target level represents a level of performance that we and the States will work to attain in the future. The threshold level is the minimum acceptable level of performance. Performance below the threshold level will be the basis for the Commissioner’s taking from the State agency partial or complete responsibility for performing the disability determination function. Intermediate State agency goals are designed to help each State agency move from its current performance levels to the target levels.

(b) The target level. The target level is the optimum level of performance. There are three targets—one for combined title II and title XVI initial performance accuracy, one for title II initial processing time, and one for title XVI initial processing time.

(c) The threshold level. The threshold level is the minimum acceptable level of performance. There are three thresholds—one for combined title II and title XVI initial performance accuracy, one for title II initial processing time, and one for title XVI initial processing time.

(d) Intermediate goals. Intermediate goals are levels of performance between the threshold levels and the target levels established by our appropriate Regional Commissioner after negotiation with each State agency. The intermediate goals are designed to help the State agencies reach the target levels. Failure to meet these goals is not a cause for considering the State agency to be substantially failing to comply with the performance standards. However, failure to meet the intermediate goals may result in consultation and an offer of optional performance support depending on the availability of our resources.

§ 404.1642 Processing time standards.

(a) General. Title II processing time refers to the average number of days, including Saturdays, Sundays, and holidays, it takes a State agency to process an initial disability claim from the day the case folder is received in the State agency until the day it is released to us by the State agency. Title XVI processing time refers to the average number of days, including Saturdays, Sundays, and holidays, from the day of receipt of the initial disability claim in the State agency until systems input of a presumptive disability decision or the day the case folder is released to us by the State agency, whichever is earlier.

(b) Target levels. The processing time target levels are:

(1) 37 days for title II initial claims.
(2) 43 days for title XVI initial claims.

(c) Threshold levels. The processing time threshold levels are:

(1) 49.5 days for title II initial claims.
(2) 57.9 days for title XVI initial claims.

§ 404.1643 Performance accuracy standard.

(a) General. Performance accuracy refers to the percentage of cases that do not have to be returned to State agencies for further development or correction of decisions based on evidence in the files and as such represents the reliability of State agency adjudication. The definition of performance accuracy includes the measurement of factors that have a potential for affecting a decision, as well as the correctness of the decision. For example, if a particular item of medical evidence should have been in the file but was not included, even though its inclusion does not change the result in the case, that is a performance error. Performance accuracy, therefore, is a higher standard than decisional accuracy. As a result, the percentage of correct decisions is significantly higher than what is reflected in the error rate established by SSA’s quality assurance system.

(b) Target level. The State agency initial performance accuracy target level for combined title II and title XVI cases is 97 percent with a corresponding decision accuracy rate of 99 percent.

(c) Intermediate goals. These goals will be established annually by SSA’s regional commissioner after negotiation with the State and should be used as stepping stones to progress towards our targeted level of performance.
(d) **Threshold levels.** The State agency initial performance accuracy threshold level for combined title II and title XVI cases is 90.6 percent.

§ 404.1644 **How and when we determine whether the processing time standards are met.**

(a) **How we determine processing times.** For all initial title II cases, we calculate the mean number of days, including Saturdays, Sundays and holidays, from the day the case folder is received in the State agency until the day it is released to us by the State agency. For initial title XVI cases, we calculate the mean number of days, including Saturdays, Sundays, and holidays, from the day the case folder is received in the State agency until the day there is a systems input of a presumptive disability decision or the day the case folder is released to us by the State agency, whichever is earlier.

(b) **Frequency of review.** Title II processing times and title XVI processing times are monitored separately on a quarterly basis. The determination as to whether or not the processing time thresholds have been met is made at the end of each quarter each year. Quarterly State-by-State mean processing times are compared with the threshold levels for both title II and title XVI.

§ 404.1645 **How and when we determine whether the performance accuracy standard is met.**

(a) **How we determine performance accuracy.** We determine a State agency’s performance accuracy rate on the basis of decision and documentation errors identified in our review of the sample cases.

(b) **Frequency of review.** Title II and title XVI initial performance accuracy are monitored together on a quarterly basis. The determinations as to whether the performance accuracy threshold has been met is made at the end of each quarter each year. Quarterly State-by-State combined initial performance accuracy rates are compared to the established threshold level.

§ 404.16450 **Action we will take if a State agency does not meet the standards.**

If a State agency does not meet two of the three established threshold levels (one of which must be performance accuracy) for two or more consecutive calendar quarters, we will notify the State agency in writing that it is not meeting the standards. Following our notification, we will provide the State agency appropriate performance support described in §§ 404.1660, 404.1661 and 404.1662 for a period of up to 12 months.

§ 404.1660 **How we will monitor.**

We will regularly analyze State agency combined title II and title XVI initial performance accuracy rate, title II initial processing time, and title XVI initial processing time. Within budgeted resources, we will also routinely conduct fiscal and administrative management reviews and special onsite reviews. A fiscal and administrative management review is a fact-finding mission to review particular aspects of State agency operations. During these reviews we will also review the quality assurance function. This regular monitoring and review program will allow us to determine the progress each State is making and the type and extent of performance support we will provide to help the State progress toward threshold, intermediate, and/or target levels.

§ 404.1661 **When we will provide performance support.**

(a) **Optional support.** We may offer, or a State may request, performance support at any time that the regular monitoring and review process reveals that support could enhance performance. The State does not have to be below the initial performance accuracy rate of 90.6 percent to receive performance support. Support will be offered, or granted upon request, based on available resources.

(b) **Mandatory support.** (1) We will provide a State agency with mandatory
