuts in the county, as specified in the actuarial documents. The actuarial documents will specify whether the harvested or planted acreage is used to calculate the yield used to establish the expected county yield and calculate indemnities.

Planted acreage. Land in which the peanut seed has been placed by a machine appropriate for the insured crop and planting method, at the correct depth, into a seedbed that has been properly prepared for the planting method and production practice.

2. Crop Insured

The insured crop will be all peanuts:

- (a) Grown on insurable acreage in the county or counties listed in the accepted application;
- (b) Properly planted and reported by the acreage reporting date;
- (c) Planted with the intent to be harvested as peanuts; and
- (d) Not interplanted with an established grass or legume or interplanted with another crop.

3. Payment

- (a) A payment will be made only if the payment yield for the insured crop year is less than your trigger yield.
- (b) Payment yields will be determined prior to June 16 following the crop year.
- (c) We will issue any payment to you prior to the July 16 immediately following our determination of the payment yield.
- (d) The payment is equal to the payment calculation factor multiplied by your policy protection for each insured crop practice and type specified in the actuarial documents.
- (e) The payment will not be recalculated even though the NASS yield may be subsequently revised.
