§ 210.3–02

(ii) 134 days subsequent to the end of the registrant’s most recent fiscal year for all other registrants.

§ 210.3–02 Consolidated statements of income and changes in financial positions.

(a) There shall be filed, for the registrant and its subsidiaries consolidated and for its predecessors, audited statements of income and cash flows for each of the three fiscal years preceding the date of the most recent audited balance sheet being filed or such shorter period as the registrant (including predecessors) has been in existence.

(b) In addition, for any interim period between the latest audited balance sheet and the date of the most recent interim balance sheet being filed, and for the corresponding period of the preceding fiscal year, statements of income and cash flows shall be provided. Such interim financial statements may be unaudited and need not be presented in greater detail than is required by §210.10–01.

(c) If a period or periods reported include operations of a business prior to the date of acquisition, or for other reasons differ from reports previously issued for any period, the statements shall be reconciled as to sales or revenues and net income in the statement or in a note thereto with the amounts previously reported:

Provided, however, That such reconciliations need not be made (1) if they have been made in filings with the Commission in prior years or (2) the financial statements which are being retroactively adjusted have not previously been filed with the Commission or otherwise made public.

(d) Any unaudited interim financial statements furnished shall reflect all adjustments which are, in the opinion of management, necessary to a fair statement of the results for the interim periods presented. A statement to that effect shall be included. Such adjustments shall include, for example, appropriate estimated provisions for bonus and profit sharing arrangements normally determined or settled at year-end. If all such adjustments are of a normal recurring nature, a statement to that effect shall be made; otherwise, there shall be furnished information describing in appropriate detail the nature and amount of any adjustments other than normal recurring adjustments entering into the determination of the results shown.

(e) Disclosures regarding segments required by generally accepted accounting principles shall be provided for each year for which an audited statement of income is provided. To
