plan must be based on the public meeting records and existing survey documents, reports, and other research from Federal agencies, tribal community colleges, and land grant universities. When completed, the plan must:

1. Determine available agricultural resources;
2. Identify specific tribal agricultural resource goals and objectives;
3. Establish management objectives for the resources;
4. Define critical values of the tribe and its members and provide identified resource management objectives; and
5. Identify actions to be taken to reach established objectives.

(c) Where the provisions in this subpart are inconsistent with the Navajo Nation’s agricultural resource management plan, the Secretary may waive the provisions under part 1 of this title, so long as the waiver does not violate a federal statute or judicial decision or conflict with the Secretary’s trust responsibility under federal law.

§ 161.201 Is environmental compliance required?
Actions taken by BIA under this part must comply with the National Environmental Policy Act of 1969, 42 U.S.C. 4321 et seq., applicable provisions of the Council on Environmental Quality, 40 CFR part 1500, and applicable tribal laws and provisions of the Navajo Nation Environmental Policy Act CAP–47–95, where the tribal laws and provisions do not violate a federal or judicial decision or conflict with the Secretary’s trust responsibility under federal law.

§ 161.202 How are range units established?
(a) BIA, with the concurrence of the Navajo Nation, will establish range units on the Navajo Partitioned Lands to provide unified areas for which range management plans can be developed to improve and maintain soil and forage resources. Physical land features, watersheds, drainage patterns, vegetation, soil, resident concentration, problem areas, historical land use patterns, chapter boundaries, special land uses and comprehensive land use planning will be considered in the determination of range unit boundaries.

(b) BIA may modify range unit boundaries with the concurrence of the Navajo Nation. This may include small and/or isolated portions of Navajo Partitioned Lands contiguous to Navajo tribal lands in order to develop more efficient land management.

§ 161.203 Are range management plans required?
Yes. BIA will:
(a) Consult with the Navajo Nation in planning conservation practices, including grazing control and range restoration activities for the Navajo Partitioned Lands.
(b) Develop range management plans with the concurrence of the Navajo Nation.
(c) Approve the range management plans, after concurrence with the Navajo Nation, and the implementation of the plan may begin immediately. The plan will address, but is not limited to, the following issues:
1. Goals for improving vegetative productivity and diversity;
2. Stocking rates;
3. Grazing schedules;
4. Wildlife management;
5. Needs assessment for range and livestock improvements;
6. Schedule for operation and maintenance of existing range improvements and development for cooperative funded projects;
7. Cooperation in the implementation of range studies;
8. Control of livestock diseases and parasites;
9. Fencing or other structures necessary to implement any of the other provisions in the range management plan;
10. Special land uses; and
11. Water development and management.

§ 161.204 How are carrying capacities and stocking rates established?
(a) BIA, with the concurrence of the Navajo Nation, will prescribe, review and adjust the carrying capacity of each range unit by determining the number of livestock, and/or wildlife, that can be grazed on the Navajo Partitioned Lands without inducing damage to vegetation or related resources on
