Securities and Exchange Commission

(B) A description of the protections provided by the requirements set forth under section 4d of the Commodity Exchange Act (7 U.S.C. 6d) applicable to a futures account;

(C) A statement indicating whether the customer’s security futures products will be held in a securities account or a futures account, or whether the firm permits customers to make or change an election of account type; and

(D) A statement that, with respect to holding the customer’s security futures products in a securities account or a futures account, the alternative regulatory scheme is not available to the customer with relation to that account.

(ii) Where a customer account containing an open security futures product position is transferred to a broker or dealer registered with the Commission pursuant to section 15(b)(1) of the Act (15 U.S.C. 78o(b)(1)), that broker or dealer may instead provide the statements described in paragraphs (o)(2)(i)(C) and (o)(2)(i)(D) of this section no later than ten business days after the date the account is received.

(3) Changes in account type. A broker or dealer registered with the Commission pursuant to section 15(b)(1) of the Act (15 U.S.C. 78o(b)(1)) that is also a futures commission merchant registered pursuant to section 6f(a)(1) of the Commodity Exchange Act (7 U.S.C. 6f(a)(1)) may change the type of account in which a customer’s security futures products will be held; provided that:

(i) The broker or dealer creates a record of each change in account type, including the name of the customer, the account number, the date the broker or dealer received the customer’s request to change the account type, if applicable, and the date the change in account type became effective; and

(ii) The broker or dealer, at least ten days before the customer’s account type is changed:

(A) Notifies the customer in writing of the date that the change will become effective; and

(B) Provides the customer with the disclosures described in paragraph (o)(2)(i) of this section.

§ 240.15c3-3a Exhibit A—formula for determination reserve requirement of brokers and dealers under § 240.15c3-3.

15. Excess of total credits (sum of items 1–9) over total debits (sum of items 10–14) required to be on deposit in the "Reserve Bank Account" (§240.15c3–3(e)). If the computation is made monthly as permitted by this section, the deposit shall be not less than 105 percent of the excess of total credits over total debits.

Note A. Item 1 shall include all outstanding drafts payable to customers which have been applied against free credit balances or other credit balances and shall also include checks drawn against bank balances per the records of the broker or dealer.

Note B. Item 2 shall include the amount of options-related or security futures product-related Letters of Credit obtained by a broker or dealer from a registered clearing agency or a derivatives clearing organization which are collateralized by customers' securities, to the extent of the member's margin requirement at the registered clearing agency or derivatives clearing organization.

Note C. Item 3 shall include in addition to monies payable against customer's securities loaned the amount by which the market value of securities loaned exceeds the collateral value received from the lending of such securities.

Note D. Item 4 shall include in addition to customers' securities failed to receive and outstanding more than thirty (30) calendar days exceeds their contract value.

Note E. (1) Debit balances in margin accounts shall be reduced by the amount by which a specific security (other than an exempted security) which is collateral for margin accounts exceeds in aggregate value 15 percent of the aggregate value of all securities which margin accounts collateralizable; provided, however, the required reduction shall not be in excess of the amount of the debit balance required to be included because of this concentration rule. A specified security is deemed to be collateral for a margin account only to the extent it represents value not more than 140 percent of the customer debit balance in a margin account.

(2) Debit balances in special omnibus accounts, maintained in compliance with the requirements of section 4(b) of Regulation 1 under the Act (12 CFR 220.4b) or similar accounts carried on behalf of another broker or dealer, shall be reduced by any deficits in such accounts (or if a credit, such credit shall be increased) less any calls for margin, marks to the market, or other required deposits which are outstanding 5 business days or less.

(3) Debit balances in customers' cash and margin accounts included in the formula under item 10 shall be reduced by an amount equal to 1 percent of their aggregate value.

(4) Debit balances in cash and margin accounts of house-hold members and other persons related to principals of a broker or dealer and debit balances in cash and margin accounts of other persons who are brokers or dealer shall be excluded from the Reserve Formula, unless the broker or dealer can demonstrate that such debit balances are directly related to credit items in the formula.

(5) Debit balances in margin accounts (other than omnibus accounts) shall be reduced by the amount by which any single customer's debit balance exceeds 25% (i.e., the amount by which the debit in excess of such amount is greater than $50,000) of the broker-dealer's tentative net capital (i.e., net capital prior to securities haircuts) unless the broker or dealer can demonstrate that the debit balance is directly related to credit items in the Reserve Formula. Related accounts (e.g., the separate accounts of an individual, accounts under common control or subject to cross guarantees) shall be deemed to be a single customer's accounts for purposes of this provision.

