Subpart C—Standards of Identity for Wine

§ 4.20 Application of standards.

The standards of identity for the several classes and types of wine set forth herein shall be applicable to all regulations and permits issued under the act. Whenever any term for which a standard of identity has been established herein is used in any such regulation or permit, such term shall have the meaning assigned to it by such standard of identity.

§ 4.21 The standards of identity.

Standards of identity for the several classes and types of wine set forth in this part shall be as follows:

(a) *Class 1; grape wine*—(1) *Grape wine* is wine produced by the normal alcoholic fermentation of the juice of sound, ripe grapes (including restored or unrestored pure condensed grape must), with or without the addition, after fermentation, of pure condensed grape must, and with or without added grape brandy or alcohol, but without other addition or abstraction except as may occur in cellar treatment: *Provided*, That the product may be ameliorated before, during or after fermentation by either of the following methods:

(i) By adding, separately or in combination, dry sugar, or such an amount of sugar and water solution as will not increase the volume of the resulting product more than 35 percent; but in no event shall any product so ameliorated have an alcoholic content derived by fermentation, of more than 13 percent by volume, or a natural acid content, if water has been added, of less than 5 parts per thousand, or a total solids content of more than 22 grams per 100 cubic centimeters.

(ii) By adding, separately or in combination, not more than 20 percent by weight of dry sugar, or not more than 10 percent by weight of water.

(iii) In the case of domestic wine, in accordance with 26 U.S.C. 5383.

(iv) The maximum volatile acidity, calculated as acetic acid and exclusive of sulfur dioxide is 0.14 gram per 100 mL (20 °C) for natural red wine and 0.12 gram per 100 mL (20 °C) for other grape wine: *Provided,* That the maximum volatile acidity for wine produced from unameliorated juice of 28 or more degrees Brix is 0.17 gram per 100 milliliters for red wine and 0.15 gram per 100 milliliters for white wine. Grape wine deriving its characteristic color or lack of color from the presence or absence of the red coloring matter of the skins, juice, or pulp of grapes may be designated as ''red wine,'' ''pink (or rose) wine,'' ''amber wine,'' or ''white wine'' as the case may be. Any grape wine containing no added grape brandy or alcohol may be further designated as ''natural.''

(2) *Table wine* is grape wine having an alcoholic content not in excess of 14 percent by volume. Such wine may also be designated as ''light wine,'' ''red table wine,'' ''light white wine,'' ''sweet table wine,'' etc., as the case may be.

(3) *Dessert wine* is grape wine having an alcoholic content in excess of 14 percent but not in excess of 24 percent by volume. Dessert wine having the taste, aroma and characteristics generally attributed to sherry and an alcoholic content, derived in part from added grape brandy or alcohol, of not less than 17 percent by volume, may be designated as ''sherry''. Dessert wines having the taste, aroma and characteristics generally attributed to angelica, madeira, muscatel and port and an alcoholic content, derived in part from added grape brandy or alcohol, of not less than 18 percent by volume, may be designated as ''angelica,'' ''madeira,'' ''muscatel,'' or ''port'' respectively. Dessert wines having the taste, aroma, and characteristics generally attributed to any of the above products and an alcoholic content, derived in part from added grape brandy or alcohol, in excess of 14 percent by volume but, in the case of sherry, less than 17 percent, or, in other cases, less than 18 percent by volume, may be designated as ''light sherry,'' ''light angelica,'' ''light madeira,'' ''light muscatel'' or ''light port,'' respectively.

(b) *Class 2; sparkling grape wine.* (1) *Sparkling grape wine* (including ''sparkling wine,'' ''sparkling red wine'' and ''sparkling white wine'') is grape wine made effervescent with carbon dioxide resulting solely from the fermentation of the wine within a closed container, tank or bottle.

(2) *Champagne* is a type of sparkling light wine which derives its effervescence solely from the secondary fermentation of the wine within glass containers of not greater than one gallon capacity, and which possesses the taste, aroma, and other characteristics attributed to champagne as made in the champagne district of France.

(3)(i) A sparkling light wine having the taste, aroma, and characteristics generally attributed to champagne but not otherwise conforming to the standard for ''champagne'' may, in addition

to but not in lieu of the class designation ''sparkling wine,'' be further designated as:

(A) ''Champagne style;'' or

(B) ''Champagne type;'' or

(C) ''American (or New York State, Napa Valley, etc.) champagne,'' along with one of the following terms: ''Bulk process,'' ''fermented outside the bottle,'' ''secondary fermentation outside the bottle,'' ''secondary fermentation before bottling,'' ''not fermented in the bottle,'' or ''not bottle fermented.'' The term ''charmat method'' or ''charmat process'' may be used as additional information.

(ii) Labels shall be so designed that all the words in such further designation are readily legible under ordinary conditions and are on a contrasting background. In the case of paragraph (b)(3)(i)(C) of this section, TTB will consider whether the label as a whole provides the consumer with adequate information about the method of production and origin of the wine. TTB will evaluate each label for legibility and clarity, based on such factors as type size and style for all components of the further designation and the optional term ''charmat method'' or ''charmat process,'' as well as the contrast between the lettering and its background, and the placement of information on the label.

(iii) Notwithstanding the provisions of paragraphs (b)(3)(i)(A), (B) and (C) of this section, the appropriate TTB officer may authorize the use of a term on sparkling wine labels, as an alternative to those terms authorized in paragraph (b)(3)(i) of this section, but not in lieu of the required class designation ''sparkling wine,'' upon a finding that such term adequately informs the consumer about the method of production of the sparkling wine.

(4) *Crackling wine, petillant wine, frizzante wine* (including cremant, perlant, reciotto, and other similar wine) is sparkling light wine normally less effervescent than champagne or other similar sparkling wine, but containing sufficient carbon dioxide in solution to produce, upon pouring under normal conditions, after the disappearance of air bubbles, a slow and steady effervescence evidenced by the formation of gas bubbles flowing through the wine. Crackling wine which derives its effervescence from secondary fermentation in containers greater than 1-gallon capacity shall be designated ''crackling wine—bulk process,'' and the words ''bulk process'' shall appear in lettering of substantially the same size as the words ''crackling wine.''

(c) *Class 3; carbonated grape wine.* *''Carbonated grape wine''* (including *''carbonated wine,''* *''carbonated red wine,''* and *''carbonated white wine''*) is grape wine made effervescent with carbon dioxide other than that resulting solely from the secondary fermentation of the wine within a closed container, tank or bottle.

(d) *Class 4; citrus wine.* (1)(i) *Citrus wine* or *citrus fruit wine* is wine produced by the normal alcoholic fermentation of the juice of sound, ripe citrus fruit (including restored or unrestored pure condensed citrus must), with or without the addition, after fermentation, of pure condensed citrus must, and with or without added citrus brandy or alcohol, but without any other addition or abstraction except as may occur in cellar treatment: *Provided*, That a domestic product may be ameliorated or sweetened in accordance with the provisions of 26 U.S.C. 5384 and any product other than domestic may be ameliorated before, during, or after fermentation by adding, separately or in combination, dry sugar, or such an amount of sugar and water solution as will not increase the volume of the resulting product more than 35 percent, or in the case of products produced from citrus fruit having a normal acidity of 20 parts or more per thousand, not more than 60 percent, but in no event shall any product so ameliorated have an alcoholic content, derived by fermentation, of more than 14 percent by volume, or a natural acid content, if water has been added, of less than 5 parts per thousand, or a total solids content or more than 22 grams per 100 cubic centimeters.

(ii) The maximum volatile acidity, calculated as acetic acid and exclusive of sulfur dioxide, shall not be, for natural citrus wine, more than 0.14 gram, and for other citrus wine, more than 0.12 gram, per 100 milliliters (20 °C.).

(iii) Any citrus wine containing no added brandy or alcohol may be further designated as ''natural.''

(2) *Citrus table wine* or *citrus fruit table wine* is citrus wine having an alcoholic content not in excess of 14 percent by volume. Such wine may also be designated ''light citrus wine,'' ''light citrus fruit wine,'' ''light sweet citrus fruit wine,'' etc., as the case may be.

(3) *Citrus dessert wine* or *citrus fruit dessert wine* is citrus wine having an alcoholic content in excess of 14 percent but not in excess of 24 percent by volume.

(4) Citrus wine derived wholly (except for sugar, water, or added alcohol) from one kind of citrus fruit, shall be designated by the word ''wine'' qualified by the name of such citrus fruit, e.g., ''orange wine,'' ''grapefruit wine.'' Citrus wine not derived wholly from one kind of citrus fruit shall be designated as ''citrus wine'' or ''citrus fruit wine'' qualified by a truthful and adequate statement of composition appearing in direct conjunction therewith. Citrus wine rendered effervescent by carbon dioxide resulting solely from the secondary fermentation of the wine within a closed container, tank, or bottle shall be further designated as ''sparkling''; and citrus wine rendered effervescent by carbon dioxide otherwise derived shall be further designated as ''carbonated.''

(e) *Class 5; fruit wine.* (1)(i) *Fruit wine* is wine (other than grape wine or citrus wine) produced by the normal alcoholic fermentation of the juice of sound, ripe fruit (including restored or unrestored pure condensed fruit must), with or without the addition, after fermentation, of pure condensed fruit must, and with or without added fruit brandy or alcohol, but without other addition or abstraction except as may occur in cellar treatment: *Provided,* That a domestic product may be ameliorated or sweetened in accordance with the provisions of 26 U.S.C. 5384 and any product other than domestic may be ameliorated before, during, or after fermentation by adding, separately or in combination, dry sugar, or such an amount of dry sugar and water solution as will increase the volume of the resulting product, in the case of wines produced from any fruit or berry other than grapes, having a normal acidity of 20 parts or more per thousand, not more than 60 percent, and in the case of other fruit wines, not more than 35%, but in no event shall any product so ameliorated have an alcoholic content, derived by fermentation, of more than 14 percent by volume, or a natural acid content, if water has been added, of less than 5 parts per thousand, or a total solids content of more than 22 grams per 100 cubic centimeters.

(ii) The maximum volatile acidity, calculated as acetic acid and exclusive of sulfur dioxide, shall not be, for natural fruit wine, more than 0.14 gram, and for other fruit wine, more than 0.12 gram, per 100 milliliters (20 °C.).

(iii) Any fruit wine containing no added brandy or alcohol may be further designated as ''natural.''

(2) *Berry wine* is fruit wine produced from berries.

(3) *Fruit table wine* or *berry table wine* is fruit or berry wine having an alcoholic content not in excess of 14 percent by volume. Such wine may also be designated ''light fruit wine,'' or ''light berry wine.''

(4) *Fruit dessert wine* or *berry dessert wine* is fruit or berry wine having an alcoholic content in excess of 14 percent but not in excess of 24 percent by volume.

(5) Fruit wine derived wholly (except for sugar, water, or added alcohol) from one kind of fruit shall be designated by the word ''wine'' qualified by the name of such fruit, e.g., ''peach wine,'' ''blackberry wine.'' Fruit wine not derived wholly from one kind of fruit shall be designated as ''fruit wine'' or ''berry wine,'' as the case may be, qualified by a truthful and adequate statement of composition appearing in direct conjunction therewith. Fruit wines which are derived wholly (except for sugar, water, or added alcohol) from apples or pears may be designated ''cider'' and ''perry,'' respectively, and shall be so designated if lacking in vinous taste, aroma, and characteristics. Fruit wine rendered effervescent by carbon dioxide resulting solely from the secondary fermentation of the wine within a closed container, tank, or bottle shall be further designated as ''sparkling''; and fruit wine rendered

effervescent by carbon dioxide otherwise derived shall be further designated as ''carbonated.''

(f) *Class 6; wine from other agricultural products.* (1)(i) Wine of this class is wine (other than grape wine, citrus wine, or fruit wine) made by the normal alcoholic fermentation of sound fermentable agricultural products, either fresh or dried, or of the restored or unrestored pure condensed must thereof, with the addition before or during fermentation of a volume of water not greater than the minimum necessary to correct natural moisture deficiencies in such products, with or without the addition, after fermentation, of pure condensed must, and with or without added alcohol or such other spirits as will not alter the character of the product, but without other addition or abstraction except as may occur in cellar treatment: *Provided,* That a domestic product may be ameliorated or sweetened in accordance with part 24, of this chapter, and any product other than domestic may be ameliorated before, during, or after fermentation by adding, separately or in combination, dry sugar or such an amount of sugar and water solution as will not increase the volume of the resulting product more than 35 percent, but in no event shall any product so ameliorated have an alcoholic content, derived by fermentation of more than 14 percent by volume, or a natural acid content, if water has been added, of less than 5 parts per thousand, or a total solids content of more than 22 grams per 100 cubic centimeters.

(ii) The maximum volatile acidity, calculated as acetic acid and exclusive of sulfur dioxide, shall not be, for natural wine of this class, more than 0.14 gram, and for other wine of this class, more than 0.12 gram, per 100 milliliters (20 °C.).

(iii) Wine of this class containing no added alcohol or other spirits may be further designated as ''natural''.

(2) *Table wine* of this class is wine having an alcoholic content not in excess of 14 percent by volume. Such wine may also be designated as ''light''.

(3) *Dessert wine* of this class is wine having an alcoholic content in excess of 14 percent but not in excess of 24 percent by volume.

(4) *Raisin wine* is wine of this class made from dried grapes.

(5) *Sake* is wine of this class produced from rice in accordance with the commonly accepted method of manufacture of such product.

(6) Wine of this class derived wholly (except for sugar, water, or added alcohol) from one kind of agricultural product shall except in the case of ''sake,'' be designated by the word ''wine'' qualified by the name of such agricultural product, e.g., ''honey wine,'' ''raisin wine,'' ''dried blackberry wine.'' Wine of this class not derived wholly from one kind of agricultural product shall be designated as ''wine'' qualified by a truthful and adequate statement of composition appearing in direct conjunction therewith. Wine of this class rendered effervescent by carbon dioxide resulting solely from the secondary fermentation of wine within a closed container, tank, or bottle shall be further designated as ''sparkling''; and wine of this class rendered effervescent by carbon dioxide otherwise derived shall be further designated as ''carbonated.''

(g) *Class 7; aperitif wine.* (1) *Aperitif wine* is wine having an alcoholic content of not less than 15 percent by volume, compounded from grape wine containing added brandy or alcohol, flavored with herbs and other natural aromatic flavoring materials, with or without the addition of caramel for coloring purposes, and possessing the taste, aroma, and characteristics generally attributed to aperitif wine and shall be so designated unless designated as ''vermouth'' under paragraph (g)(2) of this section.

(1) Treatment of any class or type of wine with substances foreign to such wine which remain therein: *Provided,* That the presence in finished wine of not more than 350 parts per million of total sulfur dioxide, or sulphites expressed as sulfur dioxide, shall not be precluded under this paragraph.

(2) Treatment of any class or type of wine with substances not foreign to such wine but which remain therein in larger quantities than are naturally and normally present in other wines of the same class or type not so treated.

(3) Treatment of any class or type of wine with methods or materials of any kind to such an extent or in such manner as to affect the basic composition of the wine so treated by altering any of its characteristic elements.

(4) Blending of wine of one class with wine of another class or the blending of wines of different types within the same class.

(5) Treatment of any class or type of wine for which a standard of identity is prescribed in this subpart with sugar or water in excess of the quantities specifically authorized by such standards:

Provided, That the class or type thereof shall not be deemed to be altered:

(i) Where such wine (other than grape wine) is derived from fruit or other agricultural products having a high normal acidity, if the total solids content is not more than 22 grams per 100 cubic centimeters and the content of natural acid is not less than 7.69 grams per liter, and

(ii) Where such wine is derived exclusively from fruit or other agricultural products the normal acidity of which is 20 parts or more per thousand, if the volume of the resulting product has been increased not more than 60 percent by the addition of sugar and water solution for the sole purpose of correcting natural deficiencies due to such acidity and (except in the case of such wine when produced from fruit or berries other than grapes) there is stated as part of the class and type designation the phrase ''Made with over 35 percent sugar solution.''

(c) Nothing in this section shall preclude the treatment of wine of any class or type in the manner hereinafter specified, provided such treatment does not result in the alteration of the class or type of the wine under the provisions of paragraph (b) of this section.

(1) Treatment with filtering equipment, and with fining or sterilizing agents.

(2) Treatment with pasteurization as necessary to perfect the wines to commercial standards in accordance with acceptable cellar practice but only in such a manner and to such an extent as not to change the basic composition of the wine nor to eliminate any of its characteristic elements.

(3) Treatment with refrigeration as necessary to perfect the wine to commercial standards in accordance with acceptable cellar practice but only in such a manner and to such an extent as not to change the basic composition of the wine nor to eliminate any of its characteristic elements.

(4) Treatment with methods and materials to the minimum extent necessary to correct cloudiness, precipitation, or abnormal color, odor, or flavor developing in wine.

(5) Treatment with constituents naturally present in the kind of fruit or other agricultural product from which the wine is produced for the purpose of correcting deficiencies of these constituents, but only to the extent that such constituents would be present in normal wines of the same class or type not so treated.

(6) Treatment of any class or type of wine involving the use of volatile fruit-flavor concentrates in the manner provided in section 5382 of the Internal Revenue Code.

(7) Notwithstanding the provisions of § 4.21(b) (1), (2) and (4), (c), (d)(4), (e)(5), and (f)(6) carbon dioxide may be used to maintain counterpressure during the transfer of finished sparkling wines from (i) bulk processing tanks to bottles, or (ii) bottle to bottle: *Provided,* That the carbon dioxide content of the wine shall not be increased by more than 0.009 gm. per 100 ml. during the transfer operation.

§ 4.23 Varietal (grape type) labeling.

(a) *General.* The names of one or more grape varieties may be used as the type designation of a grape wine only if the wine is also labeled with an appellation of origin as defined in § 4.25.

(b) *One variety.* Except as provided in paragraph (c) of this section, the name of a single grape variety may be used as the type designation if not less than 75 percent of the wine is derived from grapes of that variety, the entire 75 percent of which was grown in the labeled appellation of origin area.

(c) *Exceptions.* (1) Wine made from any *Vitis labrusca* variety (exclusive of hybrids with *Vitis labrusca* parentage) may be labeled with the variety name if:

(i) Not less than 51 percent of the wine is derived from grapes of the named variety;

(ii) The statement ''contains not less than 51 percent (name of variety)'' is shown on the brand label, back label, or a separate strip label, (except that this statement need not appear if 75 percent or more of the wine is derived from grapes of the named variety); and

(iii) The entire qualifying percentage of the named variety was grown in the labeled appellation of origin area.

(2) Wine made from any variety of any species found by the appropriate TTB officer upon appropriate application to be too strongly flavored at 75 percent minimum varietal content may be labeled with the varietal name if:

(i) Not less than 51 percent of the wine is derived from grapes of that variety;

(ii) The statement ''contains not less than 51 percent (name of variety)'' is shown on the brand label, back label, or a separate strip label (except that this statement need not appear if 75 percent or more of the wine is derived from grapes of the named variety); and

(iii) The entire qualifying percentage of the named variety was grown in the labeled appellation of origin area.

(d) *Two or more varieties.* The names of two or more grape varieties may be used as the type designation if:

(1) All of the grapes used to make the wine are of the labeled varieties;

(2) The percentage of the wine derived from each variety is shown on the label (with a tolerance of plus or minus 2 percent); and

(3)(i) If labeled with a multicounty appellation of origin, the percentage of the wine derived from each variety from each county is shown on the label; or

(ii) If labeled with a multistate appellation of origin, the percentage of the wine derived from each variety from each state is shown on the label.

(e) *List of approved variety names.* Effective February 7, 1996, the name of a grape variety may be used as a type designation for an American wine only if that name has been approved by the Administrator. A list of approved grape variety names appears in subpart J of this part.

[T.D. ATF–370, 61 FR 538, Jan. 8, 1996, as amended by T.D. TTB–91, 76 FR 5476, Feb. 1, 2011]

§ 4.24 Generic, semi-generic, and nongeneric designations of geographic significance.

(a)(1) A name of geographic significance which is also the designation of a class or type of wine, shall be deemed to have become generic only if so found by the Administrator.

(b)(1) A name of geographic significance, which is also the designation of a class or type of wine, shall be deemed to have become semi-generic only if so found by the Administrator. Semi-generic designations may be used to designate wines of an origin other than that indicated by such name only if there appears in direct conjunction therewith an appropriate appellation of origin disclosing the true place of origin of the wine, and if the wine so designated conforms to the standard of identity, if any, for such wine contained in the regulations in this part or, if there be no such standard, to the trade understanding of such class or type. See § 24.257(c) of this chapter for exceptions to the Administrator's authority to remove names from paragraph (b)(2) of this section.

(c)(1) A name of geographic significance, which has not been found by the Administrator to be generic or semi-generic may be used only to designate wines of the origin indicated by such name, but such name shall not be deemed to be the distinctive designation of a wine unless the Administrator finds that it is known to the consumer and to the trade as the designation of a specific wine of a particular place or region, distinguishable from all other wines.

(2) Examples of nongeneric names which are not distinctive designations of specific grape wines are: American, California, Lake Erie, Napa Valley, New York State, French, Spanish. Additional examples of foreign nongeneric names are listed in subpart C of part 12 of this chapter.

(3) Examples of nongeneric names which are also distinctive designations of specific grape wines are: Bordeaux Blanc, Bordeaux Rouge, Graves, Medoc, Saint-Julien, Chateau Yquem, Chateau Margaux, Chateau Lafite, Pommard, Chambertin, Montrachet, Rhone, Liebfraumilch, Rudesheimer, Forster, Deidesheimer, Schloss Johannisberger, Lagrima, and Lacryma Christi. § 4.26 Estate bottled.

(a) *Conditions for use.* The term *Estate bottled* may be used by a bottling winery on a wine label only if the wine is labeled with a viticultural area appellation of origin and the bottling winery:

(1) Is located in the labeled viticultural area; (2) grew all of the grapes used to make the wine on land owned or controlled by the winery within the boundaries of the labeled viticultural area; (3) crushed the grapes, fermented the resulting must, and finished, aged, and bottled the wine in a continuous process (the wine at no time having left the premises of the bottling winery).

(b) *Special rule for cooperatives.* Grapes grown by members of a cooperative bottling winery are considered grown by the bottling winery.

(c) *Definition of ''Controlled''.* For purposes of this section, *Controlled by* refers to property on which the bottling winery has the legal right to perform, and does perform, all of the acts common to viticulture under the terms of a lease or similar agreement of at least 3 years duration.

§ 4.27 Vintage wine.

(a) *General.* Vintage wine is wine labeled with the year of harvest of the grapes and made in accordance with the standards prescribed in classes 1, 2, or 3 of § 4.21. The wine must be labeled with an appellation of origin other than a country (which does not qualify for vintage labeling). The appellation must be shown in direct conjunction with the designation required by § 4.32(a)(2), in lettering substantially as conspicuous as that designation. In no event may the quantity of wine removed from the producing winery, under labels bearing a vintage date, exceed the volume of vintage wine produced in that winery during the year indicated by the vintage date. The following additional rules apply to vintage labeling:

(1) If an American or imported wine is labeled with a viticultural area appellation of origin (or its foreign equivalent), at least 95 percent of the wine must have been derived from grapes harvested in the labeled calendar year; or

(2) If an American or imported wine is labeled with an appellation of origin other than a country or viticultural area (or its foreign equivalent), at least 85 percent of the wine must have been derived from grapes harvested in the labeled calendar year.

(b) *American wine.* A permittee who produced and bottled or packed the

wine, or a person other than the producer who repackaged the wine in containers of 5 liters or less may show the year of vintage upon the label if the person possesses appropriate records from the producer substantiating the year of vintage and the appellation of origin; and if the wine is made in compliance with the provisions of paragraph (a) of this section.

(c) *Imported wine.* Imported wine may bear a vintage date if all of the following conditions are met:

(1) It is made in compliance with the provisions of paragraph (a) of this section;

(2) It is bottled in containers of 5 liters or less prior to importation, or it is bottled in the United States from the original container of the product (showing a vintage date); and

(3) The invoice is accompanied by, or the American bottler possesses, a certificate issued by a duly authorized official of the country of origin (if the country of origin authorizes the issuance of such certificates) certifying that the wine is of the vintage shown, that the laws of the country regulate the appearance of vintage dates upon the labels of wine produced for consumption within the country of origin, that the wine has been produced in conformity with those laws, and that the wine would be entitled to bear the vintage date if it had been sold within the country of origin.

§ 4.28 Type designations of varietal significance.

The following are type designations of varietal significance for American wine. These names may be used as type designations for American wines only if the wine is labeled with an appellation of origin as defined in § 4.25.

(a) *Muscadine.* An American wine which derives at least 75 percent of its volume from *Muscadinia rotundifolia* grapes.

(b) *Muscatel.* An American wine which derives its predominant taste, aroma, characteristics and at least 75 percent of its volume from any Muscat grape source, and which meets the requirements of § 4.21(a)(3).

(c) *Muscat or Moscato.* An American wine which derives at least 75 percent of its volume from any Muscat grape source.

(d) *Scuppernong.* An American wine which derives at least 75 percent of its volume from bronze *Muscadinia rotundifolia* grapes.

(e)(1) *Gamay Beaujolais.* An American wine which derives at least 75 percent of its volume from Pinot noir grapes, Valdiguié grapes, or a combination of both.

(2) For wines bottled on or after January 1, 1999, and prior to April 9, 2007, the name ''Gamay Beaujolais'' may be used as a type designation only if there appears in direct conjunction therewith, but on a separate line and separated by the required appellation of origin, the name(s) of the grape variety or varieties used to satisfy the requirements of paragraph (e)(1) of this section. Where two varietal names are listed, they shall appear on the same line, in order of predominance. The appellation of origin shall appear either on a separate line between the name ''Gamay Beaujolais'' and the grape variety name(s) or on the same line as the grape variety name(s) in a manner that qualifies the grape variety name(s). The following statement shall also appear on the brand or back label: ''Gamay Beaujolais is made from at least 75 percent Pinot noir and/or Valdiguié grapes.''

(3) The designation ''Gamay Beaujolais'' may not be used on labels of American wines bottled on or after April 9, 2007.

(b) *Alteration of labels.* (1) It shall be unlawful for any person to alter, mutilate, destroy, obliterate or remove any mark, brand, or label upon wine held for sale in interstate or foreign commerce or after shipment therein, except as authorized by Federal law, or except as provided in paragraph (b)(2) of this section: *Provided*, That the appropriate TTB officer may, upon written application, permit additional labeling or relabeling of wine for purposes of compliance with the requirements of this part or of State law.

(2) No application for permission to relabel wine need be made in any case where there is added to the container, after removal from customs custody or from the premises where bottled or packed, a label identifying the wholesale or retail distributor thereof, and containing no reference whatever to the characteristics of the product.

§ 4.32a Voluntary disclosure of major food allergens.

(a) *Definitions.* For purposes of this section the following terms have the meanings indicated.

(1) *Major food allergen. Major food allergen* means any of the following:

(i) Milk, egg, fish (for example, bass, flounder, or cod), Crustacean shellfish (for example, crab, lobster, or shrimp), tree nuts (for example, almonds, pecans, or walnuts), wheat, peanuts, and soybeans; or

(ii) A food ingredient that contains protein derived from a food specified in paragraph (a)(1)(i) of this section, except:

(A) Any highly refined oil derived from a food specified in paragraph (a)(1)(i) of this section and any ingredient derived from such highly refined oil; or

(B) A food ingredient that is exempt from major food allergen labeling requirements pursuant to a petition for exemption approved by the Food and Drug Administration (FDA) under 21 U.S.C. 343(w)(6) or pursuant to a notice submitted to FDA under 21 U.S.C. 343(w)(7), provided that the food ingredient meets the terms or conditions, if any, specified for that exemption.

(2) *Name of the food source from which each major food allergen is derived. Name of the food source from which each major food allergen is derived* means the name of the food as listed in paragraph (a)(1)(i) of this section, except that:

(i) In the case of a tree nut, it means the name of the specific type of nut (for example, almonds, pecans, or walnuts);

(ii) In the case of Crustacean shellfish, it means the name of the species of Crustacean shellfish (for example, crab, lobster, or shrimp); and

(iii) The names ''egg'' and ''peanuts'', as well as the names of the different types of tree nuts, may be expressed in either the singular or plural form, and the term ''soy'', soybean'', or ''soya'' may be used instead of ''soybeans''.

(b) *Voluntary labeling standards.* Major food allergens (defined in paragraph (a)(1) of this section) used in the production of a wine may, on a voluntary basis, be declared on any label affixed to the container. However, if any one major food allergen is voluntarily declared, all major food allergens used in production of the wine, including major food allergens used as fining or processing agents, must be declared, except when covered by a petition for exemption approved by the appropriate TTB officer under §4.32b. The major food allergens declaration must consist of the word ''Contains'' followed by a colon and the name of the food source from which each major food allergen is derived (for example, ''Contains: egg'').

(c) *Cross reference.* For mandatory labeling requirements applicable to wines containing FD&C Yellow No. 5 and sulfites, see §§4.32(c) and (e).

[T.D. TTB–53, 71 FR 42267, July 26, 2006]

§4.32b Petitions for exemption from major food allergen labeling.

(a) *Submission of petition.* Any person may petition the appropriate TTB officer to exempt a particular product or class of products from the labeling requirements of §4.32a. The burden is on the petitioner to provide scientific evidence (including the analytical method used to produce the evidence) that demonstrates that the finished product or class of products, as derived by the method specified in the petition, either:

(1) Does not cause an allergic response that poses a risk to human health; or

(2) Does not contain allergenic protein derived from one of the foods identified in §4.32a(a)(1)(i), even though a major food allergen was used in production.

(b) *Decision on petition.* TTB will approve or deny a petition for exemption submitted under paragraph (a) of this section in writing within 180 days of receipt of the petition. If TTB does not provide a written response to the petitioner within that 180-day period, the petition will be deemed denied, unless an extension of time for decision is mutually agreed upon by the appropriate TTB officer and the petitioner. TTB may confer with the Food and Drug Administration (FDA) on petitions for exemption, as appropriate and as FDA resources permit. TTB may require the submission of product samples and other additional information in support of a petition; however, unless required by TTB, the submission of samples or additional information by the petitioner after submission of the petition will be treated as the withdrawal

of the initial petition and the submission of a new petition. An approval or denial under this section will constitute a final agency action.

(c) *Resubmission of a petition.* After a petition for exemption is denied under this section, the petitioner may resubmit the petition along with supporting materials for reconsideration at any time. TTB will treat this submission as a new petition for purposes of the time frames for decision set forth in paragraph (b) of this section.

(d) *Availability of information*—(1) *General.* TTB will promptly post to its public Web site, *http://www.ttb.gov*, all petitions received under this section as well as TTB's responses to those petitions. Any information submitted in support of the petition that is not posted to the TTB Web site will be available to the public pursuant to 5 U.S.C. 552, except where a request for confidential treatment is granted under paragraph (d)(2) of this section.

(2) *Requests for confidential treatment of business information.* A person who provides trade secrets or other commercial or financial information in connection with a petition for exemption under this section may request that TTB give confidential treatment to that information. A failure to request confidential treatment at the time the information in question is submitted to TTB will constitute a waiver of confidential treatment. A request for confidential treatment of information under this section must conform to the following standards:

(i) The request must be in writing;

(ii) The request must clearly identify the information to be kept confidential;

(iii) The request must relate to information that constitutes trade secrets or other confidential commercial or financial information regarding the business transactions of an interested person, the disclosure of which would cause substantial harm to the competitive position of that person;

(iv) The request must set forth the reasons why the information should not be disclosed, including the reasons the disclosure of the information would prejudice the competitive position of the interested person; and

(v) The request must be supported by a signed statement by the interested person, or by an authorized officer or employee of that person, certifying that the information in question is a trade secret or other confidential commercial or financial information and that the information is not already in the public domain.

§ 4.33 Brand names.

(a) *General.* The product shall bear a brand name, except that if not sold under a brand name, then the name of the person required to appear on the brand label shall be deemed a brand name for the purpose of this part.

(b) *Misleading brand names.* No label shall contain any brand name, which, standing alone, or in association with other printed or graphic matter creates any impression or inference as to the age, origin, identity, or other characteristics of the product unless the appropriate TTB officer finds that such brand name, either when qualified by the word ''brand'' or when not so qualified, conveys no erroneous impressions as to the age, origin, identity, or other characteristics of the product.

(c) *Trade name of foreign origin.* This section shall not operate to prohibit the use by any person of any trade name or brand of foreign origin not effectively registered in the United States Patent Office on August 29, 1935, which has been used by such person or his predecessors in the United States for a period of at least five years immediately preceding August 29, 1935: *Provided,* That if such trade name or brand is used, the designation of the product shall be qualified by the name of the locality in the United States in which produced, and such qualifications shall be in script, type, or printing as conspicuous as the trade name or brand.

§ 4.34 Class and type.

(a) The class of the wine shall be stated in conformity with subpart C of this part if the wine is defined therein, except that ''table'' (''light'') and ''dessert'' wines need not be designated as such. In the case of still grape wine there may appear, in lieu of the class designation, any varietal (grape type)

designation, type designation of varietal significance, semigeneric geographic type designation, or geographic distinctive designation, to which the wine may be entitled. In the case of champagne, or crackling wines, the type designation ''champagne'' or ''crackling wine'' (''petillant wine'', ''frizzante wine'') may appear in lieu of the class designation ''sparkling wine''. In the case of wine which has a total solids content of more than 17 grams per 100 cubic centimeters the words ''extra sweet'', ''specially sweetened'', ''specially sweet'' or ''sweetened with excess sugar'' shall be stated as a part of the class and type designation. The last of these quoted phrases shall appear where required by part 24 of this chapter, on wines sweetened with sugar in excess of the maximum quantities specified in such regulations. If the class of the wine is not defined in subpart C, a truthful and adequate statement of composition shall appear upon the brand label of the product in lieu of a class designation. In addition to the mandatory designation for the wine, there may be stated a distinctive or fanciful name, or a designation in accordance with trade understanding. The statement of composition will not include any reference to a varietal (grape type) designation, type designation of varietal significance, semi-generic geographic type designation, or geographic distinctive designation. All parts of the designation of the wine, whether mandatory or optional, shall be in direct conjunction and in lettering substantially of the same size and kind.

(b) An appellation of origin such as ''American,'' ''New York,'' ''Napa Valley,'' or ''Chilean,'' disclosing the true place of origin of the wine, shall appear in direct conjunction with and in lettering substantially as conspicuous as the class and type designation if:

(1) A varietal (grape type) designation is used under the provisions of § 4.23;

(2) A type designation of varietal significance is used under the provisions of § 4.28;

(3) A semi-generic type designation is employed as the class and type designation of the wine pursuant to § 4.24(b);

(4) A product name is qualified with the word ''Brand'' under the requirements of § 4.39 (j); or

(5) The wine is labeled with the year of harvest of the grapes, and otherwise conforms with the provisions of § 4.27. The appellation of origin for vintage wine shall be other than a country.

§ 4.35 Name and address.

(a) *American wine*—(1) *Mandatory statement.* A label on each container of American wine shall state either ''bottled by'' or ''packed by'' followed by the name of the bottler or packer and the address (in accordance with paragraph (c)) of the place where the wine was bottled or packed. Other words may also be stated in addition to the required words ''bottled by'' or ''packed by'' and the required name and address if the use of such words is in accordance with paragraph (a)(2) of this section.

(2) *Optional statements.* (i) In addition to the statement required by paragraph (a)(1), the label may also state the name and address of any other person for whom the wine was bottled or packed, immediately preceded by the words ''bottled for'' or ''packed for'' or ''distributed by.''

(ii) The words defined in paragraphs (a)(2)(iii)–(a)(2)(vi) may be used, in accordance with the definitions given, in addition to the name and address statement required by paragraph (a)(1). Use of these words may be conjoined, using the word ''and'', and with the words ''bottled by'' or ''packed by'' only if the same person performed the defined operation at the same address. More than one name is necessary if the defined operation was performed by a person other than the bottler or packer and more than one address statement is necessary if the defined operation was performed at a different address.

(iii) *Produced* or *Made* means that the named winery:

(A) Fermented not less than 75% of such wine at the stated address, or

(B) Changed the class or type of the wine by addition of alcohol, brandy, flavors, colors, or artificial carbonation at the stated address, or

(C) Produced sparkling wine by secondary fermentation at the stated address.

(iv) *Blended* means that the named winery mixed the wine with other wines of the same class and type at the stated address.

(v) *Cellared*, *Vinted* or *Prepared* means that the named winery, at the stated address, subjected the wine to cellar treatment in accordance with § 4.22(c).

(b) *Imported wine*—(1) *Mandatory statements.* (i) A label on each container of imported wine shall state ''imported by'' or a similar appropriate phrase, followed immediately by the name of the importer, agent, sole distributor, or other person responsible for the importation, followed immediately by the address of the principal place of business in the United States of the named person.

(ii) If the wine was bottled or packed in the United States, the label shall also state one of the following:

(A) ''Bottled by'' or ''packed by'' followed by the name of the bottler or packer and the address (in accordance with paragraph (c)) of the place where the wine was bottled or packed; or

(B) If the wine was bottled or packed for the person responsible for the importation, the words ''imported by and bottled (packed) in the United States for'' (or a similar appropriate phrase) followed by the name and address of the principal place of business in the United States of the person responsible for the importation; or

(C) If the wine was bottled or packed by the person responsible for the importation, the words ''imported and bottled (packed) by'' followed by the name and address of the principal place of business in the United States of the person responsible for the importation.

(iii) If the wine was blended, bottled or packed in a foreign country other than the country of origin, and the label identifies the country of origin, the label shall state ''blended by,'' ''bottled by,'' or ''packed by,'' or other appropriate statement, followed by the name of the blender, bottler or packer and the place where the wine was blended, bottled or packed.

(2) *Optional statements.* In addition to the statements required by paragraph (b) (1), the label may also state the name and address of the principal place of business of the foreign producer. Other words, or their English-language equivalents, denoting winemaking operations may be used in accordance with the requirements of the country of origin, for wines sold within the country of origin.

(c) *Form of address.* The ''place'' stated shall be the post office address shown on the basic permit or other qualifying document of the premises at which the operations took place; and there shall be shown the address for each operation which is designated on the label. An example of such use would be ''Produced at Gilroy, California, and bottled at San Mateo, California, by XYZ Winery,'' except that the street address may be omitted. No additional places or addresses shall be stated for the same person unless:

(1) Such person is actively engaged in the conduct of an additional bona fide and actual alcoholic beverage business at such additional place or address, and

(2) The label also contains in direct conjunction therewith, appropriate descriptive material indicating the function occurring at such additional place or address in connection with the particular product.

(d) *Trade or operating names.* The trade or operating name of any person appearing upon any label shall be identical with a name appearing on the basic permit or other qualifying document.

(e) The provisions of this section are optional until they become mandatory July 27, 1994.

[T.D. ATF–328, 57 FR 33114, July 27, 1992; 57 FR 37591, Aug. 19, 1992. Redesignated by T.D. ATF–953, 68 FR 39455, July 2, 2003]

§ 4.36 Alcoholic content.

(a) Alcoholic content shall be stated in the case of wines containing more than 14 percent of alcohol by volume, and, in the case of wine containing 14 percent or less of alcohol by volume, either the type designation ''table'' wine (''light'' wine) or the alcoholic content shall be stated. Any statement

of alcoholic content shall be made as prescribed in paragraph (b) of this section.

(b) Alcoholic content shall be stated in terms of percentage of alcohol by volume, and not otherwise, as provided in either paragraph (b)(1) or (2) of this section:

(1) ''Alcohol ____ % by volume,'' or similar appropriate phrase; *Provided,* that if the word ''alcohol'' and/or ''volume'' are abbreviated, they shall be shown as ''alc.'' (alc) and/or ''vol.'' (vol), respectively. Except as provided in paragraph (c) of this section, a tolerance of 1 percent, in the case of wines containing more than 14 percent of alcohol by volume, and of 1.5 percent, in the case of wines containing 14 percent or less of alcohol by volume, will be permitted either above or below the stated percentage.

(2) ''Alcohol ____ % to ____ % by volume,'' or similar appropriate phrase; *Provided,* that if the word ''alcohol'' and/or ''volume'' are abbreviated, they shall be shown as ''alc.'' (alc) and/or ''vol.'' (vol), respectively. Except as provided in paragraph (c) of this section, a range of not more than 2 percent, in the case of wines containing more than 14 percent of alcohol by volume, and of not more than 3 percent, in the case of wines containing 14 percent or less of alcohol by volume, will be permitted between the minimum and maximum percentages stated, and no tolerances will be permitted either below such minimum or above such maximum.

(c) Regardless of the type of statement used and regardless of tolerances normally permitted in direct statements and ranges normally permitted in maximum and minimum statements, alcoholic content statements, whether required or optional, shall definitely and correctly indicate the class, type and taxable grade of the wine so labeled and nothing in this section shall be construed as authorizing the appearance upon the labels of any wine of an alcoholic content statement in terms of maximum and minimum percentages which overlaps a prescribed limitation on the alcoholic content of any class, type, or taxable grade of wine, or a direct statement of alcoholic content which indicates that the alcoholic content of the wine is within such a limitation when in fact it is not.

§ 4.37 Net contents.

(a) *Statement of net contents.* The net contents of wine for which a standard of fill is prescribed in § 4.72 shall be stated in the same manner and form as set forth in the standard of fill. The net content of wine for which no standard of fill is prescribed in § 4.72 shall be stated in the metric system of measure as follows:

(1) If more than one liter, net contents shall be stated in liters and in decimal portions of a liter accurate to the nearest one-hundredth of a liter.

(2) If less than one liter, net contents shall be stated in milliliters (ml).

(b) *Statement of U.S. equivalent net contents.* When net contents of wine are stated in metric measure, the equivalent volume in U.S. measure may also be shown. If shown, the U.S. equivalent volume will be shown as follows:

(1) For the metric standards of fill: 3 liters (101 fl. oz.); 1.5 liters (50.7 fl. oz.); 1 liter (33.8 fl. oz.); 750 ml (25.4 fl. oz.); 500 ml (16.9 fl. oz.); 375 ml (12.7 fl. oz.); 187 ml (6.3 fl. oz.); 100 ml (3.4 fl. oz.); and 50 ml (1.7 fl. oz.).

(2) Equivalent volumes of less than 100 fluid ounces will be stated in fluid ounces only, accurate to the nearest one-tenth of a fluid ounce; for example, 700 ml (23.7 fl. oz.).

(3) Equivalent volumes of 100 fluid ounces or more will be stated in fluid ounces only, accurate to the nearest whole fluid ounce; for example, 6 liters (203 fl. oz.).

(c) *Net contents marked in bottle.* The net contents need not be stated on any label if the net contents are displayed by having the same blown, etched, sand-blasted, marked by underglaze coloring, or otherwise permanently marked by any method approved by the appropriate TTB officer, in the sides, front, or back of the bottle, in letters and figures in such manner as to be plainly legible under ordinary circumstances, and such statement is not obscured in any manner in whole or in part.

(d) *Tolerances.* Statement of net contents shall indicate exactly the volume of wine within the container, except that the following tolerances shall be allowed:

(1) Discrepancies due exclusively to errors in measuring which occur in filling conducted in compliance with good commercial practice.

(2) Discrepancies due exclusively to differences in the capacity of containers, resulting solely from unavoidable difficulties in manufacturing such containers so as to be of uniform capacity: *Provided,* That no greater tolerance shall be allowed in case of containers which, because of their design, cannot be made of approximately uniform capacity than is allowed in case of containers which can be manufactured so as to be of approximately uniform capacity.

(3) Discrepancies in measure due to differences in atmospheric conditions in various places and which unavoidably result from the ordinary and customary exposure of alcoholic beverages in containers to evaporation. The reasonableness to discrepancies under this paragraph shall be determined on the facts in each case.

(e) *Unreasonable shortages.* Unreasonable shortages in certain of the containers in any shipment shall not be compensated by overages in other containers in the same shipment.

§ 4.38 General requirements.

(a) *Legibility.* All labels shall be so designed that all the statements thereon required by §§ 4.30 through 4.39 are readily legible under ordinary conditions, and all such statement shall be on a contrasting background.

(b) *Size of type.* (1) Containers of more than 187 milliliters. All mandatory information required on labels by this part, except the alcoholic content statement, shall be in script, type, or printing not smaller than 2 millimeters; except that if contained among other descriptive or explanatory information, the script, type, or printing of the mandatory information shall be of a size substantially more conspicuous than that of the descriptive or explanatory information.

(2) Containers of 187 milliliters or less. All mandatory information required on labels by this part, except the alcoholic content statement, shall not be smaller than 1 millimeter, except that if contained among other descriptive or explanatory information, the script, type, or printing of the mandatory information shall be of a size substantially more conspicuous than that of the descriptive or explanatory information.

(3) Alcoholic content statements shall not appear in script, type, or printing larger or more conspicuous than 3 millimeters nor smaller than 1 millimeter on labels of containers having a capacity of 5 liters or less and shall not be set off with a border or otherwise accentuated.

(c) *English language.* All mandatory label information shall be stated on labels in the English language, except that the brand name, the place of production, and the name of the manufacturer, producer, blender, bottler, packer, or shipper appearing on the label need not be in the English language if the words ''product of'' immediately precede the name of the country of origin stated in accordance with customs requirements. Additional statements in foreign languages may be made on labels, if they do not in any way conflict with, or contradict the requirements of §§ 4.30 through 4.39.

(d) *Location of label.* Labels shall not obscure Government stamps nor be obscured thereby.

(e) *Labels firmly affixed.* All labels shall be affixed to containers of wine in such manner that they cannot be removed without thorough application of water or other solvents.

(f) *Additional information on labels.* Labels may contain information other than the mandatory label information required by §§ 4.30 through 4.39, if such information complies with the requirements of such sections and does not conflict with, nor in any manner qualify statements required by this part. In addition, information which is truthful, accurate, and specific, and which is neither disparaging nor misleading may appear on wine labels.

(g) *Representations as to materials.* If any representation (other than representations or information required by §§ 4.30 through 4.39 or percentage statements required or permitted by this part) is made as to the presence, excellence, or other characteristic of any ingredient in any wine, or used in its production, the label containing such representation shall state, in print, type, or script, substantially as conspicuous as such representation, the name and amount in percent by volume of each such ingredient.

(h) *Statement of contents of containers.* Upon request of the appropriate TTB officer, there shall be submitted a full and accurate statement of the contents of the containers to which labels are to be or have been affixed.

§ 4.38a Bottle cartons, booklets and leaflets.

(a) *General.* An individual covering, carton, or other container of the bottle used for sale at retail (other than a shipping container), or any written, printed, graphic, or other matter accompanying the bottle to the consumer buyer shall not contain any statement, design, device, or graphic, pictorial, or emblematic representation that is prohibited by §§ 4.30 through 4.39 on labels.

(b) *Sealed cartons.* If bottles are enclosed in sealed opaque coverings, cartons, or other containers used for sale at retail (other than a shipping container), such coverings, cartons, or other containers must bear all mandatory label information.

(c) *Other cartons.* (1) If an individual covering, carton, or other container of the bottle used for sale at retail (other than a shipping container) is so designed that the bottle is readily removable, it may display any information which is not in conflict with the label on the bottle contained therein.

(2) Cartons displaying brand names and/or designations must display such names and designations in their entirety—brand names required to be modified, e.g. by ''Brand'' or ''Product of U.S.A.'', must also display such modification.

(3) Wines for which a truthful and adequate statement of composition is required must display such statement.

[T.D. ATF–36, 41 FR 47425, Oct. 29, 1976]

§ 4.39 Prohibited practices.

(a) *Statements on labels.* Containers of wine, or any label on such containers, or any individual covering, carton, or other wrapper of such container, or any written, printed, graphic, or other matter accompanying such container to the consumer shall not contain:

(1) Any statement that is false or untrue in any particular, or that, irrespective of falsity, directly, or by ambiguity, omission, or inference, or by the addition of irrelevant, scientific or technical matter, tends to create a misleading impression.

(2) Any statement that is disparaging of a competitor's products.

(3) Any statement, design, device, or representation which is obscene or indecent.

(4) Any statement, design, device, or representation of or relating to analyses, standards, or tests, irrespective of falsity, which the appropriate TTB officer finds to be likely to mislead the consumer.

(5) Any statement, design, device or representation of or relating to any guarantee, irrespective of falsity, which the appropriate TTB officer finds to be likely to mislead the consumer. Money-back guarantees are not prohibited.

(6) A trade or brand name that is the name of any living individual of public prominence, or existing private or public organization, or is a name that is in simulation or is an abbreviation thereof, or any graphic, pictorial, or emblematic representation of any such individual or organization, if the use of such name or representation is likely falsely to lead the consumer to believe that the product has been endorsed, made, or used by, or produced for, or under the supervision of, or in accordance with the specifications of, such individual or organization; *Provided,* That this paragraph shall not apply to

the use of the name of any person engaged in business as a producer, blender, rectifier, importer, wholesaler, retailer, bottler, or warehouseman of wine, nor to the use by any person of a trade or brand name that is the name of any living individual of public prominence or existing private or public organization, provided such trade or brand name was used by him or his predecessors in interest prior to August 29, 1935.

(7) Any statement, design, device, or representation (other than a statement of alcohol content in conformity with § 4.36), which tends to create the impression that a wine:

(i) Contains distilled spirits;

(ii) Is comparable to a distilled spirit; or

(iii) Has intoxicating qualities.

However, if a statement of composition is required to appear as the designation of a product not defined in these regulations, such statement of composition may include a reference to the type of distilled spirits contained therein.

(8) Any coined word or name in the brand name or class and type designation which simulates, imitates, or which tends to create the impression that the wine so labeled is entitled to bear, any class, type, or permitted designation recognized by the regulations in this part unless such wine conforms to the requirements prescribed with respect to such designation and is in fact so designated on its labels.

(9) Any word in the brand name or class and type designation which is the name of a distilled spirits product or which simulates, imitates, or created the impression that the wine so labeled is, or is similar to, any product customarily made with a distilled spirits base. Examples of such words are: ''Manhattan,'' ''Martini,'' and ''Daquiri'' in a class and type designation or brand name of a wine cocktail; ''Cuba Libre,'' ''Zombie,'' and ''Collins'' in a class and type designation or brand name of a wine specialty or wine highball; ''creme,'' ''cream,'' ''de,'' or ''of'' when used in conjunction with ''menthe,'' ''mint,'' or ''cacao'' in a class and type designation or a brand name of a mint or chocolate flavored wine specialty.

(b) *Statement of age.* No statement of age or representation relative to age (including words or devices in any brand name or mark) shall be made, except (1) for vintage wine, in accordance with the provisions of § 4.27; (2) references relating to methods of wine production involving storage or aging in accordance with § 4.38(f); or (3) use of the word ''old'' as part of a brand name.

(c) *Statement of bottling dates.* The statement of any bottling date shall not be deemed to be a representation relative to age, if such statement appears in lettering not greater than 8-point Gothic caps and in the following form: ''Bottled in ____'' (inserting the year in which the wine was bottled).

(d) *Statement of miscellaneous dates.* No date, except as provided in paragraphs (b) and (c) of this section with respect to statement of vintage year and bottling date, shall be stated on any label unless in addition thereto and in direct conjunction therewith in the same size and kind of printing, there shall be stated an explanation of the significance thereof such as ''established'' or ''founded in''. If any such date refers to the date of establishment of any business or brand name, it shall not be stated, in the case of containers of a capacity of 5 liters or less, in any script, type, or printing larger than 2 millimeters, and shall be stated in direct conjunction with the name of the person, company, or brand name to which it refers if the appropriate TTB officer finds that this is necessary in order to prevent confusion as to the person, company, or brand name to which the establishment date is applicable.

(e) *Simulation of Government stamps.* (1) No labels shall be of such design as to resemble or simulate a stamp of the United States Government or any State or foreign government. No label, other than stamps authorized or required by the United States Government or any State or foreign government, shall state or indicate that the wine contained in the labeled container is produced, blended, bottled, packed, or sold under, or in accordance with, any municipal, State or Federal Government authorization, law, or regulation, unless such statement is required

or specifically authorized by Federal, State or municipal law or regulation, or is required or specifically authorized by the laws or regulations of a foreign country. If the municipal, State, or Federal Government permit number is stated upon a label, it shall not be accompanied by any additional statement relating thereto.

(2) Bonded wine cellar and bonded winery numbers may be stated but only in direct conjunction with the name and address of the person operating such wine cellar or winery. Statement of bonded wine cellar or winery numbers may be made in the following form: ''Bonded Wine Cellar No. ___'', ''Bonded Winery No. ___'', ''B. W. C. No. ___'', ''B. W. No. ___''. No additional reference thereto shall be made, nor shall any use be made of such statement that may convey the impression that the wine has been made or matured under Government supervision or in accordance with Government specifications or standards.

(3) If imported wines are covered by a certificate of origin and/or a certificate of vintage date issued by a duly authorized official of the appropriate foreign government, the label, except where prohibited by the foreign government, may refer to such certificate or the fact of such certification, but shall not be accompanied by any additional statements relating thereto. The reference to such certificate or certification shall be substantially in the following form:

This product accompanied at the time of the importation by a certificate issued by the

---

(Name of government)

government indicating that the product is

(Class and type as stated on the label)

and (if label bears a statement of vintage date) that the wine is of the vintage of

---

(Year of vintage stated on the label)

(f) *Use of the word ''Importer'', or similar words.* The word *Importer,* or similar words, shall not be stated on labels on containers of domestic wine except as part of the bona fide name of a permittee for or by whom, or of a retailer for whom, such wine is bottled, packed or distributed: *Provided,* That in all cases where such words are used as part of such name, there shall be stated on the same label the words ''Product of the United States'', or similar words to negative any impression that the product is imported, and such negative statement shall appear in the same size and kind of printing as such name.

(g) *Flags, seals, coats of arms, crests, and other insignia.* Labels shall not contain, in the brand name or otherwise, any statement, design, device, or pictorial representation which the appropriate TTB officer finds relates to, or is capable of being construed as relating to, the armed forces of the United States, or the American flag, or any emblem, seal, insignia, or decoration associated with such flag or armed forces; nor shall any label contain any statement, design, device, or pictorial representation of or concerning any flag, seal, coat of arms, crest or other insignia, likely to mislead the consumer to believe that the product has been endorsed, made, or used by, or produced for, or under the supervision of, or in accordance with the specifications of the government, organization, family, or individual with whom such flag, seal, coat of arms, crest, or insignia is associated.

(h) *Health-related statements*—(1) *Definitions.* When used in this paragraph (h), terms are defined as follows:

(i) *Health-related statement* means any statement related to health (other than the warning statement required by §16.21 of this chapter) and includes statements of a curative or therapeutic nature that, expressly or by implication, suggest a relationship between the consumption of alcohol, wine, or any substance found within the wine, and health benefits or effects on health. The term includes both specific health claims and general references to alleged health benefits or effects on health associated with the consumption of alcohol, wine, or any substance found within the wine, as well as health-related directional statements. The term also includes statements and claims that imply that a physical or psychological sensation results from

consuming the wine, as well as statements and claims of nutritional value (*e.g.*, statements of vitamin content). Statements concerning caloric, carbohydrate, protein, and fat content do not constitute nutritional claims about the product.

(ii) *Specific health claim* is a type of health-related statement that, expressly or by implication, characterizes the relationship of the wine, alcohol, or any substance found within the wine, to a disease or health-related condition. Implied specific health claims include statements, symbols, vignettes, or other forms of communication that suggest, within the context in which they are presented, that a relationship exists between wine, alcohol, or any substance found within the wine, and a disease or health-related condition.

(iii) *Health-related directional statement* is a type of health-related statement that directs or refers consumers to a third party or other source for information regarding the effects on health of wine or alcohol consumption.

(2) *Rules for labeling*—(i) *Health-related statements.* In general, labels may not contain any health-related statement that is untrue in any particular or tends to create a misleading impression as to the effects on health of alcohol consumption. TTB will evaluate such statements on a case-by-case basis and may require as part of the health-related statement a disclaimer or some other qualifying statement to dispel any misleading impression conveyed by the health-related statement.

(ii) *Specific health claims.* (A) TTB will consult with the Food and Drug Administration (FDA), as needed, on the use of a specific health claim on a wine label. If FDA determines that the use of such a labeling claim is a drug claim that is not in compliance with the requirements of the Federal Food, Drug, and Cosmetic Act, TTB will not approve the use of that specific health claim on a wine label.

(B) TTB will approve the use of a specific health claim on a wine label only if the claim is truthful and adequately substantiated by scientific or medical evidence; sufficiently detailed and qualified with respect to the categories of individuals to whom the claim applies; adequately discloses the health risks associated with both moderate and heavier levels of alcohol consumption; and outlines the categories of individuals for whom any levels of alcohol consumption may cause health risks. This information must appear as part of the specific health claim.

(iii) *Health-related directional statements.* A statement that directs consumers to a third party or other source for information regarding the effects on health of wine or alcohol consumption is presumed misleading unless it—

(A) Directs consumers in a neutral or other non-misleading manner to a third party or other source for balanced information regarding the effects on health of wine or alcohol consumption; and

(B)(*1*) Includes as part of the health-related directional statement the following disclaimer: ''This statement should not encourage you to drink or to increase your alcohol consumption for health reasons;'' or

(*2*) Includes as part of the health-related directional statement some other qualifying statement that the appropriate TTB officer finds is sufficient to dispel any misleading impression conveyed by the health-related directional statement.

(i) *Geographic brand names.* (1) Except as provided in subparagraph 2, a brand name of viticultural significance may not be used unless the wine meets the appellation of origin requirements for the geographic area named.

(2) For brand names used in existing certificates of label approval issued prior to July 7, 1986:

(i) The wine shall meet the appellation of origin requirements for the geographic area named; or

(ii) The wine shall be labeled with an appellation of origin in accordance with § 4.34(b) as to location and size of type of either:

(A) A county or a viticultural area, if the brand name bears the name of a geographic area smaller than a state, or;

(B) A state, county or a viticultural area, if the brand name bears a state name; or

(iii) The wine shall be labeled with some other statement which the appropriate TTB officer finds to be sufficient to dispel the impression that the geographic area suggested by the brand

name is indicative of the origin of the wine.

(3) A name has viticultural significance when it is the name of a state or county (or the foreign equivalents), when approved as a viticultural area in part 9 of this chapter, or by a foreign government, or when found to have viticultural significance by the appropriate TTB officer.

(j) *Product names of geographical significance (not mandatory before January 1, 1983).* The use of product names with specific geographical significance is prohibited unless the appropriate TTB officer finds that because of their long usage, such names are recognized by consumers as fanciful product names and not representations as to origin. In such cases the product names shall be qualified with the word ''brand'' immediately following the product name, in the same size of type, and as conspicuous as the product name itself. In addition, the label shall bear an appellation of origin under the provisions of § 4.34(b), and, if required by the appropriate TTB officer, a statement disclaiming the geographical reference as a representation as to the origin of the wine.

(k) *Other indications of origin.* Other statements, designs, devices or representations which indicate or infer an origin other than the true place of origin of the wine are prohibited.

(l) *Foreign terms.* Foreign terms which: (1) Describe a particular condition of the grapes at the time of harvest (such as ''Auslese,'' ''Eiswein,'' and ''Trockenbeerenauslese''); or (2) denote quality under foreign law (such as ''Qualitatswein'' and ''Kabinett'') may not be used on the labels of American wine.

(m) *Use of a vineyard, orchard, farm or ranch name.* When used in a brand name, a vineyard, orchard, farm or ranch name having geographical or viticultural significance is subject to the requirements of §§ 4.33(b) and 4.39(i) of this part. Additionally, the name of a vineyard, orchard, farm or ranch shall not be used on a wine label, unless 95 percent of the wine in the container was produced from primary winemaking material grown on the named vineyard, orchard, farm or ranch.

(n) *Use of a varietal name, type designation of varietal significance, semi-generic name, or geographic distinctive designation.* Labels that contain in the brand name, product name, or distinctive or fanciful name, any varietal (grape type) designation, type designation of varietal significance, semi-generic geographic type designation, or geographic distinctive designation, are misleading unless the wine is made in accordance with the standards prescribed in classes 1, 2, or 3 of § 4.21. Any other use of such a designation on other than a class 1, 2, or 3 wine is presumed misleading.

Subpart E—Requirements for Withdrawal of Wine From Customs Custody

§ 4.40 Label approval and release.

(a) *Certificate of label approval.* No imported beverage wine in containers shall be released from U.S. Customs custody for consumption unless there is deposited with the appropriate Customs officer at the port of entry the original or a photostatic copy of an approved certificate of label approval, TTB Form 5100.31.

(b) If the original or photostatic copy of TTB Form 5100.31 has been approved, the brand or lot of imported wine bearing labels identical with those shown thereon may be released from U.S. Customs custody.

(c) *Relabeling.* Imported wine in U.S. Customs custody which is not labeled in conformity with certificates of label approval issued by the appropriate TTB officer must be relabeled prior to release under the supervision and direction of Customs officers of the port at which the wine is located.

(d) *Cross reference.* For procedures regarding the issuance, denial, and revocation of certificates of label approval, as well as appeal procedures, see part 13 of this chapter.

[T.D. ATF–66, 45 FR 40546, June 13, 1980, as amended by T.D. ATF–94, 46 FR 55095, Nov. 6, 1981; T.D. ATF–242, 51 FR 39525, Oct. 29, 1986; T.D. ATF–359, 59 FR 42160, Aug. 17, 1994; T.D. ATF–406, 64 FR 2128, Jan. 13, 1999]

§ 4.45 Certificates of origin, identity and proper cellar treatment.

(a) *Origin and identity.* Imported wine shall not be released from customs custody for consumption unless the invoice is accompanied by a certificate of origin issued by a duly authorized official of the appropriate foreign government, if the issuance of such certificates with respect to such wine has been authorized by the foreign government concerned, certifying as to the identity of the wine and that the wine has been produced in compliance with the laws of the respective foreign government regulating the production of such wine for home consumption.

(b) *Certification of proper cellar treatment of natural wine*—(1) *General.* An importer of wine may be required to have in his or her possession at the time of release of the wine from customs custody a certification or may have to comply with other conditions prescribed in § 27.140 of this chapter regarding proper cellar treatment. If imported wine requires a certification under § 27.140, the importer must provide a copy of that certification to TTB as follows:

(i) The importer must attach a copy of the certification to the application for a certificate of label approval for the wine in question submitted under § 13.21 of this chapter; or

(ii) If a certification for the wine in question was not available when the importer submitted the application for label approval, the importer must submit a copy of the certification to the appropriate TTB officer prior to release from customs custody of the first shipment of the wine.

(2) *Validity of certification.* A certification submitted under paragraph (b)(1) of this section is valid as long as the wine is of the same brand and class or type, was made by the same producer, was subjected to the same cellar treatment, and conforms to the statements made on the certification. Accordingly, if the cellar treatment of the wine changes and a new certification under § 27.140 is required, an importer is required to submit a new certification for the wine even though it is subject to the same label approval.

(3) *Use of certification.* TTB may use the information from a certification for purposes of verifying the appropriate class and type designation of the wine under the labeling provisions of this part. TTB will make certifications submitted under paragraph (b)(1) of this section available to the public on the TTB Internet Web site at *www.ttb.gov.*

§ 4.46 Certificate of nonstandard fill.

A person may import wine in containers not conforming to the metric standards of fill prescribed at § 4.72 if the wine is:

(a) Accompanied by a statement signed by a duly authorized official of the appropriate foreign country, stating that the wine was bottled or packed before January 1, 1979;

(b) Being withdrawn from a Customs bonded warehouse into which it was entered before January 1, 1979; or

(c) Exempt from the standard of fill requirements as provided by § 4.70(b)(1) or (2).

[T.D. ATF–76, 46 FR 1727, Jan. 7, 1981, as amended by T.D. TTB–91, 76 FR 5477, Feb. 1, 2011]

Subpart F—Requirements for Approval of Labels of Wine Domestically Bottled or Packed

§ 4.50 Certificates of label approval.

(a) No person shall bottle or pack wine, other than wine bottled or packed in U.S. Customs custody, or remove such wine from the plant where bottled or packed, unless an approved certificate of label approval, TTB Form 5100.31, is issued by the appropriate TTB officer.

(b) Any bottler or packer of wine shall be exempt from the requirements

of this section if upon application the bottler or packer shows to the satisfaction of the appropriate TTB officer that the wine to be bottled or packed is not to be sold, offered for sale, or shipped or delivered for shipment, or otherwise introduced in interstate or foreign commerce. Application for exemption shall be made on TTB Form 5100.31 in accordance with instructions on the form. If the application is approved, a certificate of exemption will be issued on the same form.

(c) *Cross reference.* For procedures regarding the issuance, denial, and revocation of certificates of label approval, and certificates of exemption from label approval, as well as appeal procedures, see part 13 of this chapter.

§ 4.51 Exhibiting certificates to Government officials.

Any bottler or packer holding an original or duplicate original of a certificate of label approval or a certificate of exemption shall, upon demand, exhibit such certificate to a duly authorized representative of the United States Government.

§ 4.52 Photoprints.

Photoprints or other reproductions of certificates of label approval or certificates of exemption are not acceptable, for the purposes of §§ 4.50 through 4.52, as substitutes for an original or duplicate original of a certificate of label approval, or a certificate of exemption. The appropriate TTB officer will, upon the request of the bottler or packer, issue duplicate originals of certificates of label approval or of certificates of exemption if wine under the same brand is bottled or packed at more than one plant by the same person, and if the necessity for the duplicate originals is shown and there is listed with the appropriate TTB officer the name and address of the additional bottling or packing plant where the particular label is to be used.

Subpart G—Advertising of Wine

§ 4.60 Application.

No person engaged in the business as a producer, rectifier, blender, importer, or wholesaler of wine, directly or indirectly or through an affiliate, shall publish or disseminate or cause to be published or disseminated by radio or television broadcast, or in any newspaper, periodical, or any publication, by any sign or outdoor advertisement, or any other printed or graphic matter, any advertisement of wine, if such advertising is in, or is calculated to induce sale in, interstate or foreign commerce, or is disseminated by mail, unless such advertisement is in conformity with §§ 4.60–4.65 of this part. Provided, that such sections shall not apply to outdoor advertising in place on September 7, 1984, but shall apply upon replacement, restoration, or renovation of any such advertising; and provided further, that such sections shall not apply to a retailer or the publisher of any newspaper, periodical, or other publication, or radio or television broadcast, unless such retailer or publisher or radio or television broadcaster is engaged in business as a producer, rectifier, blender, importer, or wholesaler of wine, directly or indirectly, or through an affiliate.

[T.D. ATF–180, 49 FR 31672, Aug. 8, 1984]

§ 4.61 Definitions.

As used in §§ 4.60 through 4.65 of this part, the term *advertisement* includes any written or verbal statement, illustration, or depiction which is in, or calculated to induce sales in, interstate or foreign commerce, or is disseminated by mail, whether it appears in a newspaper, magazine, trade booklet, menu, wine card, leaflet, circular, mailer, book insert, catalog, promotional material, sales pamphlet, or any written, printed, graphic, or other matter accompanying the container, representations made on cases, billboard, sign, or other outdoor display, public transit card, other periodical literature, publication, or in a radio or television broadcast, or in any other media; except that such term shall not include:

(a) Any label affixed to any container of wine, or any individual covering,

carton, or other wrapper of such container which constitute a part of the labeling under provisions of §§ 4.30–4.39 of this part.

(b) Any editorial or other reading material (*i.e.*, news release) in any periodical or publication or newspaper for the publication of which no money or valuable consideration is paid or promised, directly or indirectly, by any permittee, and which is not written by or at the direction of the permittee.

[T.D. ATF–180, 49 FR 31672, Aug. 8, 1984, as amended by T.D. TTB–91, 76 FR 5477, Feb. 1, 2011]

§ 4.62 Mandatory statements.

(a) *Responsible advertiser.* The advertisement shall state the name and address of the permittee responsible for its publication or broadcast. Street number and name may be omitted in the address.

(b) *Class, type, and distinctive designation.* The advertisement shall contain a conspicuous statement of the class, type, or distinctive designation to which the product belongs, corresponding with the statement of class, type, or distinctive designation which is required to appear on the label of the product.

(c) *Exception.* (1) If an advertisement refers to a general wine line or all of the wine products of one company, whether by the company name or by the brand name common to all the wine in the line, the only mandatory information necessary is the name and address of the responsible advertiser. This exception does not apply where only one type of wine is marketed under the specific brand name advertised.

(2) On consumer specialty items, the only information necessary is the company name or brand name of the product.

[T.D. 6521, 25 FR 13835, Dec. 29, 1960, as amended by T.D. ATF–180, 49 FR 31672, Aug. 8, 1984]

§ 4.63 Legibility of mandatory information.

(a) Statements required under §§ 4.60 through 4.65 of this part to appear in any written, printed, or graphic advertisement shall be in lettering or type size sufficient to be conspicuous and readily legible.

(b) In the case of signs, billboards, and displays the name and address of the permittee responsible for the advertisement may appear in type size of lettering smaller than the other mandatory information, provided such information can be ascertained upon closer examination of the sign or billboard.

(c) Mandatory information shall be so stated as to be clearly a part of the advertisement and shall not be separated in any manner from the remainder of the advertisement.

(d) Mandatory information for two or more products shall not be stated unless clearly separated.

(e) Mandatory information shall be so stated in both the print and audio-visual media that it will be readily apparent to the persons viewing the advertisement.

[T.D. ATF–180, 49 FR 31672, Aug. 8, 1984]

§ 4.64 Prohibited practices.

(a) *Restrictions.* The advertisement of wine shall not contain:

(1) Any statement that is false or untrue in any material particular, or that, irrespective of falsity, directly, or by ambiguity, omission, or inference, or by the addition of irrelevant, scientific or technical matter tends to create a misleading impression.

(2) Any statement that is disparaging of a competitor's products.

(3) Any statement, design, device, or representation which is obscene or indecent.

(4) Any statement, design, device, or representation of or relating to analyses, standards, or tests, irrespective of falsity, which the appropriate TTB officer finds to be likely to mislead the consumer.

(5) Any statement, design, device, or representation of or relating to any guarantee, irrespective of falsity, which the appropriate TTB officer finds to be likely to mislead the consumer. Money-back guarantees are not prohibited.

(6) Any statement that the wine is produced, blended, bottled, packed, or sold under, or in accordance with, any

municipal, State, or Federal Government authorization, law, or regulations; and if a municipal, State, or Federal permit number is stated, the permit number shall not be accompanied by any additional statement relating thereto.

(7) Any statement of bonded winecellar and bonded winery numbers unless stated in direct conjunction with the name and address of the person operating such winery or storeroom. Statement of bonded winecellar and bonded winery numbers may be made in the following form: ''Bonded Winecellar No. ____,'' ''Bonded Winery No. ____,'' ''B. W. C. No. ____,'' ''B. W. No. ____.'' No additional reference thereto shall be made, nor shall any use be made of such statement that may convey the impression that the wine has been made or matured under Government supervision or in accordance with Government specifications or standards.

(8) Any statement, design, device, or representation which relates to alcohol content or which tends to create the impression that a wine:

(i) Contains distilled spirits; or

(ii) Is comparable to a distilled spirit; or

(iii) Has intoxicating qualities.

However, if a statement of composition is required to appear as the designation of a product not defined in these regulations, such statement of composition may include a reference to the type of distilled spirits contained therein. Further, an approved wine label, which bears the statement of alcohol content may be depicted in any advertising media, or an actual wine bottle showing the approved label bearing the statement of alcoholic content may be displayed in any advertising media.

(9) Any word in the brand name or class and type designation which is the name of a distilled spirits product or which simulates, imitates, or creates the impression that the wine so labeled is, or is similar to, any product customarily made with a distilled spirits base.

(b) *Statements inconsistent with labeling.* (1) Advertisements shall not contain any statement concerning a brand or lot of wine that is inconsistent with any statement on the labeling thereof.

(2) Any label depicted on a bottle in an advertisement shall be a reproduction of an approved label.

(c) *Statement of age.* No statement of age or representation relative to age (including words or devices in any brand name or mark) shall be made, except (1) for vintage wine, in accordance with the provisions of §4.27; (2) references in accordance with §4.38(f); or (3) use of the word ''old'' as part of a brand name.

(d) *Statement of bottling dates.* The statement of any bottling date shall not be deemed to be a representation relative to age, if such statement appears without undue emphasis in the following form: ''Bottled in ____'' (inserting the year in which the wine was bottled).

(e) *Statement of miscellaneous dates.* No date, except as provided in paragraphs (c) and (d) of this section, with respect to statement of vintage year and bottling date, shall be stated unless, in addition thereto, and in direct conjunction therewith, in the same size and kind of printing there shall be stated an explanation of the significance of such date: *Provided,* That if any date refers to the date of establishment of any business, such date shall be stated without undue emphasis and in direct conjunction with the name of the person to whom it refers.

(f) *Flags, seals, coats of arms, crests, and other insignia.* No advertisement shall contain any statement, design, device, or pictorial representation of or relating to, or capable of being construed as relating to, the armed forces of the United States, or of the American flag, or of any emblem, seal, insignia, or decoration associated with such flag or armed forces; nor shall any advertisement contain any statement, device, design, or pictorial representation of or concerning any flag, seal, coat of arms, crest, or other insignia likely to mislead the consumer to believe that the product has been endorsed, made, or used by, or produced for, or under the supervision of, or in accordance with the specifications of the government, organization, family, or individual with whom such flag, seal, coat of arms, crests, or insignia is associated.

(g) *Statements indicative of origin.* No statement, design, device, or representation which tends to create the impression that the wine originated in a particular place or region, shall appear in any advertisement unless the label of the advertised product bears an appellation of origin, and such appellation of origin appears in the advertisement in direct conjunction with the class and type designation.

(h) *Use of the word ''importer'' or similar words.* The word *importer* or similar words shall not appear in advertisements of domestic wine except as part of the bona fide name of the permittee by or for whom, or of a retailer for whom, such wine is bottled, packed or distributed: *Provided,* That in all cases where such words are used as part of such name, there shall be stated the words ''Product of the United States'' or similar words to negate any impression that the product is imported, and such negating statements shall appear in the same size and kind of printing as such name.

(i) *Health-related statements*—(1) *Definitions.* When used in this paragraph (i), terms are defined as follows:

(i) *Health-related statement* means any statement related to health and includes statements of a curative or therapeutic nature that, expressly or by implication, suggest a relationship between the consumption of alcohol, wine, or any substance found within the wine, and health benefits or effects on health. The term includes both specific health claims and general references to alleged health benefits or effects on health associated with the consumption of alcohol, wine, or any substance found within the wine, as well as health-related directional statements. The term also includes statements and claims that imply that a physical or psychological sensation results from consuming the wine, as well as statements and claims of nutritional value (*e.g.*, statements of vitamin content). Statements concerning caloric, carbohydrate, protein, and fat content do not constitute nutritional claims about the product.

(ii) *Specific health claim* is a type of health-related statement that, expressly or by implication, characterizes the relationship of the wine, alcohol, or any substance found within the wine, to a disease or health-related condition. Implied specific health claims include statements, symbols, vignettes, or other forms of communication that suggest, within the context in which they are presented, that a relationship exists between wine, alcohol, or any substance found within the wine, and a disease or health-related condition.

(iii) *Health-related directional statement* is a type of health-related statement that directs or refers consumers to a third party or other source for information regarding the effects on health of wine or alcohol consumption.

(2) *Rules for advertising*—(i) *Health-related statements.* In general, advertisements may not contain any health-related statement that is untrue in any particular or tends to create a misleading impression as to the effects on health of alcohol consumption. TTB will evaluate such statements on a case-by-case basis and may require as part of the health-related statement a disclaimer or some other qualifying statement to dispel any misleading impression conveyed by the health-related statement. Such disclaimer or other qualifying statement must appear as prominent as the health-related statement.

(ii) *Specific health claims.* A specific health claim will not be considered misleading if it is truthful and adequately substantiated by scientific or medical evidence; sufficiently detailed and qualified with respect to the categories of individuals to whom the claim applies; adequately discloses the health risks associated with both moderate and heavier levels of alcohol consumption; and outlines the categories of individuals for whom any levels of alcohol consumption may cause health risks. This information must appear as part of the specific health claim and in a manner as prominent as the specific health claim.

(iii) *Health-related directional statements.* A statement that directs consumers to a third party or other source for information regarding the effects on health of wine or alcohol consumption is presumed misleading unless it—

(A) Directs consumers in a neutral or other non-misleading manner to a

third party or other source for balanced information regarding the effects on health of wine or alcohol consumption; and

(B)(*1*) Includes as part of the health-related directional statement, and in a manner as prominent as the health-related directional statement, the following disclaimer: ''This statement should not encourage you to drink or increase your alcohol consumption for health reasons;'' or

(*2*) Includes as part of the health-related directional statement, and in a manner as prominent as the health-related directional statement, some other qualifying statement that the appropriate TTB officer finds is sufficient to dispel any misleading impression conveyed by the health-related directional statement.

(j) *Confusion of brands.* Two or more different brands or lots of wine shall not be advertised in one advertisement (or in two or more advertisements in one issue of a periodical or newspaper, or in one piece of other written, printed, or graphic matter) if the advertisement tends to create the impression that representations made as to one brand or lot apply to the other or others, and if as to such latter the representations contravene any provision of §§ 4.60 through 4.64 or are in any respect untrue.

(k) *Deceptive advertising techniques.* Subliminal or similar techniques are prohibited. ''Subliminal or similar techniques,'' as used in this part, refers to any device or technique that is used to convey, or attempts to convey, a message to a person by means of images or sounds of a very brief nature that cannot be perceived at a normal level of awareness.

§ 4.65 Comparative advertising.

(a) *General.* Comparative advertising shall not be disparaging of a competitor's product.

(b) *Taste tests.* (1) Taste test results may be used in advertisements comparing competitors' products unless they are disparaging, deceptive, or likely to mislead the consumer.

(2) The taste test procedure used shall meet scientifically accepted procedures. An example of a scientifically accepted procedure is outlined in the *Manual on Sensory Testing Methods*, ASTM Special Technical Publication 434, published by the American Society for Testing and Materials, 1916 Race Street, Philadelphia, Pennsylvania 19103, ASTM, 1968, Library of Congress Catalog Card Number 68–15545.

(3) A statement shall appear in the advertisement providing the name and address of the testing administrator.

Subpart H—Standards of Fill for Wine

§ 4.70 Application.

(a) Except as provided in paragraph (b) of this section, no person engaged in business as a producer, rectifier, blender, importer, or wholesaler of wine, directly or indirectly or through an affiliate, shall sell or ship or deliver for sale or shipment, or otherwise introduce in interstate or foreign commerce, or receive therein, or remove from customs custody, any wine unless such wine is bottled or packed in the standard wine containers herein prescribed.

(b) Sections 4.71 and 4.72 of this part do not apply to:

(1) Sake;

(2) Wine packed in containers of 18 liters or more;

(3) Imported wine in the original containers in which entered customs custody if the wine was bottled or packed before January 1, 1979; or

(4) Wine domestically bottled or packed, either in or out of customs custody, before October 24, 1943, if the container, or the label on the container, bears a conspicuous statement of the net contents, and if the actual capacity of the container is not substantially less than the apparent capacity upon visual examination under ordinary conditions of purchase or use.

(c) Section 4.72 of this part does not apply to wine domestically bottled or

packed, either in or out of customs custody, before January 1, 1979, if the wine was bottled or packed according to the standards of fill (listed in ounces, quarts, and gallons) prescribed by regulation before that date.

[T.D. ATF–12, 39 FR 45222, Dec. 31, 1974, as amended by T.D. ATF–49, 43 FR 19848, May 9, 1978; T.D. ATF–76, 46 FR 1727, Jan. 7, 1981; T.D. TTB–91, 76 FR 5477, Feb. 1, 2011]

§ 4.71 Standard wine containers.

(a) A standard wine container shall be made, formed and filled to meet the following specifications:

(1) *Design*. It shall be so made and formed as not to mislead the purchaser. Wine containers shall be held (irrespective of the correctness of the net contents specified on the label) to be so made and formed as to mislead the purchaser if the actual capacity is substantially less than the apparent capacity upon visual examination under ordinary conditions of purchase or use; and

(2) *Fill*. It shall be so filled as to contain the quantity of wine specified in one of the standards of fill prescribed in § 4.72; and

(3) *Headspace*. It shall be made and filled as to have a headspace not in excess of 6 percent of its total capacity after closure if the net content of the container is 187 milliliters or more, and a headspace not in excess of 10 percent of such capacity in the case of all other containers.

[T.D. ATF–12, 39 FR 45222, Dec. 31, 1974, as amended by T.D. TTB–91, 76 FR 5477, Feb. 1, 2011]

§ 4.72 Metric standards of fill.

(a) *Authorized standards of fill*. The standards of fill for wine are the following:

3 liters.	375 milliliters.
1.5 liters.	187 milliliters.
1 liter.	100 milliliters.
750 milliliters.	50 milliliters.
500 milliliters.	

(b) *Sizes larger than 3 liters*. Wine may be bottled or packed in containers of 4 liters or larger if the containers are filled and labeled in quantities of even liters (4 liters, 5 liters, 6 liters, etc.).

(c) *Tolerances*. The tolerances in fill are the same as are allowed by § 4.37 in respect to statement of net contents on labels.

Subpart C—Standards of Identity for Distilled Spirits

§ 5.21 Application of standards.

The standards of identity for the several classes and types of distilled spirits set forth in this part shall be applicable only to distilled spirits for beverage or other nonindustrial purposes.

§ 5.22 The standards of identity.

Standards of identity for the several classes and types of distilled spirits set forth in this section shall be as follows (see also § 5.35, class and type):

(a) *Class 1; neutral spirits or alcohol.* ''Neutral spirits'' or ''alcohol'' are distilled spirits produced from any material at or above 190° proof, and, if bottled, bottled at not less than 80° proof.

(1) ''Vodka'' is neutral spirits so distilled, or so treated after distillation with charcoal or other materials, as to be without distinctive character, aroma, taste, or color.

(2) ''Grain spirits'' are neutral spirits distilled from a fermented mash of grain and stored in oak containers.

(b) *Class 2; whisky.* ''Whisky'' is an alcoholic distillate from a fermented mash of grain produced at less than 190° proof in such manner that the distillate possesses the taste, aroma, and characteristics generally attributed to whisky, stored in oak containers (except that corn whisky need not be so stored), and bottled at not less than 80° proof, and also includes mixtures of such distillates for which no specific standards of identity are prescribed.

(1)(i) ''Bourbon whisky'', ''rye whisky'', ''wheat whisky'', ''malt whisky'', or ''rye malt whisky'' is whisky produced at not exceeding 160° proof from a fermented mash of not less than 51 percent corn, rye, wheat, malted barley, or malted rye grain, respectively, and stored at not more than 125° proof in charred new oak containers; and also includes mixtures of such whiskies of the same type.

(ii) ''Corn whisky'' is whisky produced at not exceeding 160° proof from a fermented mash of not less than 80 percent corn grain, and if stored in oak containers stored at not more than 125° proof in used or uncharred new oak containers and not subjected in any manner to treatment with charred wood; and also includes mixtures of such whisky.

(iii) Whiskies conforming to the standards prescribed in paragraphs (b)(1)(i) and (ii) of this section, which have been stored in the type of oak containers prescribed, for a period of 2 years or more shall be further designated as ''straight''; for example, ''straight bourbon whisky'', ''straight corn whisky'', and whisky conforming to the standards prescribed in paragraph (b)(1)(i) of this section, except that it was produced from a fermented mash of less than 51 percent of any one type of grain, and stored for a period of 2 years or more in charred new oak containers shall be designated merely as ''straight whisky''. No other whiskies may be designated ''straight''. ''Straight whisky'' includes mixtures of straight whiskies of the same type produced in the same State.

(2) ''Whisky distilled from bourbon (rye, wheat, malt, or rye malt) mash'' is whisky produced in the United States at not exceeding 160° proof from a fermented mash of not less than 51 percent corn, rye, wheat, malted barley, or malted rye grain, respectively, and stored in used oak containers; and also includes mixtures of such whiskies of the same type. Whisky conforming to the standard of identity for corn whisky must be designated corn whisky.

(3) ''Light whisky'' is whisky produced in the United States at more than 160° proof, on or after January 26, 1968, and stored in used or uncharred new oak containers; and also includes mixtures of such whiskies. If ''light whisky'' is mixed with less than 20 percent of straight whisky on a proof gallon basis, the mixture shall be designated ''blended light whisky'' (light whisky—a blend).

(4) ''Blended whisky'' (whisky—a blend) is a mixture which contains straight whisky or a blend of straight whiskies at not less than 20 percent on a proof gallon basis, excluding alcohol derived from added harmless coloring, flavoring or blending materials, and, separately, or in combination, whisky or neutral spirits. A blended whisky containing not less than 51 percent on a proof gallon basis of one of the types of straight whisky shall be further designated by that specific type of straight whisky; for example, ''blended rye whisky'' (rye whisky—a blend).

(5)(i) ''A blend of straight whiskies'' (blended straight whiskies) is a mixture of straight whiskies which does not conform to the standard of identify for ''straight whisky.'' Products so designated may contain harmless coloring, flavoring, or blending materials as set forth in 27 CFR 5.23(a).

(ii) ''A blend of straight whiskies'' (blended straight whiskies) consisting entirely of one of the types of straight whisky, and not conforming to the standard for straight whisky, shall be further designated by that specific type of straight whisky; for example, ''a blend of straight rye whiskies'' (blended straight rye whiskies). ''A blend of straight whiskies'' consisting entirely of one of the types of straight whisky shall include straight whisky of the same type which was produced in the same State or by the same proprietor within the same State, provided that

such whisky contains harmless coloring, flavoring, or blending materials as stated in 27 CFR 5.23(a).

(iii) The harmless coloring, flavoring, or blending materials allowed under this section shall not include neutral spirits or alcohol in their original state. Neutral spirits or alcohol may only appear in a ''blend of straight whiskies'' or in a ''blend of straight whiskies consisting entirely of one of the types of straight whisky'' as a vehicle for recognized flavoring of blending material.

(6) ''Spirit whisky'' is a mixture of neutral spirits and not less than 5 percent on a proof gallon basis of whisky, or straight whisky, or straight whisky and whisky, if the straight whisky component is less than 20 percent on a proof gallon basis.

(7) ''Scotch whisky'' is whisky which is a distinctive product of Scotland, manufactured in Scotland in compliance with the laws of the United Kingdom regulating the manufacture of Scotch whisky for consumption in the United Kingdom: *Provided,* That if such product is a mixture of whiskies, such mixture is ''blended Scotch whisky'' (Scotch whisky—a blend).

(8) ''Irish whisky'' is whisky which is a distinctive product of Ireland, manufactured either in the Republic of Ireland or in Northern Ireland, in compliance with their laws regulating the manufacture of Irish whisky for home consumption: *Provided,* That if such product is a mixture of whiskies, such mixture is ''blended Irish whisky'' (Irish whisky—a blend).

(9) ''Canadian whisky'' is whisky which is a distinctive product of Canada, manufactured in Canada in compliance with the laws of Canada regulating the manufacture of Canadian whisky for consumption in Canada: *Provided,* That if such product is a mixture of whiskies, such mixture is ''blended Canadian whisky'' (Canadian whisky—a blend).

(c) *Class 3; gin.* ''Gin'' is a product obtained by original distillation from mash, or by redistillation of distilled spirits, or by mixing neutral spirits, with or over juniper berries and other aromatics, or with or over extracts derived from infusions, percolations, or maceration of such materials, and includes mixtures of gin and neutral spirits. It shall derive its main characteristic flavor from juniper berries and be bottled at not less than 80° proof. Gin produced exclusively by original distillation or by redistillation may be further designated as ''distilled''. ''Dry gin'' (London dry gin), ''Geneva gin'' (Hollands gin), and ''Old Tom gin'' (Tom gin) are types of gin known under such designations.

(d) *Class 4; brandy.* ''Brandy'' is an alcoholic distillate from the fermented juice, mash, or wine of fruit, or from the residue thereof, produced at less than 190° proof in such manner that the distillate possesses the taste, aroma, and characteristics generally attributed to the product, and bottled at not less than 80° proof. Brandy, or mixtures thereof, not conforming to any of the standards in paragraphs (d) (1) through (8) of this section shall be designated as ''brandy'', and such designation shall be immediately followed by a truthful and adequate statement of composition.

(1) ''Fruit brandy'' is brandy distilled solely from the fermented juice or mash of whole, sound, ripe fruit, or from standard grape, citrus, or other fruit wine, with or without the addition of not more than 20 percent by weight of the pomace of such juice or wine, or 30 percent by volume of the lees of such wine, or both (calculated prior to the addition of water to facilitate fermentation or distillation). Fruit brandy shall include mixtures of such brandy with not more than 30 percent (calculated on a proof gallon basis) of lees brandy. Fruit brandy, derived from grapes, shall be designated as ''grape brandy'' or ''brandy'', except that in the case of brandy (other than neutral brandy, pomace brandy, marc brandy or grappa brandy) distilled from the fermented juice, mash, or wine of grapes, or the residue thereof, which has been stored in oak containers for less than 2 years, the statement of class and type shall be immediately preceded, in the same size and kind of type, by the word ''immature''. Fruit brandy, other than grape brandy, derived from one variety of fruit, shall be designated by the word ''brandy'' qualified by the name of such fruit (for example, ''peach brandy''), except that

''apple brandy'' may be designated ''applejack''. Fruit brandy derived from more than one variety of fruit shall be designated as ''fruit brandy'' qualified by a truthful and adequate statement of composition.

(2) ''Cognac'', or ''Cognac (grape) brandy'', is grape brandy distilled in the Cognac region of France, which is entitled to be so designated by the laws and regulations of the French Government.

(3) ''Dried fruit brandy'' is brandy that conforms to the standard for fruit brandy except that it has been derived from sound, dried fruit, or from the standard wine of such fruit. Brandy derived from raisins, or from raisin wine, shall be designated as ''raisin brandy''. Other brandies shall be designated in the same manner as fruit brandy from the corresponding variety or varieties of fruit except that the name of the fruit shall be qualified by the word ''dried''.

(4) ''Lees brandy'' is brandy distilled from the lees of standard grape, citrus, or other fruit wine, and shall be designated as ''lees brandy'', qualified by the name of the fruit from which such lees are derived.

(5) ''Pomace brandy'', or ''marc brandy'', is brandy distilled from the skin and pulp of sound, ripe grapes, citrus or other fruit, after the withdrawal of the juice or wine therefrom, and shall be designated as ''pomace brandy'', or ''marc brandy'', qualified by the name of the fruit from which derived. Grape pomace brandy may be designated as ''grappa'' or ''grappa brandy''.

(6) ''Residue brandy'' is brandy distilled wholly or in part from the fermented residue of fruit or wine, and shall be designated as ''residue brandy'' qualified by the name of the fruit from which derived. Brandy distilled wholly or in part from residue materials which conforms to any of the standards set forth in paragraphs (d) (1), (3), (4), and (5) of this section may, regardless of such fact, be designated ''residue brandy'', but the use of such designation shall be conclusive, precluding any later change of designation.

(7) ''Neutral brandy'' is brandy produced at more than 170° proof and shall be designated in accordance with the standards in this paragraph, except that the designation shall be qualified by the word ''neutral''; for example, ''neutral citrus residue brandy''.

(8) ''Substandard brandy'' shall bear as a part of its designation the word ''substandard'', and shall include:

(i) Any brandy distilled from fermented juice, mash, or wine having a volatile acidity, calculated as acetic acid and exclusive of sulfur dioxide, in excess of 0.20 gram per 100 cubic centimeters (20 °C.); measurements of volatile acidity shall be calculated exclusive of water added to facilitate distillation.

(ii) Any brandy which has been distilled from unsound, moldy, diseased, or decomposed juice, mash, wine, lees, pomace, or residue, or which shows in the finished product any taste, aroma, or characteristic associated with products distilled from such material.

(e) *Class 5; blended applejack.* ''Blended applejack'' (applejack—a blend) is a mixture which contains at least 20 percent of apple brandy (applejack) on a proof gallon basis, stored in oak containers for not less than 2 years, and not more than 80 percent of neutral spirits on a proof gallon basis if such mixture at the time of bottling is not less than 80° proof.

(f) *Class 6; rum.* ''Rum'' is an alcoholic distillate from the fermented juice of sugar cane, sugar cane syrup, sugar cane molasses, or other sugar cane by-products, produced at less than 190° proof in such manner that the distillate possesses the taste, aroma and characteristics generally attributed to rum, and bottled at not less than 80° proof; and also includes mixtures solely of such distillates.

(g) *Class 7; Tequila.* ''Tequila'' is an alcoholic distillate from a fermented mash derived principally from the Agave Tequilana Weber (''blue'' variety), with or without additional fermentable substances, distilled in such a manner that the distillate possesses the taste, aroma, and characteristics generally attributed to Tequila and bottled at not less than 80° proof, and also includes mixtures solely of such distillates. Tequila is a distinctive product of Mexico, manufactured in Mexico in compliance with the laws of Mexico regulating the manufacture of

Tequila for consumption in that country.

(h) *Class 8; cordials and liqueurs.* Cordials and liqueurs are products obtained by mixing or redistilling distilled spirits with or over fruits, flowers, plants, or pure juices therefrom, or other natural flavoring materials, or with extracts derived from infusions, percolation, or maceration of such materials, and containing sugar, dextrose, or levulose, or a combination thereof, in an amount not less than 2½ percent by weight of the finished product.

(1) ''Sloe gin'' is a cordial or liqueur with the main characteristic flavor derived from sloe berries.

(2) ''Rye liqueur'', ''bourbon liqueur'' (rye, bourbon cordial) are liqueurs, bottled at not less than 60° proof, in which not less than 51 percent, on a proof gallon basis, of the distilled spirits used are, respectively, rye or bourbon whisky, straight rye or straight bourbon whisky, or whisky distilled from a rye or bourbon mash, and which possess a predominant characteristic rye or bourbon flavor derived from such whisky. Wine, if used, must be within the 2½ percent limitation provided in § 5.23 for coloring, flavoring, and blending materials.

(3) ''Rock and rye'', ''rock and bourbon'', ''rock and brandy'', ''rock and rum'' are liqueurs, bottled at not less than 48° proof, in which, in the case of rock and rye and rock and bourbon, not less than 51 percent, on a proof gallon basis, of the distilled spirits used are, respectively, rye or bourbon whisky, straight rye or straight bourbon whisky, or whisky distilled from a rye or bourbon mash, and, in the case of rock and brandy and rock and rum, the distilled spirits used are all grape brandy or rum, respectively; containing rock candy or sugar syrup, with or without the addition of fruit, fruit juices, or other natural flavoring materials, and possessing, respectively, a predominant characteristic rye, bourbon, brandy, or rum flavor derived from the distilled spirits used. Wine, if used, must be within the 2½ percent limitation provided in § 5.23 for harmless coloring, flavoring, and blending materials.

(4) ''Rum liqueur,'' ''gin liqueur,'' ''brandy liqueur,'' are liqueurs, bottled at not less than 60 proof, in which the distilled spirits used are entirely rum, gin, or brandy, respectively, and which possess, respectively, a predominant characteristic rum, gin, or brandy flavor derived from the distilled spirits used. In the case of brandy liqueur, the type of brandy must be stated in accordance with § 5.22(d), except that liqueurs made entirely with grape brandy may be designated simply as ''brandy liqueur.'' Wine, if used, must be within the 2½ percent limitation provided for in § 5.23 for harmless coloring, flavoring, and blending materials.

(5) The designation of a cordial or liqueur may include the word ''dry'' if the sugar, dextrose, or levulose, or a combination thereof, are less than 10 percent by weight of the finished product.

(6) Cordials and liqueurs shall not be designated as ''distilled'' or ''compound''.

(i) *Class 9; flavored brandy, flavored gin, flavored rum, flavored vodka, and flavored whisky.* ''Flavored brandy, ''flavored gin,'' ''flavored rum,'' ''flavored vodka,'' and ''flavored whisky,'' are brandy, gin, rum, vodka, and whisky, respectively, to which have been added natural flavoring materials, with or without the addition of sugar, and bottled at not less than 60° proof. The name of the predominant flavor shall appear as a part of the designation. If the finished product contains more than 2½ percent by volume of wine, the kinds and precentages by volume of wine must be stated as a part of the designation, except that a flavored brandy may contain an additional 12½ percent by volume of wine, without label disclosure, if the additional wine is derived from the particular fruit corresponding to the labeled flavor of the product.

(j) *Class 10; imitations.* Imitations shall bear, as a part of the designation thereof, the word ''imitation'' and shall include the following:

(1) Any class or type of distilled spirits to which has been added coloring or flavoring material of such nature as to cause the resultant product to simulate any other class or type of distilled spirits;

(2) Any class or type of distilled spirits (other than distilled spirits required

under §5.35 to bear a distinctive or fanciful name and a truthful and adequate statement of composition) to which has been added flavors considered to be artificial or imitation. In determining whether a flavor is artificial or imitation, recognition will be given to what is considered to be ''good commercial practice'' in the flavor manufacturing industry;

(3) Any class of type of distilled spirits (except cordials, liqueurs and specialties marketed under labels which do not indicate or imply, that a particular class or type of distilled spirits was used in the manufacture thereof) to which has been added any whisky essense, brandy essence, rum essence, or similar essence or extract which simulates or enhances, or is used by the trade or in the particular product to simulate or enhance, the characteristics of any class or type of distilled spirits;

(4) Any type of whisky to which beading oil has been added;

(5) Any rum to which neutral spirits or distilled spirits other than rum have been added;

(6) Any brandy made from distilling material to which has been added any amount of sugar other than the kind and amount of sugar expressly authorized in the production of standard wine; and

(7) Any brandy to which neutral spirits or distilled spirits other than brandy have been added, except that this provision shall not apply to any product conforming to the standard of identity for blended applejack.

(k) *Class 11; geographical designations.* (1) Geographical names for distinctive types of distilled spirits (other than names found by the appropriate TTB officer under paragraph (k)(2) of this section to have become generic) shall not be applied to distilled spirits produced in any other place than the particular region indicated by the name, unless (i) in direct conjunction with the name there appears the word ''type'' or the word ''American'' or some other adjective indicating the true place of production, in lettering substantially as conspicuous as such name, and (ii) the distilled spirits to which the name is applied conform to the distilled spirits of that particular region. The following are examples of distinctive types of distilled spirits with geographical names that have not become generic: Eau de Vie de Dantzig (Danziger Goldwasser), Ojen, Swedish punch. Geographical names for distinctive types of distilled spirits shall be used to designate only distilled spirits conforming to the standard of identity, if any, for such type specified in this section, or if no such standard is so specified, then in accordance with the trade understanding of that distinctive type.

(2) Only such geographical names for distilled spirits as the appropriate TTB officer finds have by usage and common knowledge lost their geographical significance to such extent that they have become generic shall be deemed to have become generic. Examples at London dry gin, Geneva (Hollands) gin.

(3) Geographical names that are not names for distinctive types of distilled spirits, and that have not become generic, shall not be applied to distilled spirits produced in any other place than the particular place or region indicated in the name. Examples are Cognac, Armagnac, Greek brandy, Pisco brandy, Jamaica rum, Puerto Rico rum, Demerara rum.

(4) The words ''Scotch'', ''Scots'' ''Highland'', or ''Highlands'' and similar words connoting, indicating, or commonly associated with Scotland, shall not be used to designate any product not wholly produced in Scotland.

(l) *Class 12; products without geographical designations but distinctive of a particular place.* (1) The whiskies of the types specified in paragraphs (b) (1), (4), (5), and (6) of this section are distinctive products of the United States and if produced in a foreign country shall be designated by the applicable designation prescribed in such paragraphs, together with the words ''American type'' or the words ''produced (distilled, blended) in ____'', the blank to be filled in with the name of the foreign country: *Provided,* That the word ''bourbon'' shall not be used to describe any whisky or whisky-based distilled spirits not produced in the United States. If whisky of any of these types is composed in part of

whisky or whiskies produced in a foreign country there shall be stated, on the brand label, the percentage of such whisky and the country of origin thereof.

(2) The name for other distilled spirits which are distinctive products of a particular place or country, an example is Habanero, shall not be given to the product of any other place or country unless the designation for such product includes the word ''type'' or an adjective such as ''American'', or the like, clearly indicating the true place of production. The provision for place of production shall not apply to designations which by usage and common knowledge have lost their geographical significance to such an extent that the appropriate TTB officer finds they have become generic. Examples are Slivovitz, Zubrovka, Aquavit, Arrack, and Kirschwasser.

§ 5.23 Alteration of class and type.

(a) *Additions.* (1) The addition of any coloring, flavoring, or blending materials to any class and type of distilled spirits, except as otherwise provided in this section, alters the class and type thereof and the product shall be appropriately redesignated.

(2) There may be added to any class or type of distilled spirits, without changing the class or type thereof, (i) such harmless coloring, flavoring, or blending materials as are an essential component part of the particular class or type of distilled spirits to which added, and (ii) harmless coloring, flavoring, or blending materials such as caramel, straight malt or straight rye malt whiskies, fruit juices, sugar, infusion of oak chips when approved by the Administrator, or wine, which are not an essential component part of the particular distilled spirits to which added, but which are customarily employed therein in accordance with established trade usage, if such coloring, flavoring, or blending materials do not total more than 2½ percent by volume of the finished product.

(3) ''Harmless coloring, flavoring, and blending materials'' shall not include (i) any material which would render the product to which it is added an imitation, or (ii) any material, other than caramel, infusion of oak chips, and sugar, in the case of Cognac brandy; or (iii) any material whatsoever in the case of neutral spirits or straight whiskey, except that vodka may be treated with sugar in an amount not to exceed 2 grams per liter and a trace amount of citric acid.

(b) *Extractions.* The removal from any distilled spirits of any constituents to such an extent that the product does not possess the taste, aroma, and characteristics generally attributed to that class or type of distilled spirits alters the class and type thereof, and the product shall be appropriately redesignated. In addition, in the case of straight whisky the removal of more than 15 percent of the fixed acids, or volatile acids, or esters, or soluble solids, or higher alcohols, or more than 25 percent of the soluble color, shall be deemed to alter the class or type thereof.

(c) *Exceptions.* (1) This section shall not be construed as in any manner modifying the standards of identity for cordials and liqueurs, flavored brandy, flavored gin, flavored rum, flavored vodka, and flavored whisky or as authorizing any product which is defined in § 5.22(j), Class 10, as an imitation to be otherwise designated.

The requirements of this subpart shall apply to:

(a) Proprietors of distilled spirits plants qualified as processors under 27 CFR part 19;

§ 5.26 Formula requirements.

(a) *General.* An approved formula is required to blend, mix, purify, refine, compound, or treat spirits in a manner which results in a change of character, composition, class or type of the spirits. Form 5110.38 (27–B Supplemental) shall be filed in accordance with the instructions on the form and shall designate all ingredients and, if required, the process used. Any approved formula on Form 27–B Supplemental or Form 5110.38 shall remain in effect until revoked, superseded, or voluntarily surrendered. Any existing qualifying statements as to the rate of tax or the limited use of drawback flavors appearing on a Form 27–B Supplemental are obsolete.

(b) *Change in formula.* Any change in an approved formula shall require the filing of a new Form 5110.38. After a change in a formula is approved, the original formula shall be surrendered to the appropriate TTB officer.

§ 5.27 Formulas.

Formulas are required for distilled spirits operations which change the character, composition, class or type of spirits as follows:

(a) The compounding of spirits through the mixing of any coloring, flavoring, wine, or other material with distilled spirits;

(b) The manufacture of an intermediate product to be used exclusively in other distilled spirits products on bonded premises;

(c) Any filtering or stabilizing process which results in a product which does not possess the taste, aroma, and characteristics generally attributed to that class or type of distilled spirits; and, in the case of straight whisky, results in the removal of more than 15 percent of the fixed acids, volatile acids, esters, soluble solids, or higher alcohols, or more than 25 percent of the soluble color;

(d) The mingling of spirits (including merchandise returned to bond) which differ in class or type of materials from which produced;

(e) The mingling of spirits stored in charred cooperage with spirits stored in plain or reused cooperage, or the mixing of spirits that have been treated with wood chips with spirits not so treated, or the mixing of spirits that have been subjected to any treatment which changes their character with spirits not so treated, unless it is determined that the composition of the spirits is the same, notwithstanding the storage in different kinds of cooperage or the treatment of a portion of the spirits;

(f) The use (except as authorized for production or storage operations as provided by 27 CFR part 19) of any physical or chemical process or any apparatus which accelerates the maturing of the spirits;

(g) The steeping or soaking of fruits, berries, aromatic herbs, roots, seeds, etc., in spirits or wines;

(2) Mixing gin with other spirits;

(k) The treatment of gin by—

(1) Addition or abstraction of any substance or material other than pure water after redistillation in a manner that would change its class and type designation; and

(2) Addition of any substance or material other than juniper berries or other natural aromatics, or the extracted oils of such, or pure water to the spirits, before or during redistillation, in a manner that would change its class and type designation;

(l) The production of vodka by—

(1) Treatment of neutral spirits with not less than one ounce of activated carbon per 100 wine gallons of spirits;

(2) Redistillation of pure spirits so as to be without distinctive character, aroma, taste, or color;

(3) Mixing with other spirits or with any other substance or material except pure water, after production; and

(m) The recovery of spirits by redistillation from distilled spirits products containing other alcoholic ingredients and from spirits which have previously been entered for deposit. However, no formula shall be required for spirits redistilled into any type of neutral spirits other than vodka or spirits redistilled at less than 190 degrees of proof which lack the taste, aroma and other characteristics generally attributed to whisky, brandy, rum, or gin, and are designated as ''Spirits,'' preceded or followed by a word or phrase descriptive of the material from which produced. Such spirits redistilled on or after July 1, 1972, may not be designated ''Spirits Grain'' or ''Grain Spirits.''

§ 5.32a Voluntary disclosure of major food allergens.

(a) *Definitions.* For purposes of this section the following terms have the meanings indicated.

(1) *Major food allergen. Major food allergen* means any of the following:

(i) Milk, egg, fish (for example, bass, flounder, or cod), Crustacean shellfish (for example, crab, lobster, or shrimp), tree nuts (for example, almonds, pecans, or walnuts), wheat, peanuts, and soybeans; or

(ii) A food ingredient that contains protein derived from a food specified in paragraph (a)(1)(i) of this section, except:

(A) Any highly refined oil derived from a food specified in paragraph (a)(1)(i) of this section and any ingredient derived from such highly refined oil; or

(B) A food ingredient that is exempt from major food allergen labeling requirements pursuant to a petition for exemption approved by the Food and Drug Administration (FDA) under 21 U.S.C. 343(w)(6) or pursuant to a notice submitted to FDA under 21 U.S.C. 343(w)(7), provided that the food ingredient meets the terms or conditions, if any, specified for that exemption.

(2) *Name of the food source from which each major food allergen is derived. Name of the food source from which each major food allergen is derived* means the name of the food as listed in paragraph (a)(1)(i) of this section, except that:

(i) In the case of a tree nut, it means the name of the specific type of nut (for example, almonds, pecans, or walnuts);

(ii) In the case of Crustacean shellfish, it means the name of the species of Crustacean shellfish (for example, crab, lobster, or shrimp); and

(iii) The names ''egg'' and ''peanuts'', as well as the names of the different types of tree nuts, may be expressed in either the singular or plural form, and the term ''soy'', soybean'', or ''soya'' may be used instead of ''soybeans''.

(b) *Voluntary labeling standards.* Major food allergens (defined in paragraph (a)(1) of this section) used in the production of a distilled spirit product may, on a voluntary basis, be declared on any label affixed to the container. However, if any one major food allergen is voluntarily declared, all major food allergens used in production of the distilled spirit product, including major food allergens used as fining or processing agents, must be declared, except when covered by a petition for exemption approved by the appropriate TTB officer under § 5.32b. The major food allergens declaration must consist of the word ''Contains'' followed by a colon and the name of the food source from which each major food allergen is derived (for example, ''Contains: egg'').

(c) *Cross reference.* For mandatory labeling requirements applicable to distilled spirits products containing FD&C Yellow No. 5 and sulfites, see §§ 5.32(b)(5) and (7).

[T.D. TTB–53, 71 FR 42268, July 26, 2006]

§ 5.32b Petitions for exemption from major food allergen labeling.

(a) *Submission of petition.* Any person may petition the appropriate TTB officer to exempt a particular product or class of products from the labeling requirements of § 5.32a. The burden is on the petitioner to provide scientific evidence (including the analytical method used to produce the evidence) that demonstrates that the finished product or class of products, as derived by the method specified in the petition, either:

(1) Does not cause an allergic response that poses a risk to human health; or

(2) Does not contain allergenic protein derived from one of the foods identified in § 5.32a(a)(1)(i), even though a major food allergen was used in production.

(b) *Decision on petition.* TTB will approve or deny a petition for exemption submitted under paragraph (a) of this section in writing within 180 days of receipt of the petition. If TTB does not provide a written response to the petitioner within that 180-day period, the petition will be deemed denied, unless an extension of time for decision is mutually agreed upon by the appropriate TTB officer and the petitioner. TTB may confer with the Food and Drug Administration (FDA) on petitions for exemption, as appropriate and as FDA resources permit. TTB may require the submission of product samples and other additional information in support of a petition; however, unless required by TTB, the submission of samples or additional information by the petitioner after submission of the petition will be treated as the withdrawal of the initial petition and the submission of a new petition. An approval or denial under this section will constitute a final agency action.

(c) *Resubmission of a petition.* After a petition for exemption is denied under this section, the petitioner may resubmit the petition along with supporting materials for reconsideration at any time. TTB will treat this submission as a new petition for purposes of the time frames for decision set forth in paragraph (b) of this section.

(d) *Availability of information*—(1) *General.* TTB will promptly post to its public Web site, *http://www.ttb.gov*, all petitions received under this section as well as TTB's responses to those petitions. Any information submitted in support of the petition that is not posted to the TTB Web site will be available to the public pursuant to 5 U.S.C. 552, except where a request for confidential treatment is granted under paragraph (d)(2) of this section.

(2) *Requests for confidential treatment of business information.* A person who provides trade secrets or other commercial or financial information in connection with a petition for exemption under this section may request that TTB give confidential treatment to that information. A failure to request confidential treatment at the time the information in question is submitted to TTB will constitute a waiver of confidential treatment. A request for confidential treatment of information under this section must conform to the following standards:

(i) The request must be in writing;

(ii) The request must clearly identify the information to be kept confidential;

(iii) The request must relate to information that constitutes trade secrets or other confidential commercial or financial information regarding the business transactions of an interested person, the disclosure of which would cause substantial harm to the competitive position of that person;

(iv) The request must set forth the reasons why the information should not be disclosed, including the reasons the disclosure of the information would prejudice the competitive position of the interested person; and

(v) The request must be supported by a signed statement by the interested person, or by an authorized officer or employee of that person, certifying that the information in question is a trade secret or other confidential commercial or financial information and that the information is not already in the public domain.

(2) Statements required by this subpart, except brand names and the declaration of sulfites in § 5.32(b)(7), shall be separate and apart from any other descriptive or explanatory matters.

(3) If not separate and apart from other descriptive or explanatory matter printed on the label, the statement declaring the presence of sulfites shall be of a size substantially more conspicuous than surrounding nonmandatory labeling information.

(4) Statements of the type of distilled spirits shall be as conspicuous as the statement of the class to which it refers, and in direct conjunction therewith.

(5) Statements required by this subpart, except brand names, shall be in script, type, or printing not smaller than 2 millimeters (or 8-point gothic until January 1, 1983), except that, in the case of labels on bottles of 200 milliliters or less capacity, such script, type, or printing shall not be smaller than 1 millimeter (or 6-point gothic until January 1, 1983).

(6) When net contents are stated either in metric measures or in both metric and U.S. fluid measures, statements required by the subpart, except brand names, shall be in script, type, or printing not smaller than 2 millimeters (or 8-point gothic until January 1, 1983), except that, in the case of labels on bottles of 200 milliliters or less capacity such script, type, or printing shall not be smaller than 1 millimeter (or 6-point gothic until January 1, 1983).

(c) *English language.* The requirements of this subpart shall be stated in the English language, except that the brand name need not be in English, and for products bottled for consumption within Puerto Rico the required information may be stated in the Spanish language if the net contents and, if the product is an imitation, the word ''imitation'' are also stated in the English language.

(g) *Contents of bottles.* A complete and accurate statement of the contents of the bottles to which labels are to be or have been affixed shall be submitted,

on request, to the appropriate TTB officer.

[T.D. 7020, 34 FR 20337, Dec. 30, 1969, as amended by T.D. ATF–66, 45 FR 40548, June 13, 1980; T.D. ATF–94, 46 FR 55096, Nov. 6, 1981; T.D. ATF–236, 51 FR 34710, Sept. 30, 1986; T.D. ATF–425, 65 FR 11891, Mar. 7, 2000]

§ 5.34 Brand names.

(a) *Misleading brand names.* No label shall contain any brand name, which, standing alone, or in association with other printed or graphic matter, creates any impression or inference as to the age, origin, identity, or other characteristics of the product unless the appropriate TTB officer finds that such brand name (when appropriately qualified if required) conveys no erroneous impressions as to the age, origin, identity, or other characteristics of the product.

(b) *Trade name of foreign origin.* Paragraph (a) of this section does not prohibit the use by any person of any trade name or brand of foreign origin not effectively registered in the U.S. Patent Office on August 29, 1935, which has been used by such person or his predecessors in the United States for a period of at least 5 years immediately preceding August 29, 1935: *Provided*, That if such trade name or brand is used, the designation of the product shall be qualified by the name of the locality in the United States in which produced, and such qualification shall be in script, type, or printing as conspicuous as the trade name or brand.

§ 5.35 Class and type.

(a) *Designation of product.* The class and type of distilled spirits shall be stated in conformity with § 5.22 if defined therein. In all other instances the product shall be designated in accordance with trade and consumer understanding thereof, or, if no such understanding exists, by a distinctive or fanciful name, and in either case (except as provided in paragraph (b)(2) of this section) followed by a truthful and adequate statement of composition. The word ''cordial'' or ''liqueur'' need not be stated in the case of cordials and liqueurs unless the appropriate TTB officer finds such word is necessary to clearly indicate that the product is a cordial or liqueur.

(b) *Products designed in accordance with trade and consumer understanding.* In the case of products designated in accordance with trade and consumer understanding:

(1) A statement of the classes and types of distilled spirits used in the manufacture thereof shall be deemed a sufficient statement of composition in the case of highballs, cocktails, and similar prepared specialties when the designation adequately indicates to the consumer the general character of the product.

(2) No statement of composition is required if the designation through general and established usage adequately indicates to the consumer the composition of the product.

A product shall not bear a designation which indicates it contains a class or type of distilled spirits unless the distilled spirits therein conform to such class and type.

(c) *Origin of whiskies in mixtures.* In the case of any of the types of whisky defined in § 5.22(b), Class 2, which contains any whisky or whiskies produced in a country other than that indicated by the type designation, there shall be stated on the brand label the percentage of such whisky and the country or origin thereof. In the case of mixtures of whisky, not conforming to any type designation in § 5.22(b), Class 2, the components of which were distilled in more than one country, there shall be stated in direct conjunction with the class designation ''whisky'' a truthful and adequate statement of the composition of the product.

(d) *Whisky manufactured in Scotland, Ireland, or Canada.* All whisky manufactured in Scotland, Ireland, or Canada, shall be deemed to be Scotch, Irish, or Canadian whisky, and shall be so designated, in conformity with § 5.22(b) (7), (8), and (9), unless the application of such designation to the particular product will result in consumer deception, or unless such a product is not entitled to such designation under the laws of the country in which manufactured.

(e) *Cordials and liqueurs.* The alcoholic components of cordails and liqueurs may, but need not, be stated on labels.

§ 5.36 Name and address.

(a) *''Bottled by''.* (1) On labels of domestic distilled spirits there shall be stated the phrase ''bottled by'', ''packed by'', or ''filled by'', immediately followed by the name (or trade name) of the bottler and the place where such distilled spirits are bottled. If the bottler is the actual bona fide operator of more than one distilled spirits plant engaged in bottling operations, there may, in addition, be stated immediately following the name (or trade name) of such bottler the addresses of such other plants.

(2) Where distilled spirits are bottled by or for the distiller thereof, there may be stated, in lieu of the phrase ''bottled by'', ''packed by'', or ''filled by'', followed by the bottler's name (or trade name) and address, the phrase ''distilled by'', followed by the name, or the trade name under which the particular spirits were distilled, or (except in the case of distilled spirits labeled as bottled in bond) any trade name shown on the distiller's permit (covering the premises where the particular spirits were distilled), and the address (or addresses) of the distiller.

(3) Where ''straight whiskies'' of the same type which have been produced in the same State by two or more different distillers are combined (either at time of bottling or at a warehouseman's bonded premises for further storage) and subsequently bottled and labeled as ''straight whisky,'' such ''straight whisky'' shall be labeled in accordance with the requirements of paragraph (a)(1) of this section. Where such ''straight whisky'' is bottled by or for the distillers thereof, there may be stated on the label, in lieu of the requirements of paragraph (a)(1) of this section, the phraise ''distilled by,'' followed by the names (or trade names) of the different distillers who distilled a portion of the ''straight whisky,'' the addresses of the distilleries where the ''straight whisky'' was distilled, and the percentage of ''straight whisky'' distilled by each distiller (with a tolerance of plus or minus 2 percent). In the case where ''straight whisky'' is made up of a mixture of ''straight whiskies'' of the same type from two or more different distilleries of the same proprietor located within the same State, and where the ''straight whisky'' is bottled by or for the proprietor thereof, such ''straight whisky'' may be labeled, in lieu of the requirements of paragraph (a)(1) of the this section, with the phrase ''distilled by'' followed by the name (or trade name) of the proprietor and the addresses of the different distilleries which distilled a portion of the ''straight whisky.''

(4) Where distilled spirits are bottled by or for the rectifier thereof, there may be stated, in lieu of the phrase ''bottled by'', ''packed by'', or ''filled by'', followed by the bottler's name (or trade name) and address, the phrases ''blended by'', ''made by'', ''prepared by'', ''manufactured by'', or ''produced by'' (whichever may be appropriate to the act of rectification involved) followed by the name (or trade name), and the address (or addresses) of the rectifier.

(5) In addition to the requirements of paragraphs (a)(1) and (a)(2) of this paragraph, the labels of bottled in bond spirits shall bear the real name of the distillery or the trade name under which the distillery produced and warehoused the spirits, the number of the plant in which produced and the number of the plant in which bottled.

(6) The label may state the address of the proprietor's principal place of business in lieu of the place where the bottling, distilling or rectification operation occurred, if the address where the operation occurred is indicated by printing, coding, or other markings, on the label or on the bottle.

(b) *''Imported by''.* (1) On labels of imported distilled spirits, bottled prior to importation, there shall be stated the words ''imported by'', ''imported exclusively by'', or a similar appropriate phrase, and immediately thereafter the name of the importer, or exclusive agent, or sole distributor, or other person responsible for the importation, together with the principal place of business in the United States of such person.

(2) On labels of imported distilled spirits bottled after importation there shall be stated:

(i) The name of the bottler and place where bottled, immediately preceded by the words ''bottled by'', ''packed by'', or ''filled by''; or

(ii) The name of the bottler and place where bottled, immediately preceded by the words ''bottled by'', ''packed by'', or ''filled by'' and in conjunction therewith the name and address of the person responsible for the importation, in the manner prescribed in paragraph (b)(1) of this section; or

(iii) The name and principal place of business in the United States of the person responsible for the importation, if the spirits are bottled for such person, immediately preceded by the phrase ''imported by and bottled (packed), (filled) in the United States for'' (or a similar appropriate phrase); or,

(iv) In the case of imported distilled spirits bottled after importation by the person responsible for the importation, the words ''imported and bottled (packed), (filled) by'', ''imported and bottled (packed), (filled) exclusively by'', or a similar appropriate phrase, and immediately thereafter the name of such person and the address of the place where bottled or the address of such person's principal place of business.

(c) *Post office address.* The ''place'' stated shall be the post office address, except that the street address may be omitted. No additional places or addresses shall be stated for the same person, firm or corporation, unless (1) such person or retailer is actively engaged in the conduct of an additional bona fide and actual alcoholic beverage business at such additional place or address, and (2) the label also contains in direct conjunction therewith, appropriate descriptive material indicating the function occurring at such additional place or address.

(d) *State of distillation.* Except in the case of ''light whisky'', ''blended light whisky'', ''blended whisky'', ''a blend of straight whiskies'', or ''spirit whisky'', the State of distillation shall be shown on the label of any whisky produced in the United States if the whisky is not distilled in the State given in the address on the brand label. The appropriate TTB officer may, however, require the State of distillation to be shown on the label or he may permit such other labeling as may be necessary to negate any misleading or deceptive impression which might be created as to the actual State of distillation. In the case of ''light whisky'', as defined in § 5.22(b)(3), the State of distillation shall not appear in any manner on any label, when the appropriate TTB officer finds such State is associated by consumers with an American type whisky, except as a part of a name and address as set forth in paragraph (a) of this section.

(e) *Country of origin.* On labels of imported distilled spirits there shall be stated the country of origin in substantially the following form ''Product of _____'', the blank to be filled in with the name of the country of origin.

Products such as ''Rock and Rye. or similar products containing a significant amount of solid material shall state the alcohol content at the time of bottling as follows: ''Bottled at _____ percent-alcohol-by-volume.''

(2) *Optional statement.* In addition, the label may also state the alcohol content in degrees of proof if this information appears in direct conjunction (i.e. with no intervening material) with the statement expressed in percent-alcohol-by-volume. If both forms of alcohol content are shown, the optional statement in degrees of proof shall be placed in parentheses, in brackets, or otherwise distinguished from the mandatory statement in percent-alcohol-by-by-volume to emphasize the fact that both expressions of alcohol content mean the same thing.

(b) *Tolerances.* The following tolerances shall be allowed (without affecting the labeled statement of alcohol

content) for losses of alcohol content occurring during bottling:

(1) Not to exceed 0.25 percent alcohol by volume for spirits containing solids in excess of 600 mg per 100 ml; or

(2) Not to exceed 0.25 percent alcohol by volume for any spirits product bottled in 50 or 100 ml size bottles; or

The age blank shall be filled in with the age of the youngest straight whisky. In lieu of the foregoing, a statement may be made of the ages and percentages of each of the straight whiskies contained in the blend: ''____ percent straight whisky ____ years old, ____ percent straight whisky ____ years old, and ____ percent straight whisky ____ years old.''

(iii) If only one straight whisky and one other whisky is contained in the blend: ''____ percent straight whisky ____ years old, ____ percent whisky ____ years old.''

(iv) If more than one straight whisky and more than one other whisky is contained in the blend: ''____ percent straight whiskies ____ years or more old, ____ percent whiskies ____ years or more old.'' (3) In the case of imported whiskies described in § 5.22(l), Class 12, the labels shall state the ages and percentages in the same manner and form as is required for the same type of whisky produced in the United States.

If age is stated, it shall be substantially as follows: ''____ years old''; the blank to be filled in with the age of the youngest distilled spirits in the product.

(c) *Statement of storage for grain spirits.* In case of grain spirits, the period of storage in oak containers may be stated in immediate conjunction with the required percentage statement; for example, ''____% grain spirits stored ____ years in oak containers.''

The statements authorized by this part to appear on labels for domestic distilled spirits are ''Distilled (produced, barreled, warehoused, blended, or bottled, or any combination thereof, as the case may be) under United States (U.S.) Government supervision'', or in the case of distilled spirits labeled as bottled in bond, ''Bottled in bond under United States (U.S.) Government supervision''. If the municipal, State, or Federal Government permit number is stated on a label, it shall not be accompanied by any additional statement relating thereto.

(2) If imported distilled spirits are covered by a certificate of origin or of age issued by a duly authorized official of the appropriate foreign government, the label, except where prohibited by the foreign government, may refer to such certificate or the fact of such certification, but shall not be accompanied by any additional statement relating thereto. The reference to such certificate or certification shall, in the case of Cognac, be substantially in the following form: ''This product accompanied at the time of importation by an 'Acquit Regional Jaune d'Or' issued by the French Government, indicating that this grape brandy was distilled in the Cognac Region of France''; and in the case of other distilled spirits, substantially in the following form: ''This product accompanied at time of importation by a certificate issued by the ____ government (name of government) indicating that the product is ____ (class and type as required to be stated on the label), and (if label claims age) that none of the distilled spirits are of an age less than stated on this label.''

(3) The words ''bond'', ''bonded'', ''bottled in bond'', ''aged in bond'', or phrases containing these or synonymous terms, shall not be used on any

label or as part of the brand name of domestic distilled spirits unless the distilled spirits are:

(i) Composed of the same kind of spirits produced from the same class of materials;

(ii) Produced in the same distilling season by the same distiller at the same distillery;

(iii) Stored for at least four years in wooden containers wherein the spirits have been in contact with the wood surface except for gin and vodka which must be stored for at least four years in wooden containers coated or lined with paraffin or other substance which will preclude contact of the spirits with the wood surface;

(iv) Unaltered from their original condition or character by the addition or subtraction of any substance other than by filtration, chill proofing, or other physical treatments (which do not involve the addition of any substance which will remain incorporated in the finished product or result in a change in class or type);

(v) Reduced in proof by the addition of pure water only to 100 degrees of proof; and

(vi) Bottles at 100 degrees of proof.

In addition to the requirements of §5.36(a) (1) or (2), the label shall bear the real name of the distillery or the trade name under which the distillery produced and warehoused the spirits, and the plant (or registered distillery) number in which produced; and the plant number in which bottled. The label may also bear the name or trade name of the bottler.

(4) The words ''bond'', ''bonded'', ''bottled in bond'', ''aged in bond'', or phrases containing these or synonymous terms, shall not be used on any label or as part of the brand name of imported distilled spirits unless the distilled spirits meet in all respects the requirements applicable to distilled spirits bottled for domestic consumption, so labeled, and unless the laws and regulations of the country in which such distilled spirits are produced authorize the bottling of distilled spirits in bond and require or specifically authorize such distilled spirits to be so labeled. All spirits labeled as ''bonded'', ''bottled in bond'', or ''aged in bond'' pursuant to the provisions of this paragraph shall bear in direct conjunction with such statement and in script, type, or printing substantially as conspicuous as that used on such statement, the name of the country under whose laws and regulations such distilled spirits were so bottled.

(5) The word ''pure'' shall not be stated upon labels unless:

(i) It refers to a particular ingredient used in the production of the distilled spirits, and is a truthful representation about that ingredient; or

(ii) It is part of the bona fide name of a permittee or retailer for whom the distilled spirits are bottled; or

(iii) It is part of the bona fide name of the permittee who bottled the distilled spirits.

(6) Distilled spirits shall not be labeled as ''double distilled'' or ''triple distilled'' or any similar term unless it is a truthful statement of fact; except that ''double distilled'' or ''triple distilled'' shall not be permitted on labels of distilled spirits produced by the redistillation method when a second or third distillation step is a necessary distillation process for the production of the product.

(7) Labels shall not contain any statement, design, device, or pictorial representation which the appropriate TTB officer finds relates to, or is capable of being construed as relating to, the armed forces of the United States, or the American flag, or any emblem, seal, insignia, or decoration associated with such flag or armed forces; nor shall any label contain any statement, design, device, or pictorial representation of or concerning any flag, seal, coat of arms, crest or other insignia, likely to mislead the consumer to believe that the product has been endorsed, made, or used by, or produced for, or under the supervision of, or in accordance with the specifications of the government, organization, family, or individual with whom such flag, seal, coat of arms, crest, or insignia is associated.

(8) *Health-related statements*—(i) *Definitions.* When used in this paragraph (b)(8), terms are defined as follows:

(A) *Health-related statement* means any statement related to health (other than the warning statement required by §16.21 of this chapter) and includes

statements of a curative or therapeutic nature that, expressly or by implication, suggest a relationship between the consumption of alcohol, distilled spirits, or any substance found within the distilled spirits, and health benefits or effects on health. The term includes both specific health claims and general references to alleged health benefits or effects on health associated with the consumption of alcohol, distilled spirits, or any substance found within the distilled spirits, as well as health-related directional statements. The term also includes statements and claims that imply that a physical or psychological sensation results from consuming the distilled spirits, as well as statements and claims of nutritional value (*e.g.*, statements of vitamin content). Statements concerning caloric, carbohydrate, protein, and fat content do not constitute nutritional claims about the product.

(B) *Specific health claim* is a type of health-related statement that, expressly or by implication, characterizes the relationship of the distilled spirits, alcohol, or any substance found within the distilled spirits, to a disease or health-related condition. Implied specific health claims include statements, symbols, vignettes, or other forms of communication that suggest, within the context in which they are presented, that a relationship exists between distilled spirits, alcohol, or any substance found within the distilled spirits, and a disease or health-related condition.

(C) *Health-related directional statement* is a type of health-related statement that directs or refers consumers to a third party or other source for information regarding the effects on health of distilled spirits or alcohol consumption.

(ii) *Rules for labeling*—(A) *Health-related statements.* In general, labels may not contain any health-related statement that is untrue in any particular or tends to create a misleading impression as to the effects on health of alcohol consumption. TTB will evaluate such statements on a case-by-case basis and may require as part of the health-related statement a disclaimer or some other qualifying statement to dispel any misleading impression conveyed by the health-related statement.

(B) *Specific health claims.* (*1*) TTB will consult with the Food and Drug Administration (FDA), as needed, on the use of a specific health claim on a distilled spirits label. If FDA determines that the use of such a labeling claim is a drug claim that is not in compliance with the requirements of the Federal Food, Drug, and Cosmetic Act, TTB will not approve the use of that specific health claim on a distilled spirits label.

(*2*) TTB will approve the use of a specific health claim on a distilled spirits label only if the claim is truthful and adequately substantiated by scientific or medical evidence; sufficiently detailed and qualified with respect to the categories of individuals to whom the claim applies; adequately discloses the health risks associated with both moderate and heavier levels of alcohol consumption; and outlines the categories of individuals for whom any levels of alcohol consumption may cause health risks. This information must appear as part of the specific health claim.

(C) *Health-related directional statements.* A statement that directs consumers to a third party or other source for information regarding the effects on health of distilled spirits or alcohol consumption is presumed misleading unless it—

(*1*) Directs consumers in a neutral or other non-misleading manner to a third party or other source for balanced information regarding the effects on health of distilled spirits or alcohol consumption; and

(*2*)(*i*) Includes as part of the health-related directional statement the following disclaimer: ''This statement should not encourage you to drink or to increase your alcohol consumption for health reasons;'' or

(*ii*) Includes as part of the health-related directional statement some other qualifying statement that the appropriate TTB officer finds is sufficient to

dispel any misleading impression conveyed by the health-related directional statement.

§ 5.45 Application.

No person engaged in business as a distiller, rectifier, importer, wholesaler, or warehouseman and bottler, directly or indirectly, or through an affiliate, shall sell or ship or deliver for sale or shipment, or otherwise introduce in interstate or foreign commerce, or receive therein or remove from customs custody any distilled spirits in bottles unless such distilled spirits are bottled and packed in conformity with §§ 5.46 through 5.47a.

§ 5.46 Standard liquor bottles.

(a) *General.* A standard liquor bottle shall be one so made and formed, and so filled, as not to mislead the purchaser. An individual carton or other container of a bottle shall not be so designed as to mislead purchasers as to the size of the bottles.

(b) *Headspace.* A liquor bottle of a capacity of 200 milliliters or more shall be held to be so filled as to mislead the purchaser if it has a headspace in excess of 8 percent of the total capacity of the bottle after closure.

(c) *Design.* A liquor bottle shall be held (irrespective of the correctness of the stated net contents) to be so made and formed as to mislead the purchaser, if its actual capacity is substantially less than the capacity it appears to have upon visual examination under ordinary conditions of purchase or use.

(d) *Exceptions*—(1) *Distinctive liquor bottles.* The headspace and design requirements in paragraphs (b) and (c) of this section do not apply to liquor bottles that are specifically exempted by the appropriate TTB officer, pursuant to an application filed by the bottler or importer.

§ 5.47 Standards of fill (distilled spirits bottled before January 1, 1980).

(a) *Authorized standards of fill.* The standards of fill for all distilled spirits, whether domestically bottled, or imported, subject to the tolerances allowed in this section, shall be as follows:

1 gallon.	4/5 pint.
½ gallon.	½ pint.
1 quart.	⅛ pint.
4/5 quart.	1/10 pint.
1 pint.	1/16 pint (brandy only).

(b) *Tolerances.* The following tolerances shall be allowed:

(1) Discrepancies due to errors in measuring which occur in filling conducted in compliance with good commercial practice.

(2) Discrepancies due to differences in the capacity of bottles, resulting solely from unavoidable difficulties in manufacturing such bottles to a uniform capacity: *Provided,* That no greater tolerance shall be allowed in case of bottles which, because of their design, cannot be made of approximately uniform capacity than is allowed in case of bottles which can be manufactured so as to be of approximately uniform capacity.

(3) Discrepancies in measure due to differences in atmospheric conditions in various places and which unavoidably result from the ordinary and customary exposure of alcoholic beverages in bottles to evaporation. The reasonableness of discrepancies under this paragraph shall be determined on the facts in each case.

(c) *Unreasonable shortages.* Unreasonable shortages in certain of the bottles in any shipment shall not be compensated by overages in other bottles in the same shipment.

(d) *Limitations.* This section does not apply after December 31, 1979.

375 milliliters
200 milliliters

355 milliliters
200 milliliters
100 milliliters
50 milliliters

(b) *Tolerances.* The following tolerances shall be allowed:

(1) Discrepancies due to errors in measuring which occur in filling conducted in compliance with good commercial practice.

(2) Discrepancies due to differences in the capacity of bottles, resulting solely from unavoidable difficulties in manufacturing such bottles to a uniform capacity: *Provided,* That no greater tolerance shall be allowed in case of bottles which, because of their design, cannot be made of approximately uniform capacity than is allowed in case of bottles which can be manufactured so as to be of approximately uniform capacity.

(c) *Unreasonable shortages.* Unreasonable shortages in certain of the bottles in any shipment shall not be compensated by overages in other bottles in the same shipment.

(d) *Distilled spirits bottled before January 1, 1980.* Distilled spirits bottled domestically before January 1, 1980, may be marketed after December 31, 1979, if such distilled spirits were bottled in accordance with § 5.47. Subpart F—Requirements for Withdrawal From Customs Custody of Bottled Imported Distilled Spirits

§ 5.51 Label approval and release.

(a) *Certificate of label approval.* Bottled distilled spirits shall not be released from Customs custody for consumption unless there is deposited with the appropriate Customs officer at the port of entry the original or a photostatic copy of an approved certificate of label approval, TTB Form 5100.31.

(b) *Release.* If the original or photostatic copy of TTB Form 5100.31 has been approved, the brand or lot of distilled spirits bearing labels identical with those shown thereon may be released from U.S. Customs custody.

(c) *Relabeling.* Imported distilled spirits in U.S. Customs custody which are not labeled in conformity with certificates of label approval issued by the

appropriate TTB officer must be relabeled prior to release under the supervision of the Customs officers of the port at which the spirits are located.

(d) *Statements of process.* TTB Forms 5100.31 covering labels for gin bearing the word ''distilled'' as a part of the designation shall be accompanied by a statement prepared by the manufacturer, setting forth a step-by-step description of the manufacturing process.

(e) *Cross reference.* For procedures regarding the issuance, denial, and revocation of certificates of label approval, as well as appeal procedures, see part 13 of this chapter.

§ 5.52 Certificates of age and origin.

(a) *Scotch, Irish, and Canadian whiskies.* Scotch, Irish, and Canadian whiskies, imported in bottles, shall not be released from customs custody for consumption unless the invoice is accompanied by a certificate of origin issued by a duly authorized official of the British, Irish, or Canadian Government, certifying (1) that the particular distilled spirits are Scotch, Irish, or Canadian whisky, as the case may be, (2) that the distilled spirits have been manufactured in compliance with the laws of the respective foreign governments regulating the manufacture of whisky for home consumption, and (3) that the product conforms to the requirements of the Immature Spirits Act of such foreign governments for spirits intended for home consumption. In addition, a duly authorized official of the appropriate foreign government must certify to the age of the youngest distilled spirits in the bottle. The age certified shall be the period during which, after distillation and before bottling, the distilled spirits have been stored in oak containers.

(b) *Brandy, Cognac, and rum.* Brandy (other than fruit brandies of a type not customarily stored in oak containers) or Cognac, imported in bottles, shall not be released from customs custody for consumption unless accompanied by a certificate issued by a duly authorized official of the appropriate foreign country certifying that the age of the youngest brandy or Cognac in the bottle is not less than 2 years, or if age is stated on the label that none of the distilled spirits are of an age less than that stated. If the label of any rum, imported in bottles, contains any statement of age, the rum shall not be released from customs custody for consumption unless accompanied by a certificate issued by a duly authorized official of the appropriate foreign country, certifying to the age of the youngest rum in the bottle. The age certified shall be the period during which, after distillation and before bottling, the distilled spirits have been stored in oak containers. If the label of any fruit brandy, not stored in oak containers, bears any statement of storage in other type containers, the brandy must be accompanied by a certificate issued by a duly authorized official of the appropriate foreign government certifying to such storage. Cognac, imported in bottles, shall not be released from customs custody for consumption unless the invoice is accompanied by a certificate issued by a duly authorized official of the French Government, certifying that the product is grape brandy distilled in the Cognac region of France and entitled to be designated as ''Cognac'' by the laws and regulations of the French Government.

(2) If the label of any Tequila imported in bottles, contains any statement of age, the Tequila shall not be released from customs custody for consumption unless a certificate of a duly authorized official of the Mexican Government as to the age of the youngest Tequila in the bottle is filed with the application for release. The age certified shall be the period during which the Tequila has been stored in oak containers after distillation and before bottling.

(d) *Other whiskies.* Whisky, as defined in § 5.22(b) (1), (4), (5), and (6), imported in bottles, shall not be released from customs custody for consumption unless accompanied by a certificate issued by a duly authorized official of the appropriate foreign government certifying:

§ 5.53 Certificate of nonstandard fill.

(a) Distilled spirits imported in original containers not conforming to the metric standards of fill prescribed in § 5.47a shall not be released from Customs custody after December 31, 1979:

(1) Unless the distilled spirits are accompanied by a statement signed by a duly authorized official of the appropriate foreign country, stating that the distilled spirits were bottled or packed prior to January 1, 1980; or

Subpart G—Requirements for Approval of Labels of Domestically Bottled Distilled Spirits

§ 5.55 Certificates of label approval.

(a) *Requirement.* Distilled spirits shall not be bottled or removed from a plant, except as provided in paragraph (b) of this section, unless the proprietor possesses a certificate of label approval, TTB Form 5100.31, covering the labels on the bottle, issued by the appropriate TTB officer pursuant to application on such form. Application for certificates of label approval covering labels for imported gin bearing the word ''distilled'' as a part of the designation shall be accompanied by a statement prepared by the manufacturer setting forth a step-by-step description of the manufacturing process.

Subpart H—Advertising of Distilled Spirits

§ 5.61 Application.

No person engaged in business as a distiller, rectifier, importer, wholesaler, or warehouseman and bottler of distilled spirits, directly or indirectly or through an affiliate, shall publish or disseminate or cause to be published or disseminated by radio or television broadcast, or in any newspaper, periodical, or any publication, by any sign or outdoor advertisement, or any other printed or graphic matter, any advertisement of distilled spirits, if such advertising is in, or is calculated to induce sales in, interstate or foreign commerce, or is disseminated by mail, unless such advertisement is in conformity with §§ 5.61 through 5.66 of this part. Provided, that such sections shall not apply to outdoor advertising in place on September 7, 1984, but shall apply upon replacement, restoration, or renovation of any such advertising; and provided further, that such sections shall not apply to a retailer or the publisher of any newspaper, periodical, or other publication, or radio or television broadcast, unless such retailer or publisher or radio or television broadcaster is engaged in business as a distiller, rectifier, importer, wholesaler, or warehouseman and bottler of distilled spirits, directly or indirectly, or through an affiliate.

[T.D. ATF–180, 49 FR 31673, Aug. 8, 1984, as amended by T.D. TTB–91, 76 FR 5477, Feb. 1, 2011]

§ 5.62 Definition.

As used in §§ 5.61 through 5.66 of this part, the term ''advertisement'' includes any written or verbal statement, illlustration, or depiction which is in, or calculated to induce sales in, interstate or foreign commerce, or is disseminated by mail, whether it appears in a newspaper, magazine, trade booklet, menu, wine card, leaflet, circular, mailer, book insert, catalog, promotional material, sales pamphlet, or in any written, printed, graphic, or other matter accompanying the bottle, representations made on cases or in any billboard, sign, other outdoor display, public transit card, other periodical literature, publication, or in a radio or television broadcast, or in any other media; except that such term shall not include:

(a) Any label affixed to any bottle of distilled spirits; or any individual covering, carton, or other container of the bottle which constitute a part of the labeling under §§ 5.31 through 5.42 of this part.

(b) Any editorial or other reading material (*i.e.,* news release) in any periodical or publication or newspaper for the publication of which no money or

valuable consideration is paid or promised, directly or indirectly, by any permittee, and which is not written by or at the direction of the permittee.

[T.D. ATF–180, 49 FR 31673, Aug. 8, 1984]

§ 5.63 Mandatory statements.

(a) *Responsible advertiser.* The advertisement shall state the name and address of the permittee responsible for its publication or broadcast. Street number and name may be omitted in the address.

(b) *Class and type.* The advertisement shall contain a conspicuous statement of the class to which the product belongs and the type thereof corresponding with the statement of class and type which is required to appear on the label of the product.

(c) *Alcohol content*—(1) *Mandatory statement.* The alcohol content for distilled spirits shall be stated in percent-alcohol-by-volume. Products such as ''Rock and Rye'' or similar products containing a significant amount of solid material shall state the alcohol content at the time of bottling as follows: ''Bottled at _____ percent-alcohol-by-volume.''

(2) *Optional statement.* In addition, the advertisement may also state the alcohol content in degrees of proof if this information appears in direct conjunction (i.e. with no intervening material) with the statement expressed in percent-alcohol-by-volume. If both forms of alcohol content are shown, the optional statement in degrees of proof shall be placed in parentheses, in brackets, or otherwise distinguished from the mandatory statement in percent-alcohol-by-volume to emphasize the fact that both expressions of alcohol content mean the same thing.

(d) *Percentage of neutral spirits and name of commodity.* (1) In the case of distilled spirits (other than cordials, liqueurs, and specialties) produced by blending or rectification, if neutral spirits have been used in the production thereof, there shall be stated the percentage of neutral spirits so used and the name of the commodity from which such neutral spirits have been distilled. The statement of percentage and the name of the commodity shall be made in substantially the following form: ''____% neutral spirits distilled from _____ (insert grain, cane products, or fruit, as appropriate)''; or ____% neutral spirits (vodka) distilled from _____ (insert grain, cane product, or fruit, as appropriate)''; or ''____% grain (cane products), (fruit) neutral spirits''; or ''____% grain spirits''.

§ 5.65 Prohibited practices.

(a) *Restrictions.* An advertisement of distilled spirits shall not contain:

(1) Any statement that is false or untrue in any material particular, or that, irrespective of falsity, directly, or by ambiguity, omission, or inference, or by the addition of irrelevant, scientific or technical matter tends to create a misleading impression.

(2) Any statement that is disparaging of a competitor's product.

(3) Any statement, design, device, or representation which is obscene or indecent.

(4) Any statement, design, device, or representation of or relating to analyses, standards or tests, irrespective of falsity, which the appropriate TTB officer finds to be likely to mislead the consumer.

(5) Any statement, design, device, or representation of or relating to any guarantee, irrespective of falsity, which the appropriate TTB officer finds to be likely to mislead the consumer. Money-back guarantees are not prohibited.

(6) Any statement that the distilled spirits are distilled, blended, made, bottled, or sold under or in accordance with any municipal, State, Federal, or foreign authorization, law, or regulation, unless such statement appears in the manner authorized by § 5.42 for labels of distilled spirits. If a municipal, State or Federal permit number is stated, such permit number shall not be accompanied by any additional statement relating thereto.

(7) The words ''bond'', ''bonded'', ''bottled in bond'', ''aged in bond'', or phrases containing these or synonymous terms, unless such words or phrases appear, pursuant to § 5.42, on labels of the distilled spirits advertised, and are stated in the advertisement in the manner and form in which they are permitted to appear on the label.

(8) The word ''pure'' unless:

(i) It refers to a particular ingredient used in the production of the distilled spirits, and is a truthful representation about the ingredient; or

(ii) It is part of the bona fide name of a permittee or retailer from whom the distilled spirits are bottled; or

(iii) It is part of the bona fide name of the permittee who bottled the distilled spirits.

(9) The words ''double distilled'' or ''triple distilled'' or any similar terms unless it is a truthful statement of fact; except that ''double distilled'' or ''triple distilled'' shall not be permitted in advertisements of distilled spirits produced by the redistillation method when a second or third distillation step is a necessary distillation process for the production of the product.

(b) *Statements inconsistent with labeling.* (1) Advertisements shall not contain any statement concerning a brand or lot of distilled spirits that is inconsistent with any statement on the labeling thereof.

(2) Any label depicted on a bottle in an advertisement shall be a reproduction of an approved label.

(c) *Statement of age.* The advertisement shall not contain any statement, design, or device directly or by implication concerning age or maturity of any brand or lot of distilled spirits unless a statement of age appears on the label of the advertised product. When any such statement, design, or device concerning age or maturity is contained in any advertisement, it shall include (in direct conjunction therewith and with substantially equal conspicuousness) all parts of the statement, if any, concerning age and percentages required to be made on the label under the provisions of §§ 5.31 through 5.42. An advertisement for any whisky or brandy (except immature brandies) which is not required to bear a statement of age on the label or an advertisement for any rum or Tequila, which has been aged for not less than 4 years may, however, contain inconspicuous, general representation as to

age, maturity or other similar representations even though a specific age statement does not appear on the label of the advertised product and in the advertisement itself.

(d) *Health-related statements*—(1) *Definitions.* When used in this paragraph (d), terms are defined as follows:

(i) *Health-related statement* means any statement related to health and includes statements of a curative or therapeutic nature that, expressly or by implication, suggest a relationship between the consumption of alcohol, distilled spirits, or any substance found within the distilled spirits, and health benefits or effects on health. The term includes both specific health claims and general references to alleged health benefits or effects on health associated with the consumption of alcohol, distilled spirits, or any substance found within the distilled spirits, as well as health-related directional statements. The term also includes statements and claims that imply that a physical or psychological sensation results from consuming the distilled spirits, as well as statements and claims of nutritional value (*e.g.,* statements of vitamin content). Statements concerning caloric, carbohydrate, protein, and fat content do not constitute nutritional claims about the product.

(ii) *Specific health claim* is a type of health-related statement that, expressly or by implication, characterizes the relationship of the distilled spirits, alcohol, or any substance found within the distilled spirits, to a disease or health-related condition. Implied specific health claims include statements, symbols, vignettes, or other forms of communication that suggest, within the context in which they are presented, that a relationship exists between distilled spirits, alcohol, or any substance found within the distilled spirits, and a disease or health-related condition.

(iii) *Health-related directional statement* is a type of health-related statement that directs or refers consumers to a third party or other source for information regarding the effects on health of distilled spirits or alcohol consumption.

(2) *Rules for advertising*—(i) *Health-related statements.* In general, advertisements may not contain any health-related statement that is untrue in any particular or tends to create a misleading impression as to the effects on health of alcohol consumption. TTB will evaluate such statements on a case-by-case basis and may require as part of the health-related statement a disclaimer or some other qualifying statement to dispel any misleading impression conveyed by the health-related statement. Such disclaimer or other qualifying statement must appear as prominent as the health-related statement.

(ii) *Specific health claims.* A specific health claim will not be considered misleading if it is truthful and adequately substantiated by scientific or medical evidence; sufficiently detailed and qualified with respect to the categories of individuals to whom the claim applies; adequately discloses the health risks associated with both moderate and heavier levels of alcohol consumption; and outlines the categories of individuals for whom any levels of alcohol consumption may cause health risks. This information must appear as part of the specific health claim and in a manner as prominent as the specific health claim.

(iii) *Health-related directional statements.* A statement that directs consumers to a third party or other source for information regarding the effects on health of distilled spirits or alcohol consumption is presumed misleading unless it—

(A) Directs consumers in a neutral or other non-misleading manner to a third party or other source for balanced information regarding the effects on health of distilled spirits or alcohol consumption; and

(B)(*1*) Includes as part of the health-related directional statement, and in a manner as prominent as the health-related directional statement, the following disclaimer: ''This statement should not encourage you to drink or increase your alcohol consumption for health reasons;'' or

(*2*) Includes as part of the health-related directional statement, and in a manner as prominent as the health-related directional statement, some other qualifying statement that the appropriate TTB officer finds is sufficient

to dispel any misleading impression conveyed by the health-related directional statement.

(e) *Place of origin.* The advertisement shall not represent that the distilled spirits were manufactured in or imported from a place or country other than that of their actual origin, or were produced or processed by one who was not in fact the actual producer or processor.

(f) *Confusion of brands.* Two or more different brands or lots of distilled spirits shall not be advertised in one advertisement (or in two or more advertisements in one issue of a periodical or newspaper, or in one piece of other written, printed, or graphic matter) if the advertisement tends to create the impression that representations made as to one brand or lot apply to the other or others, and if as to such latter the representations contravene any provisions of this subpart or are in any respect untrue.

(g) *Flags, seals, coats of arms, crests, and other insignia.* An advertisement shall not contain any statement, design, device, or pictorial representation which the appropriate TTB officer finds relates to, or is capable of being construed as relating to the armed forces of the United States, or the American flag, or any emblem, seal, insignia, or decoration associated with such flag or armed forces; nor shall any advertisement contain any statement, design, device, or pictorial representation of or concerning any flag, seal, coat of arms, crest, or other insignia, likely to mislead the consumer to believe that the product has been endorsed, made, or used by, or produced for, or under the supervision of, or in accordance with the specifications of the government, organization, family, or individual with whom such flag, seal, coat of arms, crest, or insignia is associated.

(h) *Deceptive advertising techniques.* Subliminal or similar techniques are prohibited. ''Subliminal or similar techniques,'' as used in this part, refers to any device or technique that is used to convey, or attempts to convey, a message to a person by means of images or sounds of a very brief nature that cannot be perceived at a normal level of awareness.

§ 5.66 Comparative advertising.

(a) *General.* Comparative advertising shall not be disparaging of a competitor's product.

(b) *Taste tests.* (1) Taste test results may be used in advertisements comparing competitors' products unless they are disparaging, deceptive, or likely to mislead the consumer.

(2) The taste test procedure used shall meet scientifically accepted procedures. An example of a scientifically accepted procedure is outlined in the *Manual on Sensory Testing Methods*, ASTM Special Technical Publication 434, published by the American Society for Testing and Materials, 1916 Race Street, Philadelphia, Pennsylvania 19103, ASTM, 1968, Library of Congress Catalog Card Number 68–15545.

(3) A statement shall appear in the advertisement providing the name and address of the testing administrator.

Subpart I—Use of the Term ''Organic.''

§ 5.71 Use of the term "organic."

(a) Use of the term ''organic'' is optional and is treated as ''additional information on labels'' under § 5.33(f).

(b) Any use of the term ''organic'' on a distilled spirits label or in advertising of distilled spirits must comply with the United States Department of Agriculture's (USDA) National Organic Program rules, 7 CFR part 205, as interpreted by the USDA.

(c) This section applies to labels and advertising that use the term ''organic'' on and after October 21, 2002.

(1) The industry member induces a retailer to purchase distilled spirits, wine, or malt beverages from such industry member to the exclusion in whole or in part of products sold or offered for sale by other persons in interstate or foreign commerce; and

(2) If: (i) The inducement is made in the course of interstate or foreign commerce; or

(ii) The industry member engages in the practice of using an inducement to such an extent as substantially to restrain or prevent transactions in interstate or foreign commerce in any such products; or

Subpart E—Exclusion

SOURCE: T.D. ATF–364, 60 FR 20424, Apr. 26, 1995, unless otherwise noted.

§ 6.151 Exclusion, in general.

(a) Exclusion, in whole or in part occurs:

(1) When a practice by an industry member, whether direct, indirect, or through an affiliate, places (or has the potential to place) retailer independence at risk by means of a tie or link

between the industry member and retailer or by any other means of industry member control over the retailer; and

(2) Such practice results in the retailer purchasing less than it would have of a competitor's product.

(b) Section 6.152 lists practices that create a tie or link that places retailer independence at risk. Section 6.153 lists the criteria used for determining whether other practices can put retailer independence at risk.

§ 6.152 Practices which put retailer independence at risk.

The practices specified in this section put retailer independence at risk. The practices specified here are examples and do not constitute a complete list of those practices that put retailer independence at risk.

(a) The act by an industry member of resetting stock on a retailer's premises (other than stock offered for sale by the industry member).

(b) The act by an industry member of purchasing or renting display, shelf, storage or warehouse space (*i.e.* slotting allowance).

(c) Ownership by an industry member of less than a 100 percent interest in a retailer, where such ownership is used to influence the purchases of the retailer.

(d) The act by an industry member of requiring a retailer to purchase one alcoholic beverage product in order to be allowed to purchase another alcoholic beverage product at the same time.

§ 6.153 Criteria for determining retailer independence.

The criteria specified in this section are indications that a particular practice, other than those in § 6.152, places retailer independence at risk. A practice need not meet all of the criteria specified in this section in order to place retailer independence at risk.

(a) The practice restricts or hampers the free economic choice of a retailer to decide which products to purchase or the quantity in which to purchase them for sale to consumers.

(b) The industry member obligates the retailer to participate in the promotion to obtain the industry member's product.

(c) The retailer has a continuing obligation to purchase or otherwise promote the industry member's product.

(d) The retailer has a commitment not to terminate its relationship with the industry member with respect to purchase of the industry member's products.

(e) The practice involves the industry member in the day-to-day operations of the retailer. For example, the industry member controls the retailer's decisions on which brand of products to purchase, the pricing of products, or the manner in which the products will be displayed on the retailer's premises.

(f) The practice is discriminatory in that it is not offered to all retailers in the local market on the same terms without business reasons present to justify the difference in treatment.

§ 7.20 General.

(a) *Application.* This subpart shall apply to malt beverages sold or shipped or delivered for shipment, or otherwise introduced into or received in any State from any place outside thereof, only to the extent that the law of such State imposes similar requirements with respect to the labeling of malt beverages not sold or shipped or delivered for shipment or otherwise introduced into or received in such State from any place outside thereof.

(b) *Marking, branding, and labeling.* No person engaged in business as a brewer, wholesaler, or importer of malt beverages, directly or indirectly, or through an affiliate, shall sell or ship, or deliver for sale or shipment, or otherwise introduce in interstate or foreign commerce, or receive therein, or remove from Customs custody any malt beverages in containers unless the malt beverages are packaged, and the packages are marked, branded, and labeled in conformity with this subpart.

(c) *Alteration of labels.* (1) It shall be unlawful for any person to alter, mutilate, destroy, obliterate, or remove any mark, brand, or label upon malt beverages held for sale in interstate or foreign commerce or after shipment therein, except as authorized by Federal law. The appropriate TTB officer may, upon written application, permit additional labeling or relabeling of malt beverages in containers if, in his judgment, the facts show that the additional labeling or relabeling is for the purpose of compliance with the requirements of this subpart or of State law.

(2) Application for permission to relabel shall be accompanied by two complete sets of the old labels and two complete sets of any proposed labels, together with a statement of the reasons for relabeling, the quantity and the location of the malt beverages, and the name and address of the person by whom they will be relabeled.

§ 7.22a Voluntary disclosure of major food allergens.

(a) *Definitions.* For purposes of this section the following terms have the meanings indicated.

(1) *Major food allergen. Major food allergen* means any of the following:

(i) Milk, egg, fish (for example, bass, flounder, or cod), Crustacean shellfish (for example, crab, lobster, or shrimp), tree nuts (for example, almonds, pecans, or walnuts), wheat, peanuts, and soybeans; or

(ii) A food ingredient that contains protein derived from a food specified in paragraph (a)(1)(i) of this section, except:

(A) Any highly refined oil derived from a food specified in paragraph (a)(1)(i) of this section and any ingredient derived from such highly refined oil; or

(B) A food ingredient that is exempt from major food allergen labeling requirements pursuant to a petition for exemption approved by the Food and Drug Administration (FDA) under 21 U.S.C. 343(w)(6) or pursuant to a notice submitted to FDA under 21 U.S.C. 343(w)(7), provided that the food ingredient meets the terms or conditions, if any, specified for that exemption.

(2) *Name of the food source from which each major food allergen is derived. Name of the food source from which each major food allergen is derived* means the name of the food as listed in paragraph (a)(1)(i) of this section, except that:

(i) In the case of a tree nut, it means the name of the specific type of nut (for example, almonds, pecans, or walnuts); and

(ii) In the case of Crustacean shellfish, it means the name of the species of Crustacean shellfish (for example, crab, lobster, or shrimp); and

(iii) The names ''egg'' and ''peanuts'', as well as the names of the different types of tree nuts, may be expressed in either the singular or plural form, and the name ''soy'', ''soybean'', or ''soya'' may be used instead of ''soybeans''.

(b) *Voluntary labeling standards.* Major food allergens (defined in paragraph (a)(1) of this section) used in the production of a malt beverage product

may, on a voluntary basis, be declared on any label affixed to the container. However, if any one major food allergen is voluntarily declared, all major food allergens used in production of the malt beverage product, including major food allergens used as fining or processing agents, must be declared, except when covered by a petition for exemption approved by the appropriate TTB officer under § 7.22b. The major food allergens declaration must consist of the word ''Contains'' followed by a colon and the name of the food source from which each major food allergen is derived (for example, ''Contains: egg'').

(c) *Cross reference.* For mandatory labeling requirements applicable to malt beverage products containing FD&C Yellow No. 5, sulfites, and aspartame, see §§ 7.22(b)(4), (b)(6), and (b)(7).

[T.D. TTB–53, 71 FR 42269, July 26, 2006]

§ 7.22b Petitions for exemption from major food allergen labeling.

(a) *Submission of petition.* Any person may petition the appropriate TTB officer to exempt a particular product or class of products from the labeling requirements of § 7.22a. The burden is on the petitioner to provide scientific evidence (including the analytical method used to produce the evidence) that demonstrates that the finished product or class of products, as derived by the method specified in the petition, either:

(1) Does not cause an allergic response that poses a risk to human health; or

(2) Does not contain allergenic protein derived from one of the foods identified in § 7.22(a)(1)(i), even though a major food allergen was used in production.

(b) *Decision on petition.* TTB will approve or deny a petition for exemption submitted under paragraph (a) of this section in writing within 180 days of receipt of the petition. If TTB does not provide a written response to the petitioner within that 180-day period, the petition will be deemed denied, unless an extension of time for decision is mutually agreed upon by the appropriate TTB officer and the petitioner. TTB may confer with the Food and Drug Administration (FDA) on petitions for exemption, as appropriate and as FDA resources permit. TTB may require the submission of product samples and other additional information in support of a petition; however, unless required by TTB, the submission of samples or additional information by the petitioner after submission of the petition will be treated as the withdrawal of the initial petition and the submission of a new petition. An approval or denial under this section will constitute a final agency action.

(c) *Resubmission of a petition.* After a petition for exemption is denied under this section, the petitioner may resubmit the petition along with supporting materials for reconsideration at any time. TTB will treat this submission as a new petition.

(d) *Availability of information*—(1) *General.* TTB will promptly post to its public Web site, *http://www.ttb.gov,* all petitions received under this section as well as TTB's responses to those petitions. Any information submitted in support of the petition that is not posted to the TTB Web site will be available to the public pursuant to 5 U.S.C. 552, except where a request for confidential treatment is granted under paragraph (d)(2) of this section.

(2) *Requests for confidential treatment of business information.* A person who provides trade secrets or other commercial or financial information in connection with a petition for exemption under this section may request that TTB give confidential treatment to that information. A failure to request confidential treatment at the time the information in question is submitted to TTB will constitute a waiver of confidential treatment. A request for confidential treatment of information under this section must conform to the following standards:

(i) The request must be in writing;

(ii) The request must clearly identify the information to be kept confidential;

(iii) The request must relate to information that constitutes trade secrets or other confidential commercial or financial information regarding the business transactions of an interested person, the disclosure of which would cause substantial harm to the competitive position of that person;

(iv) The request must set forth the reasons why the information should not be disclosed, including the reasons the disclosure of the information would prejudice the competitive position of the interested person; and

(v) The request must be supported by a signed statement by the interested person, or by an authorized officer or employee of that person, certifying that the information in question is a trade secret or other confidential commercial or financial information and that the information is not already in the public domain.

§ 7.23 Brand names.

(a) *General.* The product shall bear a brand name, except that if not sold under a brand name, then the name of the person required to appear on the brand label shall be deemed a brand name for the purpose of this part.

(b) *Misleading brand names.* No label shall contain any brand name, which, standing alone, or in association with other printed or graphic matter, creates any impression or inference as to the age, origin, identity, or other characteristics of the product unless the appropriate TTB officer finds that such brand name, either when qualified by the word ''brand'' or when not so qualified, conveys no erroneous impressions as to the age, origin, identity, or other characteristics of the product.

(c) *Trade name of foreign origin.* This section shall not operate to prohibit the use by any person of any trade name or brand of foreign origin not effectively registered in the United States Patent Office on August 29, 1935, which has been used by such person or his predecessors in the United States for a period of at least 5 years immediately preceding August 29, 1935: *Provided,* That if such trade name or brand is used, the designation of the product shall be qualified by the name of the locality in the United States in which produced, and such qualification shall be in script, type, or printing as conspicuous as the trade name or brand.

§ 7.24 Class and type.

(a) The class of the malt beverage shall be stated and, if desired, the type thereof may be stated. Statements of class and type shall conform to the designation of the product as known to the trade. If the product is not known to the trade under a particular designation, a distinctive or fanciful name, together with an adequate and truthful statement of the composition of the product, shall be stated, and such statement shall be deemed to be a statement of class and type for the purposes of this part.

(b) Malt beverages which have been concentrated by the removal of water therefrom and reconstituted by the addition of water and carbon dioxide shall for the purpose of this part be labeled in the same manner as malt beverages which have not been concentrated and reconstituted, except that there shall appear in direct conjunction with, and as a part of, the class designation the statement ''PRODUCED FROM _____ CONCENTRATE'' (the blank to be filled in with the appropriate class designation). All parts of the class designation shall appear in lettering of substantially the same size and kind.

(c) No product shall be designated as ''half and half'' unless it is in fact composed of equal parts of two classes of malt beverages the names of which are conspicuously stated in conjunction with the designation ''half and half''.

(d) Products containing less than one-half of 1 percent (.5%) of alcohol by volume shall bear the class designation ''malt beverage,'' or ''cereal beverage,'' or ''near beer.'' If the designation ''near beer'' is used, both words must appear in the same size and style of type, in the same color of ink, and on the same background. No product containing less than one-half of 1 percent of alcohol by volume shall bear the class designations ''beer'', ''lager beer'', ''lager'', ''ale'', ''porter'', or ''stout'', or any other class or type designation commonly applied to malt beverages containing one-half of 1 percent or more of alcohol by volume.

(e) No product other than a malt beverage fermented at comparatively high temperature, possessing the characteristics generally attributed to ''ale,'' ''porter,'' or ''stout'' and produced without the use of coloring or flavoring materials (other than those recognized

in standard brewing practices) shall bear any of these class designations.

(f) Geographical names for distinctive types of malt beverages (other than names found under paragraph (g) of this section to have become generic) shall not be applied to malt beverages produced in any place other than the particular region indicated by the name unless (1) in direct conjunction with the name there appears the word ''type'' or the word ''American'', or some other statement indicating the true place of production in lettering substantially as conspicuous as such name, and (2) the malt beverages to which the name is applied conform to the type so designated. The following are examples of distinctive types of beer with geographical names that have not become generic; Dortmund, Dortmunder, Vienna, Wien, Wiener, Bavarian, Munich, Munchner, Salvator, Kulmbacher, Wurtzburger, Pilsen (Pilsener and Pilsner): *Provided,* That notwithstanding the foregoing provisions of this section, beer which is produced in the United States may be designated as ''Pilsen,'' ''Pilsener,'' or ''Pilsner'' without further modification, if it conforms to such type.

(g) Only such geographical names for distinctive types of malt beverages as the appropriate TTB officer finds have by usage and common knowledge lost their geographical significance to such an extent that they have become generic shall be deemed to have become generic, e.g., India Pale Ale.

(h) Except as provided in § 7.23(b), geographical names that are not names for distinctive types of malt beverages shall not be applied to malt beverages produced in any place other than the particular place or region indicated in the name.

§ 7.25 Name and address.

(a) *Domestic malt beverages.* (1) On labels of containers of domestic malt beverages there shall be stated the name of the bottler or packer and the place where bottled or packed. The bottler's or packer's principal place of business may be shown in lieu of the actual place where bottled or packed if the address shown is a location where bottling or packing operation takes place. The appropriate TTB officer may disapprove the listing of a principal place of business if its use would create a false or misleading impression as to the geographic origin of the beer.

(2) If malt beverages are bottled or packed for a person other than the actual bottler or packer there may be stated in addition to the name and address of the bottler or packer (but not in lieu of), the name and address of such other person immediately preceded by the words ''bottled for,'' ''distributed by,'' or other similar appropriate phrase.

(b) *Imported malt beverages.* On labels of containers of imported malt beverages, there shall be stated the words ''imported by,'' or a singular appropriate phrase, and immediately thereafter the name of the permittee who is the importer, or exclusive agent, or sole distributor, or other person responsible for the importation, together with the principal place of business in the United States of such person. In addition there may, but need not, be stated unless required by State or foreign law or regulation the name and principal place of business of the foreign manufacturer, bottler, packer, or shipper.

(c) *Post-office address.* The ''place'' stated shall be the post-office address, except that the street address may be omitted. No additional places or addresses shall be stated for the same person, unless (1) such person is actively engaged in the conduct of an additional bona fide and actual malt beverage business at such additional place or address, and (2) the label also contains, in direct conjunction therewith, appropriate descriptive material indicating the function occurring at such additional place or address in connection with the particular malt beverage.

§ 7.26 Alcoholic content [suspended as of April 19, 1993; see § 7.71].

(a) The alcoholic content and the percentage and quantity of the original extract shall not be stated unless required by State law. When alcoholic content is required to be stated, but the manner of statement is not specified in the State law, it shall be stated in percentage of alcohol by weight or by volume, and not by proof or by maximums or minimums. Otherwise the manner of statement shall be as specified in the State law.

(b) The terms ''low alcohol'' or ''reduced alcohol'' may be used only on malt beverage products containing less than 2.5 percent alcohol by volume.

(c) The term ''non-alcoholic'' may be used on malt beverage products, provided the statement ''contains less than 0.5 percent (or .5%) alcohol by volume'' appears in direct conjunction with it, in readily legible printing and on a completely contrasting background.

(d) The term ''alcohol-free'' may be used only on malt beverage products containing no alcohol.

§ 7.27 Net contents.

(a) Net contents shall be stated as follows:

(1) If less than 1 pint, in fluid ounces, or fractions of a pint.

(2) If 1 pint, 1 quart, or 1 gallon, the net contents shall be so stated.

(3) If more than 1 pint, but less than 1 quart, the net contents shall be stated in fractions of a quart, or in pints and fluid ounces.

(4) If more than 1 quart, but less than 1 gallon, the net contents shall be stated in fractions of a gallon, or in quarts, pints, and fluid ounces.

(5) If more than 1 gallon, the net contents shall be stated in gallons and fractions thereof.

(b) All fractions shall be expressed in their lowest denominations.

(c) The net contents need not be stated on any label if the net contents are displayed by having the same blown, branded, or burned in the container in letters or figures in such manner as to be plainly legible under ordinary circumstances and such statement is not obscured in any manner in whole or in part.

§ 7.28 General requirements.

(a) *Contrasting background.* All labels shall be so designed that all statements required by this subpart are readily legible under ordinary conditions, and all the statements are on a contrasting background.

(b) *Size of type*—(1) *Containers of more than one-half pint.* Except for statements of alcoholic content, all mandatory information required on labels by this part shall be in script, type, or printing not smaller than 2 millimeters. If contained among other descriptive or explanatory information, the script, type, or printing of all mandatory information shall be of a size substantially more conspicuous than that of the descriptive or explanatory information.

(2) *Containers of one-half pint or less.* Except for statements of alcoholic content, all mandatory information required on labels by this part shall be in script, type, or printing not smaller than 1 millimeter. If contained among other descriptive or explanatory information, the script, type, or printing of all mandatory information shall be of a size substantially more conspicuous than that of the descriptive or explanatory information.

(3) *Alcoholic content statement.* All portions of the alcoholic content statement shall be of the same size and kind of lettering and of equally conspicuous color. Unless otherwise required by State law, the statement of alcoholic content shall be in script, type, or printing:

(i) Not smaller than 1 millimeter for containers of one-half pint or less, or smaller than 2 millimeters for containers larger than one-half pint; or

(ii) Not larger than 3 millimeters for containers of 40 fl. oz. or less, or larger than 4 millimeters for containers larger than 40 fl. oz.

(c) *English language.* All information, other than the brand name, required by this subpart to be stated on labels shall be in the English language. Additional

statements in foreign languages may be made, if the statements do not conflict with, or are contradictory to, the requirements of this subpart. Labels on containers of malt beverages bottled or packed for consumption within Puerto Rico may, if desired, state the information required by this subpart solely in the Spanish language, in lieu of the English language, except that the net contents shall also be stated in the English language.

(d) *Labels firmly affixed.* All labels shall be affixed to containers of malt beverages in such manner that they cannot be removed without thorough application of water or other solvents.

(e) *Additional information.* Labels may contain information other than the mandatory label information required by this subpart if the information complies with the requirements of this subpart and does not conflict with, or in any manner qualify, statements required by this part.

[T.D. ATF–66, 45 FR 40552, June 13, 1980, as amended by T.D. ATF–94, 46 FR 55097, Nov. 6, 1981; T.D. ATF–339, 58 FR 21231, Apr. 19, 1993]

§ 7.29 Prohibited practices.

(a) *Statements on labels.* Containers of malt beverages, or any labels on such containers, or any carton, case, or individual covering of such containers, used for sale at retail, or any written, printed, graphic, or other material accompanying such containers to the consumer, must not contain:

(1) Any statement that is false or untrue in any particular, or that, irrespective of falsity, directly, or by ambiguity, omission, or inference, or by the addition of irrelevant, scientific or technical matter, tends to create a misleading impression.

(2) Any statement that is disparaging of a competitor's products.

(3) Any statement, design, device, or representation which is obscene or indecent.

(4) Any statement, design, device, or representation of or relating to analyses, standards, or tests, irrespective of falsity, which the appropriate TTB officer finds to be likely to mislead the consumer.

(5) Any statement, design, device, or representation of or relating to any guarantee, irrespective of falsity, which the appropriate TTB officer finds to be likely to mislead the consumer. Money-back guarantees are not prohibited.

(6) A trade or brand name that is the name of any living individual of public prominence, or existing private or public organization, or is a name that is in simulation or is an abbreviation thereof, or any graphic, pictorial, or emblematic representation of any such individual or organization, if the use of such name or representation is likely falsely to lead the consumer to believe that the product has been endorsed, made, or used by, or produced for, or under the supervision of, or in accordance with the specifications of, such individual or organization: *Provided,* That this paragraph shall not apply to the use of the name of any person engaged in business as a producer, importer, bottler, packer, wholesaler, retailer, or warehouseman, of malt beverages, nor to the use by any person of a trade or brand name that is the name of any living individual of public prominence, or existing private or public organization, provided such trade or brand name was used by him or his predecessors in interest prior to August 29, 1935.

(7) Any statement, design, device, or representation that tends to create a false or misleading impression that the malt beverage contains distilled spirits or is a distilled spirits product. This paragraph does not prohibit the following on malt beverage labels:

(i) A truthful and accurate statement of alcohol content, in conformity with § 7.71;

(ii) The use of a brand name of a distilled spirits product as a malt beverage brand name, provided that the overall label does not present a misleading impression about the identity of the product; or

(iii) The use of a cocktail name as a brand name or fanciful name of a malt beverage, provided that the overall label does not present a misleading impression about the identity of the product.

(b) *Simulation of Government stamps.* No label shall be of such design as to resemble or simulate a stamp of the United States Government or of any State or foreign government. No label,

other than stamps authorized or required by the United States Government or any State or foreign government, shall state or indicate that the malt beverage contained in the labeled container is brewed, made, bottled, packed, labeled, or sold under, or in accordance with, any municipal, State, Federal, or foreign government authorization, law, or regulation, unless such statement is required or specifically authorized by Federal, State, or municipal, law or regulation, or is required or specifically authorized by the laws or regulations of the foreign country in which such malt beverages were produced. If the municipal or State government permit number is stated upon a label, it shall not be accompanied by an additional statement relating thereto, unless required by State law.

(c) *Use of word ''bonded'', etc.* The words ''bonded'', ''bottled in bond'', ''aged in bond'', ''bonded age'', ''bottled under customs supervision'', or phrases containing these or synonymous terms which imply governmental supervision over production, bottling, or packing, shall not be used on any label for malt beverages.

(d) *Flags, seals, coats of arms, crests, and other insignia.* Labels shall not contain, in the brand name or otherwise, any statement, design, device, or pictorial representation which the appropriate TTB officer finds relates to, or is capable of being construed as relating to, the armed forces of the United States, or the American flag, or any emblem, seal, insignia, or decoration associated with such flag or armed forces; nor shall any label contain any statement, design, device, or pictorial representation of or concerning any flag, seal, coat of arms, crest or other insignia, likely to mislead the consumer to believe that the product has been endorsed, made, or used by, or produced for, or under the supervision of, or in accordance with the specifications of the government, organization, family, or individual with whom such flag, seal, coat of arms, crest, or insignia is associated.

(e) *Health-related statements*—(1) *Definitions.* When used in this paragraph (e), terms are defined as follows:

(i) *Health-related statement* means any statement related to health (other than the warning statement required by §16.21 of this chapter) and includes statements of a curative or therapeutic nature that, expressly or by implication, suggest a relationship between the consumption of alcohol, malt beverages, or any substance found within the malt beverage, and health benefits or effects on health. The term includes both specific health claims and general references to alleged health benefits or effects on health associated with the consumption of alcohol, malt beverages, or any substance found within the malt beverage, as well as health-related directional statements. The term also includes statements and claims that imply that a physical or psychological sensation results from consuming the malt beverage, as well as statements and claims of nutritional value (*e.g.*, statements of vitamin content). Statements concerning caloric, carbohydrate, protein, and fat content do not constitute nutritional claims about the product.

(ii) *Specific health claim* is a type of health-related statement that, expressly or by implication, characterizes the relationship of the malt beverage, alcohol, or any substance found within the malt beverage, to a disease or health-related condition. Implied specific health claims include statements, symbols, vignettes, or other forms of communication that suggest, within the context in which they are presented, that a relationship exists between malt beverages, alcohol, or any substance found within the malt beverage, and a disease or health-related condition.

(iii) *Health-related directional statement* is a type of health-related statement that directs or refers consumers to a third party or other source for information regarding the effects on health of malt beverage or alcohol consumption.

(2) *Rules for labeling*—(i) *Health-related statements.* In general, labels may not contain any health-related statement that is untrue in any particular or tends to create a misleading impression as to the effects on health of alcohol consumption. TTB will evaluate such statements on a case-by-case basis and may require as part of the health-related statement a disclaimer

or some other qualifying statement to dispel any misleading impression conveyed by the health-related statement.

(ii) *Specific health claims.* (A) TTB will consult with the Food and Drug Administration (FDA), as needed, on the use of a specific health claim on a malt beverage label. If FDA determines that the use of such a labeling claim is a drug claim that is not in compliance with the requirements of the Federal Food, Drug, and Cosmetic Act, TTB will not approve the use of that specific health claim on a malt beverage label.

(B) TTB will approve the use of a specific health claim on a malt beverage label only if the claim is truthful and adequately substantiated by scientific or medical evidence; sufficiently detailed and qualified with respect to the categories of individuals to whom the claim applies; adequately discloses the health risks associated with both moderate and heavier levels of alcohol consumption; and outlines the categories of individuals for whom any levels of alcohol consumption may cause health risks. This information must appear as part of the specific health claim.

(iii) *Health-related directional statements.* A statement that directs consumers to a third party or other source for information regarding the effects on health of malt beverage or alcohol consumption is presumed misleading unless it—

(A) Directs consumers in a neutral or other non-misleading manner to a third party or other source for balanced information regarding the effects on health of malt beverage or alcohol consumption; and

(B)(*1*) Includes as part of the health-related directional statement the following disclaimer: ''This statement should not encourage you to drink or to increase your alcohol consumption for health reasons;'' or

(*2*) Includes as part of the health-related directional statement some other qualifying statement that the appropriate TTB officer finds is sufficient to dispel any misleading impression conveyed by the health-related directional statement.

This does not preclude use of the terms ''low alcohol,'' ''reduced alcohol,'' ''non-alcoholic,'' and ''alcohol-free,'' in accordance with § 7.71 (d), (e), and (f), nor does it preclude labeling with the alcohol content in accordance with § 7.71.

(g) *Use of numerals.* Labels shall not contain any statements, designs, or devices, whether in the form of numerals, letters, characters, figures, or otherwise, which are likely to be considered as statements of alcoholic content, unless required by State law, or as permitted by § 7.71.

(b) *Class.* The advertisement shall contain a conspicuous statement of the class to which the product belongs, corresponding to the statement of class which is required to appear on the label of the product.

(c) *Exception.* (1) If an advertisement refers to a general malt beverage line or all of the malt beverage products of one company, whether by the company name or by the brand name common to all the malt beverages in the line, the only mandatory information necessary is the name and address of the responsible advertiser. This exception does not apply where only one type of malt beverage is marketed under the specific brand name advertised.

(2) On consumer specialty items, the only information necessary is the company name or brand name of the product.

[T.D. 6521, 25 FR 13859, Dec. 29, 1960, as amended by T.D. ATF–180, 49 FR 31675, Aug. 8, 1984]

(d) Mandatory information for two or more products shall not be stated unless clearly separated.

(e) Mandatory information shall be so stated in both the print and audio-visual media that it will be readily apparent to the persons viewing the advertisement.

[T.D. ATF–180, 49 FR 31675, Aug. 8, 1984]

§ 7.54 Prohibited statements.

(a) *General prohibition.* An advertisement of malt beverages must not contain:

(1) Any statement that is false or untrue in any material particular, or that, irrespective of falsity, directly, or by ambiguity, omission, or inference, or by the addition of irrelevant, scientific or technical matter, tends to create a misleading impression.

(2) Any statement that is disparaging of a competitor's products.

(3) Any statement, design, device, or representation which is obscene or indecent.

(4) Any statement, design, device, or representation of or relating to analyses, standards, or tests, irrespective of falsity, which the appropriate TTB officer finds to be likely to mislead the consumer.

(5) Any statement, design, device, or representation of or relating to any guarantee, irrespective of falsity, which the appropriate TTB officer finds to be likely to mislead the consumer. Money-back guarantees are not prohibited.

(6) Any statement that the malt beverages are brewed, made, bottled, packed, labeled, or sold under, or in accordance with, any municipal, State, or Federal authorization, law, or regulation; and if a municipal or State permit number is stated, the permit number shall not be accompanied by any additional statement relating thereto.

(7) The words ''bonded'', ''bottled in bond'', ''aged in bond'', ''bonded age'', ''bottled under customs supervision'', or phrases containing these or synonymous terms which imply governmental supervision over production, bottling, or packing.

(8) Any statement, design, device, or representation that tends to create a false or misleading impression that the malt beverage contains distilled spirits or is a distilled spirits product. This paragraph does not prohibit the following in advertisements for malt beverages:

(i) A truthful and accurate statement of alcohol content, in conformity with § 7.71;

(ii) The use of a brand name of a distilled spirits product as a malt beverage brand name, provided that the overall advertisement does not present a misleading impression about the identity of the product; or

(iii) The use of a cocktail name as a brand name or fanciful name of a malt beverage, provided that the overall advertisement does not present a misleading impression about the identity of the product.

(b) *Statements inconsistent with labeling.* (1) Advertisements shall not contain any statement concerning a brand or lot of malt beverages that is inconsistent with any statement on the labeling thereof.

(2) Any label depicted on a bottle in an advertisement shall be a reproduction of an approved label.

(c) *Alcoholic content.* (1) Advertisements shall not contain the words ''strong,'' ''full strength,'' ''extra strength,'' ''high test,'' ''high proof,'' ''full alcohol strength,'' or any other statement of alcoholic content, or any statement of the percentage and quantity of the original extract, or any numerals, letters, characters, figures, or similar words or statements, likely to be considered as statements of alcoholic content, unless required by State law. This does not preclude use of the terms ''low alcohol,'' ''reduced alcohol,'' ''non-alcoholic,'' and ''alcohol-free,'' as used on labels, in accordance with § 7.71 (d), (e), and (f).

(2) An approved malt beverage label which bears a statement of alcoholic content permitted under § 7.71 may be depicted in any advertising media. The statement of alcoholic content on the label may not appear more prominently in the advertisement than it does on the approved label.

(3) An actual malt beverage bottle showing the approved label bearing a statement of alcoholic content permitted under § 7.71 may be displayed in any advertising media.

(d) *Class.* (1) No product containing less than one-half of 1 per centum of alcohol by volume shall be designated in

any advertisement as ''beer'', ''lager beer'', ''lager'', ''ale'', ''porter'', or ''stout'', or by any other class or type designation commonly applied to fermented malt beverages containing one-half of 1 per centum or more of alcohol by volume.

(2) No product other than a malt beverage fermented at comparatively high temperature, possessing the characteristics generally attributed to ''ale,'' ''porter,'' or ''stout'' and produced without the use of coloring or flavoring materials (other than those recognized in standard brewing practices) shall be designated in any advertisement by any of these class designations.

(e) *Health-related statements*—(1) *Definitions.* When used in this paragraph (e), terms are defined as follows:

(i) *Health-related statement* means any statement related to health and includes statements of a curative or therapeutic nature that, expressly or by implication, suggest a relationship between the consumption of alcohol, malt beverages, or any substance found within the malt beverage, and health benefits or effects on health. The term includes both specific health claims and general references to alleged health benefits or effects on health associated with the consumption of alcohol, malt beverages, or any substance found within the malt beverage, as well as health-related directional statements. The term also includes statements and claims that imply that a physical or psychological sensation results from consuming the malt beverage, as well as statements and claims of nutritional value (*e.g.*, statements of vitamin content). Statements concerning caloric, carbohydrate, protein, and fat content do not constitute nutritional claims about the product.

(ii) *Specific health claim* is a type of health-related statement that, expressly or by implication, characterizes the relationship of the malt beverage, alcohol, or any substance found within the malt beverage, to a disease or health-related condition. Implied specific health claims include statements, symbols, vignettes, or other forms of communication that suggest, within the context in which they are presented, that a relationship exists between malt beverages, alcohol, or any substance found within the malt beverage, and a disease or health-related condition.

(iii) *Health-related directional statement* is a type of health-related statement that directs or refers consumers to a third party or other source for information regarding the effects on health of malt beverage or alcohol consumption.

(2) *Rules for advertising*—(i) *Health-related statements.* In general, advertisements may not contain any health-related statement that is untrue in any particular or tends to create a misleading impression as to the effects on health of alcohol consumption. TTB will evaluate such statements on a case-by-case basis and may require as part of the health-related statement a disclaimer or some other qualifying statement to dispel any misleading impression conveyed by the health-related statement. Such disclaimer or other qualifying statement must appear as prominent as the health-related statement.

(ii) *Specific health claims.* A specific health claim will not be considered misleading if it is truthful and adequately substantiated by scientific or medical evidence; sufficiently detailed and qualified with respect to the categories of individuals to whom the claim applies; adequately discloses the health risks associated with both moderate and heavier levels of alcohol consumption; and outlines the categories of individuals for whom any levels of alcohol consumption may cause health risks. This information must appear as part of the specific health claim and in a manner as prominent as the specific health claim.

(iii) *Health-related directional statements.* A statement that directs consumers to a third party or other source for information regarding the effects on health of malt beverage or alcohol consumption is presumed misleading unless it—

(A) Directs consumers in a neutral or other non-misleading manner to a third party or other source for balanced information regarding the effects on health of malt beverage or alcohol consumption; and

(B)(*1*) Includes as part of the health-related directional statement, and in a

manner as prominent as the health-related directional statement, the following disclaimer: ''This statement should not encourage you to drink or increase your alcohol consumption for health reasons;'' or

(*2*) Includes as part of the health-related directional statement, and in a manner as prominent as the health-related directional statement, some other qualifying statement that the appropriate TTB officer finds is sufficient to dispel any misleading impression conveyed by the health-related directional statement.

(f) *Confusion of brands.* Two or more different brands or lots of malt beverages shall not be advertised in one advertisement (or in two or more advertisements in one issue of a periodical or a newspaper or in one piece of other written, printed, or graphic matter) if the advertisement tends to create the impression that representations made as to one brand or lot apply to the other or others, and if as to such latter the representations contravene any provision of §§7.50 through 7.54 or are in any respect untrue.

(g) *Flags, seals, coats of arms, crests, and other insignia.* No advertisement shall contain any statement, design, device, or pictorial representation of or relating to, or capable of being construed as relating to the armed forces of the United States, or of the American flag, or of any emblem, seal, insignia, or decoration associated with such flag or armed forces; nor shall any advertisement contain any statement, device, design, or pictorial representation of or concerning any flag, seal, coat of arms, crest, or other insignia, likely to mislead the consumer to believe that the product has been endorsed, made, or used by, or produced for, or under the supervision of, or in accordance with the specifications of the government, organization, family, or individual with whom such flag, seal, coat of arms, crest, or insignia is associated.

(h) *Deceptive advertising techniques.* Subliminal or similar techniques are prohibited. ''Subliminal or similar techniques,'' as used in this part, refers to any device or technique that is used to convey, or attempts to convey, a message to a person by means of images or sounds of a very brief nature that cannot be perceived at a normal level of awareness.

§ 7.55 Comparative advertising.

(a) *General.* Comparative advertising shall not be disparaging of a competitor's product.

(b) *Taste tests.* (1) Taste test results may be used in advertisements comparing competitors' products unless they are disparaging, deceptive, or likely to mislead the consumer.

(2) The taste test procedure used shall meet scientifically accepted procedures. An example of a scientifically accepted procedure is outlined in the *Manual on Sensory Testing Methods*, ASTM Special Technical Publication 434, published by the American Society for Testing and Materials, 1916 Race Street, Philadelphia, Pennsylvania 19103, ASTM, 1968, Library of Congress Catalog Card Number 68–15545.

(3) A statement shall appear in the advertisement providing the name and address of the testing administrator.

Subpart G—General Provisions

§ 7.60 Exports.

This part shall not apply to malt beverages exported in bond.

Subpart H—Interim Regulations for Alcoholic Content Statements

§ 7.71 Alcoholic content.

(a) *General.* Alcoholic content and the percentage and quantity of the original gravity or extract may be stated on a label unless prohibited by State law. When alcoholic content is stated, and the manner of statement is not required under State law, it shall be stated as prescribed in paragraph (b) of this section.

(b) *Form of statement.* (1) Statement of alcoholic content shall be expressed in percent alcohol by volume, and not by percent by weight, proof, or by maximums or minimums.

(2) For malt beverages containing 0.5 percent or more alcohol by volume, statements of alcoholic content shall be expressed to the nearest one-tenth of a percent, subject to the tolerance permitted by paragraph (c) (1) and (2) of this section. For malt beverages containing less than 0.5 percent alcohol by volume, alcoholic content may be expressed in one-hundredths of a percent, subject to the tolerance permitted in paragraph (c)(3) of this section.

(3) Alcoholic content shall be expressed in the following fashion: ''alcohol—percent by volume,'' ''alcohol by volume—percent,'' ''—percent alcohol by volume,'' or ''—percent alcohol/volume.'' The abbreviations ''alc'' and ''vol'' may be used in lieu of the words ''alcohol'' and ''volume,'' and the symbol ''%'' may be used in lieu of the word ''percent.''

(c) *Tolerances.* (1) For malt beverages containing 0.5 percent or more alcohol by volume, a tolerance of 0.3 percent will be permitted, either above or below the stated percentage of alcohol. Any malt beverage which is labeled as containing 0.5 percent or more alcohol by volume may not contain less than 0.5 percent alcohol by volume, regardless of any tolerance.

(2) For malt beverages which are labeled as ''low alcohol'' or ''reduced alcohol'' under paragraph (d) of this section, the actual alcoholic content may not equal or exceed 2.5 percent alcohol by volume, regardless of any tolerance permitted by paragraph (c)(1) of this section.

(3) For malt beverages containing less than 0.5 percent alcohol by volume, the actual alcoholic content may not exceed the labeled alcoholic content. A malt beverage may not be labeled with an alcoholic content of 0.0 percent alcohol by volume unless it is also labeled as ''alcohol free'' and contains no alcohol.

(d) *Low alcohol and reduced alcohol.* The terms ''low alcohol'' or ''reduced alcohol'' may be used only on malt beverages containing less than 2.5 percent alcohol by volume.

(e) *Non-alcoholic.* The term ''non-alcoholic'' may be used on malt beverages, provided the statement ''contains less than 0.5 percent (or .5%) alcohol by volume'' appears in direct conjunction with it, in readily legible printing and on a completely contrasting background.

(f) *Alcohol free.* The term ''alcohol free'' may be used only on malt beverages containing no alcohol.

[T.D. ATF–339, 58 FR 21232, Apr. 19, 1993]

Subpart I—Use of the Term ''Organic''

§ 7.81 Use of the term "organic."

(a) Use of the term ''organic'' is optional and is treated as ''additional information on labels'' under § 7.28(e).

(b) Any use of the term ''organic'' on a malt beverage label or in advertising of malt beverages must comply with the United States Department of Agriculture's (USDA) National Organic Program rules (7 CFR part 205) as interpreted by the USDA.

(c) This section applies to labels and advertising that use the term ''organic'' on and after October 21, 2002.

Product. Distilled spirits, wine or malt beverages, as defined in the Federal Alcohol Administration Act.

Retailer. Any person engaged in the sale of distilled spirits, wine or malt beverages to consumers. A wholesaler who makes incidental retail sales representing less than five percent of the wholesaler's total sales volume for the preceding two-month period shall not be considered a retailer with respect to such incidental sales.

T.D. ATF–74, 45 FR 63256, Sept. 23, 1980, as amended by T.D. ATF–364, 60 FR 20425, Apr. 26, 1995; T.D. ATF–428, 65 FR 52020, Aug. 28, 2000; T.D. TTB–44, 71 FR 16923, Apr. 4, 2006]

Subpart C—Prohibited Practices

§ 8.21 General.

It is unlawful for an industry member to require, by agreement or otherwise, that any retailer purchase distilled spirits, wine, or malt beverages from the industry member to the exclusion, in whole or in part, of products sold or offered for sale by other persons in interstate or foreign commerce. This prohibition includes purchases coerced by industry members, through acts or threats of physical or economic harm, as well as voluntary industry member-retailer purchase agreements.

§ 8.22 Contracts to purchase distilled spirits, wine, or malt beverages.

Any contract or agreement, written or unwritten, which has the effect of

requiring the retailer to purchase distilled spirits, wine, or malt beverages from the industry member beyond a single sales transaction is prohibited. Examples of such contracts are:

(a) An advertising contract between an industry member and a retailer with the express or implied requirement of the purchase of the advertiser's products; or

(b) A sales contract awarded on a competitive bid basis which has the effect of prohibiting the retailer from purchasing from other industry members by:

(1) Requiring that for the period of the agreement, the retailer purchase a product or line of products exclusively from the industry member; or

(2) Requiring that the retailer purchase a specific or minimum quantity during the period of the agreement.

§ 8.23 Third party arrangements.

Industry member requirements, by agreement or otherwise, with non-retailers which result in a retailer being required to purchase the industry member's products are within the exclusive outlet provisions. These industry member requirements are covered whether the agreement or other arrangement originates with the industry member or the third party. For example, a supplier enters into a contractual agreement or other arrangement with a third party. This agreement or arrangement contains an industry member requirement as described above. The third party, a ballclub, or municipal or private corporation, not acting as a retailer, leases the concession rights and is able to control the purchasing decisions of the retailer. The third party, as a result of the requirement, by agreement or otherwise, with the industry member, requires the retailer to purchase the industry member's products to the exclusion, in whole or in part, of products sold or offered for sale by other persons in interstate or foreign commerce. The business arrangements entered into by the industry member and the third party may consist of such things as sponsoring radio or television broadcasting, paying for advertising, or providing other services or things of value.

Subpart D—Exclusion

SOURCE: T.D. ATF–364, 60 FR 20425, Apr. 26, 1995, unless otherwise noted.

§ 8.51 Exclusion, in general.

(a) Exclusion, in whole or in part occurs:

(1) When a practice by an industry member, whether direct, indirect, or through an affiliate, places (or has the potential to place) retailer independence at risk by means of a tie or link between the industry member and retailer or by any other means of industry member control over the retailer, and

(2) Such practice results in the retailer purchasing less than it would have of a competitor's product.

(b) Section 8.52 lists practices that result in exclusion. Section 8.53 lists practices not resulting in exclusion. Section 8.54 lists the criteria used for determining whether other practices can put retailer independence at risk.

§ 8.52 Practices which result in exclusion.

The practices specified in this section result in exclusion under section 105(a) of the Act. The practices specified here are examples and do not constitute a complete list of such practices:

(a) Purchases of distilled spirits, wine or malt beverages by a retailer as a result, directly or indirectly, of a threat or act of physical or economic harm by the selling industry member.

(b) Contracts between an industry member and a retailer which require the retailer to purchase distilled spirits, wine, or malt beverages from that industry member and expressly restrict the retailer from purchasing, in whole or in part, such products from another industry member.

§ 8.53 Practice not resulting in exclusion.

The practice specified in this section is deemed not to result in exclusion under section 105(a) of the Act: a supply contract for one year or less between the industry member and retailer under which the industry member agrees to sell distilled spirits, wine, or malt beverages to the retailer on an

''as needed'' basis provided that the retailer is not required to purchase any minimum quantity of such product.

§ 8.54 Criteria for determining retailer independence.

The criteria specified in this section are indications that a particular practice, other than those in §§ 8.52 and 8.53, places retailer independence at risk. A practice need not meet all of the criteria specified in this section in order to place retailer independence at risk.

(a) The practice restricts or hampers the free economic choice of a retailer to decide which products to purchase or the quantity in which to purchase them for sale to consumers.

(b) The industry member obligates the retailer to participate in the promotion to obtain the industry member's product.

(c) The retailer has a continuing obligation to purchase or otherwise promote the industry member's product.

(d) The retailer has a commitment not to terminate its relationship with the industry member with respect to purchase of the industry member's products.

(e) The practice involves the industry member in the day-to-day operations of the retailer. For example, the industry member controls the retailer's decisions on which brand of products to purchase, the pricing of products, or the manner in which the products will be displayed on the retailer's premises.

(f) The practice is discriminatory in that it is not offered to all retailers in the local market on the same terms without business reasons present to justify the difference in treatment.

Subpart B—AVA Petitions

SOURCE: T.D. TTB–90, 76 FR 3500, Jan. 20, 2011, unless otherwise noted.

§9.11 Submission of AVA petitions.

(a) *Procedure for petitioner.* Any person may submit an AVA petition to TTB to establish a grape-growing region as a new AVA, to change the boundary of an existing AVA, or to change the name of an existing AVA. The petitioner is responsible for including with the petition all of the information specified in §9.12. The person

submitting the petition is also responsible for providing timely and complete responses to TTB requests for additional information to support the petition.

(b) *How and where to submit an AVA petition.* The AVA petition may be sent to TTB using the U.S. Postal Service or a private delivery service. A petition sent through the U.S. Postal Service should be addressed to: Regulations and Rulings Division, Alcohol and Tobacco Tax and Trade Bureau, 1310 G Street, NW., Washington, DC 20220. A petition sent via a private delivery service should be directed to: Regulations and Rulings Division, Alcohol and Tobacco Tax and Trade Bureau, Suite 200E, 1310 G Street, NW., Washington, DC 20005.

(c) *Purpose and effect of submission of AVA petitions.* The submission of a petition under this subpart is intended to provide TTB with sufficient documentation to propose the establishment of a new AVA or to propose changing the name or boundary of an existing AVA. After considering the petition evidence and any other relevant information, TTB shall decide what action to take in response to a petition and shall so advise the petitioner. Nothing in this chapter shall, or shall be interpreted to, compel any Department of the Treasury official to proceed to rulemaking in response to a submitted petition.

§ 9.12 AVA petition requirements.

(a) *Establishment of an AVA in general.* A petition for the establishment of a new AVA must include all of the evidentiary materials and other information specified in this section. The petition must contain sufficient information, data, and evidence such that no independent verification or research is required by TTB.

(1) *Name evidence.* The name identified for the proposed AVA must be currently and directly associated with an area in which viticulture exists. All of the area within the proposed AVA boundary must be nationally or locally known by the name specified in the petition, although the use of that name may extend beyond the proposed AVA boundary. The name evidence must conform to the following rules:

(i) *Name usage.* The petition must completely explain, in narrative form, the manner in which the name is used for the area covered by the proposed AVA.

(ii) *Source of name and name evidence.* The name and the evidence in support of it must come from sources independent of the petitioner. Appropriate name evidence sources include, but are not limited to, historical and modern government or commercial maps, books, newspapers, magazines, tourist and other promotional materials, local business or school names, and road names. Whenever practicable, the petitioner must include with the petition copies of the name evidence materials, appropriately cross-referenced in the petition narrative. Although anecdotal information by itself is not sufficient, statements taken from local residents with knowledge of the name and its use may also be included to support other name evidence.

(2) *Boundary evidence.* The petition must explain in detail the basis for defining the boundary of the proposed AVA as set forth in the petition. This explanation must have reference to the name evidence and other distinguishing features information required under this section. In support of the proposed boundary, the petition must outline the commonalities or similarities within that boundary and must explain with specificity how those elements are different in the adjacent areas outside that boundary.

(3) *Distinguishing features.* The petition must provide, in narrative form, a description of the common or similar features of the proposed AVA affecting viticulture that make it distinctive. The petition must also explain with specificity in what way these features affect viticulture and how they are distinguished viticulturally from features associated with adjacent areas outside the proposed AVA boundary. For purposes of this section, information relating to distinguishing features affecting viticulture includes the following:

(i) *Climate.* Temperature, precipitation, wind, fog, solar orientation and radiation, and other climate information;

(ii) *Geology.* Underlying formations, landforms, and such geophysical events

as earthquakes, eruptions, and major floods;

(iii) *Soils.* Soil series or phases of a soil series, denoting parent material, texture, slope, permeability, soil reaction, drainage, and fertility;

(iv) *Physical features.* Flat, hilly, or mountainous topography, geographical formations, bodies of water, watersheds, irrigation resources, and other physical features; and

(v) *Elevation.* Minimum and maximum elevations.

(4) *Maps and boundary description*—(i) *Maps.* The petitioner must submit with the petition, in an appropriate scale, the U.S.G.S. map(s) showing the location of the proposed AVA. The exact boundary of the AVA must be prominently and clearly drawn on the maps without obscuring the underlying features that define the boundary line. U.S.G.S. maps may be obtained from the U.S. Geological Survey, Branch of Distribution. If the map name is not known, the petitioner may request a map index by State.

(ii) *Boundary description.* The petition must include a detailed narrative description of the proposed AVA boundary based on U.S.G.S. map markings. This description must have a specific beginning point, must proceed unbroken from that point in a clockwise direction, and must return to that beginning point to complete the boundary description. The boundary description must refer to easily discernable reference points on the U.S.G.S. maps. The proposed AVA boundary description may rely on any of the following map features:

(A) State, county, township, forest, and other political entity lines;

(B) Highways, roads (including unimproved roads), and trails;

(C) Contour or elevation lines;

(D) Natural geographical features, including rivers, streams, creeks, ridges, and marked elevation points (such as summits or benchmarks);

(E) Human-made features (such as bridges, buildings, windmills, or water tanks); and

(F) Straight lines between marked intersections, human-made features, or other map points.

(b) *AVAs within AVAs.* If the petition proposes the establishment of a new AVA entirely within, or overlapping, an existing AVA, the evidence submitted under paragraph (a) of this section must include information that both identifies the attributes of the proposed AVA that are consistent with the existing AVA and explains how the proposed AVA is sufficiently distinct from the existing AVA and therefore appropriate for separate recognition. If the petition proposes the establishment of a new AVA that is larger than, and encompasses, all of one or more existing AVAs, the evidence submitted under paragraph (a) of this section must include information addressing whether, and to what extent, the attributes of the proposed AVA are consistent with those of the existing AVA(s). In any case in which an AVA would be created entirely within another AVA, whether by the establishment of a new, larger AVA or by the establishment of a new AVA within an existing one, the petition must explain why establishment of the AVA is acceptable. When a smaller AVA has name recognition and features that so clearly distinguish it from a larger AVA that surrounds it, TTB may determine in the course of the rulemaking that it is not part of the larger AVA and that wine produced from grapes grown within the smaller AVA would not be entitled to use the name of the larger AVA as an appellation of origin or in a brand name.

