§ 435.302 Definitions.

(a) **ANSI** means American National Standards Institute.

(c) **ASTM** means American Society of Testing and Measurement.

(d) **British thermal unit (Btu)** means approximately the amount of heat required to raise the temperature of one pound of water from 59 °F to 60 °F.

(e) **Building** means any new residential structure;

(1) That includes or will include a heating or cooling system, or both, or a domestic hot water system, and effective energy conservation features will be incorporated into the designs of all new Federal residential buildings for which design for construction began January 3, 2007.
