

territory or possession of the United States.

State Animal Health Official. The State animal health official who is responsible for the livestock and poultry disease control and eradication programs of a State.

Veterinarian-in-Charge. The veterinary official of APHIS who is assigned by the Administrator to supervise and perform the official work of APHIS in a State or group of States.

[57 FR 54912, Nov. 23, 1992, as amended at 59 FR 40797, Aug. 10, 1994; 60 FR 39842, Aug. 4, 1995; 62 FR 25445, May 9, 1997; 73 FR 60488, Oct. 10, 2008]

EFFECTIVE DATE NOTE: At 74 FR 65010, Dec. 9, 2009, §160.1 was amended in the definition of *accredited veterinarian*, by removing footnote 1; by adding definitions of *Category I animals*, *Category II animals*, and *herd or flock health plan* in alphabetical order; and in the definition of *qualified accredited veterinarian (QAV)*, by removing the words “an accreditation specialization” and adding the words “a program certification” in their place, effective Feb. 1, 2010. For the convenience of the user, the added text is set forth as follows:

§ 160.1 Definitions.

* * * * *

Category I animals. Any animals other than Category II animals, e.g., cats and dogs.

Category II animals. Food and fiber animal species; horses; birds; farm-raised aquatic animals; all other livestock species; and zoo animals that can transmit exotic animal diseases to livestock.

* * * * *

Herd or flock health plan. A written herd or flock health management plan, which may include an agreement signed by the owner of a herd or flock, the accredited veterinarian, and a State or APHIS representative, in which each participant agrees to undertake actions specified in the agreement to maintain the health of the animals and detect signs of communicable disease.

PART 161—REQUIREMENTS AND STANDARDS FOR ACCREDITED VETERINARIANS AND SUSPENSION OR REVOCATION OF SUCH ACCREDITATION

Sec.

- 161.1 Statement of purpose; performance of accredited duties in different States.
- 161.2 Requirements and application procedures for accreditation.
- 161.3 Standards for accredited veterinarian duties.
- 161.4 Suspension or revocation of veterinary accreditation; criminal and civil penalties.
- 161.5 Specialization.
- 161.7 Activities performed by non-accredited veterinarians.

AUTHORITY: 7 U.S.C. 8301-8317; 15 U.S.C. 1828; 7 CFR 2.22, 2.80, and 371.4.

SOURCE: 57 FR 54912, Nov. 23, 1992, unless otherwise noted.

§ 161.1 Statement of purpose; performance of accredited duties in different States.

(a) This subchapter concerns a program administered by APHIS to accredit veterinarians and thereby authorize them to perform, on behalf of APHIS, certain activities specified in this chapter. This program is intended to ensure that an adequate number of qualified veterinarians are available in the United States to perform such activities.

(b) If an accredited veterinarian wishes to perform accredited duties in a State other than the State for which the veterinarian has completed an orientation in accordance with §161.2(a)(4), the accredited veterinarian shall so inform the Veterinarian-in-Charge of the new State. The Veterinarian-in-Charge of the new State may require the accredited veterinarian to complete, prior to performing any accredited duties in the new State, an orientation in animal health procedures and issues relevant to the new State. The Veterinarian-in-Charge shall review the content of each such orientation and shall approve its use after determining that it includes adequate information about animal health agencies, regulatory requirements, administrative procedures, and animal disease problems in the new State, to prepare an accredited veterinarian

from another State to perform accredited duties in the new State. The Veterinarian-in-Charge shall also give the State Animal Health Official of the new State an opportunity to review the contents of the orientation, and invite him or her to participate in developing orientation materials and conducting the orientation.

(c) An accredited veterinarian may not perform accredited duties in a State in which the accredited veterinarian is not licensed or legally able to practice veterinary medicine.

EFFECTIVE DATE NOTE: At 74 FR 65010, Dec. 9, 2009, §161.1 was amended by revising the section heading and paragraphs (b) and (c) and adding new paragraphs (d) through (h) and an OMB citation, effective Feb. 1, 2010. For the convenience of the user, the added and revised text is set forth as follows:

§ 161.1 Statement of purpose; requirements and application procedures for accreditation.

* * * * *

(b) *Categories of accreditation.* A veterinarian may be accredited as a Category I veterinarian or a Category II veterinarian. A veterinarian who is accredited under Category I is only authorized to perform accredited duties on Category I animals, as defined in §160.1. A veterinarian who is accredited under Category II is authorized to perform accredited duties on both Category I animals and Category II animals.

(c) *Application for initial accreditation.* A veterinarian may apply for accreditation by completing an application for accreditation and submitting it to APHIS. In completing the application, the veterinarian will choose one of the accreditation activity categories, either Category I or Category II, as discussed in paragraph (b) of this section. Applications for Category I accreditation must include certification that the applicant is able to perform the tasks listed in paragraph (g)(1) of this section. Applications for Category II accreditation must include certification that the applicant is able to perform the tasks listed in paragraph (g)(2) of this section. An accredited veterinarian must not perform duties requiring a program certification unless he or she is accredited under Category II and qualified to perform such duties in accordance with §161.5 of this part.

(d) *Review of application.* Applications for accreditation received by APHIS shall be forwarded to the State Animal Health Official for the State in which the veterinarian wishes to perform accredited duties for approval. Within 14 days after receiving an application, a State Animal Health Official

shall either endorse the application or send a written statement to the Administrator explaining why it was not endorsed; but if the State Animal Health Official fails to take one of these actions within 14 days, APHIS shall proceed to review the application. The Administrator will review the application and the written statement, if any, and determine whether the applicant meets the requirements for accreditation contained in this part.

