made by all participants in the enterprise.

(d) Examples. The provisions of this section may be illustrated by the following examples:

Example 1. Corporation X has outstanding 100 shares of voting stock, with each share disposing or withdrawing from P, or the percentage of the profits interest held by A and B in P is less than 20 percent, such 30-percent capital interest will be included in the permitted holdings of F in P.

Example 2. F, a private foundation, is a partner in P partnership. In addition, A and B, the only disqualified persons with respect to F, are partners in P. The partnership agreement of P contains no provisions regarding the sharing of profits by, and the respective capital interests of, the partners.

(i) assume that, under section 704(b), F's distributive share of P taxable income is determined to be 20 percent. In addition, assume that under such section, A and B are determined to have a 4-percent distributive share each of P taxable income. Accordingly, F holds a 20-percent profits interest in P, and A and B hold an 8-percent profits interest in P. Assuming that the provisions of section 4943(c)(2)(B) do not apply, the permitted holdings of F in P are 12 percent of the profits interest in P, determined by subtracting the percentage of the profits interest held by A and B in P (i.e., 8 percent) from 20 percent. (20 percent - 8 percent = 12 percent.) F, therefore, holds a percentage of the profits interest in P in excess of the percentage permitted by §53.4943-3(b)(1). The excess business holdings of F in P are a percentage of the profits interest in P equivalent to such excess percentage, or 8 percent of the profits interest in P, determined by subtracting the permitted holdings of F in P (i.e., 12 percent) from the percentage of the profit interest held by F in P (i.e., 20 percent) (20 percent - 12 percent = 8 percent.)

(ii) Assume that, under the partnership agreement, F would be entitled to a distribution of 20 percent of P's assets upon F's withdrawal from P and to a distribution of 30 percent of P's assets upon the liquidation of P. The excess business holdings of F in P are 20 shares of X voting stock, determined as follows:

<table>
<thead>
<tr>
<th>Percentage of voting stock in X held by F (percent)</th>
<th>30</th>
</tr>
</thead>
<tbody>
<tr>
<td>Percentage of voting stock in X held by A and B (percent)</td>
<td>10</td>
</tr>
<tr>
<td>Percentage of voting stock in X held by F (item (b) divided by item (a)) (percent)</td>
<td>30</td>
</tr>
<tr>
<td>Percentage of voting stock in X held by A and B (item (c) divided by item (a)) (percent)</td>
<td>10</td>
</tr>
<tr>
<td>Number of outstanding votes in X</td>
<td>100</td>
</tr>
<tr>
<td>Number of votes in X held by F</td>
<td>30</td>
</tr>
<tr>
<td>Number of votes in X held by A and B</td>
<td>10</td>
</tr>
</tbody>
</table>

\[ \text{Excess business holdings of F in X (i.e., an amount of X voting stock representing a percentage of voting stock equivalent to that in item (c)) (shares)} = 20 \]

§53.4943-4 Present holdings.

(a) Introduction—(1) Section 4943(c)(4) in general. (1) Paragraph (4) of section 4943(c) prescribes transition rules for a private foundation which, but for such paragraph, would have excess business holdings on May 26, 1969. Section 4943(c)(4) provides such a foundation with protection from the initial tax on excess business holdings in two ways. First, the entire interest of such a foundation in any business enterprise in which such a foundation, but for such paragraph, would have excess business holdings on May 26, 1969, is treated under section 4943(c)(4)(B) as held by disqualified persons for a certain period of time (the “first phase”). The effect of such treatment is to prevent a private foundation from being subject to the initial tax with respect to its May 26, 1969, interest during the first phase holding period and also to prevent the foundation from purchasing any additional business holdings in such business enterprise during

Example 2. F, a private foundation, is a partner in P partnership. In addition, A and B, the only disqualified persons with respect to F, are partners in P. The partnership agreement of P contains no provisions regarding the sharing of profits by, and the respective capital interests of, the partners.

(i) assume that, under section 704(b), F's distributive share of P taxable income is determined to be 20 percent. In addition, assume that under such section, A and B are determined to have a 4-percent distributive share each of P taxable income. Accordingly, F holds a 20-percent profits interest in P, and A and B hold an 8-percent profits interest in P. Assuming that the provisions of section 4943(c)(2)(B) do not apply, the permitted holdings of F in P are 12 percent of the profits interest in P, determined by subtracting the percentage of the profits interest held by A and B in P (i.e., 8 percent) from 20 percent. (20 percent - 8 percent = 12 percent.) F, therefore, holds a percentage of the profits interest in P in excess of the percentage permitted by §53.4943-3(b)(1). The excess business holdings of F in P are a percentage of the profits interest in P equivalent to such excess percentage, or 8 percent of the profits interest in P, determined by subtracting the permitted holdings of F in P (i.e., 12 percent) from the percentage of the profit interest held by F in P (i.e., 20 percent) (20 percent - 12 percent = 8 percent.)

(ii) Assume that, under the partnership agreement, F would be entitled to a distribution of 20 percent of P's assets upon F's withdrawal from P and to a distribution of 30 percent of P's assets upon the liquidation of P. The excess business holdings of F in P are 20 shares of X voting stock, determined as follows:

<table>
<thead>
<tr>
<th>Percentage of voting stock in X held by F (percent)</th>
<th>30</th>
</tr>
</thead>
<tbody>
<tr>
<td>Percentage of voting stock in X held by A and B (percent)</td>
<td>10</td>
</tr>
<tr>
<td>Percentage of voting stock in X held by F (item (b) divided by item (a)) (percent)</td>
<td>30</td>
</tr>
<tr>
<td>Percentage of voting stock in X held by A and B (item (c) divided by item (a)) (percent)</td>
<td>10</td>
</tr>
<tr>
<td>Number of outstanding votes in X</td>
<td>100</td>
</tr>
<tr>
<td>Number of votes in X held by F</td>
<td>30</td>
</tr>
<tr>
<td>Number of votes in X held by A and B</td>
<td>10</td>
</tr>
</tbody>
</table>

\[ \text{Excess business holdings of F in X (i.e., an amount of X voting stock representing a percentage of voting stock equivalent to that in item (c)) (shares)} = 20 \]
such period (unless the combined holdings of the foundation and all disqualified persons fall below the 20 percent (or 35 percent, if applicable) figure prescribed by section 4943(c)(2)). Second, section 4943(c)(4)(A)(I) initially increases the percentage of permitted holdings of such a foundation to a percentage equal to the difference between:

(A) The percentage of combined holdings of the foundation and all disqualified persons in such business enterprise on May 26, 1969 (subject to a 50 percent maximum), and

(B) The percentage of holdings of all disqualified persons.

The percentage referred to in paragraph (a)(1)(i)(A) of this section is referred to in this section as the “substituted level”. This “substituted level” is then reduced by the “downward ratchet rule” prescribed by section 4943(c)(4)(A)(I) and paragraph (d)(3) of this section for certain dispositions by such foundation or by disqualified persons. The primary purpose of the substituted level is to indicate what the permitted holdings in such business enterprise will be immediately after the expiration of the first phase holding period. Thereafter, the permitted holdings of a private foundation itself are further limited to a maximum 25 percent interest in such business enterprise by section 4943(c)(4)(D) as soon as the combined holdings of all disqualified persons in such business enterprise exceed 2 percent (of the voting stock). If the combined holdings of all disqualified persons at no time exceed 2 percent (of the voting stock) during the 15 years following the first phase (“second phase”), then the substituted level is reduced to a 35 percent maximum after the second phase.

(ii) Paragraph (a)(1)(i) of this section may be illustrated by the following example:

Example. On May 26, 1969, private foundation P held a 5 percent interest in corporation X (voting stock and value). On such date disqualified persons held a 16 percent interest in X (voting stock and value). Assume that except for section 4943(c)(4), P would have had a 1 percent interest in X which would have constituted excess business holdings. Therefore, section 4943(c)(4)(B) applies and P’s 5 percent interest in X is treated as held by a disqualified person during the 10-year period beginning May 26, 1969. Since the entire 21 percent held by P and disqualified persons is now treated as held by disqualified persons, P’s substituted level is 21 percent and its permitted holdings are zero (21% - 21%). However, P has no excess business holdings in X, because during the 10-year period P is not treated as holding such interest. The only change in the interest in X occurs on January 2, 1972, when P disposes of 2 percent of its interest in X to A, an unrelated person. Since the interest held by P and all disqualified persons (21% - 2%) is 19% has decreased below 20 percent, P’s substituted level is reduced to 20 percent and its permitted holdings are 1 percent (20% - 19%) on such date. Therefore, if the other interests in X do not change, P will not have excess business holdings if P purchases no more than an additional 1 percent interest in X.

(2) Interaction of provisions of section 4943(c) (4), (5), and (6). During the first phase, a private foundation may acquire additional interests in a business enterprise, other than by purchase, which are entitled to be treated as held by disqualified persons for varying holding periods under section 4943(c) (5) or (6) (relating respectively to certain holdings acquired pursuant to the terms of a trust or will in effect on May 26, 1969, and to the 5-year period to dispose of certain gifts, bequests, etc.). In any case holdings which the private foundation disposes of shall be charged first against those holdings which it must dispose of in the shortest period in order to avoid the initial tax thereon. Further, acquisitions of a private foundation under a pre-May 27, 1969, will or trust described in section 4943(3)(5) are treated in a manner similar to the treatment of interests actually held by a private foundation on May 26, 1969. See §§53.4943-5 and 53.4943-6.

(b) Present holdings in general. (1) Section 4943(c)(4)(B) provides that any interest in a business enterprise held by a private foundation on May 26, 1969, if the foundation on such date has excess business holdings (determined without regard to section 4943(c)(4)), shall (while held by the foundation) be treated as held by a disqualified person during a first phase. Therefore, no interest of a private foundation shall be treated as held by a disqualified person under section 4943(c)(4)(B) and this section unless:
§ 53.4943–4

(i) The private foundation was an entity (not including a revocable trust) in existence on May 26, 1969, even though it was not then treated as a private foundation under section 509 or section 4947;

(ii) Such interest was actually or constructively owned by such entity on such date; and

(iii) Without regard to section 4943(c)(4) such entity had on such date an interest (considered in connection with the interests actually or constructively owned by all disqualified persons with respect to such entity on that date in the same business enterprise, determined as if the entity were then a private foundation) which exceeded the permitted holdings prescribed by section 4943(c) (2) or (3).

(See, however, section 4943(c)(5) and § 53.4943–5 for similar treatment for certain interests acquired by a private foundation under the terms of a trust or a will which were in effect on May 26, 1969.) If a private foundation owns an interest described by section 4943(c)(4)(B), then the length of the first phase for such an interest is prescribed by paragraph (c) of this section and shall not be affected by any interest acquired by the private foundation or any disqualified person in such business enterprise after May 26, 1969.

(c) First Phase holding periods—(1) In general. If, on May 26, 1969, a private foundation has excess business holdings in any business enterprise (determined with regard to the 20 or 35 percent permitted holdings of section 4943(c)(2)), then all interest which such foundation holds, actually or constructively, in such enterprise on May 26, 1969, shall (while held by such foundation) be deemed held by a disqualified person during the following periods:

(i) The 20-year period beginning on May 26, 1969, if the private foundation holds, actually or constructively, more than 95 percent of the voting stock (or more than a 95 percent profits or beneficial interest in the case of an unincorporated enterprise) in such enterprise on such date;

(ii) Except as provided in paragraph (c)(1)(i) of this section, the 15-year period beginning on May 26, 1969, if the private foundation and all disqualified persons hold, actually or constructively on such date more than 75 percent of the voting stock (or more than a 75 percent profits or beneficial interest in the case of any unincorporated enterprise) or 75 percent of the value of all outstanding shares of all classes of stock in such enterprise (or more than a 75 percent profits and capital interest in the case of a partnership or joint venture); or

(iii) The 10-year period beginning on May 26, 1969, in any case not described in paragraph (c)(1)(i) or (ii) of this section.

The 20-year, 15-year, or 10-year period described in this subdivision (whichever applies) shall, for purposes of section 4943 and this section, be known as the ‘‘first phase.’’

(2) Sole proprietorships. The 20-year period described in paragraph (c)(1) of this section shall apply with respect to...
§ 53.4943–4 26 CFR Ch. I (4–1–11 Edition)

any interest which a private foundation holds in a sole proprietorship on May 26, 1969. See paragraph (b) of this section for the effect of converting such an enterprise to a corporate, partnership, or other form.

(3) Suspension of first-phase periods. The 20-year, 15-year, or 10-year period described in paragraph (c)(1) of this section shall be suspended during the dependency of any judicial proceeding which is brought and diligently litigated by a disqualified person and which is necessary to reform, or to excuse the foundation from compliance with, its governing instrument or any other instrument (as in effect on May 26, 1969) in order to allow disposition of any excess business holdings held by the foundation on May 26, 1969.

(4) Election to shorten the period during which certain holdings of private foundations are treated as held by disqualified persons. If, on May 26, 1969, the combined holdings of a private foundation and all disqualified persons in any one business enterprise are such as to make applicable the 15-year period referred to in paragraph (c)(1)(i) of this section, and if, on such date, the foundation’s holdings do not exceed 95 percent of the voting stock in such enterprise, then such 15-year period is shortened to the 10-year period referred to in paragraph (c)(1)(ii), if at any time before January 1, 1971, one or more individuals:

(i) Who are substantial contributors (as described in section 507(d)(2)), or members of the family within the meaning of section 4946(d) of one or more substantial contributors, to such private foundation, and

(ii) Who on May 26, 1969, held in the aggregate more than 15 percent of the voting stock in the enterprise, made an election in the manner described in 26 CFR 143.6 (rev. as of Apr. 1, 1974).

(5) Examples. The provisions of this paragraph (c) may be illustrated by the following examples:

Example 1. Assume that F, a private foundation, owns, on May 26, 1969, 50 shares of voting stock in corporation X representing 50 percent of the voting power in X and 25 percent of the value of all outstanding shares of all classes of stock in X. Assume further that A and B, the only disqualified persons with respect to F, own five shares each of voting stock in X on such date. The 10 shares of voting stock in X owned by A and B together represent 10 percent of the voting power in X and 5 percent of the value of all outstanding shares of all classes of stock in X. Under the provisions of §53.4943–3, the excess business holdings of F, in X (determined without regard to section 4943(c)(4)) as of such date are, therefore, 40 percent of X voting stock. Accordingly, since the combined holdings of F, A, and B in X are, on such date, less than 75 percent of the voting stock in X and less than 75 percent of the value of all outstanding shares of all classes of stock in X, under the provisions of section 4943(c)(4)(B)(ii), all holdings of F in X (i.e., 50 percent of X voting stock) will be treated as held by a disqualified person through May 25, 1979.

Example 2. Assume the facts as stated in Example (1), except that F, on December 15, 1969, purchases an additional 10 shares of voting stock in X representing 10 percent of X voting power. Assume, further, that there were no other transactions in the stock in X during 1969. While the 50 percent of X voting stock held by F on May 26, 1969, will be deemed held by a disqualified person through May 25, 1979, the additional 10 shares of X voting stock acquired by purchase by F on December 15, 1969, will no be deemed to be so held. Accordingly, since, under the provisions of §53.4943–3, such 10 shares represent excess business holding of F in X, such 10 shares will be subject to the imposition of tax under the provisions of section 4943(a).

Example 3. Assume the facts as stated in Example (1), except that F, on December 15, 1971 acquires an additional 10 shares of voting stock in X (representing 10 percent of X voting power) under the terms of a will which was executed before May 26, 1969, to which section 4943(c)(5) applies. While the 50 percent of X voting stock held by F on May 26, 1969, will be deemed held by a disqualified person through May 25, 1979, the additional 10 percent of X voting stock acquired by F on December 15, 1971, will, under the provisions of section 4943(c)(5), be deemed held by a disqualified person through December 14, 1981. See §53.4943–5.

Example 4. Assume that F, a private foundation, owns, on May 26, 1969, 50 shares of voting stock in corporation Y representing 50 percent of the voting power in Y. Assume further that C and D, the only disqualified persons with respect to F, own on such date 15 shares each of Y voting stock and that the 30 shares of Y voting stock owned by C and D together represent 30 percent of the voting power in Y. Under the provisions of §53.4943–3 the excess business holdings of F in Y (determined without regard to section 4943(c)(4)) as of such date are, therefore, 50 percent of Y voting stock. Accordingly, since the combined holdings of F, C, and D in Y represent, on such date, more than 75 percent of the voting stock in Y, under the provisions of section 4943(c)(4)(B)(ii), all holdings of F in Y.
Example 3. M, a private foundation, owns on May 26, 1969, sole proprietorship S. Since, under the provisions of §53.5954–3, M’s ownership of S constitutes excess business holdings (determined without regard to section 4943(c)(4) as of May 26, 1969, and since M’s interest in S is greater than 95 percent on such date, under the provisions of this paragraph a disqualified person will be treated as the owner of S for the 20-year period beginning on such date. If S is later incorporated, that percentage of the interest in S retained by M, even though less than a 95-percent interest, shall continue to be treated as held by a disqualified person through May 25, 1989.

Example 6. A and B, individuals, together own on May 26, 1969, 40 shares of voting stock in corporation X representing 40 percent of the voting power in X and 20 percent of the value of all outstanding shares of all classes of stock in X. A and B are both disqualified persons with respect to F, a private foundation, which owns no stock in X on May 26, 1969. On January 1, 1973, A and B donate the 40 shares of X voting stock held by them to F. Since F had no excess business holdings on May 26, 1969, section 4943(c)(4) does not apply. See however, section 4943(c)(6) and §53.4943–6.

Example 7. Assume the facts as stated in Example (6), except that F, on May 26, 1969, owns 50 shares of voting stock in X, representing 50 percent of the voting power in X and 25 percent of the value of all outstanding shares of all classes of stock in X. Under the provisions of this paragraph, the 50 shares of X voting stock held by F on May 26, 1969 shall be treated in accordance with the provisions of section 4943(c)(4), while the 40 shares of X voting stock acquired by F on January 1, 1973 shall be treated in accordance with the provisions of section 4943(c)(6). See §§53.4943–6.

(d) Permitted holdings under section 4943(c)(4)—(1) In general. The permitted holdings of a private foundation to which section 4943(c)(4) applies in a business enterprise shall be as follows:

(i) The excess of the substituted combined voting level over the disqualified person voting level, and separately,

(ii) The excess of the substituted combined value level over the disqualified person value level.

(2) Definitions. For purposes of paragraph (d) of this section:

(i) The term disqualified person voting level on any given date means the percentage of voting stock held by all disqualified persons together on such date (including stock deemed held by such a person by reason of section 4943(c)(4), (5), or (6)).

(ii) The term disqualified person value level on any given date means the percentage of the total value of all outstanding shares of all classes of stock in a business enterprise held by all disqualified persons together on such date (including stock deemed held by such a person by reason of section 4943(c)(4), (5), or (6)).

(iii) The term foundation voting level prior to the second phase is equal to zero. After the first phase, such term on any given date means the lowest percentage of voting stock held by a private foundation (without regard to section 4943(c)(4)(B)) in a business enterprise on May 26, 1969, and at all times thereafter up to such date. See section 4943(c)(5) and §53.4943–5 for the effect of the interests acquired pursuant to the terms of certain wills or trusts in effect on May 26, 1969.

