§ 1.857–2  Real estate investment trust taxable income and net capital gain.

(a) Real estate investment trust taxable income. Section 857(b)(1) imposes a nominal tax and surtax, computed at the rates and in the manner prescribed in section 11, on the “real estate investment trust taxable income”, as defined in section 857(b)(2). Section 857(b)(2) requires certain adjustments to be made to convert taxable income of the real estate investment trust to “real estate investment trust taxable income”. The adjustments are as follows:

(1) Net capital gain. In the case of taxable years ending before October 5, 1976, the net capital gain, if any, is excluded.

(2) Special deductions disallowed. The special deductions provided in part VIII, subchapter B, chapter 1 of the Code (except the deduction under section 248) are not allowed.

(b) Failure to qualify. If a real estate investment trust does not meet the requirements of section 857(a) and paragraph (a) of this section for the taxable year, it will, even though it may otherwise be classified as a real estate investment trust, be taxed in such year as an ordinary corporation and not as a real estate investment trust. In such case, none of the provisions of part II of subchapter M (other than sections 856(g) and 857(d)) will be applicable to it. For the rules relating to the applicability of sections 856(g) and 857(d), see §1.857–7.

(2) The trust complies for such taxable year with the provisions of §1.857–8 (relating to records required to be maintained by a real estate investment trust).

See section 858 and §1.858–1, relating to dividends paid after the close of the taxable year.

(b) Failure to qualify. If a real estate investment trust does not meet the requirements of section 857(a) and paragraph (a) of this section for the taxable year, it will, even though it may otherwise be classified as a real estate investment trust, be taxed in such year as an ordinary corporation and not as a real estate investment trust. In such case, none of the provisions of part II of subchapter M (other than sections 856(g) and 857(d)) will be applicable to it. For the rules relating to the applicability of sections 856(g) and 857(d), see §1.857–7.

§ 1.857–3

Net income from foreclosure property.

(a) In general. For purposes of section 857(b)(40(B), net income from foreclosure property means the aggregate of—

(1) All gains and losses from sales or other dispositions of foreclosure property described in section 1221(1), and,

(2) The difference (hereinafter called "net gain or loss from operations") between (i) the gross income derived from foreclosure property (as defined in section 856(e)) to the extent such gross income is not described in subparagraph (A), (B), (C), (D), (E), or (G) of section 856(c)(3), and (ii) the deductions allowed by chapter 1 of the Code which are directly connected with the production of such gross income.

Thus, the sum of the gains and losses from sales or other dispositions of foreclosure property described in section 1221(1) is aggregated with the net gain or loss from operations in arriving at net income from foreclosure property. For example, if for a taxable year a real estate investment trust has gain of $100 from the sale of an item of foreclosure property described in section 1221(1), a loss of $50 from the sale of an item of foreclosure property described in section 1221(1), gross income of $25 from the rental of foreclosure property that is not gross income described in subparagraph (A), (B), (C), (D), or (G) of section 856(c)(3), and deductions of $35 allowed by chapter 1 of the Code which are directly connected with the production of the rental income, the net income from foreclosure property for the taxable year is $40 ($100 – $50 + ($25 – $35)).
