PART 750—APPLICATION PROCESSING, ISSUANCE, AND DENIAL

Sec. 750.1 Scope.
750.2 Processing of Classification Requests and Advisory Opinions.
750.3 Review of license applications by BIS and other government agencies and departments.
750.4 Procedures for processing license applications.
750.5 [Reserved]
750.6 Denial of license applications.
750.7 Issuance of licenses.
750.8 Revocation or suspension of licenses.
750.9 Duplicate licenses.
750.10 Transfer of licenses for exports.
750.11 Shipping tolerances.

SOURCE: 61 FR 12829, Mar. 25, 1996, unless otherwise noted.

§ 750.1 Scope.

In this part, references to the EAR are references to 15 CFR chapter VII, subchapter C. This part describes the Bureau of Industry and Security’s (BIS) process for reviewing your application for a license and the applicable processing times for various types of applications. Information related to the issuance, denial, revocation, or suspension of a license or license application is provided along with the procedures on obtaining a duplicate or replacement license, the transfer of a license and shipping tolerances available on licenses. This part also contains instructions on obtaining the status of any pending application.

[62 FR 24638, May 9, 1997]

§ 750.2 Processing of Classification Requests and Advisory Opinions.

(a) Classification requests. All classification requests submitted in accordance with procedures described in §748.3 (a) and (b) of the EAR will be answered within 14 calendar days after receipt. All responses will inform the person of the proper classification (e.g., whether or not the item is subject to the Export Administration Regulations (EAR) and, if applicable, the appropriate Export Control Classification Number [ECCN]).

(b) Advisory Opinion requests. All advisory opinions submitted in accordance with procedures described in §748.3 (a) and (c) of the EAR will be answered within 30 calendar days after receipt. Requests to obtain Validated End-User authorization will be resolved within 30 calendar days as described in supplement No. 9 to part 748 of the EAR.

§ 750.3 Review of license applications by BIS and other government agencies and departments.

(a) Review by BIS. In reviewing specific license applications, BIS will conduct a complete analysis of the license application along with all documentation submitted in support of the application. In addition to reviewing the item and end-use, BIS will consider the reliability of each party to the transaction and review any available intelligence information. To the maximum extent possible, BIS will make licensing decisions without referral of license applications to other agencies, however, BIS may consult with other U.S. departments and agencies regarding any license application.

(b) Review by other departments or agencies. (1) The Departments of Defense, Energy, State, and the Arms Control and Disarmament Agency (ACDA) have the authority to review any license application submitted under the EAR. In addition, BIS may, where appropriate, refer license applications to other U.S. government departments or agencies. These agencies and departments will be referred to as “agencies” for the purposes of this part. Though these agencies have the authority to review any license application, they may determine that they do not need to review certain types of license applications. In these instances, the agency will provide BIS with a Delegation of Authority to process those license applications without review by that particular agency.

(2) The Departments of Defense, Energy, State, and ACDA are generally
concerned with license applications involving items controlled for national security, missile technology, nuclear nonproliferation, and chemical and biological weapons proliferation reasons or destined for countries and/or end uses of concern. In particular, these agencies are concerned with reviewing license applications as follows:

(i) The Department of Defense is concerned primarily with items controlled for national security and regional stability reasons and with controls related to encryption items;

(ii) The Department of Energy is concerned primarily with items controlled for nuclear nonproliferation reasons;

(iii) The Department of State is concerned primarily with items controlled for national security, nuclear nonproliferation, missile technology, regional stability, anti-terrorism, crime control reasons, and sanctions; and

(iv) The Department of Justice is concerned with controls relating to encryption items and items primarily useful for the surreptitious interception of wire, oral, or electronic communications.

§ 750.4 Procedures for processing license applications.

(a) Overview. (1) All license applications will be resolved or referred to the President no later than 90 calendar days from the date of BIS’s registration of the license application. Processing times for the purposes of this section are defined in calendar days. The procedures and time limits described in this part apply to all license applications registered on or after February 4, 1996. The procedures and time limits in effect prior to December 6, 1995 will apply to license applications registered prior to February 4, 1996.

(2) Properly completed license applications will be registered promptly upon receipt by BIS. Registration is defined as the point at which the application is entered into BIS’s electronic license processing system. If your application contains deficiencies that prevent BIS from registering your application, BIS will attempt to contact you to correct the deficiencies, however, if BIS is unable to contact you, the license application will be returned without being registered. The specific deficiencies requiring return will be enumerated in a notice accompanying the returned license application. If a license application is registered, but BIS is unable to correct deficiencies crucial to processing the license application, it will be returned without action. The notice will identify the deficiencies and the action necessary to correct the deficiencies. If you decide to resubmit the license application, it will be treated as a new license application when calculating license processing time frames.

(b) Actions not included in processing time calculations. The following actions will not be counted in the time period calculations described in paragraph (a)(1) of this section for the processing of license applications:

(1) Agreement by the applicant to the delay. BIS may request applicants to provide additional information in support of their license application, respond to questions arising during processing, or accept proposed conditions or riders on their license application. If BIS has provided the applicant with an intent to deny letter described in § 750.6 of this part, processing times may be suspended in order to negotiate modifications to a license application and obtain agreement to such modifications from the foreign parties to the license application.

(2) Pre-license checks. If a pre-license check, to establish the identity and reliability of the recipient of the controlled items, is conducted through government channels, provided that:

(i) The need for such a pre-license check is established by the Secretary, or by another agency, if the request for a pre-license check is made by such agency and the request is made in accordance with the following time frames:

(A) The pre-license check is requested within 5 days of the determination that it is necessary; and

(B) The analysis resulting from the pre-license check is completed within 5 days.
