APPENDIX E TO PART 61—UNITED STATES MARSHALS SERVICE PROCEDURES RELATING TO THE IMPLEMENTATION OF THE NATIONAL ENVIRONMENTAL POLICY ACT

1. AUTHORITY

2. PURPOSE

These provisions supplement existing DOJ and CEQ regulations and outline internal USMS procedures to ensure compliance with NEPA. Through these provisions, the USMS shall promote the environment by minimizing the use of natural resources, and by improving planning and decision-making processes to avoid excess pollution and environmental degradation.

The USMS’ Environmental Assessments (EAs) and Environmental Impact Statements (EISs) shall be as concise as possible and EISs should be limited to approximately 150 pages in normal circumstances or 300 pages for proposals of unusual scope or complexity. The USMS shall, whenever possible, jointly prepare documents with State and local governments and, when appropriate, avoid duplicative work by adopting, or incorporating by reference, existing USMS and other agencies’ analyses and documentation.

In developing an EA or EIS, the USMS shall comply with CEQ regulations, observing that EAs and EISs should (1) be analytic, rather than encyclopedic, (2) be written in plain language, (3) follow a clear, standard format in accordance with CEQ regulations, (4) follow a scoping process to distinguish the significant issues from the insignificant issues, (5) include a brief summary, (6) emphasize the more useful sections of the document, such as the discussions of alternatives and their environmental consequences, while minimizing the discussion of less useful background information, (7) scrutinize existing NEPA documentation for relevant analyses of programs, policies, or other proposals that guide future action to eliminate repetition, (8) where appropriate, incorporate material by reference, with citations and brief descriptions, to avoid excessive length, and (9) integrate NEPA requirements with other environmental review and consultation requirements mandated by law, Executive Order, Department of Justice policy, or USMS policy. When preparing an EA or EIS, the USMS shall request comments to be as specific as possible.

To ensure compliance with NEPA, the USMS shall make efforts to prevent and reduce delay. The USMS will follow the procedures outlined in the CEQ regulations including, (1) Integrating the NEPA process in the early stages of planning to ensure that decisions reflect environmental values, and to head off potential conflicts and/or delays, (2) emphasizing inter-agency cooperation before the environmental analysis and documentation is prepared, (3) ensuring the swift and fair resolution of any dispute over the designation of the lead agency, (4) employing the scoping process to distinguish the significant issues requiring consideration in the NEPA analysis, (5) setting deadlines for the NEPA process as appropriate for individual proposed actions, (6) initiating the NEPA analysis as early as possible to coincide with the agency’s consideration of a proposal by another party, and (7) using accelerated procedures, as described in the CEQ regulations, for legislative proposals.
