

## Department of Energy

## § 600.311

### § 600.304 Special award conditions.

(a) Contracting officers may impose additional requirements as needed, over and above those provided in this subpart, if an applicant or recipient:

- (1) Has a history of poor performance;
- (2) Is not financially stable;
- (3) Has a management system that does not meet the standards prescribed in this subpart;
- (4) Has not conformed to the terms and conditions of a previous award; or
- (5) Is not otherwise responsible.

(b) Before imposing additional requirements, DOE must notify the applicant or recipient in writing as to:

- (1) The nature of the additional requirements;
- (2) The reason why the additional requirements are being imposed;
- (3) The nature of the corrective action needed;
- (4) The time allowed for completing the corrective actions; and
- (5) The method for requesting reconsideration of the additional requirements imposed.

(c) The contracting officer must remove any special conditions if the circumstances that prompted them have been corrected.

### § 600.305 Debarment and suspension.

Recipients must comply with the nonprocurement debarment and suspension common rule implemented in 2 CFR 180 and 901. This common rule restricts subawards and contracts with certain parties that are debarred, suspended, or otherwise excluded from or ineligible for participation in Federal assistance programs or activities.

[68 FR 50650, Aug. 21, 2003, as amended at 74 FR 44273, Aug. 23, 2009]

### § 600.306 Metric system of measurement.

(a) The Metric Conversion Act of 1975, as amended by the Omnibus Trade and Competitiveness Act of 1988 (15 U.S.C. 205) and implemented by Executive Order 12770, states that:

(1) The metric system is the preferred measurement system for U.S. trade and commerce.

(2) The metric system of measurement will be used, to the extent economically feasible, in Federal agencies'

procurements, grants, and other business-related activities.

(3) Metric implementation is not required if such use is likely to cause significant inefficiencies or loss of markets to United States firms.

(b) Recipients are encouraged to use the metric system to the maximum extent practicable in measurement-sensitive activities and in measurement-sensitive outputs resulting from DOE funded programs.

### POST-AWARD REQUIREMENTS

#### *Financial and Program Management*

### § 600.310 Purpose of financial and program management.

Sections 600.311 through 600.318 prescribe standards for financial management systems; methods for making payments; and rules for cost sharing and matching, program income, revisions to budgets and program plans, audits, allowable costs, and fee and profit.

### § 600.311 Standards for financial management systems.

(a) Recipients are encouraged to use existing financial management systems to the extent that the systems comply with Generally Accepted Accounting Principles (GAAP) and the minimum standards in this section. At a minimum, a recipient's financial management system must provide:

(1) Effective control of all funds. Control systems must be adequate to ensure that costs charged to Federal funds and those counted as the recipient's cost share or match are consistent with requirements for cost reasonableness, allowability, and allocability in the applicable cost principles (*see* § 600.317) and in the terms and conditions of the award.

(2) Accurate, current and complete records that document, for each project funded wholly or in part with Federal funds, the source and application of the Federal funds and the recipient's required cost share or match. These records must:

(i) Contain information about receipts, authorizations, assets, expenditures, program income, and interest.

(ii) Be adequate to make comparisons of outlays with amounts budgeted for

## § 600.312

## 10 CFR Ch. II (1–1–11 Edition)

each award (as required for programmatic and financial reporting under § 600.341). Where appropriate, financial information should be related to performance and unit cost data.

(3) To the extent that advance payments are authorized under § 600.312, procedures that minimize the time elapsing between the transfer of funds to the recipient from the Government and the recipient's disbursement of the funds for program purposes.

(4) A system to support charges to Federal awards for salaries and wages, whether treated as direct or indirect costs. If employees work on multiple activities or cost objectives, a distribution of their salaries and wages must be supported by personnel activity reports which:

(i) Reflect an after the fact distribution of the actual activity of each employee.

(ii) Account for the total activity for which each employee is compensated.

(iii) Are prepared at least monthly, and coincide with one or more pay periods.

(b) If the Federal Government guarantees or insures the repayment of money borrowed by the recipient, DOE, at its discretion, may require adequate bonding and insurance if the bonding and insurance requirements of the recipient are not deemed adequate to protect the interest of the Federal Government.

(c) DOE may require adequate fidelity bond coverage if the recipient lacks sufficient coverage to protect the Federal Government's interest.

(d) If bonds are required in the situations described in paragraphs (b) and (c) of this section, the bonds must be obtained from companies holding certificates of authority as acceptable sureties, as prescribed in 31 CFR part 223, "Surety Companies Doing Business with the United States."

### § 600.312 Payment.

(a) *Methods available.* Payment methods for awards with for-profit organizations are:

(1) *Reimbursement.* Under this method, the recipient requests reimbursement for costs incurred during a particular time period. In cases where the recipient submits requests for payment to

the contracting officer, the DOE payment office reimburses the recipient by electronic funds transfer after approval of the request by the designated contracting officer.

(2) *Advance payments.* Under this method, DOE makes a payment to a recipient based upon projections of the recipient's cash needs. The payment generally is made upon the recipient's request, although predetermined payment schedules may be used when the timing of the recipient's needs to disburse funds can be predicted in advance with sufficient accuracy to ensure compliance with paragraph (b)(2)(iii) of this section.

(b) *Selecting a method.* (1) The preferred payment method is the reimbursement method, as described in paragraph (a)(1) of this section.

(2) Advance payments, as described in paragraph (a)(2) of this section, may be used in exceptional circumstances, subject to the following conditions:

(i) The contracting officer, in consultation with the program official, determines in writing that advance payments are necessary or will materially contribute to the probability of success of the project contemplated under the award (*e.g.*, as startup funds for a project performed by a newly formed company).

(ii) Cash advances must be limited to the minimum amounts needed to carry out the program.

(iii) Recipients and DOE must maintain procedures to ensure that the timing of cash advances is as close as is administratively feasible to the recipients' disbursements of the funds for program purposes, including direct program or project costs and the proportionate share of any allowable indirect costs.

(iv) Recipients must maintain advance payments of Federal funds in interest-bearing accounts, and remit annually the interest earned to the contracting officer for return to the Department of Treasury's miscellaneous receipts account, unless one of the following applies:

(A) The recipient receives less than \$120,000 in Federal awards per year.