(c) *Modification of an existing AVA*—(1) *Boundary change.* If a petition seeks to change the boundary of an existing AVA, the petitioner must include with the petition all relevant evidence and other information specified for a new AVA petition in paragraphs (a) and (b) of this section. This evidence or information must include, at a minimum, the following:

(i) *Name evidence.* If the proposed change involves an expansion of the existing boundary, the petition must show how the name of the existing AVA also applies to the expansion area. If the proposed change would result in a decrease in the size of an existing AVA, the petition must explain, if so, the extent to which the AVA name does not apply to the excluded area.

(ii) *Distinguishing features.* The petition must demonstrate that the area covered by the proposed change has, or does not have, distinguishing features affecting viticulture that are essentially the same as those of the existing AVA. If the proposed change involves an expansion of the existing AVA, the petition must demonstrate that the area covered by the expansion has the same distinguishing features as those of the existing AVA and has different features from those of the area outside the proposed, new boundary. If the proposed change would result in a decrease in the size of an existing AVA, the petition must explain how the distinguishing features of the excluded area are different from those within the boundary of the smaller AVA. In all cases the distinguishing features must affect viticulture.

(iii) *Boundary evidence and description.* The petition must explain how the boundary of the existing AVA was incorrectly or incompletely defined or is no longer accurate due to new evidence or changed circumstances, with reference to the name evidence and distinguishing features of the existing AVA and of the area affected by the proposed boundary change. The petition must include the appropriate U.S.G.S. maps with the proposed boundary change drawn on them and must provide a detailed narrative description of the changed boundary.

(2) *Name change.* If a petition seeks to change the name of an existing AVA, the petition must establish the suitability of that name change by providing the name evidence specified in paragraph (a)(1) of this section.

§ 9.13 Initial processing of AVA petitions.

(a) *TTB notification to petitioner of petition receipt.* The appropriate TTB officer will acknowledge receipt of a submitted petition. This notification will be in a letter sent to the petitioner within 30 days of receipt of the petition.

(b) *Acceptance of a perfected petition or return of a deficient petition to the petitioner.* The appropriate TTB officer will perform an initial review of the petition to determine whether it is a perfected petition. If the petition is not perfected, the appropriate TTB officer will return it to the petitioner without prejudice to resubmission in perfected form. If the petition is perfected, TTB will decide whether to proceed with rulemaking under § 9.14 and will advise the petitioner in writing of that decision. If TTB decides to proceed with rulemaking, TTB will advise the petitioner of the date of receipt of the perfected petition. If TTB decides not to proceed with rulemaking, TTB will advise the petitioner of the reasons for that decision.

(c) *Notice of pending petition.* When a perfected petition is accepted for rulemaking, TTB will place a notice to that effect on the TTB Web site.

§ 9.14 AVA rulemaking process.

(a) *Notice of proposed rulemaking.* If TTB determines that rulemaking in response to a petition is appropriate, TTB will prepare and publish a notice of proposed rulemaking (NPRM) in the FEDERAL REGISTER to solicit public comments on the petitioned-for AVA action.

(b) *Final action.* Following the close of the NPRM comment period, TTB will review any submitted comments and any other available relevant information and will take one of the following actions:

(1) Prepare a final rule for publication in the FEDERAL REGISTER adopting the proposed AVA action, with or without changes;

(2) Prepare a notice for publication in the FEDERAL REGISTER withdrawing the proposal and setting forth the reasons for the withdrawal. Reasons for withdrawal of a proposal must include at least one of the following:

(i) The extent of viticulture within the proposed boundary is not sufficient to constitute a grape-growing region as specified in § 9.11(a); or

(ii) The name, boundary, or distinguishing features evidence does not meet the standards for such evidence set forth in § 9.12; or

(iii) The petitioned-for action would be inconsistent with one of the purposes of the Federal Alcohol Administration Act or any other Federal statute or regulation or would be otherwise contrary to the public interest;

(3) Prepare a new NPRM for publication in the FEDERAL REGISTER setting forth a modified AVA action for public comment; or

(4) Take any other action deemed appropriate by TTB as authorized by law.

Subpart C—Approved American Viticultural Areas

§ 9.21 General.

The viticultural areas listed in this subpart are approved for use as appellations of origin in accordance with part 4 of this chapter.

§ 9.22 Augusta.

(a) *Name.* The name of the viticultural area described in this section is ''Augusta.''

(b) *Approved maps.* The approved maps for the Augusta viticultural area are two U.S.G.S. maps. They are titled:

(1) ''Washington East, Missouri'', 7.5 minute quadrangle; and

(c) *Boundaries.* The boundaries of the Augusta viticultural area are located in the State of Missouri and are as follows:

(1) The beginning point of the boundary is the intersection of the St. Charles County line, the Warren County line and the Franklin County line.

(2) The western boundary is the St. Charles County-Warren County line from the beginning point to the township line identified on the approved maps as ''T45N/T44N.''

(3) The northern boundary is the township line ''T45N/T44N'' from the St. Charles County-Warren County line to the range line identified on the approved maps as ''R1E/R2E.''

(4) The eastern boundary is the range line ''R1E/R2E'' from township line ''T45N/T44N'' extended to the St. Charles County-Franklin County line.

(5) The southern boundary is the St. Charles County-Franklin County line from the extension of range line ''R1E/R2E'' to the beginning point.

[T.D. ATF–74, 45 FR 63257, Sept. 30, 1980, as amended by T.D. ATF–364, 60 FR 20426, Apr. 26, 1995; T.D. ATF–428, 65 FR 52020, Aug. 28, 2000; T.D. TTB–44, 71 FR 16924, Apr. 4, 2006]

Subpart C—Commercial Bribery

§ 10.21 Commercial bribery.

It is unlawful for an industry member, directly or indirectly or through an affiliate, to induce a trade buyer to purchase the industry member's products, to the complete or partial exclusion of products sold or offered for sale by other persons in interstate or foreign commerce, by offering or giving a bonus, premium, compensation, or other thing of value to any officer, employee, or representative of the trade buyer. The bonus, premium, compensation, or other thing of value need not be offered or given for the purpose of directly inducing a trade buyer to purchase from the seller, but rather is applicable if an industry member induces officers, employees or representatives of the trade buyer to promote sales of the industry member's products and thereby indirectly induces the trade buyer to purchase from the industry member.

§ 10.22 Employee associations.

Gifts, donations, and other payments such as for advertising in publications, by an industry member, to trade buyer employee associations are considered the same as bonuses, premiums, compensation, or other things of value given directly to the employees, since the benefits resulting from the gifts or payments flow to the individual members of the association.

§ 10.23 Gifts or payments to wholesalers.

Although industry members are not prohibited from offering or giving money or other things of value to a wholesale entity (i.e., the corporation, partnership, or individual who owns the business), the wholesaler will be considered as acting as a mere conduit between its officers, employees, or representatives and the industry member, if:

(a) There is an agreement or understanding, implied or explicit, that the money or thing of value will be passed on to the officers, employees, or representatives, or

(b) It is obvious by the very nature of the item given (such as a free trip) that a pass through to the officers, employees, or representatives is clearly contemplated, or

(c) The records of the recipient wholesaler do not accurately reflect such money or item as an asset or the wholesale entity, thus being subject to all ensuing tax consequences as distinguished from the receipt of the money or item as a personal asset of an officer, employee, or representative.

§ 10.24 Sales promotion contests.

Sales contests sponsored by an industry member which offer prizes directly or indirectly to trade buyer officers, employees or representatives are inducements within the meaning of the Act.

Subpart D—Exclusion

SOURCE: T.D. ATF–364, 60 FR 20427, Apr. 26, 1995, unless otherwise noted.

§ 10.51 Exclusion, in general.

(a) Exclusion, in whole or in part occurs:

(1) When a practice by an industry member, whether direct, indirect, or through an affiliate, places (or has the potential to place) trade buyer independence at risk by means of a tie or link between the industry member and trade buyer or by any other means of

industry member control over the trade buyer, and

(2) Such practice results in the trade buyer purchasing less than it would have of a competitor's product.

(b) Section 10.52 lists practices that create a tie or link that places trade buyer independence at risk. Section 10.53 is reserved and will list practices not resulting in exclusion. Section 10.54 lists the criteria used for determining whether other practices can put trade buyer independence at risk.

§ 10.52 Practice which puts trade buyer independence at risk.

The practice specified in this section is deemed to place trade buyer independence at risk within the description of exclusion in § 10.51: Industry member payments of money to the employee(s) of a trade buyer without the knowledge or consent of the trade buyer-employer in return for the employee agreeing to order distilled spirits, wine, or malt beverages from the industry member. The practice enumerated here is an example and does not constitute a complete list of those situations which result in such control.

§ 10.53 Practices not resulting in exclusion. [Reserved]

§ 10.54 Criteria for determining trade buyer independence.

The criteria specified in this section are indications that a particular practice between an industry member and an officer, employee, or representative of a trade buyer, other than those in § 10.52, places trade buyer independence at risk. A practice need not meet all of the criteria specified in this section in order to place trade buyer independence at risk.

(a) The practice restricts or hampers the free economic choice of a trade buyer to decide which products to purchase or the quantity in which to purchase them for sale to retailers and consumers.

(b) The industry member obligates the trade buyer to participate in the promotion to obtain the industry member's product.

(c) The trade buyer has a continuing obligation to purchase or otherwise promote the industry member's product.

(d) The trade buyer has a commitment not to terminate its relationship with the industry member with respect to purchase of the industry member's products.

(e) The practice involves the industry member in the day-to-day operations of the trade buyer. For example, the industry member controls the trade buyer's decisions on which brand of products to purchase, the pricing of products, or the manner in which the products will be displayed on the trade buyer's premises.

(f) The practice is discriminatory in that it is not offered to all trade buyers in the local market on the same terms without business reasons present to justify the difference in treatment.

(2) If: (i) The sale, purchase, offer or contract is made in the course of interstate or foreign commerce; or

(ii) The industry member engages in using the practice to such an extent as substantially to restrain or prevent transactions in interstate or foreign commerce in any such products; or

(iii) The direct effect of the sale, purchase, offer or contract is to prevent, deter, hinder, or restrict other persons from selling or offering for sale any such products to such trade buyer in interstate or foreign commerce.

(b) *Malt beverages.* In the case of malt beverages, this part applies to transactions between a retailer in any State and a brewer, importer, or wholesaler of malt beverages inside or outside such State only to the extent that the law of such State imposes requirements similar to the requirements of section 5(d) of the Federal Alcohol Administration Act (27 U.S.C. 205(d)), with respect to similar transactions between a retailer in such State and a brewer, importer, or wholesaler of malt beverages in such State.

Subpart C—Unlawful Sales Arrangements

§ 11.21 General.

It is unlawful for an industry member to sell, offer for sale, or contract to sell to any trade buyer, or for any such trade buyer to purchase, offer to purchase, or contract to purchase any products (a) on consignment; or (b) under conditional sale; or (c) with the privilege of return; or (d) on any basis other than a bona fide sale; or (e) if any part of the sale involves, directly or indirectly, the acquisition by such person of other products from the trade buyer or the agreement to acquire other products from the trade buyer. Transactions involving the bona fide return of products for ordinary and usual commercial reasons arising after the product has been sold are not prohibited.

§ 11.22 Consignment sales.

§ 11.23 Sales conditioned on the acquisition of other products.

(a) *General.* A sale in which any part of the sale involves, directly or indirectly, the acquisition by the industry member from the trade buyer, or the agreement, as a condition to present or future sales, to accept other products from the trade buyer is prohibited.

(b) *Exchange.* The exchange of one product for another is prohibited as a sales transaction conditioned on the acquisition of other products. However, the exchange of a product for equal quantities (case for case) of the same type and brand of product, in containers of another size is not considered an acquisition of ''other'' products and is not prohibited if there was no direct or implied privilege of return extended when the product was originally sold. Industry members may make price adjustments on products eligible for exchange under this paragraph.

§ 11.24 Other than a bona fide sale.

''Other than a bona fide sale'' includes, but is not limited to, sales in connection with which the industry member purchases or rents the display, shelf, storage or warehouse space to be occupied by such products at premises owned or controlled by the retailer.

Sections 11.32 through 11.39 specify what are considered ''ordinary and usual commercial reasons'' for the return of products, and outline the conditions and limitations for such returns.

(b) An industry member is under no obligation to accept the return of products for the reasons listed in §§ 11.32 through 11.39.

EXCHANGES AND RETURNS FOR ORDINARY AND USUAL COMMERCIAL REASONS

§ 11.32 Defective products.

Products which are unmarketable because of product deterioration, leaking containers, damaged labels or missing or mutilated tamper evident closures may be exchanged for an equal quantity of identical products or may be returned for cash or credit against outstanding indebtedness.

§ 11.34 Products which may no longer be lawfully sold.

Products which may no longer be lawfully sold may be returned for cash or credit against outstanding indebtedness. This would include situations where, due to a change in regulation or administrative procedure over which the trade buyer or an affiliate of the trade buyer has no control, a particular size or brand is no longer permitted to be sold.

§ 11.39 Seasonal dealers.

Industry members may accept the return of products from retail dealers who are only open a portion of the year, if the products are likely to spoil during the off season. These returns will be for cash or for credit against outstanding indebtedness.

EXCHANGES AND RETURNS FOR REASONS NOT CONSIDERED ORDINARY AND USUAL

§ 11.45 Overstocked and slow-moving products.

The return or exchange of a product because it is overstocked or slow-moving does not constitute a return for ''ordinary and usual commercial reasons.''

§ 11.46 Seasonal products.

The return or exchange of products for which there is only a limited or seasonal demand, such as holiday decanters and certain distinctive bottles, does not constitute a return for ''ordinary and usual commercial reasons.''

§ 12.3 Procedure for recognition of foreign distinctive designations.

(b) *Format.* A petition shall be in the form of a letterhead application requesting that TTB recognize the distinctive wine designation listed in their petition. The petition should present evidence to support a finding that the geographic designation is known to the U.S. consumer and trade as the designation of a specific wine of a particular place or region, distinguishable from all other wines. All background material and supporting data submitted will be made part of the application and will be considered in the review process.

(b) *Time period for action on application.* Within 90 days of receipt of an application, the appropriate TTB officer must notify the applicant whether the application has been approved or denied. The appropriate TTB officer may extend this period of time once, by an additional 90 days, if he or she finds that unusual circumstances require additional time to consider the issues presented by an application. If the appropriate TTB officer extends the period, he or she must notify the applicant by letter, along with a brief explanation of the issues presented by the label. However, formal administrative appeals must comply with the provisions of paragraph (a) of this section.

§ 13.26 Decision after appeal of qualification or denial.

(a) *Decision.* After considering any written arguments or evidence presented by the applicant, the appropriate TTB officer must issue a written decision to the applicant. If the decision is that the qualified approval or denial should stand, a copy of the application, marked ''appeal denied,'' must be returned to the applicant with an explanation of the decision and the specific laws or regulations relied upon in qualifying or denying the application. If the decision is that the certificate of label approval, certificate of exemption from label approval, or distinctive liquor bottle application should be approved without qualification, the applicant should resubmit TTB Form 5100.31 and the certificate will be issued.

(b) *Time limits for decision.* Within 90 days of receipt of an appeal, the appropriate TTB officer must notify the appellant whether the appeal has been granted or denied. If an applicant requests an informal conference as part of an appeal, as authorized in §13.71, the 90-day period will begin 10 days after the date of the conference to allow for consideration of any written arguments, facts or evidence submitted after the conference. The appropriate TTB officer may extend this period of time once by an additional 90 days if he or she finds that unusual circumstances require additional time to consider the issues presented by an appeal. If the appropriate TTB officer extends the period, he or she must notify the applicant by letter, briefly explaining the issues presented by the label. If the appellant receives no decision from the appropriate TTB officer within the time periods set forth in this paragraph, the appellant may appeal as provided in §13.27.

If the appropriate TTB officer concludes that the qualified approval or denial was correct, a copy of the application, marked ''appeal denied,'' must be returned to the applicant, with an explanation of the decision and the specific laws or regulations relied upon in qualifying or denying the application. If the appropriate TTB officer concludes that the certificate of label approval, certificate of exemption from label approval, or distinctive liquor bottle application should be approved without qualification, the applicant may resubmit TTB Form 5100.31 and the certificate will be issued.

(b) *Time limits for decision after second appeal.* Within 90 days of receipt of the second appeal, the appropriate TTB officer must notify the appellant whether the appeal has been granted or denied. The appropriate TTB officer may extend this period of time once, by an additional 90 days, if he or she finds that unusual circumstances require additional time to consider the unique issues presented by an appeal. If the appropriate TTB officer extends the time period, he or she must notify the applicant by letter, briefly explaining the issues presented by the label. The decision made on the second appeal shall be the final decision of TTB.

(c) *Judicial review.* An appeal to the appropriate TTB officer is required prior to application to the Federal

courts for review of any denial or qualification of an application.

Certificates of label approval, certificates of exemption from label approval, and distinctive liquor bottle approvals, previously approved on TTB Form 5100.31, may be revoked by the appropriate TTB officer upon a finding that the label or bottle at issue is not in compliance with the applicable laws or regulations.

§ 13.42 Notice of proposed revocation.

Except as provided in § 13.51, when the appropriate TTB officer determines that a certificate of label approval, certificate of exemption from label approval, or distinctive liquor bottle approval has been issued for a label or bottle that is not in compliance with the laws or regulations, he or she must issue to the certificate holder a notice of proposed revocation. The notice must set forth the basis for the proposed revocation and must provide the certificate holder with 45 days from the date of receipt of the notice to present written arguments or evidence why the revocation should not occur.

§ 13.43 Decision after notice of proposed revocation.

(a) *Decision.* After considering any written arguments or evidence presented by the certificate holder, the appropriate TTB officer must issue a decision. If the decision is to revoke the certificate, a letter must be sent to the holder explaining the revocation of the certificate, and the specific laws or regulations relied upon in determining that the label or bottle was not in conformance with law or regulations. If the decision is to withdraw the proposed revocation, a letter of explanation must be sent.

(b) *Time limits for decision.* Within 90 days of receipt of written arguments or evidence from the certificate holder, the appropriate TTB officer shall notify the appellant of his or her decision. If a certificate holder requests an informal conference as part of an appeal, as authorized in § 13.71, the 90-day period will begin 10 days after the date of the conference to allow for consideration of any written arguments, facts or evidence submitted after the conference. The appropriate TTB officer may extend this period of time once by an additional 90 days if he or she finds that unusual circumstances require additional time to consider the issues presented by a proposed revocation. If the appropriate TTB officer extends the time period, he or she must notify the applicant by letter, along with a brief explanation of the issues under consideration.

§ 13.44 Appeal of revocation.

(a) *Filing of appeal.* A certificate holder who wishes to appeal the decision to revoke a certificate of label approval, certificate of exemption from label approval, or distinctive liquor bottle approval, may file a written appeal setting forth why the holder believes that the decision was erroneous. The appeal must be filed with the appropriate TTB officer within 45 days after the date of receipt of the decision to revoke a certificate of label approval, certificate of exemption from label approval, or distinctive liquor bottle approval.

(b) *Judicial review.* An appeal to the appropriate TTB officer is required prior to application to the Federal courts for review of any revocation of a certificate.

[T.D. ATF–449, 66 FR 19086, Apr.13, 2001]

§ 13.45 Final decision after appeal.

(a) *Issuance of decision.* After considering any written arguments or evidence presented by the certificate holder or the holder's representative, the appropriate TTB officer must issue a final decision. If the decision is to revoke the certificate of label approval, certificate of exemption from label approval, or distinctive liquor bottle approval, a letter must be issued explaining the basis for the revocation, and the specific laws or regulations relied upon in determining that the label or bottle was not in conformance with law or regulations. If the decision is to

withdraw the proposed revocation, a letter explaining the decision must be sent.

(b) *Time limits for decision.* Within 90 days of receipt of an appeal, the appropriate TTB officer must notify the holder whether the appeal has been granted or denied. If a certificate holder requests an informal conference as part of an appeal, as authorized in §13.71, the 90-day period will begin 10 days after the date of the conference to allow for consideration of any written arguments, facts or evidence submitted after the conference. The appropriate TTB officer may extend this period of time once by an additional 90 days if he or she finds that unusual circumstances require additional time to consider the issues presented by an appeal. If the appropriate TTB officer extends the period, he or she must notify the holder by letter, briefly explaining the issues presented by the label. The final decision after appeal will be the final decision of TTB.

[T.D. ATF–406, 64 FR 2129, Jan. 13, 1999, as amended by T.D. ATF–449, 66 FR 19086, Apr. 13, 2001]

Subpart E—Revocation by Operation of Law or Regulation

§ 13.51 Revocation by operation of law or regulation.

TTB will not individually notify all holders of certificates of label approval, certificates of exemption from label approval, or distinctive liquor bottle approvals that their approvals have been revoked if the revocation occurs by operation of either TTB-administered law or regulation or applicable law or regulation of other agencies. If changes in labeling or other requirements are made as a result of amendments or revisions to the law or regulations, the certificate holder must voluntarily surrender all certificates that are no longer in compliance. The holder must submit applications for new certificates in compliance with the new requirements, unless TTB determines that new applications are not necessary. If a new application is unnecessary, it is the responsibility of the certificate holder to ensure that labels are in compliance with their requirements of the new regulations or law.

[T.D. ATF–406, 64 FR 2129, Jan. 13, 1999, as amended by T.D. ATF–483, 67 FR 62858, Oct. 8, 2002]

§ 13.52 Notice of revocation.

If TTB determines that a certificate holder is still using a certificate of label approval, certificate of exemption from label approval, or distinctive liquor bottle approval that is no longer in compliance due to amendments or revisions in the law or regulations, the appropriate TTB officer will notify the certificate holder in writing that the subject certificate has been revoked by operation of law or regulations, with a brief description of the grounds for such revocation.

§ 13.53 Appeal of notice of revocation.

Within 45 days after the date of receipt of a notice of revocation by operation of law or regulations, the certificate holder may file a written appeal with the appropriate TTB officer. The appeal should set forth the reasons why the certificate holder believes that the regulation or law at issue does not require the revocation of the certificate.

§ 13.54 Decision after appeal.

(a) *Issuance of decision.* After considering all written arguments and evidence submitted by the certificate holder, the appropriate TTB officer must issue a final decision regarding the revocation by operation of law or regulation of the certificate. If the decision is that the law or regulation at issue requires the revocation of the certificate of label approval, certificate of exemption from label approval, or distinctive liquor bottle approval, a letter must be issued explaining the basis for the revocation, and citing the specific laws or regulations which required the revocation of the certificate. If the decision is that the law or regulation at issue does not require the revocation of such certificate, a letter explaining the decision must be sent to the certificate holder. The decision after appeal will be the final decision of the TTB.

(b) *Time limits for decision.* Within 90 days of receipt of an appeal, the appropriate TTB officer must notify the

holder whether the appeal has been granted or denied. If a certificate holder requests an informal conference as part of an appeal, as authorized in §13.71, the 90-day period will begin 10 days after the date of the conference to allow for consideration of any written arguments, facts or evidence submitted after the conference. The appropriate TTB officer may extend this period of time once by an additional 90 days if he or she finds that unusual circumstances require additional time to consider the issues presented by an appeal. If the appropriate TTB officer extends the period, he or she must notify the holder by letter, briefly explaining the issues presented by the label. The decision of the appropriate TTB officer shall be the final decision of the TTB.

[T.D. ATF–406, 64 FR 2129, Jan. 13, 1999, as amended by T.D. ATF–449, 66 FR 19086, Apr. 13, 2001]

(2) *Labels that make organic claims.* TTB will disclose applications for approval of labels that make organic claims to the appropriate office of the United States Department of Agriculture to assure such labels comply with National Organic Program rules.

(b) *Approved applications.* The appropriate TTB officer shall cause to be maintained in the TTB public reading room for public inspection, a copy of each approved application for certificate of label approval, certificate of exemption from label approval, or distinctive liquor bottle approval. These documents may be viewed during business hours at 1310 G Street NW., Washington, DC, or by viewing the Public COLA Registry on the TTB Web site at (*http://www.ttb.gov*).

(c) *Revoked certificates.* If an approved certificate is subsequently revoked, the record of the approved application will remain on file for public inspection, but the index will be annotated to show it was revoked.

(d) *Further disclosure of information on denied or revoked certificates.* If an applicant whose application is pending or has been denied, or a holder of a revoked certificate of label approval, certificate of exemption from label approval, or distinctive liquor bottle approval, issues public statements concerning TTB action in connection with such application or certificate, then TTB may issue a statement to clarify its position or correct any misstatements of fact, including a disclosure of information contained on the application or certificate of label approval, certificate of exemption from label approval, or distinctive liquor bottle approval.

If the comment raises an issue that is outside the scope of TTB's statutory or regulatory authority, or the appropriate TTB officer determines that the certificate is in compliance with applicable law and regulations, the commenter will be informed that no further action will be taken. If the appropriate TTB officer determines that the commenter has raised a valid issue that TTB has authority to address, he or she will initiate appropriate action. The appropriate TTB officer may, in his or her discretion, notify the commenter as to the action being taken by TTB with respect to the certificate.

(a) *Effective dates*—(1) *Revocation of specific certificates.* A written decision to revoke a certificate becomes effective 60 days after the date of the decision.

(2) *Revocation by operation of law or regulation.* If a certificate is revoked by operation of law or regulation, the revocation becomes effective on the effective date of the change in law or regulation with which the certificate does not comply, or if a separate label compliance date is given, on that date.

(b) *Use of certificate during period of appeal.* If a certificate holder files a timely appeal after receipt of a decision to revoke a certificate pursuant to §13.44, the holder may continue to use the certificate at issue until the effective date of a final decision issued by the appropriate TTB officer. However, the effective date of a notice of revocation by operation of law or regulations, issued pursuant to §13.52, is not stayed pending the appeal.

[T.D. ATF–406, 64 FR 2129, Jan. 13, 1999, as amended by T.D. ATF–449, 66 FR 19086, Apr. 13, 2001]

§ 13.73 Effect of revocation.

On and after the effective date of a revocation of a certificate of label approval, certificate or exemption from label approval, or distinctive liquor bottle approval, the label or distinctive liquor bottle in question may not be used to bottle or pack distilled spirits, wine or malt beverages, to remove such products from the place where they were bottled or packed, or to remove such products from customs custody for consumption.

§ 13.74 Surrender of certificates.

On the effective date of a final decision that has been issued to revoke a certificate of label approval, certificate of exemption from label approval, or distinctive liquor bottle approval, the certificate holder must surrender the original of the certificate to TTB for manual cancellation. Regardless of whether the original certificate of label approval, certificate of exemption from label approval, or distinctive liquor bottle approval has been manually canceled or not, the certificate is null and void after the effective date of the revocation. It is a violation of this section for any certificate holder to present a certificate of label approval, certificate of exemption from label approval, or distinctive liquor bottle approval to an official of the United States Government as a valid certificate after the effective date of the revocation of the certificate if the certificate holder has been previously notified that such certificate has been revoked by TTB.

[T.D. ATF–406, 64 FR 2129, Jan. 13, 1999, as amended by T.D. ATF–449, 66 FR 19086, Apr. 13, 2001]

§ 13.75 Evidence of receipt by TTB.

If there is a time limit on TTB action that runs from TTB's receipt of a document, the date of receipt may be established by a certified mail receipt or equivalent written acknowledgment secured by a commercial delivery service or by a written acknowledgment of personal delivery. In the absence of proof of receipt, the date the document is logged in by TTB will be considered the date of receipt.

§ 13.76 Service on applicant or certificate holder.

(a) *Method of service.* TTB must serve notices of denial on an applicant by

first class mail, or by personal delivery. TTB must serve notices of proposed revocation and notices of revocation on a certificate holder by certified mail, return receipt requested, by a commercial delivery service that will provide an equivalent written acknowledgment from the recipient, or by personal delivery.

(b) *Date of receipt.* If there is a time limit on a certificate holder's action that runs from the holder's receipt of a document, the date of receipt may be established by a certified mail receipt, an equivalent written acknowledgment secured by a commercial delivery service, or by a written acknowledgment of personal delivery.

(c) *Person to be served.* When service is by mail or other commercial delivery service, a copy of the document must be sent to the applicant or certificate holder at the address stated in the application or at the last known address. If authorized by the applicant or certificate holder, the copy of the document may be mailed to a designated representative. If service is by personal delivery, a copy of the document must be delivered to the certificate holder or to a designated representative. In the case of a corporation, partnership, or association, personal delivery may be made to an officer, manager, or general agent thereof, or to the attorney of record.

§ 13.81 Representation before TTB.

An applicant or certificate holder may be represented by an attorney, certified public accountant, or other person recognized to practice before TTB as provided in 31 CFR part 8 (Practice Before the Bureau of Alcohol, Tobacco and Firearms). The applicable requirements of 26 CFR 601.521 through 601.527 (conference and practice requirements for alcohol, tobacco, and firearms activities) shall apply.

§ 13.91 Computation of time.

In computing any period of time prescribed or allowed by this part, the day of the act, event or default after which the designated period of time is to run, is not counted. The last day of the period to be computed is counted, unless it is a Saturday, Sunday, or legal holiday, in which case the period runs until the next day that is not a Saturday, Sunday, or legal holiday. Papers or documents that are required or permitted to be filed under this part must be received at the appropriate office within the filing time limits, if any.

Distilled spirits, or *spirits*. That substance known as ethyl alcohol, ethanol, spirits, or spirits of wine in any form (including all dilutions and mixtures thereof, from whatever source or by whatever process produced).

Effective tax rate. The net tax rate, after reduction for any credit allowable under 26 U.S.C. 5010 for wine and flavor content, at which the tax imposed on distilled spirits by 26 U.S.C. 5001 or 7652 is paid or determined. For distilled spirits with no wine or flavors content, the effective tax rate equals the rate of tax imposed by 26 U.S.C. 5001 or 7652.

Eligible, or *eligible for drawback*. When used with reference to spirits, this term designates taxpaid spirits which have not yet been used in nonbeverage products.

Filed. Subject to the provisions of §§70.305 and 70.306 of this chapter, a claim for drawback or other document or payment submitted under this part is generally considered to have been ''filed'' when it is received by the office of the proper Government official; but if an item is mailed timely with postage prepaid, then the United States postmark date is treated as the date of filing.

Food products. Includes food adjuncts, such as preservatives, emulsifying agents, and food colorings, which are manufactured and used, or sold for use, in food.

Intermediate products. Products to which all three of the following conditions apply: they are made with taxpaid distilled spirits, they have been disapproved for drawback, and they are made by the manufacturer exclusively for its own use in the manufacture of nonbeverage products approved for drawback. However, ingredients treated as unfinished nonbeverage products under §17.127 are not considered to be intermediate products.

Medicines. Includes laboratory stains and reagents for use in medical diagnostic procedures.

Month. A calendar month.

Nonbeverage products. Medicines, medicinal preparations, food products, flavors, flavoring extracts, or perfume,

which are manufactured using taxpaid distilled spirits, and which are unfit for use for beverage purposes.

Person. An individual, trust, estate, partnership, association, company, or corporation.

Proof gallon. A gallon of liquid at 60 degrees Fahrenheit, which contains 50 percent by volume of ethyl alcohol having a specific gravity of 0.7939 at 60 degrees Fahrenheit (referred to water at 60 degrees Fahrenheit as unity), or the alcoholic equivalent thereof.

Quarter. A 3-month period beginning January 1, April 1, July 1, or October 1.

Recovered spirits. Taxpaid spirits that have been salvaged, after use in the manufacture of a product or ingredient, so that the spirits are reusable.

Subject to drawback. This term is used with reference to spirits. Eligible spirits become ''subject to drawback'' when they are used in the manufacture of a nonbeverage product. When spirits have become ''subject to drawback,'' they may be included in the manufacturer's claim for drawback of tax covering the period in which they were first used.

Tax year. The period from July 1 of one calendar year through June 30 of the following year.

Taxpaid. When used with respect to distilled spirits, this term shall mean that all taxes imposed on such spirits by 26 U.S.C. 5001 or 7652 have been determined or paid as provided by law.

Subpart C—Registration

SOURCE: T.D. TTB–79, 74 FR 37402, July 28, 2009 unless otherwise noted.

§ 17.21 Registration.

Every person claiming drawback under this part must register annually as a nonbeverage domestic drawback claimant. Registration will be accomplished when the claimant submits the first drawback claim for each year along with the supporting data required under subpart G of this part. No registration is required for any year in which the claimant does not file a claim for drawback.

§ 17.22 Employer identification number.

Every person who claims drawback under this part must enter on each claim for drawback filed on TTB Form 5620.8, Claim—Alcohol, Tobacco, and Firearms Taxes, the employer identification number (EIN) assigned by the Internal Revenue Service.

(26 U.S.C. 6109, 6723)

§ 17.23 Application for employer identification number.

(a) *Use Form SS–4.* A claimant must obtain an employer identification number (EIN) by filing an application with the Internal Revenue Service (IRS) on IRS Form SS–4. Form SS–4 is available from the local IRS Service Center, from the IRS District Director, the IRS Web site at *http://www.irs.gov* or from the TTB National Revenue Center. The claimant must file this form with IRS in accordance with the instructions on the form.

(b) *One EIN only.* Each claimant must obtain and use only one EIN, regardless of the number of places of business for which a claim is filed under this part.

(26 U.S.C. 6109)

Subpart D [Reserved]

Subpart E—Bonds and Consents of Sureties

§ 17.101 Bonds in general.

(a) *Requirement.* A bond must be filed by each person claiming drawback on a monthly basis. Persons who claim drawback on a quarterly basis are not required to file bonds. The bond requirement of this part may be satisfied either by a bond obtained from an authorized surety company or by deposit of collateral security.

(b) *Bond form.* The bond must be prepared and executed on TTB Form 5154.3, Bond for Drawback Under 26 U.S.C. 5111, in accordance with the provisions of this part and the instructions printed on the form.

(c) *Bonds executed before July 1, 2008.* On and after July 1, 2008, a reference to

26 U.S.C. 5131–5134 in a bond executed on TTB Form 5154.3, Bond for Drawback Under 26 U.S.C. 5131, shall be understood to refer to the sections redesignated as 26 U.S.C. 5111–5114 by section 11125 of Public Law 109–59.

(d) *Approval.* The appropriate TTB officer is authorized to approve all bonds and consents of surety required by this part.

[T.D. TTB, 74 FR 37402, July 28, 2009]

§ 17.102 Amount of bond.

The bond shall be a continuing one, in an amount sufficient to cover the total drawback to be claimed on spirits used during any quarter. However, the amount of any bond shall not exceed $200,000 nor be less than $1,000.

§ 17.103 Bonds obtained from surety companies.

(a) The bond may be obtained from any surety company authorized by the Secretary of the Treasury to be a surety on Federal bonds. Surety companies so authorized are listed in the current revision of Department of the Treasury Circular 570 (Companies Holding Certificates of Authority as Acceptable Sureties on Federal Bonds and as Acceptable Reinsuring Companies), and subject to such amendatory circulars as may be issued from time to time. Bonds obtained from surety companies are also governed by the provisions of 31 U.S.C. 9304, and 31 CFR part 223.

(b) A bond executed by two or more surety companies shall be the joint and several liability of the principal and the sureties; however, each surety company may limit its liability, in terms upon the face of the bond, to a definite, specified amount. This amount shall not exceed the limitations prescribed for each surety company by the Secretary, as stated in Department of the Treasury Circular 570. If the sureties limit their liability in this way, the total of the limited liabilities shall equal the required amount of the bond.

(c) Department of the Treasury Circular No. 570 is published in the FEDERAL REGISTER annually on the first workday in July. As they occur, interim revisions of the circular are published in the FEDERAL REGISTER. Copies of the circular may be obtained from: Surety Bond Branch, Financial Management Service, Department of the Treasury, Washington, DC 20227.

(Sec. 1, Pub. L. 97–258, 96 Stat. 1047 (31 U.S.C. 9304))

§ 17.104 Deposit of collateral.

Except as otherwise provided by law or regulations, bonds or notes of the United States, or other obligations which are unconditionally guaranteed as to both interest and principal by the United States, may be pledged and deposited by principals as collateral security in lieu of bonds obtained from surety companies. Deposit of collateral security is governed by the provisions of 31 U.S.C. 9303, and 31 CFR part 225.

(Sec. 1, Pub. L. 97–258, 96 Stat. 1046 (31 U.S.C. 9301, 9303))

§ 17.105 Filing of powers of attorney.

(a) *Surety companies.* The surety company shall prepare and submit with each bond, and with each consent to changes in the terms of a bond, a power of attorney in accordance with § 17.6, authorizing the agent or officer who executed the bond or consent to act in this capacity on behalf of the surety. The power of attorney shall be prepared on a form provided by the surety company and executed under the corporate seal of the company. If other than a manually signed original is submitted, it shall be accompanied by certification of its validity.

(b) *Principal.* The principal shall execute and file a power of attorney, in accordance with § 17.6, for every person authorized to execute bonds on behalf of the principal.

(Sec. 1, Pub. L. 97–258, 96 Stat. 1047 (31 U.S.C. 9304, 9306))

§ 17.106 Consents of surety.

The principal and surety shall execute on TTB Form 1533 (5000.18), Consent of Surety, any consents of surety to changes in the terms of bonds. Form 1533 (5000.18) shall be executed with the same formality and proof of authority as is required for the execution of bonds.

§ 17.107 Strengthening bonds.

Whenever the amount of a bond on file and in effect becomes insufficient,

the principal may give a strengthening bond in a sufficient amount, provided the surety is the same as on the bond already on file and in effect; otherwise a superseding bond covering the entire liability shall be filed. Strengthening bonds, filed to increase the bond liability of the surety, shall not be construed in any sense to be substitute bonds, and the appropriate TTB officer shall not approve a strengthening bond containing any notation which may be interpreted as a release of any former bond or as limiting the amount of either bond to less than its full amount.

§ 17.108 Superseding bonds.

(a) The principal on any bond filed pursuant to this part may at any time replace it with a superseding bond.

(b) Executors, administrators, assignees, receivers, trustees, or other persons acting in a fiduciary capacity continuing or liquidating the business of the principal, shall execute and file a superseding bond or obtain the consent of the surety or sureties on the existing bond or bonds.

(c) When, in the opinion of the appropriate TTB officer, the interests of the Government demand it, or in any case where the security of the bond becomes impaired in whole or in part for any reason whatever, the principal shall file a superseding bond. A superseding bond shall be filed immediately in case of the insolvency of the surety. If a bond is found to be not acceptable or for any reason becomes invalid or of no effect, the principal shall immediately file a satisfactory superseding bond.

(d) A bond filed under this section to supersede an existing bond shall be marked by the obligors at the time of execution, ''Superseding Bond.'' When such a bond is approved, the superseded bond shall be released as to transactions occurring wholly subsequent to the effective date of the superseding bond, and notice of termination of the superseded bond shall be issued, as provided in § 17.111.

TERMINATION OF BONDS

§ 17.111 General.

(a) Bonds on TTB Form 5154.3 shall be terminated by the appropriate TTB officer, as to liability on drawback allowed after a specified future date, in the following circumstances:

(1) Pursuant to a notice by the surety as provided in § 17.112.

(2) Following approval of a superseding bond, as provided in § 17.108.

(3) Following notification by the principal of an intent to discontinue the filing of claims on a monthly basis.

(b) However, the bond shall not be terminated until all outstanding liability under it has been discharged. Upon termination, the appropriate TTB officer shall mark the bond ''canceled,'' followed by the date of cancellation, and shall issue a notice of termination of bond. A copy of this notice shall be given to the principal and to each surety.

§ 17.112 Notice by surety of termination of bond.

A surety on any bond required by this part may at any time, in writing, notify the principal and the appropriate TTB officer in whose office the bond is on file that the surety desires, after a date named, to be relieved of liability under the bond. Unless the notice is withdrawn, in writing, before the date named in it, the notice shall take effect on that date. The date shall not be less than 60 days after the date on which both the notice and proof of service on the principal have been received by the appropriate TTB officer. The surety shall deliver one copy of the notice to the principal and the original to the appropriate TTB officer. The surety shall also file with the appropriate TTB officer an acknowledgment or other proof of service on the principal.

§ 17.113 Extent of release of surety from liability under bond.

The rights of the principal as supported by the bond shall cease as of the date when termination of the bond takes effect, and the surety shall be relieved from liability for drawback allowed on and after that date. Liability for drawback previously allowed shall continue until the claims for such drawback have been properly verified by the appropriate TTB officer according to law and this part.

§ 17.114 Release of collateral.

The release of collateral security pledged and deposited to satisfy the bond requirement of this part is governed by the provisions of 31 CFR part 225. When the appropriate TTB officer determines that there is no outstanding liability under the bond, and is satisfied that the interests of the Government will not be jeopardized, the security shall be released and returned to the principal.

(Sec. 1, Pub. L. 97–258, 96 Stat. 1046 (31 U.S.C. 9301, 9303))

Subpart F—Formulas and Samples

§ 17.121 Product formulas.

(a) *General.* Except as provided in §§ 17.132 and 17.182, manufacturers shall file quantitative formulas for all preparations for which they intend to file drawback claims. Such formulas shall state the quantity of each ingredient, and shall separately state the quantity of spirits to be recovered or to be consumed as an essential part of the manufacturing process.

(b) *Filing.* Formulas shall be filed on TTB Form 5154.1, Formula and Process for Nonbeverage Products. Filing shall be accomplished no later than 6 months after the end of the quarter in which taxpaid distilled spirits were first used to manufacture the product for purposes of drawback. If a product's formula is disapproved, no drawback shall be allowed on spirits used to manufacture that product, unless it is later used as an intermediate product, as provided in § 17.137.

(c) *Numbering.* The formulas shall be serially numbered by the manufacturer, commencing with number 1 and continuing thereafter in numerical sequence. However, a new formula for use at several plants shall be given the highest number next in sequence at any of those plants. The numbers that were skipped at the other plants shall not be used subsequently.

(d) *Distribution and retention of approved formulas.* One copy of each approved Form 5154.1 shall be returned to the manufacturer. The formulas returned to manufacturers shall be kept in serial order at the place of manufacture, as provided in § 17.170, and shall be made available to appropriate TTB officers for examination in the investigation of drawback claims.

[T.D. ATF–179, 61 FR 31412, June 20, 1996, as amended by T.D. ATF–436, 66 FR 5471, Jan. 19, 2001]

§ 17.122 Amended or revised formulas.

Except as provided in this section, amended or revised formulas are considered to be new formulas and shall be numbered accordingly. Minor changes may be made to a current formula on TTB Form 5154.1 with retention of the original formula number, if approval is obtained from the appropriate TTB officer. In order to obtain approval to make a minor formula change, the person holding the Form 5154.1 shall submit a letter of application to the appropriate TTB officer, indicating the formula change and requesting that the proposed change be considered a minor change. Each such application shall clearly identify the original formula by number, date of approval, and name of product. The application shall indicate whether the product is, has been, or will be used in alcoholic beverages, and shall specify whether the proposed change is intended as a substitution or merely as an alternative for the original formula. No changes may be made to current formulas without specific TTB approval in each case.

[T.D. ATF–179, 61 FR 31412, June 20, 1996, as amended by T.D. ATF–436, 66 FR 5471, Jan. 19, 2001]

§ 17.123 Statement of process.

Any person claiming drawback under the regulations in this part may be required, at any time, to file a statement of process, in addition to that required by TTB Form 5154.1, as well as any other data necessary for consideration of the claim for drawback. When pertinent to consideration of the claim, submission of copies of the commercial labels used on the finished products may also be required.

§ 17.124 Samples.

Any person claiming drawback or submitting a formula for approval under the regulations in this part may be required, at any time, to submit a

sample of each nonbeverage or intermediate product for analysis. If the product is manufactured with a mixture of oil or other ingredients, the composition of which is unknown to the claimant, a 1-ounce sample of the mixture shall be submitted with the sample of finished product when so required.

§ 17.125 Adoption of formulas and processes.

(a) *Adoption of predecessor's formulas.* If there is a change in the proprietorship of a nonbeverage plant and the successor desires to use the predecessor's formulas at the same location, the successor may, in lieu of submitting new formulas in its own name, adopt any or all of the formulas of the predecessor by filing a notice of adoption with the appropriate TTB officer. The notice shall be filed with the first claim relating to any of the adopted formulas. The notice shall list, by name and serial number, all formulas to be adopted, and shall state that the products will be manufactured in accordance with the adopted formulas and processes. The notice shall be accompanied by a certified copy of the articles of incorporation or other document(s) necessary to prove the transfer of ownership. The manufacturer shall retain a copy of the notice with the related formulas.

(b) *Adoption of manufacturer's own formulas from a different location.* A manufacturer's own formulas may be adopted for use at another of the manufacturer's plants. Further, a wholly owned subsidiary may adopt the formulas of the parent company, and vice versa. A letterhead notice must be filed with the appropriate TTB officer and be accompanied by two photocopies of each formula to be adopted. The notice shall list the numbers of all formulas to be adopted and shall indicate the plant where each was originally approved and the plant(s) where each is to be adopted. Some evidence of the relationship between the plants involved in the adoption shall be attached to the notice. The notice shall be referenced in Part IV of the supporting data (TTB Form 5154.2) filed with the first claim relating to the adopted formula(s).

[T.D. ATF–179, 61 FR 31412, June 20, 1996, as amended by T.D. ATF–436, 66 FR 5471, Jan. 19, 2001]

§ 17.126 Formulas for intermediate products.

(a) The manufacturer shall submit a formula on TTB Form 5154.1 for each self-manufactured ingredient made with taxpaid spirits and intended for the manufacturer's own use in nonbeverage products, unless the formula for any such ingredient is fully expressed as part of the approved formula for each nonbeverage product in which that ingredient is used, or unless the formula for the ingredient is contained in one of the pharmaceutical publications listed in § 17.132.

(b) Upon receipt of Form 5154.1 covering a self-manufactured ingredient made with taxpaid spirits, the formula shall be examined under § 17.131. If the formula is approved for drawback, the ingredient shall be treated as a finished nonbeverage product for purposes of this part, rather than as an intermediate product, notwithstanding its use by the manufacturer. (For example, see § 17.152(d).) If the formula is disapproved for drawback, the ingredient may be treated as an intermediate product in accordance with this part. Requirements pertaining to intermediate products are found in § 17.185(b).

(c) If there is a change in the composition of an intermediate product, the manufacturer shall submit an amended or revised formula, as provided in § 17.122.

§ 17.127 Self-manufactured ingredients treated optionally as unfinished nonbeverage products.

A self-manufactured ingredient made with taxpaid spirits, which otherwise would be treated as an intermediate product, may instead be treated as an unfinished nonbeverage product, if the ingredient's formula is fully expressed as a part of the approved formula for the nonbeverage product in which the ingredient will be used. A manufacturer desiring to change the treatment of an ingredient from ''intermediate product'' to ''unfinished nonbeverage

product'' (or vice versa) may do so by resubmitting the applicable formula(s) on TTB Form 5154.1. Requirements pertaining to unfinished nonbeverage products are found in §17.185(c).

APPROVAL OF FORMULAS

§ 17.131 Formulas on TTB Form 5154.1.

Upon receipt, formulas on TTB Form 5154.1 shall be examined and, if found to be medicines, medicinal preparations, food products, flavors, flavoring extracts, or perfume which are unfit for beverage purposes and which otherwise meet the requirements of law and this part, they shall be approved for drawback. If the formulas do not meet the requirements of the law and regulations for drawback products, they shall be disapproved.

§ 17.132 U.S.P., N.F., and H.P.U.S. preparations.

(a) *General.* Except as otherwise provided by paragraph (b) of this section or by TTB ruling, formulas for compounds in which alcohol is a prescribed quantitative ingredient, which are stated in the current revisions or editions of the United States Pharmacopoeia (U.S.P.), the National Formulary (N.F.), or the Homeopathic Pharmacopoeia of the United States (H.P.U.S.), shall be considered as approved formulas and may be used as formulas for drawback products without the filing of TTB Form 5154.1.

(b) *Exceptions.* Alcohol (including dehydrated alcohol and dehydrated alcohol injection), U.S.P.; alcohol and dextrose injection, U.S.P.; and tincture of ginger, H.P.U.S., have been found to be fit for beverage use and are disapproved for drawback. All attenuations of other H.P.U.S. products diluted beyond one part in 10,000 (''4×'') are also disapproved for drawback, unless the manufacturer receives approval for a formula submitted on Form 5154.1 in accordance with this subpart. The formula for such attenuations shall be submitted with a sample of the product and a statement explaining why it should be classified as unfit for beverage use.

§ 17.133 Food product formulas.

Formulas for nonbeverage food products on TTB Form 5154.1 may be approved if they are unfit for beverage purposes. Approval does not authorize manufacture or sale contrary to State law. Examples of food products that have been found to be unfit for beverage purposes are stated below:

(a) *Sauces or syrups.* Sauces, or syrups consisting of sugar solutions and distilled spirits, in which the alcohol content is not more than 12 percent by volume and the sugar content is not less than 60 grams per 100 cubic centimeters.

(b) *Brandied fruits.* Brandied fruits consisting of solidly packaged fruits, either whole or segmented, and distilled spirits products not exceeding the quantity and alcohol content necessary for flavoring and preserving. Generally, brandied fruits will be considered to have met these standards if the container is well filled, the alcohol in the liquid portion does not exceed 23 percent by volume, and the liquid portion does not exceed 45 percent of the volume of the container.

(c) *Candies.* Candies with alcoholic fillings, if the fillings meet the standards prescribed for sauces and syrups by paragraph (a) of this section.

(d) *Other food products.* Food products such as mincemeat, plum pudding, and fruit cake, where only sufficient distilled spirits are used for flavoring and preserving; and ice cream and ices where only sufficient spirits are used for flavoring purposes. Also food adjuncts, such as preservatives, emulsifying agents, and food colorings, that are unfit for beverage purposes and are manufactured and used, or sold for use, in food.

§ 17.134 Determination of unfitness for beverage purposes.

The appropriate TTB officer has responsibility for determining whether products are fit or unfit for beverage purposes within the meaning of 26 U.S.C. 5111. This determination may be based either on the content and description of the ingredients as shown on TTB Form 5154.1, or on organoleptic examination. In such examination, samples of products may be diluted

with water to an alcoholic concentration of 15% and tasted. Sale or use for beverage purposes is indicative of fitness for beverage use.

[T.D. ATF–379, 61 FR 31412, June 20, 1996, as amended by T.D. TTB–79, 74 FR 37402, July 28, 2009]

§ 17.135 Use of specially denatured alcohol (S.D.A.).

(a) *Use of S.D.A. in nonbeverage or intermediate products*—(1) *General.* Except as provided in paragraph (b) of this section, the use of specially denatured alcohol (S.D.A.) and taxpaid spirits in the same product by a nonbeverage manufacturer is prohibited where drawback of tax is claimed.

(2) *Alternative formulations.* No formula for a product on TTB Form 5154.1 shall be approved for drawback under this subpart if the manufacturer also has on file an approved TTB Form 1479–A or Form 5150.19, Formula for Article Made With Specially Denatured Alcohol or Rum, pertaining to the same product.

(b) *Use of S.D.A. in ingredients*—(1) *Purchased ingredients.* Generally, purchased ingredients containing S.D.A. may be used in nonbeverage or intermediate products. However, such ingredients shall not be used in medicinal preparations or flavoring extracts intended for internal human use, where any of the S.D.A. remains in the finished product.

(2) *Self-manufactured ingredients.* Self-manufactured ingredients may be made with S.D.A. and used in nonbeverage or intermediate products, provided—

(i) No taxpaid spirits are used in manufacturing such ingredients; and

(ii) All S.D.A. is recovered or dissipated from such ingredients prior to their use in nonbeverage or intermediate products. (Recovery of S.D.A. shall be in accordance with subpart K of part 20 of this chapter; recovered S.D.A., with or without its original denaturants, shall not be reused in nonbeverage or intermediate products.)

(Sec. 201, Pub. L. 85–859, 72 Stat. 1372, as amended (26 U.S.C. 5273))

§ 17.136 Compliance with Food and Drug Administration requirements.

A product is not a medicine, medicinal preparation, food product, flavor, flavoring extract, or perfume for nonbeverage drawback if its formula would violate a ban or restriction of the U.S. Food and Drug Administration (FDA) pertaining to such products. If FDA bans or restricts the use of any ingredient in such a way that further manufacture of a product in accordance with its formula would violate the ban or restriction, then the manufacturer shall change the formula and resubmit it on TTB Form 5154.1 . This section does not preclude approval for products manufactured solely for export or for uses other than internal human consumption (e.g. tobacco flavors or animal feed flavors) in accordance with laws and regulations administered by FDA. Under § 17.123, manufacturers may be required to demonstrate compliance with FDA requirements applicable to this section.

§ 17.137 Formulas disapproved for drawback.

A formula may be disapproved for drawback either because it does not prescribe appropriate ingredients in sufficient quantities to make the product unfit for beverage use, or because the product is neither a medicine, a medicinal preparation, a food product, a flavor, a flavoring extract, nor a perfume. The formula for a disapproved product may be used as an intermediate product formula under § 17.126. No drawback will be allowed on distilled spirits used in a disapproved product, unless that product is later used in the manufacture of an approved nonbeverage product. In the case of a product that is disapproved because it is fit for beverage use, any further use or disposition of such a product, other than as an intermediate product in accordance with this part, subjects the manufacturer to the qualification requirements of parts 1 and 19 of this chapter.

[T.D. ATF–379, 61 FR 31412, June 20, 1996, as amended by T.D. TTB–91, 76 FR 5477, Feb. 1, 2011]

Subpart G—Claims for Drawback

§ 17.141 Drawback.

Upon the filing of a claim as provided in this subpart, drawback shall be allowed to any person who meets the requirements of this part. Drawback shall be paid at the rate specified by 26 U.S.C. 5114 on each proof gallon of distilled spirits on which the tax has been paid or determined and which have been used in the manufacture of nonbeverage products. The drawback rate is $1.00 less than the effective tax rate. Drawback shall be allowed only to the extent that the claimant can establish, by evidence satisfactory to the appropriate TTB officer, the actual quantity of taxpaid or tax-determined distilled spirits used in the manufacture of the product, and the effective tax rate applicable to those spirits.

[T.D. ATF–379, 61 FR 31412, June 20, 1996, as amended by T.D. TTB–79, 74 FR 37402, July 28, 2009; T.D. TTB–91, 76 FR 5477, Feb. 1, 2011]

§ 17.142 Claims.

(a) *General.* The manufacturer must file claim for drawback with the appropriate TTB officer who has the authority to approve or disapprove claims. A separate claim shall be filed for each place of business. Each claim shall pertain only to distilled spirits used in the manufacture or production of nonbeverage products during any one quarter of the tax year. Unless the manufacturer is eligible to file monthly claims (see §§ 17.143 and 17.144), only one claim per quarter may be filed for each place of business. Claims shall be filed on TTB Form 2635 (5620.8), Claim—Alcohol and Tobacco Taxes.

(b) *Manufacturers who are also proprietors of distilled spirits plants.* If a manufacturer of nonbeverage products is owned and operated by the same business entity that owns and operates a distilled spirits plant, the manufacturer's claim for drawback may be filed for credit on Form 2635 (5620.8). After the claim is approved, the distilled spirits plant may use the claim as an adjustment decreasing the taxes due in Schedule B of TTB Form 5000.24, Excise Tax Return. Adjustments resulting from an approved drawback claim are not subject to interest. This procedure may be utilized only if the manufacturer of nonbeverage products and the distilled spirits plant have the same employer identification number.

[T.D. ATF–179, 61 FR 31412, June 20, 1996, as amended by T.D. ATF–436, 66 FR 5471, Jan. 19, 2001]

§ 17.143 Notice for monthly claims.

If the manufacturer has notified the appropriate TTB officer, in writing, of an intention to file claims on a monthly basis instead of a quarterly basis, and has filed a bond in compliance with the provisions of this part, claims may be filed monthly instead of quarterly. The election to file monthly claims shall not preclude a manufacturer from filing a single claim covering an entire quarter, or a single claim covering just two months of a quarter, or two claims (one of them covering one month and the other covering two months). An election for the filing of monthly claims may be withdrawn by the manufacturer by filing a notice to that effect, in writing, with the appropriate TTB officer.

§ 17.144 Bond for monthly claims.

Each person intending to file claims for drawback on a monthly basis shall file an executed bond on TTB Form 5154.3, conforming to the provisions of subpart E of this part. A monthly drawback claim shall not be allowed until bond coverage in a sufficient amount has been approved by the appropriate TTB officer. When the limit of liability under a bond given in less than the maximum amount has been reached, further drawback on monthly claims may be suspended until a strengthening or superseding bond in a sufficient amount is furnished.

§ 17.145 Date of filing claim.

Quarterly claims for drawback shall be filed within six months after the quarter in which the distilled spirits covered by the claim were used in the manufacture of nonbeverage products. Monthly claims for drawback may be filed at any time after the end of the month in which the distilled spirits covered by the claim were used in the manufacture of nonbeverage products, but shall be filed not later than the close of the sixth month succeeding the quarter in which the spirits were used.

§ 17.146 Information to be shown by the claim.

The claim shall show the following:

(a) [Reserved]

(b) That the distilled spirits on which drawback is claimed were fully taxpaid or tax-determined at the effective tax rate applicable to the distilled spirits.

(c) That the distilled spirits on which the drawback is claimed were used in the manufacture of nonbeverage products.

(d) Whether the nonbeverage products were manufactured in compliance with quantitative formulas approved under subpart F of this part. (If not, attach explanation.)

(e) That the data submitted in support of the claim are correct.

[T.D. ATF–379, 61 FR 31412, June 20, 1996, as amended by T.D. TTB–79, 74 FR 37402, July 28, 2009]

§ 17.147 Supporting data.

(a) Each claim for drawback shall be accompanied by supporting data presented according to the format shown on TTB Form 5154.2, Supporting Data for Nonbeverage Drawback Claims (or according to any other suitable format which provides the same information). Modifications of Form 5154.2 may be used without prior authorization, if the modified format clearly shows all of the required information that is pertinent to the manufacturing operation. Under §17.123, the appropriate TTB officer may require additional supporting data when needed to determine the correctness of drawback claims.

(b) Separate data shall be shown for eligible distilled spirits taxpaid at different effective tax rates. This requirement applies to all eligible spirits, including eligible recovered alcohol and eligible spirits contained in intermediate products.

(c) Separate data shall be shown for imported rum, spirits from Puerto Rico containing at least 92% rum, and spirits from the U.S. Virgin Islands containing at least 92% rum. The total number of proof gallons of each such category used subject to drawback during the claim period shall also be shown, with separate totals for each effective tax rate. These amounts shall include eligible spirits and rum from intermediate products or recovered alcohol.

(d) Any gain in eligible distilled spirits reported in the supporting data shall be reflected by an equivalent deduction from the amount of drawback claimed. Gains shall not be offset by known losses.

§ 17.148 Allowance of claims.

(a) *General.* Except in the case of fraudulent noncompliance, no claim for drawback shall be denied for a failure to comply with either 26 U.S.C. 5111–5114 or the requirements of this part, if the claimant establishes that spirits on which the tax has been paid or determined were in fact used in the manufacture of medicines, medicinal preparations, food products, flavors, flavoring extracts, or perfume, which were unfit for beverage purposes.

(b) *Penalty.* Noncompliance with the requirements of 26 U.S.C. 5111–5114 or of this part subjects the claimant to a civil penalty of $1,000 for each separate product, reflected in a claim for drawback, to which the noncompliance relates, or the amount claimed for that product, whichever is less, unless the claimant establishes that the noncompliance was due to reasonable cause. Late filing of a claim subjects the claimant to a civil penalty of $1,000 or the amount of the claim, whichever is less, unless the claimant establishes that the lateness was due to reasonable cause.

(c) *Reasonable cause.* Reasonable cause exists where a claimant establishes it exercised ordinary business care and prudence, and still was unable to comply with the statutory and regulatory requirements. Ignorance of law or regulations, in and of itself, is not reasonable cause. Each case is individually evaluated.

[T.D. ATF–379, 61 FR 31412, June 20, 1996, as amended by T.D. TTB–79, 74 FR 37402, July 28, 2009]

SPIRITS SUBJECT TO DRAWBACK

§ 17.151 Use of distilled spirits.

Distilled spirits are considered to have been used in the manufacture of a product under this part if the spirits are consumed in the manufacture, are

incorporated into the product, or are determined by TTB to have been otherwise utilized as an essential part of the manufacturing process. However, spirits lost by causes such as spillage, leakage, breakage or theft, and spirits used for purposes such as rinsing or cleaning a system, are not considered to have been used in the manufacture of a product.

§ 17.152 Time of use of spirits.

(a) *General.* Distilled spirits shall be considered used in the manufacture of a product as soon as that product contains all the ingredients called for by its formula.

(b) *Spirits used in an ion exchange column.* Distilled spirits used in recharging an ion exchange column, the operation of which is essential to the production of a product, shall be considered to be used when the spirits are entered into the manufacturing system in accordance with the product's formula.

(c) *Products requiring additional processing or treatment.* Further manipulation of a product, such as aging or filtering, subsequent to the mixing together of all of its ingredients, shall not postpone the time when spirits are considered used, as determined under paragraph (a) of this section. This is true even if at the time of use there has not yet been a final determination of alcoholic content by assay. If, however, it is later found necessary to add more distilled spirits to standardize the product, such added spirits shall be considered as used in the period during which they were added.

(d) *Nonbeverage products used to manufacture other products.* Nonbeverage products may be used to manufacture other nonbeverage (or intermediate) products. However, such subsequent usage of a nonbeverage product shall not affect the time when the distilled spirits contained therein are considered used. When distilled spirits are used in the manufacture of a nonbeverage product, the time of use shall be the point at which that product first contains all of its prescribed ingredients, and such use shall not be determined by the time of any subsequent usage of that product in another product.

§ 17.153 Recovered spirits.

(a) *Recovery from intermediate products.* Eligible spirits recovered in the manufacture of intermediate products are not subject to drawback until such recovered spirits are used in the manufacture of a nonbeverage product. (However, see § 17.127 with respect to optional treatment of ingredients as unfinished nonbeverage products, rather than as intermediate products.) Spirits recovered in the manufacture of intermediate products shall be reused only in the manufacture of intermediate or nonbeverage products.

(b) *Recovery from nonbeverage products.* Distilled spirits recovered in the manufacture of a nonbeverage product are considered as having been used in the manufacture of that product. If the spirits were eligible when so used, they became subject to drawback at that time. Upon recovery, such spirits may be reused in the manufacture of nonbeverage products, but shall not be reused for any other purpose. When reused, such recovered spirits are not again eligible for drawback and shall not be used in the manufacture of intermediate products.

(c) *Cross references.* For additional provisions respecting the recovery of distilled spirits and related recordkeeping requirements, see §§ 17.168 and 17.183.

§ 17.154 Spirits contained in intermediate products.

Spirits contained in an intermediate product are not subject to drawback until that intermediate product is used in the manufacture of a nonbeverage product.

§ 17.155 Spirits consumed in manufacturing intermediate products.

Spirits consumed in the manufacture of an intermediate product—which are not contained in the intermediate product at the time of its use in nonbeverage products—are not subject to drawback. Such spirits are not considered to have been used in the manufacture of nonbeverage products. However, see § 17.127 with respect to optional treatment of ingredients as unfinished nonbeverage products, rather than as intermediate products.

Subpart H—Records

§ 17.161 General.

Each person claiming drawback on taxpaid distilled spirits used in the manufacture of nonbeverage products shall maintain records showing the information required in this subpart. No particular form is prescribed for these records, but the data required to be shown shall be clearly recorded and organized to enable appropriate TTB officers to trace each operation or transaction, monitor compliance with law and regulations, and verify the accuracy of each claim. Ordinary business records, including invoices and cost accounting records, are acceptable if they show the required information or are annotated to show any such information that is lacking. The records shall be kept complete and current at all times and shall be retained by the manufacturer at the place where the taxpaid distilled spirits are used in the manufacture or production of nonbeverage products, for the period prescribed in §17.170.

[T.D. ATF–379, 61 FR 31412, June 20, 1996, as amended by T.D. TTB–79, 74 FR 37402, July 28, 2009]

§ 17.162 Receipt of distilled spirits.

(a) *Distilled spirits received in tank cars, tank trucks, barrels, or drums.* For distilled spirits received in tank cars, tank trucks, barrels, or drums, the manufacturer shall record, with respect to each shipment received—

(1) The date of receipt;

(2) The name and address of the person from whom received;

(3) The serial number or other identification mark (if any) of each tank car, tank truck, barrel, or drum;

(4) The name of the producer or warehouseman who paid or determined the tax;

(5) The effective tax rate (if other than the rate prescribed by 26 U.S.C. 5001); and

(6) The kind, quantity, and proof (or alcohol percentage by volume) of the spirits.

(b) *Distilled spirits received in bottles.* For distilled spirits received in bottles, the manufacturer shall record—

(1) The date of receipt;

(2) The name and address of the seller;

(3) The serial number of each case, if the bottles are received in cases;

(4) The name of the bottler;

(5) The effective tax rate (if other than the rate prescribed by 26 U.S.C. 5001); and

(6) The kind, quantity, and proof (or alcohol percentage by volume) of the spirits.

(c) *Distilled spirits received by pipeline.* For distilled spirits received by pipeline, the manufacturer shall record—

(1) The date of receipt;

(2) The name of the producer or warehouseman who paid or determined the tax;

(3) The effective tax rate (if other than the rate prescribed by 26 U.S.C. 5001); and

(4) The kind, quantity, and proof (or alcohol percentage by volume) of the spirits.

(d) *Determination of quantity.* At the time of receipt, each manufacturer shall determine (preferably by weight) and record the exact number of proof gallons of distilled spirits received. The amount received in bottles may be determined by the required statements on the labels. The amount received in sealed drums with no evidence of leakage may be determined from the record of shipment, which is required by §19.780 of this chapter to accompany spirits received from a distilled spirits plant. If spirits are received in a tank car or tank truck, and the result of the manufacturer's gauge of the spirits is within 0.2 percent of the number of proof gallons reported on the record of shipment required by §19.780, then the number of proof gallons reported on that record may be recorded as the quantity received. Nevertheless, the receiving gauge shall be noted on the record of receipt. If, for any shipment, the amount recorded in the manufacturer's records as the quantity received is greater than the amount shown as taxpaid on the record required by §19.780, a deduction equivalent to the excess shall be made from the amount of drawback claimed in the manufacturer's claim covering that period. If no claim is filed for that period, then the deduction shall be made in the manufacturer's next claim. Losses in

transit that exceed the 0.2 percent limitation provided in this paragraph shall be determined and noted on the record of receipt. Such losses shall not be recorded as distilled spirits received.

(e) *Receipt of imported rum, or spirits from Puerto Rico or the Virgin Islands.* If spirits are received which contain at least 92% rum, and which originate from Puerto Rico or the U.S. Virgin Islands, the record of receipt shall indicate the place of origin. If rum is received, the record shall indicate whether it is from Puerto Rico, from the U.S. Virgin Islands, imported from other countries, or domestic.

(f) *Shipments from distilled spirits plants.* If spirits are received directly from the distilled spirits plant that paid or determined the tax, the manufacturer shall retain the record of shipment required by §19.780 of this chapter. To the extent that the information on that record duplicates the requirements of this section, retention of that record shall satisfy those requirements. If there are differences between the information on the record of shipment and the information required to be recorded by this section, the requirements of this section may be met by appropriate annotations on the record of shipment.

EFFECTIVE DATE NOTE: By T.D. TTB–92, 76 FR 9090, Feb. 16, 2011, in §17.162, paragraphs (d) and (f) were amended by removing the references to ''§19.780'' and adding, in their place, references to ''§19.626'', effective April 18, 2011.

§ 17.163 Evidence of taxpayment of distilled spirits.

(a) *Shipments from distilled spirits plants.* For each shipment of taxpaid spirits from the bonded premises of a distilled spirits plant, the manufacturer shall obtain the record of shipment prepared by the supplier under §19.780 of this chapter. This record shall be retained with the commercial invoice (if the latter is a separate document) as evidence of taxpayment of the spirits. The record shall show the effective tax rate(s) (if other than the rate prescribed by 26 U.S.C. 5001) applicable to the shipment.

(b) *Purchases from wholesale and retail liquor dealers.* Manufacturers shall obtain commercial invoices or other documentation pertaining to purchases of distilled spirits from wholesale and retail liquor dealers (including such dealership operations when conducted in conjunction with a distilled spirits plant). For spirits other than alcohol, grain spirits, neutral spirits, distilled gin, or straight whisky (as defined in the standards of identity prescribed by §5.22 of this chapter), the manufacturer of nonbeverage products shall obtain evidence, from the producer or bottler of the spirits, as to the effective tax rate paid thereon.

(c) *Imported spirits.* For imported spirits that were taxpaid through Customs, evidence of such taxpayment (such as Customs Forms 7501 and 7505, receipted to indicate payment of tax, and the certificate of effective tax rate computation, if applicable) shall be secured from the importer and retained by the manufacturer.

(d) *Evidence of effective tax rate.* If the evidence of effective tax rate, required by this section for distilled spirits products that may contain wine or flavors, is not obtained, drawback shall only be allowed based on the lowest effective tax rate possible for the kind of distilled spirits product used.

EFFECTIVE DATE NOTE: By T.D. TTB–91, 76 FR 9090, Feb. 16, 2011, in §17.163, paragraph (a) was amended by removing the reference to ''§19.780'' and adding, in its place, a reference to ''§19.626'', effective April 18, 2011.

§ 17.164 Production record.

(a) *General.* Each manufacturer shall keep a production record for each batch of intermediate product and for each batch of nonbeverage product. The production record shall be an original record made at the time of production by a person (or persons) having actual knowledge thereof. If any product is produced by a continuous process rather than by batches, the production record shall pertain to the total quantity of that product produced during each claim period.

(b) *Information to be shown.* The record shall show the name and formula number of the product, the actual quantities of all ingredients used in the manufacture of the batch (including the proof or alcohol percentage by volume of all spirits), the date when eligible spirits were considered used (see

§17.152), the effective tax rate applicable to those spirits (if other than the rate prescribed by 26 U.S.C. 5001), and the quantity of product produced. The alcohol content of the product shall be shown if a test of alcohol content was made (see paragraph (e) of this section). Usage of eligible and ineligible spirits shall be shown separately. If spirits from Puerto Rico or the U.S. Virgin Islands, containing at least 92% rum, were used, the record shall indicate their place of origin. If rum was used, the record shall indicate whether it was from Puerto Rico, from the U.S. Virgin Islands, imported from other countries, or domestic. If spirits were recovered, the production record shall so indicate, and the record required by §17.168 shall be kept. If drawback is claimed on spirits consumed as an essential part of the manufacture of a nonbeverage product, which were not contained in that product at its completion, then the production record shall show the quantity of spirits so consumed in the manufacture of each batch.

(c) *Specificity of information.* The production record shall refer to ingredients by the same names as are used for them in the product's formula. This includes formulas submitted to TTB and formulas contained in the publications listed in §17.132. Other names for the ingredients may be added in the production record, if necessary for the manufacturer's operations. Usage of ingredients (including spirits) may be shown in units of weight or volume.

(d) *Determining quantity of distilled spirits used.* Each manufacturer shall accurately determine, by weight or volume, and record in the production records the quantity of all distilled spirits used. When the quantity used is determined by volume, adjustments shall be made if the temperature of the spirits is above or below 60 degrees Fahrenheit. A table for correction of volume of spirituous liquors to 60 degrees Fahrenheit, Table 7 of the ''Gauging Manual,'' is available. See subpart E of part 30 of this chapter and §30.67. Losses after receipt due to leakage, spillage, evaporation, or other causes not essential to the manufacturing process shall be accurately recorded in the manufacturer's permanent records at the time such losses are determined.

(e) *Tests of alcohol content.* At representative intervals, the manufacturer shall verify the alcohol content of nonbeverage products. The results of such tests shall be recorded.

§17.165 Receipt of raw ingredients.

For raw ingredients destined to be used in nonbeverage or intermediate products, the manufacturer shall record, for each shipment received—

(a) The date of receipt;

(b) The quantity received; and

(c) The identity of the supplier.

§17.166 Disposition of nonbeverage products.

(a) *Shipments.* For each shipment of nonbeverage products, the manufacturer shall record—

(1) The formula number of the product;

(2) The date of shipment;

(3) The quantity shipped; and

(4) The identity of the consignee.

(b) *Other disposition.* For other dispositions of nonbeverage products, the manufacturer shall record—

(1) The type of disposition;

(2) The date of disposition; and

(3) The quantity of each product so disposed of.

(c) *Exception.* The manufacturer need not keep the records required by paragraphs (a) and (b) of this section for any nonbeverage product which either contains less than 3 percent of distilled spirits by volume, or is sold by the producer directly to the consumer in retail quantities. However, when needed for protection of the revenue, the appropriate TTB officer may at any time require the keeping of these records upon giving at least five days' notice to the manufacturer.

§17.167 Inventories.

(a) *Distilled spirits.* The ''on hand'' figures reported in Part II of TTB Form 5154.2 shall be verified by physical inventories taken as of the end of each quarter in which nonbeverage products were manufactured for purposes of drawback. Spirits taxpaid at different effective tax rates shall be inventoried separately. The inventory record shall show the date inventory was taken, the

person(s) by whom it was taken, subtotals for each product inventoried, and any gains or losses disclosed; and shall be retained with the manufacturer's records. The manufacturer shall explain in Part IV of the supporting data (Form 5154.2) any discrepancy between the amounts on hand as disclosed by physical inventory and the amounts indicated by the manufacturer's records. Any gain in eligible spirits disclosed by inventory requires an equivalent deduction from the claim with which the inventory is reported. Gains shall not be offset by known losses. If no claim is filed for a quarter (nor for any monthly period therein), then no physical inventory is required for that quarter.

(b) *Raw ingredients and nonbeverage products.* When necessary for ensuring compliance with regulations and protection of the revenue, the appropriate TTB officer may require a manufacturer to take physical inventories of finished nonbeverage products, and/or raw ingredients intended for use in the manufacture of nonbeverage or intermediate products. The results of such inventories shall be recorded in the manufacturer's records. Any discrepancy between the amounts on hand as disclosed by physical inventory and such amounts as indicated by the manufacturer's records shall also be recorded with an explanation of its cause.

§ 17.168 Recovered spirits.

(a) Each manufacturer intending to recover distilled spirits under the provisions of this part shall first notify the appropriate TTB officer. Any apparatus used to separate alcohol is subject to the registration requirements of 26 U.S.C. 5179 and subpart C of part 29 of this chapter. Recovery operations may only be conducted on the premises where the recovered spirits were used in the manufacture or production of nonbeverage or intermediate products.

(b) The manufacturer shall keep a record of the distilled spirits recovered and the subsequent use to which such spirits are put. The record shall show—

(1) The date of recovery;

(2) The commodity or process from which the spirits were recovered;

(3) The amount in proof gallons, or by weight and proof (or alcohol percentage by volume) of distilled spirits recovered;

(4) The amount in proof gallons, or by weight and proof (or alcohol percentage by volume) of recovered distilled spirits reused;

(5) The commodity in which the recovered distilled spirits were reused; and

(6) The date of reuse.

(c) Whenever recovered spirits are destroyed (see § 17.183), the record shall further show—

(1) The reason for the destruction;

(2) The date, time, location, and manner of destruction;

(3) The number of proof gallons destroyed; and

(4) The name of the individual who accomplished or supervised the destruction.

[T.D. ATF–379, 61 FR 31412, June 20, 1996, as amended by T.D. ATF–462, 66 FR 42736, Aug. 15, 2001; T.D. TTB–79, 74 FR 37402, July 28, 2009]

§ 17.169 Transfer of intermediate products.

When intermediate products are transferred as permitted by § 17.185(b), supporting records of such transfers shall be kept at the shipping and receiving plants, showing the date and quantity of each product transferred.

§ 17.170 Retention of records.

Each manufacturer shall retain for a period of not less than 3 years all records required by this part, a copy of all claims and supporting data filed in support thereof, all commercial invoices or other documents evidencing taxpayment or tax-determination of domestic spirits, all documents evidencing taxpayment of imported spirits, and all bills of lading received which pertain to shipments of spirits. In addition, a copy of each formula submitted on TTB Form 5154.1 shall be retained at each factory where the formula is used, for not less than 3 years from the date of filing of the last claim for drawback under the formula. A copy of an approval to use an alternate method or procedure shall be retained as long as the manufacturer employs the method or procedure, and for 3

years thereafter. Further, the appropriate TTB officer may require these records, forms, and documents to be retained for an additional period of not more than 3 years in any case where he or she deems such retention to be necessary or advisable for protection of the revenue.

§ 17.171 Inspection of records.

All of the records, forms, and documents required to be retained by § 17.170 shall be kept at the premises where distilled spirits are used in the manufacture or production of nonbeverage products and shall be readily available during the manufacturer's regular business hours for examination and copying by the appropriate TTB officers. At the same time, any other books, papers, records or memoranda in the possession of the manufacturer, which have a bearing upon the matters required to be alleged in a claim for drawback, shall be available for inspection by appropriate TTB officers.

Subpart I—Miscellaneous Provisions

§ 17.181 Exportation of medicinal preparations and flavoring extracts.

Medicinal preparations and flavoring extracts, approved for drawback under the provisions of this part, may be exported subject to 19 U.S.C. 1313(d), which authorizes export drawback equal to the entire amount of internal revenue tax found to have been paid on the domestic alcohol used in the manufacture of such products. (Note: Export drawback is not allowed for imported alcohol under this provision of customs law.) Claims for such export drawback shall be filed in accordance with the applicable regulations of the U.S. Customs Service. Such claims may cover either the full rate of tax which has been paid on the alcohol, if no nonbeverage drawback has been claimed thereon, or else the remainder of the tax if nonbeverage drawback under 26 U.S.C. 5114 has been or will be claimed.

[T.D. ATF–379, 61 FR 31412, June 20, 1996, as amended by T.D. TTB–79, 74 FR 37402, July 28, 2009]

§ 17.182 Drawback claims by druggists.

Drawback of tax under 26 U.S.C. 5114 is allowable on taxpaid distilled spirits used by druggists in compounding prescriptions. The prescriptions so compounded shall be shown in the supporting data by listing the first and last serial numbers thereof. The amount of taxpaid spirits used in each prescription need not be shown, but such prescriptions shall be made available for examination by appropriate TTB officers. If refills have been made of prescriptions received in a previous claim period, their serial numbers shall be recorded separately. Druggists claiming drawback as authorized by this section are subject to all the applicable requirements of this part, except those requiring the filing of quantitative formulas.

[T.D. ATF–379, 61 FR 31412, June 20, 1996, as amended by T.D. TTB–79, 74 FR 37402, July 28, 2009]

§ 17.183 Disposition of recovered alcohol and material from which alcohol can be recovered.

(a) *Recovered alcohol.* Manufacturers of nonbeverage products shall not sell or transfer recovered spirits to any other premises without TTB authorization under § 17.3. If recovered spirits are stored pending reuse, storage facilities shall be adequate to protect the revenue. If recovered spirits are destroyed, the record required by § 17.168(c) must be kept. Spirits recovered from intermediate products may be destroyed without notice to TTB. Spirits recovered from nonbeverage products may be destroyed pursuant to a notice filed with the appropriate TTB officer at least 12 days prior to the date of destruction. The notice shall state the reason for the destruction, the intended date of destruction, and the approximate quantity involved. The appropriate TTB officer may impose specific conditions, including requiring that the destruction be witnessed by an

appropriate TTB. Unless the manufacturer is otherwise advised by the appropriate TTB officer before the date specified in the notice, the destruction may proceed as planned.

(b) *By-product material (general).* By-product material from which alcohol can be recovered shall not be sold or transferred unless the alcohol has been removed or an approved substance has been added to prevent recovery of residual alcohol. Material from which alcohol can be recovered may also be destroyed on the manufacturer's premises by a suitable method. Except as provided in paragraph (c) of this section, prior written approval shall be obtained from the appropriate TTB officer as to the adequacy, under this section, of any substance proposed to be added to prevent recovery of alcohol, or of any proposed method of destruction.

(c) *Spent vanilla beans.* Specific approval from the appropriate TTB officer is not required when spent vanilla beans containing residual alcohol are destroyed on the manufacturer's premises by burning, or when they are removed from those premises after treatment with sufficient kerosene, mineral spirits, rubber hydrocarbon solvent, or gasoline to prevent recovery of residual alcohol.

§ 17.184 Distilled spirits container marks.

All marks required by Part 19 of this chapter shall remain on containers of taxpaid distilled spirits until the contents are emptied. Whenever such a container is emptied, such marks shall be completely obliterated.

(Sec. 454, Pub. L. 98–369, 98 Stat. 820 (26 U.S.C. 5206(d)))

§ 17.185 Requirements for intermediate products and unfinished nonbeverage products.

(a) *General.* Self-manufactured ingredients made with taxpaid spirits may be accounted for either as intermediate products or as unfinished nonbeverage products. The manufacturer may choose either method of accounting for such self-manufactured ingredients (see § 17.127). However, the method selected determines the requirements that will apply to those ingredients, as prescribed in paragraphs (b) and (c) of this section.

(b) *Intermediate products.* Intermediate products shall be used exclusively in the manufacture of nonbeverage products. Intermediate products may be accumulated and stored indefinitely and may be used in any nonbeverage product whose formula calls for such use. Intermediate products shall be manufactured by the same entity that manufactures the finished nonbeverage products. Intermediate products shall not be sold or transferred between separate and distinct entities. However, they may be transferred to another branch or plant of the same manufacturer, for use there in the manufacture of approved nonbeverage products. (See § 17.169 for recordkeeping requirement.) For the purposes of this section, the phrase ''separate and distinct entities'' includes parent and subsidiary corporations, regardless of any corporate (or other) relationship, and even if the stock of both the manufacturing firm and the receiving firm is owned by the same persons.

(c) *Unfinished nonbeverage products.* An unfinished nonbeverage product shall only be used in the particular nonbeverage product for which it was manufactured, and shall be entirely so used within the time limit stated in the approved TTB Form 5154.1. Spirits dissipated or recovered in the manufacture of unfinished nonbeverage products shall be regarded as having been dissipated or recovered in the manufacture of nonbeverage products. Spirits contained in such unfinished products shall be accounted for in the supporting data under § 17.147 and inventoried under § 17.167 as ''in process'' in nonbeverage products. Production of unfinished nonbeverage products shall be recorded as an integral part of the production records for the related nonbeverage products. Unfinished nonbeverage products shall not be transferred to other premises.

§ 17.186 Transfer of distilled spirits to other containers.

A manufacturer may transfer taxpaid distilled spirits from the original package to other containers at any time for the purpose of facilitating the manufacture of products unfit for beverage

use. Containers into which distilled spirits have been transferred under this section shall bear a label identifying their contents as taxpaid distilled spirits, and shall be marked with the serial number of the original package from which the spirits were withdrawn.

§ 17.187 Discontinuance of business.

(c) *Rendering concentrate unfit for beverage use.* Concentrate may be rendered unfit for beverage use by reducing the alcohol content to not more than 15 percent alcohol by volume (if the reduction does not result in a concentrate of less than 100-fold), and adding to each gallon thereof, in a quantity sufficient to render the concentrate unfit for beverage use, the following:

(1) Sucrose; or

(2) Concentrated fruit juice, of at least 70 Brix, made from the same kind of fruit as the concentrate; or

(3) Malic, citric, or tartaric acid.

TTB will determine whether the product is unfit for beverage use and whether manufacture of the product is exempt from qualification requirements.

(d) *Change of formula.* If TTB finds that a product manufactured under paragraph (a) of this section is being used for beverage purposes, or for mixing with beverage spirits other than by a processor, TTB will notify the manufacturer to stop manufacturing the product until the formula is changed to make the product unfit for beverage use and the change is approved by the appropriate TTB officer. However, the provisions of this paragraph will not prohibit products which are unfit for

beverage use from use in small quantities for flavoring drinks at the time of serving for immediate consumption.

Subpart B—Administrative and Miscellaneous Provisions

§ 19.11 Right of entry and examination.

A TTB officer may enter any distilled spirits plant, any other premises where distilled spirits operations are carried on, or any structure or place used in connection with distilled spirits operations, at any time of day or night. A TTB officer may examine materials, equipment, and facilities, and make any gauges and inventories. Whenever a TTB officer states his or her name and office and demands admittance but is not admitted into the premises or place, the TTB officer is authorized to use all necessary force to gain entry.

(26 U.S.C. 5203)

§ 19.12 Furnishing facilities and assistance.

The proprietor is required to provide TTB officers with the necessary facilities and assistance in order to gauge spirits in any container, or to examine any apparatus, equipment, containers, or materials, at the distilled spirits plant. Also, when requested by a TTB officer, the proprietor must:

(a) Open any doors and open for examination any containers on the plant premises; and

(b) Provide the exact locations (including the number of containers at each location) of all packages and similar portable approved containers within a given lot and the locations (that is, buildings, rooms, or areas) where spirits in cases are stored.

(26 U.S.C. 5202, 5203)

§ 19.13 Assignment of officers and supervision of operations.

(a) *General.* TTB may assign TTB officers to a distilled spirits plant and utilize controls, such as Government locks and seals, if TTB decides that those measures are necessary to effectively supervise the operations. If TTB decides that such supervision is necessary:

(1) The proprietor must obtain approval of the plant's hours of operations from the appropriate TTB officer;

(2) TTB may require the proprietor to submit a schedule of operations to a TTB officer; and

(3) TTB may require the proprietor to delay any distilled spirits operation until the proprietor can conduct it in the presence of a TTB officer.

(b) *Notification of supervision.* If TTB determines that supervision of plant operations is necessary, TTB will notify the proprietor of the extent to which TTB intends to supervise those operations. If TTB determines later that TTB supervision is no longer necessary, the appropriate TTB officer will notify the proprietor of that fact.

(26 U.S.C. 5201, 5202, 5553)

§ 19.14 Delegation of the Administrator's authorities to the appropriate TTB officer.

Most of the regulatory authorities of the Administrator contained in this part are delegated to appropriate TTB officers. These TTB officers are specified in TTB Order 1135.19, Delegation of the Administrator's Authorities in 27 CFR Part 19, Distilled Spirits Plants. Interested persons may obtain a copy of this order by accessing the TTB Web site (*http://www.ttb.gov*) or by mailing a request to the Alcohol and Tobacco Tax and Trade Bureau, National Revenue Center, 550 Main Street, Room 1516, Cincinnati, OH 45202.

§ 19.15 Forms prescribed.

(a) TTB prescribes and makes available all forms required by this part. Persons completing forms must furnish all of the information required by each form, as indicated by the headings and instructions on the form or as required by these regulations. Each form must be filed in accordance with this part and the instructions for the form.

(b) Persons may obtain TTB forms by accessing the TTB Web site (*http://www.ttb.gov*) or by mailing a request to the TTB National Revenue Center, 550 Main Street, Suite 8002, Cincinnati, Ohio 45202.

(26 U.S.C. 5207)

§ 19.16 Modified forms.

If a proprietor wishes to modify a form prescribed by these regulations, the proprietor must submit an application for approval of an alternate method or procedure (see §§ 19.26 and 19.27) to the appropriate TTB officer. The proprietor may not use a modified form until TTB approves the application. The application to modify a form must be accompanied by:

(a) A copy of each proposed form with typical entries; and

(b) A statement explaining the need to use a modified form.

(26 U.S.C. 5207)

§ 19.17 Detention of containers.

(a) *General.* A TTB officer may detain any container containing, or supposed to contain, spirits when the appropriate TTB officer believes that the required tax on those spirits has not been paid or determined or that the removal of the container is in violation of law or the provisions of this part. The appropriate TTB officer will hold the container at a safe place until it is determined whether the detained property is subject to forfeiture.

(b) *Limitation.* A detention under paragraph (a) of this section may not exceed 72 hours without process of law or intervention of the appropriate TTB officer. However, the detained container may be kept on the premises beyond the 72-hour period without process of law or intervention if the person possessing the container immediately before its detention executes a waiver of this 72-hour limitation on detention of the container.

(26 U.S.C. 5311)

§ 19.18 Samples for the United States.

TTB officers are authorized to take samples of spirits, denatured spirits, articles, wines, or other materials from a distilled spirits plant for analysis, testing, or to determine whether the product complies with the law and regulations. When TTB removes a sample from a plant, TTB will give the proprietor a receipt for the sample.

(26 U.S.C. 5201, 5203, 5214, 5362)

§ 19.19 Discontinuance of storage facilities.

If TTB determines that a proprietor's bonded storage facility for spirits is unsafe or unfit for use, or causes excessive waste or loss of spirits, TTB can require that the proprietor discontinue using the facility. Further, TTB can require the transfer of the spirits stored in the facility to another storage facility. The transfer will take place at such time and under such supervision as TTB may require, and will be at the expense of the owner or warehouseman of the spirits. If the owner or warehouseman fails to transfer the spirits within the prescribed time or to pay the expense of the transfer, as ascertained and determined by the appropriate TTB officer, the spirits may be seized and sold. TTB will first apply the proceeds of such sale to the payment of the taxes due on the spirits and then to the cost and expense of the sale and removal, and the remaining balance, if any, will be paid over to the owner or warehouseman.

(26 U.S.C. 5236)

§ 19.20 Installation of meters, tanks, and other apparatus.

The appropriate TTB officer may require the proprietor to install meters, tanks, pipes, or any other apparatus at the proprietor's plant if that officer decides that the equipment is necessary for the protection of the revenue. If the proprietor refuses or fails to install any such apparatus when instructed to do so, the proprietor will not be permitted to conduct business as a distilled spirits plant.

(26 U.S.C. 5552)

ALTERNATE METHODS OR PROCEDURES AND EXPERIMENTAL OPERATIONS

§ 19.26 Alternate methods or procedures.

(a) *General.* The appropriate TTB officer may approve the use of an alternate method or procedure that varies from the regulatory requirements in this part if the proprietor shows good cause for its use and the alternate method or procedure:

(1) Is not contrary to law;

(2) Will not have the effect of waiving an existing regulatory requirement;

(3) Is consistent with the purpose and effect of the method or procedure prescribed in this part;

(4) Provides equal security to the revenue; and

(5) Will not cause an increase in cost to the Government and will not hinder TTB's administration of this part.

(b) *Exceptions.* TTB will not authorize the use of an alternate method or procedure relating to the giving of any bond, or to the assessment, payment, or collection of tax.

(c) *Prior approvals.* Alternate methods or procedures in effect prior to April 18, 2011, which are not contrary to the regulations in this part, are preserved until renewed unless revoked by operation of law due to the enactment of law that is contrary to the alternate method or procedure.

(26 U.S.C. 5552, 5556)

§ 19.27 Application for and use of alternate method or procedure.

(a) *Application.* If a proprietor wishes to use an alternate method or procedure as described in § 19.26, the proprietor must submit a written letterhead application to the appropriate TTB officer for approval. The application must identify the method or procedure specified in the regulation, must describe the proposed alternate method or procedure in detail, and must explain why the alternate method or procedure is needed.

(b) *Approval and use.* The proprietor may not use an alternate method or procedure until the appropriate TTB officer has in writing approved the proprietor's application. During the period that the proprietor is authorized to use the alternate method or procedure, the proprietor must comply with any conditions imposed on its use by TTB. TTB may withdraw the approval to use the alternate method or procedure if TTB finds that the revenue is jeopardized, that the alternate method or procedure hinders effective administration of the laws or regulations, that the proprietor has violated any of the conditions imposed by TTB, or that the circumstances that gave rise to the need for the alternate method or procedure no longer exist.

(c) *Retention.* The proprietor must retain each alternate method or procedure approval as part of the proprietor's records and must make the approval available for examination by TTB officers upon request.

(26 U.S.C. 5552, 5556)

§ 19.28 Emergency variations from requirements.

(a) *Application.* A proprietor may request emergency approval of the use of a method or procedure relating to construction, equipment, and methods of operation that represents a variance from the requirements of this part. When a proprietor wishes to use an emergency method or procedure, the proprietor must submit a written letterhead application to the appropriate TTB officer for approval; the proprietor may send the application via regular mail, email, or facsimile transmission. The application must describe the proposed emergency method or procedure and the emergency situation it will address. For purposes of this section, an emergency is considered to exist only if it results from a weather or other natural event or from an accident or other event not involving an intentional act on the part of the proprietor.

(b) *Approval.* The appropriate TTB officer may approve in writing the use of an emergency method or procedure if the proprietor demonstrates that an emergency exists and the proposed method or procedure:

(1) Is not contrary to law;

(2) Is necessary to address the emergency situation;

(3) Will afford the same security and protection to the revenue as intended by the regulations; and

(4) Will not hinder the effective administration of this subpart.

(c) *Terms of emergency method or procedure approval and use.* (1) The proprietor may not use an emergency method or procedure until the application has been approved by TTB except when the emergency method or procedure requires immediate implementation to correct a situation that threatens life or property. In a situation involving a threat to life or property, the proprietor may implement the corrective action while concurrently notifying the appropriate TTB officer by telephone

of the action and filing the required written application. Use of the emergency method or procedure must conform to any conditions specified in the approval.

(2) The proprietor must retain the emergency method or procedure approval as part of the proprietor's records and must make the approval available for examination by TTB officers upon request.

(3) The emergency method or procedure will automatically terminate when the situation that created the emergency no longer exists. TTB may withdraw the approval to use the emergency method or procedure if TTB finds that the revenue is jeopardized, that the emergency method or procedure hinders effective administration of the laws or regulations, or that the proprietor has failed to follow any of the conditions specified in the approval. When use of the emergency method or procedure terminates, the proprietor must revert to full compliance with all applicable regulations.

(26 U.S.C. 5178, 5556)

§ 19.29 Exemptions for national defense and disasters.

Whenever TTB finds it is necessary to meet the requirements of national defense or necessary or desirable by reason of disaster, TTB may temporarily exempt the proprietor from any provisions of the internal revenue laws and the provisions of this part relating to distilled spirits, except those requiring the payment of tax.

(26 U.S.C. 5561, 5562)

§ 19.31 Pilot operations.

Except for the filing of any bond or the payment of any tax provided for in 26 U.S.C. chapter 51, TTB may waive any regulatory provision in this part for temporary pilot or experimental operations for the purpose of facilitating the development and testing of improved methods of governmental supervision (necessary for the protection of the revenue) over plants. For this purpose, the appropriate TTB officer may, with the approval of the proprietor thereof, designate any plant for such operations. Any waiver granted under this section must be in writing and signed by the appropriate TTB officer. The waiver will identify the provisions of law and/or regulations waived and the period of time during which the waiver will be effective. The appropriate TTB officer may terminate the waiver if he or she determines that the waiver jeopardizes the revenue.

(26 U.S.C. 5554)

§ 19.32 Experimental distilled spirits plants.

(a) *General.* The appropriate TTB officer may authorize the establishment and operation of experimental plants for specific and limited periods of time solely for experimentation in, or development of:

(1) Sources of materials from which spirits may be produced;

(2) Processes by which spirits may be produced or refined; or

(3) Industrial uses of spirits.

(b) *Waiver.* The appropriate TTB officer may waive any provision of 26 U.S.C. chapter 51 (other than 26 U.S.C. 5312) and of this part (other than § 19.33) to the extent necessary to effectuate the purposes of 26 U.S.C. 5312(b) as outlined in paragraph (a) of this section. However, TTB will not waive the payment of any tax on spirits removed from an experimental plant.

(26 U.S.C. 5312)

§ 19.33 Application to establish experimental plants.

(a) *Application requirements.* Any person who wishes to establish an experimental plant for the purposes specified in § 19.32 must submit a written application to the appropriate TTB officer and obtain approval of the proposed experimental plant. The application must:

(1) State the nature, extent, and purpose of the operations to be conducted;

(2) Describe the operations and equipment;

(3) Describe the location of the plant (including the proximity to other premises or operations subject to the provisions of 26 U.S.C. chapter 51); and

(4) Describe the security measures to be provided.

(b) *Bond.* The applicant must file a bond with the application in such form

and penal sum as required by the appropriate TTB officer.

(c) *Approval of application.* Before approving the application, the appropriate TTB officer may require that the applicant submit additional information if necessary. TTB will not approve the application and permit operations until the plant conforms to the specifications stated in the application and the applicant complies with provisions of 26 U.S.C. chapter 51 and with any provisions in this part that are not specifically waived.

(26 U.S.C. 5312)

§ 19.34 Experimental or research operations by scientific institutions and colleges of learning.

(a) *General.* The appropriate TTB officer may authorize any scientific university, college of learning, or institution of scientific research to produce, receive, blend, treat, test, and store spirits, without payment of tax, for experimental or research use but not for consumption (other than in organoleptic tests) or sale, in quantities as may be reasonably necessary for those purposes.

(b) *Waiver.* For purposes of this section, the appropriate TTB officer may waive any provision of 26 U.S.C. chapter 51 (other than 26 U.S.C. 5312) or this part (other than this section and § 19.35) to the extent necessary to effect the purposes of 26 U.S.C. 5312(a). However, TTB will not waive the payment of any tax on distilled spirits removed from any university, college, or institution.

(26 U.S.C. 5312)

§ 19.35 Application by scientific institutions and colleges of learning for experimental or research operations.

(a) *Application requirements.* A university, college, or scientific institution that wants to conduct any of the experimental or research operations mentioned in § 19.34, must submit a written application to the appropriate TTB officer and obtain approval for the proposed operations. The application may be submitted on letterhead. The application must:

(1) State the nature, extent, and purpose of the operations to be conducted;

(2) Describe the operations and equipment;

(3) Describe the location where the operations will be conducted (including identification of the building or buildings, or the portions thereof to be used); and

(4) Describe the security measures to be provided.

(b) *Bond.* The applicant must file a bond with the application in such form and amount as required by the appropriate TTB officer.

(c) *Approval of application.* Before approving the application, the appropriate TTB officer may require that the applicant submit additional information. The applicant may not commence operations until authorized by the appropriate TTB officer.

(d) *Records and reports.* Any university, college, or institution authorized to conduct experimental or research operations must maintain records of the quantities of spirits produced, received, and used each day and must make these records available for inspection by TTB officers. Universities, colleges, or institutions authorized to conduct experimental or research operations are not required to submit reports of operations to TTB unless specifically required by the appropriate TTB officer.

(e) *Discontinuance of operations.* When operations authorized under this section are discontinued, the university, college, or institution must destroy all remaining spirits and notify the appropriate TTB officer that operations are discontinued.

(26 U.S.C. 5312)

§ 19.36 Spirits produced in industrial processes.

(a) *General.* Except as otherwise provided in paragraph (b) of this section, any person who produces distilled spirits in an industrial process, including spirits produced as a byproduct in connection with chemical or other processes, is considered to be a distiller and therefore is required to qualify such operations as a distilled spirits plant and is subject to the registration requirements under the provisions of 26 U.S.C. chapter 51 and this part.

(b) *Waiver.* TTB may waive application of any provision of 26 U.S.C. chapter 51, or of this part, involving the production of nonpotable chemical mixtures containing spirits, including any provision relating to qualification (except the dealer registration requirement) if the mixture is produced:

(1) For transfer to the bonded premises of a distilled spirits plant for completion of distilling; or

(2) As a byproduct which would require expensive and complex equipment for the recovery of spirits, and the mixture:

(i) Would be destroyed on the premises where produced; or

(ii) Would contain a minimum quantity of spirits, taking into account the procedure employed, would not be subjected to further operations solely for the purification or recovery of spirits, and would be found by TTB to be as nonpotable and as difficult to recover as completely denatured alcohol.

(26 U.S.C. 5201)

§ 19.37 Application for industrial processes waiver.

(a) *Application for waiver.* If the producer of a nonpotable chemical mixture containing spirits, as described in § 19.36, wishes to obtain a waiver from the provisions of 26 U.S.C. chapter 51, or of this part, the producer must submit a written waiver application to the appropriate TTB officer. The application must include the following information, as applicable:

(1) The name and address of the producer;

(2) Chemical composition and source of the nonpotable mixture;

(3) Approximate percentages of chemicals and spirits in the mixture;

(4) Method of operation proposed;

(5) Bonded premises where the mixture will be distilled; and

(6) Any other pertinent information required by the appropriate TTB officer.

(b) *Approval of waiver.* The appropriate TTB officer may approve the waiver if it will not jeopardize the revenue and will not hinder supervision of the operations. Approval of the application may be subject to such terms and conditions, and to the furnishing of any bond, that the appropriate TTB officer determines is necessary.

(26 U.S.C. 5201)

§ 19.38 Approval of required documents.

Except as otherwise provided in this part, the appropriate TTB officer is authorized to approve all documents, bonds, and consents of surety required by this part.

(26 U.S.C. 5171, 5172, 5173, and 5551)

"PENALTIES OF PERJURY" DECLARATION

§ 19.45 Execution under penalties of perjury.

(a) *Declaration.* When TTB requires under this part that a document be executed under penalties of perjury, the document must contain the following declaration:

> I declare under the penalties of perjury that this [insert type of document, such as report, or claim], including supporting documents, has been examined by me and, to the best of my knowledge and belief, is true, correct, and complete.

(b) *Signing.* The declaration in paragraph (a) of this section must bear the signature and title of the proprietor or a duly authorized representative.

(26 U.S.C. 6065)

Subpart C—Restrictions on Production, Location, and Use of Plants

§ 19.51 Home production of distilled spirits prohibited.

A person may not produce distilled spirits at home for personal use. Except as otherwise provided by law, distilled spirits may only be produced by a distilled spirits plant registered with TTB under the provisions of 26 U.S.C. 5171. All distilled spirits produced in the United States are subject to the tax imposed by 26 U.S.C. 5001.

(26 U.S.C. 5001, 5601, and 5602)

RULES FOR LOCATION AND USE OF A DSP

§ 19.52 Restrictions on location of plants.

A person who intends to establish a distilled spirits plant may not locate it in any of the following places:

(a) In any residence, shed, yard, or enclosure connected to a residence;

(b) On any vessel or boat;

(c) Where beer or wine is produced;

(d) Where liquors are sold at retail; or

(e) Where any other business is conducted except as provided in § 19.54.

(26 U.S.C. 5178)

§ 19.53 Continuity of plant premises.

As a general rule, the premises of a distilled spirits plant must be continuous except for separations by public waterways, roads, or carrier rights-of-way. However, the appropriate TTB officer may approve the registration of the plant where there are separations of the plant premises and all parts of the plant are in the same general location if:

(a) There is no jeopardy to revenue caused by the separation of premises; and

(b) The separation of premises does not create administrative problems for TTB.

(26 U.S.C. 5178)

§ 19.54 Use of distilled spirits plant premises.

(a) *General.* A person may not conduct any business or operation on the premises of a distilled spirits plant unless the business or operation is authorized by the notice of registration on file with TTB or authorized under § 19.55.

(b) *Bonded premises.* The proprietor must use the bonded premises of a distilled spirits plant exclusively for distilled spirits operations. The proprietor must store packaged spirits, cases of spirits, or portable containers of spirits in a room or building on bonded premises. TTB may approve another method of storage as an alternate method or procedure. However, the proprietor must apply for, and receive approval for another method of storage from the appropriate TTB officer in accordance with § 19.27 before using that method.

(c) *General premises.* General premises are any portion of the distilled spirits plant described in the notice of registration other than bonded premises. A person may not use the general premises of a distilled spirits plant for any operation required under the provisions of this part to be conducted on bonded premises.

(26 U.S.C. 5178)

§ 19.55 Other businesses.

(a) The appropriate TTB officer may authorize the conduct of a business other than that of a distiller, warehouseman, or processor on the premises of a distilled spirits plant if:

(1) The business is not prohibited by 26 U.S.C. 5601(a)(6);

(2) The business will not jeopardize the revenue;

(3) The business will not hinder TTB's effective administration of this part; and

(4) The business will not be contrary to law.

(b) A person who wishes to conduct another business at a distilled spirits plant must apply for such authorization in accordance with § 19.73(b) or §19.120(b) and receive approval from the appropriate TTB officer before operating the other business. The approval will specify whether the other business may be conducted on the bonded premises or on the general premises.

(26 U.S.C. 5178)

§ 19.56 Bonded warehouses not on premises qualified for production of spirits.

(a) *Criteria for establishment.* As a general rule, if a person intends to establish a bonded warehouse, other than one established on the bonded premises of a distilled spirits plant qualified for the production of spirits or contiguous to such premises, the proposed warehouse must have a minimum capacity of 250,000 wine gallons of bulk spirits and the need for such a warehouse must be clearly shown. TTB may consider an application to establish a bonded warehouse with less capacity provided a need is clearly shown.

(b) *Application.* The applicant must submit a separate written request along with the application for registration explaining the need for the bonded warehouse. TTB may approve the application for registration if:

(1) The proposed location for the warehouse will not jeopardize the revenue; and

(2) The applicant provides evidence showing sufficient need for establishing such a warehouse.

(c) *Special conditions.* Based on the application and request, TTB may limit the type of operations that may be conducted at the bonded warehouse. The proprietor of a warehouse approved for a limited type of operation may not expand or change the operation to include any other type of operation without application to and approval of the appropriate TTB officer.

(26 U.S.C. 5171 and 5178)

CONVEYANCE OF SPIRITS OR WINES ON PLANT PREMISES

§ 19.58 Taxpaid spirits or wines on bonded premises.

The proprietor may move tax paid or tax determined spirits or wines across bonded premises. However, tax paid or tax determined spirits or wines may not be stored or allowed to remain on the bonded premises. The proprietor must keep tax paid or tax determined spirits or wines separate from spirits or wines on which tax has not been paid or determined. Spirits returned to bonded premises under the provisions of 26 U.S.C. 5215 may remain on bonded premises.

(26 U.S.C. 5201 and 5612)

§ 19.59 Conveyance of untaxpaid spirits or wines within a distilled spirits plant.

(a) The proprietor may move untaxpaid spirits or wines:

(1) Between different portions of the bonded premises at the same distilled spirits plant or across any other premises of that plant;

(2) Over any public thoroughfare by uninterrupted transportation; or

(3) Over a private roadway by uninterrupted transportation. The owner or lessee of the private roadway must agree in writing to allow TTB officers access to the roadway to perform their duties.

(b) The conveyance of untaxpaid spirits or wines under paragraph (a) of this section is subject to the following conditions. The proprietor:

(1) May not store or allow the untaxpaid spirits or wines to remain on any premises other than the bonded premises;

(2) Must keep the untaxpaid spirits or wines separate from spirits on which the tax has been paid or determined;

(3) Must submit to the appropriate TTB officer a description of the means, route of the conveyance, and the areas of the distilled spirits plant, public thoroughfare or roadways across which spirits or wines will be conveyed, and a copy of any agreement with the owner or lessee of a private roadway. The appropriate TTB officer must approve the proposed means and route of conveyance and any agreement; and

(4) Must provide a consent of surety on the operations or unit bond (TTB Form 5000.18) extending the terms of the bond to cover the conveyance of the spirits or wines.

(26 U.S.C. 5201 and 5601)

§ 19.60 Spirits in customs custody.

A proprietor may move distilled spirits that are in customs custody across distilled spirits plant premises if the proprietor:

(a) Submits to the appropriate TTB officer a description of the means and route of the conveyance and the areas of the distilled spirits plant across which spirits will be conveyed and receives approval from the appropriate TTB officer for the method of movement;

(b) Does not store or allow the spirits to remain on the premises of the distilled spirits plant;

(c) Moves the spirits expeditiously, and keeps the spirits separate and apart from other spirits on the premises; and

(d) Provides a consent of surety on the operations or unit bond (TTB Form 5000.18) extending the terms of the bond to cover the conveyance of the spirits.

(26 U.S.C. 5201)

Subpart D—Registration of a Distilled Spirits Plant and Obtaining a Permit

§ 19.71 Registration and permits in general.

Except as otherwise provided in this part, a person may only conduct operations as a distiller, warehouseman, or processor of distilled spirits on the bonded premises of a distilled spirits plant. In order to establish a distilled spirits plant, a person must register the plant with TTB and obtain an operating permit and/or a basic permit. This subpart covers the requirements for registering a plant and obtaining an operating permit under the IRC. Part 1 of this chapter covers the requirements for obtaining a basic permit under the Federal Alcohol Administration Act.

(26 U.S.C. 5171)

REQUIREMENTS FOR REGISTERING A PLANT

§ 19.72 General requirements for registration.

(a) *Establishment.* A person who wishes to establish a distilled spirits plant must intend to conduct operations as a distiller, as a warehouseman, or both. A person cannot establish a distilled spirits plant solely for the processing of spirits.

(b) *Registration.* Before beginning operations as a distilled spirits plant, a person must submit an application for registration and receive approval from TTB. The following rules apply to an application for registration:

(1) The applicant must apply for registration on form TTB F 5110.41, Registration of Distilled Spirits Plant, and submit the application to the appropriate TTB officer;

(2) TTB will consider all written statements, affidavits, and other documents supporting the application as part of the application;

(3) If the appropriate TTB officer determines that the original application for registration cannot be approved because it contains incomplete or incorrect information, TTB may require that the applicant file an additional TTB F 5110.41, or submit other documentation to complete or correct the original application; and

(4) The applicant must file any additional forms or submit any other documentation within 60 days of the appropriate TTB officer's request.

(26 U.S.C. 5171, 5172)

(1) The serial number;

(2) The name, principal business address, and location of the distilled spirits plant if different from the applicant's business address;

(3) The operations that will be conducted;

(4) The purpose for filing the application;

(5) A statement describing the type of business organization and the persons involved in the business in accordance with §19.93. However, if any of this information is already on file with the appropriate TTB officer, the applicant may advise TTB that the information on file is part of the application for registration;

(6) A list of any operating permits, basic permits, operations bonds, withdrawal bonds, and/or unit bonds, including the amount of any bond(s) and the name of the surety on the bond;

If the change does not cause a change in control the proprietor:

Alternation of Plant Proprietors

§ 19.141 Procedures for alternation of proprietors.

(a) *General.* A proprietor may alternate use of a distilled spirits plant or part of the plant with one or more other proprietors. In order to do so,

each proprietor must separately file and receive approval of the necessary registration, applications and bonds that are required by subparts D and E of this part. Each proprietor must also conduct operations and keep records in accordance with the regulations in this part. Where operations by alternating proprietors will be limited to parts of the plant, each proprietor must include the following in the notice of registration:

(1) A description of the areas, rooms or buildings, or combination of rooms or buildings that will alternate between proprietors;

(2) The method that the proprietor will use to separate the alternated premises from any premises that will not be alternated; and

(3) Diagrams of the parts of the plant that will be alternated.

(b) *Letterhead notice.* After a proprietor receives approval to alternate use of the premises with another proprietor, the alternating proprietors must separately file letterhead notices each time they intend to alternate use of the premises. The proprietors may file a single notice if the notice is signed by each proprietor or an authorized representative of each proprietor. The proprietors must submit the letterhead notice to the appropriate TTB officer prior to the first day that alternation is to take place. Proprietors must include the following with the notice:

(1) The plant number and the name of the proprietor filing the notice;

(2) Identification of the outgoing proprietor and incoming proprietor (by name and plant number);

(3) The effective date and hour of the alternation;

(4) Identification of any applicable diagrams provided with the registration of each proprietor filed under paragraph (a) of this section, showing the portions of the premises involved in the alternation;

(7) If denatured spirits or articles will be retained in the processing account in locked tanks during the period of alternate proprietorship, a statement to that effect.

(c) *Alternation of production operations.* In the case of an outgoing proprietor who intends to alternate production operations with another proprietor, the outgoing proprietor must:

(1) Completely process all distilling materials and unfinished spirits in any bonded areas, rooms, or buildings that will alternate unless the outgoing proprietor transfers them to the incoming proprietor; and

(2) Mark and remove all finished spirits in the name in which they were produced before a production gauge is made by the incoming proprietor.

(d) *Alternation of storage operations.* In the case of an outgoing proprietor who intends to alternate storage operations with another proprietor, the outgoing proprietor must:

(1) Transfer in bond any spirits or wines in any bonded areas, rooms, or buildings that will be alternated; and

(2) Execute a form TTB F 5000.18, Change of Bond (Consent of Surety), to continue in effect the operations or unit bond whenever operations of the areas, rooms, or buildings will be resumed by the outgoing proprietor following suspension of operations by the other proprietor.

(e) *Alternation of processing operations.* In the case of an outgoing proprietor who intends to alternate processing operations with another proprietor, the outgoing proprietor:

(1) Before the effective date and time of the alternation, must process to completion and remove from the affected area all spirits, denatured spirits, wines, or articles located in any rooms, areas, or buildings that will alternate, or must transfer these spirits, wines, and articles in bond to the incoming proprietor;

(2) Must execute a TTB F 5000.18, Change of Bond (Consent of Surety), to continue in effect the operations or unit bond whenever operations of the areas, rooms, or buildings will be resumed by the outgoing proprietor following suspension of operations by the other proprietor; and

(f) *Records.* Each alternating proprietor must maintain its own records and submit its own reports. Records kept by an outgoing proprietor for spirits, wines, and alcoholic flavoring materials may be used by the incoming proprietor. (26 U.S.C. 5172, 5271)

CONDUCT OF ALTERNATE OPERATIONS AT A PLANT

§ 19.142 Alternate use of premises and equipment for customs purposes.

(a) *General.* The proprietor may extend or curtail the distilled spirits plant premises or a part of those premises for temporary use by Customs and Border Protection officers for customs purposes. If the proprietor wishes to alternate the use of the premises for customs purposes, that use must be approved by the port director of customs and must be conducted in accordance with applicable customs laws and regulations.

(b) *Qualification.* Before alternating the plant premises for customs purposes, the proprietor must file and receive approval of the necessary registration, application and bonds as required by this part. The proprietor's application for registration must include the following:

(1) A description of the areas, rooms or buildings, or combination of rooms or buildings that will be alternated;

(2) A diagram of the parts of the plant that the proprietor will use for the alternation; and

(3) The method that the proprietor will use to separate the alternated premises from any premises not subject to alternation.

(c) *Letterhead notice.* After the proprietor receives approval to alternate premises for customs purposes, the proprietor must file a letterhead notice with the appropriate TTB officer each time the premises will be alternated. The notice must include the following information:

(1) The name and plant number of the proprietor filing the notice;

(2) The date and hour the alternation will take place;

(3) Identification of any applicable diagrams provided with the registration filed under paragraph (b) of this section, showing the portions of the premises involved in the alternation;

(4) The purpose of the alternation;

(5) If the alternation is for gauging or processing distilled spirits, a statement to that effect; and

(6) An indication of the class of temporary customs warehouse, if applicable.

(d) *Proprietor responsibilities.* Prior to the start of alternation for customs purposes, the proprietor must remove all spirits from the premises or equipment that will be involved in the alternation. However, upon release by customs, spirits in the process of being transferred to bonded premises under 26 U.S.C. 5232 may remain on the premises to be reincluded in the bonded premises.

(e) *Exceptions.* The qualification requirements in paragraph (b) of this section and the notice requirements in paragraph (c) of this section will not apply where the proprietor solely intends to gauge bulk distilled spirits for transfer from customs custody to TTB bond.

(f) *Conveyance of spirits in customs custody.* If the proprietor intends to convey spirits in customs custody across the distilled spirits plant premises the proprietor must comply with § 19.60.

(26 U.S.C. 5172, 5178)

§ 19.143 Alternation for other purposes.

(a) *General.* The proprietor may temporarily extend or curtail the distilled spirits plant premises to allow for several other types of alternate uses. Premises may be alternately curtailed or extended to allow bonded premises to be used temporarily as general premises, or to allow general premises

to be used as bonded premises. A curtailment or extension of distilled spirits plant premises may also allow for the use of the premises as:

(1) An adjacent bonded wine cellar;

(2) An adjacent taxpaid wine bottling house;

(3) An adjacent brewery; or

(4) Facilities for the manufacturer of eligible flavors.

(b) *Qualifying documents.* Before alternating the premises for a purpose listed in paragraph (a) of this section, the proprietor must file and receive approval of the necessary registration, application forms and attachments that relate to the proposed alternate use. Depending on the type of alternation involved, the proprietor must file one or more of the following qualification documents:

(1) *Registration.* For all alternate uses of the distilled spirits plant described in paragraph (a) of this section the proprietor must file a form TTB F 5110.41, Registration of a Distilled Spirits Plant, to cover the proposed alternation of premises.

(2) *Diagram.* For all alternate uses, the proprietor must provide a special diagram, in duplicate, delineating the premises as they will exist, both during extension and curtailment and clearly depicting all buildings, floors, rooms, areas, equipment that are to be subject to alternation, in their relative operating sequence.

(3) *Bond.* For all alternate uses, the proprietor must provide evidence of an existing bond, consent of surety, or a new bond to cover the proposed alternation of premises.

(4) *Bonded wine cellar or taxpaid wine bottling house.* If the proprietor intends to alternate the premises or part of the premises as a bonded wine cellar or taxpaid wine bottling house the proprietor must also file form TTB F 5120.25, Application to Establish and Operate Wine Premises.

(5) *Brewery.* If the proprietor intends to alternate the premises or part of the premises for a brewery operation the proprietor must file form TTB F 5130.10, Brewer's Notice.

(c) *Separation of premises.* The proprietor must separate the distilled spirits plant premises from the alternate use premises in accordance with the approved plan of alternation described in the qualifying documents.

(d) *Segregation of products.* When the proprietor alternates premises, the proprietor must segregate products as follows:

(1) *Wine operations.* (i) Prior to alternation from distilled spirits plant premises to wine premises, the proprietor must remove all distilled spirits, denatured spirits, articles, and wine from the distilled spirits plant premises that will be alternated. However, the proprietor may keep spirits on the premises if they are being withdrawn for use in wine production under §19.419, or for use in the production of nonbeverage wine or wine products under §19.421. Further, the proprietor may keep wine on the premises if it is to be transferred in bond under §19.402(b)(2).

(ii) Prior to alternation from wine premises to distilled spirits plant premises, the proprietor must remove all wine and spirits from the wine premises that will be alternated. However, the proprietor may keep wine on the premises if it is being transferred in bond under §19.402(b)(1). Further, the proprietor may keep spirits on the premises if they are being returned from bonded wine cellar premises to distilled spirits plant bonded premises under §19.454.

(2) *Brewery.* Prior to alternation from distilled spirits plant premises to operation of a brewery the proprietor must remove all spirits, denatured spirits, articles and wine from the premises to be alternated to brewery premises. Prior to alternation of brewery premises to distilled spirits plant premises, the proprietor must remove all beer from the premises except beer that is being received for production of distilled spirits as provided in §19.296.

(3) *General premises.* Prior to alternation between bonded and general premises, the proprietor must remove all spirits, denatured spirits, articles and wine from the premises to be alternated. However, the proprietor may keep bonded spirits on portions of bonded premises to be alternated to general premises if the spirits are taxpaid concurrently with the alternation. Also, the proprietor may keep taxpaid spirits on general premises that will be

alternated to bonded premises if the spirits are to be immediately dumped and returned to bond under the provisions of subpart Q of this part.

(4) *Manufacture of nonbeverage products.* Prior to alternation of the distilled spirits plant premises for use in the manufacture of eligible flavors, the proprietor must remove all spirits, denatured spirits, articles and wine from the premises to be alternated. However, the proprietor may keep spirits on portions of the premises to be curtailed if the proprietor pays the tax concurrent with the alternation. Further, the proprietor may keep taxpaid spirits that have not been used in the manufacture of a nonbeverage product on parts of the premises to be included in the extension of the bonded premises if the spirits are to be immediately dumped and returned to bond under the provisions of subpart Q of this part.

(e) *Records.* The proprietor must prepare the record of alternating premises prescribed by §19.627 each time that the proprietor alternates premises.

(26 U.S.C. 5172, 5178)

§19.144 Alternation of distilled spirits plant and volatile fruit-flavor concentrate plant premises.

The proprietor may temporarily extend or curtail the distilled spirits plant premises for alternate use with the premises of a contiguous volatile fruit-flavor concentrate plant. If a proprietor wishes to use all or a portion of the premises alternately as a volatile fruit-flavor concentrate plant or vice versa, the proprietor must comply with the requirements of §§18.39 and 18.41 through 18.43 of this chapter.

(26 U.S.C. 5172, 5178)

DISCONTINUANCE OF OPERATIONS

§19.147 Notice of discontinuance of operations.

If the proprietor plans to permanently discontinue one or more of the operations listed on the notice of registration filed under subpart D of this part, the proprietor must notify the appropriate TTB officer by filing form TTB F 5110.41, Registration of Distilled Spirits Plant, to show discontinuance of operations. The proprietor must submit the following with TTB F 5110.41:

(a) The permit covering each discontinued operation;

(b) A written request for cancellation of the permit(s);

(c) A written statement indicating whether or not—

(1) The proprietor has lawfully disposed of all spirits, denatured spirits, articles, wines, liquor bottles, and other pertinent items;

(3) The proprietor has secured and returned to the appropriate TTB officer for cancellation all approved applications for transfer of spirits and denatured spirits to the premises; and

(d) A final monthly operations report, as provided for under §19.632, for each discontinued operation, with each report marked ''Final Report.''

(26 U.S.C. 5172, 5271)

Subpart F—Bonds and Consents of Surety

BONDING REQUIREMENTS FOR A DSP

§19.151 General.

(a) *Bond required.* Any person who plans to establish and operate a distilled spirits plant must provide TTB with one or more bonds on form TTB F 5110.56, Distilled Spirits Bond. TTB will not approve a registration or allow a person to operate a distilled spirits plant until the applicant has provided the necessary bonds. If a proprietor fails to pay any liability covered by a bond, TTB may seek payment from the proprietor, from the surety (see §19.153) or from both the proprietor and the surety. The types and penal sums of bonds required will depend upon the type and size of the operations that the proprietor will conduct.

(b) *Bond terms and conditions.* The terms and conditions of a distilled spirits bond require that the proprietor comply with all provisions of law and regulations relating to activities covered by the bond, and to pay all taxes imposed by 26 U.S.C. chapter 51, including taxes on unexplained shortages of bottled distilled spirits. The bond will further specify that the proprietor will

pay all penalties incurred, or fines imposed, for violations of law and regulations relating to activities covered by the bond. The specific terms of the required bond(s) are stated on TTB F 5110.56.

(c) *Corporations and controlled subsidiaries.* For purposes of this subpart, the term ''corporation'' includes a Limited Liability Company (LLC) or Limited Liability Partnership (LLP) in any jurisdiction where the law authorizes such a business organization to operate. Whenever used in this subpart, the term ''controlled subsidiary'' means a corporation (or LLC or LLP) in which more than 50 percent of the voting power is controlled by a parent corporation.

(26 U.S.C. 5173, 5551)

§ 19.152 Types of bonds.

(a) *Basic Bonds.* There are two basic types of bonds: the operations bond, and the withdrawal bond.

(1) *Operations bond.* An operations bond covers the tax liability for a variety of operations at a distilled spirits plant, along with any penalties incurred and fines imposed for violation of the law and regulations relating to activities covered by the bond.

(2) *Withdrawal bond.* A withdrawal bond covers the tax liability for tax determined distilled spirits withdrawn from the bonded premises on a tax deferred basis.

(b) *Other bonds.* In addition to the basic operations and withdrawal bonds, several variations of these bonds are available:

(1) An adjacent wine cellar bond covers operations at a distilled spirits plant and an adjacent bonded wine cellar;

(2) An area bond covers operations at two or more distilled spirits plant and any adjacent bonded wine cellars; and

(3) A unit bond covers both operations and withdrawals at one or more distilled spirits plants and operations at any adjacent bonded wine cellars.

(26 U.S.C. 5173)

§ 19.153 Bond guaranteed by a corporate surety.

(a) *Corporate surety.* A company that issues bonds is called a ''corporate surety.'' Proprietors must obtain the surety bonds required by this subpart from a corporate surety approved by the Secretary of the Treasury.

(b) *How to find an approved surety.* The Department of the Treasury publishes a list of approved corporate surety companies in Treasury Department Circular No. 570, ''Companies Holding Certificates of Authority as Acceptable Sureties on Federal Bonds and as Acceptable Reinsuring Companies.'' Circular 570 is published annually in the FEDERAL REGISTER. The most current edition of the circular is posted at the Web site of the Financial Management Service, Department of the Treasury at *http://www.fms.treas.gov/c570.* Printed copies of Circular 570 are available for purchase from the Government Printing Office.

(31 U.S.C. 9304, 9306)

§ 19.154 Bond guaranteed by deposit of securities.

(a) *General.* As an alternative to the corporate surety bond under § 19.153, a person can file a bond that guarantees payment of the liability by pledging one or more acceptable negotiable securities. These securities must have a par value (face amount) equal to or greater than the penal sums of the required bonds. The pledged securities are held in the Federal Reserve Bank in a safekeeping account with TTB as the pledgee. Should the proprietor fail to pay one or more of the guaranteed liabilities, TTB can take action to sell the deposited securities to satisfy the debt. Pledged securities will be released if there are no outstanding liabilities when the bond is terminated. (See § 19.170.)

(b) *Acceptable securities.* Only public debt obligations of the United States, the principal and interest of which are unconditionally guaranteed by the United States Government, are acceptable for the purpose described in paragraph (a) of this section. The Department of the Treasury and certain other United States Government agencies issue debt instruments that are acceptable as collateral, such as Treasury notes and Treasury bills. Savings bonds, certificates of deposit and letters of credit are not acceptable. A list of securities acceptable as collateral in

lieu of surety bonds is available from the Bureau of the Public Debt, Office of the Commissioner, Government Securities Regulations Staff. Current information and guidance from the Bureau of the Public Debt may be found at *http://www.publicdebt.treas.gov*.

(31 U.S.C. 9301, 9303; 31 CFR part 380)

§ 19.155 Change of surety bond terms—consent of surety.

In order to change the terms of an approved bond, both the principal and the surety company that guaranteed the bond must agree to the change. TTB must also approve the change. All changes to the terms of a bond must be executed on form TTB F 5000.18, Change of Bond (Consent of Surety) by both the principal and the surety with the same formality and proof of authority as required for the original bond. The completed, executed TTB F 5000.18 must be submitted to the National Revenue Center.

(26 U.S.C. 5173)

§ 19.156 Power of attorney for surety.

(a) *Requirement for power of attorney.* Every bond and every consent of surety filed with TTB in which an agent or officer executed the bond or consent on behalf of the surety must be supported by a power of attorney authorizing the agent or officer to execute the bond or consent of surety. The power of attorney assures TTB that the person who signed the bond on behalf of the surety has the legal authority to obligate the surety.

(b) *Form of power of attorney and endorsement.* A power of attorney will be prepared on the surety's own form, and must be executed under the surety's corporate seal. If the power of attorney submitted is other than a manually signed original, it must be accompanied by a certification from the surety that the power of attorney is valid.

(c) *Additional documentation.* The appropriate TTB officer authorized to approve and accept the bond may require additional evidence of the authenticity of signatures and the authority of persons signing on behalf of the surety to execute the bond or consent.

(31 U.S.C. 9304, 9306)

§ 19.157 Disapproval of bonds and consents of surety.

(a) *Grounds for disapproval.* The appropriate TTB officer may disapprove any bond or consent of surety required by this part if the principal or any person having ownership, control or responsibility for actively managing the business of the surety has been previously convicted, in a court of competent jurisdiction of:

(1) Any fraudulent noncompliance with any provision of any law of the United States relating to internal revenue or customs taxation of spirits, wines, or beer, or if the offense was compromised by payment of penalties or otherwise, or

(2) Any felony under a law of any State or the District of Columbia, or the United States, prohibiting the manufacture, sale, importation, or transportation of spirits, wine, beer, or other intoxicating liquor.

(b) *Appeal.* If the appropriate TTB officer disapproves a bond or consent of surety, the person giving the bond may appeal the disapproval to the Administrator, who will hear the appeal. The decision of the Administrator will be final.

(26 U.S.C. 5551)

Requirements for Operations and Withdrawal Bonds

§ 19.161 Operations bond.

(a) *General.* Any person who intends to establish a distilled spirits plant must furnish an operations bond (or a unit bond, see § 19.165) covering distilled spirits operations at such plant on TTB F 5110.56 with the original application to register the distilled spirits plant.

(b) *Approval of bond.* The appropriate TTB officer may require a statement, executed under the penalty of perjury, as to whether the principal, or any person owning, controlling, or managing the business of the applicant has been convicted of, or has compromised any offense listed in § 19.157(a)(1), or has been convicted of any offense listed in § 19.157(a)(2). If the above statement

contains an affirmative answer, the applicant must provide an additional detailed statement describing the circumstances surrounding each conviction or compromise. The appropriate TTB officer will decide whether to approve or disapprove the bond.

(26 U.S.C. 5173, 5551)

§ 19.162 Operations bond for distilled spirits plant and adjacent bonded wine cellar.

(a) *One bond satisfying two requirements.* A proprietor who operates a bonded wine cellar that is adjacent to the proprietor's distilled spirits plant may file a single operations bond to cover the operations of the distilled spirits plant and the bonded wine cellar. A proprietor who files this type of bond satisfies the requirement in 26 U.S.C. 5173 for an operations bond covering the distilled spirits plant and the requirement in 26 U.S.C. 5354 for a bond covering wine and spirits possessed at, and in transit to, the bonded wine cellar. (The proprietor may still have to obtain a supplemental bond for the wine cellar to cover liabilities resulting from deferred payment of tax. See the second sentence of 26 U.S.C. 5354.)

(b) *One bond combining terms and coverage of separate bonds.* An operations bond filed under paragraph (a) of this section must contain the same terms and conditions that would be in separate bonds for the distilled spirits plant and for the bonded wine cellar. The proprietor may not allocate or divide the penal sum between the distilled spirits plant and the bonded wine cellar. The total amount of the bond must be available to satisfy any liability incurred under the terms of the bond at either facility.

(c) *Persons qualified for a single bond.* A proprietor may choose to file a single operations bond for a distilled spirits plant and adjacent bonded wine cellar only if:

(1) Such distilled spirits plant is qualified under subpart D of this part for the production of distilled spirits; and

(2) Such wine cellar and distilled spirits plant are operated by the same person (or in the case of a corporation, by such corporation and its controlled subsidiaries).

(26 U.S.C. 5173, 5351, 5354)

§ 19.163 Area operations bond.

(a) *Area operations bond covering multiple locations.* A person who operates more than one distilled spirits plant within the geographical area serviced by the National Revenue Center may submit to TTB an area operations bond covering the operations of any two or more such plants and any bonded wine cellars that are adjacent to such plants and which otherwise could be covered by an operations bond. Area operations bonds filed under this section will be in lieu of the operations bond requirements for single distilled spirits plants under §§ 19.161 and 19.166 and must contain the same terms and conditions as those contained in separate bonds filed for single distilled spirits plants. Any person who files an area operations bond may not allocate or divide the penal sum of the area operations bond between the separate locations and the total penal sum of the bond must be available to satisfy liability incurred at any of the covered locations.

(b) *Area operations bonds filed by corporations.* An area operations bond may only cover distilled spirits plants and adjacent bonded wine cellars that are operated by the same person. For purposes of this section, a corporation and its controlled subsidiaries are considered to be one person. Further, a controlled subsidiary is a corporation in which more than 50 percent of the voting power is controlled by the parent corporation. Consequently, an area operations bond may cover distilled spirits plants and adjacent bonded wine cellars operated by a parent corporation and one or more of its controlled subsidiaries. The name of each corporation that operates a covered facility must appear on the bond as a principal, whether the operating corporation is the parent or a subsidiary. The bond must bear an authorized signature for each operating corporation appearing on the bond.

(26 U.S.C. 5173)

§ 19.164 Withdrawal bond.

(a) *Requirement for a withdrawal bond.* If a person intends to withdraw spirits from a distilled spirits plant upon determination of the taxes due on the spirits but before payment of the tax, the person must provide TTB with a withdrawal bond for the distilled spirits plant. The withdrawal bond must guarantee payment of any taxes due on distilled spirits withdrawn from bonded premises up to the amount of the bond. Such bond will be in addition to the operations bond, and if the distilled spirits are withdrawn under the withdrawal bond, the operations bond will no longer cover liability for payment of the tax on the spirits withdrawn. For purposes of this section, a person includes a corporation, together with all of its controlled subsidiaries, and a controlled subsidiary has the same meaning as in § 19.163(b).

(b) *One bond covering multiple plants.* A person who operates more than one distilled spirits plant within the geographical area serviced by the National Revenue Center may submit to TTB a single withdrawal bond that covers withdrawals from all such distilled spirits plants within that geographic area.

(c) *Penal sum of bonds*—(1) *Penal sum of a bond covering a single plant.* A person who files a withdrawal bond for a single plant must compute the penal sum of such bond in accordance with § 19.166. If the penal sum of such bond is less than the maximum amount, withdrawals from the plant may not exceed the penal sum.

(2) *Penal sum of bond covering multiple plants.* A person who files one withdrawal bond to cover two or more distilled spirits plants must compute the required penal sum for each plant individually in accordance with § 19.166. The penal sum of the withdrawal bond must be equal to, or greater than, the total of the minimum amounts required for the individual plants. The bond must show the amount of coverage allocated to each individual plant as well as the total penal sum for all plants. If the portion of the penal sum allocated to a particular plant is less than the maximum amount prescribed in § 19.166 for a single plant, withdrawals from that plant must not exceed the amount of the penal sum allocated to that plant. The allocation of the penal sum notwithstanding, the entire penal sum of the bond must be available to satisfy all liability for tax on withdrawals from any and all of the covered plants.

(26 U.S.C. 5173)

§ 19.165 Unit bonds.

(a) *Unit bond covering operations and withdrawals.* If a person is otherwise required to file bonds for both operations at one or more distilled spirits plants and withdrawals from one or more distilled spirits plants, the person may instead submit a single unit bond that provides all of the guarantees that would otherwise be provided by separate operations and withdrawal bonds. The unit bond may also provide coverage for operations at adjacent bonded wine cellars. For purposes of this section, a person includes a corporation, together with all of its controlled subsidiaries, and a controlled subsidiary has the same meaning as in § 19.163(b).

(b) *Required penal sum*—(1) *General.* A person must determine the penal sum for the unit bond by separately calculating in accordance with § 19.166, and then totaling, the amounts needed to cover operations and withdrawals at each individual plant covered by the bond. The penal sum for the unit bond must not be less than the sum of the minimum penal sums that would be required if each of the plants had its own bond.

(2) *Allocation between operations and withdrawals.* A unit bond must show separately the amount of coverage provided for operations (including operations at each adjacent bonded wine cellar if applicable) and for withdrawals at each distilled spirits plant covered by the bond.

(3) *Tax liability must not exceed allocated penal sum.* If the amount of the penal sum allocated to operations at, or withdrawals from, a particular plant is less than the maximum amount prescribed in § 19.166 for a single plant, the tax liability for operations at, or withdrawals from, that plant must not exceed that allocated amount.

(4) *Total penal sum available for each plant.* Even when the penal sum of a unit bond is allocated among multiple

plants, the bond must provide that the total penal amount of the bond will be available to satisfy any liability incurred under the terms and conditions of the bond at any plant covered by the bond.

(26 U.S.C. 5173)

§ 19.167 Increase of bond coverage.

(a) *When required.* If the penal sum of a bond is less than the maximum amount specified by § 19.166, and liabilities increase to the point where they exceed the bond coverage, the proprietor must increase the amount of the bond to cover the increased liability. The proprietor must increase the bond coverage either by replacing the existing bond with a new, larger bond that covers the entire liability, or by supplementing the existing bond with a separate strengthening bond in accordance with paragraph (b) of this section.

(b) *Strengthening bonds.* A strengthening bond is a second bond with the same surety as on the original bond which covers the increased liability. A strengthening bond must show both its execution date and its effective date. TTB will not accept a strengthening bond if it contains any term or condition that is a release, or could be interpreted as a release, from liability under any former bond, or that limits the liability of any bond to less than its full penal sum.

(26 U.S.C. 5173)

§ 19.168 Superseding bonds.

(a) *General.* In any of the circumstances outlined in paragraphs (b) through (d) of this section, the proprietor must replace an existing bond with a new bond. A new bond that replaces another bond is called a superseding bond.

(b) *Surety company no longer acceptable.* The proprietor must file a superseding bond if the surety on the proprietor's current bond becomes insolvent or if the surety is removed from the list of approved sureties in Treasury Circular 570. TTB may also require the filing of a superseding bond if any other contingency affecting the validity or efficiency of the bond arises.

(c) *Change of control.* An executor, administrator, assignee, receiver, trustee, or other person acting in a fiduciary capacity, continuing or liquidating the business of the principal on a bond, must either provide TTB with a superseding bond, or obtain consent from the surety on each existing bond when assuming control of the business.

(d) *Termination of bond by surety.* If the surety applies to terminate a bond under § 19.171, and the proprietor wishes to continue the activity covered by the bond, the proprietor must file a superseding bond that becomes effective on or before the termination date of the existing bond. The superseding bond must show both its execution date and its effective date.

(26 U.S.C. 5173, 5175, 5176, 5551)

§ 19.169 Effect of failure to furnish a superseding bond.

(a) *Operations bond.* A person may not operate a distilled spirits plant without an operations bond. If a person does not submit an acceptable superseding operations bond when required to do so under § 19.168, the person must immediately discontinue the activities to which the lapsed bond coverage relates upon lapse of the existing bond coverage.

(b) *Withdrawal bond.* A person who does not submit an acceptable superseding withdrawal bond when required to do so under § 19.168 may not withdraw distilled spirits from the bonded premises on a deferred basis. Upon lapse of the existing bond coverage the person must pay the tax at the time of withdrawal, except in the case of distilled spirits withdrawn free of tax or withdrawn without payment of tax under 26 U.S.C. 5214 or withdrawn exempt from tax under 26 U.S.C. 7510.

(c) *Unit bond.* A person who does not provide an acceptable superseding unit bond when required to do so under § 19.168 must immediately discontinue the business or distilled spirits operations to which the lapsed bond coverage relates. Upon lapse of the existing bond coverage the person must also pay the tax at the time of withdrawal, except in the case of distilled spirits withdrawn free of tax or withdrawn without payment of tax under 26 U.S.C. 5214 or withdrawn exempt from tax under 26 U.S.C. 7510.

(26 U.S.C. 5173, 5175, 5176)

§ 19.170 Termination of bonds.

Liability under operations bonds, withdrawal bonds, and unit bonds may be terminated for future withdrawals,

future production, or future deposits as set forth below:

(a) *On application by the surety.* A surety may terminate a bond by filing a notice as provided in § 19.171;

(b) *By replacement of the bond.* A principal may terminate an existing bond by replacing it with a superseding bond approved by TTB;

(c) *By discontinuing withdrawals.* A principal may terminate a withdrawal bond by notifying TTB that the principal has stopped making withdrawals covered by the bond, if the bond was filed solely as a withdrawal bond; or

(d) *By discontinuing the business.* A principal may terminate a bond by notifying TTB that the principal has discontinued business.

(26 U.S.C. 5173)

§ 19.171 Surety notice of relief from bond liability.

(a) *Notice to principal.* A surety on a bond may, at any time, notify the principal in writing that the surety desires to be relieved of liability under the bond.

(b) *Notice to TTB.* A surety on a bond may, at any time, notify the appropriate TTB officer in writing that the surety desires to be relieved of liability under the bond. The notice must specify the date after which the surety desires to be relieved of liability. In the case of a withdrawal bond, the date specified in the notice must be at least ten days after the notice is received by the appropriate TTB officer. In the case of an operations bond or unit bond, the date specified in the notice must be at least 90 days after the notice is received by the appropriate TTB officer. When a surety files a termination notice with TTB, the surety must include either an acknowledgement from the principal that the principal is aware that the surety is terminating the bond or proof that the surety has served the principal with notice of its intent to terminate the bond.

(c) *Effect of notice.* The bond coverage will end as of close of business on the date specified in the notice, provided the surety timely filed a proper and complete termination notice, and the surety does not withdraw its termination notice in writing prior to the termination date. The surety will be released from future liability under the bond to the extent set forth in § 19.172.

(26 U.S.C. 5173, 5175, 5176)

§ 19.172 Relief of surety from bond liability.

A surety that has provided proper notice under § 19.171 will be relieved from liability under the bond in question as set forth below:

(a) *Operations or unit bond.* When a superseding bond is submitted, the surety will be relieved of future liability related to production and deposits that take place after the effective date of the superseding bond. However, the surety remains liable for the tax on all distilled spirits or wines produced, or for other liabilities incurred, during the term of the bond. Further, if a superseding bond is not submitted, the surety will remain liable under the bond for all spirits or wines that are on hand or in transit to the bonded premises or bonded wine cellar on the date specified in the notice. The liability of the surety will continue until all such spirits or wines have been lawfully disposed of, or until a new bond has been submitted by the principal covering the spirits or wine.

(b) *Withdrawal or unit bonds.* The surety will be relieved from liability for withdrawals made after the date specified in the notice, or upon the effective date of a new bond if one is given.

(26 U.S.C. 5173, 5176)

§ 19.173 Release of pledged securities.

Securities that are pledged and deposited with TTB under § 19.154 will only be released by TTB in accordance with the provisions of 31 CFR Part 225, Acceptance of Bonds Secured by Government Obligations in Lieu of Bonds with Sureties. The appropriate TTB officer will not release pledged securities prior to termination of the liability under the bond for which they were pledged. When the appropriate TTB officer is satisfied that the pledged securities may be released, the official will set a date or dates on which a part or all of the securities may be released. At any time prior to the release of the securities, the appropriate TTB officer may extend the date of release for any

additional length of time deemed necessary.

Subpart G—Construction, Equipment, and Security Requirements

§ 19.181 General.

The proprietor of a distilled spirits plant must apply certain construction, equipment, and security standards at the plant. These standards are intended to ensure the protection of untaxed spirits at the plant and to ensure proper measurement and accountability for products on bonded premises. This subpart prescribes those standards.

(26 U.S.C. 5178)

TANK REQUIREMENTS

§ 19.182 Tanks—general requirements.

The proprietor of a distilled spirits plant must ensure that all tanks on the premises used to hold spirits, denatured spirits, or wines are:

(a) Used for the purpose listed on the application and plant registration;

(b) Equipped with accurate means for measuring their contents. If the means for measurement is not a permanent fixture on the tank, the proprietor must equip the tank with a fixed device for measuring the contents. However, tanks having a capacity of less than 101 gallons are not required to have permanent gauge devices;

(c) Accurately calibrated if used for any of the gauges described in this part. Further, if tanks or their gauging devices are moved in any manner subsequent to original calibration, the tanks shall not be used until recalibrated;

(d) Accessible through walkways, landings, and stairs that permit access to all parts of the tank;

(e) Equipped or situated so that they may be locked or secured; and

(f) Constructed to prevent access to the spirits or wines through vents, flame arresters or other safety devices.

(26 U.S.C. 5006, 5204, 5505)

§ 19.183 Scale tanks.

(a) Except as otherwise provided in paragraph (b) of this section, if the proprietor uses a tank to determine the distilled spirits tax imposed by 26 U.S.C. 5001, the tank must be mounted on scales and the contents of the tank must be determined by weight. The scale tank also must be equipped with a suitable device so that the volume of the contents can be quickly and accurately determined.

(b) The requirement to mount tanks on scales does not apply to tanks having a capacity of 55 gallons or less. Such tanks may be moved onto an accurately calibrated scale when a tax determination gauge needs to be made.

(26 U.S.C. 5006, 5204, 5505)

§ 19.184 Scale tank minimum graduations.

(a) The beams or dials on scale tanks used for tax determination must have minimum graduations not greater than the following:

Quantity to be weighed	Minimum graduation
Not exceeding 2,000 pounds	½ pound
Between 2,000 and 6,000 pounds	1 pound
Between 6,000 and 20,000 pounds	2 pounds
Between 20,000 and 50,000 pounds	5 pounds
Over 50,000 pounds	10 pounds

(b) For scales having a capacity greater than 2,000 pounds, the minimum quantity which may be entered onto the weighing tank scale for gauging for tax determination will be the greater of:

(1) 1,000 times the minimum graduation of the scale, or

(2) 5 percent of the total capacity of the weighing tank scale.

(c) The weighing of lesser quantities for determination of tax may be authorized by the appropriate TTB officer where the beam of the scale is calibrated in ½ pound or 1 pound graduations and it is found by actual test that the scales are accurate at each graduation.

(d) Lots of spirits weighing 1,000 pounds or less shall be weighed on scales having ½ pound graduations.

(26 U.S.C. 5006, 5204, 5505)

§ 19.185 Testing scale tanks for accuracy.

(a) A proprietor who uses a scale tank for tax determination must ensure the accuracy of the scale through periodic testing. Testing of the scale must be conducted at least every 6 months and whenever the scale is adjusted or repaired.

(b) A proprietor also must test, at least once a month, the gallonage represented to be in a scale tank against the gallonage indicated by volumetric determination of the contents of the tank. However, if the scale is not used during a month, it is only necessary to verify against the volumetric determination when the scale is next used. The proprietor must make the volumetric determination in accordance part 30 of this chapter. If the variation exceeds 0.5 percent of the quantity shown in the tank, the proprietor must take appropriate action to verify the accuracy of the scale.

(c) If the appropriate TTB officer determines that a scale may be inaccurate, the proprietor must test the accuracy of the scale.

(26 U.S.C. 5006, 5204, 5505)

PACKAGE SCALE AND PIPELINE REQUIREMENTS

§ 19.186 Package scales.

Proprietors must ensure that scales used to weigh packages are tested at least every 6 months and whenever they are adjusted or repaired. However, if a scale is not used during a 6-month period, it is only necessary to test the scale prior to its next use. Scales used to weigh packages that hold 10 wine gallons or less must indicate weight in ounces or hundredths of a pound.

(26 U.S.C. 5204)

§ 19.187 Pipelines.

All pipelines, including flexible hoses, that are used to transfer spirits, denatured spirits, articles, and wines must be constructed, arranged, and secured so as to ensure protection of the revenue and permit ready examination. The appropriate TTB officer may approve pipelines that cannot be readily examined if they pose no jeopardy to the revenue.

(26 U.S.C. 5178)

MEASURING AND PROOFING EQUIPMENT REQUIREMENTS

§ 19.188 Measuring devices and proofing instruments.

(a) *General.* A proprietor of a distilled spirits plant must have accurate instruments and equipment at the plant for determining the proof and volume of spirits.

(b) *Instruments.* The hydrometers and thermometers that a proprietor uses to gauge spirits must show subdivisions or graduations of proof and temperature as specified in part 30 of this chapter. Proprietors must frequently test their hydrometers and thermometers to ensure their accuracy. If an instrument appears to be in error, the proprietor may not use the instrument until it is tested and certified as accurate by the manufacturer or another qualified person.

(c) *Meters.* A proprietor may use an accurate mass flow meter to measure the volume of bulk spirits. A mass flow meter used for tax determination of bulk spirits must be certified by the manufacturer or other qualified person as accurate within a tolerance of plus or minus 0.1 percent. A mass flow meter used for all other required gauges of bulk spirits must be certified by the manufacturer or other qualified person as accurate within a tolerance of plus or minus 0.5 percent. The proprietor must make corrections for the temperature of the spirits being measured in conjunction with the volumetric measurement of spirits by mass flow meter. The proprietor must also test mass flow meters at least every 6 months to ensure that they are accurate within the required tolerances.

(26 U.S.C. 5204)

OTHER PLANT REQUIREMENTS

§ 19.189 Identification of structures, areas, apparatus, and equipment.

(a) *Buildings.* The proprietor must mark each building at a distilled spirits plant where spirits, denatured spirits, articles, wine, or distilling or fermenting materials are kept with a distinguishing number or letter.

(b) *Tanks.* The proprietor must mark each tank or receptacle for spirits, denatured spirits, or wine to show a unique serial number and capacity.

(c) *Stills.* The proprietor must number and mark to show the use of each still, fermenter, cooker, and yeast tank.

(d) *Other major equipment.* The proprietor must identify the use of all other major equipment used for processing or containing spirits, denatured spirits, wine, distilling or fermenting material, and all other tanks, unless the intended purpose is readily apparent.

(26 U.S.C. 5178)

§ 19.190 Office facilities for TTB use.

(a) When required by the appropriate TTB officer, the proprietor must provide a secure cabinet equipped for locking for use by TTB.

(b) If one or more TTB officers are assigned to a distilled spirits plant to supervise operations on a continuing basis, the proprietor must provide a suitable office at the plant for the exclusive use of the TTB officers in performing their duties. The appropriate TTB officer will determine if the office facilities are suitable.

(26 U.S.C. 5178)

§ 19.191 Signs.

The proprietor must place and keep a conspicuous sign on the outside of the place of business showing the name of the proprietor and the business, or businesses, in which engaged.

(26 U.S.C. 5180)

§ 19.192 Security.

(a) *General.* The proprietor of a distilled spirits plant must provide adequate security measures at the plant in order to protect the revenue.

(b) *Buildings.* The buildings, rooms, and partitions must be constructed of substantial materials. Doors, windows, or any other openings to the building must be secured or fastened during times when distilled spirits plant operations are not being conducted.

(c) *Outdoor tanks.* Outdoor tanks containing spirits, denatured spirits, or wine must be individually locked or locked within an enclosure when they are not in use.

(d) *Indoor tanks.* Indoor tanks containing spirits, denatured spirits, or wines, or the rooms or buildings in which such tanks are housed, must be equipped so that they may be secured.

(e) *Approved locks.* Locks meeting the specifications prescribed in paragraph (f) of this section must be used to secure:

(1) Outdoor tanks used to store spirits, or an enclosure around such tanks;

(2) Indoor tanks used to store spirits, or the door from which access may be gained from the outside to the rooms or buildings in which such tanks are housed; and

(3) Any doors from which access may be gained from the outside to rooms or buildings containing spirits stored in portable bulk containers.

(f) *Specifications for locks.* Locks meeting the specifications in this section or other locks that have been approved for use by the appropriate TTB officer are approved locks for the purpose of 26 U.S.C. 5682.

(1) *General.* The following are the specifications for approved locks:

(i) A corresponding serial number on the lock and on the key, except for master key locking systems;

(ii) A case hardened shackle at least one-fourth inch in diameter, with heel and toe locking;

(iii) A body width of at least 2 inches;

(iv) A captured key feature (the key may not be removed while the shackle is unlocked);

(v) A tumbler with at least 5 pins; and

(vi) A lock and key containing no bitting data.

(2) *Other approved locks.* If the proprietor wishes to use locks of an unusual design, which do not meet the specifications in paragraph (f)(1) of this section, the proprietor must submit an example or prototype of the lock to the appropriate TTB officer, with a request that the lock be approved for use. The

appropriate TTB officer will evaluate the lock and determine whether the lock should be approved for use.

(3) *Master key systems.* Master key locking systems using approved locks may be used at the option of the proprietor.

(g) *Additional security.* Whenever the appropriate TTB officer finds that construction, arrangement, equipment, or protection is inadequate, additional security (such as fences, flood lights, alarm systems, and guard services) must be provided or changes in construction, arrangement, or equipment must be made to the extent necessary to protect the revenue.

(26 U.S.C. 5178, 5202)

§ 19.193 Breaking Government locks.

TTB may assign TTB officers to a distilled spirits plant and utilize controls, such as Government locks, if TTB determines that such measures are necessary to effectively supervise operations at the plant. The proprietor may not remove such Government locks without the authorization of the appropriate TTB officer, except when a person or property is in imminent danger from a disaster or other emergency. If the proprietor must remove Government locks under such circumstances, the proprietor must ensure that security measures are taken to prevent illegal removal of spirits. In addition, the proprietor must notify the appropriate TTB officer as soon as possible of the action taken and within 5 days of removing the locks submit a written report describing the emergency and the action taken.

(26 U.S.C. 5202)

Subpart H—Dealer Registration and Recordkeeping

§ 19.201 Definitions.

For purposes of this subpart, the following terms have the meanings indicated:

Dealer. A person that sells, or offers for sale, any alcohol product (distilled spirits, wines, and/or beer) fit for beverage use.

Retail dealer in liquors. A dealer that sells, or offers for sale, distilled spirits, wines, or beer to any person other than a dealer.

Wholesale dealer in liquors. A dealer that sells, or offers for sale, distilled spirits, wines, or beer to another dealer.

(26 U.S.C. 5121, 5122)

§ 19.202 Dealer registration.

Every proprietor that sells or offers for sale any alcoholic product (distilled spirits, wines, or beer) fit for beverage use must register as a dealer under part 31 of this chapter. However, the proprietor's application for registration of a distilled spirits plant filed under subpart D of this part, and approval of that application by the appropriate TTB officer, will constitute the proprietor's registration as a dealer at the distilled spirits plant. Every proprietor registered as a dealer under this subpart will be classified as a wholesale dealer in liquors (see § 31.32 of this chapter) and as such may also operate as a retail dealer in liquors without additional registration. Registration covers all sales from the same location, including sales of wine, beer, or other proprietors' spirits. A proprietor who conducts business as a dealer at a location other than the distilled spirits plant must register and keep records in accordance with part 31 of this chapter.

(26 U.S.C. 5124)

§ 19.203 Amending the dealer registration.

Every proprietor registered as a dealer under this subpart must maintain a current and accurate distilled spirits plant registration. Whenever there is a change to any of the information provided in the proprietor's approved notice of registration, the proprietor must amend the registration within the time period specified in subpart E of this part. An amendment of the proprietor's distilled spirits plant registration will also serve as an amendment of the proprietor's dealer registration under this subpart. The proprietor's dealer registration will also terminate when distilled spirits plant operations under the notice of registration terminate.

(26 U.S.C. 5124)

§ 19.204 Dealer records.

Every dealer is required to maintain records of transactions. Distilled spirits transactions that appear in the records required by subpart V of this part will meet the proprietor's record-keeping requirements as a dealer. For other transactions not covered in the distilled spirits plant records, such as retail sales of wine or beer in a restaurant at the distilled spirits plant, or operations as a wholesale dealer in wine or beer, the proprietor must keep the records specified for dealers in part 31 of this chapter.

(26 U.S.C. 5121, 5122, 5124)

Subpart I—Distilled Spirits Taxes

§ 19.221 Scope.

This subpart covers the taxation of distilled spirits and the procedures for payment of taxes by proprietors of distilled spirits plants. Issues covered in this subpart include tax rates, liability for tax, tax determination, return periods, filing of tax returns, forms of payment, electronic fund transfers, and credits under 26 U.S.C. 5010.

(26 U.S.C. 5001)

BASIC PROVISIONS OF TAX LAW AFFECTING SPIRITS

§ 19.222 Basic tax law provisions.

(a) *Distilled spirits tax.* 26 U.S.C. 5001 and 7652 impose a tax on all distilled spirits produced in, or imported into or brought into, the United States at the rate prescribed in section 5001 on each proof gallon and a proportionate tax at a like rate on all fractional parts of a proof gallon. For the current rate of tax see 26 U.S.C. 5001.

(b) *Products containing distilled spirits.* All products of distillation, by whatever name known, which contain distilled spirits, on which the tax imposed by law has not been paid, and any alcoholic ingredient added to such products, are considered and taxed as distilled spirits.

(c) *Wines with high alcohol content.* Wines containing more than 24 percent of alcohol by volume are taxed as distilled spirits.

(d) *Attachment of the tax.* Under 26 U.S.C. 5001(b), the tax attaches to distilled spirits as soon as the substance comes into existence as such, whether it be subsequently separated as pure or impure spirits, or be immediately, or at any subsequent time, transferred into any other substance, either in the process of original production, or by any subsequent process.

(e) *Alcohol tax is a lien on spirits.* Under 26 U.S.C. 5004, the tax becomes a first lien on the distilled spirits from the time the spirits come into existence as such. The conditions under which the first lien terminates are described in 26 U.S.C. 5004.

(f) *Tax credit for eligible wines and eligible flavors.* Under 26 U.S.C. 5010, a credit against the tax imposed on distilled spirits by 26 U.S.C. 5001 or 7652 on each proof gallon of alcohol derived from eligible wine, or from eligible flavors which do not exceed 2.5 percent of the finished product on a proof gallon basis is allowed at the time the tax is payable as if it constituted a reduction in the rate of tax.

(g) *Effective tax rates.* Where credit against the tax is desired, the proprietor liable for the tax must establish an effective tax rate in accordance with § 19.246. The effective tax rate established will be applied to each withdrawal or other taxable disposition of the distilled spirits.

(26 U.S.C. 5001, 5004, 5010, 7652)

§ 19.223 Persons liable for tax.

(a) *Distilling.* Under 26 U.S.C. 5005, the distiller of spirits is liable for the tax and each proprietor or possessor of, and person in any manner interested in the use of, any still, distilling apparatus, or distillery, shall be jointly and severally liable for the tax on distilled spirits produced. However, a person, not an officer or director of a corporate proprietor, owning or having the right of control of not more than 10 percent of any class of stock of that proprietor, is not liable by reason of the stock ownership or control. Persons transferring spirits in bond are relieved of tax liability if:

(1) The proprietors of transferring and receiving distilled spirits plant premises are independent of each other and neither has a proprietary interest, directly or indirectly, in the business of the other, and

(2) No person liable for the tax on transferred spirits retains any interest in the spirits.

(b) *Storage on bonded premises.* Under 26 U.S.C. 5005(c) each person operating bonded premises will be liable for the tax on all spirits while the spirits are stored on the premises, and on all spirits that are in transit to the premises from the time of removal from the transferor's bonded premises, pursuant to an approved application. Liability for the tax continues until the spirits are transferred or withdrawn from bonded premises as authorized by law, or until the liability for tax is relieved under the provisions of 26 U.S.C. 5008(a). Claims for relief from liability for spirits lost are covered in subpart J of this part. Voluntary destruction of spirits in bond is covered in subpart Q of this part.

(c) *Withdrawals without payment of tax.* Under 26 U.S.C. 5005(e), any person who withdraws spirits from the bonded premises of a plant without payment of tax, as provided in 26 U.S.C. 5214, will be liable for the tax on the spirits from the time of withdrawal. The person will be relieved of any liability at the time the spirits are exported, deposited in a foreign trade zone, used in production of wine, deposited in a customs bonded warehouse, laden as supplies upon or used in the maintenance or repair of certain vessels or aircraft, or used for certain research, development or testing, as provided by law.

(d) *Withdrawals free of tax.* Persons liable for tax under paragraph (a) of this section, are relieved of the liability on spirits withdrawn from bonded premises free of tax under this part, at the time the spirits are withdrawn.

(e) *Withdrawn from customs custody without payment of tax.* Under 26 U.S.C. 5232(a) when imported distilled spirits in bulk containers are withdrawn from customs custody and transferred to the bonded premises of a distilled spirits plant without payment of the tax imposed on imported distilled spirits by 26 U.S.C. 5001, the person operating the bonded premises of the distilled spirits plant to which spirits are transferred will become liable for the tax on the spirits upon their release from customs custody, and the importer will thereupon be relieved of liability for the tax.

(26 U.S.C. 5005, 5066, 5232)

Requirements for Gauging and Tax Determination

§ 19.225 Requirement to gauge and tax determine spirits.

Before withdrawing distilled spirits from bond, the proprietor must gauge the spirits and determine the tax that is due on the spirits. This requirement applies to all spirits on which the tax will be either prepaid or deferred.

(26 U.S.C. 5006, 5204, 5213)

§ 19.226 Gauges for tax determination.

There are several acceptable methods that a proprietor may use when gauging spirits for tax determination.

(a) *Cases.* If spirits are withdrawn from the bonded premises in cases, the proprietor must gauge the spirits based on the contents of the cases. The proprietor will determine the number of proof gallons of spirits in cases as provided in part 30 of this chapter. The proprietor must convert metric units of measure to U.S. units according to § 19.579.

(b) *Packages.* If spirits are withdrawn from the bonded premises in packages on the basis of an individual package gauge, each package must be gauged unless the tax is to be determined on the production or filling gauge. When gauging the packages, the proprietor must prepare a package gauge record as specified in § 19.619 and attach it to the record of tax determination that is required by § 19.611.

(c) *Tanks.* The proprietor must use weight, or an accurate mass flow meter and proof as prescribed in §§ 19.284 and 19.285, to gauge bulk spirits in tanks that are to be withdrawn on determination of tax. The proprietor must record the elements of the gauge on the record of tax determination. As an alternative, the proprietor may record gauge elements on a separate gauge record, and attach the gauge record to the record of tax determination.

(26 U.S.C. 5204, 5213)

§ 19.227 Determination of the tax.

After gauging, the proprietor must determine the tax on the spirits to be removed from the bonded premises. The proprietor must use the tax rate prescribed in 26 U.S.C. 5001 to calculate the tax, unless the product is eligible for a reduced effective tax rate as provided in 26 U.S.C. 5010. If the product is eligible for a reduced effective tax rate, the proprietor may use that rate to determine the tax. The proprietor must record the results of each tax determination in a record of tax determination as required by § 19.611.

(26 U.S.C. 5213)

RULES FOR DEFERRED PAYMENT AND PREPAYMENT OF TAXES

§ 19.229 Deferred payment and prepayment of taxes.

There are two basic methods of paying the tax on distilled spirits withdrawn from bonded premises: Deferred payment and prepayment.

(a) *Deferred payment.* Under the deferred payment system, the proprietor may withdraw spirits from bond after tax determination but before payment of tax. The excise tax paid is based on the amount of spirits removed from bond during each return period. In order to pay taxes under the deferral system, the proprietor must file a withdrawal bond or unit bond. For detailed information regarding return periods and filing requirements under the deferred system, see §§ 19.234, 19.235 and 19.236.

(b) *Prepayment.* Under the prepayment system, the proprietor must pay the distilled spirits tax after tax determination but before withdrawal of the spirits from bonded premises. See § 19.230 for conditions that require prepayment of taxes.

(26 U.S.C. 5061)

§ 19.230 Conditions requiring prepayment of taxes.

Under certain conditions, the proprietor must prepay the distilled spirits tax required, using TTB F 5000.24, Excise Tax Return, before removing spirits from the bonded premises. Those conditions are:

(a) When the proprietor has not given TTB a withdrawal bond or a unit bond;

(b) When the proprietor has posted a withdrawal or a unit bond, but has defaulted on any payment of tax under this section, and the tax payment remains in default. The proprietor must continue to prepay the tax until the appropriate TTB officer decides that allowing the proprietor to make deferred tax payments again will not jeopardize the revenue;

(c) When the proprietor receives a notice from the appropriate TTB officer that the tax must be prepaid. Such notice may be issued to the proprietor if—

(1) The proprietor fails to maintain records required by this part to substantiate the correctness of its tax returns; or

(2) The proprietor fails to comply with any other provision of this part; or

(d) When the proprietor's withdrawal bond, or the withdrawal coverage under its unit bond, is for less than the maximum penal sum. The proprietor must prepay the tax to the extent that a withdrawal would cause the outstanding tax liability to exceed the limits of coverage under the bond. See also § 19.231 if the bond is for less than the maximum penal sum.

(26 U.S.C. 5213, 5555)

§ 19.231 Accounting for bond coverage.

When a proprietor furnishes a withdrawal bond or a unit bond to cover the tax on spirits withdrawn on determination of tax, and such bond is in less than the maximum penal sum, the proprietor must maintain an account for the bond to ensure that outstanding tax liabilities do not exceed the penal sum of the bond. The account must charge the bond for the amount of liability incurred on each withdrawal on determination of tax and, credit the bond for each payment of tax made with a return and for authorized credits taken on a return. If the balance of the bond account reaches zero, the proprietor may no longer defer tax payments for taxable withdrawals. Where the bond is for less than the maximum penal sum and has been allocated among two or more plants, the proprietor must maintain an account at each

plant for that part of the penal sum allocated to each plant.

(26 U.S.C. 5173)

REQUIREMENTS FOR FILING TAX RETURNS

§ 19.233 Filing prepayment returns.

When the proprietor is required to prepay the tax prior to withdrawal of spirits from the bonded premises, the proprietor must prepay the tax with a return on form TTB F 5000.24, Excise Tax Return, and include the remittance with the return. The proprietor may prepay tax for one or more withdrawals with a single prepayment return on TTB F 5000.24. The proprietor will note the serial number of the TTB F 5000.24, and the date and time of the prepayment on the individual record of tax determination. The proprietor may not remove spirits from the bonded premises until the tax has been paid.

(26 U.S.C. 5061)

§ 19.234 Filing deferred payment returns.

A proprietor must pay the tax on spirits withdrawn from bond for deferred payment of tax by filing a return on form TTB F 5000.24, Excise Tax Return. The proprietor must execute and file TTB F 5000.24 for each return period, even when no tax is due for a particular return period. The proprietor of each bonded premises must pay the full amount of distilled spirits tax determined for all spirits released for withdrawal from the bonded premises on determination of tax during the period covered by the return (except spirits on which tax has been prepaid).

(26 U.S.C. 5061)

§ 19.235 Deferred payment return periods—quarterly and semimonthly.

(a) *Two types of return periods.* The IRC provides for two different return periods for those taxpayers who pay their taxes on a deferred basis: Quarterly and semimonthly. Small taxpayers that meet certain criteria are eligible to use quarterly return periods and pay their taxes on a quarterly basis. Larger taxpayers must use semimonthly return periods and pay their taxes on a semimonthly basis.

(b) *Quarterly return period.* Effective January 1, 2006, a taxpayer that reasonably expects to be liable for not more than $50,000 in taxes with respect to distilled spirits imposed by 26 U.S.C. 5001 and 7652 for the current calendar year, and that was liable for not more than $50,000 in such taxes in the preceding calendar year, may choose to use a quarterly return period. However, the taxpayer may not use the quarterly return period procedure for any portion of the calendar year following the first date on which the aggregate amount of tax due from the taxpayer during the calendar year exceeds $50,000, and any tax which has not been paid on that date will be due on the 14th day after the last day of the semimonthly period in which that date occurs. The following additional rules apply to the quarterly return period procedure under this section:

(1) A taxpayer with multiple locations must combine the distilled spirits tax liability for all locations to determine eligibility for the quarterly return procedure;

(2) A taxpayer that has both domestic operations and import transactions must combine the distilled spirits tax liability on the domestic operations and the imports to determine eligibility for the quarterly return procedure;

(3) The controlled group rules of 26 U.S.C. 5061(e), which concern treatment of controlled groups as one taxpayer, do not apply for purposes of determining eligibility for the quarterly return procedure. However, a taxpayer that is eligible for the quarterly return procedure, and that is a member of a controlled group that owes $5 million or more in distilled spirits excise taxes per year, is required to pay taxes by electronic fund transfer (EFT). Quarterly payments via EFT must be transmitted in accordance with section 5061(e);

(4) A new taxpayer is eligible to file quarterly returns in the first year of business simply if the taxpayer reasonably expects to be liable for not more than $50,000 in distilled spirits taxes during that calendar year; and

(5) If a taxpayer filing quarterly exceeds $50,000 in tax liability during a taxable year and therefore must revert

to the semimonthly return procedure, that taxpayer may resume quarterly payments only after a full calendar year has passed during which the taxpayer's liability did not exceed $50,000.

(c) *Semimonthly return period.* Except in the case of a taxpayer that qualifies for, and chooses to use, quarterly return periods as provided in paragraph (b) of this section, all other taxpayers must use semimonthly return periods for deferred payment of tax. The semimonthly return periods will run from the 1st day through the 15th day of each month, and from the 16th day through the last day of each month, except as otherwise provided in § 19.237.

(d) *Definitions.* For purposes of this section, the following terms have the meanings indicated:

Reasonably expects. When used with reference to a taxpayer, *reasonably expects* means that there is no existing or anticipated circumstances known to the taxpayer (such as an increase in production capacity) that would cause the taxpayer's tax liability to exceed the prescribed limit.

Taxpayer. A *taxpayer* is an individual, corporation, partnership, or other entity that is assigned a single Employer Identification Number (EIN) as defined in 26 CFR 301.7702.12.

(26 U.S.C. 5061)

§ 19.236 Due dates for returns.

(a) *Semimonthly returns.* Except when payment is pursuant to a quarterly return as provided in paragraph (b) of this section, where the proprietor of bonded premises has withdrawn spirits from such premises on determination and before payment of tax, the proprietor must file a semimonthly tax return covering such spirits on form TTB F 5000.24, Excise Tax Return, and remittance, as required by § 19.238, § 19.239 or § 19.240, not later than the 14th day after the last day of the return period, except for returns filed for September as provided in § 19.237. If the due date falls on a Saturday, Sunday, or legal holiday, the return and payment are due on the immediately preceding day that is not a Saturday, Sunday, or legal holiday, except as provided in § 19.237(c).

(b) *Quarterly returns.* Where the proprietor of bonded premises has withdrawn spirits from such premises on determination and before payment of tax, and the proprietor uses quarterly return periods as provided in § 19.235(b), the proprietor must file a quarterly return covering such spirits on TTB F 5000.24, and remittance, as required by § 19.238, § 19.239, or § 19.240, not later than the 14th day after the last day of the quarterly return period. If the due date falls on a Saturday, Sunday, or legal holiday, the return and remittance will be due on the immediately preceding day which is not a Saturday, Sunday, or legal holiday.

(26 U.S.C. 5061)

§ 19.237 Special rule for semimonthly filers for the month of September.

(a) *Returns required for September.* If the proprietor is required to file semimonthly returns as provided in § 19.235(c), there are three return periods during the month of September. The first semimonthly return period is from the 1st day through the 15th day of the month and the return with remittance is due by the 29th of September. The second semimonthly return period for the month of September is divided into two payment periods. The exact dates of these periods depend upon whether the proprietor remits tax payments by EFT.

(1) *Taxpayments by EFT.* If the proprietor remits tax payments by EFT, the two payment periods for the second half of September are from the 16th through the 26th, and from the 27th through the 30th. The return on form TTB F 5000.24 and remittance for the period September 16–26 is due on or before September 29. The return on TTB F 5000.24 and remittance for the period September 27–30 is due no later than October 14.

(2) *Taxpayment other than by EFT.* If the proprietor is not required to pay the distilled spirits tax by EFT, the two payment periods for the second half of September are from the 16th through the 25th and from the 26th through the 30th. The return on TTB F 5000.24 and remittance for the period September 16–25 is due on or before September 28. The return on TTB F5000.24 and remittance for the period September 26–30 is due no later than October 14.

(b) *Amount of payment: Safe harbor rule*—(1) *EFT Taxpayers.* The proprietor satisfies the requirements of paragraph (a)(1) of this section if by September 29 the amount paid is at least eleven-fifteenths (73.3 percent) of the tax liability incurred in the semimonthly return period for September 1–15, and the proprietor also pays any underpayment of tax resulting from the use of the safe harbor rule on or before October 14.

(2) *Other than EFT taxpayers.* The proprietor satisfies the requirements of paragraph (a)(2) of this section if the amount paid by September 28 is at least two-thirds (66.7 percent) of the tax liability incurred in the semimonthly return period for September 1–15, and the proprietor also pays any underpayment of tax resulting from the use of the safe harbor rule on or before October 14.

(c) *Weekends and holidays.* If the required tax payment due date for the return period September 16–25 (non-EFT taxpayers) or September 16–26 (EFT taxpayers), falls on a Saturday or legal holiday, the proprietor's return and remittance are due on the immediately preceding day. If the required tax payment due date falls on a Sunday, the proprietor's return and payment are due on the immediately following day.

(d)

Example. Payment of tax for the month of September: (1) *Facts.* X, a proprietor required to pay taxes by electronic fund transfer, incurred tax liability in the amount of $30,000 for the first semimonthly period of September. For the period September 16–26, X incurred tax liability in the amount of $45,000, and for the period September 27–30, X incurred tax liability in the amount of $2,000.

(2) *Payment requirement.* X's payment of tax in the amount of $30,000 for the first semimonthly period of September is due no later than September 29. X's payment of tax for the period September 16–26 is also due no later than September 29. X may use the safe harbor rule to determine the amount of payment due for the period of September 16–26. Under the safe harbor rule, X's payment of tax must equal $22,000.00, eleven-fifteenths of the tax liability incurred during the first semimonthly period of September. Additionally, X's payment of tax in the amount of $2,000 for the period September 27–30 must be paid no later than October 14. X must also pay the underpayment of tax, $23,000.00, for the period September 16–26, no later than October 14.

(26 U.S.C. 5061)

§ 19.238 Payment by mail or courier.

(a) *Payment by mail.* The proprietor must file each return on form TTBF 5000.24 in accordance with the instructions printed on the form. If the proprietor submits the return by U.S. mail, the official postmark of the U.S. Postal Service stamped on the cover in which the return is mailed will be considered to be the date of delivery of the return and also the remittance, if included. If the postmark on the cover is illegible, the proprietor will bear the burden of proving when the postmark was made. If the proprietor sends the return with or without remittance by registered mail or certified mail, the date of registry, or the date of the postmark on the sender's postal receipt for certified mail, will be treated as the date of delivery of the return and also of the remittance, if included.

(b) *Payment by courier or other private delivery service.* A proprietor may send a return, with or without remittance, by courier or other private delivery service. If the proprietor sends the return with or without remittance with a courier or private delivery service that is available to the general public and that is at least as timely and reliable as the U.S. mail, and the delivery service has tracking and tracing procedures for its deliveries, TTB will consider the date of tender to the delivery service as recorded in the tracking and tracing record for the parcel as the date of delivery. If the proprietor sends the return, with or without remittance, by courier or other private delivery service that does not meet the above requirements, the actual date of delivery to TTB will be treated as the date of delivery of the return and also of the remittance, if included.

(26 U.S.C. 6302)

§ 19.239 Form of payment.

(a) *General.* The proprietor must pay the tax due on spirits when filing a return on form TTB F 5000.24, Excise Tax Return. The remittance for the tax must accompany the return and may be in any form that is authorized by § 70.61 of this chapter and acceptable to the appropriate TTB officer. Exception: This does not apply to payments that

must be made by EFT. For EFT payments see § 19.240.

(b) *Consequences of default.* If a check or money order tendered in payment of taxes is not paid on presentment, or if the taxpayer is otherwise in default in payment, then any remittance made during the period of default must be either in cash or by an acceptable certified instrument. The proprietor must continue to pay in cash or by certified instrument as long as the proprietor remains in default, and until the appropriate TTB officer finds that accepting a check will not jeopardize the revenue.

(c) *Certified instruments.* Acceptable certified instruments include certified checks, cashier's checks or treasurer's checks drawn on any bank or trust company incorporated under the laws of the United States, or under the laws of any State, Territory or possession of the United States, or a money order, as provided in § 70.61 of this chapter.

(d) *Payment of taxes.* The proprietor must make checks or money orders payable to ''Alcohol and Tobacco Tax and Trade Bureau''.

(26 U.S.C. 5061, 6311)

§ 19.240 Payment of tax by electronic fund transfer.

(a) *General*—(1) *Criteria requiring ETF payment.* Under certain conditions, a proprietor may not make payments by cash, check, or money order. Instead, the proprietor must use the services of a commercial bank to pay tax on distilled spirits tax by EFT. Payments must be made by EFT in the current calendar year if the proprietor, as a taxpayer, was liable for $5 million or more in taxes on distilled spirits during the prior calendar year. For the purpose of determining whether the proprietor is subject to this requirement, the proprietor must use the total amount of tax liability on distilled spirits incurred under this part and parts 26 and 27 of this chapter (gross tax liability). Gross tax liability includes the distilled spirits tax on all taxable withdrawals of spirits and taxable importations of spirits, as well as tax on spirits brought into the United States from Puerto Rico and the Virgin Islands during the calendar year. This figure includes taxes incurred at any and all premises at which the proprietor conducts regulated activities. The proprietor may not net out or adjust for any drawback, credits or refunds of tax that are allowed. Overpayments made in excess of actual tax liability will not be included in the gross tax liability figure.

(2) *Controlled group.* If the taxpayer is a member of a controlled group, the controlled group is treated as a single taxpayer when calculating liability of $5 million or more in distilled spirits taxes during the prior calendar year. A controlled group is a related group of taxpayers and is defined in subpart D of part 70 of this chapter.

(3) *Separate return and payment for each DSP.* When the proprietor makes payments by EFT, the proprietor must file a separate return on form TTB F 5000.24 and make a separate EFT payment for each DSP from which spirits are withdrawn upon determination of tax.

(b) *Requirements*—(1) *Notice to TTB.* If the proprietor's gross distilled spirits tax liability is $5 million or more in one calendar year, the proprietor must notify the appropriate TTB officer of this fact not later than January 10 of the following year. The proprietor must use the total amount of tax liability incurred under this part and parts 26 and 27 of this chapter to determine whether it must make this notification. Exception: this notice requirement does not apply if the proprietor already pays tax on distilled spirits by EFT. The notice shall be an agreement to make payments by EFT.

(2) *Separate EFT for each return.* For each return filed in accordance with this part, the proprietor will direct the bank to make an EFT to the Treasury Account for the amount of the tax reported due on the return. The proprietor must give instructions to the bank early enough for the EFT to be made to the Treasury Account by no later than close of business on the last day for filing the return as prescribed in §§ 19.236 or 19.237, as appropriate.

(3) *Discontinuing EFT payments.* If the proprietor pays tax by EFT and has a gross tax liability of less than $5 million in distilled spirits taxes during a calendar year, combining tax liabilities incurred under this part and parts 26

and 27 of this chapter, payment by EFT will be optional in the following year. The proprietor may continue to remit tax payment by EFT as provided in this section, or the proprietor may remit taxpayment using any acceptable method as set forth in §19.239. If the proprietor decides to stop paying tax by EFT, the proprietor must give the appropriate TTB officer written notice of that decision. The proprietor must attach a written notice to the first return on form TTB F 5000.24 filed using a method of payment other than EFT. Such notice must state that tax is not due by EFT because the proprietor's tax liability during the preceding calendar year was less than $5 million. The proprietor must further state that future tax payments will be filed with the returns on TTB F 5000.24.

(c) *Remittance*—(1) *Identifying EFT payments.* When the proprietor completes the return on TTB F 5000.24, the proprietor must indicate on the form that the tax was paid by EFT. The proprietor must file the completed TTB F 5000.24 with TTB as directed by the instructions on the form.

(2) *Credit for payment.* TTB will credit the proprietor as having made a tax payment when the Treasury Account receives the EFT. TTB considers the EFT to be received by the Treasury Account when the EFT is paid to a Federal Reserve Bank.

(3) *Record of payment.* When a proprietor directs a bank to make an EFT as required by paragraph (b)(2) of this section, any transfer data record furnished to the proprietor as part of normal banking procedures will serve as the record of payment. The proprietor will retain this document as part of the required records.

(d) *Failure to make a tax payment by EFT.* The proprietor will be subject to a penalty imposed by 26 U.S.C. 5684, 6651, or 6656 for failure to make a required EFT tax payment before close of business on the last day for filing.

(e) *Procedure.* Upon receipt of a notice filed pursuant to paragraph (b)(1) of this section, the appropriate TTB officer will provide the proprietor with a copy of the TTB Procedure entitled ''Payment of Tax by Electronic Fund Transfer''. This publication outlines the procedure that the proprietor must follow when preparing returns and payments by EFT as required by this part. The proprietor must follow instructions provided by Customs and Border Protection (CBP) for submitting the EFT payments that must be made to CBP.

(26 U.S.C. 5061, 6302)

Requirements for Employer Identification Numbers

§19.242 Employer identification number.

The proprietor must enter the employer identification number (EIN) assigned to it by the Internal Revenue Service on each form TTB F 5000.24, Excise Tax Return, filed with TTB. Failure to enter the assigned EIN on TTB F 5000.24, may result in a $50.00 penalty for each occurrence as specified in §70.113 of this chapter.

(26 U.S.C. 6109, 6723)

§19.243 Application for employer identification number.

(a) *Use Form SS–4.* The proprietor must obtain an employer identification number (EIN) by filing an application with the Internal Revenue Service (IRS) on Form SS–4. Form SS–4 is available from Internal Revenue Service Centers, from IRS District Directors, the IRS Web site at *http://www.irs.gov*, or from TTB's National Revenue Center. The proprietor may file this form with IRS by mail, telephone, or fax by following the instructions on the form.

(b) *Time limit.* If the proprietor has not already received, or applied for, an EIN at the time that the first return on form TTB F 5000.24, Excise Tax Return, is filed, the proprietor must file such application for an EIN not later than seven days from the date of filing the TTB F 5000.24.

(c) *One EIN only.* Each proprietor must obtain and use only one EIN, regardless of the number of places of business for which the proprietor is required to file a tax return under this subpart.

(26 U.S.C. 6109)

EFFECTIVE TAX RATES

§ 19.245 Tax credits under 26 U.S.C. 5010.

(a) *The distilled spirits tax.* Sections 5001 and 7652 of the IRC impose a tax on all distilled spirits produced in, or imported into, or brought into the United States at the rate prescribed in section 5001 of the IRC.

(b) *Tax credits.* Section 5010 of the IRC provides a credit for the wine and flavors content in distilled spirits products. These credits effectively reduce the rate of excise tax paid on distilled spirits products that contain eligible wines and eligible flavors. As a result, the alcohol derived from eligible wine is taxed at the rates specified for wine in 26 U.S.C. 5041, and the alcohol derived from eligible flavors is not taxed to the extent that it does not exceed 2.5 percent of the alcohol in the product. This results in an effective tax rate on the distilled spirits product that is lower than the rate prescribed in 26 U.S.C. 5001.

(c) *Eligible wine and eligible flavor.* The credit for the wine and flavor content of a distilled spirits product is allowable only if the wine or flavor contained in the product is an ''eligible wine'' or an ''eligible flavor''. To determine whether a wine or flavor is eligible, refer to the definitions in § 19.1 and 26 U.S.C. 5010.

(d) *Application of effective tax rates.* Section 19.246 describes how the proprietor should compute the effective tax rate for each distilled spirits product containing eligible wine or eligible flavor. Sections 19.247 through 19.250 set forth several different methods that the proprietor may use in applying the effective tax rates to taxable removals of products from the proprietor's bonded premises.

(26 U.S.C. 5010)

§ 19.246 Computing the effective tax rate for a product.

(a) *How to compute effective tax rates.* In order to determine the effective tax rate for a distilled spirits product containing eligible wine or eligible flavor, the proprietor must first determine the total excise taxes due on the product from all sources including distilled spirits, eligible wine, and alcohol from eligible flavors in excess of 2.5 percent of the total proof gallons in the product. Then, the proprietor must determine the total number of proof gallons of alcohol in the product regardless of the source. By dividing the total tax (numerator) by the total number of proof gallons (denominator) the proprietor will arrive at the effective tax rate for the product in dollars per proof gallon. The proprietor will compute the effective tax rate according to the following formula:

(1) *Numerator.* The numerator will be the sum of:

(i) The proof gallons of all distilled spirits used in the product (exclusive of distilled spirits derived from eligible flavors), multiplied by the tax rate prescribed by 26 U.S.C. 5001;

(ii) The wine gallons of each eligible wine used in the product, multiplied by the tax rate prescribed by 26 U.S.C. 5041(b)(1), (2), or (3), that would be imposed on the wine but for its removal to bonded premises. Three different tax classes of wine are eligible for the tax credit. The proprietor will have to repeat this step for each different tax class of eligible wine used; and

(iii) The proof gallons of all distilled spirits derived from eligible flavors used in the product, multiplied by the tax rate prescribed by 26 U.S.C. 5001, but only to the extent that such distilled spirits exceed 2.5 percent of the denominator prescribed in paragraph (a)(2) of this section.

(2) *Denominator.* The denominator will be the sum of:

(i) The proof gallons of all distilled spirits used in the product, including distilled spirits derived from eligible flavors; and

(ii) The wine gallons of each eligible wine used in the product, multiplied by twice the percentage of alcohol by volume of each, divided by 100.

(b) *Rounding numbers*—(1) *Proof gallons.* When determining the effective tax rate, the proprietor must express quantities of distilled spirits, eligible wine, and eligible flavors to the nearest tenth of a proof gallon.

(2) *Tax rates.* The proprietor may round the effective tax rate to as many decimal places as the proprietor deems appropriate, provided that the rate is expressed no less exactly than the rate

rounded to the nearest whole cent. The proprietor must be consistent and round the effective tax rates for all products to the same number of decimal places. When rounding, if the number to the right of the last decimal place to be kept is less than five, it will be dropped, if it is five or over, a unit will be added.

(c) *Example.* The following is an example of the use of the formula.

BATCH RECORD

Distilled spirits	2249.1 proof gallons.
Eligible wine (14% alcohol by volume).	2265.0 wine gallons.
Eligible wine (19% alcohol by volume).	1020.0 wine gallons.
Eligible flavors	100.9 proof gallons.

$$\frac{2249.1(\$13.50) + 2265.0(\$1.07) + 1020(\$1.57) + 16.6^{1}(\$13.50)}{2249.1 + 100.9 + (2265.0 \times .28) + (1020 \times .38)} =$$

$$\frac{\$30{,}362.85 + \$2{,}423.55 + \$1{,}601.40 + \$224.10}{2{,}350.0 + 634.2 + 387.6} =$$

$$\frac{\$34{,}611.90}{3{,}371.8} = \$10.27, \text{ the effective tax rate.}$$

(26 U.S.C. 5010)

§ 19.247 Use of effective (actual) tax rates.

(a) *Select method of applying tax rate.* The proprietor may choose to apply an effective tax rate to taxable removals of distilled spirits products in accordance with § 19.248, § 19.249, or § 19.250. Any proprietor who does not elect one of these options must establish an effective tax rate for each batch of distilled spirits product on which a claim for tax credit for alcohol derived from eligible wine or eligible flavor will be made. The proprietor must compute the effective tax rates for these products in accordance with the instructions in § 19.246.

(b) *Record tax rates used.* The proprietor must record the effective tax rate used on the dump or batch records for the products as required by § 19.598. The proprietor must record the serial numbers of cases of product removed at each rate on the record of tax determination or other related record. The proprietor must keep these records available for inspection by TTB officers.

(26 U.S.C. 5010, 5207)

§ 19.248 Standard effective tax rate.

(a) *Establishing a standard effective tax rate for a product.* The proprietor may establish a permanent standard effective tax rate for any eligible distilled spirits product, rather than calculate a separate effective tax rate for each

[1] Proof gallons by which distilled spirits derived from eligible flavors exceed 2.5% of the total proof gallons in the batch (100.9 − (2.5% × 3,371.8) = 16.6).

batch of product made. If the proprietor elects to use this option, the proprietor must determine the permanent standard effective tax rate based on the least quantity and the lowest alcohol content of eligible wine or eligible flavors used to manufacture the product. Thus, the permanent standard effective tax rate is the highest tax rate that would apply to the product because it is based on a batch with the least amount of alcohol from eligible wine and flavors that qualify for the credit under 26 U.S.C. 5010. By using this method the proprietor forgoes the possible use of a lower tax rate in exchange for the convenience of using a permanent standard effective tax rate that does not have to be recomputed for each batch of product made. The proprietor must keep a permanent record of the standard effective tax rates established for each product, in accordance with § 19.615.

(b) *Batches subject to a higher tax rate.* Whenever the proprietor manufactures a batch of the product with a lesser quantity or lower alcohol content of eligible wine or eligible flavor, this will result in a higher tax rate on the product since the product will have less alcohol qualifying for the credit under 26 U.S.C. 5010 and a higher percentage of alcohol taxable at the rate published in 26 U.S.C. 5001. In such instances, the proprietor must keep the cased goods segregated from other completed cases of the same product subject to the permanent standard effective tax rate for that product. The proprietor must determine the tax rate for the nonstandard batch in accordance with § 19.247.

(c) *TTB review of standard tax rates.* If the appropriate TTB officer finds that the use of this procedure jeopardizes the revenue, or causes administrative difficulty, the proprietor upon notification from TTB must discontinue use of this procedure.

(26 U.S.C. 5010, 5207)

§ 19.249 Average effective tax rate.

(a) *Establishing an average tax rate.* The proprietor may establish an average effective tax rate for any eligible distilled spirits product based on the total proof gallons in all batches of the same composition which have been produced during the preceding 6-month period and which have been or will be bottled or packaged, in whole or in part, for domestic consumption. At the beginning of each month, the proprietor must recompute the average effective tax rate so as to include only the immediately preceding 6-month period. The proprietor must show the average tax rate established for a product in the record of average effective tax rates as prescribed in § 19.613.

(b) *TTB review of average effective tax rates.* If the appropriate TTB officer finds that the use of this procedure jeopardizes the revenue, or causes administrative difficulty, the proprietor upon notification from TTB must discontinue use of this procedure.

(26 U.S.C. 5010, 5207)

§ 19.250 Inventory reserve account.

(a) The proprietor may establish an inventory reserve account for any eligible distilled spirits product by maintaining an inventory reserve record as prescribed by § 19.614. The effective tax rate applied to each removal or other disposition will be the effective tax rate recorded on the inventory reserve record from which the removal or other disposition is depleted. With an inventory reserve account, the proprietor will tax pay removals on a first-in first-out basis regardless of which lot of product is actually removed.

(b) If the appropriate TTB officer finds that the use of this procedure jeopardizes the revenue, or causes administrative difficulty, the proprietor upon notification from TTB must discontinue use of this procedure.

(26 U.S.C. 5010, 5207)

Assessment of Taxes by TTB

§ 19.253 Assessment of tax on spirits not accounted for or reported.

The proprietor is required by law to properly account for and report all spirits that it produces. TTB will assess the proprietor for the tax on the difference between the quantity reported and the quantity actually produced.

(26 U.S.C. 5006)

§ 19.254 Assessment of tax for losses or unauthorized removals.

(a) *Lost or destroyed in bond.* TTB will assess the proprietor for the tax on spirits, denatured spirits, or wines in bond that are lost or destroyed if:

(1) The proprietor is liable for the tax on spirits, denatured spirits, or wines in bond, and the proprietor fails to file a claim for remission of the tax on spirits, denatured spirits, or wines that are lost or destroyed in bond as provided in § 19.263(a), or

(2) The proprietor files a claim for such loss or destruction but the claim is denied. Exception: The provisions of this section do not apply to spirits, denatured spirits, or wines on which the tax is not collectable due to the provisions of 26 U.S.C. 5008(a) or (d), or 26 U.S.C. 5370, as applicable.

(b) *Unauthorized removal from bond.* (1) TTB will assess the proprietor for the tax on any spirits, denatured spirits, or wines in bond that are removed from bonded premises other than as authorized by law.

(2) TTB will assess the proprietor for tax on spirits or denatured spirits lost from casks or other packages as described in 26 U.S.C. 5006(b) if the proprietor does not pay the tax upon demand by the appropriate TTB officer.

(26 U.S.C. 5006, 5008, 5370)

ADDITIONAL TAX PROVISIONS

§ 19.256 Tax on wine.

(a) *Imposition of tax.* All wine (including imitation, substandard, or artificial wine, and compounds sold as wine) produced in or imported into or brought into the United States is subject to tax pursuant to 26 U.S.C. 5041 or 7652. The proprietor may be liable for wine taxes under 26 U.S.C. 5362(b)(3) for wine that is transferred in bond to the proprietor's distilled spirits plant. The proprietor may not remove wine from the bonded premises of a distilled spirits plant for consumption or sale as wine. (*See* 26 U.S.C. 5362.)

(b) *Liability for tax.* Except as otherwise provided by law, the proprietor is liable for the tax on wine transferred in bond to the proprietor's distilled spirits plant from a bonded wine cellar or from another distilled spirits plant until the proprietor uses the wine in the manufacture of a distilled spirits product or properly disposes of the wine as provided elsewhere in this part.

(26 U.S.C. 5041, 5362, 7652)

§ 19.257 Imported spirits.

The proprietor will incur a tax liability greater than the internal revenue tax imposed by 26 U.S.C. 5001(a)(1), if spirits originally imported for nonbeverage purposes are transferred from customs custody to TTB bonded premises pursuant to 26 U.S.C. 5232, and the proprietor subsequently decides to withdraw the spirits for beverage purposes. If the spirits would have been subject to a higher duty had they been imported for beverage purpose, the proprietor must pay a tax equal to the difference between the higher duty and the duty actually paid. Proprietors will refer to this additional tax as ''additional tax—less duty'' and pay it at the same time and in the same manner as the distilled spirits excise tax. Proprietors must compute the amount of ''additional tax—less duty'' owed by applying this rate to the total quantity of proof gallons withdrawn. The proprietor must make a separate entry on the tax return labeled ''additional tax—less duty'' and show the amount of tax due.

(26 U.S.C. 5001)

§ 19.258 Additional tax on nonbeverage spirits.

The additional tax imposed by 26 U.S.C. 5001(a)(8), on imported spirits withdrawn from customs custody without payment of tax and later withdrawn from bonded premises for beverage purposes, and the related provisions of § 19.257, are not applicable to Puerto Rican or Virgin Islands spirits brought into the United States and transferred to bonded premises under the provisions of this part.

(26 U.S.C. 5201)

(2) *Losses in transit.* For claims on spirits, denatured spirits, articles, or wines lost while being transferred by a carrier, the claim must be supported by a copy of the bill of lading.

(3) *Spirits withdrawn without payment of tax.* If the lost spirits were withdrawn without payment of tax for research, development, or testing, the claim must be supported by a copy of the proprietor's sample record prescribed in subpart V of this part.

(26 U.S.C. 5008, 5370)

§ 19.264 Claims on spirits returned to bonded premises—specific requirements.

(a) *General.* Section 5215(a) of the IRC allows for the return of tax paid or tax determined spirits to the bonded premises of a distilled spirits plant under certain conditions. In addition, section 5008(c) of the IRC allows a proprietor to file a claim for credit or refund of tax on the spirits returned to bonded premises under section 5215(a). For information on allowable returns see subpart Q of this part.

(b) *Claims for credit or refund.* A claim for credit or refund of tax on spirits returned to bonded premises under section 5215(a) must include the following information:

(1) Quantity of spirits so returned;

(2) Amount of tax for which the claim is filed;

(3) Name, address, and plant number of the plant to which the spirits were returned and the date of the return;

(4) The purpose for which the spirits were returned; and

(5) The serial number of the gauge record for the returned spirits.

(c) *Puerto Rican and Virgin Islands spirits and imported rum.* If the alcoholic content of the spirits contain at least 92 percent Puerto Rican or Virgin Islands rum, or if the spirits contain rum imported from any area other than Puerto Rico and the Virgin Islands, the claim must show:

(1) Proof gallons of the finished product derived from Puerto Rican or Virgin Islands spirits, or derived from rum imported from any other area; and

(2) The amount of tax imposed by 26 U.S.C. 7652 or 26 U.S.C. 5001, determined at the time of withdrawal from bond, on the Puerto Rican or Virgin Islands spirits, or on the rum imported from any other area, contained in the product.

(d) *Products subject to 26 U.S.C. 5010 tax credits.* A claim for credit or refund of tax on spirits containing eligible wine or eligible flavors must include the date and serial number of the record of tax determination and the effective tax rate at which the tax was paid or determined. If this information is not provided, the amount of tax claimed will be based on the lowest effective tax rate applied to the product.

(e) *Limits on claims.* Claims for credit or refund of tax must be filed by the proprietor of the plant to which the spirits were returned. The claim must be filed within six months of the date of the return. No interest is allowed on any claims for refund or credit.

(26 U.S.C. 5008, 5215)

§ 19.265 Claims relating to spirits lost after tax determination.

Claims for abatement, credit, or refund of tax under this part, relating to losses of spirits occurring on bonded premises after tax determination but prior to physical removal from such premises, will be prepared and filed in accordance with the regulations in § 19.263(b) and (c).

(26 U.S.C. 5008)

RULES REGARDING CREDITS, ABATEMENT, REMISSION, OR REFUND

§ 19.266 Claims for credit of tax.

A proprietor may file a claim for credit of tax, as provided in this part, after the tax has been determined, whether or not the tax has been paid. However, a proprietor may not anticipate allowance of a credit or make an adjusting entry in a tax return pending action on the claim.

(26 U.S.C. 5008, 5215)

§ 19.267 Adjustments for credited tax.

When a proprietor receives a notice of allowance of credit from TTB, including notification of credit for tax on spirits exported with benefit of drawback as provided in part 28 of this chapter, the proprietor will make an adjusting entry and an explanatory statement on its next excise tax return. The proprietor will identify the notification of allowance of credit that authorizes the adjusting entry in the explanatory statement. If the allowable tax credit is greater than the tax due on the excise tax return, the proprietor will apply the balance of the tax credit to one or more following tax returns until the tax credit is exhausted.

(26 U.S.C. 5008, 5062)

§ 19.268 Allowance of remission, abatement, credit, or refund of tax.

The appropriate TTB officer is authorized to allow claims for remission, abatement, credit, and refund of tax, filed under the provisions of this part.

(26 U.S.C. 5008)

RULES FOR PUERTO RICAN AND VIRGIN ISLANDS SPIRITS

§ 19.269 Puerto Rican and Virgin Islands spirits.

(a) The provisions of 26 U.S.C. 5008, authorizing abatement, remission, credit, or refund for loss or destruction of distilled spirits, also apply to spirits brought into the United States from Puerto Rico or the Virgin Islands with respect to the following:

(1) Spirits lost while in TTB bond;

(2) Voluntary destruction of spirits in bond;

(3) Spirits returned to bonded premises after withdrawal without payment of tax; and

(4) Spirits returned to bonded premises after withdrawal upon tax determination.

(b) In addition to the information required by §19.263, claims relating to spirits lost in bond must show the name of the producer and the serial number and date of the formula under which produced, if any.

(26 U.S.C. 5008, 5215)

Subpart K—Gauging

§ 19.281 Scope.

This subpart covers gauging, which is the determination of the quantity and the proof of distilled spirits. Topics covered in this subpart include: The general requirements for gauging; when gauges are required at distilled spirits plants; and special rules that apply to the gauges performed at distilled spirits plants. For additional requirements and procedures governing gauging, see part 30 of this chapter, Gauging Manual.

§ 19.282 General requirements for gauging and measuring equipment.

A proprietor is required to perform periodic gauges of the spirits, wines, and alcoholic flavorings at the plant. A proprietor must have accurate and readily usable gauging and measuring equipment as required by this part and part 30 of this chapter. At any time, TTB may require that the proprietor's gauges be performed in the presence of, and be verified by, a TTB officer. In addition, TTB may disapprove the use of any equipment, or the proprietor's means of gauging, if TTB finds that it is not sufficiently accurate or suitable for the gauges and measurements to be made.

(26 U.S.C. 5006, 5204)

REQUIRED GAUGES

§ 19.283 When gauges are required.

The proprietor must gauge spirits, wine, and alcoholic flavoring materials when required to do so by the appropriate TTB officer or when the spirits, wine, or flavoring materials are:

(a) Produced and entered for deposit;
(b) Filled into packages from storage tanks;
(c) Transferred or received in bond;
(d) Transferred between operational accounts;
(e) Mixed in the manufacture of a distilled spirits product;
(f) Mingled under § 19.329;
(g) Reduced in proof before bottling;
(h) Voluntarily destroyed;
(i) Removed or withdrawn from bond;
(j) Tax determined;
(k) Returned to bond; or
(l) Denatured.

(26 U.S.C. 5204, 5559)

RULES FOR GAUGING

§ 19.284 Quantity determination of bulk spirits.

(a) *Gauge of spirits in packages.* When determining the quantity of bulk spirits in packages, the proprietor must determine the quantity by weight as provided in part 30 of this chapter.

(b) *Bulk gauge for tax determination.* When determining the quantity of bulk spirits for determination of tax or when performing a production gauge that will be used for tax determination, the proprietor must determine the quantity by weight as provided in part 30 of this chapter or by an accurate mass flow meter. For tax determination purposes, an accurate mass flow meter is a mass flow meter that has been certified by the manufacturer or other qualified person as accurate within a tolerance of plus or minus 0.1 percent.

(c) *Volumetric determination.* Except as provided in paragraphs (a) and (b) of this section, in all other instances when the proprietor is required to gauge bulk spirits in bond, the proprietor may determine the quantity by either weight or volume. When the proprietor determines the quantity by volume, the proprietor must measure the spirits by using:

(1) A tank or bulk conveyance for which a calibration chart is provided, with the calibration charts certified as accurate by persons qualified to calibrate tanks or bulk conveyances; or

(2) An accurate mass flow meter. For purposes of this paragraph, an accurate mass flow meter is a mass flow meter that has been certified by the manufacturer or other qualified person as accurate within a tolerance of plus or minus 0.5 percent; or

(3) Another device or method approved by the appropriate TTB officer.

(26 U.S.C. 5559)

§ 19.285 Proof determination of distilled spirits.

(a) *Proof.* Except as provided in paragraph (b) of this section, when the proprietor is required to gauge distilled spirits, the proprietor must determine the proof in accordance with the procedures prescribed in part 30 of this chapter, Gauging Manual.

(b) *Use of Initial proof.* After a proprietor has determined the proof of distilled spirits in accordance with the procedures in part 30 of this chapter, a proprietor may use the initial determination of proof when required to make a later gauge at the same plant. However, a proprietor must determine the proof again when:

(1) A bottling tank gauge is required by § 19.353;

(2) A gauge for tax determination is required by § 19.226; or

(3) In any case where the proof may have changed.

(26 U.S.C. 5559)

§ 19.286 Gauging of spirits in bottles.

When gauging spirits in bottles, the proprietor may determine the proof and quantity from case markings and label information if the bottles are full and there is no evidence that tampering has occurred.

