

uses, and location of the nuclear material.

(7) Imports and exports of non-nuclear material and equipment including the location, quantity and description of the materials and equipment.

(c) Information specified in paragraphs (b)(1) through (b)(7) of this section must be supplied as specified in the instructions for DOC/NRC Form AP-1 and associated forms. The information provided on DOC/NRC Form AP-1 and associated forms must be submitted annually. If the information has not changed, a "No change" report must be provided. NRC should also be notified when the activity is no longer performed. The annual report must be submitted by January 31 of each succeeding year after the initial report. The initial report must be submitted no later than 30 calendar days following the date of publication of this rule.

(d) Information must be provided on the need to manage IAEA access to the location to protect health and safety or to protect classified, proprietary, or other sensitive information, and on other protective measures that should be implemented should an IAEA access be requested.

[73 FR 78611, Dec. 23, 2008]

§ 75.12 Communication of information to IAEA.

(a) Except as otherwise provided in this section, the Commission will furnish to the IAEA all information submitted under §§ 75.10, 75.11, and 75.31 through 75.43.

(b)(1) An applicant, licensee, or certificate holder may request that information of particular sensitivity, that it customarily holds in confidence, not be transmitted physically to the IAEA. An applicant, licensee, or certificate holder who makes this request shall, at the time the information is submitted, identify the pertinent document or part thereof and make a full statement of the reasons supporting the request. The applicant, licensee, or certificate holder shall retain a copy of the request and all documents related to the request as a record until the Commission terminates the license or certificate for each facility or location involved with the request, or until the

Commission notifies the applicant, licensee, or certificate holder that the applicant, licensee, or certificate holder is no longer under the Safeguards Agreement. Superseded material must be retained for 3 years after each change is made.

(2) In considering such a request, it is the policy of the Commission to achieve an effective balance between legitimate concerns of licensees, applicants, or certificate holders, including protection of the competitive position of the owner of the information, and the undertaking of the United States to cooperate with the IAEA to facilitate the implementation of the safeguards provided for in the Safeguards Agreement and Additional Protocol. The Commission will take into account the obligation of the IAEA to take every precaution to protect commercial and industrial secrets and other confidential information coming to its knowledge in the implementation of the Safeguards Agreement and Additional Protocol.

(3) A request made under § 2.390 of this chapter will not be treated as a request under this section unless the application makes specific reference to this section, nor shall a determination to withhold information from public disclosure necessarily require a determination that such information not be transmitted physically to the IAEA.

(4) If a request is granted, the Commission will determine a location where the information will remain readily available for examination by the IAEA and will so inform the applicant, licensee, or certificate holder. The applicant, licensee, or certificate holder shall retain this information as a record until the Commission terminates the license or certificate for the facility involved with the request or until the Commission notifies the applicant, licensee, or certificate holder that the applicant, licensee, or certificate holder is no longer under the Safeguards Agreement. Superseded material must be retained for 3 years after each change is made.

(c) A request made under § 2.390(b) of this chapter will not be treated as a request under this section unless the application makes specific reference to this section, nor shall a determination

§ 75.15

to withhold information from public disclosure necessarily require a determination that this information not be transmitted physically to the IAEA.

(d) Where consistent with the Safeguards Agreement, the Commission may at its own initiative, or at the request of a licensee, determine that any information submitted under §§ 75.10, and 75.11 shall not be physically transmitted to, or made available for examination by, the IAEA.

[45 FR 50711, July 31, 1980, as amended at 53 FR 19262, May 27, 1988; 69 FR 2281, Jan. 14, 2004; 73 FR 78612, Dec. 23, 2008]

MATERIAL ACCOUNTING AND CONTROL FOR FACILITIES

§ 75.15 Facility attachments.

(a) The Facility Attachment or Transitional Facility Attachment will document the determinations referred to in § 75.10 and will contain other appropriate provisions.

(b) The Commission will issue license or certificate amendments, as necessary, to implement the Safeguards Agreement and the Facility Attachment (as amended from time to time). The license or certificate amendments through reference to the Facility Attachment or Transitional Facility Attachment, or otherwise, will specify:

- (1) IAEA material balance areas;
- (2) Types of modifications for which information is required, under § 75.10, to be submitted in advance;
- (3) Procedures, as referred to in § 75.21;
- (4) The extent to which isotopic composition must be included in batch data (under § 75.22) and advance notification (§ 75.45);
- (5) Items to be reported in the concise notes accompanying inventory change reports, as referred to in § 75.34;
- (6) Loss limits and changes in containment, as referred to in § 75.36 (pertaining to special reports);
- (7) Actions required to be taken under § 75.8(f) at the request of an IAEA inspector;
- (8) Procedures to be used for documentation of requests under § 75.46 (pertaining to expenses); and
- (9) Other appropriate matters.

(c) The Commission will also issue license or certificate amendments, as

10 CFR Ch. I (1-1-11 Edition)

necessary, for implementing the Initial Protocol to the Safeguards Agreement and the Transitional Facility Attachment (as amended from time to time).

(d) License or certificate amendments will be made under the Commission's rules of practice (part 2 of this chapter). Specifically, if the licensee or certificate holder does not agree to an amendment, an order modifying the license would be issued under § 2.204 of this chapter.

(e) Subject to constraints imposed by the Safeguards Agreement, the Commission will afford the applicant, licensee, or certificate holder a reasonable opportunity to participate in the development of the Facility Attachment or Transitional Facility Attachment applicable to the facility, and any amendments thereto, and to review and comment upon any instrument before it has been agreed to by the United States. The Commission will provide to the applicant, licensee, or certificate holder a copy of any such instrument that has been completed under the Safeguards Agreement.

(f) Locations reporting under the Additional Protocol, unless located in a facility selected under Article 39(b) of the main text of the Safeguards Agreement, do not have Facility Attachments or Transitional Facility Attachments.

[73 FR 78612, Dec. 23, 2008]

§ 75.21 General requirements.

(a) Each licensee or certificate holder who has been given notice by the Commission in writing that its facility has been identified under the Safeguards Agreement shall establish, maintain, and follow written material accounting and control procedures. The licensee or certificate holder shall retain as a record current material accounting and control procedures until the Commission terminates the license or certificate for the facility involved with the request or until the Commission notifies the licensee or certificate holder that the licensee or certificate holder is no longer under the Safeguards Agreement. Superseded material must be retained for 3 years after each change is made.

(b) The material accounting and control procedures required by paragraph
