§ 556.36 Altrenogest.

(a) Acceptable Daily Intake (ADI). The ADI for total residues of altrenogest is 5 micrograms per kilogram of body weight per day.

(b) Tolerances. The tolerances for altrenogest 2-aminosulfone (marker residue) are:

(1) Cattle—(i) Liver (target tissue): 0.2 parts per million (ppm).

(2) Sheep—(i) Liver (target tissue): 0.25 ppm.

(3) Goat—(i) Liver (target tissue): 0.25 ppm.

(c) Related conditions of use. See § 520.45 of this chapter.