(26 U.S.C. 5204, 5559)

§ 19.287 Gauging of alcoholic flavoring materials.

Generally, alcoholic flavoring material must be gauged when dumped. However, when received from a manufacturer in a closed, nonporous container such material may be gauged by using the proof shown on the container label or a related statement of proof from the manufacturer. When the proof is determined from a label or manufacturer's statement, the proprietor will test a sufficient number of samples to

verify the accuracy of the proof so determined. TTB may require that alcoholic flavoring materials be gauged by the methods provided in part 30 of this chapter.

(26 U.S.C. 5204, 5559)

§ 19.288 Determination of tare.

When packages are to be individually gauged for withdrawal from bonded premises, the actual tare must be determined in accordance with part 30 of this chapter.

(26 U.S.C. 5204)

§ 19.289 Production gauge.

(a) *General requirements for production gauges.* A proprietor must gauge all spirits by determining the quantity and proof as soon as reasonably possible after production is completed. Except as otherwise provided in this section, a proprietor may determine the quantity by volume or by weight, by an accurate mass flow meter, or when approved by the appropriate TTB officer, by other devices or methods that accurately determine the quantities. If caramel is added to brandy or rum, the proof of the spirits must be determined after the addition. Spirits in each receiving tank will be gauged before any reduction in proof and both before and after each removal of spirits. The gauges must be recorded in the records required by § 19.585.

(b) *Tax to be determined on production gauge.* If the tax is to be determined based on the production gauge, all transaction records must be marked ''Withdrawal on Production Gauge.'' A proprietor may determine the tax based on the production gauge if the spirits are:

(1) Weighed into bulk conveyances or metered using an accurate mass flow meter;

(2) Uniformly filled by weight or an accurate mass flow meter into metal packages; or

(3) Filled by weight or an accurate mass flow meter into packages for immediate withdrawal from bonded premises with the details recorded on a package gauge record in accordance with § 19.619.

(c) *Tax not to be determined on production gauge.* If spirits are drawn from the production system into barrels, drums, or similar portable containers of the same rated capacity and the containers are filled to capacity, and the tax is not to be determined on the basis of the production gauge, the gauge may be made by:

(1) Weighing in a tank, converting the weight into proof gallons, and determining the average content of each container;

(2) Measuring volumetrically, in a calibrated tank, converting the wine gallons determined into proof gallons, and determining the average content of each container;

(3) Converting the rated capacity into proof gallons to determine the average content of each container. Rated capacity will be determined from specifications of the manufacturer. The proprietor will determine the rated capacity of used cooperage; or

(4) Determining by an accurate mass flow meter or a device or method approved under paragraph (a) of this section, the total quantity filled into containers, and determining the average content of each container.

(d) *Records of production gauge.* For the production gauge, fractional proof gallons will be rounded to the nearest one-tenth and the average content and the number of packages filled will be used in computing the quantity produced. The actual proof gallons in each remnant container must be shown. As provided in § 19.618, a separate gauge record will be prepared for each lot of packages filled (see § 19.485) and for each removal by pipeline or bulk conveyance for deposit in bond on the same plant premises. The gauge record will show ''Deposit in storage'' or ''Deposit in processing.'' If spirits are to be transferred in bond or withdrawn from bond, the production gauge will be made on the form or record required by this part (accompanied by a package gauge record, if required).

Subpart L—Production of Distilled Spirits

§ 19.291 General.

The regulations in this subpart cover production operations. A proprietor authorized to produce distilled spirits must conduct production operations in accordance with the provisions of this subpart. Subpart V of this part sets forth recordkeeping requirements that apply to production operations.

(26 U.S.C. 5201)

NOTIFICATION TO TTB WHEN BEGINNING OR SUSPENDING PRODUCTION OPERATIONS

§ 19.292 Notice of operations.

A proprietor authorized to produce distilled spirits may not commence, suspend, or resume production operations at the plant without first providing written notice to TTB.

(a) *Beginning operations.* A proprietor must file a letterhead notice with the appropriate TTB officer before beginning or resuming production operations. A proprietor must not begin or resume operations before the time specified in the notice.

(b) *Suspending operations.* If a proprietor intends to suspend production operations for a period of 90 days or more, the proprietor must file a letterhead notice with the appropriate TTB officer specifying the date on which operations will be suspended.

(c) *Discontinuing reports.* A proprietor is not required to prepare or file reports of production operations under subpart V of this part for periods during which production operations are suspended.

(26 U.S.C. 5221)

RULES FOR RECEIPT, USE, AND DISPOSAL OF MATERIALS

§ 19.293 Receipt of materials.

When a proprietor receives certain materials on bonded premises, the proprietor must determine the quantity received and record those quantities in the records prescribed by subpart V of this part. This requirement applies to:

(a) Fermenting materials;

(b) Distilling materials (including nonpotable chemical mixtures containing spirits); and

(c) Spirits, denatured spirits, articles, and spirits residue for redistillation.

(26 U.S.C. 5201, 5222, 5223)

§ 19.294 Removal of fermenting material.

Material received for use as fermenting material may be removed from or used on bonded premises for other purposes. The proprietor must keep a record of use or removal as provided in subpart V of this part.

(26 U.S.C. 5201)

§ 19.295 Removal or destruction of distilling material.

(a) *Distilling material.* Generally, a proprietor may not remove distilling material from bonded premises before it is distilled. However, a proprietor may remove mash, wort, wash, or other distilling material:

(1) To plant premises, other than bonded premises, for use in any business authorized under § 19.55;

(2) To other premises for use in processes not involving the production of spirits, alcohol beverages, or vinegar by the vaporizing process; or

(3) For destruction.

(b) *Residues.* A proprietor may remove the residue of distilling material not introduced into the production system from the premises if the liquid is extracted from the material before removal and the liquid is not received at any distilled spirits plant or bonded wine cellar. A proprietor may return residue of beer used as distilling material to the producing brewery. A proprietor may destroy distilling material produced and wine and beer received for use as distilling material.

(c) *Records.* A proprietor must keep a record of removal or destruction as provided in subpart V of this part.

(26 U.S.C. 5222, 5370)

§ 19.296 Fermented materials.

Fermented materials that a proprietor intends to use in the production of spirits must be:

(a) Produced on the bonded premises where used;

(b) Received from a bonded wine cellar in the case of wine;

(c) Beer received from a brewery without payment of tax, or beer that was removed from a brewery upon determination of tax; or

(d) Apple cider exempt from tax under 26 U.S.C. 5042(a)(1).

(26 U.S.C. 5201, 5222, 5223)

§ 19.297 Use of materials in production of spirits.

A proprietor may produce spirits from any suitable material in accordance with the proprietor's statements of production procedure in the notice of registration. Materials from which alcohol will not be produced may be used in production only if the use of the materials is described in the approved statements of production procedure. The distillation of nonpotable chemical mixtures as described in § 19.36 will be deemed to be the original and continuous distillation of the spirits in such mixtures and to constitute the production of spirits.

(26 U.S.C. 5172, 5178)

RULES FOR PRODUCTION OF SPIRITS

§ 19.301 Distillation.

The distillation of spirits must be done in a continuous system. Distilling operations are continuous when the spirits are moved through the various steps of production as quickly as plant operation will permit. The proprietor may move the product through as many distilling or other production operations as desired, provided the operations are continuous. The collection of unfinished spirits for the purpose of redistillation is not considered to be a break in the continuity of the distilling procedure. However, the quantity and proof of any unfinished spirits must be determined and recorded before any mingling with other materials or before any further operations involving the unfinished spirits outside the continuous system. Before the production gauge, spirits may be held only as long as reasonably necessary to complete the production procedure.

(26 U.S.C. 5178, 5211, 5222)

§ 19.302 Treatment during production.

During production, the proprietor may purify or refine the spirits by using any material that will not remain in the finished product. Juniper berries and other natural aromatics or their extracted oils may be used in the distillation of gin. Spirits may be percolated through or treated with oak chips that have not been treated with any chemical. The proprietor must destroy or so treat any materials used in treatment of spirits, and which do not remain in the spirits, so as to preclude the extraction of potable spirits.

(26 U.S.C. 5201)

§ 19.303 Addition of caramel to rum or brandy and addition of oak chips to spirits.

A proprietor may add caramel that has no material sweetening properties to rum or brandy in packages or tanks prior to production gauge. A proprietor may add oak chips that have not been treated with any chemical to packages of spirits prior to or after the production gauge. The proprietor must note the use of oak chips on all transaction records.

(26 U.S.C. 5201)

§ 19.304 Production gauge.

A proprietor must gauge all spirits by determining the quantity and proof as soon as reasonably possible after production is completed. Additional requirements regarding production gauges are found in subpart K of this part.

(26 U.S.C. 5204, 5211)

§ 19.305 Identification of spirits.

Upon completion of the production gauge, the proprietor must identify containers of spirits as provided in subpart S of this part. When the proprietor intends to enter spirits into bonded storage for later packaging in wooden packages, the proprietor may identify the spirits with the designation to which they would be entitled if drawn into wooden packages, followed by the word ''Designate,'' for example, ''Bourbon Whisky Designate.''

(26 U.S.C. 5201, 5206)

§ 19.306 Entry.

(a) Following completion of the production gauge, a proprietor must make the appropriate entry for:

(1) Deposit of the spirits on bonded premises for storage or processing;

(2) Withdrawal of the spirits on determination of tax;

(3) Withdrawal of the spirits free of tax;

(4) Withdrawal of the spirits without payment of tax; or

(5) Transfer of the spirits for redistillation.

(b) A proprietor may use the production gauge as the entry gauge when spirits are:

(1) Deposited for storage or processing at the same distilled spirits plant; or

(2) Entered for redistillation at the same distilled spirits plant.

(c) When spirits are entered for deposit at another distilled spirits plant or are entered for withdrawal or redistillation, the provisions subpart P of this part will apply.

(26 U.S.C. 5211)

§ 19.307 Distillates containing extraneous substances.

(a) *Use in production.* Distillates that contain substantial quantities of fusel oil, aldehydes, or other extraneous substances may be removed from the distilling system before the production gauge and promptly added to fermenting or distilling material at the distillery where produced.

(b) *Use at adjacent bonded wine cellar.* Distillates that contain aldehydes may be removed, without payment of tax, to an adjacent bonded wine cellar for use in fermentation of wine to be used as distilling material at the distilled spirits plant from which the distillates were removed. The removal of distillates to an adjacent bonded wine cellar must be done as provided in § 19.419. The receipt and use of those distillates must conform to the requirements of part 24 of this chapter.

(26 U.S.C. 5201, 5222, 5373)

RULES FOR CHEMICAL BYPRODUCTS

§ 19.308 Spirits content of chemicals produced.

All chemicals and chemical byproducts produced must be substantially free of spirits before being removed from bonded premises. The spirits content of chemicals to be removed from bonded premises must not exceed 10 percent by volume unless the appropriate TTB officer approves higher limits. A proprietor must test chemicals for spirits content and maintain a record of such tests as required by § 19.584.

(26 U.S.C. 5201)

§ 19.309 Disposition of chemicals.

Chemicals that meet the requirements in § 19.308 may be removed from bonded premises by pipeline or in containers marked to show the contents. The proprietor must determine the quantities of chemicals removed from bonded premises and keep records of removals as required by § 19.586. A TTB officer may take samples of chemicals.

(26 U.S.C. 5201, 5222)

§ 19.310 Wash water.

Water used in washing chemicals to remove spirits may be run into a wash tank or a distilling material tank, or may be destroyed or disposed of on the premises.

(26 U.S.C. 5008, 5201)

PRODUCTION INVENTORIES

§ 19.312 Physical inventories.

A proprietor must take a physical inventory of the spirits and denatured spirits in tanks and other containers in the production account at the close of each calendar quarter. A proprietor must record the results of the inventory as provided in subpart V of this part and must show separately spirits and denatured spirits received for redistillation. TTB may require additional inventories be taken at any time.

(26 U.S.C. 5201)

RULES FOR REDISTILLATION

§ 19.314 General.

Distillers or processors may redistill spirits, denatured spirits, articles, and spirits residues. Some redistillation requires an approved formula on form TTB F 5100.51, Formula and Process for Domestic and Imported Alcohol Beverages, as specified in §§ 5.26 and 5.27 of this chapter.

(26 U.S.C. 5223)

§ 19.315 Receipts for redistillation.

(a) A proprietor may receive and redistill spirits or denatured spirits that:

(1) Have not been removed from bond;

(2) Have been withdrawn from bond on payment or determination of tax and returned to bond under subpart Q of this part;

(3) Have been withdrawn from bond free of tax or without payment of tax and returned to bond under subpart T of this part; or

(4) Have been abandoned to the United States and sold to the proprietor without the payment of tax.

(b) A proprietor may also receive and redistill:

(1) Recovered denatured spirits and recovered articles returned under § 19.454, and

(2) Articles and spirits residues received under § 19.454.

(26 U.S.C. 5201, 5215, 5223, 5243)

§ 19.316 Redistillation.

(a) TTB has established standards of identity for the various classes and types of distilled spirits. Those standards are found in part 5 of this chapter. If a proprietor intends to redistill spirits, the proprietor must ensure that the redistillation process does not cause the distillate to be become ineligible for designation in the class or type of spirits that the proprietor intends to produce. Therefore, spirits must not be redistilled at a proof lower than that allowed for the class and type at which the spirits were originally produced, unless the redistilled spirits are to be:

(1) Used in wine production;

(2) Used in the manufacture of gin or vodka; or

(3) Designated as alcohol.

(b) In order to preserve the class and type of spirits during the redistillation process, different kinds of spirits must be redistilled separately, or with distilling material of the same kind or type as that from which the spirits were originally produced. However, this restriction does not apply when:

(1) Brandy is redistilled into ''spirits-fruit'' or ''neutral spirits-fruit''. In this case the resulting distillate must not be used for producing wine;

(2) Whiskey is redistilled into ''spirits-grain'' or ''neutral spirits-grain'';

(3) Spirits originally distilled from different kinds of material are redistilled into ''spirits-mixed'' or ''neutral spirits-mixed''; or

(4) The spirits are redistilled into alcohol.

(c) All spirits redistilled after the production gauge will be treated the same as if the spirits had been originally produced by the redistiller. Spirits recovered by redistillation of denatured spirits, articles, or spirits residues may not be withdrawn from bonded premises except for industrial use or after denaturation. Otherwise, all provisions of this part and 26 U.S.C. chapter 51 applicable to the original production of spirits will be applicable to the redistillation of spirits. Nothing in this section affects any provision of this chapter relating to the labeling of distilled spirits.

(26 U.S.C. 5215, 5223)

Subpart M—Storage of Distilled Spirits

§ 19.321 General.

This subpart covers storage operations at distilled spirits plants. A proprietor qualified as a warehouseman and authorized to store bulk distilled spirits and wines must conduct storage operations in accordance with the provisions of this subpart. Subpart V of this part sets forth recordkeeping requirements that apply to storage operations.

(26 U.S.C. 5201)

RECEIPT AND STORAGE OF SPIRITS AND WINES

§ 19.322 Receipt and storage of bulk spirits and wines.

RULES FOR FILLING AND CHANGING PACKAGES

§ 19.324 Filling of packages from tanks.

A proprietor may fill spirits or wines into packages from storage tanks on bonded premises. The spirits or wines in the tank must be gauged before the filling of packages begins and again when the filling is finished if the tank is not empty. The results of the gauges must be recorded in the records required by § 19.618.

(26 U.S.C. 5201)

§ 19.325 Change of packages.

A proprietor may transfer spirits or wines in storage from one package to another. Each new package must contain spirits from only one package except in the case of spirits of 190° or more proof. Packages of spirits must be marked as provided in subpart S of this part. Each package of wine must bear the same marks as the package from which the wine was transferred.

(26 U.S.C. 5201)

RULES FOR MINGLING OR BLENDING SPIRITS

§ 19.326 Mingling or blending of spirits for further storage.

A proprietor may mingle or blend spirits in the storage account according to the following rules:

(a) Spirits distilled at 190° or more of proof, whether or not later reduced, may be mingled in storage.

(b) Domestic spirits distilled at less than 190° of proof may be mingled for withdrawal or further storage if the spirits:

(1) Are of the same kind; and

(2) Were produced in the same State.

(c) Imported spirits distilled at less than 190° of proof may be mingled for withdrawal or further storage if the spirits:

(1) Are of the same kind;

(3) Were treated, blended, or compounded in the same foreign country and the U.S. import duty was paid at the same rate.

(d) Imported spirits distilled at less than 190° of proof that are recognized as distinctive products under part 5 of this chapter may be mingled for withdrawal or further storage if the spirits:

(1) Are of the same kind;

(2) Were produced by the same proprietor in the same foreign country; and

(3) Were treated, blended, or compounded by the same proprietor in the same foreign country and the U.S. import duty was paid at the same rate.

(e) Fruit brandies distilled from the same kind of fruit at not more than 170° of proof may, for the sole purpose of perfecting such brandies according to commercial standards, be blended with each other, or with any blend of such fruit brandies in storage. Rums may, for the sole purpose of perfecting them according to commercial standards, be blended with each other, or with any blend of rums.

(f) Packaging after mingling or blending must be done under the provisions of § 19.324. The mingled or blended

spirits may be returned to the packages from which they were dumped, or as many of the packages as needed.

(26 U.S.C. 5201, 5214)

§ 19.327 Packages dumped for mingling.

A proprietor must examine each package of spirits to be dumped for mingling. If any package bears evidence of loss due to theft or unauthorized voluntary destruction, the proprietor must notify the appropriate TTB officer before dumping the package. Mingled spirits must be recorded on the tank record required by §§ 19.592 and 19.593, as appropriate.

(26 U.S.C. 5201)

§ 19.328 Determining age of mingled spirits.

When spirits are mingled, the age of the spirits for the entire lot will be the age of the youngest spirits contained in the lot.

(26 U.S.C. 5201)

§ 19.329 Mingled spirits or wines held in tanks.

When wines or spirits of less than 190° of proof are mingled in a tank, the proprietor must gauge the spirits or wines in the tank and record the mingling gauge on the tank record prescribed in § 19.592.

(26 U.S.C. 5201)

Use of Oak Chips and Caramel

§ 19.331 Use of oak chips in spirits and caramel in brandy and rum.

A proprietor may add oak chips that have not been treated with any chemical to packages of spirits. The proprietor must note the use of oak chips on all transaction records. A proprietor may add caramel that has no material sweetening properties to rum or brandy stored in packages or tanks.

(26 U.S.C. 5201)

Storage Inventories

§ 19.333 Physical inventories.

A proprietor must take a physical inventory of all spirits and wines held in the storage account in tanks and other containers (except packages) at the close of each calendar quarter. A proprietor must record the results of the inventory as provided in subpart V of this part. TTB may require additional inventories at any time.

(26 U.S.C. 5201)

Subpart N—Processing of Distilled Spirits

§ 19.341 General.

This subpart covers processing operations at distilled spirits plants. A proprietor authorized to perform processing operations must conduct processing operations in accordance with the provisions of this subpart. Subpart V of this part sets forth recordkeeping requirements that apply to processing operations. Also, the provisions of subpart O of this part apply if a proprietor denatures spirits or manufactures articles on bonded premises as part of processing operations under this subpart.

(26 U.S.C. 5201)

Rules for Receipt and Use of Spirits, Wines, and Alcoholic Flavoring Materials

§ 19.342 Receipt of spirits, wines, and alcoholic flavoring materials for processing.

(a) *Receipt of bulk spirits.* A proprietor may receive bulk spirits into the processing account:

(1) From the production or storage account at the same plant;

(2) By transfer in bond from another distilled spirits plant; or

(3) By withdrawal from customs custody under 26 U.S.C. 5232.

(b) *Receipt of wines.* A proprietor may receive wines into the processing account:

(d) *Receipt of alcoholic flavoring materials.* A proprietor may receive alcoholic flavoring materials into the processing account.

(e) *Dumping of spirits, wines, and alcoholic flavoring materials.* As provided in §§ 19.343 and 19.598, the proprietor must prepare a dump/batch record when spirits, wines, and alcoholic flavoring materials are dumped for use in the processing account. Spirits, wines, and alcoholic flavoring materials that are dumped into the processing account are subject to the following rules:

(1) Spirits and wines received in bulk containers or conveyances may be retained in the containers or conveyances in which received until used, but must be recorded as dumped upon receipt;

(2) Spirits and wines received by pipeline must be deposited in tanks and recorded as dumped on receipt; and

(3) Alcoholic flavoring materials may be retained in the containers in which received or may be transferred to another container if the proprietor marks or otherwise indicates thereon, the full identification of the original container, the date of receipt, and the quantity deposited. Alcoholic flavoring materials and nonalcoholic ingredients will be considered dumped when mixed with spirits or wines.

(f) *Gauging.* A proprietor must determine the proof gallon content of spirits, wines, and alcoholic flavoring materials at the time of dumping. Additional information regarding the gauging of spirits, wines, and alcoholic flavoring materials is found in subpart K of this part.

(26 U.S.C. 5201)

§ 19.343 Use of spirits, wines, and alcoholic flavoring materials.

A proprietor must prepare a dump/batch record in accordance with § 19.598 for spirits, wines, alcoholic flavoring materials, and nonalcoholic ingredients used in the manufacture of a distilled spirits product according to the following rules.

(2) The use of spirits or wines previously dumped, reported on dump records and retained in tanks or receptacles; or

(3) The use of any combination of ingredients under paragraph (b)(1) or paragraph (b)(2) of this section in preparing a batch of product manufactured under an approved formula.

(26 U.S.C. 5201)

§ 19.344 Manufacture of nonbeverage products, intermediate products, or eligible flavors.

(a) Distilled spirits and wine may be used for the manufacture of flavors or flavoring extracts of a nonbeverage nature as intermediate products to be used exclusively in the manufacture of other distilled spirits products on bonded premises.

(b) Nonbeverage products on which drawback will be claimed, as provided in 26 U.S.C. 5111–5114, may not be manufactured on bonded premises. Premises used for the manufacture of nonbeverage products on which drawback will be claimed must be separated from bonded premises.

(c) For purposes of computing an effective tax rate, flavors manufactured on either the bonded or general premises of a distilled spirits plant are not eligible flavors. (26 U.S.C. 5201)

OBSCURATION DETERMINATION

§ 19.346 Determining obscuration.

A proprietor may determine, as provided in § 30.32 of this chapter, the proof obscuration of spirits to be bottled on the basis of a representative sample taken from a storage tank before the transfer of the spirits to the processing account or from a tank after the spirits have been dumped for

processing, whether or not combined with other alcoholic ingredients. The obscuration will be determined after the sample has been reduced to within one degree of bottling proof. Only water may be added to a lot of spirits to be bottled for which the determination of proof obscuration is made from a sample under this section. The proof obscuration for spirits gauged under this section must be frequently verified by testing samples taken from bottling tanks before bottling.

(26 U.S.C. 5204)

FILING FORMULAS WITH TTB

§ 19.348 Formula requirements.

A proprietor must obtain approval of a formula on form TTB F 5100.51 as provided in §§ 5.26 and 5.27 of this chapter before a proprietor may:

(a) Blend, mix, purify, refine, compound, or treat spirits in any manner which results in a change of character, composition, class, or type of the spirits, including redistillation as provided in § 19.314; or

(b) Produce gin or vodka by other than original and continuous distillation.

(26 U.S.C. 5201, 5555)

RULES FOR BOTTLING, PACKAGING, AND REMOVAL OF PRODUCTS

§ 19.351 Removals from processing.

(a) *Method of removal.* A proprietor may remove spirits or wines from the processing account in any approved bulk container, by pipeline, or in bulk conveyances in compliance with the provisions of this part. Spirits may be bottled and cased for removal.

(b) *Authorized removals from processing.* A proprietor may remove from processing:

(1) Spirits, upon tax determination or withdrawal under 26 U.S.C. 5214 or 26 U.S.C. 7510;

(2) Spirits, to the production account at the same plant for redistillation;

(3) Bulk spirits, by transfer in bond to production or processing account at another distilled spirits plant for redistillation or further processing;

(4) Spirits or wines, for authorized voluntary destruction; or

(5) Wines, by transfer in bond to a bonded wine cellar or to another distilled spirits plant. However, wine may not be removed from the bonded premises of a distilled spirits plant for consumption or sale as wine.

(c) *Exception.* Except as provided in paragraph (b)(2) and (3) of this section, spirits may not be transferred from the processing account to the storage account.

(26 U.S.C. 5001, 5006, 5008, 5201, 5206, 5212, 5214, 5223, 5362)

§ 19.352 Bottling tanks.

Generally, a proprietor must bottle all spirits from tanks that are listed in the notice of registration and have been certified as accurate. However, if a proprietor files a letterhead application and shows the need to do so, the appropriate TTB officer may authorize bottling from original packages, tank trucks, totes or special containers where it is not practical to use a bottling tank. In addition, a proprietor may bottle liqueurs directly from a tank truck or tote without applying for permission to TTB if the liqueurs are gauged prior to unloading and piped directly to the bottling line.

(26 U.S.C. 5201)

§ 19.353 Bottling tank gauge.

When a distilled spirits product is to be bottled or packaged, the proprietor must gauge the product after any filtering, reduction, or other treatment, and before bottling or packaging begins. The gauge must be made at labeling or package marking proof, and the details of the gauge must be entered on the bottling and packaging record required in § 19.599.

(26 U.S.C. 5201)

§ 19.354 Bottling or packaging records.

A proprietor must prepare a record for each batch of spirits bottled or packaged as provided in § 19.599. A proprietor must keep a separate daily summary record of spirits bottled or packaged as provided in § 19.601.

(26 U.S.C. 5201, 5207)

§ 19.355 Labels describing the spirits.

(a) Labels affixed to containers must accurately describe the spirits in the tanks from which the containers are filled. The proprietor's records must enable TTB officers to readily determine which label was used on any filled container.

(b) Additional information regarding labeling requirements is found in subpart T of this part and part 5 of this chapter.

(26 U.S.C. 5201)

§ 19.356 Alcohol content and fill.

(a) *General.* At representative intervals during bottling operations, a proprietor must examine and test bottled spirits to determine whether the alcohol content and quantity (fill) of those spirits agree with what is stated on the label or the bottle. A proprietor's test procedures must be adequate to ensure accuracy of labels on the bottled product. Proprietors must record the results of all tests of alcohol content and quantity (fill) in the record required by § 19.600.

(b) *Variations in fill.* Quantity (fill) must be kept as close to 100 percent fill as the equipment and bottles in use will permit. There must be approximately the same number of overfills and underfills for each lot bottled. In no case will the quantity contained in a bottle vary from the quantity stated on the label or bottle by more than plus or minus:

(1) 1.5 percent for bottles 1.0 liter and above;

(2) 2.0 percent for bottles 999 mL through 376 mL;

(3) 3.0 percent for bottles 375 mL through 101 mL; or

(4) 4.5 percent for bottles 100 mL and below.

(c) *Variations in alcohol content.* Variations in alcohol content, subject to a normal drop that may occur during bottling, must not exceed:

(1) 0.25 percent alcohol by volume for products containing solids in excess of 600 mg per 100 ml;

(2) 0.25 percent alcohol by volume for all spirits products bottled in 50 or 100 ml size bottles; or

(3) 0.15 percent alcohol by volume for all other spirits and bottle sizes.

(d)

Example. Under paragraph (c) of this section, a product with a solids content of less than 600 mg per 100 ml, labeled as containing 40 percent alcohol by volume and bottled in a 750 ml bottle, would be acceptable if the test for alcohol content found that it contained 39.85 percent alcohol by volume.

(26 U.S.C. 5201, 5301)

§ 19.357 Completion of bottling.

When the contents of a bottling tank are not completely bottled at the close of the day, the proprietor must make entries on the bottling and packaging record covering the total quantity bottled that day from the tank. Entries must be made not later than the morning of the following business day unless the proprietor maintains auxiliary or supplemental records as provided in § 19.580.

(26 U.S.C. 5201)

§ 19.358 Cases.

(a) On completion of bottling, a proprietor must place filled bottles with properly affixed closures in cases. A proprietor may only fill cases with the same kind, size, and proof of spirits. Normally, the cases must be sealed; however, cases may be temporarily retained on bonded premises without being sealed pending the affixing to bottles of any required labels, State stamps, or seals. Unsealed cases must be marked in accordance with subpart S of this part, and segregated from other cases until sealed. All cases must be sealed and marked as provided in subpart S of this part before removal from the bonded premises.

(b) Filled bottles may remain on the bottling line at the end of the workday if the identical product will be bottled on the next bottling shift and if adequate security measures are in place to prevent theft.

(26 U.S.C. 5201, 5206)

§ 19.359 Remnants.

When at the end of a bottling run fewer bottles remain than the number necessary to fill a case, the remaining bottles may be placed in a case marked as a remnant case or kept uncased on the bonded premises until spirits of the

same kind are again bottled. The remnant bottles may later be used to complete the filling of a case, or may be used for another lawful purpose such as replacing accidental breakage occurring on bonded premises.

(26 U.S.C. 5201, 5206)

§ 19.360 Filling packages.

A proprietor may draw spirits into packages from a tank meeting the requirements of §§ 19.182 through 19.184. A proprietor must gauge the packages, report the details of the gauge on a package gauge record as provided in § 19.619, and attach a copy of the package gauge record to each copy of the bottling and packaging record covering the product. The packages must be marked as provided in subpart S of this part.

(26 U.S.C. 5201)

§ 19.361 Removals by bulk conveyances or pipelines.

(a) When a proprietor removes spirits from the processing account in bulk conveyances or by pipeline, the proprietor must record the removal on the bottling and packaging record.

(b) Transfers and withdrawals of bulk spirits from the processing account must be performed in accordance with the provisions of subpart P of this part.

(c) The consignor of the transfer must forward to the consignee a statement of composition or a copy of any formula under which the spirits were processed for determining the proper use of the spirits, or for the labeling of the finished product.

(d) Bulk conveyances must be marked as provided in subpart S this part.

(26 U.S.C. 5201)

§ 19.362 Rebottling.

When spirits are dumped for rebottling, the proprietor must prepare an appropriately modified bottling and packaging record. If the spirits were originally bottled by another proprietor, the rebottling proprietor must obtain a statement from the original bottler consenting to the rebottling.

(26 U.S.C. 5201)

§ 19.363 Reclosing and relabeling.

(a) A proprietor may reclose or relabel distilled spirits before removal from, or after return to, bonded premises. The reclosing or relabeling of spirits returned to bonded premises must be done immediately, and the spirits promptly removed.

(b) If the spirits were originally bottled by another proprietor, the relabeling proprietor must have on file a statement from the original bottler consenting to the relabeling.

(c) When spirits are relabeled, the proprietor must have a certificate of label approval or certificate of exemption from label approval issued under part 5 of this chapter for the labels used on relabeled spirits.

(d) A proprietor must prepare a separate record under § 19.604 for the relabeling or reclosing of spirits.

(26 U.S.C. 5201, 5215)

§ 19.364 Bottled-in-bond spirits.

If a proprietor labels spirits as bottled-in-bond for domestic consumption the labels must meet the requirements in part 5 of this chapter and the bottles must bear a closure or other device as required by subpart T of this part.

(26 U.S.C. 5201)

§ 19.365 Spirits not originally intended for export.

Spirits produced in the United States and originally intended for domestic use may be exported with benefit of drawback or without payment of tax if the containers are marked as required by part 28 of this chapter. A proprietor may relabel the spirits to show any of the information required by § 19.519. If a proprietor intends to file a claim for drawback on spirits prepared for export under this section, the proprietor must follow the provisions of § 28.195b of this chapter. If a proprietor intends to withdraw spirits without payment of tax for export, the proprietor must follow the procedures in subpart E of part 28 of this chapter.

(26 U.S.C. 5062, 5214)

§ 19.366 Alcohol.

(a) *Containers.* A proprietor may put alcohol for industrial use in bottles,

packages, or other containers, subject to the provisions of subpart S of this part. A proprietor must follow the provisions of subpart T of this part when bottling alcohol for nonindustrial domestic use.

(b) *Closures.* Closures or other devices must be affixed to containers of alcohol as provided in subpart T of this part.

(c) *Bottle labels.* All bottles of alcohol for industrial use must have a label that is securely affixed to the bottle showing the word ''Alcohol'' and the name and plant number of the bottler. The proprietor may place additional information on the label if it is not inconsistent with the required information.

(d) *Case marks.* Each case of bottled alcohol must bear the marks required by subpart S of this part.

(26 U.S.C. 5201, 5206, 5235, 5301)

REQUIREMENTS FOR PROCESSING INVENTORIES

§ 19.371 Inventories of wines and bulk spirits in processing.

A proprietor must take a physical inventory of all wines and bulk spirits (except packages) held in the processing account at the close of each calendar quarter. The results of the inventory must be recorded as provided in subpart V of this part. TTB may require additional inventories at any time.

(26 U.S.C. 5201)

§ 19.372 Physical inventories of bottled and packaged spirits.

(a) *Physical inventories.* Generally, a proprietor must take physical inventories of bottled and packaged spirits in the processing account for the return periods ending June 30 and December 31, and at any other time that the appropriate TTB officer requires. Physical inventories may be taken within a period of a few days before or after June 30 or December 31 if:

(1) The period does not include more than one complete weekend; and

(2) Necessary adjustments are made to the inventory record to reflect the actual quantities on hand June 30 or December 31.

(b) *Alternate dates.* On approval of an application filed with the appropriate TTB officer, required physical inventories may be taken on dates other than June 30 and December 31 if the dates established for taking such inventories:

(1) Coincide with the end of a return period, and

(2) Are approximately 6 months apart.

(c) *Waiver of physical inventory.* A proprietor may file an application to take only one physical inventory per year. The appropriate TTB officer may approve the application if she or he finds that only one physical inventory per year will be sufficient to protect the revenue. However, the requirement for the waived inventory may be reimposed if it becomes necessary for protection of the revenue.

(d) *Notification of physical inventory.* A proprietor must notify the appropriate TTB officer at least 5 business days in advance of the date and time of a physical inventory of bottled or packaged spirits. TTB officers may be assigned to verify or supervise physical inventories taken under the provisions of this section.

(26 U.S.C. 5201)

Subpart O—Denaturing Operations and Manufacture of Articles

§ 19.381 General.

This subpart covers the denaturation of spirits and the manufacture of articles by proprietors of distilled spirits plants. Denatured spirits are distilled spirits that have been rendered unsuitable for beverage use by the addition of specific amounts of approved denaturing materials. For purposes of this subpart, articles are products that contain denatured spirits and that are made in accordance with this subpart or part 20 of this chapter. Proprietors who are qualified under this part as processors may make denatured spirits and articles in accordance with the provisions of this subpart. Additional requirements regarding the distribution, use, and standards for denatured spirits are

set forth in parts 20 and 21 of this chapter.

(26 U.S.C. 5178, 5241)

§ 19.382 Formulas.

(a) *Approved formulas.* A proprietor must denature spirits according to an approved formula listed in part 21 of this chapter.

(b) *Alternate formulas and denaturants.* If a proprietor wishes to denature spirits by using an alternative formula or a different denaturant, the proprietor must apply to TTB for authorization. A proprietor must receive written approval from the appropriate TTB officer before denaturing spirits using an alternative formula or a different denaturant. See also §§ 21.5 and 21.91 of this chapter for additional requirements that apply in these circumstances.

(26 U.S.C. 5241)

Rules for Denaturing Spirits and Testing Denaturants

§ 19.383 Gauging for denaturation.

(a) *General.* A proprietor must gauge spirits before denaturation and after denaturation and must record each gauge in the record of denaturation required by § 19.606(b). However, a proprietor is not required to gauge either spirits that are dumped from previously gauged containers or spirits that are transferred directly to mixing tanks from gauge tanks where they were gauged. Measurements of spirits and denaturants may be made by volume, weight, accurate mass flow meter, or by any other device that has been approved by the appropriate TTB officer.

(b) *Denaturation and article manufacture in a single process.* When a proprietor both denatures spirits and manufactures articles in a single, unified process, the proprietor may, in place of the procedure specified in paragraph (a) of this section, gauge the spirits before and after denaturation in the following manner:

(1) Gauge the spirits to be denatured by volume, weight, accurate mass flow meter, or other device or method approved by the appropriate TTB officer;

(2) Gauge the denaturants to be used by volume, weight, accurate mass flow meter, or other device approved by the appropriate TTB officer; and

(3) Compute the number of wine gallons of denatured spirits produced, and enter this figure in the record required by § 19.606(b). In calculating the amount of denatured spirits produced, the proprietor must not include in the calculation the amount of additional chemicals or denaturants used for article manufacture.

(26 U.S.C. 5204, 5241)

§ 19.384 Adding denaturants to spirits.

(a) When making denatured spirits, a proprietor must mix the denaturants and spirits only in packages, tanks or bulk conveyances and only on bonded premises. A proprietor must thoroughly mix the denaturants with the spirits to ensure that all of the spirits are effectively denatured.

(b) If a proprietor wishes to use another method of mixing denaturants and spirits not prescribed in this subpart, the proprietor must submit to the appropriate TTB officer a written application for approval of the alternative method in accordance with § 19.27. TTB may require that the proprietor submit additional information, including a flow diagram or other graphic representation of the alternative method, in support of the application.

(26 U.S.C. 5242)

§ 19.385 Making alcohol or water solutions of denaturants.

If a proprietor uses a denaturant that is difficult to dissolve in spirits at normal working temperatures, that is highly volatile, or that becomes solid at normal working temperature, the proprietor may liquefy or dissolve the denaturant in a small amount of spirits or water prior to its use in the production of denatured spirits. However, the proof of the denatured spirits produced must not fall below the proof required by the approved formula. In addition, if alcohol is used as a solvent, the proprietor must include this additional alcohol in calculating the total quantity of spirits denatured in the batch.

(26 U.S.C. 5242)

§ 19.386 Adjusting pH of denatured spirits.

A proprietor may add trace amounts of acidic or caustic chemical compounds to adjust or neutralize the pH of denatured spirits. However, a proprietor may not adjust the pH with any substance that will counteract or reduce the effect of the denaturants. A proprietor who adjusts the pH of denatured spirits must keep a record of the adjustment with reference to the formula number of the treated denatured spirits. The record must include the kinds and quantities of chemical compounds used for each batch of denatured spirits treated.

(26 U.S.C. 5241, 5242)

§ 19.387 Ensuring the quality of denaturants.

(a) *General.* Proprietors must ensure that the materials they receive for use in denaturing conform to the specifications prescribed in part 21 of this chapter. In addition, the appropriate TTB officer may require that a proprietor test the quality of denaturants at any time.

(b) *Testing.* A proprietor must comply with the following when testing a lot of denaturants:

(1) *Sampling denaturants.* Proprietors must use good commercial practice when taking samples of denaturants for quality assurance testing. Samples of denaturants must be representative of the lot being sampled.

(2) *Third party testing.* A proprietor may employ an outside laboratory or other appropriate third party to test samples of denaturants. In the case of a third party test, the proprietor must obtain a copy of the analysis or statement of findings signed by the chemist who performed the test. On request, the proprietor must provide to the appropriate TTB officer samples of denaturants for quality control testing in a Government laboratory.

(c) *Substandard denaturants.* If TTB or a proprietor finds that a material does not conform to the specifications for a denaturant prescribed in part 21 of this chapter, the proprietor must immediately terminate use of the substandard material as a denaturant. However, the proprietor may continue to use the material as a denaturant after treating or reprocessing the substandard material to correct the deficiency and bring the material into conformity with the applicable specifications.

(26 U.S.C. 5242)

Rules for Storing Denatured Spirits and Filling Containers

§ 19.388 Storing denatured spirits.

(a) *Bonded storage.* A proprietor must store on bonded premises all denatured spirits produced, received in bond, or received by return to bond.

(b) *Storage methods.* A proprietor may store denatured spirits on bonded premises in any appropriate tank, package or container authorized for filling with denatured spirits. The proprietor must store containers of denatured spirits in a manner that allows for easy inspection and inventory of the denatured spirits by TTB officers. A proprietor must store portable containers of denatured spirits within a building or structure that protects the spirits from unauthorized access. A proprietor may apply to the appropriate TTB officer for authorization to store containers of denatured spirits in an alternative manner in accordance with § 19.27.

(c) *Tank Records.* A proprietor must maintain a record for tanks in which denatured spirits are stored in accordance with § 19.606.

(26 U.S.C. 5201)

§ 19.389 Filling containers from tanks.

(a) *Filling portable containers.* A proprietor may fill portable containers with denatured spirits from tanks on the bonded premises.

(b) *Accounting for denatured spirits in filling operations.* In performing filling operations under paragraph (a) of this section, a proprietor must:

(1) Gauge the denatured spirits remaining in the tanks at the end of each filling operation;

(2) Maintain a record of each gauge and document the quantity of denatured spirits drawn from the tank during each filling operation; and

(3) Make a record of any spirits lost during the filling operation.

(c) *Gauging requirements.* The provisions of § 19.289(a) and (c) apply to the filling and gauging of portable containers. In addition, a proprietor may withdraw denatured spirits from the bonded premises in portable containers based on the filling gauge.

(26 U.S.C. 5201)

§ 19.390 Container marking requirements.

A proprietor must mark packages and portable containers containing denatured spirits in accordance with the requirements of subpart S of this part.

(26 U.S.C. 5206)

Rules for Mixing and Converting Denatured Spirits

§ 19.391 Mixing denatured spirits.

(a) *Spirits of the same formula.* If a proprietor has two or more different batches of denatured spirits produced under the same formula, the proprietor may mix them on bonded premises.

(b) *Spirits of different formulas.* A proprietor may mix denatured spirits produced under different formulas on bonded premises for immediate redistillation at the same plant or at another plant subject to the provisions of §§ 19.314, 19.315, and 19.316.

(26 U.S.C. 5241, 5242)

§ 19.392 Converting denatured alcohol to a different formula.

(a) *General.* A proprietor may convert specially denatured alcohol (SDA) from one formula of SDA to another formula of SDA if the resultant mixture contains only alcohol and the denaturants listed for an approved SDA formula and in the correct concentrations, as set forth in part 21 of this chapter. Such converted SDA may be used only as authorized in part 21 of this chapter.

(b) *Converting SDA to SDA Formula No. 1*—(1) *All SDA other than SDA Formulas No. 3–A and No. 30.* A proprietor may convert any SDA, other than SDA produced under Formulas No. 3–A and No. 30, into SDA Formula No. 1 by adding methyl alcohol and any one of the other alternative denaturants listed in § 21.32 of this chapter in accordance with the formulation prescribed in that section.

(2) *SDA Formulas No. 3–A and No. 30.* SDA Formulas No. 3–A and No. 30 specify more methyl alcohol than is specified for SDA Formula No. 1. Therefore, in order to convert SDA produced under Formulas No. 3–A or No. 30 into SDA under Formula No. 1, a proprietor must first add a sufficient amount of ethyl alcohol to the SDA in question to bring the methyl alcohol content to the proportion prescribed for SDA Formula No. 1. After adjusting the proportion of methyl alcohol, the proprietor must add the specified amount of any one of the other alternative denaturants listed in § 21.32 of this chapter.

(c) *Converting SDA to SDA Formula No. 29.* A proprietor may convert any SDA into SDA Formula No. 29 by adding the amount of acetaldehyde or ethyl acetate specified in § 21.56 of this chapter. However, due to the presence of other denaturants from the original formula, SDA under Formula No. 29 that has been converted from another SDA formula may be used only as authorized in § 21.56(b) but not in the manufacture of vinegar, drugs or medicinal chemicals, and the conditions governing use provided in § 21.56(c) will apply.

(d) *Other conversions of SDA.* If a proprietor wishes to make an SDA formula conversion other than one authorized in paragraph (a), (b), or (c) of this section, the proprietor must obtain approval from the appropriate TTB officer prior to the conversion.

(e) *Conversions to completely denatured alcohol.* A proprietor may convert any SDA from a formula that does not contain methyl alcohol or wood alcohol to any one of the completely denatured alcohol (CDA) formulas prescribed in subpart C of part 21 of this chapter, by adding the denaturants specified for CDA.

(26 U.S.C. 5242)

RULES FOR RESTORATION AND REDENATURATION, INVENTORIES, AND MANUFACTURE OF ARTICLES; RECORDS REQUIRED

§ 19.393 Restoration and redenaturation of recovered denatured spirits and recovered articles.

(a) *Recovered denatured spirits and articles.* A proprietor may receive recovered denatured spirits and recovered articles on bonded premises for restoration (including redistillation, if necessary), or redenaturation, or both, as provided in subpart Q of this part. However, the proprietor may not withdraw the spirits from bonded premises except for industrial use or after redenaturation.

(b) *Spirits or articles retaining some denaturants.* If recovered denatured spirits or recovered articles are to be redenatured and do not require the full amount of denaturants for redenaturation, the proprietor must make an entry to that effect in the record of denaturation required by § 19.606(b).

(26 U.S.C. 5242)

§ 19.394 Inventory of denatured spirits.

A proprietor must take a physical inventory of all denatured spirits in the processing account at the close of each calendar quarter. The proprietor must record the results of that inventory as provided in subpart V of this part. TTB may require additional inventories at any time.

(26 U.S.C. 5201)

§ 19.395 Manufacture of articles.

A proprietor must manufacture, label, mark and dispose of articles in accordance with part 20 of this chapter.

(26 U.S.C. 5273)

§ 19.396 Required records.

(a) *Records of denaturing operations.* A proprietor who denatures spirits must maintain daily records of denaturing operations in accordance with § 19.606.

(b) *Records of manufacture of articles.* A proprietor who manufactures articles must maintain daily records in accordance with § 19.607.

(26 U.S.C. 5241)

Subpart P—Transfers, Receipts, and Withdrawals

§ 19.401 Authorized transactions.

(a) *General.* A proprietor of a distilled spirits plant may transfer spirits and wines in bond to other distilled spirits plants, receive spirits and wines in bond from other distilled spirits plants, receive spirits from customs custody, and withdraw spirits from the distilled spirits plant without payment of tax or free of tax under certain conditions. This subpart sets forth the rules that a proprietor must follow when so transferring, receiving, or withdrawing spirits and wines and also includes related rules for taking samples and securing conveyances.

(b) *Other transfers and withdrawals.* For withdrawals of spirits from bonded premises on determination or payment of tax, see subpart I of this part. For rules regarding withdrawals for exportation and transfers to foreign trade zones or to customs bonded warehouses, see part 28 of this chapter.

(26 U.S.C. 5181, 5212, 5213, 5214, 5232, 5362, 5373)

TRANSFERS BETWEEN BONDED PREMISES

§ 19.402 Authorized transfers in bond.

The IRC allows a proprietor to transfer and receive spirits, wines, and industrial alcohol as provided in paragraphs (a) through (c) of this section.

(a) *Spirits.* Bulk spirits or denatured spirits may be transferred in bond between the bonded premises of plants qualified under 26 U.S.C. 5171 or 26 U.S.C. 5181 in accordance with §§ 19.403 and 19.733. However, spirits or denatured spirits produced from petroleum, natural gas, or coal may not be transferred to alcohol fuel plants.

(b) *Wine.* Wines may be transferred:

(1) From a bonded wine cellar to the bonded premises of a distilled spirits plant;

(2) From the bonded premises of a distilled spirits plant to a bonded wine cellar; and

(3) Between the bonded premises of distilled spirits plants.

(c) *Alcohol for industrial purposes.* Alcohol bottled for industrial purposes in accordance with § 19.366 and subpart S

of this part, may be transferred between the bonded premises of distilled spirits plants in the same manner as provided in §§ 19.403 through 19.407 for bulk distilled spirits.

(26 U.S.C. 5181, 5212, 5362)

§ 19.403 Application to receive spirits in bond.

(a) When the proprietor of a distilled spirits plant qualified under 26 U.S.C. 5171 or of an alcohol fuel plant qualified under 26 U.S.C. 5181 wishes to have spirits or denatured spirits transferred in bond to his plant from another distilled spirits plant, the proprietor must complete an application on form TTB F 5100.16, Application for Transfer of Spirits and/or Denatured Spirits in Bond, in triplicate, and forward it to the appropriate TTB officer for approval. A proprietor is not required to submit an application on TTB F 5100.16 for transfers from customs custody under 26 U.S.C. 5232.

(b) TTB will not approve the application submitted under paragraph (a) of this section unless the proprietor's operations bond or unit bond either is in the maximum penal sum amount or is sufficient to cover the tax on the spirits or denatured spirits to be transferred in addition to all other liabilities chargeable against the bond. If TTB approves the application, TTB will return two signed copies of the approved application to the proprietor.

(c) Upon receipt of an approved application from TTB, the proprietor must retain one of the signed copies for his files and forward the other signed copy to the consignor that will ship the spirits or denatured spirits.

(26 U.S.C. 5005, 5112)

§ 19.404 Termination of application.

A proprietor may at any time terminate an approved application on form TTB F 5100.16 by retrieving the consignor's copy and returning it together with his own approved copy to the appropriate TTB officer for cancellation.

(26 U.S.C. 5005)

§ 19.405 Consignor for in-bond shipments.

(a) *General.* A proprietor who ships spirits, denatured spirits, or wines by transfer in bond is the ''consignor'' of the shipment for purposes of this part. The following rules apply to these transfers:

(1) A consignor who is a proprietor of a distilled spirits plant must prepare a transfer record in accordance with § 19.620 to cover the transfer in bond of—

(i) Spirits or denatured spirits to another distilled spirits plant pursuant to an approved application on form TTB F 5100.16, Application for Transfer of Spirits and/or Denatured Spirits in Bond;

(ii) Wine to the bonded premises of a distilled spirits plant or a bonded wine cellar; or

(iii) Spirits or denatured spirits to an alcohol fuel plant pursuant to an approved application on TTB F 5100.16, Application for Transfer of Spirits and/or Denatured Spirits in Bond; and

(2) A consignor who is a proprietor of an alcohol fuel plant must prepare a transfer record in accordance with § 19.620 to cover the transfer in bond of spirits to the bonded premises of a distilled spirits plant pursuant to an approved application on TTB F 5100.16.

(b) *Disposition of the transfer record.* On completion of lading or transfer by pipeline, the consignor must retain one copy of the transfer record and one copy of any accompanying document and must forward the original transfer record and any accompanying document to the consignee. If the shipment is made by truck, the original transfer record and accompanying documents must accompany the shipment.

(c) *Multiple shipments.* As a general rule, a consignor must prepare a transfer record for each conveyance. However, a consignor may prepare a single transfer record that covers all packages of spirits shipped by truck on the same day to the same plant. In such a case, the consignor must prepare a shipment and delivery order for each shipment showing the number of packages, their serial numbers or other package identification, the name of the producer, warehouseman, or processor, and the serial numbers of any seals or other security devices applied to the truck. The shipping and delivery order must be properly authenticated by the

consignor and must constitute a complete record of the spirits transferred in each truck each day. The consignor must retain a copy of each shipping and delivery order. After lading the last truck for the day, the consignor must retain one copy of the single transfer record and one copy of any accompanying document and forward the original single transfer record and accompanying document to the consignee.

(d) *Packages.* When a consignor transfers spirits in packages, the consignor must weigh each package except in the following circumstances:

(1) When transferring the spirits in a secured conveyance;

(2) When the consignor has securely sealed the individual packages; or

(3) When the appropriate TTB officer waives this requirement upon a finding that there will be no jeopardy to the revenue.

(e) *Temporary serial numbers.* When packages are weighed at the time of shipment, the consignor must assign temporary serial numbers to the packages and show for each package its gross shipment weight on a package gauge record prepared in accordance with §19.619. A copy of the package gauge record must accompany each original or copy of the transfer record.

(f) *Bulk conveyances and pipelines.* When a consignor transfers spirits, denatured spirits, or wines in bulk conveyances or by pipelines, the consignor must gauge the spirits, denatured spirits, or wines and record the quantity determined on the transfer record required under §19.620 or §24.309 of this chapter. The consignor must secure bulk conveyances of spirits or denatured spirits pursuant to §19.441 of this part.

(26 U.S.C. 5212, 5362)

§ 19.406 Reconsignment of in-bond shipments.

A consignor may reconsign an in-bond shipment of spirits, denatured spirits, or wines prior to, or upon, arrival of the shipment at the premises of the consignee for any good faith reason. The consignor may reconsign the shipment to himself or to another consignee who is qualified to receive the shipment and has an adequate bond. In either case, an Application for Transfer of Spirits and/or Denatured Spirits in Bond on form TTB F 5100.16 must have been previously approved for the new consignee, except that an approved TTB F 5100.16 is not required for the transfer of wine. The bond of the new consignee will cover the shipment while in transit after reconsignment. When a consignor reconsigns a shipment, the consignor must prepare a new transfer record prominently marked with the word ''Reconsignment''. The consignor must also notify the original consignee that the transfer has been cancelled.

(26 U.S.C. 5212, 5362)

§ 19.407 Consignee premises.

(a) *General.* A proprietor who receives spirits, denatured spirits, or wines by transfer in bond is the ''consignee'' of the shipment for purposes of this part. Upon arrival of an in-bond shipment at the consignee's premises or at the destination point specified in the carrier's transportation documents, the consignee must:

(1) Examine each conveyance to determine whether the securing devices, if any, are intact upon arrival. If the securing devices are not intact, the consignee must immediately notify the appropriate TTB officer before removal of any spirits from the conveyance;

(2) Determine, record, and report any losses as required by subpart R of this part;

(3) Acknowledge receipt of the shipment on the transfer record as required by §19.621 or §24.309 of this chapter and retain the original of the transfer record and any accompanying documents for his files. Retained copies of transfer records will become deposit records for purposes of this part; and

(4) Identify separately any spirits that were produced at an alcohol fuel plant. Those spirits may not be withdrawn, used, sold or otherwise disposed of for other than fuel use.

(b) *Packages.* When a consignee receives spirits in packages, the consignee must weigh each package. The consignee must record the receiving weight of each package on the accompanying package gauge record or on a list according to temporary package

serial numbers prepared by the consignor. A copy of the package gauge record or list must remain with the original transfer record. However, the consignee is not required to weigh each package when:

(1) The transfer is made in a secured conveyance and the securing devices are intact on arrival;

(2) The individual packages were sealed by the consignor and are intact on arrival; or

(3) The requirement for weighing the packages at the consignor's premises has been waived under §19.405(d)(3).

(c) *Bulk conveyances and pipelines.* When a consignee receives spirits, denatured spirits, or wines by bulk conveyance or by pipeline, the consignee must:

(1) Make a gauge and record the results on the transfer record in accordance with §19.621 or §24.309 of this chapter. However, the appropriate TTB officer may waive the gauging requirement for receipts by pipeline upon a finding that there will be no jeopardy to the revenue; and

(2) Ensure that each conveyance is empty and has been thoroughly drained.

(26 U.S.C. 5204, 5213, 5362)

RECEIPT OF SPIRITS FROM CUSTOMS CUSTODY

§19.409 General.

A proprietor may withdraw from customs custody spirits imported or brought into the United States in bulk containers for transfer of those spirits without payment of tax to the bonded premises of the proprietor's distilled spirits plant. Subpart Q—Return of Spirits to Bonded Premises and Voluntary Destruction

§ 19.451 Scope.

The IRC allows a proprietor of a distilled spirits plant to return distilled spirits, denatured spirits, and articles to the bonded premises of that plant under certain conditions. This subpart covers the types of returns allowed, sets forth the procedures that the proprietor must follow when returning these products to bonded premises, and prescribes rules for voluntary destruction on or off bonded premises.

CONDITIONS FOR RETURN OF SPIRITS TO BOND

§ 19.452 Return of taxpaid spirits to bonded premises for destruction, denaturation, redistillation, reconditioning, or rebottling.

(a) *Allowable returns.* A proprietor may return spirits to bonded premises if the spirits were taxpaid or tax determined by him, by another distilled spirits plant proprietor, or by an importer upon importation through U.S. Customs and Border Protection. However, consistent with section 5215(a) of the IRC the proprietor may return such spirits to bond only for one of the following reasons:

(1) Destruction, in accordance with § 19.459;

(3) Redistillation, in accordance with subpart L of this part;

(4) Reconditioning; or

(5) Rebottling.

(b) *Dump and gauge of returned spirits.* The proprietor must immediately dump spirits returned to bonded premises under this section unless the spirits are returned in the sealed metal drums in which they were withdrawn. The proprietor must gauge spirits returned under this section upon their receipt. The proprietor may gauge spirits in bottles based upon the case markings and label information in accordance with § 19.286.

(c) *Claims for credit or refund of tax.* A proprietor may file a claim under § 19.264 for credit or refund of tax on spirits returned to bonded premises

under this section. In addition to the information specified in §19.264, a proprietor filing a claim for credit or refund of tax must have on file at the plant where spirits are returned to bond the following documentation for each lot of spirits returned:

(1) Documentation that establishes the amount of tax for which the claim for credit or refund is filed. If the spirits contain eligible wine or eligible flavors, the proprietor must have on file a copy of the record of tax determination as prescribed by §19.611, or other documentation that establishes the rate of tax that was paid on the product. In lieu of establishing the actual effective tax rate of the product, the proprietor may claim a credit or refund based on the lowest effective tax rate applied to the product; and

(2) Credit memoranda or comparable financial records evidencing the return of each lot of spirits.

(d) *Applicability of Chapter 51 of the IRC.* All provisions of chapter 51 of the IRC and of this part that apply to spirits under TTB bond also apply to spirits when returned to bond under this section.

When bottled spirits are returned for relabeling or reclosing, the proprietor may not claim credit or refund of tax on the returned spirits, and no tax will be due on their subsequent removal. The proprietor must relabel or reclose the bottles immediately and must promptly remove the spirits from bonded premises. The provisions of §19.363 apply to relabeling and reclosing performed under this section.

RULES FOR VOLUNTARY DESTRUCTION

§ 19.459 Voluntary destruction.

(a) *General.* A proprietor may voluntarily destroy spirits, denatured spirits, articles, or wines on bonded premises as provided in this section. There is no tax liability on spirits, denatured spirits, articles, or wines destroyed in accordance with this section.

(b) *Wine notice.* A proprietor may destroy wine held on bonded premises only after the proprietor has filed a notice of intent to destroy with the appropriate TTB officer stating the kind and quantity of wine to be destroyed and the date and manner in which the wine is to be destroyed. The wine may be destroyed after the filing of the notice.

(c) *Gauging.* A proprietor must gauge all spirits, denatured spirits, articles, or wines to be destroyed. The proprietor may establish the gauge of spirits in bottles on the basis of legible case markings and label information in accordance with § 19.286. The proprietor must individually count bottles in partial cases.

(d) *Destruction off bonded premises.* If a proprietor intends to remove spirits, denatured spirits, articles, or wines from bonded premises in order to destroy them at a location off bonded premises, the proprietor must file a consent of surety to cover the removal. When the destruction takes place off plant premises, the proprietor must comply with applicable Federal, State, and local environmental laws and regulations.

(e) *Record of destruction.* The proprietor must record the destruction of spirits, denatured spirits, articles, or wines as provided in § 19.617.

(26 U.S.C. 5008, 5370)

Subpart R—Losses and Shortages

§ 19.461 Losses and shortages in general.

(a) *Allowable losses and shortages.* Except as otherwise provided in paragraph (b) of this section, TTB will not collect tax on spirits, denatured spirits, or wines that are lost, destroyed, or otherwise unaccounted for while in bond, and if the tax has already been paid, TTB will refund the tax.

(b) *Exceptions.* TTB will collect the tax in the case of:

(1) Theft, unless the appropriate TTB officer finds that the theft occurred without connivance, collusion, fraud or negligence on the part of the proprietor, owner, consignor, consignee, bailee, or carrier, or any employee or agent of any of them;

(2) Voluntary destruction carried out other than as provided in subpart Q of this part;

(3) An unexplained shortage of bottled spirits.

(c) *Burden of proof.* When it appears that a theft occurred, the burden of proof will be on the proprietor or other person liable for the tax to establish to the satisfaction of the appropriate TTB officer that the theft did not result

from connivance, collusion, fraud, or negligence on the part of the proprietor, owner, consignor, consignee, bailee, or carrier, or any employee or agent of any of them.

(d) *Claims.* Claims for losses and shortages allowable under this section must be filed in accordance with the provisions of subpart J of this part.

(e) *Limitations.* TTB will abate, remit, credit, or refund taxes on spirits, denatured spirits, or wines lost by theft only to the extent that the claimant is not indemnified against, or recompensed for, the taxes paid or owed.

(26 U.S.C. 5008, 5370)

§ 19.462 Determination of losses in bond.

(a) *Times for determining losses.* A proprietor must determine at any of the following times whether a loss of spirits, denatured spirits, or wines has occurred:

(1) Each time a tank or bulk conveyance is emptied;

(2) Upon discovery of an accident or an unusual variation in a gauge; and

(3) When required to take a physical inventory.

(b) *Losses from theft, tampering, or unauthorized voluntary destruction.* Whenever any spirits, denatured spirits, or wines are lost or destroyed in bond, whether by theft, tampering, or unauthorized voluntary destruction, the proprietor may elect voluntarily to pay the tax on the quantity lost. If the proprietor does not elect to pay the tax, the proprietor must promptly report the loss or destruction to the appropriate TTB officer. TTB may require that the proprietor file any claim for relief from the tax in accordance with § 19.263.

(c) *Missing packages.* When a proprietor cannot locate or otherwise account for any packages of spirits, denatured spirits, or wine recorded as deposited on bonded premises, the proprietor must promptly report that fact to the appropriate TTB officer. In such case the proprietor must either pay the tax on the lost spirits, denatured spirits, or wines or file a claim for relief from the tax in accordance with § 19.263.

(d) *Excessive in-transit losses.* A proprietor must promptly report excessive in-transit losses to the appropriate TTB officer. As a general rule, when spirits, denatured spirits, or wines are received in bond in bulk conveyances TTB will consider as excessive a loss that exceeds 1 percent of the quantity consigned. However, in the case of transcontinental transfers of wine in bond, TTB will consider as excessive only a loss in excess of 2 percent of the quantity of wine consigned.

(e) *Excessive storage losses.* A proprietor must pay the tax on excessive storage account losses of spirits unless the proprietor files a claim for remission in accordance with § 19.263 and TTB allows the claim under § 19.268. TTB will consider a storage account loss as excessive when the quantity of spirits lost during a calendar quarter from all storage tanks and stored bulk conveyances exceeds 1.5 percent of the total quantity contained in the tanks and stored bulk conveyances during the calendar quarter.

(26 U.S.C. 5008, 5370)

§ 19.463 Loss of spirits from packages.

(a) *Tampering or theft.* The appropriate TTB officer may require that a proprietor pay the tax on any loss caused by tampering or theft of spirits from packages in storage unless the proprietor establishes to the satisfaction of the appropriate TTB officer that the loss was not due to connivance, collusion, fraud or negligence on the part of the proprietor. As a general rule, the tax will be assessed on the quantity of spirits that represents the difference between the quantity originally entered in the package and the quantity remaining after discovery of the tampering or theft. However, if the proprietor can show that the package had already sustained normal storage losses before the tampering or theft occurred, the proprietor may exclude the amount of the normal storage losses from the quantity to be taxpaid.

(b) *Alternative method of tax assessment.* If tampering or theft has occurred at a proprietor's plant and the proprietor has failed to use effective controls to prevent it, the appropriate TTB officer may use an alternative to the general method of tax assessment specified in paragraph (a) of this section. In this case, the appropriate TTB

officer may assess on each package showing evidence of tampering or theft an amount equal to the tax on 5 proof gallons of spirits.

(26 U.S.C. 5006)

§ 19.464 Losses after tax determination.

If a proprietor sustains a loss of spirits after tax determination but prior to completion of physical removal of the spirits from bonded premises, the proprietor may file a claim in accordance with subpart J of this part.

(26 U.S.C. 5008)

§ 19.465 Shortages of bottled spirits.

(a) *Determination of shortage.* The determination of whether an unexplained shortage of bottled distilled spirits exists must be made by comparing the spirits recorded as being on hand to either the results of the physical inventory required by §19.372 or the results of any other complete physical inventory taken by the proprietor. When the recorded quantity is greater than the quantity determined by physical inventory, the difference is an unexplained shortage. The proprietor must adjust its records to reflect the results of the physical inventory.

(b) *Payment of tax on shortage.* A proprietor must pay the tax on any unexplained shortage of bottled distilled spirits:

(1) Immediately on a prepayment return on form TTB F 5000.24, Excise Tax Return; or

(2) On a deferred payment return on TTB F 5000.24 for the period during which the shortage was determined.

(26 U.S.C. 5008)

Subpart S—Containers and Marks

§ 19.471 General.

The proprietor of a distilled spirits plant must comply with the container and marking requirements that apply to both industrial and nonindustrial spirits. This subpart covers those requirements. For the requirements that apply to articles made with denatured spirits, see part 20 of this chapter. For the requirements that apply to wine, see part 24 of this chapter.

(26 U.S.C. 5206)

§ 19.472 Need to determine use of spirits—industrial or nonindustrial.

Many of the container and marking requirements set forth in this subpart are based on the intended use of the spirits, that is, whether they are for ''industrial'' or ''nonindustrial'' use. For purposes of this subpart, the terms ''industrial'' use and ''nonindustrial'' use refer to the uses specified in paragraphs (a) and (b) of this section.

(a) *Industrial use.* The word ''industrial'' when used with reference to the use of spirits has the same meaning as in §§1.60 and 1.62 of this chapter. Those uses are as follows:

(1) Free of tax by, and for the use of, the United States or any governmental agency thereof, any State, any political subdivision of a State, or the District of Columbia, for nonbeverage purposes;

(2) Free of tax for nonbeverage purposes and not for resale or use in the manufacture of any product for sale—

(i) For the use of any educational organization described in 26 U.S.C. 170(b)(1)(A)(ii) which is exempt from income tax under 26 U.S.C. 501(a), or for the use of any scientific university or college of learning;

(ii) For any laboratory for use exclusively in scientific research;

(iii) For use at any hospital, blood bank, or sanitarium (including use in making analysis or test at such hospital, blood bank, or sanitarium), or at any pathological laboratory exclusively engaged in making analyses, or tests, for hospitals or sanitariums; or

(iv) For the use of any clinic operated for charity and not for profit (including use in compounding of bona fide medicines for treatment outside of such clinics of patients thereof);

(3) Free of tax, after denaturation of such spirits in the manner prescribed by law for—

(i) Use in the manufacture of ether, chloroform, or other definite chemical substance where such distilled spirits are changed into some other chemical substance and do not appear in the finished product; or

(ii) Any other use in the arts and industries (except for uses prohibited by 26 U.S.C. 5273 (b) or (d)) and for fuel, light, and power; and

(4) The use of distilled spirits for experimental purposes and in the manufacture of—

(i) Medicinal, pharmaceutical, or antiseptic products, including prescriptions compounded by retail druggists;

(ii) Toilet preparations;

(iii) Flavoring extracts, syrups, or food products; or

(iv) Scientific, chemical, mechanical, or industrial products, provided such products are unfit for beverage use.

(b) *Nonindustrial use.* The word ''nonindustrial'' when used with reference to the use of spirits refers to any use not listed as an ''industrial'' use in paragraph (a) of this section. Nonindustrial uses include the following:

(1) For beverage purposes;

(2) In the manufacture, rectification, or blending of alcoholic beverages; or in the preparation of food or drink by a hotel, restaurant, tavern, or similar establishment; or as a medicine; and

(3) Distilled spirits in containers with a capacity of 1 wine gallon or less, other than anhydrous alcohol and alcohol that may be withdrawn from bond free of tax.

(26 U.S.C. 5206, 5301)

REQUIREMENTS FOR CONTAINERS

§ 19.473 Authorized containers.

(a) *General.* A proprietor may only use containers that are authorized under this part for containing, storing, transferring, conveying, removing, or withdrawing spirits or denatured spirits.

(b) *Approval of other containers.* The appropriate TTB officer may approve the use of another type of container for a particular purpose in place of a type of container specifically authorized in this part for that purpose if the use of that container:

(1) Will provide protection to the revenue equal to or greater than that provided by the authorized container; and

(2) Will not hinder the effective administration of this part.

(c) *Approval of other container materials.* The appropriate TTB officer may approve the use of a container made of a material other than one prescribed in this subpart if the prescribed material is unsuitable for the intended purpose. If the appropriate TTB officer approves another material for a container, the approval may also specify how the container must be constructed, protected, marked, and used.

(26 U.S.C. 5002, 5206, 5212, 5213, 5214, 5301.)

§ 19.474 Spirits for nonindustrial use.

(a) *Containers.* A proprietor may fill spirits for nonindustrial use into packages or into other containers that are filled during processing operations, if consistent with the provisions of part 5 of this chapter.

(b) *Bottles and labels.* The provisions of subpart T of this part and part 5 of this chapter govern the liquor bottles and labels that a proprietor must use in bottling spirits for nonindustrial domestic use.

(c) *Cases.* If spirits for nonindustrial use are in containers with a capacity of one gallon or less the proprietor must place the containers in cases constructed to afford reasonable protection against breakage.

(26 U.S.C. 5206, 5212, 5301)

§ 19.475 Spirits for industrial use.

(a) *Containers.* A proprietor may fill denatured spirits or other spirits for industrial use into suitable containers. The proprietor must ensure that all containers for spirits that will be used in food products comply with applicable U.S. Food and Drug Administration health and safety laws and regulations.

(b) *Encased containers.* A proprietor may encase unlabeled containers of denatured spirits and other spirits for industrial use in wood, fiberboard or similar material if:

(1) The cases are constructed so that the surface, including the opening of the container, is not exposed;

(2) Required marks are applied to an exterior surface of the case;

(3) The case is constructed so that the portion containing marks will remain attached to the inner container until all the contents have been removed; and

(4) A statement reading, ''Do not remove inner container until emptied'' or

a statement of similar meaning appears on the portion of the case bearing the marks.

(c) *Cases.* With the exception of encased containers covered in paragraph (b) of this section, if the containers for denatured spirits and spirits for industrial use have a capacity of not more than 1 gallon, the proprietor must place the containers in cases that provide reasonable protection against breakage.

(26 U.S.C. 5206, 5301)

§ 19.476 Packages.

A proprietor may use packages on bonded premises for original entry of spirits, and for packaging from tanks, storing, transferring in bond, and withdrawing spirits and denatured spirits from bonded premises. Packages must be constructed so as to be capable of secure closure.

(26 U.S.C. 5206)

§ 19.477 Use of bulk conveyances.

If a bulk conveyance meets the construction requirements of § 19.478 or is approved under § 19.473(b), a proprietor may use the bulk conveyance on bonded premises for the original entry of spirits, and for filling from tanks, storing, transferring in bond, and withdrawing taxpaid spirits and denatured spirits. A proprietor may use such a bulk conveyance to withdraw spirits free of tax, in accordance with the provisions of this part, for use of the United States or to a specified consignee if so authorized by the appropriate TTB officer under § 19.473(b). A proprietor may also use such a bulk conveyance to withdraw spirits without payment of tax, in accordance with the provisions in this part, for any one of the following purposes:

(a) Export, as authorized under 26 U.S.C. 5214(a)(4);

(b) Transfer to customs manufacturing bonded warehouses, as authorized under 19 U.S.C. 1311;

(c) Transfer to foreign trade zones, as authorized under 19 U.S.C. 81c;

(d) Transfer to customs bonded warehouses, as authorized under 26 U.S.C. 5066 or 5214(a)(9); or

(e) Use in wine production, as authorized under 26 U.S.C. 5373.

(26 U.S.C. 5206)

§ 19.478 Construction requirements for bulk conveyances.

(a) *Construction.* The following standards apply to bulk conveyances authorized by this part:

(1) If the conveyance consists of two or more compartments, each compartment must be constructed or arranged so that the emptying of any compartment does not provide access to the contents of any other compartment;

(2) The conveyance (or in the case of compartmented conveyances, each compartment) must be arranged so that it can be completely drained;

(3) Each tank car or tank truck must have permanently and legibly marked thereon its number, its capacity in wine gallons, and the name or symbol of its owner;

(4) If the conveyance consists of two or more compartments, each compartment must be identified by a number and the capacity in wine gallons of each shall be marked thereon;

(5) The conveyance must have a route board or other suitable device for carrying required marks or brands; and

(6) Calibrated charts, showing the capacity of each compartment in wine gallons for each inch of depth, must be available for use in measuring the contents of each tank truck, tank ship, or barge.

(b) *Proprietor's responsibility.* Before filling any bulk conveyance, a proprietor must examine it to verify that it meets the requirements of this section or of an approval under § 19.473(b) and that it is otherwise suitable for receiving the spirits or denatured spirits. A proprietor must refrain from using, or discontinue use of, any conveyance found by it or by the appropriate TTB officer not to meet the applicable requirements.

(26 U.S.C. 5206, 5212, 5213, 5214)

§ 19.479 Restrictions on dispositions of bulk spirits.

(a) *Bulk spirits for nonindustrial use.* A proprietor may sell or dispose of spirits for nonindustrial use in containers holding more than one wine gallon

only to the persons and for the purposes specified in §1.80 of this chapter.

(b) *Bulk spirits for industrial use.* If a proprietor withdraws spirits (other than alcohol or neutral spirits) from bond in containers holding more than one wine gallon for industrial use, the proprietor must ship or deliver the spirits directly to the user of the spirits as provided in §1.95 of this chapter.

(26 U.S.C. 5201)

MARKING REQUIREMENTS FOR SPIRITS

§ 19.482 General.

A proprietor must mark, identify, and label all containers of spirits or denatured spirits as provided in this part. For information regarding liquor bottle label requirements, see subpart T of this part and part 5 of this chapter.

(26 U.S.C. 5204, 5206)

§ 19.483 Specifications for marks.

(a) *Basic requirements.* A proprietor must place the marks prescribed by this subpart on cases, encased containers, and packages of spirits and denatured spirits so that they are:

(1) Of adequate size to be easily read;

(2) Of a color in distinct contrast to the color of the background;

(3) Legible; and

(4) Durably affixed.

(b) *Use of labels.* A proprietor may use labels as the means for applying prescribed marks if the labels meet the requirements of paragraph (a) of this section.

(c) *Location.* A proprietor must place the prescribed marks on one side of the case or encased container, or on the head of the package.

(26 U.S.C. 5206)

§ 19.484 Marks on packages filled in production or storage.

(a) *Packages filled in production or storage.* Except as otherwise provided in this part, a proprietor must mark packages of spirits filled in production or storage with:

(1) The name of the producer, or the producer's trade name, in accordance with paragraph (b) of this section;

(2) The distilled spirits plant number of the producer, such as ''DSP–KY–708'';

(3) The kind of spirits or, in the case of distillates removed under §19.307, the kind of distillate such as ''Grape Distillate'' or ''Peach Distillate'';

(4) The package identification number;

(5) ''BSA'' or ''OC'' when spirits are treated with caramel (burnt sugar) or oak chips, as the case may be;

(6) The rated capacity of the package in gallons shown as ''RC–G''; and

(7) The name or trade name and the plant number of the packaging proprietor in place of the name or trade name and plant number of the producer if packages of spirits of 190° or more of proof are filled by a proprietor other than the producer.

(b) *Real or trade names.* The producer's or other proprietor's real name, or the authorized trade name used in accordance with §19.94 at the time of production, may be placed on any package filled at the time of the production gauge, or at the time of the original packaging of the spirits in wood when, as provided in §19.305, the spirits were not filled into wooden packages at the time of production gauge. When spirits have been mingled in accordance with §19.326, the proprietor may use only a producer name associated with any portion of the mingled spirits on packages filled with such mingled spirits.

(26 U.S.C. 5206)

§ 19.485 Package identification numbers in production and storage.

(a) *General.* A proprietor must mark with a lot identification number each package of spirits filled during production or storage operations. The lot identification number must show when the package was filled and must consist of, in order, the following:

(1) The last two digits of the calendar year;

(2) An alphabetical designation for the month from ''A'' through ''L'', representing, in order, January through December;

(3) Two digits corresponding to the day of the month; and

(4) When more than one lot is filled into packages during the same day, for successive lots after the first lot, a letter suffix sequence starting with ''A'' representing the second lot, with ''B''

representing the third lot, and so forth. For example: the first three lots filled into packages on January 2, 2002, would be identified as ''02A02'', ''02A02A'', and ''02A02B''.

(b) *Packages constituting a lot.* Packages of spirits, including any remnant package, received from customs custody or filled during any one day will receive the same lot identification number, subject to the following conditions:

(1) They are of the same type and either are of the same rated capacity or are uniformly filled with the same quantity by weight or other measurement method prescribed in § 19.289;

(2) They are filled with spirits of the same kind and same proof;

(3) If they are filled with mingled spirits, the mingling was conducted in accordance with § 19.326; and

(4) In the case of spirits imported or brought into the United States, they are filled with imported spirits, Puerto Rican spirits or Virgin Island spirits, as applicable.

(c) *Serial numbers.* At the time of filling, receipt on bonded premises, or withdrawal from bond, the appropriate TTB officer may require serial numbers on packages of spirits within the same lot in conjunction with the lot identification number. The proprietor must assign temporary serial numbers to packages for control purposes when they are transferred in bond in an unsecured conveyance or gauged after tampering within the storage account.

(26 U.S.C. 5206)

§ 19.486 Change of packages in storage.

When a proprietor transfers spirits from one package to another as permitted in § 19.325, the proprietor must give the new package the same package identification number and marks as the original package. The proprietor must also prepare and sign a label to be affixed to the head of each new package. The label must be in the following form:

The spirits in this _____ [kind of cooperage: barrel or drum], package identification No. _____, were transferred from a _____ [kind of cooperage: barrel or drum], on _____ [Date], _____ [Proprietor]

(26 U.S.C. 5206)

§ 19.487 Kind of spirits.

(a) *Designation.* The designations of kind of spirits required for packages filled on bonded premises must be consistent with the classes and types of spirits set forth in part 5 of this chapter subject to the following exceptions or conditions:

(1) A proprietor may designate as ''Alcohol'' spirits distilled at more than 160 proof, which lack the taste, aroma, and other characteristics generally attributed to whisky, brandy, rum, or gin, and which are substantially neutral in character. When alcohol so designated is withdrawn on determination of tax, the designation must consist of the word ''Alcohol'' preceded or followed by a word or phrase that describes the material from which the alcohol was produced;

(2) The designation for vodka, neutral spirits, or gin must include a word or phrase that describes the material from which the spirits were produced;

(3) A proprietor may designate as ''Spirits'', preceded or followed by a word or phrase that describes the material from which the spirits were produced, those distilled spirits that are distilled at less than 190 proof which lack the taste, aroma, and other characteristics generally attributed to whisky, brandy, rum, or gin. However, the proprietor may not designate such spirits as ''Spirits grain'' or ''Grain spirits'';

(4) A proprietor must designate spirits distilled from fruit at or above 190 proof, if intended for use in wine production, as ''Neutral Spirits—Fruit'', preceded or followed by the name of the fruit from which the spirits were produced;

(5) A proprietor may designate as ''Whisky'' spirits distilled at not more than 160 proof from a fermented mash of not less than 51 percent rye, corn, wheat, malted barley, or malted rye grain, packaged in reused cooperage, provided that the designation is further qualified with the words ''Distilled from rye mash'' (or bourbon, wheat, malt, or rye malt mash, as the case may be). However, spirits designated as

''Whisky'' must, if distilled from a fermented mash of not less than 80 percent corn, carry the designation ''Corn Whisky.''

(b) *Change of designation.* After written application to, and approval of, the appropriate TTB officer, a proprietor may at any time before their withdrawal from bonded premises, change the original designation for spirits to a new designation properly describing the spirits in accordance with the provisions of this section.

(c) *Other designations.* If a proprietor proposes to produce spirits for which a designation has not been prescribed in this section or in part 5 of this chapter, the proprietor must first make written application to the appropriate TTB officer for a designation for such spirits, and the proprietor must then designate the spirits accordingly.

(d) *Spirits for nonindustrial use.* A proprietor may not treat the provisions of this section as constituting authorization to apply designations to spirits withdrawn for nonindustrial use if those designations do not conform to the requirements of part 5 of this chapter.

(26 U.S.C. 5206)

§ 19.488 Marks on packages filled in processing.

(a) *Packages filled in processing.* Except as otherwise provided in this part, a proprietor must mark packages of spirits filled in processing with:

(1) The name of the processor, or the processor's trade name;

(2) The distilled spirits plant number of the processor, such as ''DSP–KY–708'';

(3) The kind of spirits in accordance with § 19.487 or, in the case of an intermediate product, the product name shown on form TTB F 5110.38, Formula for Distilled Spirits Under the Federal Alcohol Administration Act;

(4) The serial number or lot identification number, in accordance with § 19.490, and the date of filling;

(5) The proof of the spirits; and

(6) The serial number of the formula if it was manufactured under an approved formula.

(b) *Real or trade names.* The proprietor's real name or any trade name used in accordance with § 19.94 may be placed on any package filled with spirits during processing operations.

(26 U.S.C. 5206)

§ 19.489 Marks on cases filled in processing.

(a) *Mandatory marks.* Except for cases marked in accordance with § 19.496, a proprietor must mark in accordance with § 19.483 the following information on each case of spirits filled in processing:

(1) Serial number in accordance with § 19.490;

(2) Kind of spirits in accordance with the classes and types of spirits set forth in part 5 of this chapter;

(3) The distilled spirits plant number where bottled;

(4) Date filled;

(5) Proof; and

(6) Liters or proof gallons.

(b) *Export marks.* In addition to the marks referred to in paragraph (a) of this section, the proprietor must include the marks required by part 28 of this chapter on cases removed for export, for transfer to any customs bonded warehouses, for transfer to foreign trade zones, or for use as supplies on certain vessels and aircraft.

(c) *Other marks.* A proprietor may include other marks on cases filled in processing in addition to the marks prescribed under this section. Any additional marks must not interfere with, or detract from, the marks prescribed in this section. The proprietor may include other marks such as:

(1) The name or trade name, and the location if desired, of the bottler, displayed with the word ''Bottler'';

(2) For products distilled or processed by the proprietor, the proprietor's name or trade name, and the location of the distilled spirits plant, if desired, displayed with the words ''Distiller'' or ''Processor'', as applicable;

(3) For products imported and bottled by the proprietor, the words ''Imported and Bottled By'', followed by the proprietor's name or trade name and location of the distilled spirits plant if desired;

(26 U.S.C. 5066, 5206)

§ 19.490 Numbering of packages and cases filled in processing.

(a) *Packages of spirits and denatured spirits filled during processing operations.* When a proprietor fills packages of spirits and denatured spirits during processing, the proprietor must identify the packages consecutively beginning with ''1'' and continuing the series until the number ''1,000,000'' is reached, except that any series of such numbers already in use may be continued to that limit. When the identification in any series reaches ''1,000,000'', the proprietor may begin a new series with ''1'' but must add an alphabetical prefix or suffix to the new series number. For example, the first identifier in the second series of 1,000,000 packages filled might be ''1A'' or ''A1''.

(b) *Cases containing bottles or other containers of spirits and denatured spirits.* When a proprietor fills cases containing bottles or other containers of spirits and denatured spirits during processing, the proprietor must identify the cases consecutively beginning with ''1'' and continuing the series until the number ''1,000,000'' is reached, except that any series of such numbers already in use may be continued to that limit. When the identification in any series reaches ''1,000,000'', the proprietor may begin a new series with ''1''. This series of identifiers for cases containing bottles or other containers must be distinct from the series of serial numbers required for packages under paragraph (a) of this section.

(c) *Additional identification.* A proprietor may establish separate series of identifiers, distinguished from each other by the use of alphabetical prefixes or suffixes, to identify the size of bottles, the brand names, or other information, on written notice to the appropriate TTB officer. The proprietor must identify remnant cases by placing the identifier of the last full case followed by the letter ''R'' on the remnant case. When there is a change in the name, or trade name of the proprietor, all series in use may be continued. However, if there is a change in proprietorship, a new series must be commenced.

(d) *Alternative marking for spirits for industrial use.* A proprietor may mark packages and cases of spirits for industrial use, including denatured spirits, filled in processing with the lot identification numbers specified in § 19.485 instead of using the identifiers specified in paragraphs (a), (b) and (c) of this section.

(26 U.S.C. 5206)

§ 19.491 Marks on containers of specially denatured spirits.

(a) *General.* A proprietor must mark or label each package, case, or encased container of specially denatured spirits filled on bonded premises to show:

(1) The quantity in gallons;

(2) The serial number or lot identification number;

(3) The plant number of the proprietor;

(4) The designation or abbreviation of the specially denatured spirits by kind (alcohol or rum);

(5) The applicable formula number; and

(6) The proof of the spirits, if they were denatured at other than 190 proof.

(b) *Bottles.* A proprietor must mark or label each bottle to show the information prescribed in paragraphs (a)(1), (3), (4), (5), and (6) of this section.

(26 U.S.C. 5301)

§ 19.512 Bottles not constituting approved containers.

A proprietor may not use any liquor bottle that the appropriate TTB officer finds is misleading within the meaning of § 5.46 of this chapter. Misleading liquor bottles do not constitute approved containers for the purposes of this part, and a proprietor may not use them for packaging distilled spirits for domestic purposes.

(26 U.S.C. 5301)

§ 19.513 Distinctive liquor bottles.

(a) *Application.* A proprietor must submit form TTB F 5100.31, Application for and Certification/Exemption of Label/Bottle Approval, to the appropriate TTB officer in order to obtain approval to use domestic liquor bottles of distinctive shapes or designs. The proprietor must certify as to the total capacity of a representative sample bottle before closure (expressed in milliliters) on each copy of the form. In addition, the proprietor must affix a readily legible photograph (showing both front and back of the bottle) to the front of each copy of TTB F 5100.31 along with the label(s) to be used on the bottle. The proprietor must submit to TTB an actual bottle or accurate model only when specifically requested to do so.

(b) *Approval.* The appropriate TTB officer will approve a distinctive liquor bottle on a properly completed TTB F 5100.31 if the bottle is found to:

(1) Meet the requirements of part 5 of this chapter;

(2) Be distinctive;

(3) Be suitable for its intended purpose;

(4) Not jeopardize the revenue; and

(5) Be not misleading to the consumer.

(c) *Retention.* A proprietor must keep on file at his premises a copy of the complete approved TTB F 5100.31 for the distinctive liquor bottle.

(d) *Cross reference.* For procedures regarding issuance, denial and revocation of distinctive liquor bottle approvals, as well as appeal procedures, see part 13 of this chapter.

(26 U.S.C. 5301)

LABELING REQUIREMENTS

A proprietor must obtain a certificate of label approval or an exemption from label approval under part 5 of this chapter on form TTB F 5100.31 for any label that the proprietor will use on bottles of spirits for domestic use. Upon request by the appropriate TTB officer, the proprietor must provide evidence of label approval, or of exemption from label approval, for a label used on a bottle of spirits for domestic use. For procedures regarding the issuance, denial and revocation of certificates of label approval and certificates of exemption from label approval, as well as appeal procedures, see part 13 of this chapter.

(26 U.S.C. 5201)

§ 19.517 Statements required on labels under an exemption from label approval.

If a proprietor bottles spirits for domestic use under a certificate of exemption from label approval on form TTB F 5100.31, the following information must appear on the label used on the bottle, in the manner indicated:

(c) *Alcohol content.* The alcohol content on the label must conform to the requirements of § 5.37(a) of this chapter;

(d) *State of distillation.* In the case of whisky, the state of distillation statement on the label must conform to the requirements of § 5.36(d) of this chapter;

(e) *Net contents.* The label must show the net contents, unless the statement of net contents is permanently marked on the side, front, or back of the bottle;

(f) *Name and address of bottler.* The name and address of the bottler must conform to the requirements of § 19.518;

(g) *Age of whisky containing no neutral spirits.* In the case of whisky containing no neutral spirits, statements of age and percentage by volume on the label must conform to the requirements of § 5.40 of this chapter;

(h) *Age of whisky containing neutral spirits.* In the case of whisky containing neutral spirits, the label must state the age of the whisky or whiskies and the respective percentage by volume of whisky or whiskies and neutral spirits in accordance with § 5.40 of this chapter;

(i) *Age of brandy.* In the case of brandy aged for a period of less than two years, the label must state the age.

(j) *Presence of neutral spirits or coloring, flavoring, or blending material.* The label must indicate the presence of neutral spirits or coloring, flavoring, or blending material in accordance with § 5.39 of this chapter; and

(k) *Country of origin.* Labels of imported spirits must state the country of origin in substantially the following form: ''Product of _____,'' with the blank filled in with the name of the country of origin.

(26 U.S.C. 5201)

§ 19.518 Name and address of bottler.

In setting forth the name and address of the bottler required by § 19.517(f), the label must contain the words ''Bottled by'', ''Packed by'', or ''Filled by'' followed immediately by the name (or trade name) of the bottler and the place where the bottling takes place. If the bottler is the proprietor of more than one distilled spirits plant engaged in bottling operations, the label may include the addresses of all such plants immediately following the name (or trade name) of the bottler. The following additional rules apply to name and address labeling under this section:

(a) Where distilled spirits are bottled by or for the distiller of the spirits, the label may state, in lieu of the words ''Bottled by'', ''Packed by'', or ''Filled by'', followed by the bottler's name (or trade name) and address or addresses, the words ''Distilled by'', followed immediately by the name (or trade name) under which the particular spirits were distilled, or by any trade name shown on the distiller's permit covering the premises where the particular spirits were distilled, and the address (or addresses) of the distiller;

(b) Where ''straight whiskies'' of the same type produced in the same State by two or more different distillers are combined (either at time of bottling or at a warehouseman's bonded premises for further storage) and are subsequently bottled and labeled as ''straight whisky'', that ''straight whisky'' must be labeled as provided in the introductory paragraph of this section. However, where that combined ''straight whisky'' is bottled by or for the distillers of the whiskies, the label may contain, in lieu of the wording specified in that introductory paragraph, the words ''Distilled by'', followed immediately by the name (or trade name) of each distiller that distilled a portion of the ''straight whisky'', the address of each of the distilled spirits plants where a portion of the ''straight whisky'' was distilled, and the percentage of ''straight whisky'' distilled by each distiller (with a tolerance of plus or minus 2 percent). In addition, where ''straight whisky'' is made up of a mixture of ''straight whiskies'' of the same type distilled at two or more distilled spirits plants of the same proprietor located within the same State, and where that ''straight whisky'' is bottled by or for that proprietor, the label for the ''straight whisky'' may contain, in lieu of the wording specified in the introductory paragraph of this section, the words ''Distilled by'' followed by the name (or trade name) of the proprietor and the address of each of the distilled spirits plants that distilled a portion of the ''straight whisky'';

(c) Where distilled spirits are bottled by or for the proprietor of a distilled spirits plant, the label may state, in lieu of the words ''Bottled by'', ''Packed by'', or ''Filled by'' followed by the bottler's name (or trade name) and address, the words ''Blended by'', ''Made by'', ''Prepared by'', ''Manufactured by'', or ''Produced by'' (whichever is appropriate to the process involved), followed by the name (or trade name) and the address (or addresses) of the distilled spirits plant proprietor;

(d) In the case of labels of distilled spirits bottled for a retailer or other person who is not the proprietor of the distilled spirits plant where the distilled spirits were distilled, the label may also state the name and address of that retailer or other person, preceded immediately by the words ''Bottled for'', ''Distributed by'', or other similar statement; and

(e) The label may state the address of the proprietor's principal place of business in lieu of the place where the bottling, distilling or processing operation occurred, provided that the address where the bottling, distilling, or other operation occurred is indicated by printing, coding, or other markings, on the label or on the bottle. The coding system employed must permit TTB to determine where the operation stated on the label occurred. Prior to using such a label or bottle coding system, the proprietor must send a notice to the appropriate TTB officer explaining the coding system.

(26 U.S.C. 5201)

§ 19.519 Labels for export spirits.

(a) *Required information.* If a proprietor bottles spirits for export, the bottles must have a securely affixed label showing:

(1) The kind (class and type) of spirits;

(2) The percentage of alcohol by volume (ABV) of the spirits;

(3) The net contents, unless the markings on the bottle indicate such contents; and

(4) The name (or trade name) of the bottler.

(b) *Additional information.* The bottler may place additional information on the export label if it is not inconsistent with the information required under paragraph (a) of this section.

(c) *Language.* The export label information may appear in the language of the country to which the spirits are to

be exported provided that the proprietor maintains on file an English translation of that information. The export label may state the net contents and percentage of alcohol by volume in the units of measurement of the foreign country, provided that the proprietor maintains a record of the equivalent units as required for labels of spirits bottled for domestic consumption.

(d) *Waiver.* The appropriate TTB officer may waive the requirement to show any information required by this section, other than the kind of spirits, upon a showing that the country to which the spirits are to be exported prohibits the showing of such information. In regard to kind (class and type) of spirits, the appropriate TTB officer may waive the designation required by § 5.22 of this chapter, only to the extent that the label need not bear the word ''diluted'' for distilled spirits bottled below the minimum bottling proof, and provided that this is in accordance with the rules of the country to which the product is to be exported.

(26 U.S.C. 5201, 5301)

§ 19.520 Spirits for shipment to Puerto Rico.

Spirits removed for shipment to Puerto Rico with benefit of drawback or without payment of tax in accordance with part 28 of this chapter are subject to the provisions of part 5 of this chapter in regard to labeling and standards of fill for bottles.

(26 U.S.C. 5201)

CLOSURE REQUIREMENTS

§ 19.523 Affixing closures.

Each bottle or other container of spirits having a capacity of one gallon (3.785 liters) or less must have a closure or other device securely affixed to the container prior to withdrawal from bond or customs custody. The closure or other device must be constructed in such a manner as to require breaking in order to gain access to the contents of the container.

(26 U.S.C. 5301)

§ 19.525 Reclosing.

A proprietor may reclose bottles of distilled spirits filled on bonded premises as provided in subpart N of this part. A proprietor may also reclose bottles of distilled spirits to which closures or other devices have been affixed as provided in § 19.498.

(26 U.S.C. 5215)

Subpart U [Reserved]

Subpart V—Records and Reports

GENERAL RULES FOR RECORDS

§ 19.571 Records in general.

Each proprietor of a distilled spirits plant must maintain records that accurately reflect the operations and transactions occurring at the plant. This subpart specifies the types of records that a proprietor must maintain. In general, a proprietor is responsible for recording activities and transactions related to the three primary operational accounts at a plant: production, storage, and processing. A proprietor's records must show receipts in each account, movement from one account to another, transfers in bond, and withdrawals of spirits, denatured spirits, articles, or wines. The types of records that a proprietor must keep include:

(a) All individual transaction forms, records, and summaries that are specifically required by this part;

(b) All supplemental, auxiliary, and source data that a proprietor uses to compile required forms, records, and summaries, and to prepare reports, returns and claims; and

(c) Copies of notices, reports, returns, and approved applications and other documents relating to operations and transactions.

(26 U.S.C. 5207)

§ 19.572 Format of records.

As a general rule, the provisions of this subpart do not require proprietors to keep their records in any particular format or medium. For example, a proprietor may keep required records on paper, on microfilm or microfiche, or on a computer or other electronic medium, so long as the records are readily retrievable in hardcopy format for review by TTB officers as necessary. The

required records may consist of documents created in the ordinary course of business, rather than documents created expressly to meet the requirements of this part, provided that those documents:

(a) Contain all of the relevant information required under this part;

(b) Are consistent with the general standards of clarity and accuracy; and

(c) Can be readily understood by TTB personnel.

(26 U.S.C. 5207)

§ 19.573 Location of required records.

A proprietor may keep the records required by this part at the distilled spirits plant where operations or transactions occur or at a central recordkeeping location maintained by the proprietor. If a proprietor keeps the required records at any location other than the distilled spirits plant where operations or transactions occur, the proprietor must provide a letterhead notice to the Director, National Revenue Center, of the location where the records are kept.

(26 U.S.C. 5207)

§ 19.574 Availability of records.

The records required by this part must be available for inspection by the appropriate TTB officer during normal business hours. If a proprietor keeps the records at a location other than the distilled spirits plant where operations or transactions occur, the proprietor upon request must make them available at the distilled spirits plant premises undergoing a TTB audit or inspection. The records must be produced within two days of the request except that data accumulated on cards, tapes, discs, or other accepted record media must be retrievable within five business days. Applicable data processing programs must be made available for examination if requested by any authorized TTB officer.

(26 U.S.C. 5207)

§ 19.575 Retention of records.

A proprietor must retain any records required by this part for a period of not less than three years from the date of the record or the date of the last entry required to be made, whichever is later. However, the appropriate TTB officer may require a proprietor to keep records for an additional period not exceeding three years in any case where such retention is deemed appropriate for the protection of the revenue.

(26 U.S.C. 5207)

§ 19.576 Preservation of records.

A proprietor must maintain required records in a manner that will ensure their readability and availability for inspection. Whenever the condition of any record will render it unsuitable for its intended or continued use, the proprietor must create an accurate and legible reproduction of the original record. TTB will treat the reproduced record as an original record, and all of the provisions of law that would apply to the original record also will apply to the reproduced record.

(26 U.S.C. 5207, 5555)

§ 19.577 Documents that are not records.

The term ''records'' as used in this subpart does not include qualifying documents required under subpart D of this part, or bonds required under subpart F of this part. Approved active formulas, plant registrations and similar records are permanent in nature and must be maintained in a permanent file.

(26 U.S.C. 5207)

§ 19.578 Financial records and books of account.

See § 70.22 of this chapter for information regarding TTB examination of financial records and books of account.

(26 U.S.C. 7602)

§ 19.580 Time for making entries in records.

(a) *Daily record entries.* A proprietor must make entries required by this part in records on a daily basis for each transaction or operation and not later than the close of the next business day after the transaction or operation occurred. However, if a proprietor prepares supplemental or auxiliary records when an operation or transaction occurs and those records contain all of the required information,

the proprietor may make entries into the daily records not later than the close of business on the third business day following the day on which the transaction or operation occurred.

(b) *Tax records.* A proprietor must enter the tax determination and the taxable removal of distilled spirits in the proprietor's records on the day on which tax determination and taxable removal occurs.

(26 U.S.C. 5207)

§ 19.581 Details of daily records.

The daily records required by this part must include the following information:

(a) The date of each operation or transaction;

(b) For spirits, the kind and the quantity in proof gallons;

(c) For denatured spirits, the formula number and the quantity in wine gallons;

(d) For distilling materials produced on the premises, the kind and the quantity in wine gallons. For chemical byproducts containing spirits, articles, spirits residues, and distilling material received on the premises, the kind, the percent of alcohol by volume, and the quantity in wine gallons;

(e) For wines, the kind, the quantity in wine gallons and the percent of alcohol by volume;

(f) For alcoholic flavoring materials, the kind, formula number (if any), and the quantity in proof gallons;

(g) For containers (other than those bearing lot identification numbers) or cases, the type, serial number, and the number of containers (including identifying marks on bulk conveyances), or cases. However, a proprietor may withdraw spirits in cases without recording the serial numbers of the cases, unless the appropriate TTB officer requires such recording. A proprietor must record package identification numbers, number of packages, and proof gallons per package on deposit records in the storage account reflecting production gauges or filling of packages from tanks; however, the proprietor need show only the lot identification, number of packages, and proof gallons per package for transactions in packages of spirits unless package identification numbers are specifically required by this part;

(h) For materials intended for use in the production of spirits, the kind and the quantity, with liquids recorded in gallons and other nonliquid materials recorded by weight;

(i) For each receipt or removal of material, spirits, denatured spirits, articles, spirits residues, and wine, the name and address of the consignee or consignor, and, if any, the plant number or industrial use permit number of such person;

(j) The serial number of any tank used;

(k) On the transaction record, the rate of duty paid on imported spirits;

(l) Identification of imported spirits, spirits from Puerto Rico, and spirits from the Virgin Islands, or a showing that a distilled spirits product contains such spirits; and

(m) Identification of spirits that are to be used exclusively for fuel use.

(26 U.S.C. 5207)

§ 19.582 Conversion from metric to U.S. units.

When liters are converted to wine gallons, the proprietor must multiply the quantity in liters by 0.264172 to determine the equivalent quantity in wine gallons. If cases contain the same quantity of spirits of the same proof in metric bottles, the proprietor must convert the cases to U.S. units by multiplying the liters in one case by the number of cases to be converted, as follows:

(a) If the conversion from liters to U.S. units is made before multiplying by the number of cases, the quantity in U.S. units must be rounded to the sixth decimal; or

(b) If the conversion is made after multiplying by the number of cases, the quantity in U.S. units must be rounded to the nearest hundredth. Once converted to wine gallons, the proprietor must determine the proof gallons of spirits in cases as provided in § 30.52 of this chapter.

(26 U.S.C. 5201)

PRODUCTION RECORDS

§ 19.584 Materials for the production of distilled spirits.

A proprietor must maintain daily records of materials produced or received for, or used in, the production of distilled spirits. This includes records covering:

If packages are filled according to the production gauge for immediate withdrawal from bond, the proprietor must record the details of the individual packages filled;

(2) A proprietor must maintain daily records of spirits lost or destroyed prior to the production gauge; and

(3) A proprietor must maintain production account records in a manner that will ensure the tracing of spirits through the distilling system to the mash or other material from which the spirits were produced and that will clearly establish the identity of the spirits.

The appropriate TTB officer may approve the use of an alternate method or procedure only if the proprietor shows good cause for its use and the alternate method or procedure:

(1) Is not contrary to law;

(2) Will not have the effect of merely waiving an existing regulatory requirement;

(3) Is consistent with the purpose and effect of the method or procedure prescribed in this subpart;

(b) *Approval and use.* The proprietor may not use an alternate method or procedure until the appropriate TTB officer has in writing approved the proprietor's letterhead application. During the period that the proprietor is authorized to use the alternate method or procedure, the proprietor must comply with any conditions imposed on its use

by TTB. TTB may withdraw the approval to use the alternate method or procedure if TTB finds that the revenue is jeopardized, that the alternate method or procedure hinders effective administration of the laws or regulations, that the proprietor has violated any of the conditions imposed by TTB, or that the circumstances that gave rise to the need for the alternate method or procedure no longer exist.

(a) *Application.* A proprietor may request emergency approval of the use of a method or procedure relating to construction, equipment, and methods of operation that represents a variance from the requirements of this subpart or from any regulatory requirement in subparts A through W of this part that have been incorporated by reference in this subpart. When a proprietor wishes to use an emergency method or procedure, the proprietor must submit a written letterhead application to the appropriate TTB officer for approval; the proprietor may send the application via regular mail, email, or facsimile transmission. The application must describe the proposed emergency method or procedure and the emergency situation it will address. For purposes of this section, an emergency is considered to exist only if it results from a weather or other natural event or from an accident or other event not involving an intentional act on the part of the proprietor.

(b) *Approval.* The appropriate TTB officer may approve in writing the use of an emergency method or procedure if the proprietor demonstrates that an emergency exists and the proposed method or procedure:

(4) Will not hinder the effective administration of this subpart.

(c) *Terms of emergency method or procedure approval and use.* (1) The proprietor may not use an emergency method or procedure until the application has been approved by TTB except when the emergency method or procedure requires immediate implementation to correct a situation that threatens life or property. In a situation involving a threat to life or property, the proprietor may implement the corrective action, immediately notify the appropriate TTB officer by telephone of the action and then file the required written application as soon as possible. Use of the emergency method or procedure must conform to any conditions specified in the approval.

(2) The proprietor must retain the emergency method or procedure approval as part of the proprietor's records and must make the approval available for examination by TTB officers upon request.

(3) The emergency method or procedure will automatically terminate when the situation that created the emergency no longer exists. TTB may withdraw the approval to use the emergency method or procedure if TTB finds that the revenue is jeopardized, that the emergency method or procedure hinders effective administration of the laws or regulations, or that the proprietor has failed to follow any of the conditions specified in the approval. When use of the emergency method or procedure terminates, the proprietor must revert to full compliance with all applicable regulations.

§ 19.678 Criteria for issuance of permit.

As a general rule, the appropriate TTB officer will issue an alcohol fuel plant permit to any person who completes the required application for a permit and, when required, furnishes a bond. However, the appropriate TTB officer may begin proceedings to deny an application for a permit, in accordance with part 71 of this chapter, if the appropriate TTB officer determines that—

(a) The applicant (including, in the case of a corporation, any officer, director, or principal stockholder, and, in the case of a partnership, a partner) is, by reason of business experience, financial standing, or trade connections, not likely to maintain operations in compliance with 26 U.S.C. chapter 51, or the regulations issued thereunder;

(b) The applicant failed to disclose any material information required with the application, or has made any false statement as to any material fact in connection with the application; or

(c) The premises where the applicant proposes to conduct the operations are not adequate to protect the revenue.

(26 U.S.C. 5181, 5271)

§ 19.679 Duration of permit.

The proprietor of an alcohol fuel plant may conduct the operations authorized by the permit on a continuing basis unless:

(a) The proprietor voluntarily surrenders the permit;

(b) TTB suspends or revokes the permit pursuant to § 19.697; or

(c) The permit is automatically terminated under its own terms or in accordance with § 19.684.

(26 U.S.C. 5181)

CHANGES TO PERMIT INFORMATION

§ 19.683 Changes affecting permit applications.

(a) *General.* If there is a change relating to any of the information contained in, or considered a part of, the application on form TTB F 5110.74, Application and Permit for an Alcohol Fuel Producer Under 26 U.S.C. 5181, the proprietor must amend the information previously submitted within 30 days of the change unless another time period is specified in this subpart.

(b) *Amended TTB F 5110.74.* Except when a letterhead application or letterhead notice procedure is followed under this subpart, the proprietor must submit an amended application to the appropriate TTB officer on TTB F 5110.74 within 30 days of a change referred to in paragraph (a) of this section if the change affects the terms and conditions of the permit.

(c) *Letterhead applications.* For the changes specified in §§ 19.685(c), 19.686, and 19.690 of this subpart, the proprietor may submit a letterhead application to the appropriate TTB officer for a change instead of filing an amended TTB F 5110.74. A letterhead application must be on letterhead signed by an authorized representative of the permit holder. The letterhead application must identify the alcohol fuel plant to which the application applies. The letterhead application change is subject to TTB approval. The appropriate TTB officer may, at any time, require that the proprietor submit an amended application on TTB F 5110.74 if administrative difficulties occur as a result of the letterhead application.

(d) *Letterhead Notices.* For the changes specified in §§ 19.687, 19.695, and 19.691 of this subpart only a letterhead notice to the appropriate TTB officer is required. A letterhead notice must be on letterhead signed by an authorized representative of the permit holder. A letterhead notice does not require approval action by TTB. The appropriate TTB officer may, at any time, require that the proprietor submit an amended application on TTB F 5110.74 if administrative difficulties occur as a result of the letterhead notice.

(26 U.S.C. 5271, 5181)

§ 19.684 Automatic termination of permits.

(a) *Permits not transferable.* An alcohol fuel plant permit is not transferable and, except as otherwise provided in paragraph (b) of this section, will automatically terminate if:

(1) The operations that are authorized by the permit are leased, sold, or transferred to another person; or

(2) The permit holder is dissolved on a date certain or upon an event specified by the laws of the State where the permit holder operates.

(b) *Corporations.* In the case of a corporation holding a permit under this subpart, if actual or legal control of that corporation changes, directly or indirectly, whether by reason of change in stock ownership or control (in the permittee corporation or in any other corporation), by operation of law, or in any other manner, the permit may remain in effect until the expiration of 30 days after the change, whereupon the permit will automatically terminate. However, if operations are to be continued after the change in control, and an application for a new permit is filed within 30 days of the change, the outstanding permit may remain in effect until final action is taken on the new application. When final action is taken

on the application, the outstanding permit will automatically terminate.

(26 U.S.C. 5181, 5271)

§ 19.685 Change in type of alcohol fuel plant.

(a) *Small plants.* If the proprietor of a small plant intends to increase production (including receipts) to more than 10,000 proof gallons of spirits per calendar year, the proprietor must first obtain an amended permit by filing an application for a medium plant or a large plant, as appropriate, under §§ 19.675 or 19.676. If any of the required information is already on file with TTB, that information may be incorporated by reference in the new application. The proprietor must also provide a new or strengthening bond in accordance with §§ 19.699 and 19.700.

(b) *Medium plants.* If the proprietor of a medium plant intends to increase production (including receipts) to more than 500,000 proof gallons of spirits per calendar year, the proprietor must first obtain an amended permit by filing an application for a large plant under § 19.676. If any of the required information is already on file with TTB, that information may be incorporated by reference in the new application. If the penal sum of the proprietor's current bond is below the amount specified for the new production level, the proprietor must obtain a new or strengthening bond in accordance with § 19.700.

(c) *Curtailment of activities.* A proprietor of a medium or large plant who curtails operations to a level whereby the proprietor is eligible to requalify as a small or medium plant may so qualify by submitting a letterhead application to the appropriate TTB officer for approval. If the appropriate TTB officer approves the application, the proprietor automatically will be relieved of those regulatory requirements that apply only to the superseded qualification. In addition, in the case of a change to small plant status, the proprietor may be allowed to terminate the bond in accordance with the procedure set forth in § 19.170 of this part.

(26 U.S.C. 5181, 5271)

(2) The surviving partner or partners have the exclusive right to control and possession of the partnership assets for purpose of liquidation and settlement; and

(3) In the case of a plant required to file a bond, a consent of surety is filed under which the surety and the surviving partner or partners agree to remain liable on the bond.

(b) If the surviving partner or partners acquire the business upon settlement of the partnership, the surviving partner or partners must file an application in their own name and receive a permit in accordance with § 19.688(a).

(26 U.S.C. 5172, 5181)

Alternating Proprietorship

§ 19.692 Qualifying for alternating proprietorship.

(a) *General.* A proprietor may alternate use of an alcohol fuel plant or part of an alcohol fuel plant with one or more proprietors qualified under this subpart. In order to do so, each proprietor must file and receive approval of the applications and bonds required by this subpart. Each proprietor must also conduct operations and keep records in accordance with this subpart. Where operations by alternating proprietors will be limited to part of an alcohol fuel plant, that part must be suitable for qualification as a separate alcohol fuel plant.

(b) *Qualifying documents.* Each person desiring to operate an alcohol fuel plant as an alternating proprietor must file the following with the appropriate TTB officer:

(1) An application on form TTB F 5110.74, Application and Permit for an Alcohol Fuel Producer Under 26 U.S.C. 5181, to cover the proposed alternation;

(2) A diagram of the premises, in duplicate, showing the arrangement for the alternation of the premises. Where operations by alternating proprietors are limited to parts of an alcohol fuel

plant, a diagram designating the parts that are to be alternated must be submitted. A diagram must be submitted for each arrangement under which the premises will be operated. The diagram must be in sufficient detail to establish the boundaries of the alcohol fuel plant or any part of it that will be involved in the alternation;

(3) Evidence of an existing operations bond (if any), consent of surety, or new operations bond to cover the proposed alternation of premises; and

(4) Any additional information required by the appropriate TTB officer.

(26 U.S.C. 5171, 5181, 5271)

§ 19.693 Operating requirements for alternating proprietorships.

(a) *Alternation journal.* Once the applications submitted under § 19.692 have been approved by the appropriate TTB officer, the alcohol fuel plant, or parts of the alcohol fuel plant, may be alternated. The outgoing and incoming proprietor must make entries in an alternation journal when the alcohol fuel plant, or parts of it, are alternated. The outgoing and incoming proprietor must enter the following information in the alternation journal:

(1) Name or trade name of the proprietor;

(2) Alcohol fuel plant permit number;

(3) Date and time of alternation;

(4) Quantity of spirits transferred in proof gallons.

(b) *Commencement of operations.* Except for spirits transferred to the incoming proprietor, the outgoing proprietor must remove all spirits from areas, rooms, or buildings to be alternated, prior to the effective date and time shown in the alternation journal. Fuel alcohol may be transferred to the incoming proprietor or may be retained by the outgoing proprietor in areas, rooms, or buildings to be alternated when the areas, rooms, or buildings are secured with locks, the keys to which are in the custody of the outgoing proprietor. Whenever operation of the areas, rooms, or buildings is to be resumed by a proprietor following suspension of operations by an alternating proprietor, the outgoing proprietor (except the proprietor of a small plant not required to file a bond) must furnish a consent of surety on form TTB F 5000.18 to continue in effect the operations bond covering his operations. The proprietor must do this prior to alternating the premises.

(c) *Records.* Each alternating proprietor must maintain separate records and submit separate reports in accordance with § 19.720. Entries in each proprietor's records must be in accordance with §§ 19.714 through 19.718 of this subpart. The following requirements also apply:

(1) Each alternating proprietor must show all transfers of spirits in the records;

(2) The outgoing proprietor must show in its production and disposition records the quantity of spirits and fuel alcohol transferred to the incoming proprietor;

(3) The incoming proprietor must show in his receipt record the quantity of spirits received by transfer;

(4) Each proprietor must include spirits transferred in the determinations of alcohol fuel plant size and bond amounts; and

(5) The provisions of § 19.685 regarding change of alcohol fuel plant type apply to each proprietor.

(a) The original copy of the alcohol fuel plant permit and the proprietor's request that the permit be cancelled;

(b) A written statement disclosing whether or not all spirits, including fuel alcohol, have been lawfully disposed of, and whether or not there are any spirits in transit to the premises; and

(c) A report on form TTB 5110.75, Alcohol Fuel Plant Report, covering the discontinued operations, with the report marked ''Final Report''.

(26 U.S.C. 5181, 5271)

§ 19.697 Permit suspension or revocation.

TTB will conduct proceedings to revoke or suspend an alcohol fuel plant permit in accordance with the procedures set forth in part 71 of this chapter if the appropriate TTB officer has a reason to believe that a person holding a permit:

(a) Has not complied in good faith with the provisions of 26 U.S.C. chapter 51 or the regulations issued thereunder;

(b) Has violated the conditions of the permit;

(c) Has made a false statement as to any material fact in the application for the permit;

(26 U.S.C. 5271)

BONDS

§ 19.699 General bond requirements.

(a) *Operations bond.* Any person who plans to establish a large plant, a medium plant, or a small plant without production operations must provide an operations bond on form TTB F 5110.56, Distilled Spirits Bond, in duplicate, with the original permit application. If a proprietor fails to fails to pay any liability covered by the bond, TTB may seek payment from the proprietor, from the surety on the bond, or from both the proprietor and the surety. Additional provisions applicable to bonds for alcohol fuel plants are found in subpart F of this part in §§ 19.155 through 19.157 and §§ 19.167 through 19.173.

(b) *Corporate surety.* A company that issues bonds is called a ''corporate surety.'' Proprietors must obtain the surety bonds required by this subpart from a corporate surety approved by the Secretary of the Treasury. The Department of the Treasury publishes a list of approved corporate sureties in Treasury Department Circular No. 570, ''Companies Holding Certificates of Authority as Acceptable Sureties on Federal Bonds and as Acceptable Reinsuring Companies.'' Circular No. 570 is published annually in the FEDERAL REGISTER. The most current edition of the circular is posted at the Web site of the Financial Management Service, Department of the Treasury, at *http://www.fms.treas.gov/c570.* Printed copies of Circular No. 570 are available for purchase from the Government Printing Office.

(c) *Alternative to a corporate surety.* A proprietor may also guarantee payment under a bond without using a corporate surety, by filing a bond that guarantees payment of the liability by pledging and depositing one or more acceptable negotiable securities having a par value (face amount) equal to or greater than the penal sums of the required bonds. Should the proprietor fail to pay one or more of the guaranteed liabilities, TTB may take action to sell the deposited securities to satisfy the debt. Pledged securities will be released to the proprietor if there are no outstanding liabilities when the bond is terminated; the provisions of § 19.173 apply to the release of pledged securities under this subpart. A list of securities acceptable as collateral in lieu of surety bonds is available from the Bureau of the Public Debt, Office of the Commissioner, Government Securities Regulations Staff. Current information and guidance from the Bureau of the Public Debt Web site may be found at *http://www.publicdebt.treas.gov.*

§ 19.700 Amount of bond.

A proprietor must determine the penal sum of the bond based on the total quantity of distilled spirits that will be produced and received during a calendar year. The method for computing required bond amounts is as follows:

(a) *Small plants without production operations.* A proprietor that operates a small plant that receives not more than 10,000 proof gallons of spirits per year and does not conduct bona fide production operations must provide a bond with a penal sum of $1,000.

(b) *Medium plants.* A proprietor that operates a medium plant that produces and receives more than 10,000 but not more than 20,000 proof gallons of spirits per year must provide a bond with a penal sum of at least $2,000.00. The proprietor must increase the penal sum of the bond by $1,000 for each additional 10,000 gallons, or fraction of 10,000 gallons, (over 20,000 gallons) that will be produced or received. The maximum bond for a medium plant is $50,000.00, representing the penal sum applicable to 500,000 proof gallons. The following table provides examples of required minimum bond amounts:

190,000	200,000	20,000
490,000	500,000	50,000

(c) *Large plants.* A proprietor that operates a large plant that produces and receives more than 500,000 but not more than 510,000 proof gallons of spirits per year must provide a bond with a penal sum of at least $52,000.00. The proprietor must increase the penal sum of the bond by $2,000 for each additional 10,000 gallons, or fraction of 10,000 gallons (over 510,000 gallons) that will be produced and received. The maximum bond for a large plant is $200,000.00. The following table provides examples of required minimum bond amounts:

REQUIREMENTS FOR CONSTRUCTION, EQUIPMENT, AND SECURITY

§ 19.703 Construction and equipment.

A proprietor must construct and arrange the buildings and enclosures where distilled spirits will be produced, processed, or stored so as to ensure adequate security and deter the diversion of spirits. Distilling equipment must be constructed to prevent unauthorized removal of spirits, from the point where distilled spirits come into existence until production is complete and the quantity of spirits has been determined. A proprietor also must equip tanks and other vessels so that they may be locked and must provide a method for determining the quantity of spirits in each vessel.

(26 U.S.C. 5178)

§ 19.704 Security.

(b) *Storage.* The proprietor must store spirits in a building or a storage tank, or within an enclosure, that will be kept locked when operations are not being conducted.

(c) *Additional security.* The appropriate TTB officer may require additional security measures for the premises if the alcohol fuel plant's security is found to be inadequate. The additional measures required may depend upon past security problems experienced at the alcohol fuel plant, the volume of alcohol produced, the risk to tax revenue, and any safety requirements. Additional security measures may include, but are not limited to:

(1) A fence around the alcohol fuel plant;

(2) Flood lights;

(3) A security or alarm system;

(4) A guard service; or

(5) Locked or barred windows.

(26 U.S.C. 5178, 5202)

TTB RIGHTS AND AUTHORITIES

§ 19.706 Supervision of operations.

TTB may assign appropriate TTB officers to supervise operations at an alcohol fuel plant at any time. Appropriate TTB officers may exercise certain rights and authorities at an alcohol fuel plant. Those rights and authorities are set forth in the following provisions of this part: § 19.11 (right of entry and examination, § 19.12 (furnishing facilities and assistance), § 19.13 (assignment of officers and supervision of operations), § 19.17 (detention of containers), § 19.18 (samples for the United States), and § 19.282 (general requirements for gauging and measuring equipment).

ACCOUNTING FOR SPIRITS

§ 19.709 Gauging.

(a) *Gauging equipment and methods.* A proprietor of an alcohol fuel plant must perform periodic gauges of the distilled spirits and fuel alcohol at the alcohol fuel plant. The procedures for the gauging of spirits set forth in part 30 of this chapter also apply under this subpart. In addition, the following rules for the gauging of distilled spirits and fuel alcohol under this subpart also apply:

(1) The proprietor must determine the proof of spirits by using a glass cylinder, hydrometer and thermometer;

(2) The proprietor must ensure that hydrometers, thermometers, and other equipment used to determine proof, volume, or weight are accurate;

(3) The proprietor may determine the quantity of spirits or fuel alcohol either by volume or weight;

(4) To determine quantity by volume, the proprietor may use a tank or receptacle with a calibrated sight glass installed, a calibrated dipstick, conversion charts, an accurate mass flow meter, or other devices approved by the appropriate TTB officer;

(5) Unless the proprietor chooses to do so, the proprietor is not required to determine the proof of fuel alcohol manufactured, on hand, or removed; and

(6) The proprietor may account for fuel alcohol in wine gallons;

(b) *Verification by TTB.* TTB officers may at any time verify the accuracy of the gauging equipment used.

(c) *When gauges are required.* A proprietor must gauge spirits and record the results in the records required by § 19.718, at the following times:

(1) Upon completing the production of distilled spirits;

(2) On the receipt of spirits at the plant;

(26 U.S.C. 5201, 5204)

§ 19.710 Inventory of spirits.

A proprietor of an alcohol fuel plant must take a physical inventory of all spirits and fuel alcohol on the bonded premises at the end of each calendar year. The proprietor must record the results of this physical inventory in the records required by § 19.718.

(26 U.S.C. 5201)

RECORDKEEPING

§ 19.714 General requirements for records.

A proprietor of an alcohol fuel plant must maintain records that accurately reflect the operations and transactions at the alcohol fuel plant. The records must contain sufficient information to allow appropriate TTB officers to determine the quantities of spirits produced, received, stored, or processed and to verify that all spirits have been used or otherwise lawfully disposed of.

(26 U.S.C. 5207)

§ 19.715 Format of records.

(a) Proprietors of alcohol fuel plants are not required under this subpart to keep their records in any particular format or media. A proprietor may keep required records on paper, microfilm or microfiche, diskette, or other electronic medium. However, the records that a proprietor maintains must be readily retrievable in, or convertible to, hardcopy format for review by TTB officers as necessary.

(b) Required records may consist of commercial documents maintained in the ordinary course of business, rather than records prepared expressly to meet the requirements of this subpart, if those documents:

(1) Contain all of the information required by this subpart;

(2) Reflect general standards of clarity and accuracy; and

(3) Can be readily understood by TTB personnel.

(c) Where the format or arrangement of a record is such that the information is not readily understandable, the appropriate TTB officer may require the proprietor to present the information in a format or arrangement that will facilitate the review of the information.

(26 U.S.C. 5207)

§ 19.716 Maintenance and retention of records.

(a) A proprietor of an alcohol fuel plant may keep the records required by this subpart at the alcohol fuel plant where operations or transactions occur, or at a central recordkeeping location maintained by the proprietor. If the proprietor keeps the required records at any location other than the alcohol fuel plant where operations or transactions occur, the proprietor must submit a letterhead notice to the appropriate TTB officer indicating the location where the records are kept. The proprietor must make those records available at the alcohol fuel plant premises to which they relate during normal business hours for the purpose of a TTB audit or inspection. The proprietor must produce those records at that location within two days of notice by the appropriate TTB officer.

(b) A proprietor of an alcohol fuel plant must maintain any records required by this subpart for a period of not less than three years from the date of creation of the record or the date of the last entry required to be made in the record, whichever is later.

(c) A proprietor of an alcohol fuel plant may be required to reproduce records in order to maintain their readability and availability for inspection. Whenever any record might become unreadable or otherwise unsuitable for its intended or continued use, the proprietor is responsible for reproducing the record by a process that accurately and legibly reproduces the original record.

(d) For records kept on electronic media, the provisions of § 19.574 apply.

(26 U.S.C. 5207)

§ 19.717 Time for making entries in records.

A proprietor of an alcohol fuel plant must record entries required by this subpart in the proprietor's records on a daily basis, as the transaction or operation occurs, but not later than the close of the next business day after the occurrence of the transaction or operation. However, if a proprietor prepares supplemental or auxiliary records when an operation or transaction occurs and those records contain all of the information required under this subpart, the proprietor may make entries in the required records not later than the close of business on the third business day following the day on which the transaction or operation occurred.

(26 U.S.C. 5207)

§ 19.718 Required records.

A proprietor of an alcohol fuel plant must maintain records that accurately reflect the operations and transactions occurring at the plant. These records must include production, receipt, manufacture, and disposition records.

(a) *Production, receipt, and manufacture records.* The proprietor must maintain records of all production, receipts, and manufacture at the alcohol fuel plant. This includes records of:

(1) The quantity and proof of spirits produced;

(2) The kind and quantity of materials used to produce spirits, if the proprietor is a medium plant or large plant;

(3) The proof gallons of spirits on hand;

(4) The proof gallons of spirits received. The proprietor may use a copy of the consignor's invoice or other document received with the shipment if the proprietor records the date of receipt and quantity received;

(5) The quantities and types of materials added to each lot of spirits to

render the spirits unfit for beverage use; and

(6) The quantity of fuel alcohol manufactured. Fuel alcohol may be recorded in wine gallons.

(b) *Disposition records.* The proprietor must maintain records of all dispositions of spirits and fuel alcohol removed from the alcohol fuel plant. Records for dispositions of fuel alcohol and spirits must be maintained separately. Required records include:

(1) The amount of fuel alcohol removed. The commercial record or other document required by § 19.729 will constitute the required record;

(2) The amount of spirits transferred. For all spirits transferred to another qualified distilled spirits plant or alcohol fuel plant the proprietor must maintain the commercial invoice or other documentation required by §§ 19.405 and 19.734;

(3) Record of other dispositions. If the proprietor has other dispositions of spirits or fuel alcohol such as losses, destruction, or redistillation, the proprietor must keep a record of those dispositions. The record must include the quantity of spirits (in proof gallons) or fuel alcohol (in wine gallons), the date of disposition, and the purpose for which used or the nature of any other disposition;

(4) Testing records. If the proprietor conducts testing and analysis of samples of spirits or fuel alcohol in accordance with § 19.749, the proprietor must keep a record of the date of the testing and the amount of spirits (in proof gallons) or fuel alcohol (in wine gallons) tested.

(26 U.S.C. 5181, 5207)

§ 19.719 Spirits made unfit for beverage use in the production process.

If an alcohol fuel plant makes spirits unfit for beverage use before the spirits are removed from the production process, for example by the in-line addition of materials or by the addition of materials to receptacles where spirits are first deposited, the proprietor must determine the quantity and proof of the spirits produced for purposes of the production records by:

(a) Determining the proof of each lot of spirits by procuring a representative sample of each lot, prior to the addition of any materials for rendering the spirits unfit for beverage use, and then proofing the spirits; and

(b) Determining the quantity (proof gallons) of spirits produced by subtracting the quantity of materials added to render the spirits unfit for beverage use from the quantity of fuel alcohol (in gallons) produced and multiplying the resulting figure by the proof of the spirits divided by 100.

(26 U.S.C. 5181, 5207)

Reports

§ 19.720 Reports.

Each proprietor of an alcohol fuel plant must submit to the appropriate TTB officer an annual report of operations on form TTB F 5110.75, Alcohol Fuel Plant Report, for each calendar year. The proprietor must submit this report by January 30 following the end of the calendar year.

(26 U.S.C. 5207)

Redistillation

§ 19.722 General rules for redistillation of spirits or fuel alcohol.

The proprietor of an alcohol fuel plant may receive and redistill spirits. The proprietor may also receive fuel alcohol for redistillation and recovery of the spirits contained in the fuel alcohol. The following general rules apply to redistillation activities at an alcohol fuel plant:

(a) The proprietor must separately identify in the required records any spirits and fuel alcohol received for redistillation;

(b) The proprietor must keep all spirits and fuel alcohol received for redistillation physically separate from each other and from other spirits and fuel alcohol until they are redistilled;

(c) Spirits recovered by redistillation will be treated the same as spirits that have not been redistilled; and

(d) All provisions of this subpart and 26 U.S.C. chapter 51, including provisions regarding liability for tax applicable to spirits when originally produced, apply to spirits recovered by distillation.

(26 U.S.C. 5181)

§ 19.723 Effect of redistillation on plant size and bond amount.

The redistillation of spirits at an alcohol fuel plant may affect the alcohol fuel plant size category and the resulting bond penal sum amount. The following rules apply in this regard:

(a) Spirits originally produced by the alcohol fuel plant and subsequently recovered by redistillation are not includable in the determination of plant size and bond amount; and

(b) Spirits originally produced elsewhere and subsequently recovered by redistillation at the alcohol fuel plant are includable in the determination of plant size and bond amount.

(26 U.S.C. 5181)

§ 19.724 Records of redistillation.

(a) Except as otherwise provided in paragraph (b) of this section, a proprietor must record in a separate record the following information for spirits and fuel alcohol received at the alcohol fuel plant for redistillation:

(1) Date of receipt;

(2) Identification as spirits or fuel alcohol;

(3) Quantity received;

(4) From whom received;

(5) Reason for redistillation;

(6) Date redistilled; and

(7) The quantity of spirits recovered by redistillation.

(b) A proprietor may use a document required by §19.729 or §19.734 or any other commercial record covering spirits or fuel alcohol received in lieu of the record required by paragraph (a) of this section, provided that it contains all of the information required by paragraph (a) of this section, including any such information added to it by the proprietor.

(26 U.S.C. 5181, 5223)

RULES FOR USE, WITHDRAWAL, AND TRANSFER OF SPIRITS

§ 19.726 Prohibited uses, transfers, and withdrawals.

No person may withdraw, use, sell or otherwise dispose of distilled spirits, including fuel alcohol, produced under this subpart for any purpose other than for fuel use. The law imposes criminal penalties on any person who withdraws, uses, sells, or otherwise disposes of distilled spirits, including fuel alcohol, produced under this subpart for other than fuel use.

(26 U.S.C. 5181, 5601)

§ 19.727 Use on premises.

A proprietor may use spirits as a fuel on the premises of the alcohol fuel plant where they were produced without having to make them unfit for beverage use. A proprietor using spirits in this way must keep the applicable records concerning such use as provided in §19.718(b)(3).

(26 U.S.C. 5181)

§ 19.728 Withdrawal of spirits.

Before withdrawal of spirits from the premises of an alcohol fuel plant, the proprietor must render the spirits unfit for beverage use as provided in this subpart. Spirits rendered unfit for beverage use may be withdrawn free of tax from the alcohol fuel plant premises if they will be used exclusively for fuel.

(26 U.S.C. 5181, 5214)

§ 19.729 Withdrawal of fuel alcohol.

(a) For each shipment or other removal of fuel alcohol from the alcohol fuel plant premises, the consignor proprietor must prepare a commercial invoice, sales slip, or similar document that shows:

(1) The date of the withdrawal;

(2) The quantity of fuel alcohol removed;

(3) A description of the shipment that includes the number and size of containers, tank trucks, etc.; and

(4) The name and address of the consignee.

(b) The consignor proprietor must retain in its records a copy of the document described in paragraph (a) of this section.

(26 U.S.C. 5181)

TRANSFER OF SPIRITS BETWEEN ALCOHOL FUEL PLANTS

§ 19.733 Authorized transfers between alcohol fuel plants.

A proprietor may remove spirits from the bonded premises of an alcohol fuel plant, including the premises of a small

plant, for transfer in bond to another alcohol fuel plant. A proprietor of an alcohol fuel plant may also receive spirits from another alcohol fuel plant. The following conditions apply to such transfers:

(a) The transfer of spirits must be pursuant to an approved application on form TTB F 5100.16, Application for Transfer of Spirits and/or Denatured Spirits in Bond in accordance with § 19.403;

(b) Bulk conveyances in which spirits are transferred must be secured with locks, seals, or other devices in accordance with § 19.441;

(c) It is not necessary to render the spirits unfit for beverage use prior to the transfer;

(d) The transferred spirits may not be withdrawn, used, sold, or disposed of for other than fuel use; and

(e) Each proprietor must adhere to the requirements for transfers between alcohol fuel plants prescribed in §§ 19.734 through 19.736, as applicable.

(26 U.S.C. 5181, 5212)

§ 19.734 Consignor for in-bond shipments.

A proprietor that ships distilled spirits in bond to another alcohol fuel plant is the ''consignor'' of the shipment. When shipping spirits in bond, the consignor must:

(a) Ship the spirits pursuant to an approved application on form TTB F 5100.16, Application for Transfer of Spirits and/or Denatured Spirits in Bond;

(b) Prepare a duplicate commercial invoice or shipping document for each shipment of spirits that includes the following:

(1) The quantity of the spirits transferred;

(2) The proof of the spirits transferred;

(3) A description of the shipment that includes the number and size of drums, barrels, tank trucks, etc.;

(4) The consignor's name, address, and permit number and the name, address, and permit number of the proprietor of the alcohol fuel plant that will receive the spirits; and

(5) The serial numbers of seals, locks, or other devices used to secure the shipment; and

(c) Forward the original invoice or shipping document with the shipment to the proprietor of the receiving alcohol fuel plant and retain a copy in the alcohol fuel plant's records.

(26 U.S.C. 5212)

§ 19.735 Reconsignment while in transit.

A consignor may reconsign an in-bond shipment of spirits while the shipment is in transit or upon arrival at the premises of the consignee for any bona fide reason such as when the spirits transferred in bond are found to be unsuitable for the intended purpose or the spirits were shipped in error. The consignor may reconsign the shipment to itself or to another consignee that is qualified to receive the spirits. In either case, an Application for Transfer of Spirits and/or Denatured Spirits in Bond on form TTB F 5100.16 must have been previously approved for the new consignee and must be on file at the alcohol fuel plant. The bond of the new consignee of the spirits will cover the spirits while they are in transit after reconsignment. When reconsigning a shipment, the consignor must notify the original consignee that the transfer has been cancelled and must make a notation on the original invoice or shipping document that the shipment was reconsigned. The consignor must also prepare a new invoice or shipping document for the new consignee and must mark the new invoice or shipping document ''reconsignment.''

(26 U.S.C. 5181, 5212)

§ 19.736 Consignee for in-bond shipments.

(a) *General.* A proprietor that receives spirits in bond from another alcohol fuel plant is the ''consignee'' of the shipment. When receiving spirits in bond, the consignee must:

(1) Examine each conveyance and notify the appropriate TTB officer immediately if any of the locks, seals, or other devices that secure each conveyance do not arrive at the premises intact;

(2) Determine the quantity of spirits received and record the quantity and

date of receipt on the invoice or shipping document sent with the shipment; and

(3) Retain the invoice or shipping document as part of the records required by § 19.718.

(b) *Portable containers.* A consignee who receives spirits in barrels, drums, or other portable containers that are not secured by seals or other devices must verify the contents of each container. The consignee must record the quantity received in each container on a list and must attach the list to the invoice or shipping document received with the shipment.

(c) *Bulk conveyances or pipelines.* A consignee who receives spirits in bulk conveyances or by pipeline must gauge the spirits received and record the quantity determined on the invoice or shipping document received with the shipment. The appropriate TTB officer may waive the requirement for gauging spirits received by pipeline if requested in writing by the consignee and if there is no jeopardy to the revenue.

(26 U.S.C. 5181, 5204, 5212)

TRANSFER OF SPIRITS TO AND FROM DISTILLED SPIRITS PLANTS

§ 19.739 Authorized transfers to or from distilled spirits plants.

Except for spirits produced from petroleum, natural gas, or coal, a proprietor of an alcohol fuel plant may receive spirits in bond from a distilled spirits plant qualified under subpart D of this part. A proprietor of an alcohol fuel plant may also transfer spirits in bond from the alcohol fuel plant to a distilled spirits plant qualified under subpart D of this part. The following conditions apply to such transfers:

(a) Bulk conveyances in which spirits are transferred must be secured with locks, seals, or other devices in accordance with § 19.441;

(b) It is not necessary to render the spirits unfit for beverage use prior to the transfer;

(c) The transferred spirits may not be withdrawn, used, sold, or disposed of for other than fuel use;

(d) An alcohol fuel plant proprietor transferring spirits filled into portable containers to the bonded premises of a distilled spirits plant must mark the containers as required by § 19.752(b);

(e) The procedures in §§ 19.403 through 19.406 and § 19.620 apply to the transfer of spirits from an alcohol fuel plant to a distilled spirits plant; and

(f) The procedures in §§ 19.403, 19.404, 19.405, and 19.407 apply to the transfer of spirits from a distilled spirits plant to an alcohol fuel plant.

(26 U.S.C. 5181, 5212)

RECEIPT OF SPIRITS FROM CUSTOMS CUSTODY

§ 19.742 Authorized transfers from customs custody.

A proprietor of an alcohol fuel plant may withdraw from customs custody spirits imported or brought into the United States in bulk containers and may transfer those spirits without payment of tax to the proprietor's alcohol fuel plant subject to the following conditions:

(a) The transfer of the spirits may only be to an alcohol fuel plant that is required to file, and has filed, a bond;

(b) The spirits must not have been produced from petroleum, natural gas, or coal;

(c) The alcohol fuel plant must further manufacture or process the spirits after receipt;

(d) The proprietor of the alcohol fuel plant may only redistill or denature the spirits if the imported spirits are 185° or more of proof and will be withdrawn for fuel use; and

(e) The proprietor of the alcohol fuel plant must follow the procedures for receiving spirits prescribed in § 19.736 and subpart L of part 27 of this chapter.

(26 U.S.C. 5232)

MATERIALS FOR MAKING SPIRITS UNFIT FOR BEVERAGE USE

§ 19.746 Authorized materials.

(26 U.S.C. 5181)

§ 19.747 Other materials.

If a proprietor wishes to use a material to render spirits unfit for beverage use that is not authorized under § 19.746 or that is not on the published list of materials, the proprietor may submit an application for approval to the appropriate TTB officer. The application must include the name of the material and the quantity of material that the proprietor proposes to add to each 100 gallons of spirits. (a) *General.* Other Federal agencies have promulgated regulations which may affect labeling of articles, as described in this section.

(b) *Consumer Product Safety Commission.* The Consumer Product Safety Commission has promulgated regulations to administer the Federal Hazardous Substances Act. The regulations in 16 CFR Chapter II require warning labels for products containing certain specified substances. For example, S.D.A. Formula Nos. 3–A and 30 require warning labels because they contain methyl alcohol, a hazardous substance at levels of 4% or more by weight. Manufacturers, reprocessors, rebottlers, and repackagers who convey articles containing strong chemicals should refer to 16 CFR Chapter II for warning label requirements.

Subpart H—Sale and Use of Completely Denatured Alcohol

§ 20.141 General.

(a) Each formula of completely denatured alcohol may be sold and used for any purpose, subject to the limitations in the formula prescribed in part 21 of this chapter. For example, C.D.A. Formula No. 18 or 19 may be used:

(1) In the manufacture of definite chemical substances where the alcohol is changed into some other chemical substance and does not appear in the finished product;

(2) In the arts and industries, including but not limited to the manufacture of cleaning fluids, detergents, proprietary antifreeze solutions, thinners, lacquers, and brake fluids; and

(3) For fuel, light, and power.

(b) Completely denatured alcohol may not be used in the manufacture of

preparations or products for internal human use or consumption where any of the alcohol or the denaturants used in that alcohol remain in the finished product.

(c) Persons distributing and using (but not recovering for reuse) completely denatured alcohol are not required to obtain a permit or file a bond under this part.

(d) Any person recovering completely denatured alcohol for reuse shall obtain a permit under subpart D of this part if the recovered alcohol does not contain all of the original denaturants of the completely denatured alcohol.

(e) Containers of products manufactured with completely denatured alcohol (such as proprietary antifreeze solutions, solvents, thinners, and lacquers) may not be branded as completely denatured alcohol. These products may not be advertised, shipped, sold, or offered for sale as completely denatured alcohol.

§ 20.142 Records of bulk conveyances.

If completely denatured alcohol is to be shipped in a bulk conveyance, the shipment shall be accompanied by a record which identifies each car, truck, or compartment, the name and location (city or town and State) of both the consignor and consignee, the quantity in gallons, and the formula number of the completely denatured alcohol.

(Approved by the Office of Management and Budget under control number 1512–0337)

§ 20.143 Receipt.

Unless completely denatured alcohol received in bulk conveyances or by pipeline is to be used immediately, it shall be deposited in storage tanks, stored in the tank cars or tank trucks in which received, or drawn into packages which shall be marked or labeled as required by this subpart.

§ 20.144 Packages of completely denatured alcohol.

Packages containing more than 5 gallons of completely denatured alcohol shall be of metal or other equally suitable material approved by the appropriate TTB officer. The openings of these packages shall be sealed with appropriate seals furnished by the person filling the packages.

§ 20.145 Encased containers.

Completely denatured alcohol may be packaged by distributors in unlabeled containers which are completely encased in wood, fiberboard, or similar material so that the surface (including the opening) of the actual container is not exposed. When completely denatured spirits are packaged in unlabeled containers, the distributor shall apply the required marks or label to an exposed surface of the case. The case shall be so constructed that the portion containing the marks will be securely attached to the encased container until all of the contents have been removed. A statement reading ''Do Not Remove Inner Container Until Emptied,'' or words of similar meaning, shall be placed on the portion of the case bearing the marks.

§ 20.146 Labels on bulk containers.

(a) Completely denatured alcohol in bulk containers with a capacity exceeding 1 gallon shall be labeled on the head or side of the container or on the side of the casing, with the following:

(1) The name and address of the person filling the containers;

(2) The contents in gallons:

(3) The words ''Completely Denatured Alcohol''; and

(4) The formula number.

(b) Packages of 5 gallons or less shall bear labels required by § 20.147, in lieu of the labels required by this section.

(c) The letters and figures used for marking packages shall be large enough to be easily read and, when printed, labeled, or stenciled, shall be in permanent ink and shall contrast distinctly with the background to which applied.

(d) Packages may also be marked with the brand name and a statement to the type of merchandise contained in the package if these markings do not obscure or detract from the required markings. The person filling the packages shall maintain the record required by § 20.261.

§ 20.147 Labels on consumer-size containers.

(a) Each consumer-size container with a capacity of 5 gallons or less of completely denatured alcohol sold or offered for sale by a distributor shall bear a label showing, in plain, legible letters, the following:

(1) The words ''Completely Denatured Alcohol'';

(2) The statement ''Caution—contains poisonous ingredients''; and

(3) The name and address of the distributor filling the packages, unless shown elsewhere on the package.

(b) No other information (except that required by State or Federal law) may be shown on the label without the appropriate TTB officer's approval. The word ''pure'', qualifying denatured alcohol may not appear on the label or the container.

(c) The requirements of paragraphs (a) and (b) of this section apply to any person who sells completely denatured alcohol at wholesale or retail.

§ 20.148 Manufacture of articles with completely denatured alcohol.

Articles may be made with completely denatured alcohol for sale under brand names. If ingredients are added in sufficient quantities to materially change the composition and character of the completely denatured alcohol, the article is not classified as completely denatured alcohol and may not be marked, branded, or sold as completely denatured alcohol.

§ 20.149 Records.

Records of transactions in completely denatured alcohol and articles made with completely denatured alcohol shall be maintained as prescribed in § 20.261.

In these cases, the appropriate TTB officer will require samples of the recovered product to be taken from time to time to determine if the product requires redenaturation.

(b) If the denatured alcohol or specially denatured rum is not recovered in its original denatured state, or practically so, it shall be redenatured at the premises of the manufacturer or a denaturer before being used. The appropriate TTB officer may require supervision of the redenaturation of the recovered spirits by an appropriate TTB officer.

Subpart E—Specifications for Denaturants

§ 21.91 General.

Denaturants prescribed in this part shall comply with the specifications set forth in this subpart. However, in order to meet requirements of national defense or for other valid reasons, the appropriate TTB officer may, pursuant to written application filed by the denaturer, authorize variations from such specifications or authorize the use of substitute denaturants if such variation or substitution will not jeopardize the revenue. Each such application shall identify the applicant by name, address, and permit number; state the number of each formula of specially denatured alcohol involved; explain why the use of the substitute denaturant, or the variation from specifications, as the case may be, is necessary; and include, as applicable, either the identity of the approved denaturant for which substitution is desired and the identity of the substitute denaturant (including the name of the manufacturer) or the identity of the prescribed specifications and the proposed variation from those specifications. The application shall be accompanied by an 8-ounce sample of the proposed denaturing material for analysis.

(2) Will not hinder the effective administration of this part; and

(3) Will not be contrary to any provisions of law.

(b) *Application.* The proprietor must submit a written application to the appropriate TTB officer within 24 hours of any temporary approval granted under paragraph (c) of this section, which describes the proposed variation, and sets forth the reasons therefor.

§ 24.50 [Reserved]

§ 24.51 Definitions.

For purposes of §§ 24.52 through 24.54 of this part, the following terms have the meanings indicated:

Dealer. A person who sells, or offers for sale, any alcohol product (distilled spirits, wines, and/or beer) fit for beverage use.

(26 U.S.C. 5121, 5122)

[T.D. TTB–79, 74 FR 37404, July 28, 2009]

§ 24.52 Dealer registration.

Every proprietor who sells or offers for sale any alcohol product (distilled spirits, wines, or beer) fit for beverage use must register as a dealer in accordance with part 31 of this chapter. However, the proprietor's application to establish and operate a bonded wine premises or taxpaid wine bottling house filed under subpart D of this part, and approval of that application by the appropriate TTB officer, will constitute the proprietor's registration as a dealer at the approved bonded or taxpaid wine premises. Every proprietor registered as a dealer under this section will be classified as a wholesale dealer in liquors (see § 31.32 of this chapter) and as such may also operate as a retail dealer in liquors without additional registration. Registration covers all sales from the same location, including sales of spirits, beer, or other proprietors' wine. As provided in § 31.52 of this chapter, the proprietor is subject to no additional registration for making sales of wine or beer at the customer's place of business. Otherwise, a proprietor who conducts business as a dealer at a location other than the bonded wine premises or taxpaid wine bottling house must register and keep records in accordance with part 31 of this chapter.

(26 U.S.C. 5124)

§ 24.53 Amending the dealer registration.

Every proprietor registered as a dealer under § 24.52 must maintain a current and accurate application file under subpart D of this part. Whenever there is a change to any of the information provided in the proprietor's approved application, the proprietor must amend the application within the time period specified in subpart D of this part. An amendment of the proprietor's

wine premises approved application will also amend the proprietor's dealer registration under § 24.52. The proprietor's dealer registration will also terminate when wine operations authorized under this part terminate.

(26 U.S.C. 5124)

[T.D. TTB–79, 74 FR 37404, July 28, 2009]

§ 24.54 Dealer records.

Every dealer is required to maintain records of transactions. Wine transactions that appear in the records required by subpart O of this part will meet the proprietor's recordkeeping requirements as a dealer. For other transactions not covered in the wine premises records, such as retail sales of distilled spirits or beer in a restaurant at the wine premises, or operations as a wholesale dealer in distilled spirits or beer, the proprietor must keep the records specified for dealers in part 31 of this chapter.

In any case where wine is produced, imported, or received otherwise than as authorized by law, or where wine or spirits are removed, possessed, or knowingly used in violation of applicable law, or volatile fruit-flavor concentrate is sold, transported, or used in violation of law, the tax will be assessed. The decision of the Administrator will be final. (Sec. 201, Pub. L. 85–859, 72 Stat. 1394, as amended (26 U.S.C. 5551))

§ 24.156 Termination of bonds.

A bond prescribed in § 24.146 may be terminated as to future liability pursuant to application by the surety as provided in § 24.157; pursuant to approval of a superseding bond; upon receipt of notification from the principal that the business has been discontinued and all wine and spirits have been removed from the bonded wine premises as provided in § 24.140(b); or in the case of a tax deferral bond, the termination will be issued upon receipt of written notification from the principal that removals of wine requiring a tax deferral bond have been discontinued. § 24.157 Application by surety for relief from bond.

A surety on any bond required by this part may at any time, in writing, notify the principal and the appropriate TTB officer in whose office the bond is on file, that it desires after a specified date, to be relieved of liability under the bond. The date may not be less than 10 days after the date notice is received by the appropriate TTB officer in the case of a tax deferral bond, and not less than 90 days after the date the notice is received in the case of a bonded wine premises bond or wine vinegar plant bond. The surety will also file with the appropriate TTB officer an acknowledgment, or other evidence of service, of a notice on the principal. The 10 day or 90 day period does not commence until both the acknowledgment or other evidence of service and the notice are filed. If a notice is not thereafter withdrawn in writing, the rights of the principal as supported by the bond will be terminated on the date specified in the notice, and the surety will be relieved from liability to the extent set forth in § 24.158. (Sec. 201, Pub. L. 85–859, 72 Stat. 1379, as amended, 1380, as amended (26 U.S.C. 5354, 5362))

§ 24.158 Extent of relief.

(a) *General.* The surety on any bond required by this part who has filed a notice for relief from liability as provided in § 24.157 will be relieved from liability under bond as set forth in this section.

(b) *Wine bond.* Where a new or superseding bond is filed, the surety of the existing bond will be relieved of future liability with respect to wine, spirits, volatile fruit-flavor concentrate, or any other commodities subject to tax under 26 U.S.C. chapter 51 on hand or in transit to bonded wine premises on or after the effective date of the new or superseding bond. Notwithstanding such relief, the surety will remain liable for the tax on all wine or volatile fruit-flavor concentrate produced at, and for wine, spirits, and volatile fruit-flavor concentrate consigned to, the bonded wine premises, and for all other liabilities incurred, during the term of the bond. Where a new or superseding bond is not filed the surety will, in addition to the continuing liabilities specified above, remain liable for all wine, spirits, volatile fruit-flavor concentrate, or other commodities subject to tax under 26 U.S.C. chapter 51 on hand or in transit to bonded wine premises on the date specified in the notice, until all the wine, spirits, volatile fruit-flavor concentrate, or commodities subject to tax under 26 U.S.C. chapter 51 have been lawfully disposed of, or a new bond has been filed covering the liability.

(c) *Tax deferral bond.* The surety will be relieved of liability for the tax on any wine removed from the bonded wine premises after the date specified

in the notice. The surety will continue to be liable for the tax on wine removed for consumption or sale on or before the date specified in the notice, until all tax is fully paid.

(d) *Wine vinegar plant bond.* The surety will be relieved of liability for tax on wine withdrawn for the manufacture of vinegar after the date specified in the notice. The surety will continue to be liable for the tax on wine withdrawn on or before the date specified in the notice, until all wine is fully accounted for. (Sec. 201, Pub. § 24.159 Release of collateral security.

Collateral security pledged and deposited will be released only in accordance with the provisions of 31 CFR part 225. The collateral security will not be released by the appropriate TTB officer until liability under the bond for which it was pledged has been terminated. If satisfied that the interests of the Government will not be jeopardized, the appropriate TTB officer will fix the date or dates on which a part or all of the collateral security may be released. At any time prior to the release of the collateral security, the appropriate TTB officer may, for proper cause, extend the date of release of the security for such additional length of time as deemed appropriate. Subpart E—Construction and Equipment

§ 24.165 Premises.

Wine premises will be located, constructed, and equipped, subject to approval by the appropriate TTB officer, in a manner suitable for the operations to be conducted and to afford adequate protection to the revenue. (Sec. 201, Pub. L. 85–859, 72 Stat. 1378, as amended, 1379, as amended, 1380, as amended, 1381, as amended (26 U.S.C. 5351, 5352, 5357, 5361, 5363))

§ 24.166 Buildings or rooms.

All buildings or rooms on wine premises in which wine operations or other operations as are authorized in this part are conducted will be located, constructed, and equipped in a manner suitable for the intended purpose and to afford adequate protection to the revenue. Each building or room will be constructed of substantial materials and separated from adjacent or contiguous buildings, rooms, or designated areas in a manner satisfactory to the appropriate TTB officer. Where spirits are to be received and stored in packages, a storage room equipped for locking will be provided. The proprietor shall make provisions to assure TTB officers have ready ingress to and egress from any building or room on wine premises, and shall furnish at the request of the appropriate TTB officer evidence that the means of ingress and egress by TTB officers are assured. Where the appropriate TTB officer finds that any building or room on wine premises is located, constructed, or equipped as to afford inadequate protection to the revenue, the proprietor will be required to make changes in location, construction, or equipment to the extent necessary to afford adequate protection to the revenue. § 24.167 Tanks.

(a) *General.* All tanks on wine premises used for wine operations or for other operations as are authorized in this part will be suitable for the intended purpose. Each tank used for wine operations will be located, constructed, and equipped as to permit ready examination and a means of accurately determining the contents.

Any tank used for wine operations not enclosed within a building or room will be enclosed within a secure fence unless the premises where the tank is located are enclosed by a fence or wall, or all tank openings are equipped for locking and are locked when used for wine operations and there is no proprietor's representative on the wine premises, or the appropriate TTB officer has approved some other adequate means of revenue protection. All open tanks will be under a roof or other suitable covering.

(b) *Other requirements.* Each tank used for the taxpayment of wine, storage of spirits, or spirits additions will be constructed and equipped as follows:

(1) An accurate means of measuring the contents of each tank will be provided by the proprietor. When a means of measuring is not a permanent fixture of the tank, the tank will be equipped with a fixed device to allow the approximate contents to be determined readily;

(2) Safe access to all parts of a tank will be provided by the proprietor;

(3) Tanks may not be used until they are accurately calibrated and a statement of certification of accurate calibration is on file at the premises;

(4) If a tank or its means of measuring is changed as to location or position subsequent to original calibration, the tank may not be used until recalibrated; and

(5) All openings in tanks used for the storage, weighing, or measuring of spirits, or for the addition of spirits to wine, will be equipped for locking or have a similar means of revenue protection. Any vents, flame arrestors, foam devices, or other safety devices affixed to a spirits tank will be constructed to prevent extraction of the contents of the tank. (Sec. 201, Pub. L. 85–859, 72 Stat. 1378, as amended, 1379, as amended, 1395, as amended (26 U.S.C. 5352, 5357, 5552))

§ 24.168 Identification of tanks.

(a) *General.* Each tank, barrel, puncheon, or similar bulk container, used to ferment wine or used to process or store wine, spirits, or wine making materials will have the contents marked and will be marked as required by this section.

(b) *Tank markings.* (1) Each tank will have a unique serial number;

(2) Each tank will be marked to show its current use, either by permanent markings or by removable signs of durable material; and

(3) If used to store wine made in accordance with a formula, the formula number will be marked or otherwise indicated on the tank.

(c) *Puncheon and barrel markings.* Puncheons and barrels, or similar bulk containers over 100 gallons capacity, will be marked in the same manner as tanks. A permanent serial number need not be marked on puncheons and barrels, or similar bulk containers of 100 gallons capacity or less, used for storage, but the capacity must be permanently marked. § 24.169 Pipelines.

Pipelines, including flexible hoses, used to convey wine, spirits, or volatile fruit-flavor concentrate will be constructed, connected, arranged, and secured so as to afford adequate protection to the revenue and to permit ready examination. The appropriate TTB officer may approve pipelines which cannot be readily examined if no jeopardy to the revenue is created. (Sec. 201, Pub. L. 85–859, 72 Stat. 1378, as amended, 1379, as amended, 1395, as amended (26 U.S.C. 5352, 5357, 5552))

§ 24.170 Measuring devices and testing instruments.

(a) *Measuring devices.* The appropriate TTB officer may at any time require

proprietors to provide at their own expense equipment for ascertaining the capacity and contents of tanks and other storage containers, and scales and measuring devices for weighing and measuring wine, spirits, volatile fruit-flavor concentrate, or materials received and used in the production or treatment of wine. Where winemaking materials or other materials used in the treatment of wine are used immediately upon receipt on wine premises, or received and stored on bonded wine premises in original sealed shipping containers with a stated capacity, the quantity shown on the commercial invoice or other document covering the shipment may be accepted by the proprietor and entered into records in lieu of measuring the materials upon receipt.

(b) *Testing instruments.* The proprietor shall have ready access to equipment for determining the alcohol content unless the proprietor only receives and stores on wine premises bottled or packed wine with evidence showing the alcohol content has been determined. The proprietor who bottles or packs wine shall have ready access to equipment for determining the net contents of bottled or packed wine. The appropriate TTB officer may require other testing instruments based upon the proprietor's operations. (Sec. 201, Pub. Subpart F—Production of Wine

§ 24.175 General.

The kinds of wine which may be produced on bonded wine premises are as follows:

(a) Natural wine produced in accordance with subparts F and G of this part;

(b) Special natural wine produced in accordance with subpart H of this part;

(c) Agricultural wine produced in accordance with subpart I of this part; and

(d) Other than standard wine produced in accordance with subpart J of this part. (Sec. 201, Pub. L. 85–859, 72 Stat. 1380, as amended, 1383, as amended, 1384, as amended, 1385, as amended, 1386, as amended (26 U.S.C. 5361, 5382, 5384, 5385, 5386, 5387))

§ 24.176 Crushing and fermentation.

(a) *Natural wine production.* Water may be used to flush equipment during the crushing process or to facilitate fermentation but the density of the juice may not be reduced below 22 degrees Brix. However, if the juice is already less than 23 degrees Brix, the use of water to flush equipment or facilitate fermentation is limited to a juice density reduction of no more than one degree Brix. At the start of fermentation no material may be added except water, sugar, concentrated fruit juice from the same kind of fruit, malo-lactic bacteria, yeast or yeast cultures grown in juice of the same kind of fruit, and yeast foods, sterilizing agents, precipitating agents or other approved fermentation adjuncts. Water may be used to rehydrate yeast to a maximum to two gallons of water for each pound of yeast; however, except for an operation involving the preparation of a yeast culture starter and must mixture for later use in initiating fermentation, the maximum volume increase of the juice after the addition of rehydrated yeast is limited to 0.5 percent. After fermentation natural wines may be blended with each other only if produced from the same kind of fruit.

(b) *Determination of wine produced.* Upon completion of fermentation or removal from the fermenter, the volume of wine will be accurately determined, recorded and reported on TTB F 5120.17, Report of Bonded Wine Premises Operations, as wine produced. Any wine or juice remaining in fermentation tanks at the end of the reporting period will be recorded and reported on TTB F 5120.17.

[T.D. ATF–312, 56 FR 31078, July 9, 1990, as amended by ATF–338, 58 FR 19064, Apr. 12, 1993]

§ 24.177 Chaptalization (Brix adjustment).

In producing natural grape wine from juice having a low sugar content, pure dry sugar or concentrated grape juice may be added before or during fermentation to develop alcohol. In producing natural fruit wine from juice having a low sugar content, sugar, or concentrated juice of the same kind of fruit may be added before or during fermentation to develop alcohol. The quantity of sugar or concentrated juice added may not raise the original density of the juice above 25 degrees Brix. If grape juice or grape wine is ameliorated after chaptalization, the quantity of pure dry sugar added to juice for chaptalization will be included as ameliorating material. If fruit juice or fruit wine is ameliorated after chaptalization, pure dry sugar added under this section is not considered as ameliorating material. However, if fruit juice or fruit wine is ameliorated after chaptalization and liquid sugar or invert sugar syrup is used to chaptalize the fruit juice, the volume of water contained in the liquid sugar or invert sugar syrup will be included as ameliorating material. (Sec. 201, Pub. L. 85–859, 72 Stat. 1385, as amended (26 U.S.C. 5382, 5384))

[T.D. ATF–299, 55 FR 24989, June 19, 1990, as amended by T.D. ATF–312, 56 FR 31078, July 9, 1991; T.D. ATF–413, 64 FR 46844, Aug. 27, 1999]

§ 24.178 Amelioration.

(a) *General.* In producing natural wine from juice having a fixed acid level exceeding 5.0 grams per liter, the winemaker may adjust the fixed acid level by adding ameliorating material (water, sugar, or a combination of both) before, during and after fermentation. The fixed acid level of the juice is determined prior to fermentation and is calculated as tartaric acid for grapes, malic acid for apples, and citric acid for other fruit. Each 20 gallons of ameliorating material added to 1,000 gallons of juice or wine will reduce the fixed acid level of the juice or wine by 0.1 gram per liter (the fixed acid level of the juice or wine may not be less than 5.0 gram per liter after the addition of ameliorating material).

(b) *Limitations.* (1) Amelioration is permitted only at the bonded wine premises where the natural wine is produced.

(2) The ameliorating material added to juice or wine may not reduce the fixed acid level of the ameliorated juice or wine to less than 5.0 grams per liter.

(3) For all wine, except for wine described in paragraph (b)(4) of this section, the volume of ameliorating material added to juice or wine may not exceed 35 percent of the total volume of ameliorated juice or wine (calculated exclusive of pulp). Where the starting fixed acid level is or exceeds 7.69 grams per liter, a maximum of 538.4 gallons of ameliorating material may be added to each 1,000 gallons of wine or juice.

(4) For wine produced from any fruit (excluding grapes) or berry with a natural fixed acid of 20 parts per thousand or more (before any correction of such fruit or berry), the volume of ameliorating material added to juice or wine may not exceed 60 percent of the total volume of ameliorated juice or wine (calculated exclusive of pulp). If the starting fixed acid level is or exceeds 12.5 grams per liter, a maximum of 1,500 gallons of ameliorating material may be added to each 1,000 gallons of wine or juice. (26 U.S.C. 5383, 5384).

§ 24.179 Sweetening.

(a) *General.* In producing natural wine, sugar, juice or concentrated fruit juice of the same kind of fruit may be added after fermentation to sweeten wine. When juice or concentrated fruit juice is added, the solids content of the finished wine may not exceed 21 percent by weight. When liquid sugar or invert sugar syrup is used, the resulting volume may not exceed the volume which would result from the maximum use of pure dry sugar only.

(b) *Grape wine.* Any natural grape wine of a winemaker's own production may have sugar added after amelioration and fermentation provided the finished wine does not exceed 17 percent total solids by weight if the alcohol content is more than 14 percent by volume or 21 percent total solids by

weight if the alcohol content is not more than 14 percent by volume.

(c) *Fruit wine.* Any natural fruit wine of a winemaker's own production may have sugar added after amelioration and fermentation provided the finished wine does not exceed 21 percent total solids by weight and the alcohol content is not more than 14 percent by volume.

(d) *Specially sweetened natural wine.* Specially sweetened natural wine is produced by adding to natural wine of the winemaker's own production sufficient pure dry sugar, juice or concentrated fruit juice of the same kind of fruit, separately or in combination, so that the finished product has a total solids content between 17 percent and 35 percent by weight, and an alcohol content of not more than 14 percent by volume. Natural wine containing added wine spirits may be used in the production of specially sweetened natural wine; however, wine spirits may not be added to specially sweetened natural wine. Specially sweetened natural wines may be blended with each other, or with natural wine or heavy bodied blending wine (including juice or concentrated fruit juice to which wine spirits have been added), in the further production of specially sweetened natural wine only if the wines (or juice) so blended are made from the same kind of fruit. (Sec. 201, Pub. L. 85–859, 72 Stat. 1383, as amended, 1384, as amended, 1385, as amended, 1386, as amended (26 U.S.C. 5382, 5383, 5384, 5385))

§ 24.180 Use of concentrated and unconcentrated fruit juice.

Concentrated fruit juice reduced with water to its original density, or to 22 degrees Brix, or to any degree of Brix between its original density and 22 degrees Brix, and unconcentrated fruit juice reduced with water to not less than 22 degrees Brix, is considered juice for the purpose of standard wine production. Concentrated fruit juice reduced with water to any degree of Brix greater than 22 degrees Brix may be further reduced with water to any degree of Brix between its original density and 22 degrees Brix. The proprietor, prior to using concentrated fruit juice in wine production, shall obtain a statement in which the producer certifies the kind of fruit from which it was produced and the total solids content of the juice before and after concentration. Concentrated or unconcentrated fruit juice may be used in juice or wine made from the same kind of fruit for the purposes of chaptalizing or sweetening, as provided in this part. Concentrated fruit juice, or juice which has been concentrated and reconstituted, may not be used in standard wine production if at any time it was concentrated to more than 80 degrees Brix. (Sec. 201, Pub. L. 85–859, 72 Stat. 1383, as amended (26 U.S.C. 5382))

§ 24.181 Use of sugar.

Only sugar, as defined in § 24.10, may be used in the production of standard wine. The quantity of sugar used will be determined either by measuring the increase in volume or by considering that each 13.5 pounds of pure dry sugar results in a volumetric increase of one gallon. (Sec. 201, Pub. L. 85–859, 72 Stat. 1383, as amended, 1384, as amended, 1385, as amended, 1387, as amended (26 U.S.C. 5382, 5383, 5384, 5392))

§ 24.182 Use of acid to correct natural deficiencies.

(a) *General.* Acids of the kinds occurring in grapes or other fruit (including berries) may be added within the limitations of § 24.246 to juice or wine in order to correct natural deficiencies; however, no acid may be added to juice or wine which is ameliorated to correct natural deficiencies except that in the production of grape wine, tartaric acid may be used to reduce the pH of the juice or wine. If tartaric acid is used to correct the pH of grape juice or wine, the fixed acid level of the juice shall be measured prior to the addition of any

tartaric acid to determine the maximum quantity of ameliorating material allowed. In addition, when using tartaric acid to reduce the pH of ameliorated grape juice or wine, the pH cannot be reduced below 3.0.

(b) *Grape wine.* Tartaric acid or malic acid, or a combination of tartaric acid and malic acid, may be added prior to or during fermentation, to grapes or juice from grapes. In addition, after fermentation is completed, citric acid, fumaric acid, malic acid, lactic acid or tartaric acid, or a combination of two or more of these acids, may be added to correct natural deficiencies. However, the use of these acids, either prior to, during or after fermentation, may not increase the fixed acid level of the finished wine (calculated as tartaric acid) above 9.0 grams per liter. In cases where the wine contains 8.0 or more grams of total solids per 100 milliliters of wine, acids may be added to the extent that the finished wine does not contain more than 11.0 grams per liter of fixed acid (calculated as tartaric acid).

(c) *Fruit wine.* Only citric acid may be added to citrus fruit, juice or wine, only malic acid may be added to apples, apple juice or wine, and only citric acid or malic acid may be added to other fruit (including berries) or to juice or wine derived from other fruit (including berries) to correct natural deficiencies to 9.0 grams per liter of finished wine; however, if the wine contains 8.0 or more grams of total solids per 100 milliliters of wine, acids may be added to correct natural deficiencies to the extent that the finished wine does not contain more than 11.0 grams per liter of fixed acid (calculated as malic acid for apples and citric acid for other fruit (including berries).

(d) *Other use of acid.* A winemaker desiring to use an acid other than the acids allowed in paragraphs (a) and (b) of this section to correct natural deficiencies shall follow the procedure prescribed in § 24.250. A winemaker desiring to use acid to stabilize standard wine shall follow the requirements prescribed by § 24.244. (Sec. 201, Pub. L. 85–859, 72 Stat. 1383, as amended (26 U.S.C. 5382))

§ 24.183 Use of distillates containing aldehydes.

Distillates containing aldehydes may be received on wine premises for use in the fermentation of wine and then returned to the distilled spirits plant from which distillates were withdrawn as distilling material. Distillates produced from one kind of fruit may not be used in the fermentation of wine made from a different kind of fruit. Distillates containing aldehydes which are received at bonded wine premises and not immediately used will be placed in a locked room or tank on bonded wine premises. Distillates containing aldehydes may not be mingled with wine spirits. If the distillates contain less than 0.1 percent of aldehydes, the proprietor shall comply with any additional condition relating to the receipt, storage, and use which the appropriate TTB officer may require to assure that the distillates are properly used and accounted for. § 24.184 Use of volatile fruit-flavor concentrate.

(a) *General.* In the cellar treatment of natural wine of the winemaker's own production there may be added volatile fruit-flavor concentrate produced from the same kind of fruit or from the same variety of berry or grape so long as the proportion of volatile fruit-flavor concentrate added to the wine does not exceed the equivalent proportion of volatile fruit-flavor concentrate of the original juice or must from which the wine was produced.

(b) *Use of juice or must from which volatile fruit-flavor has been removed.* Juice, concentrated fruit juice, or must processed at a concentrate plant is considered to be pure juice, concentrated fruit juice, or must even though volatile fruit-flavor has been removed if, at a concentrate plant or at bonded wine

premises, there is added to the juice, concentrated fruit juice, or must (or in the case of bonded wine premises, to wine of the winemaker's own production made therefrom), either the identical volatile fruit-flavor removed or an equivalent quantity of volatile fruit-flavor concentrate derived from the same kind of fruit or from the same variety of berry or grape.

(c) *Certificate required.* The proprietor, prior to the use of volatile fruit flavor concentrate in wine production, shall obtain a certificate from the producer stating the kind of fruit or the variety of berry or grape from which it was produced and the total solids content of the juice before and after concentration. (Sec. 201. Pub. L. 85–859, 72 Stat. 1383, as amended (26 U.S.C. 5382))

Subpart G—Production of Effervescent Wine

§ 24.190 General.

Effervescent wine may be made on bonded wine premises. Where the effervescence results from fermentation of the wine within a closed container, the wine is classed and taxed as sparkling wine. The use of carbon dioxide, nitrogen gas, or a combination of both, is permitted to maintain counterpressure during the transfer and bottling of sparkling wine. Wine carbonated by injection of carbon dioxide is classed and taxed as artificially carbonated wine. Sparkling wine, artificially carbonated wine, and any wine used as a base in the production of sparkling wine or artificially carbonated wine, may not have an alcohol content in excess of 14 percent by volume. However, wine containing more than 14 percent of alcohol by volume may be used in preparing a dosage for finishing sparkling wine or artificially carbonated wine. (Sec. 201, Pub. L. 85–859, 72 Stat. 1383, as amended (26 U.S.C. 5382)).

[T.D. ATF–299, 55 FR 24989, June 19, 1990, as amended by T.D. ATF–312, 56 FR 31078, July 9, 1991]

§ 24.191 Segregation of operations.

Where more than one process of producing sparkling wine or artificially carbonated wine is used, the appropriate TTB officer may require the portion of the premises used for the production and storage of wine made by each process (bottle fermented, bulk fermented or artificially carbonated) to be segregated as provided by § 24.27. (Sec. 201, Pub. L. 85–859, 72 Stat. 1381, as amended (26 U.S.C. 5365))

[T.D. ATF–299, 55 FR 24989, June 19, 1990, as amended by T.D. ATF–409, 64 FR 13683, Mar. 22, 1999]

§ 24.192 Process and materials.

In preparing still wine for the production of sparkling wine or artificially carbonated wine, sugar and acid of the kinds and within the limitations prescribed in § 24.182 may be added with yeast or yeast culture to acclimate the yeast and to facilitate the process of secondary fermentation or to correct the wine. Fruit syrup, sugar, wine, wine spirits, and acid may be used in preparing a finishing dosage for sparkling wine or artificially carbonated wine provided the dosage does not exceed 10 percent by volume of the finished product. Where the proprietor desires to use more than 10 percent by volume finishing dosage, the proprietor shall file for a formula approval under § 24.80. The fruit syrup, wine spirits and wine used will come from the same kind of fruit as the wine from which the sparkling wine or artificially carbonated wine is made. In the production of sparkling wine or artificially carbonated wine, taxpaid wine spirits or wine spirits withdrawn tax-free may be used. Tax-free wine spirits may only be used in the production of sparkling wine or artificially carbonated wine which is a natural wine. In the refermentation and finishing of a sparkling wine, the acids and materials specifically authorized in § 24.246 may be used. (Sec. 201, Pub. L. 85–859, 72 Stat. 1383, as amended (26 U.S.C. 5382))

(Approved by the Office of Management and Budget under control number 1512–0059)

§ 24.193 Conversion into still wine.

Sparkling wine or artificially carbonated wine may be dumped for use as still wine. The dumping process will allow the loss of carbon dioxide remaining in the wine. (Sec. 201, Pub. L.

85–859, 72 Stat. 1331, as amended (26 U.S.C. 5041, 5361))

Subpart H—Production of Special Natural Wine

§ 24.195 General.

Special natural wine is a flavored wine made on bonded wine premises from a base of natural wine. The flavoring added may include natural herbs, spices, fruit juices, natural aromatics, natural essences or other natural flavoring, in quantities or proportions such that the resulting product derives character and flavor distinctive from the base wine and distinguishable from other natural wine. Fruit juices may not be used to give to one natural wine the flavor of another but may be used with herbs or spices to produce a wine having a distinctive flavor. Caramel and sugar may be used in a special natural wine. However, the minimum 60 degrees Brix limitations prescribed in the definition of ''Liquid pure sugar'' and ''Invert sugar syrup'' in § 24.10 do not apply to materials used in the manufacture of vermouth. Finished vermouth will contain a minimum of 80 percent by volume natural wine. Heavy bodied blending wine and juice or concentrated fruit juice to which wine spirits have been added may be used in the production of special natural wine pursuant to formula approval. (Sec. 201, Pub. L. 85–859, 72 Stat. 1386, as amended (26 U.S.C. 5386))

(Approved by the Office of Management and Budget under control number 1512–0059)

§ 24.196 Formula required.

Before producing any special natural wine, the proprietor shall receive approval of the formula by which it is to be made as provided by § 24.80. Any change in a formula will be approved in advance as provided by § 24.81. (Sec. 201, Pub. L. 85–859, 72 Stat. 1386, as amended (26 U.S.C. 5386))

(Approved by the Office of Management and Budget under control number 1512–0059)

§ 24.197 Production by fermentation.

In producing special natural wine by fermentation, flavoring materials may be added before or during fermentation. Special natural wine produced by fermentation may be ameliorated in the same manner and to the same extent as natural wine made from the same fruit. Spirits may not be added to special natural wine with the exception of spirits contained in the natural wine used as a base or in authorized essences made on bonded wine premises as provided in § 24.86 or in approved essences made elsewhere. Upon removal of the wine from fermenters, the volume of liquid will be determined accurately and recorded as wine produced. The quantity of liquid in fermenters at the close of each reporting period will be reported on the TTB F 5120.17, Report of Bonded Wine Premises Operations. (Sec. 201, Pub. L. 85–859, 72 Stat. 1386, as amended (26 U.S.C. 5386))

§ 24.198 Blending.

Special natural wine may be blended with other special natural wine of the same class and kind, and with heavy bodied blending wine, or natural wine of the same kind of fruit, in the further production of special natural wine. The blending of special natural wines produced under different formulas requires the filing and approval of a formula authorizing a blending; however, where two or more formulas have been approved for the production of special natural wine of the same type, e.g., producing a sweet vermouth by blending sweet vermouths produced under two or more approved formulas, the submission and approval of an additional formula is not required. (Sec. 201, Pub. L. 85–859, 72 Stat. 1386, as amended (26 U.S.C. 5386))

Subpart I—Production of Agricultural Wine

§ 24.200 General.

Agricultural wine may be produced on bonded wine premises from suitable agricultural products other than the juice of fruit. Water or sugar, or both,

may be used within the limitations of this subpart in the production of agricultural wine. Agricultural wine may not be flavored or colored; however, hops may be used in the production of honey wine. Spirits may not be used in the production of the wine and a wine made from one agricultural product may not be blended with a wine made from another agricultural product. Agricultural wine made with sugar in excess of the limitations of this subpart is other than standard wine and will be segregated and clearly identified. Since grain, cereal, malt, or molasses are not suitable materials for the production of agricultural wine, these materials may not be received on bonded wine premises. Beverage alcohol products made with these materials are not classed as wine and may not be produced or stored on bonded wine premises. (Sec. 201, Pub. L. 85–859, 72 Stat. 1386, as amended (26 U.S.C. 5387))

§ 24.201 Formula required.

Before producing any agricultural wine, the proprietor shall obtain an approval of the formula and process by which it is to be made pursuant to the provisions of § 24.80. Any change in a formula will be approved in advance as provided by § 24.81. (Sec. 201, Pub. L. 85–859, 72 Stat. 1386, as amended (26 U.S.C. 5387))

§ 24.202 Dried fruit.

In the production of wine from dried fruit, a quantity of water sufficient to restore the moisture content to that of the fresh fruit may be added. If it is desired not to restore the moisture content of the dried fruit to that of the fresh fruit, or if the moisture content is not known, sufficient water may be added to reduce the density to 22 degrees Brix. If the dried fruit liquid after restoration is found to be deficient in sugar, sufficient pure dry sugar may be added to increase the total solids content to 25 degrees Brix. After addition of water to the dried fruit, the resulting liquid may be ameliorated with either water or sugar, or both, in such total volume as may be necessary to reduce the natural fixed acid level of the mixture to a minimum of 5.0 grams per liter; however, in no event may the volume of the ameliorating material exceed 35 percent of the total volume of the ameliorated juice or wine (calculated exclusive of pulp). Pure dry sugar may be used for sweetening. After complete fermentation or complete fermentation and sweetening, the finished product may not have a total solids content that exceeds 35 degrees Brix. (26 U.S.C. 5387)

[T.D. ATF–299, 55 FR 24989, June 19, 1990, as amended by T.D. TTB–23, 70 FR 2801, Jan. 18, 2005]

§ 24.203 Honey wine.

(a) Subject to paragraph (b) of this section, a winemaker, in the production of wine from honey, may add the following:

(1) Water to facilitate fermentation, provided the density of the honey and water mixture is not reduced below 13 degrees Brix;

(2) Hops in quantities not to exceed one pound for each 1,000 pounds of honey; and

(3) Pure, dry sugar or honey for sweetening. Sugar may be added only after fermentation is completed.

(b) After complete fermentation or complete fermentation and sweetening, the wine may not have an alcohol content of more than 14 percent by volume or a total solids content that exceeds 35 degrees Brix. (26 U.S.C. 5387)

[T.D. TTB–23, 70 FR 2801, Jan. 18, 2005]

§ 24.204 Other agricultural products.

In the production of wine from agricultural products, other than dried fruit and honey, water and sugar may be added to the extent necessary to facilitate fermentation; *Provided*, That the total weight of pure dry sugar used for fermentation is less than the weight of the primary winemaking material and the density of the mixture prior to fermentation is not less than 22 degrees Brix, if water, or liquid sugar, or invert sugar syrup is used. Additional pure dry sugar may be used for sweetening, provided the alcohol content of the finished wine after complete fermentation or after complete

fermentation and sweetening, is not more than 14 percent by volume and the total solids content is not more than 35 degrees Brix. (Sec. 201, Pub. L. 85–859, 72 Stat. 1386, as amended, 1387, as amended (26 U.S.C. 5387))

§ 24.211 Formula required.

The proprietor who desires to produce wine other than standard wine shall first obtain approval of the formula by which it is to be made, except that no formula is required for distilling material or vinegar stock. The formula is filed as provided by § 24.80. Any change in the formula will be approved in advance as provided by § 24.81. (Sec. 201, Pub. L. 85–859, 72 Stat. 1387, as amended (26 U.S.C. 5388))

§ 24.212 High fermentation wine.

High fermentation wine is wine made with the addition of sugar within the limitations prescribed for natural wine except that the alcohol content after complete fermentation or complete fermentation and sweetening is more than 14 percent and wine spirits have not been added. Although high fermentation wine is not a standard wine, it is produced, stored, and handled on bonded wine premises subject to the same marking or labeling requirements. (Sec. 201, Pub. L. 85–859, 72 Stat. 1381, as amended, 1387, as amended (26 U.S.C. 5365, 5388))

Heavy bodied blending wine is wine made for blending purposes from grapes or other fruit without added sugar, and with or without added wine spirits, and having a total solids content in excess of 21 percent. Heavy bodied blending wine may be used in blending with other wine made from the same kind of fruit or for removal upon payment of tax, not for sale or consumption as beverage wine. Upon removal, the shipping containers and shipping records will be marked ''Heavy Bodied Blending Wine—Not for Sale or Consumption as Beverage Wine.'' (Sec. 201, Pub. L. 85–859, 72 Stat. 1380, as amended, 1387, as amended (26 U.S.C. 5361, 5388))

§ 24.215 Wine or wine products not for beverage use.

(a) *General.* Wine, or wine products made from wine, may be treated with methods or materials which render the wine or wine products unfit for beverage use. No wine or wine products so treated may contain more than 21 percent of alcohol by volume at the time of withdrawal free of tax from bonded wine premises; nor may any wine or wine product so withdrawn be used in the compounding of distilled spirits or wine for beverage use or in the manufacture of any product intended to be used in the compounding. Wine or wine products produced under this section will be clearly identified and segregated from beverage wine products while stored on bonded wine premises and may be transferred in bond between bonded wine premises. The shipping records for transfers in bond of nonbeverage wine or wine products will be marked ''Not for Sale or Consumption as Beverage Wine.'' Upon removal from bonded wine premises free of tax, containers of nonbeverage wine or wine products will be marked to clearly indicate such products are not for sale or consumption as beverage wine, e.g., salted wine, vinegar, nonbeverage cooking wine.

(b) *Salted wine.* Salted wine is a wine or wine product not for beverage use produced in accordance with the provisions of this section and having not less than 1.5 grams of salt per 100 milliliter of wine. (12.5 pounds of salt/100 gallons of wine.)

(c) *Vinegar.* Vinegar is a wine or wine product not for beverage use produced in accordance with the provisions of this section and having not less than 4.0 grams (4.0 percent) of volatile acidity (calculated as acetic acid and exclusive of sulfur dioxide) per 100 milliliters of wine. § 24.216 Distilling material.

Wine may be produced on bonded wine premises from grapes and other fruit, natural fruit products, or fruit residues, for use as distilling material, using any quantity of water desired to facilitate fermentation or distillation. No sugar may be added in the production of distilling material. Distillates containing aldehydes may be used in the fermentation of wine to be used as distilling material. Lees, filter wash, and other wine residues may also be accumulated on bonded wine premises for use as distilling material. (Sec. 201, Pub. L. 85–859, 72 Stat. 1380, as amended, 1381, as amended, 1382, as amended (26 U.S.C. 5361, 5373))

§ 24.217 Vinegar stock.

(1) Wine made with sugar, water, or sugar and water beyond the limitations prescribed for standard wine.

(2) Wine made by blending wines produced from different kinds of fruit.

(3) Wine made with sugar other than pure dry sugar, liquid pure sugar, and invert sugar syrup.

(4) Wine made with materials not authorized for use in standard wine.

(b) *Production of other wine.* Other wine may be made on bonded wine premises but will remain segregated from standard wine. Other wine will have a basic character derived from the primary winemaking material. If sugar is used to make other wine, the aggregate weight of the sugar used before and during fermentation will be less than the weight of the primary wine producing material. Wine spirits may

be added to other wine. Upon removal, other wine will be marked or labeled with a designation which will adequately disclose the nature and composition of the wine. (Sec. 201, Pub. L. 85–859, 72 Stat. 1381, as amended, 1387, as amended (26 U.S.C. 5365, 5388))

Subpart K—Spirits

§ 24.225 General.

The proprietor of a bonded wine premises may withdraw and receive spirits without payment of tax from the bonded premises of a distilled spirits plant for uses as are authorized in this part. Wine spirits produced in the United States may be added to natural wine on bonded wine premises if both the wine and the spirits are produced from the same kind of fruit. In the case of natural still wine, wine spirits may be added in any State only to wine produced by fermentation on bonded wine premises located within the same State. If wine has been ameliorated, wine spirits may be added (whether or not wine spirits were previously added) only if the wine contains not more than 14 percent of alcohol by volume derived from fermentation. Spirits other than wine spirits may be received, stored and used on bonded wine premises only for the production of nonbeverage wine and nonbeverage wine products. Wooden storage tanks used for the addition of spirits may be used for the baking of wine.

(Sec. 201, Pub. L. 85–859 and Sec. 455, Pub. L. 98–369, 72 Stat. 1381–1384, as amended (26 U.S.C. 5214, 5366, 5373, 5382, 5383))

§ 24.226 Receipt or transfer of spirits.

When spirits are received at the bonded wine premises, the proprietor shall determine that the spirits are the same as described on the transfer record and follow the procedures prescribed by 27 CFR 19.510. A copy of the transfer record, annotated to show any difference between the description of spirits and quantity received, will be maintained by the proprietor as a record of receipt. § 24.227 Transfer of spirits by pipeline for immediate use.

Spirits transferred by pipeline for immediate use are gauged either by weight or by volume on the bonded premises of the distilled spirits plant. Where the spirits are gauged on the bonded premises of the distilled spirits plant, the pipelines will be directly connected with the spirits addition tanks. The valves in the pipeline will be closed and locked with a lock at all times except when necessary to be opened for the transfer of spirits. § 24.228 Transfer of spirits by pipeline to a spirits storage tank.

Where it is desired to transfer spirits by pipeline to bonded wine premises and store the spirits prior to use, there will be provided a suitable tank for storing the spirits. The spirits to be transferred, if not gauged on the bonded premises of the distilled spirits plant, will be gauged by weight or volume on bonded wine premises. (Sec. 201, Pub. Upon arrival of a tank car or tank truck at the bonded wine premises, the proprietor shall carefully examine the car or truck to see whether the seals are intact and whether there is any evidence of tampering or loss by leaking or otherwise. Any evidence of loss will be reported to the appropriate TTB officer. The contents of the tank car or tank truck will be gauged by weight or volume at the time of receipt by the proprietor. If the tank car or tank truck has been accurately calibrated and the calibration chart is available at the bonded wine premises, the spirits may be gauged by volume in the tank car or tank truck. In any case where a volume gauge is made, the actual measurements of the spirits in the gauging tank, tank car, or tank truck, and the temperature of the spirits will be recorded on the copy of the transfer record accompanying the shipment. § 24.231 Receipt of spirits in sealed bulk containers.

The proprietor shall examine sealed bulk containers (packages) of spirits received at the bonded wine premises to verify that the containers are the same as those described on the transfer record accompanying the shipment. Any container which appears to have been tampered with or from which spirits appear to have been removed or lost will be gauged by the proprietor and the proprietor shall prepare and submit to the appropriate TTB officer a statement setting forth fully the circumstances and apparent cause of any loss. (a) If the spirits to be used are in a spirits storage tank on bonded wine premises, or are received immediately prior to use from a distilled spirits plant not adjacent or contiguous to bonded wine premises, the proprietor shall determine the proof of the spirits and the quantity used by volume gauge or by weight. Upon completion of the transfer of spirit from the spirits storage tank to the spirits addition tank, the proprietor shall lock the spirits storage tank.

(b) If the spirits are received from the adjacent or contiguous bonded premises of a distilled spirits plant and are transferred directly into a spirits addition tank, the gauge of the spirits made on the distilled spirits plant premises will be used. The proprietor at the distilled spirits plant premises shall deliver a transfer record to the proprietor of bonded wine premises who shall acknowledge receipt of the spirits on the transfer record.

(c) If the spirits are received in packages and the quantity of spirits needed for the addition is not equal to the contents of full packages, a portion of one package may be used and the remnant package returned to the spirits storage room. The proprietor shall gauge the remnant package and attach to it a label showing the date of gauge, the weight of the remnant package, and the proof. The remnant package will be used at the first opportunity. (Sec. 201, Pub. L. 85–859, 72 Stat. 1381, as amended, 1382, as amended (26 U.S.C. 5367, 5368, 5373))

§ 24.241 Decolorizing juice or wine.

(a) *Conditions and limitations.* If the proprietor wishes to use activated carbon or other decolorizing material to remove color from juice or wine, the following conditions and limitations will be met:

(1) The wine will retain a vinous character after being treated with activated carbon or other decolorizing material;

(2) The quantity of activated carbon used to treat the wine, including the juice from which the wine was produced, may not exceed twenty-five pounds per 1,000 gallons (3.0 grams per liter) (see paragraph (b) of this section); and

However, the proprietor may produce a wine having a color of less than 0.6 Lovibond or more than 95 percent transmittance per AOAC Method 11.003–11.004 by using normal methods and without the use of decolorizing material.

(b) *Transfer in bond.* When a consignor proprietor transfers wine treated with activated carbon or other decolorizing material to a consignee proprietor, the consignor proprietor shall record on the shipping record:

(1) The amount of wine which has been treated under the provisions of this section; and

(2) The quantity of decolorizing material used in treating the wine, including the juice from which the wine was produced, before its transfer. The consignee proprietor may further treat the wine with decolorizing material as long as the consignee proprietor has a copy of the shipping record and complies with the requirements of this section.

(c) Incorporation by reference. The ''Official Methods of Analysis of the Association of Official Analytical Chemists'' (AOAC Method 11.003–11.004; 13th Edition 1980) is incorporated by reference in this part. § 24.242 Authority to use greater quantities of decolorizing material in juice or wine.

(a) *Proprietor's notice.* If the proprietor desires to remove color from juice prior to fermentation or if color in excess of that normally present in wine

develops during the production or storage of a particular lot or lots, and if the proprietor desires to use activated carbon in excess of twenty-five pounds per 1,000 gallons (3.0 grams per liter) of juice or wine to remove this color, the proprietor, prior to starting the treatment, shall submit to the appropriate TTB officer a written notice for each lot of juice or wine to be treated for decolorization. The written notice will state

(1) The reason for the treatment;

(2) The volume, kind, and type of juice or wine to be treated;

(3) The kind and quantity of decolorizing material to be used; and,

(4) The length of time the decolorizing material is in contact with the juice or wine.

(b) *Action by the appropriate TTB officer on proprietor's notice.* Upon receipt of the proprietor's notice, the appropriate TTB officer may require the proprietor to submit samples representative of the lot of juice or wine for examination by the TTB laboratory.

(c) *Samples and chemical analysis*—(1) *Samples.* If the appropriate TTB officer requires samples under paragraph (b) of this section, the proprietor shall prepare samples representative of the lot of juice or wine for examination. The samples will consist of:

(i) The juice or wine before treatment with decolorizing material,

(ii) The juice or wine after treatment with decolorizing material, and

(iii) The decolorizing material used.

(2) *Chemical analysis.* If the TTB chemical analyses of the samples shows that the proposed treatment would remove only color and will not remove the vinous characteristics of the wine, the appropriate TTB officer will return an approved copy of the proprietor's written notice. If the TTB chemical analysis shows that the proposed treatment is not acceptable, the appropriate TTB officer will send the proprietor a letter stating the reason(s) for disallowing the proposed treatment. § 24.243 Filtering aids.

Inert fibers, pulps, earths, or similar materials, may be used as filtering aids in the cellar treatment and finishing of wine. Agar-agar, carrageenan, cellulose, and diatomaceous earth are commonly employed inert filtering and clarifying aids. In general, there is no limitation on the use of inert materials and no records need be maintained concerning their use. However, if the inert material is dissolved in water prior to addition to wine, then the records required by § 24.301 will be maintained. Filtering aids which contain active chemical ingredients or which may alter the character of wine, may be used only in accordance with the provisions of § 24.246. (Sec. 201, Pub. § 24.244 Use of acid to stabilize standard wine.

Standard wine other than citrus wine, regardless of the fixed acid level, may be stabilized as a part of the finishing process by the addition of citric acid within the limitations of § 24.246. Standard wine (including citrus wine) may be stabilized by the addition of fumaric acid within the limitations of § 24.246. (Sec. 201, Pub. L. 85–859, 72 Stat. 1383, as amended (26 U.S.C. 5382))

§ 24.245 Use of carbon dioxide in still wine.

The addition of carbon dioxide to (and retention in) still wine is permitted if at the time of removal for consumption or sale the still wine does not contain more than 0.392 grams of carbon dioxide per 100 milliliters of wine. However, a tolerance of not more than 0.009 grams per 100 milliliters to the maximum limitation of carbon dioxide in still wine will be allowed

where the amount of carbon dioxide in excess of 0.392 grams per 100 milliliters is due to mechanical variations which can not be completely controlled under good commercial practice. A tolerance will not be allowed where it is found that the proprietor continuously or intentionally exceeds 0.392 grams of carbon dioxide per 100 milliliters of wine or where the variation results from the use of methods or equipment determined by the appropriate TTB officer not in accordance with good commercial practice. The proprietor shall determine the amount of carbon dioxide added to wine using authorized test procedures. Penalties are provided in 26 U.S.C. 5662 for any person who, whether by manner of packaging or advertising or by any other form of representation, misrepresents any still wine to be effervescent wine or a substitute for effervescent wine. (Sec. 201, Pub. L. 85–859, 72 Stat. 1331, as amended, 1381, as amended, 1407, as amended (26 U.S.C. 5041, 5367, 5662))

§ 24.246 Materials authorized for the treatment of wine and juice.

(a) *Wine.* Materials used in the process of filtering, clarifying, or purifying wine may remove cloudiness, precipitation, and undesirable odors and flavors, but the addition of any substance foreign to wine which changes the character of the wine, or the abstraction of ingredients which will change its character, to the extent inconsistent with good commercial practice, is not permitted on bonded wine premises. The materials listed in this section are approved, as being consistent with good commercial practice in the production, cellar treatment, or finishing of wine, and where applicable in the treatment of juice, within the general limitations of this section: *Provided*, That:

(1) When the specified use or limitation of any material on this list is determined to be unacceptable by the U.S. Food and Drug Administration, the appropriate TTB officer may cancel or amend the approval for use of the material in the production, cellar treatment, or finishing of wine; and

(2) Where water is added to facilitate the solution or dispersal of a material, the volume of water added, whether the material is used singly or in combination with other water based treating materials, may not total more than one percent of the volume of the treated wine, juice, or both wine and juice, from which such wine is produced.

(b) *Formula wine.* In addition to the material listed in this section, other material may be used in formula wine if approved for such use.

Treatment does not reduce the pH of the juice or wine to less than pH 2.8 nor increase the pH to more than pH 4.5. 7. The resins used have not imparted to the juice or wine any material or characteristic (incidental to the resin treatment) which may be prohibited under any other section of the regulations in this part. The winemaker may employ conditioning and/or regenerating agents consisting of water, fruit acids common to the wine or juice being treated, and inorganic acids, salts and/or bases provided the conditioned or regenerated resin is rinsed with water until the resin and container are essentially free from unreacted (excess) conditioning or regenerating agents prior to the introduction of the juice or wine. 21 CFR 173.25.

Bottling, Packing, and Labeling of Wine

§ 24.255 Bottling or packing wine.

(a) *General.* Proprietors of a bonded wine premises and a taxpaid wine bottling house premises shall be held strictly responsible for the correct determination of the quantity and alcohol content of wine removed. As required by § 24.170, appropriate and accurate measures and instruments for measuring and testing the wine will be provided at each wine premises.

(b) *Bottle or other container fill.* Proprietors of bonded wine premises and taxpaid wine bottling house premises shall fill bottles or other containers as nearly as possible to conform to the amount shown on the label or blown in

the bottle or marked on any container other than a bottle; but in no event may the amount of wine contained in any individual bottle, due to lack of uniformity of the bottles, vary from the amount stated more than 1.0 percent for 15.0 liters and above, 1.5 percent for 1.0 liter to 14.9 liters, 2.0 percent for 750 mL, 3.0 percent for 375 mL, 4.5 percent for 187 mL and 100 mL, and 9.0 percent for 50 mL; and in such case, there will be substantially as many bottles overfilled as there are bottles underfilled for each lot of wine bottled. Short-filled bottles or other containers of wine which are sold or otherwise disposed of by the proprietor to employees for personal consumption need not be labeled, but, if labeled, need not show an accurate statement of net contents.

(c) *Tax tolerance.* The net contents of bottles or other containers of untaxpaid wine in the same tax class filled during six consecutive tax return periods, as determined from the bonded wine premises proprietor's fill test records, shall not vary by more than 0.5 percent from the net contents as stated on the bottles or other containers. The bonded wine premises proprietor is liable for the tax on the entire amount of wine in the same tax class when that wine is removed from bond, without benefit of tolerance, when the fill of bottles or other containers exceeds a 0.5 percent average of a period which consists of six consecutive tax returns, or when filling is not conducted in compliance with good commercial practice.

(d) *Fill tests.* The proprietor shall test at representative intervals wine bottled or packed during the bottling or packing operation of each bottling or packing line to determine if the wine contained in the bottle or other container is in agreement with that stated on the label, bottle, or other container.

(e) *Alcohol tests.* The proprietor shall test the alcohol content by volume to determine the tax class of the wine and to ensure the alcohol content to be stated on the label is in agreement with the requirement of §24.257. (Sec. 201, Pub. L. 85–859, 72 Stat. 1381, as amended (26 U.S.C. 5368))

(Approved by the Office of Management and Budget under control numbers 1512–0298 and 1512–0503)

§ 24.256 Bottle aging wine.

Wine bottled or packed and stored for the purpose of aging need not have labels affixed until the wine is removed for consumption or sale. However, the bins, pallets, stacks, cases or containers of unlabeled wine will be marked in some manner to show the kind (class and type) and alcohol content of the wine. If the unlabeled wine is stored at a location other than the bottling or packing winery, the registry number of the bottling or packing winery will also be shown. (Sec. 201, Pub. L. 85–859, 72 Stat. 1381, as amended, 1407, as amended (26 U.S.C. 5368, 5662))

(Approved by the Office of Management and Budget under control number 1512–0503)

§ 24.257 Labeling wine containers.

(a) The proprietor must label each bottle or other container of beverage wine prior to removal for consumption or sale. The minimum type size for information required by this section is: 2 millimeters for containers of more than 187 milliliters and 1 millimeter for containers of 187 milliliters or less. The maximum type size for alcohol content statements is 3 millimeters unless the container is larger than 5 liters. The label must be securely affixed and show:

(1) The name and address of the wine premises where bottled or packed;

(2) The brand name, if different from above;

(3) The alcohol content as percent by volume or the alcohol content stated in accordance with 27 CFR part 4. For wine with less than 7 percent alcohol by volume stated on the label there is allowed an alcohol content tolerance of plus or minus .75 percent by volume; and

(4) The kind of wine, shown as follows:

(i) If the wine contains 7 percent or more alcohol by volume and must have label approval under 27 CFR part 4, the kind of wine is the class, type, or other designation provided in that part.

(ii) If the wine has an exemption from label approval, an adequate statement of composition may be used instead of the class and type in 27 CFR part 4.

(iii) If the wine contains less than 7 percent alcohol by volume, an adequate statement of composition may be used instead of the class and type in 27 CFR part 4. The rules in 27 CFR part 4 pertaining to label approval and standards of fill do not apply to wine under 7 percent alcohol by volume. The rules in 27 CFR part 16 requiring a Health Warning Statement do apply to all wines over 1/2 percent alcohol. Except for the rules noted in this section, labeling of wines under 7 percent alcohol is under the jurisdiction of the Food and Drug Administration.

(iv) The statement of composition must include enough information to identify the tax class when viewed with the alcohol content. First, the wine should be identified by the word ''wine,'' ''mead,'' ''cider'' or ''perry,'' as applicable. If the wine contains more than 0.392 grams of carbon dioxide per 100 milliliters, the word ''sparkling'' or ''carbonated,'' as applicable, must be included in the statement of composition. If the statement of composition leaves doubt as to the tax class of the wine, the wine must be marked ''tax class 5041(b)(1) IRC'' or an equivalent phrase. For example, a still wine marked ''wine'' and ''16 percent alcohol by volume'' is adequately marked to identify its tax class as 5041(b)(2). A still wine marked ''hard cider'' and ''9 percent alcohol by volume'' is adequately marked to identify its tax class as 5041(b)(1). A still wine marked ''raspberry hard cider'' and ''9 percent alcohol by volume'' is adequately marked to identify its tax class as 5041(b)(1). A still wine eligible for the hard cider tax rate marked ''cider'' or ''hard cider'' and ''6 percent alcohol by volume'' is adequately marked to identify its tax class as 5041(b)(6). However, if a still wine that is not eligible for the hard cider tax rate is marked ''cider'' or ''hard cider'' and ''6 percent alcohol by volume'' it is not adequately marked to identify its tax class as 5041(b)(1), so the tax class must be shown.

(5) The net content of the container unless the net content is permanently marked on the container as provided in 27 CFR part 4.

(b) The information shown on any label applied to bottled or packed wine is subject to the recordkeeping requirements of § 24.314. (Sec. 201, Pub. L. 85–859, 72 Stat. 1381, as amended, 1407, as amended (26 U.S.C. 5368, 5388, 5662))

(c) *Use of semi-generic designations*—(1) *In general.* Semi-generic designations may be used to designate wines of an origin other than that indicated by such name only if—

(i) There appears in direct conjunction therewith an appropriate appellation of origin, as defined in part 4 of this chapter, disclosing the true place of origin of the wine, and

(ii) The wine so designated conforms to the standard of identity, if any, for such wine contained in part 4 of this chapter or, if there is no such standard, to the trade understanding of such class or type.

(2) *Determination of whether a name is semi-generic*—(i) *In general.* Except as provided in paragraph (c)(2)(ii) of this section, a name of geographic significance, which is also the designation of a class or type of wine, shall be deemed to have become semi-generic only if so found by the Administrator.

§ 24.260 Serial numbers or filling date.

Each container larger than four liters or each case used for removing wine for consumption or sale will be marked with a serial number or filling date at the time of filling or when such containers or cases are prepared for removal. Serial numbers will commence with ''1'' and continue until the numeral ''1,000,000'' is reached, whereupon the series may recommence with the numeral ''1.'' However, the proprietor may initiate a new series after the numeral ''1,000,000'' has been reached provided no numeral will be used more than once during a 12-month period. If desired, a separate series of numbers with letter prefixes may be used for containers larger than four liters and for cases, or for cases filled on different bottling lines, or for removals from different loading docks. The proprietor may mark containers larger than four liters or the cases with the filling date in lieu of using a serial number or use both a serial number and the filling date. However, if the proprietor desires to change from the use of a serial number to use of a filling date, or *vice versa,* a notice will be sent to the appropriate TTB officer before making the change. Where United States or foreign wine is recased, the cases will be marked with the date of recasing, preceded by the letter ''R'', in lieu of serial number or filling date. Subpart M—Losses of Wine

§ 24.265 Losses by theft.

The proprietor shall be liable for and pay the tax on wine unlawfully removed while on bonded wine premises, or while in transit thereto or therefrom in bond, unless the proprietor or other person responsible for the tax, establishes to the satisfaction of the appropriate TTB officer that the theft did not occur as the result of connivance, collusion, fraud or negligence on the part of the proprietor or other person responsible for the tax or the owner, consignor, consignee, bailee, or carrier, or their agents or employees. § 24.266 Inventory losses.

(a) *General.* The proprietor shall take a physical inventory of all untaxpaid

wine on-hand on bonded wine premises as of the close of business each tax year, or where a cycle different from the tax year has been established as provided in § 24.313, the inventory will be taken annually at the end of that cycle, or at any time required by an appropriate TTB officer. The physical inventory of bulk and bottled or packed wine will be recorded and reported as required by § 24.313.

(b) *Bulk wine losses.* The physical inventory of bulk wine will determine losses due to spillage, leakage, soakage, evaporation, and other losses normally occurring from racking and filtering since the previous physical inventory required by this section. A claim for allowance of loss, under the provisions of § 24.65, is required for inventory losses in production or storage:

(1) Where there are circumstances indicating that all or a part of the wine reported lost was unlawfully removed, or

(2) Where the loss on bonded wine premises during the annual period exceeds three percent of the aggregate volume of wine on-hand at the beginning of the annual period and the volume of wine received in bond during the annual period; or the loss exceeds six percent of the still wine produced by fermentation; or the loss exceeds six percent of the sparkling wine produced by fermentation in bottles; or the loss exceeds three percent of the special natural wine produced under § 24.195 or other wine produced under § 24.218; or the loss exceeds three percent of the artificially carbonated wine produced; or the loss exceeds three percent of the bulk process sparkling wine produced.

The percentage applicable to each tax class of wine will be calculated separately, unless the calculation is impracticable because of the mixture of different tax classes by addition of wine spirits or blending during the annual period, in which case the percentage will be calculated on the aggregate volume. Wine removed immediately after production for use as distilling material and on which the usual racking, clarifying, and filtering losses are not sustained, will not be included in the calculations.

(c) *Bottle and other container wine losses.* Wine filled into a bottle or other similar containers are not subject to losses due to spillage, leakage, soakage, evaporation, and other losses normally occurring from racking and filtering. In addition, wine that has been filled into a bottle or other similar containers can be accurately accounted for and any unexplained shortage is considered evidence of an unreported removal. Therefore, the proprietor shall pay the tax on any unexplained loss of untaxpaid bottled or packed wine disclosed by inventory or otherwise. (Sec. 201, Pub. § 24.267 Losses in transit.

Where the loss in transit of bulk wine shipped in bond or the total daily bulk wine in bond shipments received in bond from the same winery exceeds one percent (two percent on transcontinental shipments) of the volume shipped, the proprietor of the receiving bonded wine premises shall immediately notify the appropriate TTB officer and file a claim under the provisions of § 24.65. The proprietor must immediately report any loss by theft, fire or other casualty, or any other extraordinary or unusual loss to the appropriate TTB officer. If required by the appropriate TTB officer, the proprietor must file a claim under the provisions of § 24.65.

The volume of wine loss must be reported on TTB F 5120.17 for the reporting period during which the loss occurred. (Sec. 201, Pub. L. 85–859, 72 Stat. 1381, as amended (26 U.S.C. 5370))

Subpart N—Removal, Return and Receipt of Wine

TAXPAID REMOVALS

§ 24.270 Determination of tax.

The tax on wine is determined at the time of removal from a bonded wine premises for consumption or sale. Section 5041 of title 26, United States Code, imposes an excise tax, at the rates prescribed, on all wine (including imitation, substandard, or artificial wine, and compounds sold as wine, which contain 24 percent or less of alcohol by volume) produced in or imported into the United States. Wine containing more that 24 percent of alcohol by volume is classed as distilled spirits and taxed accordingly. The tax is determined and paid on the volume of wine:

(a) In bottles or other containers filled according to United States measure recorded to the nearest 10th gallon; or,

(b) In bottles or other containers filled according to metric measure, on the volume of wine in United States wine gallons to the nearest 10th gallon; or

(c) In the case of pipeline removals, on the volume of bulk wine removed recorded to the nearest whole gallon, five-tenths gallon being converted to the next full gallon.

(Sec. 201, Pub. L. 85–859, 72 Stat. 1331, as amended (26 U.S.C. 5041))

See §§ 24.278 and 24.279 of this part for regulations concerning credit against the wine tax for certain bonded wine premises proprietors.

[T.D. ATF–299, 55 FR 24989, June 19, 1990, as amended by T.D. ATF–307, 55 FR 52737, Dec. 21, 1990]

§ 24.271 Payment of tax by return with remittance.

(a) *General.* The tax on wine is paid by an Excise Tax Return, TTB F 5000.24, which is filled with remittance (check, cash, or money order) for the full amount of tax due. Prepayments of tax on wine during the period covered by the return are shown separately on the Excise Tax Return form. If no tax is due for the return period, the filing of a return is not required.

(b) *Return periods and due dates*—(1) *Return periods*—(i) *Semimonthly return period.* Except in the case of a taxpayer who qualifies for, and chooses to use, the annual return period as provided in § 24.273 or the quarterly return period as provided in paragraph (b)(1)(ii) of this section, all taxpayers who have filed a bond for deferred payment of taxes must use semimonthly return periods. The semimonthly return periods run from the 1st day through the 15th day of each month, and from the 16th day through the last day of each month, except as otherwise provided in paragraph (c) of this section.

(ii) *Quarterly return period.* A taxpayer who has filed a bond for deferred payment of taxes may choose to use a quarterly return period if the taxpayer was not liable for more than $50,000 in taxes with respect to wine imposed by 26 U.S.C. 5041 and 7652 in the preceding calendar year and if that taxpayer reasonably expects to be liable for not more than $50,000 in such taxes during the current calendar year. In such a case the last day for paying the tax and filing the return shall be the 14th day after the last day of the calendar quarter. However, the taxpayer may not use the quarterly return period procedure for any portion of the calendar year following the first date on which the aggregate amount of tax due from the taxpayer during the calendar year exceeds $50,000, and any tax that has not been paid on that date shall be due on the 14th day after the last day of the semimonthly period in which that date occurs. The following additional rules apply to the quarterly return period procedure under this section:

(A) A ''taxpayer'' is an individual, corporation, partnership, or other entity that is assigned a single Employer

Identification Number as defined in 26 CFR 301.7701–12;

(B) ''Reasonably expects'' means that there is no existing or anticipated circumstance known to the taxpayer (such as an increase in production capacity) that would cause the taxpayer's tax liability to exceed the prescribed limit;

(C) A taxpayer with multiple locations must combine the wine tax liability for all locations to determine eligibility for the quarterly return procedure;

(D) A taxpayer who has both domestic operations and import transactions must combine the wine tax liability on the domestic operations and the imports to determine eligibility for the quarterly return procedure;

(E) The controlled group rules of 26 U.S.C. 5061(e), which concern treatment of controlled groups as one taxpayer, do not apply for purposes of determining eligibility for the quarterly return procedure. However, a taxpayer who is eligible for the quarterly return procedure, and who is a member of a controlled group that owes $5 million or more in wine excise taxes per year, is required to pay taxes by electronic fund transfer (EFT). Quarterly payments via EFT shall be transmitted in accordance with section 5061(e);

(F) A new taxpayer is eligible to file quarterly returns in the first year of business simply if the taxpayer reasonably expects to be liable for not more than $50,000 in wine taxes during that calendar year; and

(G) If a taxpayer filing quarterly exceeds $50,000 in tax liability during a taxable year and therefore must revert to the semimonthly return procedure, that taxpayer may resume quarterly payments only after a full calendar year has passed during which the taxpayer's liability did not exceed $50,000.

(2) *Semimonthly and quarterly tax return due dates.* The taxpayer shall file the semimonthly or quarterly return, with remittance, for each return period not later than the 14th day after the last day of the return period. If the due date falls on a Saturday, Sunday, or legal holiday, the return and remittance are due on the immediately preceding day that is not a Saturday, Sunday, or legal holiday, except as otherwise provided in paragraph (c)(3) of this section.

(c) *Special September rule for taxes due by semimonthly return*—(1) *Division of second semimonthly period*—(i) *General.* Except as otherwise provided in paragraph (c)(1)(ii) of this section, the second semimonthly period for the month of September is divided into two payment periods, from the 16th day through the 26th day, and from the 27th day through the 30th day. The proprietor shall file a return on TTB F 5000.24, and make remittance, for the period September 16–26, no later than September 29. The proprietor shall file a return on TTB F 5000.24, and make remittance, for the period September 27–30, no later than October 14.

(ii) *Taxpayment not by electronic fund transfer.* In the case of taxes for which remittance by electronic fund transfer (EFT) is not required by § 24.272, the second semimonthly period of September is divided into two payment periods, from the 16th day through the 25th day, and from the 26th day through the 30th day. The proprietor shall file a return on TTB F 5000.24, and make remittance, for the period September 16–25, no later than September 28. The proprietor shall file a return on TTB F 5000.24, and make remittance, for the period September 26–30, no later than October 14.

(2) *Amount of payment—Safe harbor rule*—(i) *General.* Taxpayers are considered to have met the requirements of paragraph (c)(1)(i) of this section if the amount paid no later than September 29 is not less than 11/15ths (73.3 percent) of the tax liability incurred for the semimonthly period beginning on September 1 and ending on September 15, and if any underpayment of tax is paid by October 14.

(ii) *Taxpayment not by EFT.* Taxpayers are considered to have met the requirements of paragraph (c)(1)(ii) of this section if the amount paid no later than September 28 is not less than 2/3rds (66.7 percent) of the tax liability incurred for the semimonthly period beginning on September 1 and ending on September 15, and if any underpayment of tax is paid by October 14.

(3) *Weekends and holidays.* If the required taxpayment due date for the period September 16–25 or September 16–

26, as applicable, falls on a Saturday or legal holiday, the return and remittance are due on the immediately preceding day. If the required due date falls on a Sunday, the return and remittance are due on the immediately following day.

(4) *Example: Payment of tax for the month of September*—(i) *Facts.* X, a proprietor required to pay taxes by electronic fund transfer, incurred tax liability in the amount of $30,000 for the first semimonthly period of September. For the period September 16–26, X incurred tax liability in the amount of $45,000, and for the period September 27–30, X incurred tax liability in the amount of $2,000.

(ii) *Payment requirement.* X's payment of tax in the amount of $30,000 for the first semimonthly period of September is due no later than September 29 (§ 24.271(b)). X's payment of tax for the period September 16–26 is also due no later than September 29 (§ 24.271(c)(1)(i)). X may use the safe harbor rule to determine the amount of payment due for the period of September 16–26 (§ 24.271(c)(2)). Under the safe harbor rule, X's payment of tax must not be less than $21,990.00, that is, 11/15ths of the tax liability incurred during the first semimonthly period of September. Additionally, X must pay the tax in the amount of $2,000 for the period September 27–30 no later than October 14 (§ 24.271(c)(1)(i)). X must also pay the underpayment of tax, $23,010.00, for the period September 16–26, no later than October 14 (§ 24.271(c)(2)).

EFFECTIVE DATE NOTE: By T.D. TTB–89, 76 FR 3509, Jan. 20, 2011, § 24.271 was revised, effective Feb. 22, 2011 to Feb. 24, 2014.

§ 24.272 Payment of tax by electronic fund transfer.

(a) *General.* (1) During a calendar year any proprietor who is liable for a gross amount of wine excise tax equal to or exceeding $5 million combining tax liabilities incurred under this part and parts 26 and 27 of this chapter, shall during the succeeding calendar year use a financial institution in making payment by electronic fund transfer (EFT) of wine taxes for that year. A proprietor who is required by this section to make remittance by EFT may not effect payment of wine taxes by cash, check, or money order as described in § 24.271.

(2) For the purposes of this section, the dollar amount of tax liability is defined as the gross tax liability on all taxable withdrawals and importations (including wines brought into the United States from Puerto Rico or the Virgin Islands) during the calendar year, without regard to any drawback, credit, or refund, for all premises from which the activities are conducted by the proprietor.

(3) For the purposes of this section, a proprietor includes a controlled group of corporations, as defined in 26 U.S.C. 5061 (e)(3). Also, the rules for a ''controlled group of corporations'' apply in a similar fashion to groups which include partnerships and/or sole proprietorships. If one entity maintains more than 50 percent control over a group consisting of corporations and one, or more, partnerships and/or sole proprietorships, all of the members of the controlled group are one taxpayer for the purpose of determining who is required to make remittances by EFT.

(4) A proprietor who is required by this section to make remittances by EFT shall, for each bonded wine premises from which wine is withdrawn upon determination of tax, make a separate EFT remittance and file a separate tax return.

(b) *Requirements.* (1) On or before January 10 of each calendar year, except for a proprietor already remitting the tax by EFT, each proprietor who was liable during the previous calendar year for a gross amount of wine excise tax equal to or exceeding $5 million, combining tax liabilities incurred under this part and parts 26 and 27 of this chapter, shall give written notice to the appropriate TTB officer agreeing to make remittances by EFT.

(2) For each return filed in accordance with this subpart, the proprietor shall direct the proprietor's financial institution to make an electronic fund transfer in the amount of the taxpayment to the Treasury Account as provided in paragraph (e) of this section. The request will be made to the financial institution early enough for the transfer of funds to be made to the Treasury Account by no later than the

close of business on the last day for filing the return as prescribed in § 24.271. The request will take into account any time limit established by the financial institution.

(3) If the proprietor was liable during the preceding calendar year for less than $5 million in wine excise taxes, combining tax liabilities incurred under this part and parts 26 and 27 of this chapter, the proprietor may choose either to continue remitting the tax as provided in this section or to remit the tax with return as prescribed by § 24.271. Upon filing the first return on which the proprietor chooses to discontinue remittance of the tax by EFT and to begin remittance of the tax with the tax return, the proprietor shall notify the appropriate TTB officer by attaching a written notification to the tax form stating that no wine excise tax is due by EFT because the tax liability during the preceding calendar year was less than $5 million, and that the remittance will be filed with the tax return.

(c) *Remittance.* (1) The proprietor shall show on the tax return information about remitting the tax for that return by EFT and shall file the return with TTB in accordance with the instructions on the tax form.

(2) Remittances will be considered as made when the taxpayment by electronic fund transfer is received by the Treasury Account. For purposes of this section, a taxpayment by electronic fund transfer will be considered as received by the Treasury Account when it is paid to a Federal Reserve Bank.

(3) When the proprietor directs the financial institution to effect an electronic fund transfer message as required by paragraph (b) (2) of this section, the transfer data record furnished to the proprietor through normal banking procedures will serve as the record of payment, and will be retained as part of the required records.

(d) *Failure to make a taxpayment by EFT.* The proprietor is subject to a penalty imposed by 26 U.S.C. 5684, 6651, and 6656, as applicable, for failure to make a taxpayment by EFT on or before the close of business on the prescribed last day for filing.

(e) *Procedure.* Upon the notification required under paragraph (b)(1) of this section, the appropriate TTB officer will issue to the proprietor a TTB Procedure entitled, Payment of Tax by Electronic Fund Transfer. This publication outlines the procedure a proprietor follows when preparing returns and EFT remittances in accordance with this subpart. The United States Customs Service will provide the proprietor with instructions for preparing EFT remittances for payments to be made to the United States Customs Service for payment of excise tax on imported wine. (a) *Eligibility for annual filing.* A proprietor may file the Excise Tax Return, TTB F 5000.24, and remittance within 30 days after the end of the calendar year instead of semimonthly or quarterly as provided in § 24.271, if the proprietor has not given a bond for deferred payment of wine excise tax and if the proprietor:

(1) Paid wine excise taxes in an amount less than $1000 during the previous calendar year, or

(2) Is the proprietor of a newly established bonded wine premises and expects to pay less than $1000 in wine excise taxes before the end of the calendar year.

(b) *Loss of eligibility for annual filing.* (1) If before the close of the current calendar year the wine excise tax owed will exceed the amount of the coverage under the proprietor's operations bond for wine removed from bonded wine premises on which tax has been determined but not paid, the proprietor will file an Excise Tax Return with the total remittance on the date the wine excise tax owed will exceed such amount and file an aggregate Excise Tax Return within 30 days after the close of the calendar year showing the

total wine tax liability for such calendar year. If before the close of the current calendar year the wine excise tax liability (including any amounts paid or owed) equals $1000 or more, the proprietor will commence semimonthly or quarterly filing of the wine Excise Tax Returns and making of payments as required by § 24.271.

(2) If there is a jeopardy to the revenue, the appropriate TTB officer may at any time require the proprietor to file Excise Tax Returns on a semimonthly or quarterly basis.

(c) *Other rules apply.* A proprietor who files on a calendar year basis under this section is subject to the failure to pay or file provisions of § 24.274.

The return with remittance is forwarded pursuant to the instructions printed on the return. For the purpose of complying with this section, the term ''forwarding'' means deposit in the United States mail properly addressed to TTB.

(b) *Electronic fund transfer.* When the proprietor is required by § 24.272 to deliver payment of tax by electronic fund transfer, the proprietor shall prepay the tax before any wine can be removed for consumption or sale by:

(1) Completing the Excise Tax Return and by mailing it, as instructed on the form, to TTB and

(2) Directing the proprietor's financial institution to effect an electronic fund transfer. (August 16, 1954, ch. 736, 68A Stat. 775, as amended, 777, as amended, 391, as amended (26 U.S.C. 6301, 6311, 6302))

§ 24.276 Prepayment of tax; proprietor in default.

When the proprietor fails to forward a payment for wine excise tax due by presentment of a check or money order, or when the proprietor is otherwise in default of payment of the tax, no wine may be removed for consumption or sale until the tax has been paid for the period of the default and until the appropriate TTB officer finds the revenue will not be jeopardized by the late payment of the tax. Any remittance made during the period of the default will be in cash, or will be in the form of a certified, cashier's, or treasurer's check drawn on any financial institution incorporated under the laws of the United States, or under the laws of any State, Territory, or possession of the United States, or in the form of a money order, as provided in 27 CFR 70.61 (payment by check or money order) or in the form of an electronic

§ 24.277 Date of mailing or delivering of returns.

(a) When the proprietor sends the Excise Tax Return, TTB F 5000.24, with or without remittance, by United States mail, the official postmark of the United States Postal Service stamped on the cover of the envelope in which the return was mailed is considered the date of delivery of the tax return and, if accompanied, the date of delivery of the remittance. When the postmark on the cover is illegible, it is the proprietor's responsibility to prove when the postmark was made.

(b) When the proprietor sends the tax return by registered mail or by certified mail, the date of registry or the date of the postmark on the sender's receipt of certified mail, as the case may be, is treated at the date of delivery of the tax return and, if accompanied, the date of delivery of the remittance. § 24.278 Tax credit for certain small domestic producers.

(a) *General.* A person who produces not more than 250,000 gallons of wine during the calendar year may take a credit against any tax imposed by Title 26 of the United States Code (other than Chapters 2, 21, and 22), in an amount computed in accordance with paragraph (d) of this section, on the first 100,000 gallons of wine (other than champagne and other sparkling wine) removed during that year for consumption or sale. This credit applies only to wine that has been produced at a qualified bonded wine premises in the United States. The small domestic wine producer tax credit is available only to eligible proprietors engaged in the business of producing wine. A proprietor who has a basic permit to produce wine but does not produce wine during a calendar year may not take the small producer wine tax credit on wine removed during that calendar year. A proprietor who has obtained a new wine producer basic permit may not take the small producer wine tax credit on wine removed until the proprietor has produced wine. ''Production'' of wine includes those activities described in paragraph (e)(1) of this section.

(b) *Special rules relating to eligibility for wine credit*—(1) *Controlled groups.* For purposes of this section and § 24.279, the term ''person'' includes a controlled group of corporations, as defined in 26 U.S.C. 1563(a), except that the phrase ''more than 50 percent'' must be substituted for the phrase ''at least 80 percent'' wherever it appears. Also, the rules for a ''controlled group of corporations'' apply in a similar fashion to groups that include partnerships and/or sole proprietorships. Production and removals of all members of a controlled group are treated as if they were the production and removals of a single taxpayer for the purpose of determining what credit a person may use.

(2) *Credit for transferees in bond.* A person other than the eligible small producer (hereafter in this paragraph referred to as the ''transferee'') may take the credit under paragraph (a) of this section that would be allowed to that producer if the wine removed by the transferee had been removed by the producer on that date, under the following conditions:

(i) Wine produced by any person would be eligible for any credit under this section if removed by that person during the calendar year;

(ii) Wine produced by that person is removed during that calendar year by the transferee to whom that wine was transferred in bond and who is liable for the tax imposed by 26 U.S.C. 5041 with respect to that wine;

(iii) That producer holds title to that wine at the time of its removal and

provides to the transferee such information as is necessary to properly determine the transferee's credit under this paragraph; and

(iv) At the time of taxable removal, the producer provides to the transferee, in writing (each retaining a copy with the record of taxpaid removal from bond pursuant to § 24.310), the following information:

(A) The names of the producer and transferee;

(B) The quantity and tax class of the wines to be shipped;

(C) The date of removal from bond for consumption or sale;

(D) A confirmation that the producer is eligible for credit, with the credit rate to which the wines are entitled; and

(E) A confirmation that the subject shipment is within the first 100,000 gallons of eligible wine removed by (or on behalf of) the producer for the calendar year.

(c) *Time for determining and allowing credit.* The credit referred to in paragraph (a) of this section will be determined at the same time as the tax is determined under 26 U.S.C. 5041(a), and will be allowable at the time any tax described in paragraph (a) of this section is payable. The credit allowable by this section is treated as if it constitutes a reduction in the rate of the tax.

(d) *Computation of credit.* The credit which may be taken on the first 100,000 gallons of wine (other than champagne and other sparkling wine) removed for consumption or sale by an eligible person during a calendar year is computed as follows:

(1) For persons who produce 150,000 gallons or less of wine during the calendar year, the credit is $0.90 per gallon for wine ($0.056 for hard cider);

(2) For persons who produce more than 150,000 gallons but not more than 250,000 gallons during the calendar year, the credit is reduced by 1 percent for every 1,000 gallons produced in excess of 150,000 gallons. For example, the credit that would be taken by a person who produced 160,500 gallons of wine and hard cider during a calendar year would be reduced by 10 percent, for a net credit against the tax of $0.81 per gallon for wine or $0.0504 for hard cider, as long as the wine or hard cider was among the first 100,000 gallons removed for consumption or sale during the calendar year.

(e) *Definitions*—(1) *Production.* For purposes of determining if a person's production of wine is within the 250,000 gallon limit, production includes, in addition to wine produced by fermentation, any increase in the volume of wine due to the winery operations of amelioration, wine spirits addition, sweetening, or production of formula wine. Production of champagne and other sparkling wines is included for purposes of determining whether total production of a winery exceeds 250,000 gallons. Production includes all wine produced at qualified bonded wine premises within the United States and wine produced outside the United States by the same person.

(2) *Removals.* For purposes of determining if a person's removals are within the 100,000 gallon limit, removals include wine that the person removed from all qualified bonded wine premises within the United States. Wine removed by a transferee in bond under paragraph (b)(2) of this section must be counted against the 100,000 gallon limit of the small producer who owns that wine, and not against the limit of the transferee in bond if the transferee is also a small producer. Champagne and other sparkling wines, which are not eligible for credit, do not count as removals against the 100,000 gallon limit.

(f) *Preparation of tax return.* A person who is eligible for the credit must show the amount of wine tax before credit on the Excise Tax Return, TTB F 5000.24, and must enter the quantity of wine subject to the credit and the applicable credit rate as the explanation for an adjusting entry in Schedule B of the return for each tax period. Where a person does not use the credit authorized by this section to directly reduce the rate of Federal excise tax on wine, that person must report on TTB F 5000.24 where the credit will be, or has been, applied. Where a transferee in bond takes credit on behalf of one or more small producers, the transferee must show in Schedule B of the return the name of each producer, each producer's credit rate, and the total credit taken

on behalf of each producer during the tax return period.

(g) *Denial of deduction.* Pursuant to 26 U.S.C. 5041(c)(5), any deduction under 26 U.S.C. subtitle A with respect to any tax against which the credit is allowed under paragraph (a) of this section must only be for the amount of the tax as reduced by the credit.

(h) *Exception to credit.* The appropriate TTB officer will deny any tax credit taken under paragraph (a) of this section where it is determined that the allowance of the credit would benefit a person who would otherwise fail to qualify for the use of the credit.

§ 24.279 Tax adjustments related to wine credit.

(a) *Increasing adjustments.* Persons who produce more wine than the amount used in computation of the credit, or who lose eligibility by not producing during a calendar year, must make increasing tax adjustments. Where an increasing adjustment to a person's tax return is necessary as a result of an incorrect credit rate claimed pursuant to § 24.278, that person must make the adjustment on the Excise Tax Return, TTB F 5000.24, no later than the return period in which production (or the production of the controlled group of which the person is a member) exceeds the amount used in computation of the credit. If the adjustment is due to failure to produce, the person must make the adjustment no later than the last return period of the calendar year. The adjustment is the difference between the credit taken for prior return periods in that year and the appropriate credit for those return periods. The person must make tax adjustments for all bonded wine premises where excess credits were taken against tax that year, and must include interest payable. In the case of a person who continued to deduct credit after reaching the 100,000 gallon maximum during the calendar year, that person must make an adjustment in the full amount of excess credit taken and must include interest payable under 26 U.S.C. 6601 from the date on which the excess credit was taken. In addition, the person must include the penalty payable under 26 U.S.C. 6662 if the appropriate TTB officer determines that the underpayment was due to negligence or disregard of rules or regulations and advises the person to include the penalty as part of the adjustment. The appropriate TTB officer will provide information, when requested, regarding interest rates applicable to specific time periods and regarding any applicable penalties. In the case of a controlled group of bonded wine premises that took excess credits, all member proprietors who took incorrect credits must make tax adjustments as determined in this section. In the case of a small producer who instructed a transferee in bond to take credit as authorized by § 24.278(b)(2), and subsequently determines that the credit was less or not applicable, that producer must immediately inform the transferee in bond, in writing, of the correct credit information. The transferee must make any increasing adjustment on its next tax return based on revised credit information given by the producer or a TTB officer.

(b) *Decreasing adjustments.* Where a person fails to deduct the credit or deducts less than the appropriate credit provided for by § 24.278 during the calendar year, the person may file a claim for refund of excess tax paid. The claim must be filed in accordance with § 24.69. In the case of wine removed on behalf of a small producer by a transferee in bond, if the transferee in bond was instructed to deduct credit and failed to deduct credit or deducted less than the appropriate credit and was later reimbursed for the tax by that producer, the transferee may file the claim. The provisions of 26 U.S.C. 6423 and 27 CFR part 70, subpart F, will apply, and the producer and transferee in bond must show that the conditions of § 24.278(b)(2) were met.

The appropriate TTB officer may require any additional segregation and identification of taxpaid wine operations as deemed necessary to protect the revenue.

(b) *Treatment and blending.* Taxpaid wine may be treated with sulfur dioxide compounds, refrigeration or pasteurization and may also be preserved, filtered or clarified by the use of methods or materials which will not change the basic character of the wine. Water may not be added to taxpaid wine. The proprietor who desires to treat wine in any manner (other than by simple filtration or the use of sulfur compounds, refrigeration or pasteurization) shall first file with the appropriate TTB officer an application giving the details of the proposed treatment. The proprietor may not use the treatment prior to approval. The proprietor may incur civil or criminal liability for using an unauthorized treatment of untaxpaid wine. Wine of the same kind (class and type), national origin and tax class may only be mixed to facilitate handling at a taxpaid wine bottling house; otherwise, the blending of taxpaid wine on such premises is prohibited. Taxpaid wine of different national origins, but of the same kind and tax class, may only be

blended on taxpaid wine premises. (Sec. 201, Pub. L. 85–859, 72 Stat. 1407 (26 U.S.C. 5352, 5661))

Subpart O—Records and Reports

§ 24.300 General.

(a) *Records and reports.* A proprietor who conducts wine operations shall maintain wine transaction records and submit reports as required by this part. Transaction records may be recorded in wine gallons or in liters. However, required reports will show wine volumes in wine gallons. The equivalent wine gallons of wine bottled or packed and labeled according to metric measure will be determined using the following conversion factors:

(1) *Per case.* Equivalent gallonage may be determined using the following conversion factors for cases of metric bottles:

Bottles per case	Net content each bottle	Equivalent gallonage
120	50 mL	1.58502
60	100 mL	1.58502
48	187 mL	2.37119
24	375 mL	2.37753
12	750 mL	2.37753
12	1 liter	3.17004
6	1.5 liter	2.37753
4	3 liter	3.17004

(2) *Per liter.* Equivalent gallonage may be determined by multiplying total liters by a conversion factor of 0.26417 gallons per liter.

(b) *Time of making entries.* Any operation or transaction is to be entered in records or commercial papers at the time the operation or transaction occurs, except that where records are posted from source records or from supplemental auxiliary records prepared at the time the operation or transaction occurs, entries in another record may be deferred to not later than the close of business of the third business day succeeding the day on which the operation or transaction occurs. The proprietor shall retain all source records and all supplemental or auxiliary records which support entries in other records or commercial papers in order to facilitate verification of operations by appropriate TTB officers. Source records and supplemental or auxiliary records may be used as a record of an operation or transaction and to prepare the TTB F 5120.17, Report of Bonded Wine Premises Operations, provided the record will readily allow for verification of an operation or transaction by appropriate TTB officers.

(c) *Prescribed forms.* All reports required by this part must be submitted on forms prescribed by § 24.20. Entries will be made as indicated by the headings of the columns and lines, and as required by the instructions for the form. Report forms are furnished free of cost.

(d) *Period of retention.* All prescribed returns, reports and records (including source records) will be retained by the proprietor for a period of not less than three years from the record date or the date of the last entry required to be made in the record, whichever is later. However, the appropriate TTB officer may require records to be kept an additional period not exceeding three years in any case where retention is determined to be necessary.

(e) *Data processing.* (1) Notwithstanding any other provision of this section, data maintained on data processing equipment may be kept at a location other than the wine premises if the original operation or transaction source records required by this subpart are kept available for inspection at the wine premises.

(2) Data which has been accumulated on cards, tapes, discs, or other accepted recording media will be retrievable within five business days.

(3) The applicable data processing program will be made available for examination if requested by an appropriate TTB officer.

(f) *Photographic copies of records.* The proprietor may record, copy, or reproduce records required by this part and may use any process which accurately reproduces the original record and which forms a durable medium for reproducing and preserving the original

record. Whenever records are reproduced under this section, the reproduced records will be preserved in conveniently accessible files, and provisions will be made for examining, viewing and using the reproduced record the same as if it were the original record, and it will be treated and considered for all purposes as though it were the original record. All provisions of law and regulations applicable to the original are applicable to the reproduced record. As used in this paragraph, ''original record'' means the record required to be maintained or preserved by the proprietor, even though it may be an executed duplicate or other copy of the document.

(g) *TTB F 5120.17, Report of Bonded Wine Premises Operations.* A proprietor who conducts bonded wine premises operations must complete and submit TTB F 5120.17 in accordance with the instructions on the form.

(1) *Monthly report.* The proprietor must submit TTB F 5120.17 on a monthly basis, except as otherwise provided in paragraph (g)(2) or (g)(3) of this section.

(2) *Quarterly or annual report*—(i) *General.* A proprietor may file a completed TTB F 5120.17 on a quarterly or annual basis if the proprietor meets the criteria in paragraph (g)(2)(ii) or (g)(2)(iii) of this section. To begin the quarterly or annual filing of a report of bonded wine premises operations, a proprietor must state the intent to do so in the ''Remarks'' section when filing the prior month's TTB F 5120.17. A proprietor who is commencing operations during a calendar year and expects to meet these criteria may use a letter notice to the appropriate TTB officer and file TTB F 5120.17 quarterly or annually for the remaining portion of the calendar year. If a proprietor becomes ineligible for quarterly or annual filing by exceeding the applicable tax liability or activity limit, the proprietor must file TTB F 5120.17 for that month and for all subsequent months of the calendar year. If there is jeopardy to the revenue, the appropriate TTB officer may at any time require any proprietor otherwise eligible for quarterly or annual filing of a report of bonded wine premises operations to file such report monthly.

(ii) *Eligibility for quarterly report filing.* In order to be eligible to file TTB F 5120.17 on a quarterly basis, the proprietor must be filing quarterly tax returns under § 24.271, and the proprietor must not expect the sum of the bulk and bottled wine to be accounted for in all tax classes to exceed 60,000 gallons for any one quarter during the calendar year when adding up the bulk and bottled wine on hand at the beginning of the month, bulk wine produced by fermentation, sweetening, blending, amelioration or addition of wine spirits, bulk wine bottled, bulk and bottled wine received in bond, taxpaid wine returned to bond, bottled wine dumped to bulk, inventory gains, and any activity written in the untitled lines of the report form which increases the amount of wine to be accounted for.

(iii) *Eligibility for annual report filing.* In order to be eligible to file TTB F 5120.17 on an annual basis, the proprietor must be filing annual tax returns under § 24.273, and the proprietor must not expect the sum of the bulk and bottled wine to be accounted for in all tax classes to exceed 20,000 gallons for any one month during the calendar year when adding up the bulk and bottled wine on hand at the beginning of the month, bulk wine produced by fermentation, sweetening, blending, amelioration or addition of wine spirits, bulk wine bottled, bulk and bottled wine received in bond, taxpaid wine returned to bond, bottled wine dumped to bulk, inventory gains, and any activity written in the untitled lines of the report form which increases the amount of wine to be accounted for.

(3) *No reportable activity.* A proprietor who files a monthly TTB F 5120.17 and does not expect an inventory change or any reportable operations to be conducted in a subsequent month or months may attach to the filed TTB F 5120.17 a statement that, until a change

in the inventory or a reportable operation occurs, a TTB F 5120.17 will not be filed.

§ 24.304 Chaptalization (Brix adjustment) and amelioration record.

(a) *General.* A proprietor who chaptalizes juice or ameliorates juice or wine, or both, shall maintain a record of the operation and the transaction date. Records will be maintained for each kind of wine produced (grape, apple, strawberry, etc.). No form of record is prescribed, but the record maintained will contain the information necessary to enable appropriate TTB officers to readily determine compliance with chaptalization and amelioration limitations. All quantities will be recorded in wine gallons, and, where sugar is used, the quantity will be determined either by measuring the increase in volume or, for pure dry sugar by considering that each 13.5 pounds results in a volumetric increase of one gallon. If grape juice is chaptalized and subsequently this juice or wine is ameliorated, the quantity of pure dry sugar added to juice will be included as ameliorating material. If fruit juice other than grape is chaptalized and this juice or wine is ameliorated, the quantity of pure dry sugar added for chaptalization is not considered ameliorating material; however, if liquid sugar or invert sugar syrup is used, the quantity of water in such sugar is included as ameliorating material. The record will include the following:

(1) The volume of juice (exclusive of pulp) deposited in fermenters;

(2) The maximum volume of ameliorating material to which the juice is entitled, as provided in § 24.178;

(3) The volume of ameliorating or chaptalizing material used; and

(4) The volume of material authorized but not yet used.

(b) *Supporting records.* The amelioration record will show the basis for entries and calculations, including determination of the natural fixed acid level

and total solids content of juice, as applicable. The records are maintained on the basis of annual accounting periods, with each period commencing on July 1 of a year and ending on the following June 30, except the record for an accounting period may be continued after June 30, where the juice or wine included therein is to be held after that date for completion. When the amelioration of wine included in the record for one accounting period is complete, the record is closed and any unused ameliorating material may not be used. The proprietor may mix wines before amelioration of the wine is completed; however, the proprietor shall additionally maintain records necessary to establish the quantity of unused authorized material to which the resultant mixture would be entitled so that appropriate TTB officers may readily ascertain compliance with amelioration limitations. (c) If sugar or juice, or both, are used, the gallon equivalent that would be required to sweeten the volume of wine to its maximum authorized total solids content;

(d) The quantity of sugar or juice used for sweetening; and

(e) The gallons and degrees Brix of the wine produced by sweetening. (Sec. 201, Pub. L. 85–859, 72 Stat. 1381, as amended (26 U.S.C. 5367))

A proprietor who produces or receives wine containing excess water which will be used expressly as distilling material or vinegar stock shall maintain a record by transaction date showing the amount and kind produced, received, from whom received, removed, and to whom sent. The proprietor shall keep a record of each type of material from which the distilling material or vinegar stock was fermented (e.g., grape, apple, strawberry). The volume of distilling material or vinegar stock produced, including wine lees refermented for use as distilling material, will be recorded upon removal from fermenting tanks. However, the provisions of this section do not apply to standard wine or unwatered wine lees recorded on the proprietor's record of bulk still wine and removed for use as distilling material or vinegar stock. (a) Beer must be brewed from malt or from substitutes for malt. Only rice, grain of any kind, bran, glucose, sugar, and molasses are substitutes for malt.

In addition, you may also use the following materials as adjuncts in fermenting beer: honey, fruit, fruit juice, fruit concentrate, herbs, spices, and other food materials.

(b) You may use flavors and other nonbeverage ingredients containing alcohol in producing beer. Flavors and other nonbeverage ingredients containing alcohol may contribute no more than 49% of the overall alcohol content of the finished beer. For example, a finished beer that contains 5.0% alcohol by volume must derive a minimum of 2.55% alcohol by volume from the fermentation of ingredients at the brewery and may derive not more than 2.45% alcohol by volume from the addition of flavors and other nonbeverage ingredients containing alcohol. In the case of beer with an alcohol content of more than 6% by volume, no more than 1.5% of the volume of the beer may consist of alcohol derived from added flavors and other nonbeverage ingredients containing alcohol.

(1) Require the use of by-products or waste from the production of beer;

(2) Utilize buildings, rooms, areas, or equipment not fully employed in the production or packaging of beer;

(3) Are reasonably necessary to realize the maximum benefit from the premises and equipment and reduce the overhead of the brewery;

(3) Taxpaid beer may be stored in packages;

(4) Taxpaid beer may not be relabeled;

If the appropriate TTB officer finds that the operation of the tavern on brewery premises will not jeopardize the revenue or impede the effective administration of this part and is not contrary to specific provisions of law, the approval of the Brewer's Notice, Form 5130.10 shall constitute approval of the alternate use of brewery premises, in lieu of the application required by § 25.23. The taxes shall be determined prior to the time that the beer is dispensed into a container for consumption.

(2) If the brewer uses one or more tanks for tax determination, the following procedures shall apply:

(i) Each such tank shall be durably marked with the words ''tax-determination tank'';

(ii) The taxes shall be determined each time beer is added to a tax-determination tank; and

(iii) The brewer may never simultaneously pump into and out of a tax-determination tank.

(3) A brewer qualified under this section may store, on brewery premises, tax-determined beer which is intended for sale at a tavern operated on brewery premises, in accordance with this section. The prohibition of § 25.24 shall not apply to such tax-determined beer.

(4) Beer consumed by employees and visitors in the brewery's tavern shall be beer on which the tax has been paid or determined.

The application will describe the proposed variation and state the need for it. The brewer shall submit drawings or photographs if necessary to describe the proposed variation.

(3) *Approval by appropriate TTB officer.* The appropriate TTB officer may approve the use of an alternate method or procedure if:

§ 25.53 Submissions of samples of fermented products.

The appropriate TTB officer may, at any time, require you to submit samples of:

(a) Cereal beverage, saké, or any fermented product produced at the brewery,

(b) Materials used in the production of cereal beverage, saké, or any fermented product; and

(c) Cereal beverage, saké, or any fermented product, in conjunction with the filing of a formula.

(26 U.S.C. 5415, 5555, 7805(a))

FORMULAS

§ 25.55 Formulas for fermented products.

(a) *For what fermented products must a formula be filed?* You must file a formula for approval by TTB if you intend to produce:

(1) Any fermented product that will be treated by any processing, filtration, or other method of manufacture that is not generally recognized as a traditional process in the production of a fermented beverage designated as ''beer,'' ''ale,'' ''porter,'' ''stout,'' ''lager,'' or ''malt liquor.'' For purposes of this paragraph:

(i) Removal of any volume of water from beer, filtration of beer to substantially change the color, flavor, or character, separation of beer into different components, reverse osmosis, concentration of beer, and ion exchange treatments are examples of non-traditional processes for which you must file a formula.

(ii) Pasteurization, filtration prior to bottling, filtration in lieu of pasteurization, centrifuging for clarity, lagering, carbonation, and blending are examples of traditional processes for which you do not need to file a formula.

(iii) If you have questions about whether or not use of a particular process not listed in this section requires the filing of a formula, you may request a determination from TTB in accordance with paragraph (f) of this section.

(2) Any fermented product to which flavors or other nonbeverage ingredients (other than hop extract) containing alcohol will be added.

(3) Subject to paragraph (f) of this section, any fermented product to which coloring or natural or artificial flavors will be added.

(4) Subject to paragraph (f) of this section, any fermented product to which fruit, fruit juice, fruit concentrate, herbs, spices, honey, maple syrup, or other food materials will be added.

(5) Saké, including flavored saké and sparkling saké.

(b) *Are separate formulas required for different products?* (1) You must file a separate formula for approval for each different fermented product for which a formula is required.

(2) You may file a formula for a beer base to be used in the production of one or more other fermented products. The beer base must conform to the standards set forth in § 25.15.

(c) *When must I file a formula?* (1) Except as provided in paragraph (c)(2) of this section, you may not produce a fermented product for which a formula is required until you have filed and received approval of a formula for that product.

(2) You may, for research and development purposes (including consumer taste testing), produce a fermented product without an approved formula, but you may not sell or market this product until you receive approval of the formula for it.

(d) *How long is my formula approval valid?* Your formula approved under this section remains in effect until: you supersede it with a new formula; you voluntarily surrender the formula; TTB cancels or revokes the formula; or the formula is revoked by operation of law or regulation.

(e) *Are my previously approved statements of process valid?* Your statements of process approved before January 3, 2006 are considered approved formulas under this section, provided that any finished product that could be made under the statement of process would be in compliance with the provisions of this part. You do not need to submit a formula for approval if a statement of process that remains valid covers the product.

(f) *Determinations by TTB regarding specific processes and ingredients.* (1) The appropriate TTB officer may determine whether or not use of a process not listed in paragraph (a)(1) of this section requires you to file a formula for approval. The appropriate TTB officer may also exempt the use of a particular coloring, flavoring, or food material from the formula filing requirement of paragraph (a)(3) or paragraph (a)(4) of this section upon a finding that the coloring, flavoring, or food material in question is generally recognized as a traditional ingredient in the production of a fermented beverage designated as ''beer,'' ''ale,'' ''porter,'' ''stout,'' ''lager,'' or ''malt liquor.''

(2) You may request a determination from TTB on whether or not the use of a process not listed in paragraph (a)(1) of this section will require the filing of a formula or whether the use of a particular coloring, flavoring or food material may be exempted from the formula filing requirement of paragraph (a)(3) or paragraph (a)(4) of this section. You should mail your request to the Assistant Chief, Advertising, Labeling and Formulation Division, Alcohol and Tobacco Tax and Trade Bureau, 1310 G Street, NW., Washington, DC 20220.

(i) When requesting a determination as to whether a process is subject to the formula filing and approval requirement, the request must include:

(A) A detailed description of the proposed process;

(B) Evidence establishing that the proposed process is generally recognized as a traditional process in the production of a fermented beverage designated as ''beer,'' ''ale,'' ''porter,'' ''stout,'' ''lager,'' or ''malt liquor''; and

(C) An explanation of the effect of the proposed process on the production of a fermented product.

(ii) When requesting an exemption from the formula filing requirement in paragraph (a)(3) or paragraph (a)(4) of this section regarding coloring, flavoring, or food material ingredients, the request must include the following information:

(A) A description of the proposed ingredient;

(B) Evidence establishing that the proposed ingredient is generally recognized as a traditional ingredient in the production of a fermented beverage designated as ''beer,'' ''ale,'' ''porter,'' ''stout,'' ''lager,'' or ''malt liquor''; and

(C) An explanation of the effect of the proposed ingredient in the production of a fermented product.

§ 25.56 Filing of formulas.

(a) *What are the general requirements for filing a formula?* (1) You must file your formula in writing. Your formula must identify each brewery where the formula applies by including each brewery name, address, and registry number.

(2) You must serially number each formula, commencing with ''1'' and continuing in numerical sequence.

(3) You must date and sign each formula.

(4) You must file two copies of each formula with TTB.

(b) *Where do I file a formula?* File your formula with the Assistant Chief, Advertising, Labeling and Formulation Division, Alcohol and Tobacco Tax and Trade Bureau, 1310 G Street, NW., Washington, DC 20220.

(26 U.S.C. 5401, 7805)

§ 25.57 Formula information.

(a) *Ingredient information.* (1) For each formula you must list each separate ingredient and the specific quantity used, or a range of quantities used. You may include optional ingredients in a formula if they do not impact the labeling or identity of the finished product.

(2) For fermented products containing flavorings you must list for each formula: The name of the flavor; the product number or TTB drawback number and approval date of the flavor; the name and location (city and State) of the flavor manufacturer; the alcohol content of the flavor; and the point of production at which the flavor was added (that is, before, during, or after fermentation).

(3) For formulas that include the use of flavors and other nonbeverage ingredients containing alcohol, you must explicitly indicate:

(i) The volume and alcohol content of the beer base;

(ii) The maximum volumes of the flavors and other nonbeverage ingredients containing alcohol to be used;

(iii) The alcoholic strength of the flavors and other nonbeverage ingredients containing alcohol;

(iv) The overall alcohol contribution to the finished product provided by the addition of any flavors or other nonbeverage ingredients containing alcohol. You are not required to list the alcohol contribution of individual flavors and other nonbeverage ingredients containing alcohol. You may state the total alcohol contribution from these ingredients to the finished product; and

(v) The final volume and alcohol content of the finished product.

(b) *Process information.* For each formula you must describe in detail each process used to produce a fermented beverage.

(c) *Alcohol content.* For each formula you must state the alcohol content of the fermented product after fermentation and the alcohol content of the finished product.

(d) *Beer base formulas.* You must refer in your formula to any approved formula number that covers the production of any beer base used in producing the formula product. If the beer base was produced by another brewery of the same ownership, you must also provide the name and address or name and registry number of that brewery.

(e) *Additional information.* The appropriate TTB officer may at any time require you to file additional information concerning a fermented product, ingredients, or processes, in order to determine whether a formula should be approved or disapproved or whether the approval of a formula should be continued.

§ 25.58 New and superseding formulas.

(a) *New formulas.* Except as otherwise provided in paragraph (b) of this section, you must file a new formula (with a new formula number) for approval by TTB if you—

(1) Create an entirely new fermented product that requires a formula;

(2) Add new ingredients to an existing formulation;

(3) Delete ingredients from an existing formulation;

(4) Change the quantity of an ingredient used from the quantity or range of usage in an approved formula;

(5) Change an approved processing, filtration, or other special method of manufacture that requires the filing of a formula; or

(6) Change the contribution of alcohol from flavors or ingredients that contain alcohol.

(b) *Superseding formulas.* You may file a superseding formula, instead of a new formula, if you have made any change listed in paragraphs (a)(2) through (a)(6) of this section and that change is not of a type that would require a holder of a certificate of label approval to file a new application for label approval on TTB Form 5100.31.

(1) A superseding formula replaces an existing formula, and you should file one only if you do not intend to use the existing formula any more. A superseding formula must be filed with TTB for approval. When TTB approves a superseding formula, TTB will cancel your previous formula.

(2) You may use the same formula number for a superseding formula that you used for the formula the superseding formula replaces, but you must

annotate the formula number to indicate it is a superseding formula number. (For example, ''Formula 2, superseding.'')

(c) When you file a new or superseding formula with TTB, you must follow the procedures and other requirements of §§ 25.56 and 25.57.

(b) *Conditions of the bond.* The Brewer's Bond, Form 5130.22, will be conditioned upon the brewer faithfully complying with all provisions of law and regulations relating to the activities covered by the bond, and upon paying all taxes imposed by 26 U.S.C. Chapter 51 and all interest and penalties incurred or fines imposed for violations of those provisions.

(c) *Additional information.* The appropriate TTB officer shall require, in connection with any brewer's bond, a statement executed under the penalties of perjury, as to whether the principal or any person owning, controlling, or actively participating in the management of the business of the principal has been convicted of or has compromised any offense set forth in § 25.101(a)(1), or has been convicted of any offense set forth in § 25.101(a)(2). (i) Removed for transfer to the brewery from other breweries owned by the same brewer;

(ii) Removed without payment of tax for export or for use as supplies on vessels and aircraft;

(iii) Removed without payment of tax for use in research, development, or testing; and

(i) Removed for transfer to the brewery from other breweries owned by the same brewer;

(ii) Removed without payment of tax for export or for use as supplies on vessels and aircraft;

(iii) Removed without payment of tax for use in research, development, or testing; and

(iv) Removed for consumption or sale.

(b) *Concentrate.* A brewer who concentrates beer under subpart R of this part shall calculate the penal sum of the bond by computing 10 percent of the amount of tax at the rates prescribed by law, on the maximum quantity of beer used in the production of concentrate during a calendar year. The brewer shall add this amount to the penal sum calculated under paragraph (a) of this section to determine the total penal sum of the brewer's bond.

(c) *Maximum and minimum penal sums.* The maximum penal sum of the bond (or total penal sum if original and strengthening bonds are filed) is not to exceed $150,000 when the tax on beer is to be prepaid, or $500,000 when the tax is to be deferred as provided in § 25.164. Executors, administrators, assignees, receivers, trustees, or other persons acting in a fiduciary capacity shall execute a new bond or obtain a consent of surety on all bonds in effect. When the interests of the Government so demand, or in any case when the security of the bond becomes impaired for any reason, the principal will be required to give a new bond. When a bond is found to be not acceptable by the appropriate TTB officer, the principal will be required immediately to obtain a new and satisfactory bond or discontinue business.

Superseding bonds will show the current date of execution and their effective date.

§ 25.97 Continuation certificate.

If the contract of surety between the brewer and the surety on an expiring bond or continuation certificate is continued in force for a succeeding period of not less than 4 years from the expiration date of the bond or continuation certificate, the brewer may submit, in lieu of a new bond, a Brewer's Bond Continuation Certificate on Form 5130.23, executed under the penalties of perjury, by the brewer and the surety attesting to continuation of the bond. Each continuation certificate will constitute a bond and all provisions of law and regulations applicable to bonds on Form 5130.22 given under this part, including the disapproval of bonds, are applicable to continuation certificates.

(Sec. 201, Pub. L. 85–859, 72 Stat. 1388, as amended (26 U.S.C. 5401))

§ 25.98 Surety or security.

(a) *Bond coverage.* Bonds required by this part will be given with corporate surety or collateral security.

(b) *Corporate surety.* Surety bonds may be given only with surety companies holding certificates of authority from the Secretary as acceptable sureties on Federal bonds, subject to the limitations set forth in the current revision of Treasury Department Circular No. 570, Companies Holding Certificates of Authority as Acceptable Reinsuring Companies.

(c) *Revisions of Circular No. 570.* Treasury Department Circular No. 570 is published in the FEDERAL REGISTER annually as of the first workday in July. As they occur, interim revisions of the circular are published in the FEDERAL REGISTER. Copies may be obtained from the Surety Bond Branch, Financial Management Service, Department of the Treasury, Washington, DC 20226.

(d) *More than one corporate surety.* A bond may be executed by two or more corporate sureties. Each corporate surety may limit its liability in terms on the face of the bond in a specified amount. This amount may not exceed the limitations set forth for corporate security by the Secretary which are set forth in the current revision of Treasury Department Circular No. 570. The sum of the liabilities for the sureties will equal the required penal sum of the bond.

(e) *Deposit of collateral securities in lieu of corporate surety.* Bonds or notes of the United States, or other obligations which are unconditionally guaranteed as to both interest and principal by the United States, may be pledged and deposited by principals as collateral security in lieu of corporate surety in accordance with 31 CFR Part 225.

(96 Stat. 1068, 1085 (31 U.S.C. 9304–9308); sec. 201, Pub. L. 85–859, 72 Stat. 1388, as amended (26 U.S.C. 5401))

§ 25.99 Filing powers of attorney.

Each bond, continuation certificate, and each consent of surety will be accompanied by a power of attorney authorizing the agent or officer to execute the document. The power of attorney will be prepared on a form provided by the surety company and executed under the corporate seal of the company. If the power of attorney submitted is other than a manually signed original, it will be accompanied by a certificate of its validity.

Disapproval or Termination of Bonds or Consents of Surety

§ 25.101 Disapproval of bonds or consents of surety.

(a) *Reasons for disapproval.* The appropriate TTB officer may disapprove a bond or consent of surety if the individual, firm, partnership, corporation, or association giving the bond or consent of surety, or if any of the above entities owning, controlling or actively participating in the management of a business giving a bond as a brewer, has been previously convicted in a court of competent jurisdiction of:

(1) Any fraudulent noncompliance with any provision of law of the United States if it related to internal revenue or customs taxation of distilled spirits, wines or beer, or if the offense shall have been compromised with the individual, firm, partnership, corporation, or association on payment of penalties or otherwise; or

(2) Any felony under a law of any State or the District of Columbia, or the United States, prohibiting the manufacture, sale, importation, or transportation of distilled spirits, wines, beer, or other intoxicating liquor.

(b) *Appeal of disapproval.* If the bond or consent of surety is disapproved, the person giving the bond or consent of surety may appeal the disapproval to the appropriate TTB officer, who will grant a hearing in the matter if requested by the applicant or brewer, and whose decision will be final.

The liability of a surety on a bond required by this part will be terminated only as to liability arising on or after: (a) the effective date of a superseding bond; (b) the date of approval of the discontinuance of business of the brewer; or (c) following the giving of notice by the surety as provided in § 25.103.

(Sec. 201, Pub. L. 85–859, 72 Stat. 1388, as amended (26 U.S.C. 5401))

§ 25.103 Notice by surety for relief from liability under bond.

A surety may, at any time, in writing, notify the principal and the appropriate TTB officer that the surety desires after a specified date (not less than 60 days after the date of service on the principal) to be relieved of any liability under the bond which is incurred by the principal after the date named in the notice. The surety shall include proof of service of the notice on the principal with the notice filed with the appropriate TTB officer. The notice will become effective on the date named, unless the surety withdraws the notice, in writing. The surety on the bond remains liable under the bond with respect to any liability incurred by the principal while the bond is in effect.

(Sec. 201, Pub. L. 85–859, 72 Stat. 1388, as amended (26 U.S.C. 5401))

§ 25.104 Termination of bonds.

Brewer's bonds may be terminated as to liability for future removals or receipts (a) pursuant to application of the surety as provided in § 25.103, (b) on approval of a superseding bond, or (c) on notification by the principal that the business has been discontinued. § 25.105 Release of collateral security.

Bonds, notes, and other obligations of the United States, pledged and deposited as security in connection with bonds required by this part will be released in accordance with 31 CFR Part 225. When the appropriate TTB officer determines there is no outstanding liability against the bond and that it is no longer necessary to hold the security, he or she shall fix the date or dates on which a part or all of the security will be released. At any time prior to the release of the security, the appropriate TTB officer may, for proper cause, extend the date of release of the security for an additional length of time as may be appropriate.

Subpart I—Dealer Registration and Recordkeeping

SOURCE: T.D. TTB–79, 74 FR 37404, July 28, 2009, unless otherwise noted.

§ 25.111 Definitions.

For purposes of this subpart, the following terms have the meanings indicated:

Dealer. A person who sells, or offers for sale, any alcohol product (distilled spirits, wines, and/or beer) fit for beverage use.

Retail dealer in liquors. A dealer who sells, or offers for sale, distilled spirits, wines, or beer to any person other than a dealer.

Wholesale dealer in liquors. A dealer who sells, or offers for sale, distilled spirits, wines, or beer to another dealer.

(26 U.S.C. 5121, 5122)

§ 25.112 Dealer registration.

Every brewer who sells, or offers for sale, any alcohol product (distilled spirits, wines, or beer) fit for beverage use must register as a dealer in accordance with part 31 of this chapter. However, the Brewer's Notice, TTB Form 5130.10, filed under subpart G of this part, and approval of that notice by the appropriate TTB officer, will constitute the brewer's registration as a dealer at the brewery. Every brewer registered as a dealer under this subpart will be classified as a wholesale dealer in liquors (see § 31.32 of this chapter) and as such may also operate as a retail dealer in liquors without additional registration. Registration covers all sales from the same location, including sales of wine, spirits, or other brewers' beer. As provided in § 31.52 of this chapter, the brewer is subject to no additional registration for making sales of wine or beer at the customer's place of business. Otherwise, a brewer who conducts business as a dealer at a location other than the brewery must register and keep records in accordance with part 31 of this chapter.

(26 U.S.C. 5124)

§ 25.113 Amending the dealer registration.

Every brewer registered as a dealer under this subpart must maintain a current and accurate Brewer's Notice, TTB Form 5130.10. Whenever there is a change to any of the information provided in the approved Brewer's Notice, the brewer must amend the notice within the time period specified in subpart G of this part. An amendment to the Brewer's Notice, Form 5130.10, will also serve as an amendment of the brewer's dealer registration under this subpart. The brewer's dealer registration will also terminate when brewery operations under the Brewer's Notice terminate.

(26 U.S.C. 5124)

§ 25.114 Dealer records.

Every dealer is required to maintain records of transactions. Beer transactions that appear in the records required by subpart U of this part will meet the brewer's recordkeeping requirements as a dealer. For other transactions not covered in the brewery records, such as retail sales of wine or distilled spirits in a restaurant at the brewery, or operations as a wholesale dealer in wine or distilled spirits, the brewer must keep the records specified for dealers in part 31 of this chapter.

(26 U.S.C. 5121, 5122)

Subpart J—Marks, Brands, and Labels

§ 25.141 Barrels and kegs.

(a) *General requirements.* The brewer's name or trade name and the place of production (city and, if necessary for identification, State) shall be permanently marked on each barrel or keg. If the place of production is clearly shown on the bung or on the tap cover, or on a label securely affixed to each barrel or keg, the place of production need not be permanently marked on each barrel or keg. No statement as to payment of internal revenue taxes may be shown.

(b) *Breweries of same ownership.* (1) If two or more breweries are owned or operated by the same person, firm, or corporation (as defined in § 25.181), the place of production:

(i) May be shown as the only location on the bung, or on the tap cover, or on a separate label attached to the keg;

(ii) May be included in a listing of the locations of breweries qualified under this part if the place of production is not given less emphasis than any of the other locations; or

(iii) Need not be shown if the brewer's principal place of business is shown in lieu of any other location. The brewer's principal place of business will be the location of a brewery operated by the brewer and qualified under this part.

(2) If the location of two or more breweries is shown on the keg, bung, tap cover, or on a separate label attached to the keg (paragraph (b)(1)(ii)), or if the brewer's principal place of business is shown in lieu of the actual place of production (paragraph (b)(1)(iii)), the brewer shall indicate the actual place of production by printing, coding or other markings on the keg, bung, tap cover, or on a separate label attached to the keg. The coding system employed will permit an appropriate TTB officer to determine the place of production (including street address if two or more breweries are located in the same city) of the beer. The brewer must notify the appropriate TTB officer prior to employing a coding system.

(c) *Label approval required.* Labels or tap covers used by brewers shall be covered by certificates of label approval, Form 5100.31, when required by part 7 of this chapter.

§ 25.142 Bottles.

(a) *Label requirements.* Each bottle of beer shall show by label or otherwise the name or trade name of the brewer, the net contents of the bottle, the nature of the product such as beer, ale, porter, stout, etc., and the place of production (city and, when necessary for identification, State). No statement as to payment of internal revenue taxes may be shown.

(b) *Breweries of same ownership.* (1) If two or more breweries are owned or operated by the same person, firm, or corporation (as defined in § 25.181), the place of production:

(i) May be shown as the only location on the label;

(ii) May be included in a listing of the locations of breweries qualified under this part if the place of production is not given less emphasis than any of the other locations; or

(iii) Need not be shown if the brewer's principal place of business is shown in lieu of any other location. The brewer's principal place of business will be the location of a brewery operated by the brewer and qualified under this part.

(2) If the location of two or more breweries is shown on the label (paragraph (b)(1)(ii)), or if the brewer's principal place of business is shown on the label in lieu of the actual place of production (paragraph (b)(1)(iii)), the brewer shall indicate the actual place of production by printing, coding or other markings on the label, bottle, crown or lid. The coding system employed will permit an appropriate TTB officer to determine the place of production (including street address if two or more breweries are located in the same city) of the beer. The brewer must notify the appropriate TTB offcer prior to employing a coding system.

(c) *Distinctive names.* If the brewer's name, trade name or brand name includes the name of a city which is not the place where the beer was produced, the appropriate TTB officer may require the brewer to state the actual place of production on the label.

(d) *Tolerances.* The statement of net contents shall indicate exactly the volume of beer within the bottle except for variations in measuring as may occur in filling conducted in compliance with good commercial practice. The barrel equivalent of bottles filled during a consecutive three month period, calculated on the basis of the brewer's fill test records, may not vary more than 0.5 percent from the barrel equivalent of bottles filled during the same period, calculated on the basis of the stated net contents of the bottles. The brewer is liable for the tax on the entire amount of beer removed, without benefit of tolerance, when the fill of bottles and cans exceeds the tolerance for the three month period, or when filling is not conducted in compliance with good commercial practice.

(e) *Label approval required.* Labels used by brewers shall be covered by certificates of label approval, Form 5100.31, when required by part 7 of this chapter.

(f) *Short-fill bottles.* A brewer may dispose of taxpaid short-fill bottles of beer to employees for their use but not for resale. These bottles need not be labeled, but if labeled they need not show an accurate statement of net contents.

§ 25.143 Cases.

(a) *Brewer's name.* The brewer's name or trade name will be shown on each case or other shipping container of bottled beer. A brewer may use unmarked cases to hold:

(1) Cartons of beer, if the visible portion of the cartons shows the required name; or

(2) Bottles or cans with plastic carriers, if the visible portion of the bottles or cans shows the required name.

(b) *Other information.* The brewer may show on a case or shipping container the place of production (city and, when necessary for identification, State), and the addresses of other breweries owned by the same person, firm, or corporation (as defined in § 25.181). § 25.144 Rebranding barrels and kegs.

(a) A brewer may not use a barrel or keg which bears the name of more than one brewer, and except as provided in § 25.231, may not use a barrel or keg bearing the name of a brewer other than the producing brewer.

(b) A brewer who purchases or otherwise obtains barrels or kegs from another brewer shall permanently remove or durably cover the original marks and brands after notifying the appropriate TTB officer of the proposed action. A brewer may use the barrels or kegs obtained without removing or covering the original marks and brands if the brewer:

(1) Adopts a trade name substantially identical to the name appearing on the barrels or kegs; or

(2) Succeeds to a brewer who has discontinued business, in which case the brewer may add marks or brands, in accordance with § 25.141, which indicate ownership.

(b) of this section. These marks may be placed on a label securely affixed to the route board of the container.

(b) The brewer shall mark each container with—

(1) The designation ''Beer'';

(2) The brewer's name;

Subpart K—Tax on Beer

LIABILITY FOR TAX

§ 25.151 Rate of tax.

All beer, brewed or produced, and removed for consumption or sale, is subject to the tax prescribed by 26 U.S.C. 5051, for every barrel containing not more than 31 gallons, and at a like rate for any other quantity or for the fractional parts of a barrel as authorized in § 25.156.

(Sec. 201, Pub. L. 85–859, 72 Stat. 1333, as amended (26 U.S.C. 5051, 5052))

§ 25.152 Reduced rate of tax for certain brewers.

(a) *General.* Section 5051(a)(2) of Title 26 U.S.C. provides for a reduced rate of tax on the first 60,000 barrels of beer removed for consumption or sale by a brewer during a calendar year. To be eligible to pay the reduced rate of tax, a brewer:

(1) Shall brew or produce the beer at a qualified brewery in the United States;

(2) May not produce more than 2,000,000 barrels of beer per calendar year; and

(3) May not be a member of a ''controlled group'' of brewers whose members together produce more than 2,000,000 barrels of beer per calendar year.

The appropriate TTB officer shall deny use of the reduced rate of tax provided by 26 U.S.C. 5051(a)(2) where it is determined that the allowance of such a reduced rate would benefit a person who would otherwise fail to qualify for use of such rate.

(b) *Definitions.* For the purpose of determining eligibility for payment of the reduced rate of tax on beer, terms have the following meanings:

(1) *Controlled group.* A related group of brewers as defined in 26 U.S.C. 5051(a)(2)(B). Controlled groups include, but are not limited to:

(i) Parent-subsidiary controlled groups as defined in 26 CFR 1.1563–1(a)(2);

(ii) Brother-sister controlled groups as defined in 26 CFR 1.1563–1(a)(3); and

(iii) Combined groups as defined in 26 CFR 1.1563–1(a)(4). Stock ownership in a corporation need not be direct and 51% constructive ownership, defined in 26 CFR 1.1563–3, may be acquired through:

(A) An option to purchase stock;

(B) Attribution from partnerships;

(C) Attribution from estate or trusts;

(D) Attribution from corporations; or

(E) Ownership by spouses, children, grandchildren, parents, and grandparents.

(2) *Production of beer.* The production of beer as recorded in the brewer's daily records and reported in the Brewer's Report of Operations, Form 5130.9. For the purpose of determining compliance with the 2,000,000 barrel limitation, production of beer by a brewer or a controlled group of brewers includes both beer produced at qualified breweries within the United States and beer produced outside the United States.

(c) *Brewers operating more than one brewery.* Brewers who operate more than one brewery shall include the combined production of beer at all their breweries when determining eligibility under the 2,000,000 barrel limitation. The reduced rate of tax applies to the first 60,000 barrels of beer removed for consumption or sale in a calendar year by the brewer; the brewer shall apportion the 60,000 barrels among the breweries in the manner described in the notice as provided by § 25.167(b)(3).

(d) *Controlled groups of brewers.* Members of a controlled group of brewers

shall include the combined production of beer by all member brewers when determining eligibility under the 2,000,000 limitation. The reduced rate of tax applies to the first 60,000 barrels of beer removed for consumption or sale in a calendar year by the controlled group of brewers; the controlled group of brewers shall apportion the 60,000 barrels among member brewers in the manner described in each brewer's notice as provided by § 25.167(b)(3).

(Sec. 201, Pub. L. 85–859, 72 Stat. 1333, as amended (26 U.S.C. 5052))

[T.D. ATD–224, 51 FR 7673, Mar. 5, 1986, as amended by T.D. ATF–307, 55 FR 52738, Dec. 21, 1990; T.D. ATF–345, 58 FR 40357, July 28, 1993]

§ 25.153 Persons liable for tax.

The tax imposed by law on beer (including beer purchased or procured by one brewer from another) shall be paid by the brewer of the beer at the brewery where produced. The tax on beer transferred to a brewery from other breweries owned by the same brewer in accordance with subpart L of this part shall be paid by the brewer at the brewery from which the beer is removed for consumption or sale.

(Sec. 201, Pub. L. 85–859, 72 Stat. 1334, as amended, 1389, as amended (26 U.S.C. 5054, 5413, 5414))

DETERMINATION OF TAX

§ 25.155 Types of containers.

Beer may be removed from a brewery for consumption or sale only in barrels, kegs, bottles, and similar containers, as provided in this part. A container which the appropriate TTB officer determines to be similar to a bottle or can will be treated as a bottle for purposes of this part. A container which the appropriate TTB officer determines to be similar to a barrel or keg and which conforms to one of the sizes prescribed for barrels or kegs in § 25.156 will be treated as such for purposes of this part.

(Sec. 201, Pub. L. 85–859, 72 Stat. 1389, as amended, 1390, as amended (26 U.S.C. 5412, 5416))

§ 25.156 Determination of tax on keg beer.

(a) In determining the tax on beer removed in kegs, a barrel is regarded as a quantity of not more than 31 gallons. The authorized fractional parts of a barrel are whole barrels, halves, thirds, quarters, sixths, and eighths, and beer may be removed in kegs rated at those capacities. The following keg sizes are also authorized at the stated barrel equivalents:

Size of keg	Barrel equivalent
5 gallons	0.16129
30 liter	0.25565
50 liter	0.42608

(b) If any barrel or authorized size keg contains a quantity of beer more than 2 percent in excess of its rated capacity, tax will be determined and paid on the actual quantity of beer (without benefit of any tolerance) contained in the keg.

(c) The quantities of keg beer removed subject to tax will be computed to 5 decimal places. The sum of the quantities computed for any one day will be rounded to 2 decimal places and the tax will be calculated and paid on the rounded sum.

§ 25.159 Time of tax determination and payment; offsets.

(a) *Time and payment.* The tax on beer will be determined at the time of its removal for consumption or sale, and will be paid by return as provided in this part.

(b) *Offsets.* During any business day, the quantity of beer returned to the same brewery from which removed is to be taken as an offset against or deducted from the total quantity of beer removed for consumption or sale from that brewery on the day that the beer is returned.

(c) *Offsets not allowed.* An offset or deduction for returned beer will not be allowed if:

(1) The brewer was indemnified by insurance or otherwise in respect of the tax; or

(2) The brewer does not issue credit to the customer for the tax on the returned beer within 30 days of the return of the beer. If the tax is not timely credited after the offset or deduction is taken, the brewer shall make an increasing adjustment on the next tax return.

(Sec. 201, Pub. L. 85–859, 72 Stat. 1334, as amended, 1335, as amended (26 U.S.C. 5054, 5056, 5061))

§ 25.160 Tax adjustment for brewers who produce more than 2,000,000 barrels of beer.

Each brewer who has paid tax on beer by return, Form 5000.24, at the reduced rate of tax during a calendar year, but whose production (or the production of a controlled group of brewers of which the brewer is a member) exceeds 2,000.000 barrels of beer in that calendar year, is no longer eligible to pay tax on beer at the reduced rate of tax for any beer removed that calendar year for comsumption or sale. The brewer shall make a tax adjustment for the payment of additional tax no later than the return period in which production (or the production of a controlled group of brewers of which the brewer is a member) exceeds 2,000,000 barrels of beer. The adjustment will be determined by multiplying the difference between the higher and lower rates of tax applicable to beer by the number of barrels removed by the brewer that year at the reduced rate of tax. The

brewer shall make tax adjustments for all breweries where tax was paid at the lower rate that year, and shall include interest payable from the date on which tax was paid at the lower rate. In the case of a controlled group of brewers whose production exceeds 2,000,000 barrels of beer, all member brewers who paid tax at the lower rate shall make tax adjustments as determined in this section.

(Sec. 201, Pub. L. 85–859, 72 Stat. 1333, as amended (26 U.S.C. 5051))

PREPARATION AND REMITTANCE OF TAX RETURNS

§ 25.163 Method of tax payment.

A brewer shall pay the tax on beer by return on TTB F 5000.24, as provided in §§ 25.164, 25.164a, 25.173, and 25.175. The brewer shall pay the tax by remittance at the time the tax return is rendered, and the remittance will be by check or money order payable to the ''Bureau of Alcohol, Tobacco and Firearms'' and mailed with the return, or will be effected by an electronic fund transfer. In paying the tax, a fractional part of a cent will be disregarded unless it amounts to one-half cent or more, in which case it will be increased to one cent.

EFFECTIVE DATE NOTE: By T.D. TTB–891, 76 FR 3511, Jan. 20, 2011, § 25.163 was amended by revising the first sentence, effective Feb. 22, 2011 to Feb. 24, 2014.

§ 25.164 Quarterly and semimonthly returns.

(a) *Requirement for filing.* Each brewer shall pay the tax on beer (unless prepaid) by return on Form 5000.24. The brewer shall file Form 5000.24 as a return regardless of whether tax has been prepaid as provided in § 25.175 during the return period. The brewer shall file a return on Form 5000.24 for each return period even though no beer was removed for consumption or sale.

(b) *Payment of tax.* The brewer shall include for payment with the return the full amount of tax required to be determined (and which has not been prepaid) on all beer removed for consumption or sale during the period covered by the return.

(c) *Return periods*—(1) *Semimonthly return period.* Except in the case of a taxpayer who qualifies for, and chooses to use, quarterly return periods as provided in paragraph (c)(2) of this section, all taxpayers must use semimonthly return periods for deferred payment of tax. The semimonthly return periods run from the brewer's business day beginning on the first day of each month through the brewer's business day beginning on the 15th day of that month, and from the brewer's business day beginning on the 16th day of the month through the brewer's business day beginning on the last day of the month, except as otherwise provided in § 25.164a.

(2) *Quarterly return period.* A taxpayer may choose to use a quarterly return period if the taxpayer was not liable for more than $50,000 in taxes with respect to beer imposed by 26 U.S.C. 5051 and 7652 in the preceding calendar year and if that taxpayer reasonably expects to be liable for not more than $50,000 in such taxes during the current calendar year. In such a case the last day for paying the tax and filing the return shall be the 14th day after the last day of the calendar quarter. However, the taxpayer may not use the quarterly return period procedure for any portion of the calendar year following the first date on which the aggregate amount of tax due from the taxpayer during the calendar year exceeds $50,000, and any tax that has not been paid on that date shall be due on the 14th day after the last day of the semimonthly period in which that date occurs. The following additional rules apply to the quarterly return period procedure under this section:

(i) A ''taxpayer'' is an individual, corporation, partnership, or other entity that is assigned a single Employer Identification Number as defined in 26 CFR 301.7701–12;

(ii) ''Reasonably expects'' means that there is no existing or anticipated circumstance known to the taxpayer (such as an increase in production capacity) that would cause the taxpayer's tax liability to exceed the prescribed limit;

(iii) A taxpayer with multiple locations must combine the beer tax liability for all locations to determine eligibility for the quarterly return procedure;

(iv) A taxpayer who has both domestic operations and import transactions must combine the beer tax liability on the domestic operations and the imports to determine eligibility for the quarterly return procedure;

(v) The controlled group rules of 26 U.S.C. 5061(e), which concern treatment of controlled groups as one taxpayer, do not apply for purposes of determining eligibility for the quarterly return procedure. However, a taxpayer who is eligible for the quarterly return procedure, and who is a member of a controlled group that owes $5 million or more in beer excise taxes per year, is required to pay taxes by electronic fund transfer (EFT). Quarterly payments via EFT shall be transmitted in accordance with section 5061(e);

(vi) A new taxpayer is eligible to file quarterly returns in the first year of business simply if the taxpayer reasonably expects to be liable for not more than $50,000 in beer taxes during that calendar year; and

(vii) If a taxpayer filing quarterly exceeds $50,000 in tax liability during a taxable year and therefore must revert to the semimonthly return procedure, that taxpayer may resume quarterly payments only after a full calendar year has passed during which the taxpayer's liability did not exceed $50,000.

(d) *Time for filing returns and paying tax.* Except as otherwise provided in § 25.164a for semimonthly tax returns, the brewer shall file the tax return, TTB F 5000.24, for each return period, and make remittance as required by this section, not later than the 14th day after the last day of the return period. If the due date falls on a Saturday, Sunday, or legal holiday, the return and remittance are due on the immediately preceding day that is not a Saturday, Sunday, or legal holiday, except as otherwise provided in § 25.164a(c).

(e) *Timely filing.* (1) When the brewer sends the semimonthly or quarterly tax return, Form 5000.24, by U.S. mail, in accordance with the instructions on the form, as required by this section, with remittance as provided for in this section, or without remittance as provided for in § 25.165, the date of the official postmark of the United States Postal Service stamped on the cover in which the return and remittance were mailed is considered the date of delivery of the return and the date of delivery of the remittance, if enclosed with the return. When the postmark on the cover is illegible, the burden is on the brewer to prove when the postmark was made.

(2) When the brewer sends the semimonthly or quarterly return with or without remittance by registered mail or by certified mail, the date of registry or the date of the postmark on the sender's receipt of certified mail be treated as the date of delivery of the semimonthly or quarterly return and of the remittance, if enclosed with the return.

EFFECTIVE DATE NOTE: By T.D. TTB–89, 76 FR 3511, Jan. 20, 2011, § 25.164 was amended by revising paragraphs (c) and (d), effective Feb. 22, 2011 to Feb. 24, 2014.

§ 25.164a Special September rule for taxes due by semimonthly return.

(a) *Division of second semimonthly period*—(1) *General.* Except as otherwise provided in paragraph (a)(2) of this section, the second semimonthly period for the month of September is divided into two payment periods, from the 16th day through the 26th day, and from the 27th day through the 30th day. The brewer shall file a return, TTB F 5000.24, and make remittance, for the period September 16–26, no later than September 29. The brewer shall file a return on TTB F 5000.24, and make remittance, for the period September 27–30, no later than October 14.

(2) *Taxpayment not by electronic fund transfer.* In the case of taxes for which remittance by electronic fund transfer

(EFT) is not required by §25.165, the second semimonthly period of September is divided into two payment periods, from the 16th day through the 25th day, and from the 26th day through the 30th day. The brewer shall file a return on TTB F 5000.24, and make remittance, for the period September 16–25, no later than September 28. The brewer shall file a return on TTB F 5000.24, and make remittance, for the period September 26–30, no later than October 14.

(b) *Amount of payment—Safe harbor rule*—(1) *General.* Taxpayers are considered to have met the requirements of paragraph (a)(1) of this section if the amount paid no later than September 29 is not less than 11/15ths (73.3 percent) of the tax liability incurred for the semimonthly period beginning on September 1 and ending on September 15, and if any underpayment of tax is paid by October 14.

(2) *Taxpayment not by EFT.* Taxpayers are considered to have met the requirements of paragraph (a)(2) of this section if the amount paid no later than September 28 is not less than 2/3rds (66.7 percent) of the tax liability incurred for the semimonthly period beginning on September 1 and ending on September 15, and if any underpayment of tax is paid by October 14.

(c) *Weekends and holidays.* If the required taxpayment due date for the period September 16–25 or September 16–26, as applicable, falls on a Saturday or legal holiday, the return and remittance are due on the immediately preceding day. If the required due date falls on a Sunday, the return and remittance are due on the immediately following day.

(d) *Example: Payment of tax for the month of September*—(1) *Facts.* X, a brewer required to pay taxes by electronic fund transfer, incurred tax liability in the amount of $30,000 for the first semimonthly period of September. For the period September 16–26, X incurred tax liability in the amount of $45,000, and for the period September 27–30, X incurred tax liability in the amount of $2,000.

(2) *Payment requirement.* X's payment of tax in the amount of $30,000 for the first semimonthly period of September is due no later than September 29 (§25.164(d)). X's payment of tax for the period September 16–26 is also due no later than September 29 (§25.164a(a)(1)). X may use the safe harbor rule to determine the amount of payment due for the period of September 16–26 (§25.164a(b)). Under the safe harbor rule, X's payment of tax must not be less than $21,990.00, that is, 11/15ths of the tax liability incurred during the first semimonthly period of September. Additionally, X must pay the tax in the amount of $2,000 for the period September 27–30 no later than October 14 (§25.164a(a)(1)). X must also pay the underpayment of tax, $23,010.00, for the period September 16–26, no later than October 14 (§25.164a(b)).

[T.D. TTB–89, 76 FR 3512, Jan. 20, 2011]

EFFECTIVE DATE NOTE: By T.D. TTB–89, 76 FR 3512, Jan. 20, 2011, §25.164a was revised, effective Feb. 22, 2011 to Feb. 24, 2014.

§ 25.165 Payment of tax by electronic fund transfer.

(a) *Eligible brewers.* (1) Each taxpayer who was liable, during a calendar year, for a gross amount equal to or exceeding five million dollars in beer taxes combining tax liabilities incurred under this part and parts 26 and 27 of this chapter, shall use a commerical bank in making payment by electronic fund transfer (EFT) of beer taxes during the succeeding calendar year. Payment of beer taxes by cash, check, or money order, as described in §25.163, is not authorized for a taxpayer who is required by this section to make remittances by EFT. For purposes of this section, the dollar amount of tax liability is defined as the gross tax liability on all taxable removals, determined in accordance with §25.159, and importations (including beer brought into the United States from Puerto Rico or the Virgin Islands) during the calendar year, without regard to any drawbacks, credits, or refunds, for all premises from which such activities are conducted by the taxpayer. Overpayments are not taken into account in summarizing the gross tax liability.

(2) For the purposes of this section, a taxpayer includes a controlled group of corporations, as defined in 26 U.S.C. 1563, and implementing regulations in 26 CFR 1.1563–1 through 1.1563–4, except that the words ''at least 80 percent''

shall be replaced by the words ''more than 50 percent'' in each place it appears in subsection (a) of 26 U.S.C. 1563, as well as in the implementing regulations. Also, the rules for a ''controlled group of corporations'' apply in a similar fashion to groups which include partnerships and/or sole proprietorships. If one entity maintains more than 50% control over a group consisting of corporations and one, or more, partnerships and/or sole proprietorships, all of the members of the controlled group are one taxpayer for the purpose of determining who is required to make remittances by EFT.

(3) A taxpayer who is required by this section to make remittances by EFT shall make a separate EFT remittance and file a separate return, Form 5000.24, for each brewery from which beer is removed upon determination of tax.

(b) *Requirements.* (1) On or before January 10 of each calendar year, except for a taxpayer already remitting the tax by EFT, each taxpayer who was liable for a gross amount equal to or exceeding five million dollars in beer taxes combining tax liabilities incurred under this part and parts 26 and 27 of this chapter, during the previous calendar year, shall notify, in writing the appropriate TTB officer. The notice shall be an agreement to make remittances by EFT.

(2) For each return filed in accordance with this part, the taxpayer shall direct the taxpayer's bank to make an electronic fund transfer in the amount of the taxpayment to the Treasury Account as provided in paragraph (e) of this section. The request shall be made to the bank early enough for the transfer to be made to the Treasury Account by no later than the close of business on the last day for filing the return, prescribed in §§ 25.164 or 25.175. The request shall take into account any time limit established by the bank.

(3) If a taxpayer was liable for less than five million dollars in beer taxes during the preceding calendar year, combining tax liabilities incurred under this part and parts 26 and 27 of this chapter, the taxpayer may choose either to continue remitting the tax as provided in this section or to remit the tax with the return as prescribed by § 25.164. Upon filing the first return on which the taxpayer chooses to discontinue remitting the tax by EFT and to begin remitting the tax with the tax return, the taxpayer shall notify the appropriate TTB officer by attaching a written notification to Form 5000.24, stating that no taxes are due by EFT because the tax liability during the preceding calendar year was less than five million dollars, and that the remittance will be filed with the tax return.

(c) *Remittance.* (1) Each taxpayer shall show on the return, Form 5000.24, information about remitting the tax for that return by EFT and shall file the return with TTB, in accordance with the instructions on Form 5000.24.

(2) Remittances shall be considered as made when the taxpayment by electronic fund transfer is received by the Treasury Account. For purposes of this section, a taxpayment by electronic fund transfer shall be considered as received by the Treasury Account when it is paid to a Federal Reserve Bank.

(3) When the taxpayer directs the bank to effect an electronic fund transfer message as required by paragraph (b)(2) of this section, any transfer data record furnished to the taxpayer, through normal banking procedures, will serve as the record of payment, and will be retained as part of required records.

(d) *Failure to make a taxpayment by EFT.* The taxpayer is subject to a penalty imposed by 26 U.S.C. 5684, 6651, or 6656, as applicable, for failure to make a taxpayment by EFT on or before the close of business on the prescribed last day for filing.

(e) *Procedure.* Upon the notification required under paragraph (b)(1) of this section, the appropriate TTB officer will issue to the taxpayer a TTB Procedure entitled ''Payment of Tax by Electronic Fund Transfer.'' This publication outlines the procedure a taxpayer is to follow when preparing returns and EFT remittances in accordance with this part. The U.S. Customs Service will provide the taxpayer with instructions for preparing EFT remittances

for payments to be made to the U.S. Customs Service.

§ 25.166 Payment of reduced rate of tax.

(a) *By return, Form 5000.24.* A brewer who is eligible to pay the reduced rate of tax on beer may, upon filing the notice required by § 25.167, pay the reduced rate of tax on beer by return for deferred payment of tax as provided in § 25.164 or by prepayment return as provided in § 25.175. Payment of reduced rate of tax on beer by return, Form 5000.24, may commence with any tax return filed during a calendar year and will continue until the brewer has taxpaid 60,000 barrels of beer at the lower rate of tax, or taxpaid the number of barrels of beer apportioned under § 25.167(b)(3) for that calendar year.

(b) *By claim for refund of tax.* A brewer, eligible to pay the reduced rate of tax on beer during a calendar year, but who has not paid the reduced rate of tax by return during that year, may file a claim, Form 2635, (5620.8) for refund of tax excessively paid on beer during that year. Claims for refund of tax will be filed as provided in § 25.285.

§ 25.167 Notice of brewer to pay reduced rate of tax.

(a) *Requirement to file notice.* Every brewer who desires to pay the reduced rate of tax on beer authorized by 26 U.S.C. 5051(a)(2) by tax return, Form 5000.24, shall prepare a notice containing the information required by paragraph (b) of this section. The brewer shall file this notice with the appropriate TTB officer for the first return period (or prepayment return) during which the brewer pays tax on beer at the reduced rate. The brewer shall file the notice each year in which payment of the reduced rate of tax on beer is made by return.

(b) *Information to be furnished.* Each notice described in paragraph (a) of this section will contain the following information:

(1) A statement that the brewer will not or is not likely to produce more than 2,000,000 barrels of beer in the calendar year for which the notice is filed.

(2) A statement that the brewer is not a member of a controlled group of brewers, or if the brewer is a member of a controlled group of brewers, a statement that the controlled group will not or is not likely to produce more than 2,000,000 barrels of beer in the calendar year for which the notice is filed.

(3) If the brewer operates more than one brewery, a statement of the locations of all the breweries and a statement of how the 60,000 barrel limitation for the reduced rate of tax will be apportioned among the breweries. If the brewer is a member of a controlled group of brewers, a statement of the names and locations of all other brewers in the group and a statement of how the 60,000 barrels limitation will be apportioned among the brewers in the group.

(c) *Perjury statement.* Each notice described in this section will be executed by the brewer under penalties of perjury as defined in § 25.11.

§ 25.168 Employer identification number.

The employer identification number (defined at 26 CFR 301.7701–12) of the taxpayer who has been assigned the number will be shown on each return on Form 5000.24, filed under this part. Failure of the taxpayer to include the employer identification number on Form 5000.24 may result in imposition of the penalty specified in § 70.113 of this chapter. A brewer shall apply for

an employer identification number on IRS Form SS–4 as provided in § 25.169.

§ 25.169 Application for employer identification number.

(a) *Form SS–4.* The taxpayer must obtain an employer identification number (EIN) by filing an application with the Internal Revenue Service (IRS) on IRS Form SS–4. (b) *Time limit.* If the taxpayer has not already received, or applied for, an EIN at the time that the first return on TTB Form 5000.24, Excise Tax Return, is filed, the taxpayer must apply for an EIN not later than seven days from the date of filing the Form 5000.24.

(c) *One EIN only.* Each taxpayer must obtain and use only one EIN, regardless of the number of places of business for which the proprietor is required to file a tax return under this subpart.

Prepayment of Tax

§ 25.173 Brewer in default.

(a) When a remittance in payment of taxes on beer is not paid upon presentment of check or money order tendered, or when the brewer is otherwise in default in payment of tax under § 25.164, beer may not be removed for consumption or sale or taken from the brewery for consumption or sale until the tax has been prepaid as provided in § 25.175. The brewer shall continue to prepay while in default and thereafter until the appropriate TTB officer finds the revenue will not be jeopardized by deferred payment of tax as provided in § 25.164.

(b) Any remittance made while the brewer is required to prepay under this section will be in cash or in the form of a certified, cashier's or treasurer's check drawn on any bank or trust company incorporated under the laws of the United States, or under the law of any State, Territory, or possession of the United States, or in the form of a money order as provided in § 70.61 of this chapter (payment by check or money order), or will be made in the form of an electronic fund transfer as provided by §§ 25.164 and 25.165.

[T.D. ATF–224, 51 FR 7673, Mar. 5, 1987, as amended by T.D. ATF–251, 52 FR 19313, May 22, 1987; T.D. ATF–301, 55 FR 47605, Nov. 14, 1990]

§ 25.174 Bond not sufficient.

When the penal sum of the brewer's bond is in less than the maximum amount, the brewer shall prepay the tax on any withdrawal which would cause the outstanding liability for tax to exceed the limits of coverage of the bond. Prepayments will be made in accordance with § 25.175.

§ 25.175 Prepayment of tax.

(a) *General.* When a brewer is required to prepay tax under § 25.173, or if the penal sum of the bond, Form 5130.22, is insufficient for deferral of payment of tax on beer to be removed for consumption or sale, or if a brewer is not entitled to defer the tax under the provisions of this subpart, the brewer shall prepay the tax before any beer is removed for consumption or sale, or taken out of the brewery for removal for consumption or sale.

(b) *Method of prepayment.* (1) Prepayment will be made by forwarding a tax return, Form 5000.24, with remittance, covering the tax on beer.

(2) If a brewer is required by § 25.165 to make payment of tax by electronic fund transfer, the brewer shall prepay the tax before any beer can be removed for consumption or sale by completing the return and by forwarding it, in accordance with the instructions on the form. At the same time, the brewer shall direct his or her bank to make remittance by EFT.

(3) For the purpose of complying with this section, the term *forwarding* means depositing in the U.S. mail, properly

addressed in accordance with the instructions on the form.

The tax liability on excessive losses of beer from transfer between breweries of the same ownership may be remitted as provided in § 25.286.

(b) *Unmerchantable beer.* When beer is rendered unmerchantable by fire, casualty, or act of God, refund, credit or adjustment of tax, or relief from liability of tax will not be allowed unless the brewer proves to the satisfaction of the appropriate TTB officer that the beer cannot be salvaged and returned to the market for consumption or sale.

(c) *Beer lost or destroyed.* When beer is lost or destroyed, whether by theft or otherwise, the appropriate TTB officer may require the brewer to file a claim for relief from the tax and to submit proof as to the cause of the loss.

(d) *Beer lost by theft.* When it appears that beer was lost by theft, the tax shall be collected unless the brewer proves to the satisfaction of the appropriate TTB officer that the theft occurred before removal from the brewery and occurred without connivance, collusion, fraud, or negligence on the

part of the brewer, consignor, consignee, bailee, or carrier, or the employees or agents of any of them.

(e) *Notification of appropriate TTB officer.* (1) A brewer who sustains a loss of beer before transfer of title of the beer to another person and who desires to adjust the tax on the excise tax return or to file a claim for refund or for relief from liability of tax, must, on learning of the loss of beer, immediately notify in writing the appropriate TTB officer of the nature, cause, and extent of the loss, and the place where the loss occurred. Statements of witnesses or other supporting documents must be furnished if available.

§ 25.284 Adjustment of tax.

(a) *Adjustment of tax in lieu of refund.* In lieu of filing a claim for refund of tax as provided in § 25.283, a brewer may make an adjustment (without interest) to the excise tax return, Form 5000.24, for the amount of tax paid on beer returned to the brewery, voluntarily destroyed, lost, destroyed, or rendered unmerchantable.

(b) *Beer returned to brewery other than from which removed.* An adjustment may be made on the excise tax return for the amount of tax paid on beer returned to the brewery under § 25.213. The adjustment will be made on the tax return filed for the brewery to which the beer was returned. The adjustment may not be made prior to the return of beer to the brewery. If the brewer is required to file a notice under § 25.213, the adjustment may not be made until the appropriate TTB officer authorizes disposition of the beer.

(c) *Beer voluntarily destroyed.* An adjustment may be made on the excise tax return for the amount of tax paid on beer voluntarily destroyed under subpart N of this part. (d) *Beer lost, destroyed or rendered unmerchantable.* An adjustment may be made on the excise tax return for the amount of tax paid on beer lost, destroyed, or rendered unmerchantable under § 25.282. The adjustment will be made on the tax return filed for the brewery from which the beer was removed. A brewer may not make an adjustment prior to notification required under § 25.282(e). When beer appears to have been lost due to theft, the brewer may not make an adjustment to the tax return until establishing to the satisfaction of the appropriate TTB officer that the theft occurred before removal from the brewery and occurred without connivance, collusion, fraud, or negligence on the part of the brewer, consignor, consignee, bailee, or carrier, or the employees or agents of any of them.

(e) *Condition of adjustments.* (1) All adjustments will be made within 6 months of the return, destruction, loss, or rendering unmerchantable of the beer.

(2) Adjustment of the tax paid will be made without interest.

(3) An adjustment may not be taken if the brewer was indemnified by insurance or otherwise in respect of the tax.

(f) *Records.* When brewers make adjustments on the excise tax return in lieu of filing a claim, they shall keep the following records;

The brewer shall file the claim for refund to tax on Form 2635 (5620.8) within the period of limitation prescribed in 26 U.S.C. 6511(a). For rules relating to the period of limitation on filing claims, see §§ 70.82 and 70.83.

(b) *Calculation of refund.* The brewer shall file the claim based on the quantity of beer eligible to be taxpaid at the lower rate of tax, but which was paid at the higher rate of tax, subject to a maximum of 60,000 barrels of beer per calendar year or the limitation as determined in § 25.152(d). The brewer shall exclude from the claim the quantity of beer removed that calendar year on which a credit or refund at the higher rate of tax has been taken.

A claim will not be allowed unless filed within 6 months of the date of the loss.

(b) *Information to be shown.* The claim will show the following information:

(1) The date of the shipment;

(2) The quantity of beer lost (number and size of packages and their equivalent in barrels), and the rate(s) of tax at which the beer would have been removed for consumption or sale;

(3) The percent of loss;

(4) The specific cause of the loss;

(5) The nature of the loss (leakage, breakage, casualty, etc.);

(6) Information as to whether the claimant has been indemnified by insurance or otherwise in respect to the tax, or has any claim for indemnification; and

(7) For losses due to casualty or accident, statements from the carrier or other persons having personal knowledge of the loss, if available.

(ii) Appropriate TTB officers to verify removals of beer and cereal beverages, to verify claims, and to ascertain if there has been compliance with law and regulations.

(d) *Format.* (1) The brewer's copies of prescribed forms which bear all required details will be utilized as daily records.

(2) When a form is not prescribed, the records required by this subpart will be those commercial records used by the brewer in the accounting system and will bear all required details.

(3) The brewer shall maintain daily records required by this part so they clearly and accurately reflect all mandatory information. When the format or arrangement of the daily records is such that the information is not clearly or accurately shown, the appropriate TTB officer may require a format or arrangement which will clearly and accurately show the information.

Subpart Ca—Rum Imported Into the United States From Areas Other Than Puerto Rico and the Virgin Islands

§ 26.30 Excise taxes.

Distilled spirits excise taxes, less the estimated amounts necessary for payment of refunds and drawbacks, collected on all rum imported into the United States (including rum from possessions other than Puerto Rico and the Virgin Islands), will be deposited into the Treasuries of Puerto Rico and the Virgin Islands according to the formula described in § 26.31. The amount deposited into the Treasuries of Puerto Rico and the Virgin Islands shall be the lesser of $10.50, or the rate imposed by 26 U.S.C. 5001(a)(1) (including adjustments to the effective tax rate under 26 U.S.C. 5010), on each proof gallon of rum imported into the United States.

(Aug. 16, 1954, Chapter 736, 68A Stat. 907, as amended (26 U.S.C. 7652))

[T.D. ATF–203, 50 FR 15888, Apr. 23, 1985. Redesignated and amended by T.D. ATF–459, 66 FR 38550, July 25, 2001]

§ 26.31 Formula.

(a) The amount of excise taxes collected on rum that is imported into the United States from areas other than Puerto Rico and the Virgin Islands shall be deposited into the Treasuries of Puerto Rico and the Virgin Islands at the rate prescribed in 26 U.S.C. 7652(f). The distribution of such amount between Puerto Rico and the Virgin Islands shall be computed by using permanent base percentages, which represent the excise taxes collected on rum brought into the United States from Puerto Rico and from the Virgin Islands during fiscal year 1983. The base percentages are 87.626889 percent for Puerto Rico and 12.373111 percent for the Virgin Islands. The formula shall be as follows:

(1) Take the total amount of excise taxes collected on all rum brought or imported into the United States from all areas (including Puerto Rico and the Virgin Islands) during the previous fiscal year (October 1–September 30) and multiply that amount by 0.87626889 to determine the share of the entire U.S. rum market that will be allotted to Puerto Rico and by 0.12373111 to determine the share of the entire U.S. rum market that will be allotted to the Virgin Islands;

(2) Subtract from the share allotted to Puerto Rico under paragraph (a)(1) of this section the excise taxes collected on rum brought into the United States from Puerto Rico during the previous fiscal year, and subtract from the share allotted to the Virgin Islands under paragraph (a)(1) of this section the excise taxes collected on rum imported into the United States from the Virgin Islands during the previous fiscal year, to determine each possession's loss or gain in excise taxes in relation to the previous fiscal year's U.S. rum market. Then divide each result by the total excise taxes collected on rum imported into the United States during the previous fiscal year from areas other than Puerto Rico and the Virgin Islands.

(b) Notwithstanding the formula prescribed in paragraph (a) above, the Virgin Islands' share of the excise taxes on rum imported into the United States from areas other than Puerto Rico and the Virgin Islands shall not exceed 49 percent nor drop below 12.373111 percent. Puerto Rico's share of the excise taxes on rum imported into the United States from areas other than Puerto Rico and the Virgin Islands shall not exceed 87.626889 percent nor drop below 51 percent.

(c) The percentage for the distribution of the excise taxes collected on rum imported into the United States from areas other than Puerto Rico and the Virgin Islands, that will be paid over to the Treasuries of Puerto Rico and the Virgin Islands, shall be effective on March 1 of each year, and shall remain in effect until March 1 of the following year.

(d) The method for transferring the excise tax collections on rum imported from areas other than Puerto Rico and the Virgin Islands, into the Treasuries of Puerto Rico and the Virgin Islands shall be the same as the method used for transferring excise taxes into the

Treasury of Puerto Rico on distilled spirits (with an alcohol content of at least 92 percent rum) brought into the United States from Puerto Rico.

(e) The formula prescribed in this section shall take effect on March 1, 1987. Prior to that date, Puerto Rico shall continue to receive 86.4 percent of the eligible excise taxes on rum imported from areas other than Puerto Rico and the Virgin Islands. The Virgin Islands shall continue to receive 13.6 percent of these eligible excise taxes until March 1, 1987.

§ 26.35 Taxable status.

(a) Liquors coming into the United States from Puerto Rico, except as provided in § 26.36, are subject to a tax equal to the internal revenue tax imposed on the production in the United States of like liquors. Articles coming into the United States from Puerto Rico, except as provided in § 26.36, are subject to tax on the liquors contained therein at the rates imposed in the United States on like liquors of domestic production.

(b) The excise taxes collected on distilled spirits or articles containing distilled spirits shall be deposited into the Treasury of Puerto Rico only if at least 92 percent of the alcoholic content of such products is rum. The amount deposited into the Treasury of Puerto Rico shall not exceed the lesser of $10.50, or the rate imposed by 26 U.S.C. 5001(a)(1) (including adjustments to the effective tax rate under 26 U.S.C. 5010), on each proof gallon of such distilled spirits or articles, other than eligible articles, containing distilled spirits coming into the United States or consumed on the island. Such excise tax deposits will be reduced by the estimated amount necessary for payment of refunds and drawbacks.

(c) Except for products described in 26 U.S.C. 7652(c), no excise taxes shall be deposited into the Treasury of Puerto Rico if an excise tax subsidy is provided by Puerto Rico that is of a kind different from, or in an amount per value or volume of production greater than, any subsidy offered by Puerto Rico to industries manufacturing products not subject to Federal excise tax.

§ 26.79a Computation of effective tax rate.

(a) The proprietor shall compute the effective tax rate for distilled spirits containing eligible wine or eligible flavors as the ratio of the numerator and denominator as follows:

(1) the numerator will be the sum of:

(i) The proof gallons of all distilled spirits used in the product (exclusive of distilled spirits derived from eligible flavors), multiplied by the tax rate prescribed by 26 U.S.C. 5001;

(ii) The wine gallons of each eligible wine used in the product, multiplied by the tax rate prescribed by 26 U.S.C. 5041(b) (1), (2), or (3), as applicable; and

(iii) The proof gallons of all distilled spirits derived from eligible flavors used in the product, multiplied by the tax rate prescribed by 26 U.S.C. 5001, but only to the extent that such distilled spirits exceed 2½% of the denominator prescribed in paragraph (a)(2) of this section.

(2) The denominator will be the sum of:

(i) The proof gallons of all distilled spirits used in the product, including distilled spirits derived from eligible flavors; and

(ii) The wine gallons of each eligible wine used in the product, multiplied by twice the percentage of alcohol by volume of each, divided by 100.

(b) In determining the effective tax rate, quantities of distilled spirits, eligible wine, and eligible flavors will be expressed to the nearest tenth of a proof gallon. The effective tax rate may be rounded to as many decimal places as the proprietor deems appropriate, provided that, such rate is expressed no less exactly than the rate rounded to the nearest whole cent, and the effective tax rates for all products will be consistently expressed to the same number of decimal places. In such case, if the number is less than five it will be dropped; if it is five or over, a unit will be added.

(c) The following is an example of the use of the formula.

