§ 91.210 Housing market analysis.

(a) General characteristics. Based on information available to the jurisdiction, the plan must describe the significant characteristics of the jurisdiction’s housing market, including the supply, demand, and condition and cost of housing and the housing stock available to serve persons with disabilities, and to serve other low-income persons with special needs, including persons with HIV/AIDS and their families. Data on the housing market should include, to the extent information is available, an estimate of the number of vacant or abandoned buildings and whether units in these buildings are suitable for rehabilitation. The jurisdiction must also identify and describe any areas within the jurisdiction with concentrations of racial/ethnic minorities and/or low-income families, stating how it defines the terms “area of low-income concentration” and “area of minority concentration” for this purpose. The locations and degree of these concentrations must be identified, either in a narrative or on one or more maps.

(b) Public and assisted housing. (1) The plan must describe and identify the public housing developments and the number of public housing units in the jurisdiction, the physical condition of such units, the restoration and revitalization needs, results from the Section 504 needs assessment (i.e., assessment of needs of tenants and applicants on waiting list for accessible units, as required by 24 CFR 8.25), and the public housing agency’s strategy for improving the management and operation of such public housing and for improving the living environment of low- and moderate-income families residing in public housing. The consolidated plan must identify the public housing developments in the jurisdictions that are participating in an approved PHA Plan.

(2) The jurisdiction shall include a description of the number and targeting (income level and type of family served) of units currently assisted by local, state, or federally funded programs, and an assessment of whether any such units are expected to be lost from the assisted housing inventory for any reason, such as expiration of Section 8 contracts.

(c) Homeless facilities. The plan must include a brief inventory of facilities and services that meet the emergency shelter, transitional housing, permanent supportive housing, and permanent housing needs of homeless persons within the jurisdiction, including any persons that are chronically homeless. The inventory should also include (to the extent the information is available to the jurisdiction) an estimate of the percentage or number of beds and supportive services programs that are serving people that are chronically homeless.

(d) Special need facilities and services. The plan must describe, to the extent information is available, the facilities and services that assist persons who are not homeless but who require supportive housing, and programs for ensuring that persons returning from mental and physical health institutions receive appropriate supportive housing.

(e) Barriers to affordable housing. The plan must explain whether the cost of housing or the incentives to develop, maintain, or improve affordable housing in the jurisdiction are affected by public policies, particularly by policies of the jurisdiction, including tax policies affecting land and other property, land use controls, zoning ordinances, building codes, fees and charges, growth limits, and policies that affect the return on residential investment.

(Approved by the Office of Management and Budget under control number 2506–0117)

§ 91.215 Strategic plan.

(a) General. For the categories described in paragraphs (b), (c), (d), (e), and (f) of this section, the consolidated plan must do the following:

(1) Indicate the general priorities for allocating investment geographically within the jurisdiction (or within the EMSA for the HOPWA program) and among different activities and needs, as identified in tables prescribed by HUD.

(2) Describe the rationale for establishing the allocation priorities given to each category of priority needs, particularly among extremely low-income,
low-income, and moderate-income households;

(3) Identify any obstacles to meeting underserved needs;

(4) Summarize the priorities and specific objectives the jurisdiction intends to initiate and/or complete during the time period covered by the strategic plan and how funds that are reasonably expected to be available will be used to address identified needs. For each specific objective statement, identify proposed accomplishments and outcomes the jurisdiction hopes to achieve in quantitative terms over a specified time period (e.g., one, two, three or more years), or in other measurable terms as identified and defined by the jurisdiction. This information is to be provided in accordance with guidance to be issued by HUD.

(b) Affordable housing. With respect to affordable housing, the consolidated plan must include the priority housing needs table prescribed by HUD and must do the following:

(1) The affordable housing section shall describe how the characteristics of the housing market and the severity of housing problems and needs of extremely low-income, low-income, and moderate-income renters and owners identified in accordance with §91.205 provided the rationale for establishing allocation priorities and use of funds made available for rental assistance, production of new units, rehabilitation of existing units, or acquisition of existing units (including preserving affordable housing units that may be lost from the assisted housing inventory for any reason). Household and income types may be grouped together for discussion where the analysis would apply to more than one of them. If the jurisdiction intends to use HOME funds for tenant-based assistance, it must specify local market conditions that led to the choice of that option.

(2) The affordable housing section shall include specific objectives that describe proposed accomplishments the jurisdiction hopes to achieve and must specify the number of extremely low-income, low-income, and moderate-income families to whom the jurisdiction will provide affordable housing as defined in 24 CFR 92.252 for rental housing and 24 CFR 92.254 for homeownership over a specific time period.

(c) Public housing. The consolidated plan must describe the manner in which the plan of the jurisdiction will address the needs of public housing, including the need to increase the number of accessible units where required by a Section 504 Voluntarily Compliance Agreement. The consolidated plan must also describe the jurisdiction's activities to encourage public housing residents to become more involved in management and participate in homeownership. If the public housing agency is designated as “troubled” by HUD under 24 CFR part 902, the jurisdiction must describe the manner in which it will provide financial or other assistance to improve its operations and remove the “troubled” designation.

(d) Homelessness. With respect to homelessness, the consolidated plan must include the priority homeless needs table prescribed by HUD and must describe the jurisdiction's strategy for the following:

(1) Helping low-income families avoid becoming homeless;

(2) Reaching out to homeless persons and assessing their individual needs;

(3) Addressing the emergency shelter and transitional housing needs of homeless persons; and

(4) Helping homeless persons (especially any persons that are chronically homeless) make the transition to permanent housing and independent living.

(e) Other special needs. With respect to special needs of the non-homeless, the consolidated plan must provide a concise summary of the priority housing and supportive service needs of persons who are not homeless but who may or may not require supportive housing (i.e., elderly, frail elderly, persons with disabilities (mental, physical, developmental), persons with alcohol or other drug addiction, persons with HIV/AIDS and their families, and public housing residents). If the jurisdiction intends to use HOME funds for tenant-based assistance to assist one or more of these subpopulations, it must specify local market conditions that led to the choice of this option.
§ 91.215  Nonhousing community development plan. If the jurisdiction seeks assistance under the Community Development Block Grant (CDBG) program, the consolidated plan must provide a concise summary of the jurisdiction’s priority non-housing community development needs eligible for assistance under HUD’s community development programs by CDBG eligibility category, in accordance with a table prescribed by HUD. This community development component of the plan must state the jurisdiction’s specific long-term and short-term community development objectives (including economic development activities that create jobs), which must be developed in accordance with the primary objective of the CDBG program to develop viable urban communities by providing decent housing and a suitable living environment and expanding economic opportunities, principally for low-income and moderate-income persons.

(g) Neighborhood Revitalization. Jurisdictions are encouraged to identify locally designated areas where geographically targeted revitalization efforts are carried out through multiple activities in a concentrated and coordinated manner. In addition, a jurisdiction may elect to carry out a HUD-approved neighborhood revitalization strategy that includes the economic empowerment of low-income residents with respect to one or more of its areas. If HUD approves such a strategy, the jurisdiction can obtain greater flexibility in the use of the CDBG funds in the revitalization area(s) as described in 24 CFR part 570, subpart C. This strategy must identify long-term and short-term objectives (e.g., physical improvements, social initiatives and economic empowerment), expressing them in terms of measures of outputs and outcomes the jurisdiction expects to achieve in the neighborhood through the use of HUD programs.

(h) Barriers to affordable housing. The consolidated plan must describe the jurisdiction’s strategy to remove or ameliorate negative effects of public policies that serve as barriers to affordable housing, as identified in accordance with §91.210(e), except that, if a State requires a unit of general local government to submit a regulatory barrier assessment that is substantially equivalent to the information required under this paragraph (h), as determined by HUD, the unit of general local government may submit its assessment submitted to the State to HUD and shall be considered to have complied with this requirement.

(i) Lead-based paint hazards. The consolidated plan must outline actions proposed or being taken to evaluate and reduce lead-based paint hazards and increase access to housing without such health hazards, how the plan for the reduction of lead-based hazards is related to the extent of lead poisoning and hazards, and how the plan for the reduction of lead-based hazards will be integrated into housing policies and programs.

(j) Anti-poverty strategy. The consolidated plan must provide a concise summary of the jurisdiction’s goals, programs, and policies for reducing the number of poverty-level families and how the jurisdiction’s goals, programs, and policies for producing and preserving affordable housing, set forth in the housing component of the consolidated plan, will be coordinated with other programs and services for which the jurisdiction is responsible and the extent to which they will reduce (or assist in reducing) the number of poverty-level families, taking into consideration factors over which the jurisdiction has control. These policies may include the jurisdiction’s policies for providing employment and training opportunities to section 3 residents pursuant to 24 CFR part 135.

(k) Institutional structure. (1) The consolidated plan must provide a concise summary of the institutional structure, including private industry, nonprofit organizations, community and faith-based organizations, and public institutions, through which the jurisdiction will carry out its housing, homeless, and community development plan, and which assesses the strengths and gaps in that delivery system.

(2) The plan must provide a concise summary of what the jurisdiction will do to overcome gaps in the institutional structure for carrying out its strategy for addressing its priority needs.
Coordination. The consolidated plan must provide a concise summary of the jurisdiction’s activities to enhance coordination between public and assisted housing providers and private and governmental health, mental health, and service agencies. With respect to the preparation of its homeless strategy, the jurisdiction must describe efforts in addressing the needs of persons that are chronically homeless. With respect to the public entities involved, the plan must describe the means of cooperation and coordination among the state and any units of general local government in the metropolitan area in the implementation of its consolidated plan. With respect to economic development, the jurisdiction should describe efforts to enhance coordination with private industry, businesses, developers, and social service agencies.

[71 FR 6964, Feb. 9, 2006]

§ 91.220 Action plan.

The action plan must include the following:

(a) Standard Form 424;

(b) A concise executive summary that includes the objectives and outcomes identified in the plan as well as an evaluation of past performance, a summary of the citizen participation and consultation process (including efforts to broaden public participation) (24 CFR 91.200 (b)), a summary of comments or views, and a summary of comments or views not accepted and the reasons therefore (24 CFR 91.105 (b)(5)).

(c) Resources and objectives—(1) Federal resources. The consolidated plan must provide a concise summary of the federal resources (including grant funds and program income) expected to be made available. Federal resources should include Section 8 funds made available to jurisdictions, Low-Income Housing Tax Credits, and competitive McKinney-Vento Homeless Assistance Act funds, expected to be available to address priority needs and specific objectives identified in the strategic plan.

(2) Other resources. The consolidated plan must indicate resources from private and state and local sources that are reasonably expected to be made available to address the needs identified in the plan. The plan must explain how federal funds will leverage those additional resources, including a description of how matching requirements of the HUD programs will be satisfied. Where the jurisdiction deems it appropriate, the jurisdiction may indicate publicly owned land or property located within the jurisdiction that may be used to address the needs identified in the plan;

(3) Annual objectives. The consolidated plan must contain a summary of the annual objectives the jurisdiction expects to achieve during the forthcoming program year.

(d) Activities to be undertaken. The action plan must provide a description of the activities the jurisdiction will undertake during the next year to address priority needs and objectives. This description of activities shall estimate the number and type of families that will benefit from the proposed activities, the specific local objectives and priority needs (identified in accordance with §91.215) that will be addressed by the activities using formula grant funds and program income the jurisdiction expects to receive during the program year, proposed accomplishments, and a target date for completion of the activity. This information is to be presented in the form of a table prescribed by HUD. The plan must also describe the reasons for the allocation priorities and identify any obstacles to addressing underserved needs;

(e) Outcome measures. Each jurisdiction must provide outcome measures for activities included in its action plan in accordance with guidance to be issued by HUD.

(f) Geographic distribution. A description of the geographic areas of the jurisdiction (including areas of low-income and minority concentration) in which it will direct assistance during the ensuing program year, giving the rationale for the priorities for allocating investment geographically. When appropriate, jurisdictions should estimate the percentage of funds they plan to dedicate to target areas;

(g) Affordable housing. The jurisdiction must specify one-year goals for the number of homeless, non-homeless, and special-needs households to be provided affordable housing using funds
