The consolidated plan must indicate resources from private and non-federal public sources that are reasonably expected to be made available to address the needs identified in the plan. The plan must explain how federal funds will leverage those additional resources, including a description of how matching requirements of the HUD programs will be satisfied. Where the state deems it appropriate, it may indicate publicly owned land or property located within the state that may be used to carry out the purposes identified in the plan;

(3) Annual objectives. The consolidated plan must contain a summary of the annual objectives the state expects to achieve during the forthcoming program year.

(e) Outcome measures. Each state must provide outcome measures for activities included in its action plan in accordance with guidance issued by HUD. For the CDBG program, this would include activities that are likely to be funded as a result of the implementation of the state’s method of distribution.

(f) Geographic distribution. A description of the geographic areas of the State (including areas of low-income and minority concentration) in which it will direct assistance during the ensuing program year, giving the rationale for the priorities for allocating investment geographically. When appropriate, the state should estimate the percentage of funds they plan to dedicate to target area(s).

(g) Affordable housing goals. The state must specify one-year goals for the number of households to be provided affordable housing through activities that provide rental assistance, production of new units, rehabilitation of existing units, and one-year goals for the number of homeless, non-homeless, and special-needs households to be provided affordable housing using funds made available to the state. The term affordable housing shall be as defined in 24 CFR 92.232 for rental housing and 24 CFR 92.254 for homeownership.

(h) Homeless and other special needs activities. Activities it plans to undertake during the next year to address emergency shelter and transitional housing needs of homeless individuals and families (including subpopulations), to prevent low-income individuals and families with children (especially those with incomes below 30 percent of median) from becoming homeless, to help homeless persons make the transition to permanent housing and independent living, specific action steps to end chronic homelessness, and to address the special needs of persons who are not homeless identified in accordance with §91.315(e);

(i) Barriers to affordable housing. Actions it plans to take during the next year to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing. Such policies, procedures, and processes include but are not limited to: land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment.

(i) The method of distribution shall contain a description of all criteria used to select applications from local governments for funding, including the relative importance of the criteria, where applicable. The action plan must include a description of how all CDBG resources will be allocated among funding categories and the threshold factors and grant size limits that are to be applied. The method of distribution must provide sufficient information so that units of general local government will be able to understand and comment on it, understand what criteria and information their application will be judged, and be able to prepare responsive applications. The method of distribution may provide a summary of the selection criteria, provided that all criteria are summarized and the details are set forth in application manuals or other official state publications that are widely distributed to eligible applicants. HUD may monitor the method of distribution as part of its audit and review responsibilities, as provided in §570.493(a)(1), in order to determine compliance with program requirements.

(ii) If the state intends to help non-entitlement units of general local government apply for guaranteed loan funds under 24 CFR part 570, subpart M, it must describe available guarantee amounts and how applications will be selected for assistance. If a state elects to allow units of general local government to carry out community revitalization strategies, the method of distribution shall reflect the state’s process and criteria for approving local government’s revitalization strategies.

(2) HOME. (i) The state shall describe other forms of investment that are not described in 24 CFR 92.205(b).

The guidelines shall describe the conditions under which the state will refinance existing debt. At minimum, the guidelines must:

(A) Demonstrate that rehabilitation is the primary eligible activity and ensure that this requirement is met by
§ 91.325 Establishing a minimum level of rehabilitation per unit or a required ratio between rehabilitation and refinancing.

(B) Require a review of management practices to demonstrate that disinvestment in the property has not occurred; that the long-term needs of the project can be met; and that the feasibility of serving the targeted population over an extended affordability period can be demonstrated.

(C) State whether the new investment is being made to maintain current affordable units, create additional affordable units, or both.

(D) Specify the required period of affordability, whether it is the minimum 15 years or longer.

(3) ESG. The state shall identify the process for awarding grants to state recipients and a description of how the state intends to make its allocation available to units of local government and nonprofit organizations (including community and faith-based organizations).
