§ 600.10 Form and content of applications.

(a) General. Applications shall be required for all financial assistance projects or programs.

(b) Forms. Applications shall be on the form specified in a program rule, the program announcement, or these regulations. (See also §§ 600.112 and 600.210.) For unsolicited applications, a guide for preparation and submission is available from U.S. Department of Energy, Federal Energy Technology Center, Attn: Unsolicited Proposal Manager, Post Office Box 10940, Pittsburgh, PA, 15236–0940.

(c) Contents of an application. In general, a financial assistance application shall include:

1. A facesheet containing basic identifying information. The facesheet shall be the Standard Form (SF)424;
2. A detailed narrative description of the proposed project, including the objectives of the project and the applicant’s plan for carrying it out;
3. A budget with supporting justification; and
4. Incomplete applications. DOE may return an application that:
   1. Is not signed, either in writing or electronically, by an official authorized to bind the applicant; or
   2. Omits any information or documentation required by statute, program rule, or the solicitation, if the nature of the omission precludes review of the application.
5. Supplemental information. During the review of a complete application, DOE may request the submission of additional information only if the information is essential to evaluate the application.
6. Registration is required in the Central Contractor Registration (CCR) for all applications. Information on registration can be obtained at http://www.ccr.gov/Grantees.aspx.

§ 600.13 Merit review.

(a) It is the policy of DOE that discretionary financial assistance be awarded through a merit-based selection process. A merit review means a thorough, consistent, and objective examination of applications based on pre-established criteria by persons who are independent of those submitting the applications and who are knowledgeable in the field of endeavor for which support is requested.

(b) Each program office must establish a merit review system covering the financial assistance programs it administers. Merit review of financial assistance applications is intended to be advisory and is not intended to replace the authority of the project/program official with responsibility for deciding whether an award will be made.

§ 600.14 [Reserved]

§ 600.15 Authorized uses of information.

(a) General. Information contained in applications shall be used only for evaluation purposes unless such information is generally available to the public or is already the property of the Government. The Trade Secrets Act, 18 U.S.C. 1905, prohibits the unauthorized disclosure by Federal employees of trade secret and confidential business information.

(b) Treatment of application information. (1) An application may include technical data and other data, including trade secrets and/or privileged or confidential commercial or financial information, which the applicant does not want disclosed to the public or used by the Government for any purpose other than application evaluation. To protect such data, the applicant should specifically identify each page including each line or paragraph thereof containing the data to be protected and mark the cover sheet of the application with the following Notice as well as referring to the Notice on each page to which the Notice applies:
