3. In the case of an extractive enterprise, not involved in oil and gas producing activities, material information shall be given as to production, reserves, locations, development, and the nature of the registrant’s interest. If individual properties are of major significance to an industry segment:

A. More detailed information concerning these matters shall be furnished; and

B. Appropriate maps shall be used to disclose location data of significant properties except in cases for which numerous maps would be required.

4. A registrant engaged in oil and gas producing activities shall provide the information required by Subpart 1200 of Regulation S-K.

6. The definitions in § 210.4–10(a) of Regulation S-X (17 CFR 210) shall apply to this Item with respect to oil and gas operations.

§ 229.103 (Item 103) Legal proceedings.

Describe briefly any material pending legal proceedings, other than ordinary routine litigation incidental to the business, to which the registrant or any of its subsidiaries is a party or of which any of their property is the subject. Include the name of the court or agency in which the proceedings are pending, the date instituted, the principal parties thereto, a description of the factual basis alleged to underlie the proceeding and the relief sought. Include similar information as to any such proceedings known to be contemplated by governmental authorities.

Instructions to Item 103: 1. If the business ordinarily results in actions for negligence or other claims, no such action or claim need be described unless it departs from the normal kind of such actions.

2. No information need be given with respect to any proceeding that involves primarily a claim for damages if the amount involved, exclusive of interest and costs, does not exceed 10 percent of the current assets of the registrant and its subsidiaries on a consolidated basis. However, if any proceeding presents in large degree the same legal and factual issues as other proceedings pending or known to be contemplated, the amount involved in such other proceedings shall be included in computing such percentage.

3. Notwithstanding Instructions 1 and 2, any material bankruptcy, receivership, or similar proceeding with respect to the registrant or any of its significant subsidiaries shall be described.

4. Any material proceedings to which any director, officer or affiliate of the registrant, any owner of record or beneficially of more than five percent of any class of voting securities of the registrant, or any associate of any such director, officer, affiliate of the registrant, or security holder is a party adverse to the registrant or any of its subsidiaries shall be described.

5. Notwithstanding the foregoing, an administrative or judicial proceeding (including, for purposes of A and B of this Instruction, proceedings which present in large degree the same issues) arising under any Federal, State or local provisions that have been enacted or adopted regulating the discharge of...

Subpart 229.200—Securities of the Registrant

§ 229.201 (Item 201) Market price of and dividends on the registrant's common equity and related stockholder matters.

(a) Market information. (1)(i) Identify the principal United States market or markets in which each class of the registrant’s common equity is being traded. Where there is no established public trading market for a class of common equity, furnish a statement to that effect. For purposes of this Item the existence of limited or sporadic quotations should not of itself be deemed to constitute an “established public trading market.” In the case of foreign registrants, also identify the principal established foreign public trading market, if any, for each class of the registrant’s common equity.

(ii) If the principal United States market for such common equity is not an exchange, state the range of high and low bid information for the equity for each full quarterly period within the two most recent fiscal years and any subsequent interim period for which financial statements are included, or are required to be included by Article 3 of Regulation S-X, as regularly quoted in the automated quotation system of a registered securities association, or where the equity is not quoted in such a system, the range of reported high and low bid quotations, indicating the source of such quotations. Indicate, as applicable, that such over-the-counter market quotations reflect inter-dealer prices, without retail mark-up, mark-down or commission and may not necessarily represent actual transactions. Where there is an absence of an established public trading market, reference to quotations shall be qualified by appropriate explanation.

(iii) If the principal United States market for such common equity is not an exchange, state the range of high and low bid information for the equity for each full quarterly period within the two most recent fiscal years and any subsequent interim period for which financial statements are included, or are required to be included by Article 3 of Regulation S-X, as regularly quoted in the automated quotation system of a registered securities association, or where the equity is not quoted in such a system, the range of reported high and low bid quotations, indicating the source of such quotations. Indicate, as applicable, that such over-the-counter market quotations reflect inter-dealer prices, without retail mark-up, mark-down or commission and may not necessarily represent actual transactions. Where there is an absence of an established public trading market, reference to quotations shall be qualified by appropriate explanation.

(iv) Where a foreign registrant has identified a principal established foreign trading market for its common equity pursuant to paragraph (a)(1) of this Item, also provide market price information comparable, to the extent practicable, to that required for the principal United States market, including the source of such information. Such prices shall be stated in the currency in which they are quoted. The registrant may translate such prices into United States currency at the currency exchange rate in effect on the date the price disclosed was reported on the foreign exchange. If the primary United States market for the registrant’s common equity trades using American Depositary Receipts, the United States prices disclosed shall be on that basis.

(v) If the information called for by this Item is being presented in a registration statement filed pursuant to the Securities Act or a proxy or information statement filed pursuant to the Exchange Act, the document also shall