If the registered national securities exchange or the registered national securities association having responsibility for examining the broker or dealer ("designated examining authority") is satisfied, after taking into account the circumstances of the concentrated account including the quality, diversity, and marketability of the collateral securing the debit balances or margin accounts subject to this provision, that the concentration of debit balances is appropriate, then such designated examining authority may grant a partial or plenary exemption from this provision.

The debit balance may be included in the reserve formula computation for five business days from the day the request is made.

(6) Debit balances of joint accounts, custodian accounts, participations in hedge funds or limited partnerships or similar type accounts or arrangements of a person who would be excluded from the definition of customer ("non-customer") which person's inclusion in the definition of customer shall be included in the Reserve Formula in the following manner: if the percentage ownership of the non-customer is less than 5 percent, the entire debit balance shall be included in the formula; if such percentage ownership is between 5 percent and 50 percent then the portion of the debit balance attributable to the non-customer shall be excluded from the formula unless the broker or dealer can demonstrate that the debit balance is directly related to credit items in the formula; if such percentage ownership is greater than 50 percent, then the entire debit balance shall be excluded from the formula unless the broker or dealer can demonstrate that the debit balance is directly related to credit items in the formula.

Note F. Item 13 shall include the amount of margin required and on deposit with Options Clearing Corporation to the extent such margin is represented by cash, proprietary qualified securities, and letters of credit collateralized by customers' securities.

Note G. (a) Item 14 shall include the amount of margin required and on deposit with a clearing agency registered with the Commission under section 17A of the Act (15 U.S.C. 78q–1) or a derivatives clearing organization registered with the Commodity Futures Trading Commission under section 5b of the Commodity Exchange Act (7 U.S.C. 7a–1) or a derivatives clearing organization registered with the Commodity Futures Trading Commission under section 5b of the Commodity Exchange Act (7 U.S.C. 7a–1) for customer accounts required and on deposit with a clearing agency registered with the Commodity Futures Trading Commission under section 5b of the Commodity Exchange Act (7 U.S.C. 7a–1).

(b) Item 14 shall apply only if the broker or dealer has the margin related to security futures products on deposit with:

1. A registered clearing agency or derivatives clearing organization that:
   (i) Maintains the highest investment-grade rating from a nationally recognized statistical rating organization;
   (ii) Maintains security deposits from clearing members in connection with regulated options or futures transactions and assessment power over member firms that equal a combined total of at least $2 billion; at least $500 million of which must be in the form of security deposits. For purposes of this Note G, the term "security deposits" refers to a general pool, other than margin deposits or their equivalent, that consists of cash or securities held by a registered clearing agency or derivatives clearing organization; or
   (iii) Maintains at least $3 billion in margin deposits; or
   (iv) Does not meet the requirements of paragraphs (b)(1)(i) through (b)(1)(iii) of this Note G, if the Commission has determined, upon a written request for exemption by or for the benefit of the broker or dealer, that the broker or dealer may utilize such a registered clearing agency or derivatives clearing organization. The Commission may, in its sole discretion, grant such an exemption subject to such conditions as are appropriate under the circumstances, if the Commission determines that such conditional or unconditional exemption is necessary or appropriate in the public interest, and is consistent with the protection of investors; and
(2) A registered clearing agency or derivatives clearing organization that, if it holds funds or securities deposited as margin for security futures products in a bank, as defined in section 3(a)(6) of the Act (15 U.S.C. 78c(a)(6)), obtains and preserves written notification from the bank at which it holds such funds and securities or at which such funds and securities are held on its behalf. The written notification shall state that all funds and/or securities deposited with the bank as margin (including customer security futures products margin), or held by the bank and pledged to such registered clearing agency or derivatives clearing agency as margin, are being held by the bank for the exclusive benefit of clearing members of the registered clearing agency or derivatives clearing organization (subject to the interest of such registered clearing agency or derivatives clearing organization therein), and are being kept separate from any other accounts maintained by the registered clearing agency or derivatives clearing organization with the bank. The written notification also shall provide that such funds and/or securities shall at no time be used directly or indirectly as security for a loan to the registered clearing agency or derivatives clearing organization by the bank, and shall be subject to no right, charge, security interest, lien, or claim of any kind in favor of the bank or any person claiming through the bank. This provision, however, shall not prohibit a registered clearing agency or derivatives clearing organization from pledging customer funds or securities as collateral to a bank for any purpose that the rules of the Commission or the registered clearing agency or derivatives clearing organization otherwise permit; and

