§661.260 What are the requirements for automatic designation of workforce investment areas relating to units of local government with a population of 500,000 or more?

The requirements for automatic designation relating to units of local government with a population of 500,000 or more and to rural concentrated employment programs are contained in WIA section 116(a)(2). The Governor has authority to determine the source of population data to use in making these designations.

§661.270 What are the requirements for temporary and subsequent designation of workforce investment areas relating to areas that had been designated as service delivery areas under JTPA?

The requirements for temporary and subsequent designation relating to areas that had been designated as service delivery areas under JTPA are contained in WIA section 116(a)(3).

§661.280 What right does an entity have to appeal the Governor's decision rejecting a request for designation as a workforce investment area?

(a) A unit of local government (or combination of units) or a rural concentrated employment program grant recipient (as described at WIA section 116(a)(2)(B), which has requested but has been denied its request for designation as a workforce investment area under §§661.260 through 661.270, may appeal the decision to the State Board, in accordance with appeal procedures established in the State Plan.

(b) If a decision on the appeal is not rendered in a timely manner or if the appeal to the State Board does not result in designation, the entity may request review by the Secretary of Labor, under the procedures set forth at 20 CFR 667.640(a).

(c) The Secretary may require that the area be designated as a workforce investment area, if the Secretary determines that:

1. The entity was not accorded procedural rights under the State appeals process; or
2. The area meets the automatic designation requirements at WIA section 116(a)(2) or the temporary and subsequent designation requirements at WIA section 116(a)(3), as appropriate.

§661.290 Under what circumstances may States require Local Boards to take part in regional planning activities?

(a) The State may require Local Boards within a designated region (as defined at 20 CFR 660.300) to:

1. Participate in a regional planning process that results in regional performance measures for workforce investment activities under title I of WIA. Regions that meet or exceed the regional performance measures may receive regional incentive grants;
2. Share, where feasible, employment and other types of information that will assist in improving the performance of all local areas in the designated region on local performance measures; and
3. Coordinate the provision of WIA title I services, including supportive services such as transportation, across the boundaries of local areas within the designated region.

(b) Two or more States may designate a labor market area, economic development region, or other appropriate contiguous subarea of the States as an interstate region. In such cases, the States may jointly exercise the State’s functions described in this section.

(c) Designation of intrastate regions and interstate regions and their corresponding performance measures must be described in the respective State Plan(s). For interstate regions, the roles of the respective Governors, State Boards and Local Boards must be described in the respective State Plans.

(d) Unless agreed to by all affected chief elected officials and the Governor, these regional planning activities may not substitute for or replace the requirements applicable to each local area under other provisions of the WIA. (WIA sec. 116(a).)
