§ 634.26 Contract modifications.

(a) The administering agency may modify contracts previously entered into if it is determined to be desirable to carry out the purposes of the program, facilitate the practical administration thereof, or to accomplish equitable treatment with respect to other conservation, land-use, or water-quality programs.

(b) Requirements of active contracts may be waived or modified by the administering agency only if such waiver or modification is specifically provided for in these regulations. NRCS concurrence in modifications is necessary when modifications involve a technical aspect of the participant’s water-quality plan. A contract may be modified only if it is determined that such modifications are desirable to carry out purposes of the program or to facilitate the program’s practical administration.

(c) Contracts may be modified to add, delete, substitute, or reinstall best management practices when:

(1) The installed measure failed to achieve the desired results through no fault of the participant,

(2) The installed measure deteriorated because of conditions beyond the control of the participant, or

(3) Another BMP is substituted that will achieve the desired results.

(d) Contract modifications are not required when items of work are accomplished prior to scheduled completion or within 1 year following the year of scheduled completion.

(e) If, during the contract period, all or part of the right and interest in the land is transferred by sale or other transfer action, the contract is terminated on the land unit that was transferred and the participant having control over such land:
§ 634.27 Cost-share payment.

(a) General. Participants are to obtain or contract for materials or services as needed to install BMPs. Federal cost-share payments are to be made by the administering agency upon certification by the District Conservationist, NRCS, or its designee, that the BMPs, or an identifiable unit thereof, have been properly carried out and meet the appropriate standards and specifications.

(b) Payment maximum. The maximum total Federal cost-share payment to a participant shall be limited to $50,000. Exceptions to this limit may be made by the administering agency with concurrence of the Administrator, NRCS, upon recommendation of the NRCWCC, where it determines that the main benefits to be derived are essential for meeting the water quality objectives in the project area.

(c) Basis for cost-share payment. (1) Cost-share payments are to be made by the administering agency at the cost-share percentage and by one of the following methods designated by the administering agency and set out in the contract:

(i) Average cost, or

(ii) Actual cost not to exceed average cost.

(2) If the average cost at the time of starting the installation of a BMP or identifiable unit is less than the costs specified in the contract, payment is to be at the lower rate. If the costs at the start of installation are higher, payment may be made at the higher rate. A modification will be necessary if the higher cost results in a significant increase in the total cost-share obligation. Cost-share payment is not to be made until the modification reflecting the increase is approved.

(d) Average cost development. Average costs are to be developed by the administering agency for each project using cost data from the local area. These costs should be reviewed by the SRCWCC for consistency with average costs in other USDA programs. The average cost list is to be updated annually by the administering agency.

(e) Application for payment. Cost-share payments can be made by the administering agency after a participant has carried out a BMP or an identifiable unit of a BMP. Application for payment must be submitted to the administering agency, be certified by the NRCS or its designee, and be supported by such cost receipts as are required by the administering agency. It is the participant’s responsibility to apply for payments.

(f) Authorizations for payments to suppliers. (1) The contract may authorize that part or all of the Federal cost share for a BMP or an identifiable unit be made directly to suppliers of materials or services. The materials or services must be delivered or performed before payment is made.

(2) Federal cost shares will not be in excess of the cost share attributable to the material or service used or not in...
