is being removed. The term “conversion,” as used in this subpart, does not necessarily mean the physical removal of the public housing development from the site.

**Required Initial Assessments**

§ 972.206 Required initial assessments.

(a) General. A PHA must conduct a required initial assessment (which consists of the certification described in paragraph (b) of this section), in accordance with this section, once for each of its developments, unless:

1. The development is subject to required conversion under 24 CFR part 971;
2. The development is the subject of an application for demolition or disposition that has not been disapproved by HUD;
3. A HOPE VI revitalization grant has been awarded for the development; or
4. The development is designated for occupancy by the elderly and/or persons with disabilities (i.e., is not a general occupancy development).

(b) Certification procedure. For each development, the PHA shall certify that it has:

1. Reviewed the development’s operation as public housing;
2. Considered the implications of converting the public housing to tenant-based assistance; and
3. Concluded that conversion of the development may be:
   (i) Appropriate because removal of the development would meet the necessary conditions for voluntary conversion described in §972.224; or
   (ii) Inappropriate because removal of the development would not meet the necessary conditions for voluntary conversion described §972.224.

(c) Documentation. A PHA must maintain documentation of the reasoning with respect to each required initial assessment.

(d) Timing of submission. Consistent with statutory submission requirements, the results of each required initial assessment (consisting of the certification described in paragraph (b) of this section) must be submitted to HUD as part of the next PHA Annual Plan after its completion.

**Voluntary Conversion Procedure**

§ 972.209 Procedure for voluntary conversion of public housing developments to tenant-based assistance.

A PHA that wishes to convert a public housing development to tenant-based assistance must comply with the following process:

(a) The PHA must perform a conversion assessment, in accordance with §§972.218–972.224 and submit it to HUD as part of the next PHA Annual Plan submission.

(b) The PHA must prepare a conversion plan, in accordance with §972.227–972.233, and submit it to HUD, as part of its PHA Annual Plan, within one year after submitting the conversion assessment. The PHA may submit the conversion plan in the same Annual Plan as the conversion assessment.

(c) The PHA may proceed to convert the development if HUD approves the conversion plan.

§ 972.212 Timing of voluntary conversion.

(a) A PHA may proceed to convert a development covered by a conversion plan only after receiving written approval of the conversion plan from HUD. This approval will be separate from the approval that the PHA receives for its PHA Annual Plan. A PHA may apply for tenant-based assistance in accordance with Section 8 program requirements and will be given priority for receiving tenant-based assistance to replace the public housing units.

(b) A PHA may not demolish or dispose of units or property until completion of the required environmental review under part 58 of this title (if a Responsible Entity has assumed environmental responsibility for the project) or part 50 of this title (if HUD is performing the environmental review). Further, HUD will not approve a conversion plan until completion of the required environmental review. However, before completion of the environmental review, HUD may approve the targeted units for deprogramming and may authorize the PHA to undertake
other activities proposed in the conversion plan that do not require environmental review (such as certain activities related to the relocation of residents), as long as the buildings in question are adequately secured and maintained.

(c) For purposes of determining operating subsidy eligibility, the submitted conversion plan will be considered the equivalent of a formal request to remove dwelling units from the PHA’s inventory and Annual Contributions Contract (ACC). Units that are vacant or are vacated on or after the written notification date will be considered approved for deprogramming under §990.108(b)(1) of this title, and will also be provided the phase down of subsidy pursuant to §990.114 of this title.

(d) HUD may require that funding for the initial year of tenant-based assistance be provided from the public housing Capital Fund, Operating Fund, or both.

§ 972.215 Applicability of the Uniform Relocation Act.

To the extent that tenants are displaced as a direct result of the demolition, acquisition, or rehabilitation of federally-assisted property converted under this subpart, the requirements of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (42 U.S.C. 4601) (URA), and the implementing regulations issued by the Department of Transportation at 49 CFR part 24, apply.

CONVERSION ASSESSMENTS

§ 972.218 Conversion assessment components.

The conversion assessment contains five elements, as described below:

(a) Cost analysis. A PHA must conduct a cost analysis comparing the cost of providing Section 8 tenant-based assistance with the cost of continuing to operate the development as public housing for the remainder of its useful life. The cost methodology necessary to conduct the cost comparisons for voluntary conversions has not yet been finalized. PHAs may not undertake conversions under this subpart until the effective date of the cost methodology, which will be announced in the Federal Register. Once effective, the cost methodology will be codified as an appendix to this part.

(b) Analysis of the market value. (1) A PHA must have an independent appraisal conducted to compare the market value of the development before and after rehabilitation. In both cases, the market value must be based on the use of the development as public housing.

(2) In addition, the appraisal must compare:

(i) The market value of the development before rehabilitation, based on the use of the development as public housing, with the market value of the development after conversion; and

(ii) The market value of the development after rehabilitation, based on the use of the development as public housing, with the market value of the development after conversion.

(3) A copy of the appraisal findings and the analysis of market value of the development in the conversion assessment must be provided in the conversion assessment.

(c) Analysis of rental market conditions. (1) A PHA must conduct an analysis of the likely success of using tenant-based assistance for the residents of the public housing development. This analysis must include an assessment of the availability of decent, safe, and sanitary dwelling units rented at or below the applicable Section 8 payment standard established for the jurisdiction or designated part of the FMR area in which the development is located.

(2) In conducting this assessment, a PHA must take into account:

(i) Its overall use of rental certificates or vouchers under lease and the success rates of using Section 8 tenant-based assistance in the community for the appropriate bedroom sizes, including recent success rates for units renting at or below the established payment standard; and

(ii) Any particular characteristics of the specific residents of the public housing which may affect their ability to be housed (such as large household size or the presence of an elderly or disabled family member).

(d) Impact analysis. A PHA must describe the likely impact of conversion
