§ 150.501 How must emergency equipment be maintained and repaired?

This subpart concerns requirements for maintenance, repair, and operational testing of emergency and specialty equipment at a deepwater port.

§ 150.500 What does this subpart do?

All lifesaving, firefighting, and other emergency equipment at a deepwater port, including additional equipment not required to be on board the deepwater port, must be maintained in good working order and repaired according to the port’s planned maintenance program and the requirements outlined in this subpart.