(iv) The term foundation value level prior to the second phase is equal to zero. After the first phase, such term on any given date means the lowest percentage of the total value of all outstanding shares of all classes of stock held by a private foundation (without regard to section 4943(c)(4)(B)) in a business enterprise on May 26, 1969, and at all times thereafter up to such date. See section 4943(c)(5) and §53.4943–5 for the effect of the interests acquired pursuant to the terms of certain wills or trusts in effect on May 26, 1969.

(v) The term substituted combined voting level means the lowest percentage to which the sum of the foundation voting level plus the disqualified person voting level has been reduced since May 26, 1969, by paragraph (d)(4) of this section to the following modifications (the “downward ratchet rule”), subject:

(A) In no event shall such substituted level exceed 50 percent; and

(B) Such substituted level shall be increased (but not above 50 percent) in accordance with section 4943(c)(5) and §53.4943–5 for certain interests acquired by such foundation pursuant to the terms of a will or trust in effect on May 26, 1969.

(vi) The term substituted combined value level means the lowest percentage to which the sum of the foundation value level plus the disqualified person...
value level has been reduced since May 26, 1969, by paragraph (d)(4) of this section (the "downward ratchet rule"), subject to the following modifications:

(A) In no event shall such substituted level exceed 50 percent; and

(B) Such substituted level shall be increased (but not above 50 percent) in accordance with section 4943(c)(5) and §53.4943-5 for certain interests acquired by such foundation pursuant to the terms of a will or trust in effect on May 26, 1969.

(vii) In the case of an interest in a partnership or joint venture, definitions (i) through (iv) of this subpara- graph shall be applied by substituting "profit interests" for "voting stock" and "all partnership interests" for "all outstanding shares of all classes of stock."

(viii) In the case of an interest in a business enterprise other than a corporation, partnership or joint venture, definitions (i) through (iv) of this subpar- graph shall be applied by substituting "beneficial remainder interests" for "voting stock" and "all beneficial remainder interests" and "all outstanding shares of all classes of stock."

(ix) Each level defined in paragraph (d)(2)(iii), (iv) and (v) as of any date shall be carried over to the subsequent date subject to any adjustments prescribed for such level.

(3) Permitted holdings—First phase. Since during the first phase the sub- stituted combined voting level generally does not exceed the disqualified person voting level, and the sub- stituted combined value level generally does not exceed the disqualified person value level, the permitted holdings during the first phase are generally equal to zero. The permitted holdings during the first phase exceed zero only where the 20 percent (or 35 percent) limitation on the downward ratchet rule contained in paragraph (d)(4)(ii)(B) of this section applies.

(4) Downward ratchet rule—(1) In general. Except as provided in paragraph (d)(4)(ii) of this section and section 4943(c)(5):

(A) Scope of rule. In general, when the percentage of the holdings in a business enterprise held by a private foundation and all disqualified persons to- gether, which section 4943(c)(4) applies, decreases, or when the percentage of the holdings of the private foundation alone in such business enterprise decreases, such holdings may not be increased (except as provided under section 4943(c)(5) or (6)). This so-called "downward ratchet rule" is designed to prevent the private foundation from purchasing additional holdings in the business enterprise until the sub- stituted combined voting level reduced to the 20-percent (or 35 percent) figure prescribed by section 4943(c)(2).

(B) Levels affected. Under the down- ward ratchet rule any decrease after May 26, 1969, in the percentage of hold- ings comprising either the substituted combined voting level, the substituted combined value level, the foundation voting level or the foundation value level shall cause the respective level to be decreased to such decreased percentage for purposes of determining the foundation's permitted holdings.

(C) Implementation of reductions. Thus, if at any time the sum of the founda- tion voting level and the disqualified person voting level is less than the im- mediately preceding substituted com- bined voting level, the substituted level shall be decreased so that it equals such sum. For example, if on May 26, 1969, a foundation and all dis- qualified persons together have hold- ings in a business enterprise equal to 50 percent, on such date the substituted combined voting level and the disquali- fied person voting level equal 50 per- cent (since such holdings of the founda- tion are treated as held by a disquali- fied person). If the private foundation or a disqualified person on May 27, 1969, sold 2 percent of such holdings to a nondisqualified person, the disqualified person voting level would be decreased to 48 percent (50% - 2%), causing the substituted combined voting level to be decreased to 48 percent. As a further example, assume that on May 26, 1969, a foundation and all disqualified persons together have holdings in a busi- ness enterprise equal to 50 percent, and when the first phase expires on May 26, 1979, the substituted combined voting level is still 50 percent, the foundation voting level is 10 percent, and the dis- qualified person voting level is 40 per- cent. If a disqualified person there-
Internal Revenue Service, Treasury § 53.4943–4

after sells 2 percent to a nondisqualified person so that the sum of the disqualified person voting level (40% – 2%=38%) and the foundation voting level (10%) equals 48 percent (38%+10%), then the substituted combined voting level is decreased to 48 percent. Similarly, if at any time the sum of the foundation value level and the disqualified person value level is less than the immediately preceding substituted combined value level, the substituted combined value level shall be decreased so that it equals such sum.

(D) Restrictions on increases in levels. In addition, none of the four levels referred to in paragraph (d)(4)(i)(B) of this section may be adjusted upward to reflect any increase in the holdings comprising such level, except as provided in section 4943(c)(5) and §53.4943-5. As a result, any transfer of May 26, 1969, holdings from a disqualified person to a private foundation shall not increase the foundation voting level or the foundation value level (unless the transfer qualifies under section 4943(c)(5)), and thus may reduce the substituted combined value level (and where appropriate, the substituted combined voting level). Thus, in the last preceding example, if the disqualified person, instead of selling the 2 percent interest to a nondisqualified person, had sold such interest to the foundation, the substituted combined voting level would still be reduced to 48 percent, since the disqualified person voting level would be reduced by 2 percent (to 38%) but the foundation voting level would not be increased by 2 percent (remaining at 10%). However, any transfer of May 26, 1969, holdings from a private foundation to a disqualified person under section 101(1)(2)(B) of the Tax Reform Act of 1969, shall reduce the foundation value level (and, where appropriate, the foundation voting level), but will not reduce the substituted combined value level or the substituted combined voting level. The disqualified person voting level and disqualified person value level are correspondingly increased, not being limited to interest held since May 26, 1969. In addition, a transfer of May 26, 1969, holdings from one disqualified person to another, for example, by bequest, shall not reduce the substituted combined voting level nor the substituted combined value level.