All taxes imposed by 26 U.S.C. 7652(a), and which, under the provisions of this part, are paid in Puerto Rico, shall be paid and collected on the basis of a tax return as provided in this subpart. Any tax which has been paid in accordance with the provisions of this part in effect at the time of such payment, and before provision was made in the part for payment of such tax by return, shall be deemed to have been prepaid as prescribed in this part.

§ 26.112 Returns for deferred payment of tax.

(a) *Returns.* The taxes imposed by 26 U.S.C. 7652(a), (equal to the taxes imposed in the United States by 26 U.S.C. 5001(a)(1), 5041, or 5051), the payment of which has been deferred under the provisions of §§ 26.80, 26.95 or 26.104 of this part, shall be paid pursuant to a return on TTB Form 5000.25 prepared in accordance with the instructions on the form.

(b) *Return periods*—(1) *Semimonthly return period.* Except in the case of a taxpayer who qualifies for, and chooses to use, quarterly return periods as provided in paragraph (b)(2) of this section, all taxpayers must use semimonthly return periods for deferred payment of tax. The semimonthly return periods run from the 1st day through the 15th day of each month, and from the 16th day through the last day of each month, except as otherwise provided in paragraph (d) of this section.

(2) *Quarterly return period.* A taxpayer may choose to use a quarterly return period if the taxpayer was not liable for more than $50,000 in taxes imposed by 26 U.S.C. 7652 in the preceding calendar year and if that taxpayer reasonably expects to be liable for not more than $50,000 in such taxes during the current calendar year. In such a case the last day for paying the tax and filing the return shall be the 14th day after the last day of the calendar quarter. However, the taxpayer may not use the quarterly return period procedure for any portion of the calendar year following the first date on which the aggregate amount of tax due from the taxpayer during the calendar year exceeds $50,000, and any tax that has not been paid on that date shall be due on the 14th day after the last day of the semimonthly period in which that date occurs. The following additional rules apply to the quarterly return period procedure under this section:

(i) A ''taxpayer'' is an individual, corporation, partnership, or other entity that is assigned a single Employer Identification Number as defined in 26 CFR 301.7701–12;

(ii) ''Reasonably expects'' means that there is no existing or anticipated circumstance known to the taxpayer (such as an increase in production capacity) that would cause the taxpayer's tax liability to exceed the prescribed limit;

(iii) A taxpayer with multiple locations must combine the tax liability for all locations with respect to distilled spirits, wine, or beer tax liability to determine eligibility for the quarterly return procedure;

(iv) A taxpayer who has both domestic operations and import transactions must combine the tax liability on the domestic operations and the imports with respect to distilled spirits, wine, or beer tax liability to determine eligibility for the quarterly return procedure;

(v) The controlled group rules of 26 U.S.C. 5061(e), which concern treatment of controlled groups as one taxpayer, do not apply for purposes of determining eligibility for the quarterly return procedure. However, a taxpayer who is eligible for the quarterly return procedure, and who is a member of a controlled group that owes $5 million or more in distilled spirits, wine, or beer excise taxes per year, is required to pay taxes by electronic fund transfer (EFT). Quarterly payments via EFT shall be transmitted in accordance with section 5061(e);

(vi) A new taxpayer is eligible to file quarterly returns in the first year of business simply if the taxpayer reasonably expects to be liable for not more than $50,000 in distilled spirits, wine, or

beer taxes during that calendar year; and

EFFECTIVE DATE NOTE: By T.D. TTB–89, 76 FR 3513, Jan. 20, 2011, § 26.112 was amended by revising paragraph (b), the last sentence of paragraph (c)(1), and paragraph (d), effective from Feb. 22, 2011 to Feb. 24, 2014.

§ 26.112a Payment of tax by electronic fund transfer.

(a) *General.* (1) Each taxpayer who was liable, during a calendar year, for a gross amount equal to or exceeding five million dollars in distilled spirits taxes combining tax liabilities incurred under this part and parts 19 and 27 of this chapter, a gross amount equal to or exceeding five million dollars in wine taxes combining tax liabilities incurred under this part and parts 24 and 27 of this chapter, or a gross amount equal to or exceeding five million dollars in beer taxes combining tax liabilities incurred under this part and parts 25 and 27 of this chapter, shall use a commercial bank in making payment by electronic fund transfer (EFT) of such taxes during the succeeding calendar year. Payment by cash, check, or money order, of distilled spirits taxes, wine taxes, or beer taxes, as described in § 26.112, is not authorized for a taxpayer who is required, by this section, to make remittances by EFT. For purposes of this section, the dollar amount of tax liability is to be summarized separately for distilled spirits taxes, wine taxes, or beer taxes, and is defined as the gross tax liability on each type of product for which taxes are paid in accordance with this subpart, taxable withdrawals from premises in the United States, and importation during the calendar year, without regard to any drawbacks, credits, or refunds, for all premises at which tax liabilities are incurred by the taxpayer. Overpayments are not taken into account in summarizing the gross tax liability.

(2) For the purposes of this section, a taxpayer includes a controlled group of corporations, as defined in 26 U.S.C. 1563, and implementing regulations in 26 CFR 1.1563–1 through 1.1563–4, except that the words ''at least 80 percent'' shall be replaced by the words ''more than 50 percent'' in each place it appears in subsection (a) of 26 U.S.C. 1563, as well as in the implementing regulations. Also, the rules for a ''controlled group of corporations'' apply in a similar fashion to groups which include partnerships and/or sole proprietorships. If one entity maintains more than 50% control over a group consisting of corporations and one, or more, partnerships and/or sole proprietorships, all of the members of the controlled group are one taxpayer for the purpose of determining who is required to make remittances by EFT.

(3) A taxpayer who is required by this section to make remittances by EFT, shall make a separate EFT remittance and file a separate tax return, for each premises from which distilled spirits, wine, or beer is withdrawn upon determination of tax.

(b) *Requirements.* (1) On or before January 10 of each calendar year, except for a taxpayer already remitting the tax by EFT, each taxpayer who was liable for a gross amount equal to or exceeding five million dollars in distilled spirits taxes combining tax liabilities incurred under this part and parts 19 and 27 of this chapter, a gross amount equal to or exceeding five million dollars in wine taxes combining tax liabilities incurred under this part and parts 24 and 27 of this chapter, or a gross amount equal to or exceeding five million dollars in beer taxes combining tax liabilities incurred under this part

and parts 25 and 27 of this chapter during the previous calendar year, shall notify, in writing, the appropriate TTB officer. The notice shall be an agreement to make remittances by EFT.

(2) For each return filed in accordance with this part, the taxpayer shall direct the taxpayer's bank to make an electronic fund transfer in the amount of the taxpayment to the Treasury Account as provided in paragraph (e) of this section. The request shall be made to the bank early enough for the transfer to be made to the Treasury Account by no later than the close of business on the last day for filing the return, prescribed in § 26.112 or § 26.113. The request shall take into account any time limit established by the bank.

(3) If a taxpayer was liable for less than five million dollars in distilled spirits taxes combining tax liabilities incurred under this part and parts 19 and 27 of this chapter, less than five million dollars in wine taxes combining tax liabilities incurred under this part and parts 24 and 27 of this chapter, or less than five million dollars in beer taxes combining tax liabilities incurred under this part and parts 25 and 27 of this chapter during the preceding calendar year, the taxpayer may choose either to continue remitting the tax as provided in this section or to remit the tax with the return as prescribed by § 26.112. Upon filing the first return on which the taxpayer chooses to discontinue remitting the tax by EFT and to begin remitting the tax with the tax return, the taxpayer shall notify the appropriate TTB officer by attaching a written notification to the tax return, stating that no taxes are due by EFT, because the tax liability during the preceding calendar year was less than five million dollars, and that the remittance shall be filed with the tax return.

(c) *Remittance.* (1) Each taxpayer shall show on the tax return, information about remitting the tax for that return by EFT and shall file the return with the appropriate TTB officer.

(2) Remittances shall be considered as made when the taxpayment by electronic fund transfer is received by the Treasury Account. For purposes of this section, a taxpayment by electronic fund transfer shall be considered as received by the Treasury Account when it is paid to a Federal Reserve Bank.

(3) When the taxpayer directs the bank to effect an electronic fund transfer message as required by paragraph (b)(2) of this section, any transfer data record furnished to the taxpayer, through normal banking procedures, will serve as the record of payment, and shall be retained as part of required records.

(d) *Failure to make a taxpayment by EFT.* The taxpayer is subject to a penalty imposed by 26 U.S.C. 5684, 6651, or 6656, as applicable, for failure to make a taxpayment by EFT on or before the close of business on the prescribed last day for filing.

(e) *Procedure.* Upon the notification required under paragraph (b)(1) of this section, the appropriate TTB officer will issue to the taxpayer a TTB procedure entitled, Payment of Tax by Electronic Fund Transfer. This publication outlines the procedure a taxpayer is to follow when preparing returns and EFT remittances in accordance with this part. The U.S. Customs Service will provide the taxpayer with instructions for preparing EFT remittances for payments to be made to the U.S. Customs Service.

PERMIT TO SHIP LIQUORS AND ARTICLES

§ 26.114 Permit to ship required.

Before liquors and articles of Puerto Rican manufacture, upon which all internal revenue taxes have been paid or deferred as prescribed in this subpart, may be shipped to the United States, a permit to ship, Form 487B, must be obtained from the Secretary as provided in §§ 26.115 and 26.116.

[T.D. 6551, 26 FR 1490, Feb. 22, 1961. Redesignated at 40 FR 16835, Apr. 15, 1975, and further redesignated and amended by T.D. ATF–459, 66 FR 38550, 38552, July 25, 2001]

§ 26.115 Application, Form 487B.

Application for permit to ship to the United States liquors and articles of Puerto Rican manufacture on which all taxes have been paid or deferred as prescribed in this subpart shall be made by the shipper on Form 487B, in sextuple. Each Form 487B will be given a serial number, by the applicant, beginning with ''1'' for the first day of January of each year and running consecutively thereafter to December 31, inclusive. This serial number will be prefixed by the last two digits of the calendar year, e.g. ''61–1.'' All copies of the form shall be delivered to the revenue agent for execution of his certification thereon and forwarding of all copies to the Secretary within sufficient time to allow for the issuance of the permit and customs inspection as provided in § 26.116.

[T.D. 6551, 26 FR 1490, Feb. 22, 1961. Redesignated at 40 FR 16835, Apr. 15, 1975, and further redesignated and amended by T.D. ATF–459, 66 FR 38550, 38552, July 25, 2001]

§ 26.116 Issuance of permit, Form 487B, and customs inspection.

If the application has been properly executed and the Secretary, or his delegate, finds that all internal revenue taxes imposed under 26 U.S.C. 7652(a), have been computed under the provisions of this part and have been paid or, pursuant to a sufficient bond, have been deferred under the applicable provisions of this part, he will execute his permit on all copies thereof, retain one copy of the form, return two copies to the shipper, and send three copies to the district director of customs in Puerto Rico. The shipper will submit the two copies of the Form 487B to the district director of customs at least six hours prior to the intended lading of the merchandise. The district director of customs will then inspect the merchandise covered by the Form 487B after which he will execute his certificate on each copy of Form 487B indicating all exceptions. If discrepancies appear indicating differences between the quantity covered by Form 487B and the quantity actually contained in the shipment or the improper tax payment of the merchandise, he will withhold release of the shipment and notify the

Secretary of such discrepancies. Thereupon, such discrepancies must be corrected in the shipping documents and additional tax paid, if required, prior to release of the merchandise. The district director of customs, upon release of the merchandise for shipment, will retain one copy of the Form 487B, return two copies to the shipper, and send two copies to the district director of customs at the port of arrival in the United States, one of which should be mailed and the other dispatched on the vessel concerned for the guidance of the appropriate TTB officer who will handle the cargo. On receipt of properly executed Form 487B from the shipper and the copies of Form 487B from the district director of customs in Puerto Rico, the district director of customs at the port of arrival shall inspect the merchandise to determine whether the quantity specified on the Form 487B is contained in the shipment. He will then execute his certificate on each copy of Form 487B received and indicate thereon any exceptions found at the time of discharge. The statement of exceptions should show the serial number of each case or other shipping container which sustained a loss, the quantity of liquor reported shipped in such container and the quantity lost. Losses occurring as the result of missing bottles, cases, or other containers should be listed separately from empty containers and containers which have sustained losses due to breakage. Where the statement is made on the basis of bottles missing or lost due to other cause, the number and size of bottles lost should be shown. If the district director of customs finds that the full amount of the taxes due has not been paid, he will require the difference due to be paid prior to release of the merchandise in accordance with the applicable provisions of this part. § 26.262 Determination of tax on distilled spirits.

(a) If the certificate required by § 26.205 covers distilled spirits, and the distilled spirits are not being transferred under subparts O or Oa of this part, the tax imposed by 26 U.S.C. 7652 which provides for a tax equal to the tax imposed by 26 U.S.C. 5001 will be collected on each proof gallon, and fractional part thereof, contained in the shipment.

(b) A credit against the tax imposed on distilled spirits by 26 U.S.C. 7652 is allowable under 26 U.S.C. 5010 on each proof gallon of alcohol derived from eligible wine or from eligible flavors which do not exceed 2½ percent of the finished product on a proof gallon basis. The credit is allowable at the time the tax is payable as if it constituted a reduction in the rate of tax.

(c) Where credit against the tax is desired, the person liable for the tax shall establish an effective tax rate in accordance with § 26.262a. The effective tax rate established will be applied to each withdrawal or other disposition of the distilled spirits within the United States.

§ 26.262a Computation of effective tax rate.

(a) The proprietor shall compute the effective tax rate for distilled spirits containing eligible wine or eligible flavors as the ratio of the numerator and denominator as follows:

(1) The numerator will be the sum of:

(i) The proof gallons of all distilled spirits used in the product (exclusive of distilled spirits derived from eligible flavors), multipled by the tax rate prescribed by 26 U.S.C. 5001;

(ii) The wine gallons of each eligible wine used in the product, multiplied by the tax rate prescribed by 26 U.S.C. 5041(b) (1), (2), or (3), as applicable; and

(iii) The proof gallons of all distilled spirits derived from eligible flavors used in the product, multiplied by the tax rate prescribed by 26 U.S.C. 5001, but only to the extent that such distilled spirits exceed 2½% of the denominator prescribed in paragraph (a)(2) of this section.

(2) The denominator will be the sum of:

(i) The proof gallons of all distilled spirits used in the product, including distilled spirits derived from eligible flavors; and

(ii) The wine gallons of each eligible wine used in the product, multiplied by twice the percentage of alcohol by volume of each, divided by 100.

(b) In determining the effective tax rate, quantities of distilled spirits, eligible wine, and eligible flavors will be expressed to the nearest tenth of a proof gallon. The effective tax rate may be rounded to as many decimal places as the proprietor deems appropriate, provided that, such rate is expressed no less exactly than the rate rounded to the nearest whole cent, and the effective tax rates for all products will be consistently expressed to the same number of decimal places. In such case, if the number is less than five it will be dropped; if it is five or over, a unit will be added.

(c) The following is an example of the use of the formula.

BATCH RECORD

Distilled spirits	2249.1 proof gallons.
Eligible wine (14% alcohol by volume).	2265.0 wine gallons.
Eligible wine (19% alcohol by volume).	1020.0 wine gallons.
Eligible flavors	100.9 proof gallons.

$$\frac{2249.1(\$13.50)+2265.0(\$1.07)+1020(\$1.57)+16.6^{1}(\$13.50)}{2249.1+100.9+(2265.0\times.28)+(1020\times.38)}=$$

$$\frac{\$30{,}362.85+\$2{,}423.55+\$1{,}601.40+\$224.10}{2{,}350.0+634.2+387.6}=\frac{\$34{,}611.90}{3{,}371.8}=\$10.27,\ \text{the effective tax rate.}$$

[1] Proof gallons by which distilled spirits derived from eligible flavors exceed 2.5% of the total proof gallons in the batch (100.9 − (2.5% × 3,371.8) = 16.6).

taxes combining tax liabilities incurred under this part and parts 25 and 27 of this chapter, shall use a commercial bank in making payment by electronic fund transfer (EFT), as defined in paragraph (c) of this section, of such taxes during the succeeding calendar year. Payment of such taxes by cash, check, or money order is not authorized for a person bringing liquors and articles into the United States from the Virgin Islands who is required, by this section, to make remittances by EFT. For purposes of this section, the dollar amount of tax liability is to be summarized separately for distilled spirits taxes, wine taxes, or beer taxes, and is defined as the gross tax liability on all taxable withdrawals from premises in the United States and importations (including products of the same tax class brought into the United States from Puerto Rico or the Virgin Islands) during the calendar year, without regard to any drawbacks, credits, or refunds, for all premises from which such activities are conducted.

(b) For the purposes of this section, a ''person'' includes a controlled group of corporations, as defined in 26 U.S.C. 1563, and implementing regulations in 26 CFR 1.1563–1 through 1.1563–4, except that the words ''at least 80 percent'' shall be replaced by the words ''more than 50 percent'' in each place it appears in subsection (a) of 26 U.S.C. 1563, as well as in the implementing regulations. Also, the rules for a ''controlled group of corporations'' apply in a similar fashion to groups which include partnerships and/or sole proprietorships. (c) Electronic fund transfer or EFT means any transfer of funds, other than a transaction originated by check, draft, or similar paper instrument, which is initiated through an electronic terminal, telephonic instrument, or computer of magnetic tape, so as to order, instruct, or authorize a financial institution to either debit or credit an account, in accordance with procedures established by the U.S. Customs Service.

Subpart D—Tax On Imported Distilled Spirits, Wines, and Beer

DISTILLED SPIRITS

§ 27.40 Distilled spirits.

(a) A tax is imposed on all distilled spirits in customs bonded warehouses or imported into the United States at the rate prescribed by 26 U.S.C. 5001 on each proof gallon and a proportionate tax at a like rate on all fractional parts of each proof gallon. All products of distillation, by whatever name known, which contain distilled spirits, are considered to be distilled spirits and are taxed as such. The tax will be determined at the time of importation, or, if entered into bond, at the time of withdrawal therefrom.

(b) A credit against the tax imposed on distilled spirits by 26 U.S.C. 5001 is allowable under 26 U.S.C. 5010 on each proof gallon of alcohol derived from eligible wine or from eligible flavors which do not exceed 2½ percent of the finished product on a proof gallon basis. The credit is allowable at the time the tax is payable as if it constituted a reduction in the rate of tax.

(c) Where credit against the tax is desired, the person liable for the tax shall establish an effective tax rate in accordance with § 27.41. The effective tax rate established will be applied to each entry.

(Sec. 201, Pub. L. 85–859, 72 Stat. 1314, as amended (26 U.S.C. 5001); Sec. 201, Pub. L. 85–859, 72 Stat. 1356, as amended (26 U.S.C. 5201); Sec. 6, Pub. L. 96–598, 94 Stat. 3488, as amended (26 U.S.C. 5010))

[T.D. ATF–297, 55 FR 18069, Apr. 30, 1990]

§ 27.41 Computation of effective tax rate.

(a) The proprietor shall compute the effective tax rate for distilled spirits containing eligible wine or eligible flavors as the ratio of the numerator and denominator as follows:

(1) The numerator will be the sum of:

(i) The proof gallons of all distilled spirits used in the product (exclusive of distilled spirits derived from eligible flavors), multiplied by the tax rate prescribed by 26 U.S.C. 5001;

(ii) The wine gallons of each eligible wine used in the product, multiplied by the tax rate prescribed by 26 U.S.C. 5041(b)(1), (2), or (3), as applicable; and

(iii) The proof gallons of all distilled spirits derived from eligible flavors used in the product, multiplied by the tax rate prescribed by 26 U.S.C. 5001, but only to the extent that such distilled spirits exceed 2½% of the denominator prescribed in paragraph (a)(2) of this section.

(2) The denominator will be the sum of:

(i) The proof gallons of all distilled spirits used in the product, including distilled spirits derived from eligible flavors; and

(ii) The wine gallons of each eligible wine used in the product, multiplied by twice the percentage of alcohol by volume of each, divided by 100.

(b) In determining the effective tax rate, quantities of distilled spirits, eligible wine, and eligible flavors will be expressed to the nearest tenth of a proof gallon. The effective tax rate may be rounded to as many decimal places as the proprietor deems appropriate, provided that, such rate is expressed no less exactly than the rate rounded to the nearest whole cent, and the effective tax rates for all products will be consistently expressed to the same number of decimal places. In such case, if the number is less than five it will be dropped; if it is five or over, a unit will be added.

(c) The following is an example of the use of the formula.

BATCH RECORD

Distilled spirits	2249.1 proof gallons.
Eligible wine (14% alcohol by volume)	2265.0 wine gallons.
Eligible wine (19% alcohol by volume)	1020.0 wine gallons.
Eligible flavors	100.9 proof gallons.

$$\frac{2249.1(\$13.50)+2265.0(\$1.07)+1020(\$1.57)+16.6^{1}(\$13.50)}{2249.1+100.9+(2265.0\times.28)+(1020\times.38)}=$$

$$\frac{\$30{,}362.85+\$2{,}423.55+\$1{,}601.40+\$224.10}{2{,}350.0+634.2+387.6}=\frac{\$34{,}611.90}{3{,}371.8}=\$10.27,\ \text{the effective tax rate.}$$

§ 27.48a Payment of tax by electronic fund transfer.

(a) Each importer who was liable, during a calendar year, for a gross amount equal to or exceeding five million dollars in distilled spirits taxes combining tax liabilities incurred under this part and parts 19 and 26 of this chapter, a gross amount equal to or exceeding five million dollars in wine taxes combining tax liabilities incurred under this part and parts 24 and 26 of this chapter, or a gross amount equal to or exceeding five million dollars in beer taxes combining tax liabilities incurred under this part and parts 25 and 26 of this chapter, shall use a commercial bank in making payment by electronic fund transfer (EFT), as defined in paragraph (c) of this section, of such taxes during the succeeding calendar year. Payment of such taxes by cash, check, or money order is not authorized for an importer who is required, by this section, to make remittances by EFT. For purposes of this section, the dollar amount of tax liability is to be summarized separately for distilled spirits taxes, wine taxes, or beer taxes, and is defined as the gross tax liability on all taxable withdrawals from premises in the United States and importations (including products of the same tax class brought into the United States from Puerto Rico or the Virgin Islands) during the calendar year, without regard to any drawbacks, credits, or refunds, for all premises from which such activities are conducted by the taxpayer.

(b) For the purposes of this section, a taxpayer includes a controlled group of corporations, as defined in 26 U.S.C. 1563, and implementing regulations in 26 CFR 1.1563–1 through 1.1563–4, except that the words ''at least 80 percent'' shall be replaced by the words ''more than 50 percent'' in each place it appears in subsection (a) of 26 U.S.C. 1563, as well as in the implementing regulations. Also, the rules for a ''controlled group of corporations'' apply in a similar fashion to groups which include partnerships and/or sole proprietorships. If one entity maintains more than 50% control over a group consisting of corporations and one, or more, partnerships and/or sole proprietorships, all of the members of the controlled group are one taxpayer for the purpose of determining who is required to make remittances by EFT.

(c) Electronic fund transfer or EFT means any transfer of funds, other than a transaction originated by check, draft, or similar paper instrument, which is initiated through an electronic terminal, telephonic instrument, or computer of magnetic tape, so as to order, instruct, or authorize a financial institution to either debit or credit an account, in accordance with procedures established by the U.S. Customs Service.

(d) An importer who is required by this section to make remittances by EFT shall make the EFT remittance in accordance with the requirements of the U.S. Customs Service.

§ 27.140 Certification requirements for wine.

(a) *Definitions.* When used in this section, the following terms have the meaning indicated:

Affiliate means any one of two or more persons if one of such persons has actual or legal control, directly or indirectly, whether by stock ownership or otherwise, of the other or others of such persons, and includes a winery's parent or subsidiary or any other entity in which the winery's parent or subsidiary has a controlling ownership interest. An affiliate also means any one of two or more persons subject to common control, actual or legal, directly or indirectly, whether by stock ownership or otherwise.

Importer means any person importing wine who must obtain a permit as provided in § 27.55.

Natural wine means the product of the juice or must of sound, ripe grapes or other sound, ripe fruit (including berries) made with any cellar treatment authorized by subparts F and L of part 24 of this chapter and containing not more than 21 percent by weight (21 degrees Brix de-alcoholized wine) of total solids.

Produced, when used with reference to wine, means removed from the fermenter.

Proper cellar treatment means a production practice or procedure authorized by subparts F and L of part 24 of this chapter and, in the case of natural wine produced and imported subject to an international agreement or treaty, those practices and procedures acceptable to the United States under that agreement or treaty.

(b) *Certification*—(1) *General.* Except as otherwise provided in paragraph (b)(2) of this section, an importer of natural wine must have an original or copy of a certification from the producing country stating that the practices and procedures used to produce the imported wine constitute proper cellar treatment. The certification:

(i) Must be from a governmental or government-approved entity having oversight or control over enological practices in the producing country under the laws of that country;

(ii) Must include the results of a laboratory analysis of the wine conducted either by a government laboratory of the producing country or by a laboratory certified by the government of the producing country; and

(iii) Must be in the possession of the importer at the time of release of the wine from customs custody and may cover multiple importations provided that the wine in each case is of the same brand and class or type, was made by the same producer, was subjected to the same cellar treatment, and conforms to the statements made on the certification.

(2) *Alternative certifications and exemptions*—(i) The following are alternatives to the producing country certification and laboratory analysis requirement described in paragraph (b)(1) of this section:

(A) In the case of natural wine produced and imported subject to an international agreement or treaty specifying that the practices and procedures used to produce the wine are acceptable to the United States, no producing country certification and laboratory analysis is required, unless that international agreement or treaty requires

a certification, in which case the importer must have in his or her possession at the time of release of the wine from customs custody an original or copy of that certification.

(B) If an importer of natural wine or its affiliate owns or controls a winery operating under a basic permit issued under part 1 of this chapter, in lieu of a producing country certification and laboratory analysis, the importer may self-certify that the practices and procedures used to produce the wine constitute proper cellar treatment. The self-certification must be either in the format set forth in paragraph (c) of this section with blocks 1 through 4 completed or in an alternative format that sets forth the same information, and it must be in the possession of the importer at the time of release of the wine from customs custody. In the case of self-certification the importer also must have at the time of release from customs custody records to establish that the requirements for self-certification are met.

(ii) The following are exempt from any certification requirement under this section:

(A) Natural wine produced before January 1, 2005. However, in this case, the importer must have in his or her possession at the time of release of the wine from customs custody records to establish that the wine was produced before January 1, 2005.

(B) Importations of natural wine that are of a personal, non-commercial nature. Examples of non-commercial importations include importations by travelers, gift shipments between individuals, and importations by diplomats for embassy or consular use.

(C) Importations of natural wine that constitute commercial samples. Commercial samples include sales samples, samples for trade shows, and samples for laboratory analysis.

(D) Imported natural wine held on board international passenger carriers, such as cruise ships or airliners.

(c) *Form.* The format for certification referred to in paragraph (b) of this section is the following:

Certification of Natural Wine Imported into the United States

1. Producer name and address:
2. Description of wine:
3. Check applicable box: a. ☐ Producing country certification and laboratory analysis results completed below. b. ☐ Self-certification by importer completed below. An importer must be able to demonstrate the nature of the ownership or control as well as the nature of any affiliation.
4. Certification - I certify that the practices and procedures used to produce the wine described in block 2 constitute proper cellar treatment under 26 U.S.C. 5382 and 27 CFR 27.140. Name and address of certifying entity: Authorized signature: Name (print or type): Date (DD/MM/YY):
5. Analysis for wine described in block 2 Percentage alcohol (actual) by volume: Signature: Total sulphur dioxide (ppm): Name (print or type): Volatile acidity (grams per 100 mL): Date (DD/MM/YY): Name and address of laboratory:
6. TTB label approval identification number (required if certification is submitted subsequent to label approval):

(d) *Preparation of Certification.* The following rules apply for the completion of the certification set forth in paragraph (c) of this section:

(1) Block 1 must state the legal name and address (including country) of the producer of the wine.

(2) Block 2 must include a complete description of the wine, including its brand name, year of production, class or type, and country of origin.

(3) The importer must check the applicable box in block 3:

(i) The importer must check box 3a and ensure that blocks 4 and 5 are completed if no alternative certification applies to the wine under paragraph (b)(2)(i) of this section.

(ii) If paragraph (b)(2)(i)(B) applies to the wine, the importer must check box 3b and complete the certification in block 4.

(4) If the certification is submitted subsequent to approval of a label, the importer must complete block 6 by including the TTB identification number from the certificate of label approval, TTB Form 5100.31.

§ 28.22 Vessels employed in the fisheries.

Liquors may be withdrawn or laden under the provisions of paragraphs (b) and (e) of § 28.21 relating to vessels employed in the fisheries, only for use on vessels of the United States documented to engage in the fisheries and foreign fishing vessels of 5 net tons or over if the district director of customs is satisfied by reason of the quantity requested in the light of (a) whether the vessel is employed in substantially continuous fishing activities, and (b) the vessel's complement, that none of the liquors to be withdrawn or laden are intended to be removed from the vessel in, or otherwise returned to, the United States. Such withdrawal or lading shall be conditioned upon compliance with the applicable provisions of this part. Lading of such liquors for use

on such vessels shall be subject to approval by the district director of customs of a special written application by the withdrawer or the vessel's master on customs Form 5125 (in duplicate) and a statement by the withdrawer in his application or notice on the required TTB Form 5100.11, 5110.30, 1582–A (5120.24), 1582–B (5130.6), or 1689 (5130.12), as the case may be, that the liquors are to be laden for use as supplies on a vessel employed in the fisheries. The original application on customs Form 5125, after approval, shall be stamped with the serial number of the TTB Form 5100.11, 5110.30, 1582–A (5120.24), 1582–B (5130.6), or 1689 (5130.12), as the case may be, and the date thereof, and shall be returned by the district director of customs to the withdrawer or vessel's master for use as prescribed below. Approval of each such application shall be subject to the condition that the original shall be presented thereafter by the withdrawer or the vessel's master to the district director of customs within 24 hours (excluding Saturday, Sunday, and holidays) after each subsequent arrival of the vessel at a customs port or station and that an accounting shall be made at the time of such presentation of the disposition of the liquors until the district director of customs is satisfied that they have been consumed on board, or landed under customs supervision, and takes up the authorization. The approval of customs Form 5125 shall be subject to the further condition that any such liquors remaining on board while the vessel is in port shall be safeguarded in the manner and to such extent as the director of the port or place of arrival shall deem necessary. When such liquors have been accounted for to the satisfaction of the district director of customs, he shall execute his certificate of lading and use on both copies of the TTB Form 5100.11, 5110.30, 1582–A (5120.24), 1582–B (5130.6), or 1689 (5130.12), as the case may be, and forward the original of the form according to its instructions. In the event of a failure on the part of the withdrawer or the master of the vessel to comply with the conditions of this section or upon receipt of evidence that the liquors were not lawfully used as supplies on the vessel, the district director of customs shall advise the appropriate TTB officer of all the facts in the case for determination of any liability incurred. In the case of liquors withdrawn without payment of tax, assessment of tax liability found to have been incurred shall be made against the principal on the bond. Foreign-Trade Zones

§ 28.30 Export status.

(a) Distilled spirits and wines manufactured, produced, bottled in bottles packed in containers, or packaged in casks or other bulk containers in the United States, and beer brewed or produced in the United States may be transferred to a foreign-trade zone for the sole purpose of exportation, or storage pending exportation. Liquors deposited in a foreign-trade zone under this part solely for such purposes are considered to be exported. Export status is not acquired until application on Form 214 for admission of the liquors into the zone has been approved by the district director of customs under the appropriate provision of 19 CFR chapter I, and the required certification of deposit has been made on the TTB form prescribed in this part.

(b) The provisions of subpart H of this part do not apply to specially denatured spirits transferred to a foreign-trade zone for use in the manufacture of articles pursuant to the provisions of 19 U.S.C. 81c(c). Transfer of domestic specially denatured spirits to a qualified user in a foreign-trade zone is made free of tax under the provisions of part 20 of this chapter. Such transfer does not place the domestic specially denatured spirits in an export status.

§ 28.62 Bond, Form 2735 (5100.30).

(a) *Requirement for bond.* If a person other than the proprietor of the bonded premises withdraws distilled spirits or wine without payment of tax, as authorized by § 28.91(a)(1), (2), (3), (5), or § 28.121(a), (b), (c), or (d), the exporter shall file a continuing bond, TTB Form 2735 (5100.30), as provided in § 28.51.

(b) *Penal sum of bond.* The penal sum of the bond shall be sufficient to cover the tax on the maximum quantity of distilled spirits and wine that may remain unaccounted for at any one time. However, the maximum penal sum of the bond shall not exceed $200,000, but in no case shall the penal sum be less than $1,000. Distilled spirits and wine withdrawn for exportation, use on vessels or aircraft, transfer to a customs bonded warehouse, or transfer to and deposit in a foreign-trade zone, shall remain unaccounted for until the evidence of exportation, use, deposit, transfer, or loss in transit has been filed with the appropriate TTB officer.

(c) *Apportioning bonds.* If the bond, Form 2735 (5100.30), is in less than the maximum penal sum, the principal shall apportion the bond, in accordance with the requirements on the bond form. The exporter may reapportion the bond coverage, if changing conditions make this necessary, by filing a consent of surety, TTB Form 1533 (5000.18), in accordance with its instructions.

(d) *Withdrawal of wine for transfer to a customs bonded warehouse; consent of surety.* An exporter with a bond on Form 2735 (5100.30) executed before April 1, 1981, shall obtain a consent of surety on Form 1533 (5000.18) before withdrawing wine without payment of tax from a bonded wine cellar for transfer to a customs bonded warehouse. The consent shall be executed in

accordance with § 28.54 and filed in accordance with instructions on the form. Exporters with bonds executed on or after April 1, 1981, do not need this consent of surety, because such bonds automatically apply to withdrawals for transfer to customs bonded warehouses.

SPECIALLY DENATURED SPIRITS

§ 28.310 Loss of specially denatured spirits in transit.

Losses of specially denatured spirits withdrawn free of tax under this part during transportation from the bonded premises of the distilled spirits plant from which withdrawn to (a) the port of export, or (b) the foreign-trade zone, as the case may be, may be allowed if evidence satisfactory to the appropriate TTB officer establishes that such specially denatured spirits have not been unlawfully diverted, or lost by theft as the result of any connivance, collusion, fraud, or negligence on the part of the exporter, owner, consignor, consignee, bailee, or carrier, or the employees or agents of any of them. The giving of notice to the exporter, filing claims for allowance of loss, and action on the claims shall be, insofar as applicable, in accordance with the procedure prescribed in §§ 28.302 through 28.304.

§ 28.316 Notice to exporter.

If, on examination of the TTB Form 5100.11 received from the officer required to certify the same under the provisions of subpart N, the appropriate TTB officer is of the opinion that wine reported lost had been unlawfully diverted, or had been lost by theft, he will advise the exporter by letter:

(a) Of the identity of the containers;

(b) Of the amount of the loss;

(c) Of the circumstances indicating diversion or theft;

(d) That allowance of the loss will be subject to filing (1) proof that such loss is allowable under the provisions of 26 U.S.C. 5370, and (2) claim for remission of the tax on the wine so lost; and

(e) That action in respect of the loss will be withheld for a period of not more than 30 days to afford an opportunity to file such proof and claim.

In any case in which wines are lost during transportation, as described in § 28.315, whether by theft or otherwise, the appropriate TTB officer may require the exporter to file a claim for relief in accordance with § 28.317. Where circumstances may warrant, extensions of additional time for submission of the proof and claim may be granted by the appropriate TTB officer. Where such proof and claim are not filed within the 30-day period, or such extensions as the appropriate TTB officer may grant, the tax on the wine diverted or

lost will be assessed, or liability asserted against the bond covering the shipment, as the case may be.

Subpart A—Scope of Regulations

§ 30.1 Gauging of distilled spirits.

(a) *General.* This part relates to the gauging of distilled spirits. The term ''gauging'' means the determination of the proof and the quantity of distilled spirits. The procedures prescribed in or authorized under the provisions of this part, except as may be otherwise authorized in this chapter, shall be followed in making any determination of quantity or proof of distilled spirits required by or under the authority of regulations in this chapter. The tables referred to in subpart E of this part appear in the ''Gauging Manual Embracing Instructions and Tables for Determining Quantity of Distilled Spirits by Proof and Weight'' as incorporated by reference in this part (see paragraph (c) of this section). These tables, together with their instructions, shall be used, wherever applicable, in making the necessary computations from gauge data.

(b) *Tables referred to in subpart E of this part.* Table 1 provides a method of correcting hydrometer indications at temperatures between 0 and 100 degrees Fahrenheit to true proof. If distilled spirits contain dissolved solids, temperature correction of the hydrometer reading by the use of this table would result in apparent proof rather than true proof. Tables 2 and 3 show the gallonage of spirituous liquor according to weight and proof. Table 4 shows the gallons per pound at each one-tenth proof from 1 to 200 proof. Table 5 shows the weight per wine gallon and proof gallon at each proof. Table 6 shows the volumes of alcohol and water and the specific gravity (air and vacuum) of spirituous liquor at each proof. Table 7 provides a means of ascertaining the volume (at 60 degree Fahrenheit) of spirits at various temperatures ranging from 18 degrees through 100 degrees Fahrenheit.

(c) *Incorporation by reference.* The ''Gauging Manual Embracing Instructions and Tables for Determining Quantity of Distilled Spirits by Proof and Weight'' (Publication 5110.6; November 1978) is incorporated by reference in this part. This incorporation by reference was approved by the Director of the Federal Register on March 23, 1981. This publication may be inspected at the National Archives and Records Administration (NARA), and is available from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402. § 30.21 Requirements.

(a) *General.* The proof of distilled spirits shall be determined by the use of gauging instruments as prescribed in this part.

(b) *Proprietors.* Proprietors shall use only accurate hydrometers and thermometers that show subdivisions or graduations of proof and temperature which are at least as delimitated as the instruments described in § 30.22.

(c) *Appropriate TTB officers.* Appropriate TTB officers shall use only hydrometers and thermometers furnished by the Government. However, where this part requires the use of a specific gravity hydrometer, TTB officers shall use precision grade specific gravity hydrometers conforming to the provisions of § 30.24, furnished by the proprietor. However, the appropriate TTB officer may authorize the use of other instruments approved by the appropriate TTB officer as being equally satisfactory for determination of specific gravity and for gauging. From time to time appropriate TTB officers shall verify the accuracy of hydrometers and thermometers used by proprietors.

[T.D. ATF–198, 50 FR 8535, Mar. 1, 1985, as amended by T.D. ATF–438, 66 FR 5481, Jan. 19, 2001]

§ 30.22 Hydrometers and thermometers.

The hydrometers used are graduated to read the proof of aqueous alcoholic solutions at 60 degrees Fahrenheit; thus, they read, 0 for water, 100 for proof spirits, and 200 for absolute alcohol. Because of temperature-density relationships and the selection of 60 degrees Fahrenheit for reporting proof, the hydrometer readings will be less than the true percent of proof at temperatures below 60 degrees Fahrenheit and greater than the true percent of proof at temperatures above 60 degrees Fahrenheit. Hence, corrections are necessary for hydrometer readings at temperatures other than 60 degrees Fahrenheit. Precision hydrometers shall be used for gauging spirits. Hydrometers and thermometers shall be used and the true percent of proof shall be determined in accordance with § 30.31. Hydrometers are designated by letter according to range of proof and are provided in ranges and subdivisions of stems as follows:

Precision	Range	Subdivision
F	0 to 20	0.2°
G	20 to 40	0.2°
H	40 to 60	0.2°
I	60 to 80	0.2°
K	75 to 95	0.2°
L	90 to 110	0.2°
M	105 to 125	0.2°
N	125 to 145	0.2°
P	145 to 165	0.2°
Q	165 to 185	0.2°
R	185 to 206	0.2°

Thermometers are designated by type according to range of degrees Fahrenheit and are provided in ranges and subdivisions of degrees as follows:

Type	Range	Subdivision
Pencil type	10° to 100°	1°
V-back	10° to 100°	1°
Glass shell (earlier model)	40° to 100°	½°
Glass shell (later model)	40° to 100°	¼°

§ 30.23 Use of precision hydrometers and thermometers.

Care should be exercised to obtain accurate hydrometer and thermometer readings. In order to accomplish this result, the following precautions should be observed. Bulk spirits should be thoroughly agitated so that the test samples will be representative of the entire quantity. The hydrometers should be kept clean and free of any oily substance. Immediately before readings are taken, the glass cylinder containing the thermometer should be rinsed several times with the spirits which are to be gauged so as to bring both the cylinder and the thermometer to the temperature of the spirits (if time permits, it is desirable to bring both the spirits and the instruments to room temperature). If the outer surface of the cylinder becomes wet, it should be wiped dry to avoid the cooling effect of rapid evaporation. During the readings the cylinder should be protected from drafts or other conditions which might affect its temperature or that of the spirits which it contains. The hands should not be placed on the cylinder in such a manner as to warm the liquid contained therein. The hydrometer should be inserted in the liquid and the hydrometer bulb raised and lowered from top to bottom 5 or 6 times to obtain an even temperature distribution over its surface, and, while the hydrometer bulb remains in the liquid, the stem should be dried and the hydrometer allowed to come to rest without wetting more than a few tenths degrees of the exposed stem. Special care should be taken to ascertain the exact point at which the level of the surface liquid intersects the scale of proof in the stem of the hydrometer. The hydrometer and thermometer should be immediately read, as nearly simultaneously as possible. In reading the hydrometer, a sighting should be made slightly below the plane of the surface of the liquid and the line of sight should then be raised slowly, being kept perpendicular to the hydrometer stem, until the appearance of the surface changes from an ellipse to a straight line. The point where this line intersects the hydrometer scale is the correct reading of the hydrometer. When the correct readings of the hydrometer and the thermometer have been determined, the true percent of proof shall be ascertained from Table 1. Another sample of the spirits should then be taken and be tested in the same manner so as to verify the proof originally ascertained. Hydrometer readings should be made to the nearest 0.05 degree and thermometer readings should be made to the nearest 0.1 degree, and instrument correction factors, if any, should be applied. It is necessary to interpolate in Table 1 for fractional hydrometer and thermometer readings.

Example. A hydrometer reads 192.85° at 72.10 °F. The correction factors for the hydrometer and the thermometer, respectively are minus0.03° and plus0.05°. The corrected reading, then, is 192.82° at 72.15 °F.

From Table 1:		
193.0° at 72.0 °F.	=	190.2°
192.0° at 72.0 °F.	=	189.1°
Difference	=	1.1°
192.0° at 72.0 °F.	=	189.1°
192.0° at 73.0 °F.	=	188.9°
Difference	=	0.2°

The hydrometer difference (1.1°) multiplied by the fractional degree of the hydrometer reading (0.82°)=0.902.

The temperature difference (0.2°) multiplied by the fractional degree of the temperature reading (0.15°)=0.03°.

Proof at 60 °F.=189.1+0.902–0.03=189.972°=190.0°.

As shown, the final proof is rounded to the nearest tenth of a degree of proof. In such cases, if the hundredths decimal is less than five, it will be dropped; if it is five or over, a unit will be added.

§ 30.24 Specific gravity hydrometers.

(a) The specific gravity hydrometers furnished by proprietors to appropriate TTB officers shall conform to the standard specifications of the American Society for Testing and Materials (ASTM) for such instruments. Such specific gravity hydrometers shall be

of a precision grade, standardization temperature 60 °/60 °F., and provided in the following ranges and subdivisions:

Range	Subdivision
1.0000 to 1.0500	0.0005
1.0500 to 1.1000	0.0005
1.1000 to 1.1500	0.0005
1.1500 to 1.2000	0.0005
1.2000 to 1.2500	0.0005

No instrument shall be in error by more than 0.0005 specific gravity.

(b) A certificate of accuracy prepared by the instrument manufacturer for the instrument shall be furnished to the appropriate TTB officer.

(c) *Incorporation by reference.* The ''Standard Specification for ASTM Hydrometers,'' (E 100–72 (1978)), published in the ''1980 Annual Book of ASTM Standards'' (STP 25 1062 (1980)), is incorporated by reference in this part. This incorporation by reference was approved by the Director of the Federal Register on March 23, 1981. § 30.25 Use of precision specific gravity hydrometers.

The provisions of § 30.23 respecting the care, handling, and use of precision instruments shall be followed with respect to the care, handling, and use of precision grade specific gravity hydrometers. Specific gravity hydrometers shall be read to the nearest subdivision. Because of temperature density relationships and the selection of the standardization temperature of 60 °/60 °F., the specific gravity readings will be greater at temperatures below 60 degrees Fahrenheit and less at temperatures above 60 degress Fahrenheit. Hence, correction of the specific gravity readings will be made for temperature other than 60 degrees Fahrenheit. Such correction may be ascertained by dividing the specific gravity hydrometer reading by the applicable correction factor in Table 7.

Example: The specific gravity hydrometer reading is 1.1525, the thermometer reading is 68 degrees Fahrenheit, and the true proof of the spirits is 115 degrees. The correct specific gravity reading will be ascertained as follows:

(a) From Table 7, the correction factor for 115° proof at 68 °F. is 0.996.

(b) 1.1525 divided by 0.996=1.1571, the corrected specific gravity.

Subpart D—Gauging Procedures

§ 30.31 Determination of proof.

(a) *General.* The proof of spirits shall be determined to the nearest tenth degree which shall be the proof used in determining the proof gallons.

(b) *Solids content not more than 600 milligrams.* Except as otherwise authorized by the appropriate TTB officer, the proof of spirits containing not more than 600 milligrams of solids per 100 milliliters of spirits shall be determined by the use of a hydrometer and thermometer in accordance with the provisions of § 30.23 except that if such spirits contain solids in excess of 400 milligrams but not in excess of 600 milligrams per 100 milliliters at gauge proof, there shall be added to the proof so determined the obscuration determined as prescribed in § 30.32.

(c) *Solids content over 600 milligrams.* If such spirits contain solids in excess of 600 milligrams per 100 milliliters at gauge proof, the proof shall be determined on the basis of true proof determined as follows:

(1) By the use of a hydrometer and a thermometer after the spirits have been distilled in a small laboratory still and restored to the original volume and temperature by the addition of pure water to the distillate; or

(2) By a recognized laboratory method which is equal or superior in accuracy to the distillation method.

(d) *Initial proof.* Except when the proof of spirits is used in making the guage prescribed in 27 CFR 19.383 or in making a gauge for determination of tax, the initial determination of proof made on the bonded premises of a distilled spirits plant for such spirits may be used whenever a subsequent gauge is required to be made at that same plant provided that no material has been added to change the proof of the spirits.

EFFECTIVE DATE NOTE: By T.D. TTB–92, 76 FR 9171, Feb. 16, 2011, §30.31, paragraph (d) was amended by removing the reference to ''§19.383'' and adding, in its place, a reference to ''§19.353 of this chapter'', effective April 18, 2011.

§ 30.32 Determination of proof obscuration.

(a) *General.* Proof obscuration of spirits containing more than 400 but not more than 600 milligrams of solids per 100 milliliters shall be determined by one of the following methods. The evaporation method may be used only for spirits in the range of 80–100 degrees at gauge proof.

(b) *Evaporation method.* Evaporate the water and alcohol from a carefully measured 25 milliliter sample of spirits, dry the residue at 100 degrees centigrade for 30 minutes and then weigh the residue precisely. Multiply the weight of the residue by 4 to determine the weight of solids in 100 milliliters. The resulting weight per 100 milliliters multiplied by 4 will give the obscuration. Experience has shown that 0.1 gram (100 milligrams) of solids per 100 milliliters of spirits in the range of 80–100 degrees proof will obscure the true proof by 0.4 of one degree of proof. For example, if the weight of solids remaining after evaporation of 25 milliliters 0.125 gram, the amount of solids present in 100 milliliters of the spirits is 0.50 gram (4 times 0.125). The obscuration is 4 times 0.50, which is two degrees of proof. This value added to the temperature corrected hydrometer reading will give the true proof.

(c) *Distillation method.* Determine the apparent proof and temperature of the sample of spirits and then distill a carefully measured sample in a small laboratory still, and collect a quantity of the distillate, 1 or 2 milliliters less than the original sample. The distillate is adjusted to the original temperature and restored to the original volume by addition of distilled water. The proof of the restored distillate is then determined by use of a precision hydrometer and thermometer in accordance with the provisions of §30.23 to the nearest 0.1 degree of proof. The difference between the proof so determined and the apparent proof of the undistilled sample is the obscuration; or

(d) *Pycnometer method.* Determine the specific gravity of the undistilled sample, distill and restore the samples as provided in paragraph (c) of this section and determine the specific gravity of the restored distillate by means of a pycnometer. The specific gravities so obtained will be converted to degrees of proof by interpolation of Table 6 to the nearest 0.1 degree of proof. The difference in proof so obtained is the obscuration.

DETERMINATION OF QUANTITY

§ 30.36 General requirements.

The quantity determination of distilled spirits that are withdrawn from bond in bulk upon tax determination or payment shall be by weight. The quantity of other distilled spirits or denatured spirits may be determined by weight or by volume. When the quantity of distilled spirits or denatured distilled spirits is determined by volume, such determination may be by meter as provided in 27 CFR Part 19, or when approved by the appropriate TTB officer, another method or device.

(Sec. 201, Pub. L. 85–859, 72 Stat. 1358, as amended (26 U.S.C. 5204))

[T.D. ATF–198, 50 FR 8535, Mar. 1, 1985]

DETERMINATION OF QUANTITY BY WEIGHT

§ 30.41 Bulk spirits.

When spirits (including denatured spirits) are to be gauged by weight in bulk quantities, the weight shall be determined by means of weighing tanks, mounted on accurate scales. Before each use, the scales shall be balanced at zero load; thereupon the spirits shall be run into the weighing tank and proofed as prescribed in § 30.31. However, if the spirits are to be reduced in proof, the spirits shall be so reduced before final determination of the proof. The scales shall then be brought to a balanced condition and the weight of the spirits determined by reading the beam to the nearest graduation mark. From the weight and the proof thus ascertained, the quantity of the spirits in proof gallons shall be determined by reference to Table 4. However, in the case of spirits which contain solids in excess of 600 milligrams per 100 milliliters, the quantity in proof gallons shall be determined by first ascertaining the wine gallons per pound of the spirits and multiplying the wine gallons per pound by the weight, in pounds, of the spirits being gauged and by the true proof (determined as prescribed in § 30.31) and dividing the result by 100. The wine gallons per pound of spirits containing solids in excess of 600 milligrams per 100 milliliters shall be ascertained by:

(a) Use of a precision hydrometer and thermometer, in accordance with the provisions of § 30.23, to determine the apparent proof of the spirits (if specific gravity at the temperature of the spirits is not more than 1.0) and reference to Table 4 for the wine gallons per pound, or

(b) Use of a specific gravity hydrometer, in accordance with the provisions of § 30.25, to determine the specific gravity of the spirits (if the specific gravity at the temperature of the spirits is more than 1.0) and dividing that specific gravity (corrected to 60 degrees Fahrenheit) into the factor 0.120074 (the wine gallons per pound for water at 60 degrees Fahrenheit). When withdrawing a portion of the contents of a weighing tank, the difference between the quantity (ascertained by proofing and weighing) in the tank immediately before the removal of the spirits and the quantity (ascertained by proofing and weighing) in the tank immediately after the removal of the spirits shall be the quantity considered to be withdrawn.

(Sec. 201, Pub. L. 85–859, 72 Stat. 1358, as amended (26 U.S.C. 5204))

§ 30.42 Denatured spirits.

The quantity, in gallons, of any lot or package of specially denatured spirits may be determined by weighing it and then dividing its weight by the weight per gallon of the formula concerned, as given in the appropriate tables in subpart H of 27 CFR Part 21. In the case of completely denatured spirits, the gallonage of any lot or package may be ascertained by determining its weight and apparent proof (hydrometer indication, corrected to 60 degrees Fahrenheit) and then multiplying the weight of the wine gallons per pound factor shown in Table 4 for the (apparent) proof.

§ 30.43 Packaged spirits.

When the quantity of spirits (including denatured spirits when gauged by weight) in packages, such as barrels, drums, and similar portable containers, is to be determined by gauge of the individual packages, such quantity shall, except as provided in paragraph (b) of this section, be determined by weighing each package on an accurate weighing beam or platform scale having a beam or dial showing weight in pounds and half pounds, where packages having a capacity in excess of 10 wine gallons are to be gauged, or in pounds and ounces, or pounds and hundredths of a pound, where packages designed to hold 10 wine gallons or less are to be gauged. In either case the tare must be determined and subtracted from the gross weight to obtain the net weight. From the proof and weight ascertained, the quantity of the spirits in proof gallons shall be determined by reference to Table 2, 3, or 4. However, if the spirits contain solids in excess of 600 milligrams per 100 milliliters, the proof gallons shall be determined as prescribed

for such spirits in § 30.41. Notwithstanding the provisions of this section or of § 30.44, (a) gross weights and tares of packages being filled need not be taken in any case where the gauge of the spirits is not derived from such weights under the gauging procedure being utilized, and (b) meters, other devices, or other methods may be used for determining the quantity of spirits in individual packages, when such meter is used as provided in 27 CFR Part 19, or, when such other device or method has been approved by the appropriate TTB officer.

[T.D. ATF–198, 50 FR 8535, Mar. 1, 1985, as amended by T.D. ATF–381, 61 FR 37004, July 16, 1996]

§ 30.44 Weighing containers.

(a) *Weighing containers of more than 10 wine gallons.* The weight of containers having a capacity in excess of 10 wine gallons shall be determined and recorded in pounds and half pounds.

(b) *Weighing containers of 10 wine gallons or less.* The weight for containers of a capacity of 10 wine gallons or less shall be determined in pounds and ounces, or pounds and hundredths of a pound, and shall be recorded in pounds and hundredths of a pound. The equivalent pounds and hundredths of pounds and the corresponding wine gallons and proof gallons shall be expressed as shown in the following table for the respective weights in pounds and ounces and proofs shown therein or, as applicable, computed in accordance with rules in this section.

WEIGHT OF CONTENTS

Size of container, wine gallons	Pounds	Ozs.	Weight in pounds and hundredths of a pound	Contents in wine gallons	Proof gallons
190 proof spirits:					
1	6	13	6.81	1	1.9
2	13	10	13.63	2	3.8
5	34	00	34.00	5	9.5
10	68	00	68.00	10	19.0
192 proof spirits:					
1	6	13	6.81	1	1.9
2	13	9	13.56	2	3.8
5	33	13	33.81	5	9.6
10	67	10	67.63	10	19.2
200 proof spirits:					
1	6	10	6.63	1	2.0
2	13	4	13.25	2	4.0
5	33	1	33.06	5	10.0
10	66	2	66.12	10	20.0

(c) *Containers of other proofs or sizes.* Where containers of proofs or sizes not shown above are to be filled, the following rule may be used for ascertaining the weight of the spirits to be placed in the container: Divide the number of gallons representing the quantity of spirits to be placed in the container by the fractional part of a gallon equivalent to 1 pound, to obtain the weight of the spirits in pounds and fractions of a pound to two decimal places. Reduce the decimal fraction of a pound to ounces by multiplying by 16, calling any fraction of an ounce a whole ounce. The pounds and ounces thus obtained will determine the point to which the spirits must be weighed to produce the results desired. If the weight must be marked on the container in pounds and decimal fractions of a pound, it will be necessary to convert the ounces to hundredths of a pound. The fraction of a gallon equivalent to 1 pound at any given proof shall be ascertained by reference to Table 4. However, if the spirits contain solids in excess of 600 milligrams per 100 milliliters, the fraction of a gallon equivalent to 1 pound shall be determined as prescribed for such spirits in § 30.41.

Example. It is desired to fill a 1-gallon can with precisely 1 wine gallon of 194 proof spirits:

1.00 divided by 0.14866=6.73 pounds.

0.73 multiplied by 16=11.68 ounces, rounded to 12 ounces.

Weight of spirits—6 pounds, 12 ounces.

Weight, if required, to be marked on can-6.75 pounds.

(Sec. 201, Pub. L. 85–859, 72 Stat. 1358, as amended, 1362, as amended (26 U.S.C. 5204, 5211))

§ 30.45 Withdrawal gauge for packages.

When wooden packages are to be individually gauged for withdrawal, actual tare of the packages shall be determined. The actual tare of a package shall be determined by weighing it after its contents (including rinse water, if any) have been temporarily removed to a separate container or vessel. Where the contents of packages have been temporarily removed for determination of tare, the proof, if any rinse water is added to the spirits, shall be determined after a thorough mixing of the rinse water and the spirits and before return of the spirits to the rinsed packages, and the gross weight shall be determined after the spirits and any added rinse water have been returned to the packages. In the case of metal packages the tare established at the time of filling may be used unless it appears to be incorrect. From the proofs and the net weights of the packages, the wine gallons (if desired) and the proof gallons of spirits shall be determined by the use of Table 2. However, if the spirits contain solids in excess of 600 milligrams per 100 milliliters, the wine gallon and proof gallon contents shall be determined as prescribed for such spirits in § 30.41. If either the weight or the proof is beyond the limitations of table 2, either table 3 or table 4 may be used.

(Sec. 201, Pub. L. 85–859, 72 Stat. 1358, as amended (26 U.S.C. 5204))

Determination of Quantity by Volume

§ 30.51 Procedures for measurement of bulk spirits.

Where the quantity of spirits (including denatured spirits) in bulk is to be determined by volume as authorized by this chapter, the measurement shall be made in tanks, by meters as provided in 27 CFR part 19, or by other devices or methods authorized by the appropriate TTB officer, or as otherwise provided in this chapter, or such measurement may be made in tank cars or tank trucks if calibration charts for such conveyances are provided and such charts have been accurately prepared, and certified as accurate, by engineers or other persons qualified to calibrate such conveyances. Volumetric measurements in tanks shall be made only in accurately calibrated tanks equipped with suitable measuring devices, whereby the actual contents can be correctly ascertained. If the temperature of spirits (including denatured spirits) is other than the standard of 60 degrees Fahrenheit, gallonage determined by volumetric measurements shall be corrected to the standard temperature by means of table 7. In the case of denatured spirits, the temperature-correction factor for the proof of the spirits used in denaturation will give sufficiently accurate results, except that the temperature-correction factor used for specially denatured spirits, Formula No. 18, should be that given in table 7 for 100 proof spirits. When the quantity of spirits, in wine gallons, has been determined by volumetric measurement, the number of proof gallons shall be obtained by multiplying the wine gallons by the proof of the spirits as determined under § 30.31.

Example. Gauge glass reading inches—88.
Wine gallons per inch—48.96.
Temperature °F—72.
Proof of spirits—86.8.
Temperature correction factor (Table 7)—0.995.
48.96 W.G.×88=4308.48 wine gallons.
4308.48 W.G.×0.995=4286.94 wine gallons.
4286.94 W.G.×0.868=3721.06392=3721.1 proof gallons.

[T.D. ATF–198, 50 FR 8535, Mar. 1, 1985, as amended by T.D. ATF–381, 61 FR 37004, July 16, 1996]

§ 30.52 Procedure for measurement of cased spirits.

Where the quantity of spirits in a case is to be determined by volume, such determination shall be made by ascertaining the contents of one bottle in the case and multiplying that figure by the number of bottles in the case. For cases containing bottles filled according to the metric system of measure, the quantity determined shall be converted to wine gallons, as provided in § 19.722 of this chapter. The wine gallons of spirits thus determined for one case may then be multiplied by the number of cases containing spirits at the same proof when determining the

quantity of spirits for more than one case. The proof gallons of spirits in cases shall be determined by multiplying the wine gallons by the proof (divided by 100).

Subpart E—Prescribed Tables

NOTE. The tables referred to in this subpart appear in their entirety in the ''Gauging Manual Embracing Instructions and Tables for Determining Quantity of Distilled Spirits by Proof and Weight'' which is incorporated by reference in this part (see § 30.1).

§ 30.61 Table 1, showing the true percent of proof spirit for any indication of the hydrometer at temperatures between zero and 100 degrees Fahrenheit.

This table shows the true percent of proof of distilled spirits for indications of the hydrometer likely to occur in practice at temperatures between zero and 100 degrees Fahrenheit and shall be used in determining the proof of spirits. The left-hand column contains the reading of the hydrometer and on the same horizontal line, in the body of the table, in the ''Temperature'' column corresponding to the reading of the thermometer is the corrected reading or ''true percent of proof.'' The table is computed for tenths of a percent.

Example.

Temperature, °F	75
Hydrometer reading	193
True percent of proof	189.5

Where fractional readings are ascertained, the proper interpolations will be made (see § 30.23). If the distilled spirits contain dissolved solids, temperature-correction of the hydrometer reading by the use of this table would result in apparent proof rather than true proof.

(Sec. 201, Pub. L. 85–859, 72 Stat. 1358, as amended (26 U.S.C. 5204))

§ 30.62 Table 2, showing wine gallons and proof gallons by weight.

The wine and proof gallon content by weight and proof of packages of distilled spirits usually found in actual practice will be ascertained from this table. The left-hand column contains the weights. The true percent of proof is shown on the heading of each page in a range from 90 degrees to 200 degrees. Under the true percent of proof and on the same horizontal line with the weight will be found the wine gallons (at 60 degrees Fahrenheit) and the proof gallons respectively. Where either the weight or the proof of a quantity of spirits is beyond the limitations of this table, the number of proof gallons may be ascertained by reference to Table 3. This table may also be used to ascertain the wine gallons (at 60 degrees Fahrenheit) and proof gallons of spirituous liquor containing dissolved solids where the weight, apparent proof (hydrometer indication corrected to 60 degrees Fahrenheit), and obscuration factor have been determined.

Example. 334 lbs. of distilled spirits.
Apparent proof—96.0°.
Obscuration—0.8°.
True Proof 96.0°+0.8°=96.8°.
334 lbs. at 96.0° apparent proof=42.8 wine gallons.
42.8 wine gallons×96.8°=41.4 proof gallons.

In addition this table may be used to obtain the wine gallons, at the prevailing temperature, of most liquids within the range of the table, from the weight of the liquid and the uncorrected reading of the hydrometer stem. An application of this would be in determining the capacity of a package.

Example. It is desired to determine, or to check the rated capacity of a package having a net weight of 395 pounds when completely filled with spirits having an uncorrected hydrometer reading of 113.0°. The full capacity of the package, 51.5 wine gallons, would be found by referring to the table at 395 pounds and 113° proof (hydrometer reading).

(Sec. 201, Pub. L. 85–859, 72 Stat. 1358, as amended, 1362, as amended (26 U.S.C. 5204, 5211))

§ 30.63 Table 3, for determining the number of proof gallons from the weight and proof of spirituous liquor.

When the weight or proof of a quantity of distilled spirits is not found in Table 2, the proof gallons may be ascertained from Table 3. The wine gallons (at 60 degrees Fahrenheit) may be ascertained by dividing the proof gallons by the proof.

Example. A tank car of spirits of 190 degrees of proof weighed 60,378 pounds net. We find—

	Proof gallons
60,000 pounds equal to	16,778.4
300 pounds equal to	83.9
70 pounds equal to	19.6
8 pounds equal to	2.2
Total	16,884.1

That is, the total weight of 60,378 pounds of spirits at 190 proof is equal to 16,884.1 proof gallons. The equivalent gallonage for 70 pounds is found from the column 700 pounds by moving the decimal point one place to the left; that for 8 pounds from the column 800 pounds by moving the decimal point two places to the left.

Example. A package of spirits at 86 proof weighed 321½ pounds net. We find—

	Proof gallons
300 pounds equal to	32.7
20 pounds equal to	2.2
1 pound equal to	.1
½ pound equal to	.1
Total	35.1

That is, 321½ pounds of spirits at 86 proof is equal to 35.1 proof gallons. The equivalent gallonage for 20 pounds is found from the column 200 pounds by moving the decimal point one place to the left; that for 1 pound from the column 100 pounds by moving the decimal point two places to the left; that for the ½ pound from the column 500 pounds by moving the decimal point three places to the left.

Fractional gallons beyond the first decimal ascertained through use of this table will be dropped if less than 0.05 or will be added as 0.1 if 0.05 or more. The wine gallons (at 60 degrees Fahrenheit) may be determined by dividing the proof gallons by the proof. For example: 35.1 divided by 0.86 equals 40.8 wine gallons.

(Sec. 201, Pub. L. 85–859, 72 Stat. 1358, as amended (26 U.S.C.5204))

§ 30.64 Table 4, showing the fractional part of a gallon per pound at each percent and each tenth percent of proof of spirituous liquor.

This table provides a method for use in ascertaining the wine gallon (at 60 degrees Fahrenheit) and/or proof gallon contents of containers of spirits by multiplying the net weight of the spirits by the fractional part of a gallon per pound shown in the table for spirits of the same proof. Fractional gallons beyond the first decimal will be dropped if less than 0.05 or will be added as 0.1 if 0.05 or more.

Example. It is desired to ascertain the wine gallons and proof gallons of a tank of 190 proof spirits weighing 81,000 pounds.

81,000×0.14718=11,921.58=11,921.6 wine gallons.
81,000×0.27964=22,650.84=22,650.8 proof gallons.

This table may also be used for ascertaining the quantity of water required to reduce to a given proof. To do this, divide the proof gallons of spirits to be reduced by the fractional part of a proof gallon per pound of spirits at the proof to which the spirits are to be reduced, and subtract from the quotient the net weight of the spirits before reduction. The remainder will be the pounds of water needed to reduce the spirits to the desired proof.

Example. It is desired to ascertain the quantity of water needed to reduce 1,000 pounds of 200 proof spirits, 302.58 proof gallons, to 190 proof:

302.58 divided by 0.27964 equals 1,082.03 pounds, weight of spirits after reduction.
1.082.03 minus 1,000 equals 82.03 pounds, weight of water required to reduce to desired proof.

The slight variation between this table and Tables 2, 3, and 5 on some calculations is due to the dropping or adding of fractions beyond the first decimal in those tables. This table may also be used to determine the wine gallons (at 60 degrees Fahrenheit) of distilled spirits containing dissolved solids from the total weight of the liquid and its apparent proof (hydrometer indication, corrected to 60 degrees Fahrenheit). The proof gallons may then be found by multiplying the wine gallons by the true proof.

Example. 5,350 pounds of blended whisky containing added solids

Temperature °F.....75.0°
Hydrometer reading.....92.0°
Apparent proof.....85.5°
Obscuration.....0.5°
True proof.....86.0°

5,350.0 lbs.×0.12676 (W.G. per pound factor for apparent proof of 85.5°)=678.2 wine gallons

678.2 W.G.×0.86=583.3 proof gallons

(Sec. 201, Pub. L. 85–859, 72 Stat. 1358, as amended 1362, as amended (26 U.S.C. 5204, 5211))

§ 30.65 Table 5, showing the weight per wine gallon (at 60 degrees Fahrenheit) and proof gallon at each percent of proof of spirituous liquor.

This table may be used to ascertain the weight of any given number of wine gallons (at 60 degrees Fahrenheit) or proof gallons of spirits by multiplying the pounds per gallon by the given number of gallons of the spirits. The table should be especially useful where it is desired to weigh a precise quantity of spirits.

Example. It is desired to ascertain the weight of 100 wine gallons of 190 proof spirits:

6.79434×100 equals 679.43 pounds, net weight of 100 wine gallons of 190 proofs spirits.

Example. It is desired to ascertain the weight of 100 proof gallons of 190 proof spirits.

3.57597×100 equals 357.60 pounds, net weight of 100 proof gallons of 190 proof spirits.

The slight variation between this table and Tables 2 and 3 on some calculations is due to dropping or adding of fractions beyond the first decimal on those tables. This table also shows the weight per wine gallon (at the prevailing temperature) corresponding to each uncorrected reading of a proof hydrometer.

(Sec. 201, Pub. L. 85–859, 72 Stat. 1358, as amended (26 U.S.C. 5204))

§ 30.66 Table 6, showing respective volumes of alcohol and water and the specific gravity in both air and vacuum of spirituous liquor.

This table provides an alternate method for use in ascertaining the quantity of water needed to reduce the strength of distilled spirits by a definite amount. To do this, divide the alcohol in the given strength by the alcohol in the required strength, multiply the quotient by the water in the required strength, and subtract the water in the given strength from the product. The remainder is the number of gallons of water to be added to 100 gallons of spirits of the given strength to produce a spirit of a required strength.

Example. It is desired to reduce spirits of 191 proof to 188 proof. We find that 191 proof spirits contains 95.5 parts alcohol and 5.59 parts water, and 188 proof spirits contains 94.0 parts alcohol and 7.36 parts water.

95.5 (the strength of 100 wine gallons of spirits at 191 proof) divided by 94.0 (the strength of 100 wine gallons of spirits at 188 proof) equals 1.01.

7.36 (the water in 188 proof) multiplied by 1.01 equals 7.43.

7.43 less 5.59 (the water in 191 proof spirits) equal 1.84 gallons of water to be added to each 100 wine gallons of 191 proof spirits to be reduced.

This rule is applicable for reducing to any proof; but when it is desired to reduce to 100 proof, it is sufficient to point off two decimals in the given proof, multiply by 53.73, and deduct the water in the given strength. Thus, to reduce 112 proof spirits to 100 proof:

1.12×53.73–47.75 equals 12.42 gallons of water to be added to each 100 wine gallons of spirits to be reduced.

This table may also be used to obtain the proof gallonage of spirituous liquor according to weight and percent of proof.

Example. It is desired to determine the number of gallons in 400 pounds of spirits of 141 percent of proof. Multiply the weight of one gallon of water in air by the specific gravity in air of the spirits—8.32823 by 0.88862—the product (7.40063) divided into 400 gives 54.049 wine gallons, which rounded to the nearest hundredth is 54.05 and multiplied by 1.41 gives 76.2 proof gallons. In rounding off where the decimal is less than five, it will be dropped; if it is five or over a unit will be added.

(Sec. 201, Pub. L. 85–859, 72 Stat. 1358, as amended (26 U.S.C. 5204))

§ 30.67 Table 7, for correction of volume of spirituous liquors to 60 degrees Fahrenheit.

This table is prescribed for use in correcting spirits to volume at 60 degrees Fahrenheit. To do this, multiply the wine gallons of spirits which it is desired to correct to volume at 60 degrees Fahrenheit by the factor shown in the table at the percent of proof and temperature of the spirits. The product will be the corrected gallonage at 60 degrees Fahrenheit. This table is also prescribed for use in ascertaining the true capacity of containers where the wine gallon contents at 60 degrees

Fahrenheit have been determined by weight in accordance with Tables 2, 3, 4, or 5. This is accomplished by dividing the wine gallons at 60 degrees Fahrenheit by the factor shown in the table at the percent of proof and temperature of the spirits. The quotient will be the true capacity of the container.

Example. It is desired to ascertain the volume at 60 degrees Fahrenheit of 1,000 wine gallons of 190 proof spirits at 76 degrees Fahrenheit:

1,000×0.991 equals 991 wine gallons, the corrected gallonage at 60 degrees Fahrenheit.

Example. It is desired to ascertain the capacity of a container of 190 proof spirits at 76 degrees Fahrenheit, shown by Table 2 to contain 55.1 wine gallons at 60 degrees Fahrenheit:

55.1 divided by 0.991 equals 55.6 wine gallons, the true capacity of the container when filled with spirits of 60 degrees temperature.

It will be noted the table is prepared in multiples of 5 percent of proof and 2 degrees temperature. Where the spirits to be corrected are of an odd temperature, one-half of the difference, if any, between the factors for the next higher and lower temperature, should be added to the factor for the next higher temperature.

Example. It is desired to correct spirits of 180 proof at 51 degrees temperature:

1.006 (50°) − 1.005 (52°)=0.001 divided by 2=0.0005
0.0005+1.005=1.0055 correction factor at 51 °F.

Example. It is desired to correct spirits of 180 proof at 53 degrees temperature:

1.005 (52°) − 1.003 (54°)=0.002 divided by 2=0.001
0.001+1.003=1.004 correction factor at 53 °F.

Where the percent of proof is other than a multiple of five, the difference, if any, between the factors for the next higher and lower proofs should be divided by five and multiplied by the degrees of proof beyond the next lower proof, and the fractional product so obtained should be added to the factor for the next lower proof (if the temperature is above 60 degrees Fahrenheit, the fractional product so obtained must be subtracted from the factor for next lower proof), or if it is also necessary to correct the factor because of odd temperature, to the temperature corrected factor for the next lower proof.

Example. It is desired to ascertain the correction factor for spirits of 112 proof at 47 degrees temperature:

1.006 (46°) − 1.005 (48°)=0.001 divided by 2=0.0005
0.0005+1.005=1.0055 corrected factor at 47 °F.
1.007 (115 proof) − 1.006 (110 proof)=0.001
0.001 divided by 5=0.0002 (for each percent of proof)×2 (for 112 proof)=0.0001
0.0004=1.0055 (corrected factor at 47 °F.)=1.0059 correction factor to be used for 112 proof at 47 °F

Example. It is desired to ascertain the correction factor for spirits of 97 proof at 93 degrees temperature:

0.986 (92°) − 0.985 (94°)=0.001 divided by 2=0.0005
0.0005+0.985=0.9855 corrected factor at 93 °F.
0.986 (95 proof) − 0.985 (100 proof)=0.001
0.001 divided by 5=0.0002 (for each percent of proof)×2 (for 97 proof)=0.0004
0.9855 (corrected factor at 93 °F.)=0.0005=0.9851 correction factor to be used for 97 proof at 93 °F.

(Sec. 201, Pub. L. 85–859, 72 Stat. 1358, as amended (26 U.S.C. 5204))

The proof of spirits shall be determined to the nearest tenth degree which shall be the proof used in determining the proof gallons and all fractional parts thereof to the nearest tenth proof gallon. The proof of spirits containing solids of 400 milligrams or less per 100 milliliters shall be determined by the use of a hydrometer and a thermometer in accordance with the provisions of § 30.23. However, notwithstanding the provisions of § 30.31, the proprietor may, at his option, add to the proof so determined the obscuration determined as prescribed in § 30.32.

§ 30.72 Recording obscuration by proprietors using the optional method for determination of proof.

Any proprietor using the optional method for determination of proof for

spirits containing solids of 400 milligrams or less per 100 milligrams as provided in §30.71 shall record the obscuration so determined on the record of gauge required by 27 CFR part 19.

(Sec. 201, Pub. L. 85–859, 72 Stat. 1358, as amended, 1362, as amended (26 U.S.C. 5211))

A failure to submit a registration includes a failure to include the identifying number on the registration.

(c) *Reasonable cause.* The administrative penalty described in paragraph (b) of this section is not imposed when it is shown that the failure was due to reasonable cause and not due to willful neglect. A dealer who believes that the circumstances that led to the failure were reasonable and who desires to have the penalty waived shall submit a

written statement, under the penalty of perjury, affirmatively showing all of the circumstances alleged as reasonable causes for the failure. If the appropriate TTB officer determines that the failure was due to a reasonable cause and not to willful neglect, the penalty will not be assessed. If the dealer exercised ordinary business care and prudence but was nevertheless unable to comply with the requirement, then the failure was due to reasonable cause. Mere ignorance of the law will not be considered a reasonable cause.

(2) Conducts a bar for the sale of liquors on the occasion of an outing, picnic, or other entertainment, unless the club is a ''limited retail dealer'' described in § 31.35. The registration of the proprietor of the premises where the bar is located will not relieve the club or organization from its own obligation to register; or

(3) Purchases liquors for members without prior agreement concerning payment therefor and such organization subsequently recoups those costs.

(b) Compliance with the registration and other requirements of this part is not required if money is collected in advance from members for the purchase of liquors, or if money is advanced for the purchase of liquors pursuant to an agreement with the members for reimbursement.

(26 U.S.C. 5122)

§ 31.42 Restaurants serving liquors with meals.

A State, a political subdivision of a State, or the District of Columbia, that engages in the business of selling, or offering for sale, distilled spirits, wines, or beer is not exempt from the requirements of this part. However, no such governmental entity shall be required to register more than once as a retail dealer in liquors regardless of the number of locations at which the entity carries on business as a retail dealer in liquors. Any such governmental entity that has properly registered as a wholesale dealer at its principal office, and that has properly registered once as a retail dealer in liquors or beer, is not required to register again at its retail stores by reason of the sale of distilled spirits, wines, or beer at any of those locations to dealers qualified to do business as a dealer within the jurisdiction of that governmental entity.

(26 U.S.C. 5121)

Any person who sells denatured spirits, or any substance or preparation made with or containing denatured spirits, for use, or for sale for use, for beverage purposes, or who sells any such products under circumstances in which it might reasonably appear that it is the intention of the purchaser to procure the same for sale or use for beverage purposes, is subject to the registration and other requirements of this part.

(a) *General.* Compliance with the provisions of this part is required with respect to the sale, or offering for sale, of alcoholic compounds, preparations, or mixtures containing distilled spirits, wines, or beer, unless those compounds, preparations, or mixtures are unfit for use for beverage purposes and are sold solely for use for nonbeverage purposes.

(b) *Products unfit for beverage use.* Products described in §19.58 of this chapter, for which manufacturers are exempt from qualification requirements, shall be deemed to be unfit for beverage purposes for the purposes of this part.

EFFECTIVE DATE NOTE: By T.D. TTB–92, 76 FR 9172, Feb. 16, 2011, §31.45, paragraph (b) was amended by removing the reference to ''§19.58'' and adding in its place a reference to ''§19.5'', effective April 18, 2011.

(26 U.S.C. 5121, 5122)

§ 31.47 Warehouse receipts covering spirits.

The sale of warehouse receipts for distilled spirits is equivalent to the sale of distilled spirits. Accordingly, every person who sells, or offers for sale, warehouse receipts for distilled spirits held or stored in a distilled spirits plant, customs bonded warehouse, or elsewhere, is required to register and keep records as a wholesale dealer in liquors, or as a retail dealer in liquors, as the case may be, at the place where those warehouse receipts are

sold, or offered for sale, unless the person is exempt from those requirements under subpart D of this part.

(26 U.S.C. 5121, 5122)

§ 31.48 Alcohol beverage producers, processors, and bonded warehousemen.

Brewers and proprietors of distilled spirits plants, bonded wine cellars, bonded wine warehouses, and taxpaid wine bottling houses who make sales, whether of their own alcohol beverage products or of such products produced by others, are not exempt from registration and recordkeeping as dealers under this part. However, the registration and recordkeeping requirements applicable to such persons are prescribed in parts 19 (Distilled Spirits Plants), 24 (Wine), and 25 (Beer) of this chapter.

Subpart D—Exemptions and Exceptions

PERSONS EXEMPT FROM REGISTRATION AND/OR RECORDKEEPING

§ 31.51 Wholesale dealers making retail sales.

A wholesale dealer in liquors who sells, or offers for sale, distilled spirits, wines, or beer, and a wholesale dealer in beer who sells, or offers for sale, only beer, whether to dealers or to persons other than dealers, at any place where the wholesale dealer in liquors or beer has appropriately registered under this part, is exempt from registration at that place as a retail dealer in liquors or in beer.

§ 31.52 Wholesale dealers in liquors consummating sales of wines or beer at premises of other dealers.

(a) *Sales of wines.* Any wholesale dealer in liquors (including the proprietor of a bonded wine cellar) who has registered as a wholesale dealer in liquors for the place from which that dealer conducts selling operations may consummate sales of wines to other wholesale or retail dealers in liquors, or to limited retail dealers, at the purchasers' places of business without having to register again as a wholesale dealer on account of those sales.

(b) *Sales of beer.* Any wholesale dealer in liquors who has already registered as such may also consummate sales of beer to wholesale or retail dealers in beer, to wholesale or retail dealers in liquors, or to limited retail dealers, at the purchasers' place of business without having to register again as a wholesale dealer on account of those sales.

§ 31.53 Wholesale dealers in beer consummating sales at premises of other dealers.

PERSONS WHO ARE NOT DEALERS IN LIQUORS OR BEER

§ 31.61 Single sale of liquors or warehouse receipts.

A single sale of distilled spirits, wines, or beer, or a single sale of one or more warehouse receipts for distilled spirits, unattended by circumstances showing the person making the sale to be engaged in that activity as a business, does not subject the vendor to the

registration and other requirements of this part.

(26 U.S.C. 5121, 5122)

§ 31.62 Persons making casual sales.

Certain persons making casual sales of liquors are not dealers for purposes of this part and therefore are not required to register, keep records, or submit a report as required of dealers under this part. These persons are:

§ 31.63 Agents, auctioneers, brokers, etc., acting on behalf of others.

Certain persons may sell liquors as agents or employees of others (principals), or may receive and transmit orders therefor to a dealer, without being considered a dealer on account of those activities. Those persons, who have no property rights in the liquors sold, may make collections for their principals and receive commissions for their services, or may guarantee the payment of accounts, without being required to register or keep records under this part. In all such cases, however, the principal is required to register and keep records, as provided in this part, at each place where sales are consummated, unless the principal is exempt from those requirements under the provisions of this subpart. The persons covered by this section are:

(a) Auctioneers who merely sell liquors at auction on behalf of others;

(b) Agents or brokers who solicit orders for liquors in the name of a principal, but who neither stock nor deliver the liquors for which orders are taken;

(c) Employees who merely sell liquors on behalf of their employers; and

(d) Retail dealers in liquors or retail dealers in beer who merely receive and transmit to a wholesale dealer orders for liquors or beer to be billed, charged, and shipped to customers by such wholesale dealers.

§ 31.64 Apothecaries or druggists selling medicines and tinctures.

Apothecaries and druggists who use wines or spirituous liquors for compounding medicines and in making tinctures that are unfit for use for beverage purposes are not considered to be dealers by reason of the sale of those compounds or tinctures for nonbeverage purposes.

(26 U.S.C. 5002)

§ 31.65 Persons selling products unfit for beverage use.

(a) *Vendors not deemed to be dealers.* No person selling or offering for sale for nonbeverage purposes products qualifying as unfit for use for beverage purposes under § 19.58 of this chapter shall be deemed, solely by reason of such sales, to be a dealer.

(b) *Restrictions.* Any person who sells or offers for sale any nonbeverage products for use, or for sale for use, for beverage purposes, or who sells any of such products under circumstances in which it might reasonably appear that it is the intention of the purchaser to procure the product for sale or use for beverage purposes, must register and keep records as required under this part as a wholesale dealer in liquors, retail dealer in liquors, wholesale dealer in beer, or retail dealer in beer, as appropriate.

§ 31.66 Retail dealer selling entire stock in liquidation.

No retail dealer in liquors or retail dealer in beer shall be deemed to be a wholesale dealer in liquors or a wholesale dealer in beer by virtue of selling in liquidation that dealer's entire

stock of liquors in one parcel, or in parcels, each of which embraces not less than the entire stock of distilled spirits, of wines, or of beer, which parcels may contain a combination of any or all such liquors, to any other dealer. A retail dealer making such sale or sales is not required to register or to keep records or submit reports of those sales.

§ 31.67 Persons returning liquors for credit, refund, or exchange.

No retail dealer in liquors or retail dealer in beer, or other person, shall be deemed to be a wholesale dealer in liquors or a wholesale dealer in beer by virtue of a bona fide return of distilled spirits, wines, or beer to the dealer from whom the distilled spirits, wines, or beer were purchased (or to the successor of such vendor's business or line of merchandise) for credit, refund, or exchange; and the giving of such credit, refund or exchange shall not be deemed to be a purchase within the meaning of § 31.141 of this part. Except in the case of wholesale dealers in liquors required to keep records of their transactions under §§ 31.155 and 31.156, or retail dealers required to keep records under § 31.171, persons returning liquors as provided in this section are not required to keep records or submit reports of such transactions.

Subpart E—Places Subject to Registration

§ 31.71 Registration required at each place of business.

Except as otherwise provided in § 31.43 and in subpart D of this part, registration is required under this part for each and every place where distilled spirits, wines, or beer are sold or offered for sale. No person may engage in any business for which registration is required until the place of business has been registered in accordance with this part.

§ 31.72 Place of sale.

For purposes of this part, the place at which ownership of liquors is transferred, actually or constructively, is the place of sale.

§ 31.73 Place of offering for sale.

Liquors are considered to be offered for sale at the place where they are kept for sale and where a sale could take place, and at any place where sales are in fact consummated. Liquors are not considered to be offered for sale by sending an agent out to take orders, or by establishing an office for the mere purpose of taking orders, so long as in each case the orders received are transmitted to the principal for acceptance at the place where that principal has registered under this part or where the principal is exempt from registration as provided in subpart D of this part.

§ 31.74 Places of storage; deliveries therefrom.

Registration is not required under this part for warehouses and similar places that are used by dealers merely for the storage of liquors and that are not places where orders for liquors are accepted. When orders for liquors are received and duly accepted at a place that the dealer has registered under this part, the subsequent actual delivery of the liquors from a place of storage does not require registration at that place of storage. Except as otherwise provided in §§ 31.52 and 31.53, a dealer who registered a given place, and who makes actual delivery of liquors from a warehouse at another place, must register for the place where ownership of the liquors is transferred if there was no prior constructive delivery by the acceptance of an order for the liquors at the place covered by the existing registration.

§ 31.75 Dealer in beer and dealer in liquors at the same location.

Any person who registers as a wholesale dealer in beer or retail dealer in beer and who thereafter begins to sell distilled spirits or wine must also register as a wholesale dealer in liquors or retail dealer in liquors before commencing the sale, or offering for sale, of distilled spirits or wine.

(26 U.S.C. 5124)

SALES IN TWO OR MORE AREAS ON THE SAME PREMISES

§ 31.81 General.

When liquors are sold by a proprietor in two or more areas within the proprietor's place of business, only one registration is required under this part. When the proprietor leases to another person or persons the privilege of selling liquors in two or more areas within the proprietor's place of business, whether the privilege is exercised separately or simultaneously with the proprietor or another concessionaire, each lessee is required to register only once.

§ 31.82 Hotels.

The proprietor of a hotel who conducts the sale of liquors throughout the hotel premises is only required to register under this part for one place. For example, different areas operated by the proprietor in the hotel, such as banquet rooms, meeting rooms, and guest rooms, collectively constitute a single place of business. When a concessionaire conducts the sale of liquors at two or more areas in a hotel, those areas are regarded as a single place of business, and the concessionaire is required to register only once.

§ 31.83 Ball park, race track, etc.; sales throughout the premises.

The proprietor of a ball park, race track, stadium, pavilion, or other similar enclosure constituting one premises, who engages in the business of selling liquors throughout that enclosure, including sales from baskets or containers by employees on the proprietor's behalf, is required to register only once for the entire enclosure. Each concessionaire having the same privilege throughout the enclosure, whether the privilege is exercised separately or simultaneously with the proprietor or another concessionaire, is required to register only once for the entire enclosure.

SALES IN MULTIPLE LOCATIONS

§ 31.91 Passenger trains, aircraft, and vessels.

Persons who carry on the business of a retail dealer in liquors or of a retail dealer in beer on trains, aircraft, boats, or other conveyances engaged in the business of carrying passengers may conduct that business throughout the passenger carrying train, aircraft, boat, or other vessel, after filing only one registration under this part. Such persons must specify on the registration form the number of passenger carriers for which registration is being completed.

§ 31.92 Carriers not engaged in passenger service.

Except as otherwise provided in § 31.93, the retailing of liquors on any train, aircraft, boat, or other conveyance that is not engaged in the business of carrying passengers is prohibited.

§ 31.93 Supply boats or vessels.

Persons may carry on the business of a retail dealer in liquor or of a retail dealer in beer on supply boats or vessels operated by them when those persons operate from a fixed address in a port or harbor and supply exclusively boats or other vessels, or persons thereon, at that port or harbor. Such persons must specify, on an attachment to the registration form, the following: that the business will consist of supplying exclusively boats, vessels, or persons thereon; the name of the port or harbor at which the business is to be carried on; and the fixed address from which operations are to be conducted. When such sales are to be made from two or more supply boats or vessels, the dealer must also specify on the attachment the number of supply boats or vessels for which registration is being made. If the dealer operates from two or more fixed addresses, the dealer must prepare one registration form covering all of those addresses and must include on the attachment to the registration form the number of supply boats or vessels operating from each address.

§ 31.94 Retail dealers "At Large."

A retail dealer in liquors or a retail dealer in beer whose business requires the dealer to travel from place to place, such as a dealer who sells at carnivals or circuses, must register ''At Large'' covering the dealer's activities throughout the United States by filing

only one registration. A dealer submitting such a registration must state on the registration form, or on an attachment thereto, the nature of the dealer's business and the reason the dealer requires registration ''At Large.''

§ 31.95 Caterers.

(a) *General.* When a contract to furnish liquors is made by a caterer at a place of business for which the caterer has registered under this part, no additional registration is required by virtue of the serving of the liquors at a different location.

(b) *Additional registration.* When the contract of a caterer provides for the sale of liquors by the drink at a place, or simultaneously at different places, other than the place of business for which the caterer has registered under this part, a separate registration is required for each such place if the caterer does not keep the records specified in paragraph (c) of this section.

(c) *Records.* Caterers must maintain sufficient commercial records to identify all locations where activities subject to registration occur. These commercial records must indicate the names and addresses of locations where alcoholic beverages have been sold or offered for sale and the dates and times that those activities occurred. These commercial records must be available to an appropriate TTB officer upon request.

(26 U.S.C. 5121, 5122)

§ 31.96 Peddling.

No person shall peddle distilled spirits, wines, or beer, except in the circumstances described in §§ 31.52, 31.53, and 31.93. Persons peddling liquors to whom §§ 31.52, 31.53, and 31.93 do not apply are required to register at each place where sales are consummated.

Subpart F—Partnerships

§ 31.101 Registration of partners.

Any number of persons carrying on one business in partnership at any one place must register only once for that business.

§ 31.102 Addition of partners or incorporation of partnership.

Subpart G—Registration Form, TTB F 5630.5d

§ 31.111 Date registration form is due.

(a) *General.* Dealers must register by filing the registration form, TTB Form 5630.5d, before engaging in business and on or before July 1 of each year thereafter. However, as long as none of the information specified on the form has changed since the previous registration form was filed, no additional registration is required. If the registration form is received in the mail and the U.S. postmark on the cover shows that it was deposited in the mail in the United States within the time prescribed for filing in an envelope or other appropriate wrapper that was properly addressed with postage prepaid, the form will be considered as timely filed. If the postmark is not legible, the sender has the burden of proving the date when the postmark was made. When registered mail is used,

the date of postal registration will be accepted as the postmark date.

(b) *Transition rule.* Dealers already engaged in business prior to July 1, 2008, must register as an ''existing business'' unless they had registered, in accordance with regulations in effect at the time of registration, on or after January 1, 2007. This one-time registration is due on or before July 1, 2009.

(26 U.S.C. 6071)

§ 31.112 Registration of multiple locations.

A dealer required to register at two or more locations shall file one registration form, prepared as provided in § 31.114(c), to cover all such locations.

(1) The true name of the dealer.

(2) The trade name(s) (if any) of the business(es) subject to the registration requirement.

(3) The employer identification number (see § 31.115).

(4) The mailing address of the dealer's principal place of business (or principal office, in the case of a corporate dealer).

(5) The exact location of each place of business, by name and number of building or street, or if these do not exist, by some specific description in addition to the post office address.

(6) The business telephone number of each place of business.

(7) The class(es) of dealer in which the dealer operates a business.

(8) Ownership and control information. This consists of the name, position, and residence address of every owner of the business and of every person having power to control its management and policies with respect to the activity subject to registration. ''Owner of the business'' includes every partner, if the dealer is a partnership, and every person owning 10 percent or more of its stock, if the dealer is a corporation. However, the ownership and control information required by this paragraph need not be stated if the same information has been previously provided to TTB and that previously provided information is still current.

(c) *Multiple locations and/or classes of dealers.* A dealer required to register at more than one location or for more than one class of dealers must—

(1) File one registration form, TTB Form 5630.5d, to cover all locations and classes of dealers; and

The original of the list must be filed with TTB on or with the registration form, and a copy must be retained at the dealer's principal place of business (or principal office, in the case of a corporate dealer) for the period specified in § 31.191.

(26 U.S.C. 7805)

§ 31.115 Employer identification number.

(a) *Requirement.* The employer identification number (as defined in 26 CFR 301.7701–12) of a dealer who has been assigned such a number must be shown on each registration form filed under this part. A dealer who does not have such a number must apply for one as provided in paragraph (b) of this section and enter ''number applied for'' in the space for the number on the registration form; then, upon receipt of the number from the Internal Revenue Service, the dealer must provide it to TTB by separate correspondence. Failure of a dealer to include the employer identification number may result in

the imposition of the penalty specified in § 31.14(b).

(b) *Application for employer identification number.* Each dealer who files a registration form and who has not already been assigned an employer identification number must file Internal Revenue Service (IRS) Form SS–4 to apply for one. The dealer shall apply for and be assigned only one employer identification number, regardless of the number of places of business for which the dealer is required to file a registration form under this part. The employer identification number shall be applied for no later than 7 days after the filing of the taxpayer's first registration form. IRS Form SS–4 may be obtained from the director of an IRS service center, from any IRS district director, from *http://www.irs.gov/,* or from TTB's National Revenue Center.

The person signing the registration form must identify his or her signing capacity as ''individual owner,'' ''member of firm,'' ''agent,'' or ''attorney-in-fact,'' as appropriate, or, in the case of a corporation, by the title of the signing officer. A receiver, trustee, assignee, executor, administrator, or other legal representative who continues the business of a dealer by reason of death, insolvency, or other circumstance must indicate the fiduciary capacity in which he or she acts. Registration forms signed by persons as agents or attorneys-in-fact will not be accepted unless, in each instance, the principal named on the form has executed a power of attorney authorizing that person to sign and that power of attorney is filed with the TTB officer with whom the TTB Form 5630.5d is required to be filed. Form 5630.5d must be verified by a written declaration that it has been executed under the penalties of perjury.

(1) Daily totals of all bottled spirits received and disposed of, recorded by wine gallons or liters;

(2) Daily totals of all bulk spirits in packages received and disposed of, recorded by proof gallons; and

(3) Entries showing, by date, each disposition caused by an inventory, casualty, or theft loss and each receipt caused by a recorded gain in inventory.

(c) *Declaration.* When required to be filed, the monthly summary report must bear the following declaration signed by the dealer or an authorized agent:

> I declare under the penalties of perjury that I have examined this report and, to the best of my knowledge and belief, it is true, correct, and complete and is supported by true, correct, and complete records which are available for inspection.

(d) *Other records.* Even if the monthly summary report is not required by the appropriate TTB officer, every wholesale dealer in distilled spirits must maintain and make available for review by appropriate TTB officers:

(1) Records of receipt required by § 31.155;

(2) Records of disposition, required by § 31.156; and

(3) Any other supporting information or documents regarding the receipt and disposition of distilled spirits that have a direct role in determining the completeness and accuracy of the receipt and disposition records.

§ 31.161 Conversion between metric and U.S. units.

When liters are converted to wine gallons, the quantity in liters must be multiplied by 0.264172 to determine the equivalent quantity in wine gallons. Once converted to wine gallons, the proof gallons of spirits in cases must be determined as provided in § 30.52 of this chapter. Cases containing the same quantity of spirits of the same proof in metric bottles may be converted to U.S. units by multiplying the liters in one case by the number of cases to be converted, as follows:

(a) If the conversion from liters to U.S. units is made before multiplying by the number of cases, the quantity in U.S. units must be rounded to the sixth decimal; and

(b) If the conversion is made after multiplying by the number of cases, the quantity in U.S. units must be rounded to the nearest hundredth.

(26 U.S.C. 7805; 27 U.S.C. 205)

§ 31.162 Discontinuance of business.

When a wholesale dealer in liquors who is required, under § 31.160, to file a monthly summary report discontinues business, a monthly summary report marked ''Final'' must be filed covering transactions through the date of discontinuance.

(26 U.S.C. 5121)

§ 31.163 Requirements when a wholesale dealer in liquors maintains a retail department.

(a) *Constructive receipt and sale.* When a wholesale dealer in liquors maintains a separate department on the premises for the retailing of distilled spirits, and the retail sales of distilled spirits normally represent 90 percent or more of the volume of distilled spirits sold, the dealer may ''constructively'' receive all distilled spirits in the retail department. Sales involving a wholesale transaction may be ''constructively'' sold through the wholesale department.

(1) *Receipts.* In lieu of maintaining and preparing the records required by § 31.155, a wholesale dealer may constructively receive all distilled spirits in its retail department. In this case, the receiving document will serve as a receipt for (through) the wholesale department and a disposition (transfer) to the retail department. The receiving document must be maintained by the retail department in accordance with § 31.171.

(2) *Dispositions.* In lieu of maintaining and preparing the records required by § 31.156, a wholesale dealer may constructively sell distilled spirits from its retail department to other dealers. The sales invoice or bill must be filed in the wholesaler's disposition records and will serve as a record of receipt from the retail department and a record of disposition to another dealer.

(b) *Receipt and disposition records.* Except as provided in paragraph (a) of this section, a wholesale dealer must prepare and maintain the required records of receipt and disposition as prescribed in §§ 31.155 and 31.156. Transfers between the wholesale and retail departments will be treated in the same manner as any other transaction involving the wholesale department.

(c) *Monthly summary report.* When required by § 31.160, a wholesale dealer must prepare and file the monthly summary report of actual or constructive receipts and dispositions of all distilled spirits.

(d) *Physical separation.* Wholesale and retail departments need not be physically separated.

(26 U.S.C. 5121)

Filing of Wholesale Dealers' Records and Reports

§ 31.171 Method of filing.

A wholesale dealer may file the records of receipt and disposition required by §§ 31.155 and 31.156 in accordance with the wholesaler's regular accounting and recordkeeping systems. The required records must include the dealer's own file copies of the receiving or shipping invoices and must be filed according to the following rules:

(a) Wholesale dealers may file records of receipt and disposition in accordance with their own filing system as long as the records are filed by transaction or reporting date and the filing system systematically and accurately accounts for all receipts and dispositions of distilled spirits.

(b) The required records of receipt and disposition must be filed not later than one business day following the date the transaction occurred.

(c) Supporting documents for receipts and dispositions, such as delivery receipts and bills of lading, also may be filed in accordance with the wholesaler's regular accounting and recordkeeping practices.

(26 U.S.C. 5121, 5122, 5123)

§ 31.172 Place of filing.

Records of receipt and disposition and monthly summary reports required by §§ 31.155, 31.156, and 31.160 must be maintained at the dealer's place of business. The appropriate TTB officer may, upon request, authorize maintenance of files, or an individual file, at another business location under the control of the same wholesale dealer, when it is determined that such maintenance will not cause undue inconvenience to TTB officers desiring to examine those files.

(26 U.S.C. 5123)

Retail Dealer's Records

§ 31.181 Requirements for retail dealers.

(a) *Records of receipt.* All retail dealers must keep at their place of business complete records showing the quantities of all distilled spirits, wines, and beer received, from whom the distilled spirits, wines, and beer were received, and the dates of receipt. However, the appropriate TTB officer may, upon request, authorize the maintenance of records at another business premises also under the control of the same retail dealer when it is determined that such maintenance will not cause undue inconvenience to TTB officers desiring to examine those records. Records of receipts shall consist of all purchase invoices or bills covering distilled spirits, wines, and beer received, or, at the option of the retail dealer, a book record containing all of the required information.

(b) *Records of sales of 20 wine gallons (75.7 liters) or more.* Every retail dealer who makes sales of distilled spirits, of wines, or of beer in quantities of 20 wine gallons (75.7 liters) or more to the same person at the same time must prepare and keep a record of each sale. The record must show the date of sale, the name and address of the purchaser, the kind and quantity of each kind of liquors sold, and the serial numbers of all full cases of distilled spirits included in the sale. Each entry on that record must be supported by a corresponding delivery receipt (which may be executed on a copy of the sales slip) signed by the purchaser or the purchaser's agent.

In addition, the appropriate TTB officer may require retention of the documents and other records for an additional period of not more than three years if it is determined that such additional retention is necessary.

(26 U.S.C. 5123)

§ 31.192 Photographic copies of records.

(a) *General.* Dealers may record, copy, or reproduce records required by this part. Dealers may use any process that accurately reproduces the original record and that forms a durable medium for preserving the original record.

(b) *Copies of records treated as original records.* Whenever records are reproduced under this section, the reproduced records must be preserved in conveniently accessible files, and provision must be made for examining, viewing, and using the reproduced record in the same manner as if it were the original record. A reproduced record will be treated and considered for all purposes as though it were the original record. All provisions of law

and regulations applicable to the original record are applicable to the reproduced record. As used in this section, ''original record'' means the record required by this part to be maintained or preserved by a dealer, even though it may be an executed duplicate or other copy of the document.