(e) *Accreditation requirements.* The Administrator is hereby authorized to accredit a veterinarian when he or she determines that:

(1) The veterinarian is a graduate with a Doctorate of Veterinary Medicine or an equivalent degree (any degree that qualifies the holder to be licensed by a State to practice veterinary medicine) from a college of veterinary medicine;

(2) The veterinarian is licensed or legally able to practice veterinary medicine in the State in which the veterinarian wishes to perform accredited duties. APHIS will confirm the licensing status of the applicant by contacting the State board of veterinary medical examiners or any similar State organization that maintains records of veterinarians licensed in a State;

(3) The veterinarian has completed initial accreditation training, using content provided by APHIS; and

(4) The veterinarian has completed an orientation program approved by the Veterinarian-in-Charge for the State in which the veterinarian wishes to perform accredited duties, and upon completion of the orientation, has signed a written statement listing the date and place of orientation, the subjects covered in the orientation, and any written materials provided to the veterinarian at the orientation. The Veterinarian-in-Charge shall also give the State Animal Health Official an opportunity to review the contents of the orientation, and invite him or her to participate in developing orientation materials and conducting the orientation. The veterinarian applying for accreditation must have completed the orientation program within 3 years prior to submitting the application for accreditation. The core orientation program shall include the following topics:

- (i) Federal animal health laws, regulations, and rules;
- (ii) Interstate movement requirements for animals;
- (iii) Import and export requirements for animals;
- (iv) USDA animal disease eradication and control programs;
- (v) Laboratory support in confirming disease diagnoses;
- (vi) Ethical and professional responsibilities of an accredited veterinarian;
- (vii) Foreign animal disease awareness;

(viii) Animal health emergency management; and

(ix) Animal health procedures, issues, and information resources relevant to the State in which the veterinarian wishes to perform accredited duties.

(f) *Change in accreditation category.* (1) *Category I to Category II.* A veterinarian who is accredited under Category I may become accredited under Category II if the veterinarian applies for accreditation under Category II by completing an application for accreditation, including certification that the applicant is able to perform the tasks listed in paragraph (g)(2) of this section, and submitting it to APHIS. The veterinarian must also have fulfilled the training requirements in §161.3(b) that are associated with renewal of accreditation under Category II.

(2) *Category II to Category I.* A veterinarian who is accredited under Category II may become accredited under Category I if the veterinarian applies for accreditation under Category I by completing an application for accreditation, including certification that the applicant is able to perform the tasks listed in paragraph (g)(1) of this section, and submitting it to APHIS. The veterinarian must also have fulfilled the training requirements in §161.3(b) that are associated with renewal of accreditation under Category I.

(g) *Tasks that applicants for accredited status must be able to perform.* Applicants for accredited status must be able to:

(1) *Category I.* (i) Perform physical examination of individual Category I animals to determine whether they are free from any clinical signs suggestive of communicable disease.

(ii) Recognize the common breeds of Category I animals and accurately record breed information on official documents.

(iii) Apply common animal identification for Category I animals.

(iv) Properly complete certificates for domestic and international movement of Category I animals.

(v) Perform necropsies on Category I animals.

(vi) Recognize and report clinical signs and lesions of exotic animal diseases that occur in Category I animals.

(vii) Vaccinate Category I animals and accurately complete the vaccination certificates.

(viii) Properly collect and ship specimen samples to the appropriate laboratory for testing with complete and accurate paperwork.

(ix) Develop appropriate biosecurity protocols, as well as cleaning and disinfection protocols, to control communicable disease spread in Category I animals.

(2) *Category II.* (i) Perform physical examination of individual animals and visually inspect herds or flocks to determine whether

the animals are free from any clinical signs suggestive of communicable disease.

(ii) Recognize the common breeds of Category I and Category II animals, including the types of poultry as defined by the National Poultry Improvement Plan in subchapter G of this chapter and the common breeds of livestock, and be able to accurately record breed information on official documents.

(iii) Recognize all USDA animal identification systems.

(iv) Estimate the age of livestock using a dental formula.

(v) Apply USDA-recognized identification (e.g., eartag, microchip, tattoo) for the USDA animal identification system.

(vi) Certify the health status of an avian flock regarding diseases of domestic or international regulatory concern, and evaluate records pertaining to poultry flock testing and participation in Federal and State poultry health programs and classifications.

(vii) Properly complete certificates for domestic and international movement of animals.

(viii) Apply and remove official seals.

(ix) Perform necropsies on animals.

(x) Recognize and report clinical signs and lesions of exotic animal diseases.

(xi) Develop a herd or flock health plan consistent with requirements in subchapters B, C, and D of this chapter.

(xii) Vaccinate for USDA program diseases and accurately complete the vaccination certificate.

(xiii) Properly collect and ship sample specimens to an appropriate laboratory for testing with complete and accurate paperwork.

(xiv) Properly perform testing for tuberculosis (e.g., caudal fold test).

(xv) Develop appropriate biosecurity protocols, as well as cleaning and disinfection protocols, to control communicable disease spread.

(xvi) Explain basic principles for control of diseases for which APHIS or APHIS-State cooperative programs presently exist.

(h) *Authorization to perform duties.* An accredited veterinarian may not perform accredited duties in a State until after receiving written authorization from APHIS. If a Category I accredited veterinarian completes the necessary training requirements and becomes a Category II accredited veterinarian, the veterinarian may not perform Category II accredited duties in a State until after receiving written authorization from APHIS.

(Approved by the Office of Management and Budget under control number 0579-0297)

§ 161.2 Requirements and application procedures for accreditation.

(a) *Initial accreditation.* A veterinarian may apply for accreditation by