(ii) Exceptions—(A) One percent de minimus rule. If after May 26, 1969, there are one or more decreases in the holdings comprising any of the four levels referred to in paragraph (d)(4)(i)(B) of this section during any taxable year of a private foundation, and if such decreases are attributable to issuances of stock (or such issuances coupled with redemptions), then, unless the aggregate of such decreases equals or exceeds 1 percent, the determination of whether there is a decrease in such level for purposes of this paragraph (d)(4) shall be made only at the close of such taxable year. If, however, the aggregate of such decreases equals or exceeds 1 percent, such level shall be decreased at that time as if the previous sentence has never applied.

(B) Twenty percent (or 35 percent) floor. In no event shall the downward ratchet rule contained in paragraph (d)(4)(i) of this section decrease the substituted combined voting level or the substituted combined value level below 20 percent, or, for purposes of section 4943(c)(2)(B), below 35 percent.

(iii) Special rules—(A) Change of foundation managers. In the case of a foundation manager (as defined in section 4946(b)) who on May 26, 1969, owns holdings in a business enterprise and who is replaced by another foundation manager, the decrease in the substituted combined voting or value levels shall be limited to the excess, if any, of the departing foundation manager’s holdings over his successor’s holdings.

(B) Termination of private foundation status under section 507. If an organization gives the notification described in section 507(b)(1)(B)(ii) of the commencement of a 60-month termination period and fails to meet the requirements of section 509(a)(1), (2) or (3) for the entire period, then such organization will be treated as a private foundation during the entire 60-month period for purposes of this paragraph (d)(4) and section 4946(a)(1)(H). For example, X, a private foundation gives notification of the commencement of a 60-month termination commencing on
January 1, 1972. X and Y, another private foundation, are effectively controlled by the same persons within the meaning of section 4946(a)(1)(H). X and Y hold 25 percent each of the voting stock of Z corporation on May 26, 1969, so that the substituted combined voting level for X or Y is 50 percent on such date. If X meets the requirements of section 509(a) (1), (2), or (3) for the entire 60-month period, section 4946(a)(1)(H) is inapplicable to X and, under the downward ratchet rule, the substituted combined voting level for Y is decreased by 25 percent. On the other hand, if X meets the requirements of section 509(a)(2) for its taxable years 1972 and 1973, but fails to meet the requirements of section 509(a)(1), (2), or (3) in 1974, 1975, and 1976, then solely for purposes of section 4943(c)(4)(A)(i) and this paragraph (d)(4), X will be treated as a disqualified person with respect to Y, and Y will be treated as a disqualified person with respect to X, for taxable years 1972 through 1976 pursuant to section 4946(a)(1)(H). Thus, for purposes of section 4943(c)(4)(A)(ii) the substituted combined voting level for X or Y will not be decreased by reason of the fact that X was attempting to terminate under section 507(b)(1)(B), and assuming no other transportations, such level; will remain at 50 percent.

(iv) Examples. The provisions of this paragraph (d)(4) may be illustrated by the following examples:

Example 1. F, a private foundation, owns on May 26, 1969, 50 shares of voting stock in corporation X representing to 50 percent of the voting stock in X and 25 percent of the value of all outstanding shares of all classes of stock in X. A and B, the only disqualified persons with respect to F, together own, on such date, 2 shares of voting stock in X representing 2 percent of the voting stock in X and 1 percent of the value of all outstanding shares of all classes of stock in X. In addition, on such date, F owns 30 shares of nonvoting stock in X representing 30 percent of the value of all outstanding shares of all classes of stock in X, and A and B together own 15 shares of nonvoting stock in X representing 15 percent of the value of all outstanding shares of classes of stock in X. The provisions of section 4943(c)(4)(B)(iii) apply and during the 10-year period beginning on May 26, 1969, a disqualified person is deemed to hold all interests of F in X. Assume that on February 1, 1972, F sells to C, unrelated in individual, 12 shares of voting stock in X representing 12 percent of the voting stock in X and 6 percent of the value of all outstanding shares of all classes of stock in X.

(i) Beginning on May 26, 1969, the disqualified person voting level is 52 percent, the foundation voting level is zero, and the substituted combined voting level is 50 percent; the disqualified person value level is 71 percent, the foundation value level is zero, and the substituted combined value level is 50 percent.

(ii) Beginning on January 1, 1972, the disqualified person voting level is 40 percent (52% – 12%), the foundation voting level is zero, and the substituted combined voting level is 40 percent; the disqualified person value level is 65 percent (71% – 6%), the foundation value level is zero and the substituted combined value level is 50 percent.

Example 2. F, a private foundation on the calendar year basis, holds, on May 26, 1969, 30 percent of the voting stock in corporation Y. C and D, the only disqualified persons with respect to F, together hold, on such date, 19 percent of the voting stock in Y. The provisions of section 4943(c)(4)(B)(iii) apply with respect to F, and disqualified persons are deemed to hold all interests of F in Y for the 10-year period beginning on May 26, 1969, so that the substituted combined voting level as of such date is 40 percent. On February 1, 1973, a stock issuance by Y causes the combined holdings of voting power by F, C, and D in Y to decrease by 0.3 percent. On June 1, 1973, another such issuance causes such combined holdings to decrease by 0.5 percent. In September 1, 1973, an unrelated stock redemption by Y causes such combined holdings to increase by 0.4 percent. Under this paragraph the determination whether there is a decrease in the substituted combined voting level for purposes of the downward ratchet rule shall not be made before January 1, 1974, since the aggregate of the decreases occurring on February 1 and June 1 of 1973 is less than 1 percent (0.3%+0.5%). Therefore, the substituted combined voting level as of January 1, 1974, is 39.4 percent (40% – [(0.3%+0.5%) – 0.4%]).

Example 3. Assume the facts as stated in Example (2), except that, on October 1, 1973, a stock issuance by Y causes the combined holdings of voting power by F, C, and D in Y to decrease by 0.3 percent. Since the aggregate of the decreases occurring on February 1, June 1, and October 1 of 1973 exceeds 1 percent, the determination whether there is a decrease in the substituted combined voting level shall be made as of October 1, 1973. At that time the substituted combined voting level shall be reduced to 39.2 percent (40%–0.3%–0.5%), the lowest actual combined holdings during the period that the de minimis rule was in effect.

