§ 668.720 What information must these planning documents contain?

(a) The comprehensive services plan must cover the two Program Years included within a designation cycle. According to planning instructions issued by the Department, the comprehensive services plan must describe in narrative form:

(1) The specific goals of the INA grantees program for the two Program Years involved;
(2) The method the INA grantees will use to target its services to specific segments of its service population;
(3) The array of services which the INA grantees intends to make available;

(b) Nothing in this section restricts the ability of INA grantees to target subgroups of the eligible population (for example, the disabled, substance abusers, TANF recipients, or similar categories), as outlined in an approved Two Year Plan. However, it is unlawful to target services to subgroups on grounds prohibited by WIA section 188 and 29 CFR part 37, including tribal affiliation (which is considered national origin). Outreach efforts, on the other hand, may be targeted to any subgroups.
