§ 303.3 Fibers present in amounts of less than 5 percent.

(a) Except as permitted in sections 4(b)(1) and 4(b)(2) of the Act, as amended, no fiber present in the amount of less than 5 percent of the total fiber weight shall be designated by its generic name or fiber trademark in disclosing the constituent fibers in required information, but shall be designated as “other fiber.” When more than one of such fibers are present in a product, they shall be designated in the aggregate as “other fibers.”

(b) Where the generic name of a textile fiber is required to appear in immediate conjunction with a fiber trademark in advertising, labeling, or invoicing, a disclosure of the generic name by means of a footnote, to which reference is made by use of an asterisk or other symbol placed next to the fiber trademark, shall not be sufficient in itself to constitute compliance with the Act and regulations.

§ 303.6 Generic names of fibers to be used.

(a) Except where another name is permitted under the Act and regulations, the respective generic names of all fibers present in the amount of 5 percent of the total fiber weight of the textile fiber product shall be used when naming fibers in the required information; as for example:

- 96 percent Acetate
- 4 percent Spandex.

(b) In making such disclosure, all of the provisions of the Act and regulations in this part setting forth the manner and form of disclosure of fiber content information, including the provisions of §§303.17 and 303.41 of this part relating to the use of generic names and fiber trademarks, shall be applicable.