(5) Permitted holdings—Second phase—(1) In general. For purposes of section
4943 and this section, the term “second phase” means the 15-year period immediately following the first phase. Upon the expiration of the first phase with respect to an interest to which section 4943(c)(4) applies, such interest shall no longer be treated as held by a disqualified person under section 4943(c)(4)(B). During the second phase, the manner of determining the permitted holdings of a private foundation to which section 4943(c)(4) applies shall be the same as applicable to the first phase, except that a 25 percent maximum shall apply under certain conditions specified in paragraph (d)(5)(ii) of this section. For these purposes the substituted combined voting level and the substituted combined value level in effect for the foundation at the end of the first phase shall be carried over to the second phase. The substituted levels are carried over because although there is a decrease in the disqualified person levels (since holdings are no longer treated as held by disqualified persons under section 4943(c)(4)(B)), a corresponding increase in the foundation levels occurs. For example, if a private foundation on May 26, 1969, held 10 percent of the voting stock in a corporation and disqualified persons held 40 percent of the voting stock, both the disqualified person voting level and the substituted combined voting level equal 50 percent (10% + 40%). Assuming no transactions during the first phase, on May 26, 1979, the disqualified person voting level would be decreased to 40 percent (50% – 10%), but the foundation voting level would be increased to 10 percent so that the substituted combined voting level would remain at 50 percent. In addition, the downward ratchet rule of paragraphs (d)(4) of this section shall continue to apply, to prevent the foundation and disqualified persons from purchasing any additional interest in the same enterprise until the substituted combined voting level decreases below 20 percent.

(ii) 25 percent maximum on foundation holdings. If, or as soon as, the disqualified person voting level exceeds 2 percent after the expiration of the first phase, the permitted holdings shall not thereafter exceed 25 percent of the voting stock or 25 percent of the value of all outstanding shares of all classes of stock, even though the holdings of the foundation and all disqualified persons combined do not exceed the substituted level. Solely for purposes of determining whether the 25 percent limitation of this subdivision (ii) applies, the disqualified person voting level shall not be treated as exceeding 2 percent solely as a result of the holdings of a private foundation which are treated as held by a disqualified person by reason of section 4943(c)(5) or (6). For example, where under the constructive ownership rules for trusts in §53.4943-8(b), a private foundation is deemed to own more than 2 percent of the voting stock of a business enterprise but such stock is treated as held by a disqualified person under section 4943(c)(5), the determination of the substituted percentage for permitted holdings in the second phase will be as if the foundation owned the stock held by the trust. Similarly, where a private foundation is the only remainder beneficiary of a trust that is a disqualified person under section 4946(a)(1)(H), the disqualified person voting level shall not be treated as exceeding 2 percent solely as a result of the holdings of such a trust.

(6) Permitted holdings—Third phase. For purposes of section 4943 and this section, the term “third phase” means the entire period following the second phase. During the third phase the manner of determining the permitted holdings of a private foundation to which section 4943(c)(4) applies shall be the same as applicable to the second phase under paragraph (d)(5) of this section (including the carryover of levels from the earlier phase). However, if the 25 percent limit of paragraph (d)(5)(ii) of this section never applied during the second phase, the substituted combined voting level and the substituted combined value level each shall not exceed 35 percent during the third phase.

(7) Examples. The provisions of this paragraph may be illustrated by the following examples:

Example 1. F, a private foundation, owns on May 26, 1969, 30 shares of voting stock in corporation Z representing 30 percent of the voting power in Z and 15 percent of the value of all outstanding shares of all classes of stock in Z, and owns, on such date, 10 shares of nonvoting stock in Z representing 10 percent of the value of all outstanding shares of
§ 53.4943–4
26 CFR Ch. I (4–1–11 Edition)

all classes of stock in Z. E and G, the only disqualified persons with respect to F, own, on such date, 5 shares each of nonvoting stock in Z. The 10 shares of nonvoting stock in Z owned by E and G together represent 10 percent of the value of all outstanding shares of all classes of stock in Z. Assume further that F cannot meet the requirements for the 35 percent test of section 4943(c)(4)(B). For purposes of applying section 4943(c)(4)(B) and this paragraph, F has excess business holdings in Z (determined without regard to section 4943(c)(4)), because under section 4943(c)(2)(A), F’s permitted holdings are 20 percent (20%−6%) of the voting stock since disqualified persons have no holdings of voting stock. Therefore, section 4943(c)(4)(B) and this paragraph apply, and a disqualified person is treated as holding F’s shares of both voting and nonvoting stock in Z for the 10-year period through May 25, 1979. Thus, since all holdings by F in Z are treated as held by a disqualified person during the first phase, F cannot be subject to tax under section 4943(a) on its May 26, 1969, holdings prior to the termination of the first phase, regardless of whether or not disqualified persons purchase additional shares of Z during the first phase.

Example 2. Assume the same facts as in Example (1), and further assume that there were no transactions in the stock of Z during the first phase (May 26, 1969 through May 25, 1979). During the first phase the permitted holdings by F in Z for both the voting stock and the value is zero. The disqualified person voting level and the substituted combined voting level are each 35 percent (35%+5%) respectively. During the first phase the excess of the disqualified person voting level over the substituted combined voting level (40%−30%) and the excess of the disqualified person value level over the substituted combined value level (40%−35%) indicate how much stock F must dispose of during the first phase to avoid the initial tax when it expires. On May 25, 1979, the last day of the first phase, F disposes of 12 shares of Z voting stock, representing 12 percent of the voting power in Z and 6 percent of the value of all such outstanding shares. The disposition by F reduces the interest F owns to 18 percent (30%−12%) of the voting power, and 19 percent (25%−6%) of the value of all outstanding shares of all classes of stock, in Z. Since the disqualified person voting level decreases to 28 percent (40%−12%), the substituted combined voting level as of May 25, 1979, accordingly is decreased to 28 percent under the downward ratchet rule. Similarly, the substituted combined value level is decreased to 34 percent, as the disqualified person value level as of such date is 34 percent (40%−6%). On May 26, 1979, the disqualified person voting level is 10 percent (28%−18%), and the disqualified person value level is 15 percent (34%−19%), since the shares owned by F are no longer treated as held by a disqualified person as of such date. Accordingly, on May 26, 1979, the permitted holdings by F and Z are 18 percent of the voting power in Z, because such percentage is equal to the excess of the substituted combined voting level (28%) over the disqualified person voting level (10%) as of such date. Similarly, the permitted holdings of F in Z by value are 19 percent (34%−15%). If F had not disposed of the 12 shares, then on May 26, 1979, F’s permitted holdings in voting power and value would be 20 percent (30%−10%) and 20 percent (35%−15%), respectively.

Example 3. Assume the facts as stated in Example (2), except that E and G acquire, on February 1, 1970, 10 shares of Z voting stock representing 10 percent of the voting power in Z and 5 percent of the value of all outstanding shares of all classes of stock in Z. During the first phase such permitted holdings remain zero, and prior to May 25, 1979, the substituted combined voting level and substituted combined value level remain 30 and 35 percent, respectively, because such levels may not be increased by acquisitions by disqualified persons. However, the disqualified person voting level and the disqualified person value level are each increased to 40 percent (30%+10%) and 40 percent (35%+5%) respectively. During the first phase the excess of the disqualified person voting level over the substituted combined voting level (40%−30%) and the excess of the disqualified person value level over the substituted combined value level (40%−35%) indicate how much stock F must dispose of during the first phase to avoid the initial tax when it expires. On May 25, 1979, the last day of the first phase, F disposes of 12 shares of Z voting stock, representing 12 percent of the voting power in Z and 6 percent of the value of all such outstanding shares. The disposition by F reduces the interest F owns to 18 percent (30%−12%) of the voting power, and 19 percent (25%−6%) of the value of all outstanding shares of all classes of stock, in Z. Since the disqualified person voting level decreases to 28 percent (40%−12%), the substituted combined voting level as of May 25, 1979, accordingly is decreased to 28 percent under the downward ratchet rule. Similarly, the substituted combined value level is decreased to 34 percent, as the disqualified person value level as of such date is 34 percent (40%−6%). On May 26, 1979, the disqualified person voting level is 10 percent (28%−18%), and the disqualified person value level is 15 percent (34%−19%), since the shares owned by F are no longer treated as held by a disqualified person as of such date. Accordingly, on May 26, 1979, the permitted holdings by F and Z are 18 percent of the voting power in Z, because such percentage is equal to the excess of the substituted combined voting level (28%) over the disqualified person voting level (10%) as of such date. Similarly, the permitted holdings of F in Z by value are 19 percent (34%−15%). If F had not disposed of the 12 shares, then on May 26, 1979, F’s permitted holdings in voting power and value would be 20 percent (30%−10%) and 20 percent (35%−15%), respectively.
Internal Revenue Service, Treasury

§ 53.4943-4

holdings in Y (determined without regard to section 4943(c)(4)), because under section 4943(c)(3)(A) F’s permitted holdings are 20 percent (20%–0%) of the voting stock since disqualified persons have no holdings of voting stock. Therefore, section 4943(c)(3)(B) and this paragraph apply, and a disqualified person is treated as holding F’s shares of both voting and nonvoting stock in Y for the 10-year period through May 25, 1979. During the first phase the permitted holdings by F in Y of both the voting stock and of value are zero. The disqualified person voting level and the substituted combined voting level are each 35 percent, and the disqualified person value level and the substituted combined value level are each 40 percent (17.5% + 22.5%). The substituted levels are carried over into the second phase. The disqualified person voting level and value level on May 26, 1979, are both zero, because the shares held by F are no longer treated as held by a disqualified person. Therefore, F’s permitted holdings on such date are 35 percent of the voting power (35%–0%) and 40 percent of the value (40%–0%). Assume that on February 1, 1981, A, a disqualified person, acquires 6 percent of the voting stock in Y representing 3 percent of the value of all outstanding shares of all classes of stock in Y. The permitted holdings by F in Z on February 1, 1981, are thus reduced to 25 percent of the voting stock (the lesser of the separate 25% second phase limitation or 29% (35% substituted combined voting level minus 6% disqualified person voting level)) and 25 percent of the value (the lesser of the separate 25% second phase limitation or 37% (40% substituted combined value level minus 3% disqualified person value level)). But see paragraph (d)(8) of this section for limitations on restrictions with respect to nonvoting stock.

(8) Special rule where all holdings are permitted under section 4943(c)(2). (1) Since section 4943(c)(4) and this paragraph provide transitional rules for foundations which otherwise have had excess business holdings on May 26, 1969, no holdings shall cease to be permitted holdings under this paragraph where such holdings would be permitted holdings under section 4943(c)(2) and §53.4943-3. Thus, for example, where the substituted combined voting level had been reduced to 20 percent, the provisions of §53.4943-3(b)(2) concerning nonvoting stock as permitted holdings generally apply.

(i) The provisions of this paragraph (d)(8) may be illustrated by the following example:

Example. (A) F, a private foundation, owns, on May 26, 1969, 40 shares of voting stock in corporation X representing 40 percent of the voting stock in X and 20 percent of the value of all outstanding shares of all classes of stock in X, and owns, on such date, 50 shares of nonvoting stock in X, representing 30 percent of the value of all outstanding shares of all classes of stock in X. A, the only disqualified person with respect to F, owns, on such date, 10 shares of voting stock in X, representing 10 percent of the voting stock in X and 5 percent of the value of all outstanding shares of all classes of stock in X. Under section 4943(c)(4)(B)(iii), a disqualified person is deemed the owner of all holdings of F in X for the 10-year period beginning on May 26, 1969.

(B) Assume that the only transaction in X stock during the first phase is the disposition of 30 shares of voting stock by F on May 1, 1975. The voting stock held by F is permitted holdings under §53.4943-3 and under such section since all disqualified persons together do not own more than 20 percent of the voting stock in X, all nonvoting stock held by F shall also be treated as permitted holdings. Therefore, all the stock held by F is permitted holdings.

(C) Assume that on May 1, 1975, F had disposed of only 15 shares of voting stock and also had disposed of 35 shares of nonvoting stock. On May 26, 1979, at the beginning of the second phase, this paragraph (d)(8) would not apply since F would have excess business holdings under §53.4943-3. Under the provisions of this section, the permitted holdings by F in X on such date are 25 percent of the
voting stock (35% substituted combined voting level minus 10% disqualified person voting level) and 25 percent of the value (30% substituted combined value level minus 5% disqualified person value level).

(9) Special rule for certain private foundations. In the case of a private foundation:

(i) Which was incorporated before January 1, 1951.

