which information is disclosed to prevent multiple enrollments may not redisclose or use patient identifying information for any purpose other than the prevention of multiple enrollments unless authorized by a court order under §§1.490 through 1.499 of this part.

(Authority: 38 U.S.C. 7334)

§ 1.479 Disclosures to elements of the criminal justice system which have referred patients.

(a) VA may disclose information about a patient from records covered by §§1.460 through 1.499 of this part to those persons within the criminal justice system which have made participation in a VA treatment program a condition of the disposition of any criminal proceedings against the patient or of the patient’s parole or other release from custody if:

(1) The disclosure is made only to those individuals within the criminal justice system who have a need for the information in connection with their duty to monitor the patient’s progress (e.g., a prosecuting attorney who is withholding charges against the patient, a court granting pretrial or posttrial release, probation or parole officers responsible for supervision of the patient); and

(2) The patient has signed a written consent as a condition of admission to the treatment program meeting the requirements of §1.475 of this part (except paragraph (a)(8) which is inconsistent with the revocation provisions of paragraph (c) of this section) and the requirements of paragraphs (b) and (c) of this section.

(b) Duration of consent. The written consent must state the period during which it remains in effect. This period must be reasonable, taking into account:

(1) The anticipated length of the treatment recognizing that revocation of consent may not generally be effected while treatment is ongoing;

(2) The type of criminal proceeding involved, the need for the information in connection with the final disposition of that proceeding, and when the final disposition will occur; and

(3) Such other factors as the facility, the patient, and the person(s) who will receive the disclosure consider pertinent.

(c) Revocation of consent. The written consent must state that it is revocable upon the passage of a specified amount of time or the occurrence of a specified, ascertainable event. The time or occurrence upon which consent becomes revocable may be no earlier than the individual’s completion of the treatment program and no later than the final disposition of the conditional release or other action in connection with which consent was given.

(d) Restrictions on redisclosure and use. A person who receives patient information under this section may redisclose and use it only to carry out that person’s official duties with regard to the patient’s conditional release or other action in connection with which the consent was given, including parole.

(Authority: 38 U.S.C. 7334)

§§ 1.480–1.483 [Reserved]

DISCLOSURES WITHOUT PATIENT CONSENT

§ 1.484 Disclosure of medical information to the surrogate of a patient who lacks decision-making capacity.

A VA medical practitioner may disclose the content of any record of the identity, diagnosis, prognosis, or treatment of a patient that is maintained in connection with the performance of any VA program or activity relating to drug abuse, alcoholism or alcohol abuse, infection with the human immunodeficiency virus, or sickle cell anemia to a surrogate of the patient who is the subject of such record if:

(a) The patient lacks decision-making capacity; and

(b) The practitioner deems the content of the given record necessary for the surrogate to make an informed decision regarding the patient’s treatment.

(Authority: 38 U.S.C. 7331, 7332)

[76 FR 6696, Feb. 8, 2011]

§ 1.485 Medical emergencies.

(a) General rule. Under the procedures required by paragraph (c) of this section, patient identifying information from records covered by §§1.460 through
§ 1.485a Eye, organ and tissue donation.

A VHA health care facility may disclose the individually-identified medical record information of an individual covered by §§1.460 through 1.499 of this part to an authorized representative of a procurement organization for the purpose of facilitating determination of whether the individual is a suitable potential organ, eye, or tissue donor if:

(a) The individual is currently an inpatient in a VHA health care facility;

(b) The individual is, in the clinical judgment of the individual’s primary health care provider, near death or deceased;

(c) The VHA health care facility has a signed agreement with the procurement organization in accordance with the applicable requirements of the United States Department of Health and Human Services (HHS); and

(d) The VHA health care facility has confirmed with HHS that it has certified or recertified the organ procurement organization as provided in the applicable HHS regulations. VA medical centers must verify annually in January of each calendar year with the Food and Drug Administration (FDA) that an eye bank or tissue bank has complied with the FDA registration requirements of 21 CFR part 1271 and that the registration status is active before permitting an eye bank or tissue bank to receive protected health information.
