§ 801.6 Business results measures.

(a) In general. The business results measures will consist of numerical scores determined under the quality measures and the quantity measures described elsewhere in this section.

(b) Quality measures. Quality measures will be determined on the basis of a review by a specially dedicated staff within the IRS of a statistically valid sample of work items handled by certain functions or organizational units determined by the Commissioner or his delegate such as the following:

(1) Examination and collection units and Automated Collection System Units (ACS). The quality review of the handling of cases involving particular taxpayers will focus on such factors as whether IRS personnel devoted an appropriate amount of time to a matter, properly analyzed the facts, and complied with statutory, regulatory, and IRS procedures, including timeliness, adequacy of notifications, and required contacts with taxpayers.