(ii) Substantially all of the assets of which on May 26, 1969, consisted of more than 90 percent of the stock of an incorporated business enterprise which is licensed and regulated, the sales or contracts of which are regulated, and the professional representatives of which are licensed, by State regulatory agencies in at least 10 States;

(iii) Which acquired such stock solely by gift, devise, or bequest;

(iv) Which does not purchase any stock or other interest in such enterprise after May 26, 1969, and does not acquire any stock or other interest in any other business enterprise which constitutes excess business holdings under §53.4943-3; and

(v) Which, in the last 5 taxable years ending on or before December 31, 1970, expended substantially all of its adjusted net income (as defined in section 4942(f)) for the purpose or function for which it is organized and operated;

paragraph (d) (1) through (5) of this section (permitted holdings during the first and second phase) shall be applied with respect to the holdings of such foundation in such incorporated business enterprise by substituting “51 percent” for “50 percent,” and section 4943(c)(4)(D) (third phase) shall not apply with respect to such holdings. For purposes of the preceding sentence, stock of such enterprise in a trust created before May 27, 1969, of which the foundation is the remainder beneficiary shall be deemed to be held by such foundation on May 26, 1969, if such foundation held (without regard to such trust) more than 20 percent of the stock of such enterprise on May 26, 1969.

(10) Special rule for changes in the relative values of stock of different classes.

(i) In the case of a corporation that has more than one class of stock outstanding, if the percentage of value held by the private foundation, its disqualified persons, or both, increases over a period of time solely as a result of changes in the relative values of the stock of different classes, then the foundation value level, the disqualified person value level, and the substituted combined value level, as defined in paragraph (d)(2) of this section, shall be adjusted to reflect such increase. An increase in the percentage of value held shall not be considered to have occurred solely as a result of changes in the relative values of the stock of different classes if:

(A) There has been any increase during the period in the percentage of any class of stock held by the private foundation, its disqualified persons, or both, or

(B) There has been any issuance, redemption, or purchase by the issuing corporation of any stock during the period.

See §53.4943-6(d) for rules relating to increases caused by readjustments.

(11) Example. The provisions of this paragraph (b)(10) may be illustrated by the following example:

Example. (i) At all times since May 26, 1969, F, a private foundation, has held 25% (500,000 shares) of the outstanding class of voting stock of X corporation. No disqualified person with respect to F holds any voting stock of X. In addition X has had outstanding since May 26, 1969, a class of non-voting preferred stock, none of which is held by F or a disqualified person. X is an active business corporation and third parties do not have effective control of X. On May 26, 1969, the voting stock (2 million shares outstanding) was trading for $5 a share on the New York Stock Exchange. The non-voting preferred stock, not publicly traded, was valued at $1 million. The total value of all outstanding stock was $11 million ($10 million voting stock plus $1 million non-voting preferred). On May 26, 1969, F held 22.73% of the value of X’s outstanding stock ($2.5 million/$11 million).

(ii) On October 31, 1982, X’s voting stock is trading for $20 a share and the nonvoting stock is valued at $3 million. At all times during the period May 26, 1969, through October 31, 1982, F has held 25 percent of the voting stock and none of the nonvoting stock of X. No stock of X is owned by disqualified persons. No stock of X has been issued, redeemed or purchased by X during this period. On October 13, 1982, the total value of X’s outstanding stock is $43 million ($40 million voting stock and $3 million nonvoting stock) and F holds 22.26 percent of the value of X’s outstanding stock ($10 million/$43 million).
F’s foundation value level and the substituted combined value level are increased from 22.73 percent to 23.26 percent to reflect this change.

(iii) On November 1, 1982, X corporation distributes the stock of Y corporation, a wholly-owned subsidiary, to X’s shareholders. Y is a business enterprise. Under this paragraph (d)(10), all of F’s stock in X is permitted holdings under section 4943 (c)(4) even though the percentage of value held by F has increased from 22.73 percent on May 26, 1969, to 23.26 percent on November 1, 1982. F’s permitted holdings in Y will be determined by reference to F’s permitted holdings in X under §53.4943–7. Therefore, assuming no prohibited transaction occurs, F’s permitted holdings in Y stock and, separately, 23.26 percent of the value of all of Y’s outstanding stock.

§53.4943–5 Present holdings acquired by trust or a will.

(a) Interests to which section 4943(c)(5) applies—(1) In general. Section 4943(c)(5) provides that section 4943(c)(4) (other than the 20-year first phase holding period) applies to an interest in a business enterprise acquired after May 26, 1969 by a private foundation under the terms of a trust which was irrevocable on May 26, 1969, or under the terms of a will executed on or before May 26, 1969, which were in effect on May 26, 1969, and at all times thereafter, as if such interest were held on May 26, 1969. However the first phase holding period prescribed by §53.4943–4(c)(1) (i) or (iii) shall commence for such an interest on the date of distribution to the foundation. Unlike section 4943(c)(4) and §53.4943–4, section 4943(c)(5) and this section treat only the interest so acquired (and not the entire interest held by the foundation in such enterprise on the date of distribution) as held by a disqualified person during a first phase holding period. (See, however, section 4943(c)(6) and paragraph (b)(2) of §53.4943–6 for the treatment of other holdings of the foundation in the same enterprise if an interest to which section 4943(c)(5) applies is acquired from a person who was not a disqualified person prior to the acquisition.) In addition, section 4943(c)(5) and this section shall not apply if after the acquisition of such an interest the foundation would not have excess business holdings (determined without regard to section 4943(c) (4), (5), or (6)).

(2) After-acquired interests. Section 4943(c)(5) and this section shall not apply to any interest acquired after May 26, 1969, by an estate or trust, other than by reason of the death of the decedent. For example, where a foundation is a residuary beneficiary under the terms of a will executed before May 26, 1969, and the residue of the estate consists of cash, then stock subsequently purchased with cash for distribution to the foundation will not be treated as an interest acquired under the terms of a will executed or on or before May 26, 1969.

(3) Certain revocable trusts. If an interest in a business enterprise actually passes to a private foundation under a trust which would have met the tests referred to in paragraph (a)(1) of this section but for the fact that the trust was revocable (even though it was not in fact revoked) and such interest would have passed to such foundation under a will that meets those tests but for the fact that the grantor died without having revoked the trust, then for purposes of section 4943(c)(5) and this section, such an interest shall be treated as having been acquired by the foundation under the will.

(4) Modification of will—(i) In general. For purposes of section 4943(c)(5) and this section, an amendment or republication of a will which was executed on or before May 26, 1969, does not prevent any interest in a business enterprise which was to pass under the terms (which were in effect on May 26, 1969, and at all times thereafter) of such will from being treated as a present holding under section 4943(c) (4) or (5):

(A) Solely because there is a reduction in the interest in the business enterprise which the foundation was to receive under the terms of the will (for example, if the foundation is to receive the residuary estate, and if one class of stock is disposed of by the decedent during his lifetime or by a subsequent codicil);

(B) Solely because such amendment or republication is necessary in order to comply with section 508(e) and the regulations thereunder;