(3) A registered clearing agency or derivatives clearing organization that establishes, document, and maintains:

(i) Safeguards in the handling, transfer, and delivery of cash and securities;

(ii) Fidelity bond coverage for its employees and agents who handle customer funds or securities. In the case of agents of a registered clearing agency or derivatives clearing organization, the agent may provide the fidelity bond coverage; and

(iii) Provisions for periodic examination by independent public accountants; and

(4) A derivatives clearing organization that, if it is not otherwise registered with the Commission, has provided the Commission with a written undertaking, in a form acceptable to the Commission, executed by a duly authorized person at the derivatives clearing organization, to the effect that, with respect to the clearance and settlement of the customer security futures products of the broker-dealer, the derivatives clearing organization will permit the Commission to examine the books and records of the derivatives clearing organization for compliance with the requirements set forth in §240.15c3-3a, Note G. (b)(1) through (3).

(c) An OTC derivatives dealer's internal risk management control system shall include the following elements:

(1) The ownership and governance structure of the OTC derivatives dealer;

(2) The composition of the governing body of the OTC derivatives dealer;

(3) The management philosophy of the OTC derivatives dealer;

(4) The scope and nature of established risk management guidelines;

(5) The scope and nature of the permissible OTC derivatives activities;

(6) The sophistication and experience of relevant trading, risk management, and internal audit personnel;

(7) The sophistication and functionality of information and reporting systems; and

(8) The scope and frequency of monitoring, reporting, and auditing activities.

§240.15c3-4 Internal risk management control systems for OTC derivatives dealers.

(a) An OTC derivatives dealer shall establish, document, and maintain a system of internal risk management controls to assist it in managing the risks associated with its business activities, including market, credit, leverage, liquidity, legal, and operational risks.

(b) An OTC derivatives dealer shall consider the following when adopting its internal control system guidelines, policies, and procedures:

(1) The ownership and governance structure of the OTC derivatives dealer;

(2) The composition of the governing body of the OTC derivatives dealer;

(3) The management philosophy of the OTC derivatives dealer;

(4) The scope and nature of established risk management guidelines;

(5) The scope and nature of the permissible OTC derivatives activities;

(6) The sophistication and experience of relevant trading, risk management, and internal audit personnel;

(7) The sophistication and functionality of information and reporting systems; and

(8) The scope and frequency of monitoring, reporting, and auditing activities.

§240.15c3-4 Internal risk management control systems for OTC derivatives dealers.

(a) An OTC derivatives dealer shall establish, document, and maintain a system of internal risk management controls to assist it in managing the risks associated with its business activities, including market, credit, leverage, liquidity, legal, and operational risks.

(b) An OTC derivatives dealer shall consider the following when adopting its internal control system guidelines, policies, and procedures:

(1) The ownership and governance structure of the OTC derivatives dealer;

(2) The composition of the governing body of the OTC derivatives dealer;

(3) The management philosophy of the OTC derivatives dealer;

(4) The scope and nature of established risk management guidelines;

(5) The scope and nature of the permissible OTC derivatives activities;

(6) The sophistication and experience of relevant trading, risk management, and internal audit personnel;

(7) The sophistication and functionality of information and reporting systems; and

(8) The scope and frequency of monitoring, reporting, and auditing activities.

§240.15c3-4 Internal risk management control systems for OTC derivatives dealers.

(a) An OTC derivatives dealer shall establish, document, and maintain a system of internal risk management controls to assist it in managing the risks associated with its business activities, including market, credit, leverage, liquidity, legal, and operational risks.

(b) An OTC derivatives dealer shall consider the following when adopting its internal control system guidelines, policies, and procedures:

(1) The ownership and governance structure of the OTC derivatives dealer;

(2) The composition of the governing body of the OTC derivatives dealer;

(3) The management philosophy of the OTC derivatives dealer;

(4) The scope and nature of established risk management guidelines;

(5) The scope and nature of the permissible OTC derivatives activities;

(6) The sophistication and experience of relevant trading, risk management, and internal audit personnel;

(7) The sophistication and functionality of information and reporting systems; and

(8) The scope and frequency of monitoring, reporting, and auditing activities.

