(h) All invoices of animals and birds shall specify the species covered thereby and the number of each species. In the event of the return to the port director of any importation under the bond given under paragraph (e) of this section, if the number and species of birds does not correspond with the description stated in the invoice and if no satisfactory explanation of any discrepancy is furnished, a claim for liquidated damages shall be issued under the bond.

(i) The privilege of entry for immediate transportation granted by section 552, Tariff Act of 1930, shall not be allowed for importations of fish, birds, or other wildlife which are confirmed at the port of first arrival or discharge to be injurious prohibited species, or which require permits issued prior to importation, or which are subject to quarantine regulations or inspection at the ports of first arrival or discharge or other specified place of veterinary inspection. However, entry for immediate transportation properly is allowed for any importation of fish, birds, or other wildlife which at the place of first arrival or discharge is not confirmed to be an injurious prohibited species and which, following compliance with any applicable quarantine regulations or required veterinary inspection, is being transported by means of an in-bond movement to a port of entry designated in 50 CFR part 17, appendix B, for Customs entry (see paragraphs (a) and (b) of this section). Ports of designated entry, inspection, quarantine, and related enforcement procedures covering certain animals and poultry and certain animal and poultry products imported into the United States are regulated by requirements and standards prescribed in regulations of the Secretary of Agriculture, Department of Agriculture (see 9 CFR parts 92–96; 19 CFR 12.6 and 12.24).

(j) Wild animals and birds shall be imported under humane and healthful conditions, due regard being given to the accommodations and facilities necessary for the species transported.

(k) When any Customs officer has good reason to believe that wild animals or birds have been imported under inhumane or unhealthful conditions in violation of 18 U.S.C. 42, an immediate investigation shall be made to ascertain whether they have in fact been transported under such conditions. The investigation shall determine the provisions made on the vessel or other conveyance for the accommodation of the animals or birds, the suitability of the boxes, cages, stalls, etc., the space, ventilation, and protection from the elements accorded the animals or birds, the facilities for cleaning, feeding, watering, bedding, and such other services as may be required for the species imported. The investigation shall also determine the physical condition of such animals or birds and the ratio of dead, crippled, diseased, or starving animals or birds. If necessary, officers of the Animal and Plant Health Inspection Service, Veterinary Services, or Fish and Wildlife Service, or other officers or experts, may be called upon to assist customs officers in the matter.

(l) Unless the port director is satisfied that the provisions of 18 U.S.C. 42 have not been violated, he shall report the matter to the United States attorney for appropriate action.

Such regulations require that permits, except for eggs from Canada offered for entry at certain land border ports, must be obtained before the eggs are shipped from the country of origin and that all eggs shall be accompanied by a certificate issued by a national government veterinarian of the country of origin and inspected at a designated port of entry.
