

§ 1033.14

7 CFR Ch. X (1-1-09 Edition)

administrator if the market administrator finds that such revision is necessary to assure orderly marketing and efficient handling of milk in the marketing area. Before making such a finding, the market administrator shall investigate the need for the revision either on the market administrator's own initiative or at the request of interested persons if the request is made in writing at least 15 days prior to the month for which the requested revision is desired effective. If the investigation shows that a revision might be appropriate, the market administrator shall issue a notice stating that the revision is being considered and inviting written data, views, and arguments. Any decision to revise an applicable percentage must be issued in writing at least one day before the effective date.

(e) Producer milk shall not include milk of a producer that is subject to inclusion and participation in a marketwide equalization pool under a milk classification and pricing plan imposed under the authority of another government entity.

(f) Producer milk of a handler shall not exceed the limits as established in § 1033.13(f)(1) through § 1033.13(f)(3).

(1) Producer milk for the months of April through February may not exceed 115 percent of the producer milk receipts of the prior month. Producer milk for March may not exceed 120 percent of producer receipts of the prior month; plus

(2) Milk shipped to and physically received at pool distributing plants and allocated to Class I use in excess of the volume allocated to Class I in the prior month; plus

(3) If a producer did not have any milk delivered to any plant as other than producer milk as defined under the order in this part or any other Federal milk order for the preceding three months; and the producer had milk qualified as producer milk on any other Federal order in the previous month, add the lesser of the following:

(i) Any positive difference of the volume of milk qualified as producer milk on any other Federal order in the previous month, less the volume of milk qualified as producer milk on any other Federal order in the current month, or

(ii) Any positive difference of the volume of milk qualified as producer milk under the order in this part in the current month, less the volume of milk qualified as producer milk under the order in this part in the previous month.

(4) Milk received at pool plants in excess of these limits shall be classified pursuant to § 1000.44(a)(3)(v) and § 1000.44(b). Milk diverted to nonpool plants reported in excess of this limit shall not be producer milk. The handler must designate, by producer pickup, which milk shall not be producer milk. If the handler fails to provide this information the provisions of § 1033.13(d)(6) shall apply.

(5) The market administrator may waive these limitations:

(i) For a new handler on the order, subject to the provisions of § 1033.13(f)(6), or

(ii) For an existing handler with significantly changed milk supply conditions due to unusual circumstances;

(6) Milk may not be considered producer milk if the market administrator determines that handlers altered the reporting of such milk for the purpose of evading the provisions of this paragraph.
