§ 1213.4

(a) Guardrails. With no mattress on the bed, place the wedge block shown in Figure 1, tapered side first, into each opening in the bed structure below the uppermost member of the guardrail and above the underside of the upper bunk’s foundation. Orient the block so that it is most likely to pass through the opening (e.g., the major axis of the block parallel to the major axis of the opening) (“most adverse orientation”). Then gradually apply a 33-lbf (147-N) force in a direction perpendicular to the plane of the large end of the block. Sustain the force for 1 minute.

(b) Upper bunk end structure (see §1213.3(b)(2)). Without a mattress or foundation on the upper bunk, place
§ 1213.5 Marking and labeling.

(a) There shall be a permanent label or marking on each bed stating the name and address (city, state, and zip code) of the manufacturer, distributor, or retailer; the model number; and the month and year of manufacture.

(b) The following warning label shall be permanently attached to the inside of an upper bunk bed end structure in a location that cannot be covered by the bedding but that may be covered by the placement of a pillow.