§240.15c3-4 Internal risk management control systems for OTC derivatives dealers.

(a) An OTC derivatives dealer shall establish, document, and maintain a system of internal risk management controls to assist it in managing the risks associated with its business activities, including market, credit, leverage, liquidity, legal, and operational risks.

(b) An OTC derivatives dealer shall consider the following when adopting its internal control system guidelines, policies, and procedures:

(1) The ownership and governance structure of the OTC derivatives dealer;

(2) The composition of the governing body of the OTC derivatives dealer;

(3) The management philosophy of the OTC derivatives dealer;

(4) The scope and nature of established risk management guidelines;

(5) The scope and nature of the permissible OTC derivatives activities;

(6) The sophistication and experience of relevant trading, risk management, and internal audit personnel;

(7) The sophistication and functionality of information and reporting systems; and

(8) The scope and frequency of monitoring, reporting, and auditing activities.

§240.15c3-4 Internal risk management control systems for OTC derivatives dealers.

(a) An OTC derivatives dealer shall establish, document, and maintain a system of internal risk management controls to assist it in managing the risks associated with its business activities, including market, credit, leverage, liquidity, legal, and operational risks.

(b) An OTC derivatives dealer shall consider the following when adopting its internal control system guidelines, policies, and procedures:

(1) The ownership and governance structure of the OTC derivatives dealer;

(2) The composition of the governing body of the OTC derivatives dealer;

(3) The management philosophy of the OTC derivatives dealer;

(4) The scope and nature of established risk management guidelines;

(5) The scope and nature of the permissible OTC derivatives activities;

(6) The sophistication and experience of relevant trading, risk management, and internal audit personnel;

(7) The sophistication and functionality of information and reporting systems; and

(8) The scope and frequency of monitoring, reporting, and auditing activities.

§240.15c3-4 Internal risk management control systems for OTC derivatives dealers.

(a) An OTC derivatives dealer shall establish, document, and maintain a system of internal risk management controls to assist it in managing the risks associated with its business activities, including market, credit, leverage, liquidity, legal, and operational risks.

(b) An OTC derivatives dealer shall consider the following when adopting its internal control system guidelines, policies, and procedures:

(1) The ownership and governance structure of the OTC derivatives dealer;

(2) The composition of the governing body of the OTC derivatives dealer;

(3) The management philosophy of the OTC derivatives dealer;

(4) The scope and nature of established risk management guidelines;

(5) The scope and nature of the permissible OTC derivatives activities;

(6) The sophistication and experience of relevant trading, risk management, and internal audit personnel;

(7) The sophistication and functionality of information and reporting systems; and

(8) The scope and frequency of monitoring, reporting, and auditing activities.

§240.15c3-4 Internal risk management control systems for OTC derivatives dealers.

(a) An OTC derivatives dealer shall establish, document, and maintain a system of internal risk management controls to assist it in managing the risks associated with its business activities, including market, credit, leverage, liquidity, legal, and operational risks.

(b) An OTC derivatives dealer shall consider the following when adopting its internal control system guidelines, policies, and procedures:

(1) The ownership and governance structure of the OTC derivatives dealer;

(2) The composition of the governing body of the OTC derivatives dealer;

(3) The management philosophy of the OTC derivatives dealer;

(4) The scope and nature of established risk management guidelines;

(5) The scope and nature of the permissible OTC derivatives activities;

(6) The sophistication and experience of relevant trading, risk management, and internal audit personnel;

(7) The sophistication and functionality of information and reporting systems; and

(8) The scope and frequency of monitoring, reporting, and auditing activities.

§240.15c3-4 Internal risk management control systems for OTC derivatives dealers.

(a) An OTC derivatives dealer shall establish, document, and maintain a system of internal risk management controls to assist it in managing the risks associated with its business activities, including market, credit, leverage, liquidity, legal, and operational risks.

(b) An OTC derivatives dealer shall consider the following when adopting its internal control system guidelines, policies, and procedures:

(1) The ownership and governance structure of the OTC derivatives dealer;

(2) The composition of the governing body of the OTC derivatives dealer;

(3) The management philosophy of the OTC derivatives dealer;

(4) The scope and nature of established risk management guidelines;

(5) The scope and nature of the permissible OTC derivatives activities;

(6) The sophistication and experience of relevant trading, risk management, and internal audit personnel;

(7) The sophistication and functionality of information and reporting systems; and

(8) The scope and frequency of monitoring, reporting, and auditing activities.
