APPENDIX C TO SUBPART L OF PART 1910—FIRE PROTECTION REFERENCES FOR FURTHER INFORMATION

I. Appendix general references. The following references provide information which may be helpful in understanding the requirements contained in all of the sections of subpart L:

C. Various associations also publish information which may be useful in understanding these standards. Examples of these associations are: Fire Equipment Manufacturers Association (PEMA) of Arlington, VA 22204 and the National Association of Fire Equipment Distributors (NAFED) of Chicago, IL 60601.

II. Appendix references applicable to individual sections. The following references are grouped according to individual sections contained in subpart L. These references provide information which may be helpful in understanding and implementing the standards of each section of subpart L:

A. §1910.156. Fire brigades:

B. 1910.165

1. ANSI/NFPA No. 72A, Local Protective Signaling Systems.

2. ANSI/NFPA No. 72B, Auxiliary Protective Signaling Systems.

C. Various associations also publish infor-

mation which may be useful in understand-

ing and implementing the standards con-

tained in all of the sections of subpart L. These references provide information which may be helpful in understanding the requirements contained in all of the sections of subpart L.

4. Protective Clothing for Structural Fire Fighting, ANSI/NFPA 1971:

12. A Study of Facepiece Leakage of Self-Contained Breathing Apparatus by DOP Man Tests; Los Alamos Scientific Laboratory, Los Alamos, NM.

17. Project Monoxide—A Medical Study of an Occupational Hazard of Fire Fighters; International Association of Fire Fighters, Washington, DC.

Occupational Safety and Health Admin., Labor

Pt. 1910, Subpt. L, App. C

B. §1910.157. Portable fire extinguishers:
6. ANSI/NFPA 70; National Fire Protection Association, Batterymarch Park, Quincy, MA 02269.
C. §1910.158. Standpipe and hose systems:
7. Standard for the Cure of Fire Hose, NFPA 198; National Fire Protection Association, Battery March Park, Quincy, MA 02269.
D. §1910.159. Automatic sprinkler systems:
E. §1910.160. Fixed extinguishing systems—general information:
F. §1910.161. Fixed extinguishing systems—dry chemical:
APPENDIX D TO SUBPART L OF PART 1910—AVAILABILITY OF PUBLICATIONS INCORPORATED BY REFERENCE IN SECTION 1910.156 FIRE BRIGADES

The final standard for fire brigades, section 1910.156, contains provisions which incorporate certain publications by reference. The publications provide criteria and test methods for protective clothing worn by those fire brigade members who are expected to perform interior structural fire fighting. The standard references the publications as the chief sources of information for determining if the protective clothing affords the required level of protection.

It is appropriate to note that the final standard does not require employers to purchase a copy of the referenced publications. Instead, employers can specify (in purchase orders to the manufacturers) that the protective clothing meet the criteria and test methods contained in the referenced publications and can rely on the manufacturers’ assurances of compliance. Employers, however, may desire to obtain a copy of the referenced publications for their own information.

The paragraph designation of the standard where the referenced publications appear, the title of the publications, and the availability of the publications are as follows:
