

§ 1.989(b)-1

26 CFR Ch. I (4-1-11 Edition)

stock of one or more subsidiaries incorporated in other countries. The Dutch corporation's activities are limited to paying its directors and its administrative expenses, receiving capital contributions from its United States parent corporation, contributing capital to its subsidiaries, receiving dividend distributions from its subsidiaries, and distributing dividends to its domestic parent corporation. Under paragraph (b)(2)(i) of this section, the Netherlands corporation is considered to be a QBU.

Example 6. Taxpayer A, an individual resident of the United States, is engaged in a trade or business wholly unrelated to any type of investment activity. A also maintains a portfolio of foreign currency-denominated investments through a foreign broker. The broker is responsible for all activities necessary to the management of A's investments and maintains books and records as described in paragraph (d) of this section, with respect to all investment activities of A. A's investment activities qualify as a QBU under paragraph (b)(2)(ii) of this section to the extent the activities engaged in by A generate expenses that are deductible under section 212 (other than that part of section 212 dealing with expenses incurred in connection with taxes).

Example 7. Taxpayer A, an individual resident of the United States, is the sole shareholder of foreign corporation (FC) whose activities are limited to trading in stocks and securities. FC is a QBU under paragraph (b)(2)(i) of this section.

Example 8. Taxpayer A, an individual resident of the United States, markets and sells in Spain and in the United States various products produced by other United States manufacturers. A has an office and employs a salesman to manage A's activities in Spain, maintains a separate set of books and records with respect to his activities in Spain, and is engaged in a trade or business as defined in paragraph (c) of this section. Therefore, under paragraph (b)(2)(ii) of this section, the activities of A in Spain are considered to be a QBU.

Example 9. Foreign corporation FX is incorporated in Mexico and is wholly owned by a domestic corporation. The domestic corporation elects to treat FX as a domestic corporation under section 1504(d). FX operates entirely in Mexico and maintains a separate set of books and records with respect to its activities in Mexico. FX is a QBU under paragraph (b)(2)(i) of this section. The activities of FX in Mexico also constitute a QBU under paragraph (b)(2)(ii) of this section.

Example 10. F, a foreign corporation, computes a gain of \$100 from the disposition of a United States real property interest (as defined in section 897(c)). The gain is taken into account as if F were engaged in a trade or business in the United States and as if such gain were effectively connected with

such trade or business. F is a QBU under paragraph (b)(2)(i) of this section because of its corporate status. F's disposition activity constitutes a separate QBU under paragraph (b)(3) of this section.

§ 1.989(b)-1 Definition of weighted average exchange rate.

For purposes of section 989(b)(3) and (4), the term "weighted average exchange rate" means the simple average of the daily exchange rates (determined by reference to a qualified source of exchange rates described in § 1.988-1(d)(1)), excluding weekends, holidays and any other nonbusiness days for the taxable year.

[T.D. 8263, 54 FR 38664, Sept. 20, 1989. Redesignated by T.D. 8367, 56 FR 48437, Sept. 25, 1991; 57 FR 6060, Feb. 18, 1992; T.D. 9452, 74 FR 27890, June 11, 2009]

§ 1.989(c)-1 Transition rules for certain branches of United States persons using a net worth method of accounting for taxable years beginning before January 1, 1987.

(a) *Applicability*—(1) *In general.* This section applies to qualified business units (QBU) branches of United States persons, whose functional currency (as defined in section 985 of the Code and regulations issued thereunder) is other than the United States dollar (dollar) and that used a net worth method of accounting for their last taxable year beginning before January 1, 1987. Generally, a net worth method of accounting is any method of accounting under which the taxpayer calculates the taxable income of a QBU branch based on the net change in the dollar value of the QBU branch's equity over the course of a taxable year, taking into account any remittance made during the year. QBU branch equity is the excess of QBU branch assets over QBU branch liabilities. For all taxable years beginning after December 31, 1986, such QBU branches must use the profit and loss method of accounting as described in section 987, except to the extent otherwise provided in regulations under section 985 or any other provision of the Code.

(2) *Insolvent QBU branches.* A taxpayer may apply the principles of this section to a QBU branch that used a net worth method of accounting for its
