§ 1952.213 Compliance staffing benchmarks.

Under the terms of the 1978 Court Order in AFL-CIO v. Marshall compliance staffing levels (benchmarks) necessary for a “fully effective” enforcement program were required to be established for each State operating an approved State plan. § 1952.214 Final approval determination.

(a) In accordance with section 18(e) of the Act and procedures in 29 CFR part 1902, and after determination that the State met the "fully effective" compliance staffing benchmarks as revised in 1984 in response to a Court Order in AFL-CIO v. Marshall (CA 74–406), and was satisfactorily providing reports to OSHA through participation in the Federal-State Unified Management Information System, the Assistant Secretary evaluated actual operations under the Maryland State plan for a period of at least one year following certification of completion of developmental steps (45 FR 10335). Based on the 18(e) Evaluation Report for the period of October 1982 through March 1984, and after opportunity for public comment, the Assistant Secretary determined that in operation the State of Maryland’s occupational safety and health program is at least as effective as operations under the Federal program; to submit plan supplements in accordance with 29 CFR part 1903; to allocate sufficient safety and health enforcement staff to meet the benchmarks for State staffing established by the U.S. Department of Labor, or any revisions to those benchmarks; and, to furnish such reports in such form as the Assistant Secretary may from time to time require.

(b) Except as otherwise noted, the plan which has received final approval covers all activities of employers and places of employment and meets the criteria for final State plan approval in section 18(e) of the Act and implementing regulations at 29 CFR part 1902. Accordingly, the Maryland plan was granted final approval and concurrent Federal enforcement authority was relinquished under section 18(e) of the Act effective July 18, 1985.

(b)(1) In accordance with section 18(e), final approval relinquishes Federal OSHA authority only with regard to occupational safety and health issues covered by the Maryland plan. OSHA retains full authority over issues which are not subject to State enforcement under the plan. Thus, Federal OSHA retains its authority relative to safety and health in private sector maritime activities and will continue to enforce all provisions of the Act.
