(e) Each fire hydrant or standpipe must have at least one length of hose of sufficient length to meet paragraph (a) of this section.
(f) Each length of hose must—
   (1) Be 1½ inches or more in diameter and 30.5 meters (100 feet) or less in length;
   (2) Be on a hose rack or reel;
   (3) Be connected to the hydrant or standpipe at all times; and
   (4) Have a Coast Guard approved combination solid stream and water spray fire hose nozzle.

§ 127.609 Dry chemical systems.

(a) Each marine transfer area for LNG must have a dry chemical system that provides at least two dry chemical discharges to the area surrounding the loading arms, one of which must be—
   (1) From a monitor; and
   (2) Actuated and, except for pre-aimed monitors, controlled from a location other than the monitor location.
(b) The dry chemical system must have the capacity to supply simultaneously or sequentially each hose or monitor in the system for 45 seconds.
(c) Each dry chemical hose station must have at least one length of hose that—
   (1) Is on a hose rack or reel; and
   (2) Has a nozzle with a valve that starts and stops the flow of dry chemical.

§ 127.611 International shore connection.

The marine transfer area for LNG must have an international shore connection that is in accordance with ASTM F 1121 (incorporated by reference, see §127.003), a 2½ inch fire hydrant, and 2½ inch fire hose of sufficient length to connect the fire hydrant to the international shore connection on the vessel.

§ 127.613 Smoking.

In the marine transfer area for LNG, the operator shall ensure that no person smokes when there is LNG present.

§ 127.615 Fires.

In the marine transfer area for LNG, the operator shall ensure that there are no fires when there is LNG present.

§ 127.617 Hotwork.

The operator shall ensure that no person conducts welding, torch cutting, or other hotwork unless that person has a permit from the COTP.

§ 127.701 Security on existing facilities.

The operator shall ensure that any security procedure and arrangement on existing facilities, that were in use when LNG transfer operations were last conducted, be continued and maintained, or upgraded, whenever LNG transfer operations are conducted.

§ 127.703 Access to the marine transfer area for LNG.

The operator shall ensure that—
(a) Access to the marine transfer area for LNG from the shoreside and the waterside is limited to—
   (1) Personnel who work at the waterfront facility handling LNG including persons assigned for transfer operations, vessel personnel, and delivery and service personnel in the course of their business;
   (2) Coast Guard personnel; and
   (3) Other persons authorized by the operator; and
(b) No person is allowed into the marine transfer area for LNG unless that person is identified by a waterfront facility handling LNG-issued identification card or other identification card displaying his or her photograph, or is
