Subpart R—Alaska

§ 1952.240  Description of the plan as initially approved.

(a) The Department of Labor is the State agency designated by the Governor to administer the plan throughout the State. The plan defines the covered occupational safety and health issues as defined by the Secretary of Labor in §1902.2(c)(1) of this chapter under four major codes for general safety, industrial housing, electrical hazards, and occupational health and environmental controls. The plan also includes vertical special industry codes for construction, wood products, petroleum, and fishing. Appendix G of the plan contains a time-table for adoption of the standards beginning with the effective date of the grant approved under section 23(g) of the Act. The timetable requires from 6 to 36 months for completion of the standard-setting process with most of the standards to be adopted within 6 months of the effective date of the grant.

(b)(1) The plan included draft legislation which has been passed by the State legislature and signed by the Governor amending chapter 18 of the Alaska Statutes. Under the legislation, effective July 24, 1973, the Department of Labor has full authority to enforce and administer laws respecting safety and health of employees in all workplaces of the State, including coverage of public employees, with the exceptions of maritime workers in the area.
