Ocean Energy Bureau, Interior

and recordkeeping as necessary to determine compliance with the applicable documents incorporated by reference and the regulations under this part.

§ 285.711 [Reserved]

§ 285.712 What are the CVA’s or project engineer’s reporting requirements?

(a) The CVA or project engineer must prepare and submit to you and MMS all reports required by this subpart. The CVA or project engineer must also submit interim reports to you and MMS, as requested by the MMS.

(b) For each report required by this subpart, the CVA or project engineer must submit one electronic copy and one paper copy of each final report to MMS. In each report, the CVA or project engineer must:

(1) Give details of how, by whom, and when the CVA or project engineer activities were conducted;

(2) Describe the CVA’s or project engineer’s activities during the verification process;

(3) Summarize the CVA’s or project engineer’s findings; and

(4) Provide any additional comments that the CVA or project engineer deems necessary.

§ 285.713 What must I do after the CVA or project engineer confirms conformance with the Fabrication and Installation Report on my commercial lease?

After the CVA or project engineer files the certification report, you must notify MMS within 10 business days after commencing commercial operations.

§ 285.714 What records relating to SAPs, COPs, and GAPs must I keep?

(a) Until MMS releases your financial assurance under §285.534, you must compile, retain, and make available to MMS representatives, within the time specified by MMS, all of the following:

(1) The as-built drawings;

(2) The design assumptions and analyses;

(3) A summary of the fabrication and installation examination records;

(4) The inspection results from the inspections and assessments required by §§285.820 through 285.825; and

(5) Records of repairs not covered in the inspection report submitted under §285.824(b)(3).

(b) You must record and retain the original material test results of all primary structural materials during all stages of construction until MMS releases your financial assurance under §285.534. Primary material is material that, should it fail, would lead to a significant reduction in facility safety, structural reliability, or operating capabilities. Items such as steel brackets, deck stiffeners and secondary braces or beams would not generally be considered primary structural members (or materials).

(c) You must provide MMS with the location of these records in the certification statement, as required in §§285.701(c), 285.703(b), and 285.708(a)(5)(i).

Subpart H—Environmental and Safety Management, Inspections, and Facility Assessments for Activities Conducted Under SAPs, COPs and GAPs

§ 285.800 How must I conduct my activities to comply with safety and environmental requirements?

(a) You must conduct all activities on your lease or grant under this part in a manner that conforms with your responsibilities in §285.105(a), and using:

(1) Trained personnel; and

(2) Technologies, precautions, and techniques that will not cause undue harm or damage to natural resources, including their physical, atmospheric, and biological components.

(b) You must certify compliance with those terms and conditions identified in your approved SAP, COP, or GAP, as required under §§285.615(c), 285.633(b), or 285.653(c).

§ 285.801 How must I conduct my approved activities to protect marine mammals, threatened and endangered species, and designated critical habitat?

(a) You must not conduct any activity under your lease or grant that may affect threatened or endangered species or that may affect designated critical
