§ 3.1

3.18 May I snorkel or underwater dive in park waters?
3.19 May I operate a submersible within park waters?

Authority: 16 U.S.C. 1, 1a–2(h), 3.

Source: 72 FR 13702, Mar. 23, 2007, unless otherwise noted.

§ 3.1 What is the applicability and scope of this part?

The applicability of the regulations in this part is described in § 1.2 of this chapter.

§ 3.2 Do other boating laws and regulations apply to me when I operate my boat on park waters?

(a) In addition to the regulations contained in this part, the NPS adopts applicable laws and regulations of the United States Coast Guard. The USCG laws and regulations are found in Title 14 United States Code, Title 33 United States Code, Title 46 United States Code, and 33 CFR chapter I, 46 CFR chapter I and III, and 49 CFR chapter IV. NPS applies the adopted laws and regulations to vessels and their operation on all waters (navigable and non-navigable) subject to NPS jurisdiction. Therefore, Federal regulations authorizing an action by the “captain of the port” or another officer or employee of the United States Coast Guard, authorize a like action by the superintendent.

(b) Except to the extent that directives of the United States Coast Guard have expressly or implicitly preempted inconsistent state laws and regulations or as otherwise provided by subsection (a), vessels and their operation on all waters subject to NPS jurisdiction are governed by non-conflicting boating safety laws and regulations of the State within whose interior boundaries a park area or portion thereof is located.

§ 3.3 Am I required to obtain a permit to operate a vessel in a park area?

Generally, you are not required to obtain a permit to operate a vessel in a park area. However, in certain circumstances, taking into consideration public safety, protection of park resources, and weather and park management objectives, the superintendent may require a permit for use of a vessel within a park area, under §§1.5 and 1.7, and will issue permits consistent with §1.6 of this chapter.

§ 3.4 For what purposes may my vessel be inspected?

(a) An authorized person may at any time stop and/or board a vessel to examine documents, licenses or permits relating to operation of the vessel, and to inspect the vessel to determine compliance with regulations pertaining to safety equipment, vessel capacity, marine sanitation devices, and other pollution and noise abatement requirements.

(b) An authorized person who identifies a vessel being operated without sufficient life saving or firefighting devices, in an overloaded or other unsafe condition, as defined in United States Coast Guard regulations, or in violation of a noise level specified in §3.15(a) of this part, may direct the operator to suspend further use of the vessel until the condition is corrected.

§ 3.5 Do I have to report an accident involving a vessel to the National Park Service?

(a) The operator of a vessel involved in an accident must report the accident to the superintendent as soon as practical, but in any event within 24 hours of the accident, if the accident involves:

(1) Total property damage of $2000 or more; or

(2) Injury, or death or disappearance of a person.

(b) If the operator is physically incapable of making the report, the owner or an occupant of the vessel must report the accident to the superintendent.

(c) Filing a report with the superintendent may satisfy applicable United States Coast Guard, State, and local accident reporting requirements. Superintendents will forward the accident report to the appropriate reporting authority in a timely manner that complies with the requirements of 33 CFR 173.55.

§ 3.6 What are the requirements to operate a power driven vessel?

(a) To operate a power-driven vessel on park waters, a person must be either:
