§ 48.4081–2 Taxable fuel; tax on removal at a terminal rack.

(a) Overview. This section provides the general rule that all removals of taxable fuel at a terminal rack are subject to tax and the position holder with respect to the fuel is liable for the tax.

(b) Imposition of tax. Tax is imposed on the removal of taxable fuel from a terminal if the taxable fuel is removed at the rack.

(c) Liability for tax—(1) In general. The position holder with respect to the taxable fuel is liable for the tax imposed under paragraph (b) of this section.

(2) Joint and several liability of terminal operator; unregistered position holder—(i) In general. The terminal operator is jointly and severally liable for the tax imposed under paragraph (b) of this section if—

(A) The position holder with respect to the taxable fuel is a person other than the terminal operator and is not a taxable fuel registrant; and

(B) The terminal operator has not met the conditions of paragraph (c)(2)(ii) of this section.

(ii) Conditions for avoidance of liability. A terminal operator is not liable for tax under this paragraph (c)(2) if, at the time of the removal, the terminal operator—

(A) Is a taxable fuel registrant;

(B) Has an unexpired notification certificate (as described in § 48.4081–5) from the position holder; and

(C) Has no reason to believe that any information in the notification certificate is false.

(3) Joint and several liability of terminal operator; incorrect information provided. The terminal operator is jointly and severally liable for the tax imposed under paragraph (b) of this section if, in connection with the removal of diesel fuel or kerosene that is not dyed and marked in accordance with § 48.4082–1, the terminal operator provides any person (including the position holder with respect to the fuel) with any bill of lading, shipping paper, record, or similar document indicating that the diesel fuel or kerosene is dyed and marked in accordance with § 48.4082–1.

(4) Example. The following example illustrates this paragraph (c) and § 48.4082–1:

Example. (1) TO is a terminal operator and PH is the position holder with respect to, and owner of, 8,000 gallons of diesel fuel stored in TO’s terminal. TO and PH are taxable fuel registrants. When the fuel is removed from the terminal at the rack, the fuel is not dyed and marked in accordance with § 48.4082–1, and TO does not provide any person with any paperwork indicating that the fuel is dyed and marked. After the removal from the terminal, PH sells the fuel to individuals for use as heating oil, a nontaxable use.

(ii) Because PH is the position holder of the fuel at the time of the removal from the terminal, FH is liable for the tax imposed by section 4081. The removal is subject to tax because the fuel is not dyed and marked in accordance with § 48.4082–1, and later use of the fuel in a nontaxable use does not make the removal from the terminal exempt from tax.

(iii) Because PH is a taxable fuel registrant and TO did not provide any person with any paperwork indicating that the fuel is dyed and marked, TO is not jointly and severally liable for tax under paragraph (c) (2) or (3) of this section.
(d) Rate of tax. For the rate of tax generally, see section 4081(a). For the rate of tax on gasohol and on gasoline removed for gasohol production, see §48.4081-6.

(e) Exemptions. For exemptions from the tax imposed under this section, see §§48.4082-1 (relating to gasoline blendstocks), 48.4082-5 (relating to diesel fuel and dyed kerosene used in Alaska), and 48.4082-7 (relating to kerosene used for a feedstock purpose).

(f) Effective date. This section is applicable after December 31, 1993.

§48.4081-3 Taxable fuel; taxable events other than removal at the terminal rack.

(a) Overview. Although tax is imposed when taxable fuel is removed from the terminal at the rack, tax also is imposed in certain other situations described in this section.

(b) Tax on removal from a refinery—(1) Imposition of tax. Tax is imposed on the following removals from a refinery:

(i) A removal of taxable fuel by bulk transfer if the refiner or the owner of the taxable fuel immediately before the removal is not a taxable fuel registrant.

(ii) A removal of taxable fuel at the rack.

(iii) After September 30, 1995, a removal of gasohol from an approved refinery by bulk transfer if the refiner treats itself with respect to the removal as a person that is not registered under section 4101. See §48.4101-1(a).

(2) Exception for certain refineries. The tax imposed under paragraph (b)(1)(ii) of this section does not apply to a removal of taxable fuel if—

(i) The taxable fuel is removed from an approved refinery that is not served by pipeline (other than a pipeline for the receipt of crude oil) or vessel;

(ii) The taxable fuel is received at a facility that is operated by a taxable fuel registrant and is located within the bulk transfer/terminal system;

(iii) The removal from the refinery is by—

(A) Rail car; or

(B) In the case of diesel fuel, a trailer or semi-trailer that is used exclusively for the transport service described in paragraphs (b)(2)(i) and (b)(2)(ii) of this section;

(iv) In the case of diesel fuel removed by rail car, the facility at which the fuel is received is operated by the same person that operates the refinery from which the fuel was removed;

(v) In the case of diesel fuel removed by a trailer or semi-trailer, the facility at which the fuel is received is located within 20 miles of the refinery from which the diesel fuel was removed.

(c) Tax on entry into the United States—(1) Imposition of tax. Tax is imposed on the entry of taxable fuel into the United States if—

(i) The entry is by bulk transfer and the enterer is not a taxable fuel registrant; or

(ii) The entry is not by bulk transfer.

(2) Liability for tax—(i) In general. The enterer is liable for the tax imposed under paragraph (c)(1) of this section.

(ii) Joint and several liability of the importer of record. The importer of record with respect to the taxable fuel is jointly and severally liable with the enterer for the tax imposed under paragraph (c)(1) of this section if—

(A) The importer of record is not the enterer of the taxable fuel; and

(B) The enterer is not a taxable fuel registrant.

(iii) Conditions for avoidance of liability. The importer of record is not liable for the tax under paragraph (c)(2)(ii) of this section if, at the time of the entry, the importer of record—

(A) Has an unexpired notification certificate (as described in §48.4081-5) from the enterer; and

(B) Has no reason to believe that any information in the notification certificate is false.
